WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portions or units of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the portion or unit of the old right of way which by reason of the relocation of the said section of highway is no longer within the boundaries of the new right of way and which is identified herein as Unit "C" is shown colored in red on the map attached hereto, which is marked Exhibit "A" and by this reference made a part hereof. The location of Unit "C" is more particularly described as follows:

> Beginning at State Highway Engineer's Station 492+25 of the former route of the Pacific Highway in the northwest quarter of the northeast quarter ($NW\frac{1}{4}$-$NE\frac{1}{4}$) of Section 22, Township 36 South, Range 3 West, W. M.; thence easterly

via the former route of the Pacific Highway to State Highway Engineer's Station 420+00 of the former route of the Pacific Highway in the southwest quarter of the southeast quarter (SW¼-SE¼) of Section 23, Township 36 South, Range 3 West, W.M. *

2. That, pursuant to the aforesaid agreement, Unit "C" is hereby declared to be abandoned as a part of the Pacific Highway, and all right, title and interest which the State has in the right of way of Unit "C" hereby passes to and vests in Jackson County.

3. That the portion or unit of the old right of way which by reason of the relocation of said section of highway is no longer within the boundaries of the new right of way and which is identified herein as Unit "A" is shown colored in yellow on the said Exhibit "A". The location of Unit "A" is more particularly described as follows:

Beginning at State Highway Engineer's Station 638+50 of the former route of the Pacific Highway in the northwest quarter of the northwest quarter (NW¼-NW¼) of Section 20, Township 36 South, Range 3 West, W.M.; thence easterly via the former route of the Pacific Highway to State Highway Engineer's Station 514+00 of the former route of the Pacific Highway in the northwest quarter of the northwest quarter (NW¼-NW¼) of Section 22, Township 36 South, Range 3 West, W.M.*

4. That the said Unit "A" shall remain under the jurisdiction and control of the State as a State Secondary Highway and shall henceforth be maintained as an extension or part of the Sam's Valley Secondary Highway, State Highway No. 271.

5. That the portion or unit of the old right of way which by reason of the relocation of the said highway is no longer within the boundaries of the new right of way and which is identified herein as Unit "B" is shown colored in purple on thesaid Exhibit "A". The location of Unit "B" is more particularly described, as follows:

Beginning at State Highway Engineer's Station 514+00 of the former route of the Pacific Highway in the northwest quarter of the northwest quarter (NW¼-NW¼) of Section 22, Township 36 South, Range 3 West, W.M.; thence easterly via the former route of the Pacific Highway to State Highway Engineer's Station 492+25 of the former route of the Pacific Highway in the northwest quarter of the northeast quarter (NW¼-NE¼) of Section 22, Township 36 South, Range 3 West, W.M. *

6. That the said Unit "B" shall remain under the jurisdiction and control of the State and shall henceforth be maintained as a road connection between the Sam's Valley Secondary Highway and the relocated Pacific Highway.

EXHIBIT "L-3" (cont)

7. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said relocated section of highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way and other highway purposes and uses. Therefore, the Commission does hereby declare and order that possession of and title (or other such interest as the State may have) to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State. *

8. That this Abandonment and Retention Resolution No. 284 shall be entered in the minutes and records of the Commission on this 21st day of January, 1954, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Jackson County.

---

* FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 284 under the heading "Abandonment and Retention Resolutions" and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-4"

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Kings Valley Secondary Highway in Polk County known as the Fern Corner-Burns Corner Section, the northerly terminus of which is at Highway Engineer's Station 415+50 on the relocated highway and the southerly terminus of which is at Highway Engineer's Station 316+29.8 on the relocated highway; and

WHEREAS, as a consequence of the relocation of said section of highway, portions or units of the old right of way have been eliminated from the boundaries of the relocated highway and are no longer needed for state highway purposes; and

WHEREAS, the said relocated section has been opened to public travel; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portions or units of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT IS HEREBY RESOLVED, by this Commission as follows:

1. That the portions or units of the old right of way which by reason of the relocation of said section of highway are no longer within the boundaries of the new right of way and which are identified herein as Units "A" and "B" are shown colored in brown on the said Exhibit "A". The locations of Units "A" and "B" aare more particularly described as follows:

Unit "A"

Beginning at State Highway Engineer's Station 356+00 of the relocated route of the Kings Valley Highway in the northwest quarter of the northeast quarter (NW$\frac{1}{4}$ NE$\frac{1}{4}$) of Section 36, Township 8 South, Range 6 West, W.M.; thence northerly via the former route of the Kings Valley Highway to Highway Engineer's Station 362+00 of the relocated route of the Kings Valley Highway in the southwest quarter of the southeast quarter (SW$\frac{1}{4}$ SE$\frac{1}{4}$) of Section 25, Township 8 South, Range 6 West, W.M., Polk County. *

Unit "B"

Beginning at State Highway Engineer's Station 362+75 of the

relocated Kings Valley Secondary in the southwest quarter of the southeast quarter (SW¼ SE¼) of Section 25, Township 8 South, Range 6 West, W.M.; thence northerly via the former route of the Kings Valley Highway to State Highway Engineer's Station 368+25 of the relocated Kings Valley Highway in the southwest quarter of the southwest quarter (SW¼ SW¼) of Section 25, Township 8 South, Range 6 West, W.M., in Polk County. *

2. That the said Units "A" and "B" are not needed for the service of persons living thereon or for any communities served thereby or for any right of way or other public purpose and therefore they shall be and hereby are abandoned as part of the said highway; and all right, title and interest which the State has in the right of way of Units "A" and "B" hereby passes to and vests in the owners of the abutting land.

3. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said relocated section of highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way and other highway purposes and uses. Therefore the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State. *

4. That this Abandonment and Retention resolution No. 286 shall be entered in the minutes and records of the Commission as of this 21st day of January, 1954, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Polk County.

---

*FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 286 under the heading "Abandonment and Retention Resolutions" and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "M"

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, pursuant to ORS 366.205, the State Highway Commission has jurisdiction and control over all State Parks, and,

WHEREAS, pursuant to ORS 366.345 (2) the State Highway Commission may develop, construct, improve, operate, and maintain park facilities in a manner as will best afford the motoring public necessary conveniences and accommodations, and,

WHEREAS, pursuant to ORS 366.350 the State Highway Commission may make regulations and provisions for the use and administration of such facilities, including reasonable charges for the use of accommodations provided in such parks and areas, and,

WHEREAS, for the purpose of maintaining and operating such accommodations for the benefit of the motoring public, it is the judgment of the Commission that reasonable charges should be made;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the Commission does hereby find and declare that the following charges are reasonable, such charges being necessary to defray the cost of special services and supplies furnished in connection with the use of accommodations in certain park facilities, to wit:

OREGON STATE PARKS DIVISION
RATES FOR PARK FACILITY USE
1954

I. CAMPING FEES

A. GROUP USE-ORGANIZATIONS

1. Silver Falls Youth Camp, Silver Falls State Park Season June 1 to Labor Day. Camper Capacity-100	700.00
2. Smith Creek Youth Camp, Silver Falls State Park Season June to Labor Day. Camper Capacity- 50	350.00
3. North Falls Youth Camp, Silver Falls State Park Season June 1 to Labor Day. Camper Capacity-150	700.00

4. Intermediate permit: 2-8 weeks North Falls Camp, Silver Falls State Park per week per camper including staff and help .75

5. Short term permit: (Up to 2 weeks) Silver Falls and Smith Creek Youth Camps, Silver Falls Park
   Opening camp 5.00
   Each person per night .25

6. Short term permit: (up to 2 weeks) North Falls Youth Camp, Silver Falls State Park also at Emigrant Springs and Battle Mountain State Parks
   Opening camp 3.00
   Each person per night .15

Fuel, propane gas, miscellaneous materials, and breakage will be charged at cost.

B. GROUP USE-GENERAL (ANY PARK)

1. Short term permit, open area group camping
   20 persons or less-first night 3.00
   Over 20 and additional nights, per person .05

C. INDIVIDUAL, FAMILY, AND GROUP OVERNIGHT CAMPERS

1. Improved camps where water, fuel, toilet, showers are provided, per night per car 1.00
   Trailers, additional charge .25

2. Unimproved camps with table, stove, but water and sanitary facilities some distance away .75

II. BATHHOUSE FEES

A. JESSIE M. HONEYMAN STATE PARK

1. Children 14 years of age and under .20
2. Over 14 years of age .40

III. LANTERN FEES

A. LAVA CAVES PARK

1. State owned lanterns used for visiting the caves .05

IV. ELECTRIC STOVE METER CHARGES

A. ANY PARK SO FACILITATED

EXHIBIT "M" (cont)

1. Meter controlled units-approximately 30 minutes of electricity .10

OVERNIGHT CAMPING FACILITIES

1954

Rates: Charges listed are rates per nite. Time Limit: One Week

OREGON COAST HIGHWAY- U. S. 101

Harris Beach State Park-2 miles north of Brookings. A rugged coastal area with fine bathing beaches and hiking trails. 32 unit camp. Tables, stoves, water, restrooms, showers, laundry facilities. 27 tent camps. 5 trailer camps (with water, electricity, and waste water disposal connections).
Rates-$1.00 per car and $1.25 per car with trailer.

Honeyman State Park-2.5 miles south of Florence. Magnificent coastal lake and sand dune area abounding with beautiful rhododendrons. Swimming and fishing. 35 unit camp. Tables. stoves, water, restrooms, showers. laundry facilities. 29 tent camps. 6 trailer camps (with water, electricity, and waste water disposal connections). Rates-$1.00 per car and $1.25 per car with trailer.

Neptune State Park-3 miles south of Yachats. Magnificent rocky, coastal area. Sea fishing popular. Tables, stoves, latrines, water. 14 campsites. Rate-$1.75 per car.

Big Creek State Park- 4 miles south of Waldport. Coastal area with beach access. 22 units with tables, stoves and water. Rate-$1.00 per car.

Patterson Memorial Park-1 mile south of Waldport. Interesting sea beach area with stand of wind-depressed trees. Tables, stoves, latrines, water, 10 campsites. Rate-$.75 per car.

Beverly Beach State Park-7 miles north of Newport at Spencer Creek. Coastal area, excellent beach. 2 unit camp. Tables, stoves, water, restrooms, showers, laundry facilities. 10 tent camps. 12 trailer camps (with water, electricity, and waste water disposal connections). Rates-$1.00 per car and $1.25 per car with trailer.

Cape Lookout State Park-12 miles southwest of Tillamook at south end of Netarts Bay. Scenic area, virgin sitka spruce forest, cape headland, beach, trails. 30 unit camp. Tables, stoves, water, restrooms, showers, laundry facilities. 22 tent camps. 8 trailer camps (with water, electricity, and waste water disposal connections). Rates-$1.00 per car and $1.25 per car with trailer.

Short Sand Beach State Park-10 miles south of Cannon Beach. Superb natural coastal area of rare beauty containing samples of old growth rain forest in picturesque canyons leading to the charming Smugglers Cove and Short Sand Beach. Tables, stoves, latrines, water. 18 campsites. ½ mile walk from car. Bathing, hiking, fishing, nature study. Spectacular views. Rate-$.75 per car.

Saddle Mountain State Park-8 miles northeast of Necanicum Junction in Coast Range. Superb scenic coastal mountain offering unusual natural features and magnificent views. Tables, stoves, latrines, water. 6 campsites. Hiking. Rate-$.75 per car.

PACIFIC HIGHWAY U. S. 99, U. S. 99E, U.S. 99W, U.S. 126

Champoeg State Park-7 miles southeast of Newberg (99W) on east bank of Willamette River. Historic site of 1843 provisional government meeting. Museum. Tables, stoves, water, restrooms. 6 campsites. Rate-$1.75 per car.

Williamson State Park-12 miles northwest of Salem on State Route #221. Forested tract in Willamette Valley. Tables, stoves, water, restrooms. 6 campsites. Rate-$.75 per car.

Silver Falls State Park-off U. S. 99E (State 214) 26 miles east of Salem. Unique forested water shed of Silver Creek with 15 superb waterfalls. Hiking trails, fishing. and lodge with dining facilities nearby. 50 unit camp. Tables. wood or electric stoves, water, restrooms, showers, laundry facilities. 41 tent camps. 9 trailer camps (with water, electricity, waste water disposal connections). Rates-$1.00 per car and $1.25 per car with trailer.

Cascadia State Park-42 miles east of Albany on State Route #20, inviting wooded park on banks of South Santiam River. Soda spring, tables, stoves, water, restrooms. 15 campsites. Swimming, fishing. Rate-$.75 per car.

Alderwood State Park-off U.S. 99, (on State 36) 15 miles southwest of Junction City on Long Tom River. Water, tables, latrines, stoves. 5 campsites. Pleasant, cool forested area. Rate-$.75 per car.

Armitage State Park-5 miles northeast of Eugene on Coburg Road. Water, tables, stoves, restroom. 12 campsites. Attractive site on tree covered banks of McKenzie River. Fishing boat landing. Rate-$.75 per car.

Dorris State Park-28 miles east of Eugene on McKenzie River on U.S. 126. Tables, stoves, latrines, water. 3 campsites. Fishing. Rate-$.75 per car.

EXHIBIT "M" (cont)

CENTRAL OREGON ROUTES-U.S. 97, U.S. 26, U.S. 126, U.S. 395, STATE 19 AND 66

Cove Palisades-5 miles west of Culver, off U.S. 97. Spectacular river canyons offering a challenge to the fishermen. 41 unit camp (36 tent, 5 trailer). Tables, stoves, water, restrooms, showers, laundry facilities. Rates-$1.00 per car, or per car with trailer.

Cline Falls State Park-4 miles west of Redmond on U.S. 126. On banks of Deschutes River. Tables, stoves, latrines, 4 campsites. Fishing. Rate-$.75 per car.

Booth State Park-13 miles west of Lakeview, State Route 66, in beautiful stand of yellow pine. Tables, stoves, water, latrine. 4 campsites. Rate-$.75 per car.

Chandler State Park-On U. S. 395, 16 miles north of Lakeview. Pine forested canyon. Tables, stoves, water, latrines. 5 campsites. Rate-$.75 per car.

Painted Hills State Park-9 miles northwest of Mitchell off U.S. 26. Beautifully colored fossil bearing hills. Camping area on Bridge Creek. Tables, latrines; water must be boiled. 6 campsites. Rate-$.75 per car.

Shelton State Park-On State 19, 10 miles southeast of Fossil. Delightful forested tract in canyon of small stream. Tables, stoves, latrines, water. 4 campsites. Rate-$.75 per car.

OLD OREGON TRAIL HIGHWAY-U. S. 30

Dabney State Park-4 miles east of Troutdale, on Scenic Route. On Sandy River. Tables, stoves, restrooms, water. 7 campsites. Rate-$.75 per car.

Benson State Park-28 miles east of Portland on Express Route in a grove of cottonwood, alder and maple near Multnomah Falls. In the magnificent Columbia River Gorge. Tables, stoves, water, restrooms, nearby hiking trails. 10 campsites. Rate-$.75 per car.

Viento State Park-8 miles west of Hood River. Wooded tract alongside Viento Creek and on south bank of Columbia River. Tables, stoves, water, restrooms. 14 campsites. Rate-$.75 per car.

Ukiah-Dale Forest Wayside-50 miles south of Pendleton on Route U.S. 395. Supplies at Ukiah $1\frac{1}{2}$ miles. Forest Wayside on Camas Creek. Tables, stoves, water, latrines. 15 campsites. Rate-$.75 per car.

Emigrant Springs State Park-26 miles east of Pendleton. Delightful forested park area with historic spring. Used as a campsite by emigrants on the

EXHIBIT "M" (cont)

Old Oregon Trail. 50 unit camp. Tables, stoves, water, restrooms, showers, laundry facilities. 32 tent camps. 18 trailer camps (with water, electricity and waste water disposal connections). Rates-$1.00 per car, $1.25 per car with trailer.

Hilgard Junction State Park-8 miles west of La Grande at the junction of the Starkey Road. Pleasant camping grounds on the edge of the Grande Ronde River near the site of the Old Oregon Trail crossing. Tables, stoves, water and restrooms. 10 campsites. Rate-$.75 per car.

Red Bridge State Park-7½ miles up Grande Ronde River from a junction 8 miles west of La Grande. Pine forested riverside tract. Tables, stoves, latrines, water. 8 campsites. Rate-$.75 per car.

Wallowa Lake State Park-78 miles northeast of La Grande (on State Route #82), and 6 miles south of Joseph. Delightful forested park at south end of magnificent Wallowa Lake. At foot of rugged Wallowa Mountains. Swimming, fishing, boating, hiking trails, horse rental nearby. 57 unit camp. Tables, wood or electric stoves, water, restrooms, showers, laundry facilities. 47 tent camps. 10 trailer camps (with water, electricity and waste water disposal connections). Rates-$1.00 per car, and $1.25 per car with trailer.

Catherine Creek State Park- 8 miles east of Union on State Route #203. Pine forested tract on banks of stream. Tables, stoves, water, restrooms. 8 campsites. Fishing. Rate-$.75 per car.

2. That the above charges shall be posted within the main entrance of the above park facilities.

3. That said charges are to take immediate force and effect for the year 1954.

4. That this resolution be duly entered in the minutes and records of the Commission this 21st day of January , 1954, as Miscellaneous Resolution File No. 107.

EXHIBIT "N-1"

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of:

(a) The Eagle Rock-Post Section of the Paulina Secondary Highway in Crook County.

(b) The Little Creek-Estacada Section of the Woodburn-Estacada Secondary Highway in Clackamas County.

(c) The Jasper Bridge-Pleasant Hill Section of the Springfield-Creswell Secondary Highway in Lane County, and

(d) The Clackamas Overcrossing Section of the Clackamas Secondary Highway in Clackamas County,

and in connection therewith to prepare maps showing the route and location of each of said sections of highways and to file said reports and records with the Commission for consideration; and,

WHEREAS, after due consideration of said surveys, field notes, maps, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. (a) That the survey of the Eagle Rock-Post Section of the Paulina Secondary Highway, beginning at Engineer's Station 788+95.1, approximately ten miles west of the community of Post, and extending in an easterly direction to Highway Engineer's Station 1312+83, in the community of Post, together with the map, which for identification purposes bears Map File No. 7B-25-20 and the date of December, 1953, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission in Salem, Oregon.

(b) That the survey of the Little Creek-Estacada Section of the Woodburn-Estacada Secondary Highway, beginning at Highway Engineer's Station 1518+34.1, approximately $1\frac{1}{2}$ mile east of Clear Creek and extending in a northerly direction to Highway Engineer's Station 1739+00, approximately $\frac{1}{2}$ mile west of the Clackamas River in Estacada, together with the map, which for identification purposes bears Map File No. 7B-24-20 and the date of December, 1953, field notes and other engineering data submitted

by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission in Salem, Oregon.

(c) That the survey of the Jasper Bridge-Pleasant Hill Section of the Springfield-Creswell Secondary Highway beginning at Highway Engineer's Station 7+94.78 just south of the Willamette River in Jasper and extending in a southerly direction to Highway Engineer's Station 152+13.56 and a connection with the Willamette Highway, together with the map, which for identification purposes bears Map File No. 7B-25-18 and the date of January, 1954, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission in Salem, Oregon.

(d) That the survey of the Clackamas Overcrossing Section of the Clackamas Secondary Highway beginning at Highway Engineer's Station 264+15.64 at a point on the Cascade Secondary Highway about $\frac{1}{4}$ mile south of the town of Clackamas, and extending in an easterly direction to Highway Engineer's Station 292+39.41 and a junction with the existing Clackamas Secondary Highway, together with the map, which for identification purposes bears Map File No. 1R-5-493 and the date of January, 1954, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission in Salem, Oregon.

2. That when each of said sections of said highways is permanently constructed, the same shall be done in accordance with the appropriate survey and location for said section unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of a highway along and over said surveys. Said approval and adoption shall also be deemed and constituted instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That this resolution shall be entered in the minutes and records of the Commission as of the 21st day of January, 1954, as Resolution Adopting Survey No. 97.

EXHIBIT "N-2"

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Sage Hen Hill-Hines Section of the Central Oregon Highway in Harney County and in connection therewith to prepare a map showing the route and location of said section and to file said reports and records with the Commission for consideration.

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Sage Hen Hill-Hines Section of the Central Oregon Highway, beginning at Highway Engineer's Station 6080+50 at Sage Hen Hill, and extending in an easterly direction to Highway Engineer's Station 1637+64.04 at the southeasterly edge of the town of Hines, together with the map, which for identification purposes bears Map File Nos. 7B-7-9 and 7B-25-13 and 14 and the date of January, 1954, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That heretofore by resolution of this Commission, dated November 3, 1948, the said section of the Central Oregon Highway between Sage Hen Hill and Hines has been designated as a throughway within the meaning and purpose of ORS 374.005, commonly known as the "Throughway Law" and for the reasons stated therein, the above-named section of said highway should be and it hereby is directed that the construction of the same shall be accomplished pursuant to and within the meaning and scope of said law except any portion of said section which had more than ten commercial businesses abutting thereon catering to the motoring public in any one mile as of the date said section of highway was designated as a throughway.

5. That this resolution be entered in the minutes and records of the Commission as of the 21st day of January, 1954, as Survey Resolution No. 98.

EXHIBIT "O-1"

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads, frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of producing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Euchre Creek-Wedderburn Section of the Oregon Coast Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and

(cont.)

maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Euchre Creek-Wedderburn Section of the Oregon Coast Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Euchre Creek-Wedderburn Section of the relocated Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit A. *

3. That the relocation, construction, improvement and maintenance of the said Suchre Creek-Wedderburn Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said

EXHIBIT "O-1" (cont.)

real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 21st day of January, 1954, as Condemnation Resolution No. 481.

---

* FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 481, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "O-2"

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Tualatin River-Middleton Section of the Pacific Highway West; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Tualatin River-Middleton Section of the Pacific Highway West, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

(cont.)

EXHIBIT "O-2" (cont.)

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Tualatin River-Middleton Section of the Pacific Highway West and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit A. *

3. That the widening, improvement and maintenance of the said Tualatin River-Middleton Section of the Pacific Highway West and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 21st day of January, 1954. as Condemnation Resolution No. 482.

* FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 482, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "O-3"

Minutes of January 21 and 22, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Airport Road Junction-Stout Creek Section of the North Santiam Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

(cont.)

23005

EXHIBIT "O-3" (cont.)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW,THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Airport Road Junction-Stout Creek Section of the North Santiam Highway as a throughway, fee simple title to a certain parcel of real property. The said parcel of real property needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated North Santiam Highway and all of the contiguous real property of the owners remaining after the appropriation of the said real property.

3. That the relocation, construction, improvement and maintenance of the said Airport Road Junction-Stout Creek Section of the North Santiam Highway and the highway facilities for which the said parcel of real property is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property.

5. That upon the trial of any suit or action instituted to acquire the said real property, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 21st day of January, 1954, as Condemnation Resolution No. 483.

Salem, Oregon
February 5, 1954

The State Highway Commission met in special telephonic session at 10:30 a.m. in the State Highway Building. Present were:

Ben R. Chandler, Chairman
M. K. McIver, Commissioner
C. W. Enfield, Chief Counsel

Chairman Chandler called the meeting to order.

The Chief Counsel reported briefly the claims which have been made against the State by several property owners for damages resulting from the alleged change of grade of Marion Street in connection with the construction of the Marion Street Bridge. The Chief Counsel advised that Douglas McKay and Mabel C. McKay, copartners, doing business as McKay Company, had offered to accept the sum of $2,500.00 in full settlement of their claim. The real property owned by the McKay Company, consisting of a warehouse used for automobile storage, was appraised by Mr. Leroy Draper, and it was Mr. Draper's opinion that the property suffered damage in the amount of $2,500.00 by reason of the bridge construction. The Chief Counsel recommended that the proposed settlement be accepted. The Commission approved the recommendation and authorized the payment of the sum of $2,500.00 to Douglas McKay and Mabel C. McKay, copartners, doing business as McKay Company, upon receipt from them of a duly executed release of all claims.

There being no further business, the meeting adjourned.

C. W. Enfield
Chief Counsel

Ben R. Chandler
Chairman

ATTEST:
H. B. Heaivilin
Secretary

M. K. McIver
Commissioner

February 5, 1954

Portland, Oregon
February 24, 1954

The State Highway Commission met in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
Robert L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Commissioner M. K. McIver was excused from attending this meeting.

The meeting was called to order by Chairman Chandler at whose request bids for highway construction, as follows, were opened and read aloud by the Secretary, who then announced that the awards of contracts would be made at 4:00 p.m. in the same room:

The Commission approved the minutes of the meeting held on December 10 and 11, 1953. Approval of the minutes of the meeting held on January 21 and 22, 1954 was deferred until the next regular meeting of the Commission.

The State Parks Superintendent reported on the following state parks matters:

1. Request of Bonneville Power Administration for permission to top trees in the Umpqua Lighthouse State Park: The Parks Superintendent reported that the request for trimming the trees is for the benefit of a radio station which the Bonneville Power Administration has established east of the park. However the trees have not yet reached an elevation sufficiently high to interfere with the radio station. He recommended that the request for an immediate permit be denied but that the Bonneville Power Administration be informed that a permit will be issued when necessity demands it. The Commission accepted the recommendation.

2. Request of Mr. Charles Kik for permission to take not to exceed one second-foot of water from Hat Rock Spring for a housing development at McNary Dam Reservoir: The Parks Superintendent stated that the spring is located on property which the State has leased from the United States Government for park purposes, and that it has a flow of slightly over 8 second-feet. It was his opinion that the requirements of the park will not exceed 7 second-feet, and he recommended that Mr. Kik and others be alloted to take not to exceed 1 second-foot of water for use in connection with their private development. The Commission adopted the recommendation.

3. Report on vandalism within state parks: The Parks Superintendent reviewed some of the facts mentioned in his written report to the Commission, dated February 18, concerning this matter. He pointed out that total vandalism in parks during the year 1953 had cost the State an estimated sum of $3,946.00 and that vandalism appears to be greatest in parks along the Oregon Coast. He also called attention to the Engineer's letter of February 19 regarding damages due to vandalism on other state highway property during the same period. The total cost of such vandalism was estimated at $25,132.00. He also pointed out that disposal of garbage and clean-up of roadside parks in 1953 had cost $8,900.00 and in the same period, garbage disposal and clean-up on 119 park areas in 1953 cost $51,160.00. The Commission accepted the reports and ordered the facts contained therein be given as much publicity as is possible. (For further details, see copy of the Parks Superintendent's report of February 18 and a copy of the Engineer's report of February 19, in the General Files.)

4. Report of park activities during 1953: The Parks Superintendent presented to the Commission his written report dated February 23, 1954. The Commission accepted the report and instructed the Parks Superintendent to give copies of it to those people in Portland who are interested in forming an advisory park commission. (For details, see copy of report entitled, "The Oregon State Parks in 1953", in the General Files.)

5. Report on timber blown down in Van Duzer Corridor along the Salmon River Highway: The Parks Superintendent reported that during the evening and night of January 21, 1954, wind blew down approximately 600 trees in this area, 68 of which fell across the highway, trapping nine cars in the Corridor. He estimated the down timber at 786 M-FBM with a valuation of about $15,000. In order to provide reasonable safety in the event of another wind storm, it was his thought that about 75 additional trees on the south or windward side of the highway also should be felled. These trees he valued at about $3,000. The State Forester, he said, has been consulted in this matter, and he has reported that about 90 percent of the hazards can be removed by cutting rotten trees, leaning trees and snags on the south side of the highway. The Forester's report also urges care in construction of roads through the Corridor to the end that tree roots are not damaged. He exhibited a map and pointed out areas marked thereon in green as being the danger spots containing the trees to be felled. He requested authority to advertise the sale of the down timber and the 75 standing trees by the auction method. The Commission granted the authority and thereupon adopted the attached resolution relative thereto marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

6. Resolution from the Sons and Daughters of the Pioneers protesting removal of articles from the State Park Museum at Champoeg and placing them in the building belonging to the Daughters of the American Revolution in the same park: The Parks Superintendent recalled that this matter was before the Commission on August 6, 1953, at which time it was explained that facilities in the State Museum are not sufficient to properly display the articles and to properly protect them from theft, and it was felt that better care could be given the objects by placing them in the Daughters of the American Revolution Museum where they will be under the care of a full-time caretaker. He stated that he still feels that the proposed move is logical, and he recommended adherence to the present plan. The Commission decided to make no change in the arrangements previously approved. The Parks Superintendent was instructed to explain to the Sons and Daughters of the Pioneers the reasons that prompted the Commission's action.

The Right of Way Engineer presented options secured for acquisition of real property needed for various state highway improvements and for other purposes. After careful consideration, the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In discussing the options to be secured on the West Portland Expressway in Portland, the Right of Way Engineer inquired how rapidly he should acquire

these properties. He stated that so far right of way options have been obtained only when the property owners offer to sell. The Commission ordered continuation of the present practice in acquiring right of way for this highway section.

The Commission considered and upon the Right of Way Engineer's favorable recommendation approved the leasing of a quarry site from Mr. John H. Friday on the Wasco County Line-Madras Section of The Dalles-California Highway in Jefferson County. The Right of Way Engineer explained that this lease is a part consideration in one of the options adopted today and that by the terms of the lease Mr. Friday reserves the right to take gravel from this source for domestic use if he so desires. The lease, he added, is for a five-year period ending January 1, 1959, and the consideration is $100.00.

The Right of Way Engineer presented the following list of properties to be acquired for which no specific authority previously has been granted by the Commission:

COUNTY AND SECTION	FILE NUMBER	PURPOSE	HIGHWAY
BENTON			
Burnt Woods-Blodgett	21726	quarry	Corvallis-Newport
	21727	haul road	
	21728	haul road	
Lincoln County Line-Gellatly Creek	21551	quarry	Corvallis-Newport
	21552	quarry	
DOUGLAS			
Thomas Creek-Tiller	21594	quarry	Tiller-Trail
WASCO			
Dufur-Tygh Valley	21695	quarry	The Dalles-California

He requested authority to acquire these properties. The Commission approved the request by adopting the attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A report on the miscellaneous sales of buildings and other properties which have been consummated since the last Highway Commission meeting was presented by the Right of Way Engineer. After careful examination of the written report, the Commission confirmed the sales as listed therein. (For further details see report dated February 24 and 25, 1954 as prepared by C. W. Parker, Property Manager, on file in the Secretary's office under the heading of "Miscellaneous Sales".)

The following changes in points of access to state highways as recommended by the Right of Way Engineer, were approved by the Commission:

1. Turner property on the Newport-Toledo Section of the Corvallis-Newport Highway in Lincoln County, File No. 18495.

2. William Blunt, Jr. property on the Medford-County Farm Section of the Pacific Highway in Jackson County, File No. 19172.

The Right of Way Engineer advised that no additional access is being granted in either case and that nothing is involved save changes in existing points of access.

Granting of a power line easement to Bonneville Power Administration across the corner of a state quarry on the Oregon-Washington Highway in Umatilla County was considered by the Commission. The Right of Way Engineer stated that the crossing will not interfere with quarry operations, and he recommended that the easement be granted. The Commission approved the recommendation.

The Right of Way Engineer reported that, as instructed by the Commission, he conducted negotiations to acquire property for a state park near Bandon on the Oregon Coast Highway in Coos County. Earlier negotiations, he recalled, were unsatisfactory inasmuch as the property owners indicated they wanted $90 per acre, but, he added, a Mr. Strader, who owns a portion of the area, now indicates that he will accept $60 or less per acre for the seventy acres of land that he owns. He gave as his thought that Mr. Divilbiss, who is the other property owner might accept the same price. The Commission authorized the Right of Way Engineer to negotiate for all of the property needed on the basis that it is to be acquired for $60 or less per acre.

The conveyance of 0.55 acre of land on the Ochoco-Prineville Dam Section of the Ochoco Highway in Crook County to the State Board of Forestry for use as a site for a District Ranger Headquarters was considered by the Commission. The Right of Way Engineer explained that the Board of Forestry wishes to use the property as a residence site in conjunction with their station on the Ochoco Highway. The property, he stated, has no value to the highway department, and he recommended that it be deeded to the Board of Forestry for a consideration of $1.00. The Commission accepted the recommendation.

The Commission gave attention to the proposed expenditure of $4,500 to compensate the U. S. Army Corps of Engineers for installing an arch type stockpass under the Columbia River Highway opposite the Miller property east of The Dalles Dam in Wasco County. Mr. W. C. Williams, Deputy State Highway Engineer, explained that the Millers own an island in the river and that it is necessary for the stock to be driven across the surface of the highway in going to and from the island, which procedure will be eliminated if the stock pass is provided. He gave as his opinion that the expenditure of $4,500 by the State for this purpose is warranted, and he recommended that the Army Engineers be compensated in such sum on condition that the underpass is gated and kept locked at all times when not in use by the Millers. The Commission accepted the recommendation.

Conveyance to a Mr. John Charge of a strip of land 30 feet wide by 500 feet long on the Gervais-Hayesville Section of the Portland-Salem Expressway in Marion County was considered. The Right of Way Engineer explained that when acquisition of Mr. Charge's land was negotiated, it was not intended to take property that would conflict with the buildings on his farm, and such representation was made to Mr. Charge; however, after the lines were staked, it was found that the property line passed through Mr. Charge's barn. He further explained that the area proposed to be conveyed to Mr. Charge does not reduce the value of the remaining property acquired for a gravel pit, and he recommended that the property be deeded back to Mr. Charge for a consideration of $1.00. The Commission accepted the recommendation.

Disposal of the old Division Office Headquarters at Bend was discussed by the Commission. The Right of Way Engineer stated that from appraisals that have been made, it has been determined that the property has a minimum value of $35,000. In connection with this matter, the Commission gave its attention to a letter from Mr. J. Herbert Stone, Regional Forester, U. S. Forest Service, concerning the possibility of an agreement whereby the Forest Service would occupy and use the old Bend Division Headquarters Building in return for use of the warehouse and repair shop constructed by the Corps of Engineers on U. S. forest lands near Detroit. The Engineer gave as his opinion that the Highway Department should refrain from expansion in the operation and management of rental properties. He pointed out that the buildings at Detroit are still under control of the Corps of Engineers and may or may not be transferred to the U. S. Forest Service; moreover, the buildings are designed to be heated electrically, the cost of which would be prohibitive at commercial rates. He also pointed out that a suitable headquarters site can be constructed at Detroit for approximately $20,000, which amount can be amortized at a rental rate of $80 per month over a period of thirty years. He recommended that the Division Headquarters at Bend be sold. The Commission authorized the sale of the property by public auction for a minimum price of $35,000, and thereupon adopted the attached resolution relative thereto marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A proposed lease agreement with Schnitzer and Wolf Company for rental of property recently purchased from them on the Clay-Columbia Street Interchange Section of the West Portland Expressway in Portland was considered. The Right of Way Engineer pointed out that this property will not be needed before June 1, 1954. He, therefore, recommended that the Schnitzer and Wolf Company be allowed to use the property until that time for a consideration of $635 per month. The Commission approved the recommendation.

Sale of excess right of way approximately 8 feet wide by 143 feet long in the City of Springfield was considered by the Commission. The Right of Way Engineer stated that the Shell Oil Company which owns adjoining property wants to buy the land, which has been appraised at $975. He recommended that it be sold by the public auction method. The Commission accepted the recommendation.

The Right of Way Engineer recommended that the following options which have been signed by property owners be rejected as he felt that the prices are too high:

1. Buffington Estate property, File No. 21086, on the Frankport-Greggs Creek Section of the Oregon Coast Highway--$19,000.00.

2. Carmichael property, File No. 21542, on the Frankport-Greggs Creek Section of the Oregon Coast Highway--$40,000.00.

The Commission rejected the options as recommended and authorized renegotiation for acquisition of both tracts.

The Right of Way Engineer also recommended that an option signed by Hot Springs, Inc. on the Vale-Cairo Section of the Central Oregon Highway be rejected as access is not restricted in any manner in the option as signed. He explained that it is planned, if the option is rejected to renegotiate on the basis of restricting access to private use only. The Commission rejected the option as recommended and authorized renegotiation.

Mr. W. C. Williams, Deputy Highway Engineer, reported receipt of a bid from Mr. C. J. Montag and Sons for the North Crossing of the Coast Fork Willamette River Bridge Project on which bids were received at 9:00 a.m. this morning. This bid, he stated, was sent "special delivery" from Eugene yesterday but was not received until 9:45 a.m. so was not read. Mr. Montag and his surety, he stated, would like to appear before the Commission concerning the bid this afternoon. The Commission inquired of the Chief Counsel whether or not this bid had been submitted in a legal manner. The Chief Counsel replied that bidders are required, as stated in the "Notice to Contractors", to have their proposals at the site of the bid opening by the designated time of opening, which in this instance was 9:00 a.m. and that no allowance can be made if the proposals are delayed in the mails or otherwise. It was his opinion that the Commission did not have authority to accept this bid. Mr. C. J. Montag and Mr. Frank Amerata, representative of the surety on his bond, appeared before the Commission during the afternoon session. Mr. Montag stated that his bid proposal was placed in the U. S. Mail in Eugene on the previous day and that they were assured by the Postmaster that it would arrive in Portland in plenty of time for the opening. He also said that he would not have taken the trouble to appear before the Commission except for the fact that his bid was lower than any of the other bids read at the regular opening. Chairman Chandler stated that the Commission regrets that the bid could not be read, but the Commission must adhere strictly to the regulation of not reading bids received after the time scheduled for opening. The Chief Counsel pointed out that the bid proposal states that bids are to be delivered at the place of opening not later than a certain designated time, or shall be mailed to the Salem office early enough so that it can be delivered to the place of bid openings by the designated time. He gave as his opinion in this instance that the Commission is without authority to accept the bid due to the fact that it was delivered after 9:00 a.m. Mr. Glaisyer, the Secretary, stated that the bid was received at 9:45 a.m. after the other bids had been read for this job. Mr. Amerata called attention to the fact that they had hopes the Commission would consider this bid in the same manner as some branches of the Federal Government do in which bids are read if they are postmarked a certain time before the bid opening. Mr. Montag stated that he would not press the matter further, whereupon the Commission instructed the Secretary to return the bid to Mr. Montag.)

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Lincoln County Line-Gellatley Creek Section of the Corvallis-Newport Highway

R 21551 - Walter G. Cox, Jr.
Quarry (Benton)
7.29 acres

R 21552 - James L. Lemon
Quarry (Benton)
9.16 acres

Thomas Creek-Tiller Section of the Tiller-Trail Highway

R 21594 - Perry Brooks
Stock Pile Site (Douglas)
3.12 acres

Vale-Cairo Junction Section, East Unit, Central Oregon Highway

R 20231 - John Wood
Malheur
Parcel No. 1: 8.6 acres for right of way
Parcel No. 2: 0.47 acre for haul road

R 20235 - James D. Stuart
Right of Way (Malheur)
1.08 acres

R 21280 - Richard S. Humphrey
Right of Way (Malheur)
0.30 acre

Sage Hen Hill-Hines Section of the Central Oregon Highway

R 21611 - Lillian P. Franklin
Right of Way (Harney)
Parcel No. 1: 0.4 acre
Parcel No. 2: 0.2 acre

R 21612 - Alfred R. Turley
Right of Way (Harney)
0.2 acre

Shady-Booth Ranch Unit, Shady-Canyonville Section of the Pacific Highway

R 21291 - Margaret E. Berney
Right of Way (Douglas)
Parcel No. 1: 13.14 acres
Parcel No. 2: 0.87 acre

R 21292 - Edward D. Smith
Right of Way (Douglas)
0.38 acre

R 21293 - Raymond C. Lawrence
Right of Way (Douglas)
20.33 acres

R 21556 - John Howard Carnes
Right of Way (Douglas)
10.60 acres

R 21559 - Orley R. Thompson
Right of Way (Douglas)
9.02 acres

R 21560 - M. M. Cooper
Right of Way (Douglas)
25.0 acres

R 21561 - Ruth E. Holmgren
Right of Way (Douglas)
24.5 acres

R 21562 - George F. Burnett
Right of Way (Douglas)
14.88 acres

R 21563 - George F. Burnett
Right of Way (Douglas)
19.15 acres

R 21564 - J. H. Eyben
Right of Way (Douglas)
2.90 acres

R 21565 - J. Ira McNutt
Right of Way (Douglas)
2.60 acres

R 21566 - Henry Weber
Right of Way (Douglas)
25.60 acres

February 24, 1954

Shady-Booth Ranch Unit, Shady-Canyonville Sec. of the Pacific Hwy (cont.)

R 21567 - Stomar Lumber Company
Right of Way (Douglas)
4.9 acres

R 21568 - Trio Lumber Company
Right of Way (Douglas)
2.8 acres

R 21569 - Arthur R. Wecks
Right of Way (Douglas)
13.10

R 21570 - Edmund V. Bounds
(Douglas)
Parcel No. 1: 17.70 acres for right of way
Parcel No. 2: 0.04 acre for right of way
Parcel No. 3: 0.95 acre for right of way
Parcel No. 4: 6.88 acres for right of way
Parcel No. 5: 0.75 acre for channel change easement

R 21571 - Charles W. Maris
Right of Way (Douglas)
0.83 acre

R 21572 - O. E. Wecks
Right of Way (Douglas)
6.8 acres

R 21619 - LeRoy Berry
Right of Way (Douglas)
0.02 acre

R 21646 - A. R. Wecks
Right of Way (Douglas)
1.55 acres

Tide Creek-St. Helens Unit of the Goble-St. Helens Section of the Columbia River Highway

R 10004 - Elmer V. Anderson
Right of Way (Columbia)
15,000 square feet

R 10008 - George M. Walmsley
Right of Way (Columbia)
5,000 square feet

Tide Creek-St. Helens Unit of the Goble-St. Helens Section of the Columbia River Highway (cont.)

R 21384 - Mark Hegele
Right of Way (Columbia)
Parcel No. 1: 0.06 acre
Parcel No. 2: 0.58 acre

Goshen-Divide Section of the Pacific Highway

R 21208 - John Stalder
(Lane)
Parcel No. 1: 16.0 acres for right of way
Parcel No. 2: 0.30 acre for right of way
Parcel No. 3: 4.9 acres for gravel pit
Parcel No. 4: 0.86 acre for borrow pit
Parcel No. 5: 0.02 acre for slope easement for road approach

R 21209 - G. R. Sears
(Lane)
Parcel No. 1: 26.24 acres for right of way
Parcel No. 2: 0.36 acre for easement for haul road to gravel pit
Parcel No. 3: 0.14 acre for easement for a drain pipe
Parcel No. 4: 0.02 acre for slope easement for road approach

R 21396 - W. A. Woodard Lumber Company
(Lane)
Parcel No. 1: 2.40 acres for right of way
Parcel No. 2: 2.9 acres for right of way
Parcel No. 3: 7.98 acres for right of way

R 21407 - Joseph Tonele
Right of Way (Lane)
0.66 acre

R 21414 - J. P. Walker
Right of Way (Lane)
1.0 acre

R 21415 - Cecil C. Wooley
Right of Way (Lane)
0.02 acre

R 21426 - M. H. Anderson
Right of Way (Lane)
0.40 acre

R 21461 - Herschel Robert Flesher
Right of Way (Lane)
0.34 acre

February 24, 1954

Goshen-Divide Section of the Pacific Highway (cont.)

R 21864 - Alvin A. Johnson
Right of Way (Lane)
0.08 acre

Tualatin River-Middleton Section of Pacific Highway West

R 19695 - Magdalena Krause
Right of Way (Washington)
1.416 acres

Sylvan Section of the Sunset Highway

R 20694 - George Harold Raab
Right of Way (Multnomah)
125 square feet

Rocky Point-Brush Creek Section of the Oregon Coast Highway

L 2081 - Searcy E. Binford, et al
New resolution required for change of access provision

Hood River-Mosier Section of the Columbia River Highway

L 1767 - James C. Fulton, et ux
New resolution required because of change of use of property

Sylvan Section of the Sunset Highway

L 1982 - Faun E. Helmcke
New resolution required for change in access control language

Rocky Point-Brush Creek Section of the Oregon Coast Highway

L 2082 - W. M. Hubbs, et ux
New resolution required for change in access control language

Blackwell Hill-Medford Section of the Pacific Highway

L 2123 - Earl W Morris, et al
New resolution required for change in access control language

The Commission approved the request by adopting the attached resolutions relative thereto, marked EXHIBITS "J-1" through "J-13", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission considered and approved the Chief Counsel's written report of cases which have been tried in court since the January meeting of the Commission as follows:

State vs E. S. Kennedy, et al, L 2078
State vs Efem Warehouse Company, L 1980
State vs Emery B. Kelley, et al, L 1983
State vs LeRoy Lumber Company, et al, L 1815

February 24, 1954

(For details see copy of the Chief Counsel's letter to the Commission dated February 18, 1954, in the General Files.)

The Commission also considered and approved the Chief Counsel's written report of cases in which complaints have been filed and settlements made prior to trials since the meeting of the Commission held January 21 and 22, 1954 as follows:

1. State vs Jess E. Tryon, et ux, L 2146: Offered $4,372. Settled for $4,951.

2. State vs Edith M. Anderson, et vir, L 2139: Offered $150.00. Settled for $200.00.

3. State vs Carl A. Sprauer, et al, L 2065: Offered $12,925.00. Settled for $12,900.

4. State vs James R. Burgess, et ux, L 2140: Offered $6,575.00. Settled for $7,200.

5. State vs George S. Jewett, et al, L 1780: Offered $10,500.00. Settled for $10,500.00.

6. State vs Howard C. Holden, et ux, L 2121: Offered $750.00. Settled for $875.00.

7. State vs Favell-Utley Realty Company, et al, L 1370: Settled for $1,038.00.

8. State vs I. W. Housechild, et al, L 1927: Offered $5,100.00. Settled for $6,100.

9. State vs Rex B. Parelius, L 2111: Offered $970 00. Settled for $1,293.12.

10. State vs Frank Gillies, et al, L 2141: Offered $13,000.00. Settled for $13,700.00.

11. State vs J. S. Daniels, et ux, L 2115: Offered $200.00. Settled for $200.00.

12. State vs Joseph W. Fitts, et al, L 2131: Offered $2,557.00. Settled for $3,400.00.

13. State vs Maud F. Clark and State vs Harold E. Clark, L 2093 and L 2094: Offered $10,900.00 and $4,935.00. Settled for $10,900.00 and $4,935.00 with the State obligated to perform certain other functions.

14. State vs O. E. Powell, et al, L 2041: Offered $4,950.00. Settled for $6,000.00.

15. State vs Gregory V. Bride, et al, L 2021: Offered $10,500.00. Settled for $10,750.00 on the Harbor Drive-Barbur Boulevard Section of the Portland-Salem Expressway.

(For details concerning the above listed settlements, see copy of the Chief Counsel's written reports to the Commission dated February 18 and 19, 1954, in the General Files.)

The Commission considered and confirmed offers reported by the Chief Counsel for acquisition of real property required for various highway purposes, which offers were tendered to the owners prior to the commencement of condemnation proceedings in conformity with authority granted by the Commission in its resolution adopted December 20, 1951:

County Farm Ashland Section of the Pacific Highway

L 1935 - Owner: Charles W. Koyl, et al. 8.09 acres for right of way, 1.03 acres for gravel pit, 2.8 acres for easement for channel change, and 0.82 acre for excess taking. Amount of offer $13,000.00. Authorized by Chairman Chandler on February 4, 1954.

Love Bridge-Black Bridge Section of the Baker-Homestead Highway

R 20305 - Owner: Staggs and Weber, et al. 3.81 acres for right of way. Amount of offer $38.00. Authorized by Chairman Chandler on January 15, 1954.

Goshen-Divide Section of the Pacific Highway

R 18451 - Owner: E. R. Copenhaver, et al. 1.62 acres for right of way. Amount of offer $1,800.00. Authorized by Commissioner McIver on December 7, 1953.

Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway

R 17492 - Owner: Paul M. McFarland, et al. 1.54 acres for right of way. Amount of offer $1,000.00. Authorized by Chairman Chandler on February 5, 1954.

Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway

R 13926 - Owner: Horace J. Smith, et ux. 6.5 acres for right of way. Amount of offer $31,550.00. Authorized by Commissioner McIver on January 12, 1954.

R 13936 - Owner: Ida M. Denny, et al. 7.9 acres for right of way and 3.61 acres for excess taking. Amount of offer $41,474.00. Authorized by Chairman Chandler on January 5, 1954.

R 20470 - Owner: Joseph W. Fitts, et ux. 7.91 acres for right of way, and 3.0 acres for excess taking. Amount of offer $2,557.00 Authorized by Chairman Chandler on January 15, 1954.

Hayesville Jct.-Wilsonville Jct. Section of the Portland-Salem Expressway (cont.)

R 20846 - Owner: John J. Schafter, et ux. 0.22 acre for right of way. and 0.28 acre for excess taking. Amount of offer $250.00. Authorized by Chairman Chandler on January 15, 1954.

R 20852 - Owner: John J. Stafek, et ux. 11.13 acres for right of way. and 0.35 acre for grade separation structure. Amount of offer $7,325.00. Authorized by Chairman Chandler on January 15, 1954.

R 20903 - Owner: Arthur Franke, et ux. 11.68 acres for right of way and 7.7 acres for borrow pit. Amount of offer $10,260.00. Authorized by Commissioner McIver on January 12, 1954.

R 21060 - Owner: Lauren E. Stettler, et ux. 5.85 acres for right of way and 4.55 acres for excess taking. Amount of offer $9,720.00. Authorized by Commissioner McIver on January 12, 1954.

R 21205 - Owner: William Albright, et ux. 1.38 acres for drainage ditch. Amount of offer $996.00. Authorized by Commissioner McIver on January 12, 1954.

The Commission also considered and approved the following offers made for property for which condemnation was previously authorized:

Tualatin River-Middleton Section of the Pacific Highway West	Recommended Offer
R 19684 - John Jurgens, et al Right of Way (Washington) 3.83 acres	$17,430.00
R 19681 - A. S. Hamilton, et ux Right of Way (Washington) 0.74 acre	$ 3,000.00
R 19688 - Harriet E. Harsch, et vir. Right of Way (Washington) 0.070 acre	$ 285.00

A report was also submitted by the Chief Counsel concerning the case of United States of America vs Andrew J. Gray, State Highway Commission, et al, in the United States District Court for the District of Oregon. He explained that this suit was brought by the United States Government to recover judgment against Andrew J. Gray and George Clawson and against Andrew J. Gray and Dorothy Gray and to foreclose plaintiff's Federal tax liens upon Lots 6, 7, 8, and 9, Block 6

of the Platt of Sunnyvale in the Northwest quarter of Section 12, Township 26 South, Range 13 West, W. M., which is on the Bay Park-Delmar Section of the Oregon Coast Highway in Coos County. No judgment is being sought against the State of Oregon which is named as a defendant simply because of the State Highway Commission's claim to ownership of the property on which foreclosure is being brought. The Commission accepted the report.

The Chief Counsel reported that court action has been started against state employees in a case entitled "Harvey Scherer, Administrator of the Estate of Vivian Thomas Smith, deceased, vs Louis E. Dearborn, O. G. McComb, A. F. Parson and Lloyd C. Johnson". The defendants in this case, he said, are state employees who are being sued for damages arising from an automobile accident involving a state highway truck that was being driven by Mr. Dearborn which occurred on August 28, 1953, on the John Day Highway about 10 miles north of Vale. Mr. Smith, he said, died as a result of this accident, and Mrs. Smith suffered injuries requiring hospitalization. He recalled that the Commission, at its meeting held October 29, 1953, authorized the Chief Counsel to defend the defendants, and the Commission had further directed that the defense be undertaken with the understanding that should a judgment be entered against the defendants, the Commission would do all in its power to secure payment of the judgment by the State. He stated that an answer had been filed the previous week but the case had not yet been set for trial. He recommended that the Commission confirm its previous action authorizing the Chief Counsel to defend the state employees. Commissioner Reynolds stated that the case should be given all attention possible as it would be extremely bad for employee morale if everything possible is not done. The Commission instructed the Chief Counsel to defend the employees to the fullest extent and also authorized employment of local counsel if deemed advisable in order to secure desired results.

A form of Waiver and Release of Access Restrictions in connection with the Rose Garrett property on the Coos Bay-Roseburg Highway a short distance south of Myrtle Point was considered The Chief Counsel explained that when right of way was acquired from Mrs. Garrett in 1949, it was clearly understood that no restriction of access was to be included in the deed; however, by mistake, the deed was executed with restriction of access to the highway from the grantor's remaining property. He pointed out that this is the only property on this particular section of Highway where access is restricted, and he recommended approval of the release of the restrictions in this case in conformity with the original intent of the transaction. The Commission approved the recommendation.

The Commission gave its attention to a matter presented by the Chief Counsel concerning clarification of a slope easement which the State owns over certain property in the City of Newport on the Oregon Coast Highway. The Chief Counsel explained that during the years 1937 and 1940, the Commission acquired two parcels of land in Block 16, Nye and Thompson's Addition to the City of Newport, and the conveyance of these properties also granted to the State a "slope easement" on a strip 30 feet wide adjacent to the parcels conveyed in fee. The term, "slope easement" was neither defined nor explained in the conveyances and prospective purchasers do not wish to buy the land until the term "slope easement" is clarified. This can be accomplished, he said, by execution of an indenture which will not take away from the State any rights the State now has but will simply define and clarify the meaning of

the term "slope easement". He recommended that the indenture be approved. The Commission accepted the recommendation.

A written report was submitted by the Chief Counsel concerning the status of litigation with Mr. Fred Rawson concerning the removal of cinders from Round Butte in Cove State Park. The Chief Counsel outlined briefly the acquisition of this area by the State from Jefferson County and from the United States Government. On February 17, 1951, six mining claims were filed on the slope of the Butte by the Rawsons who sought to prevent the State's contractors from using cinders from an area covered by their minimg claims. This suit was dismissed. The United States brought suit against Mr. Rawson and enjoined him from removing cinders from a 20-acre tract. Mr. Rawson started removal of cinders from an adjoining tract, and on August 3, 1953, the State commenced action against him in the sum of $3,000 for restoring to a sightly condition a portion of the State's property torn up by the Rawsons. A new complaint, he stated, was filed on February 11, 1954, to enjoin the Rawsons from removing cinders from state property This latter action, he stated, was taken in compliance with instructions from the Commission that action be taken to prevent the Rawsons from removing cinders and despoiling the Round Butte area. The trial in this case, he added, is scheduled for May, 1954. The Commission accepted the report

The Chief Counsel submitted a report on a claim filed by Natt McDougall Company, Contractors, for extra compensation due to hard materials encountered in the performance of their contract for construction of the Low Pass Section of the Siuslaw Highway in Lane County, known as State Highway Contract No. 3754. The Contractors claimed that the unclassified material in the bid cut, totaling about 475,000 cubic yards, cost them about $225,000 more than they would receive on the unit price bid of $0.45 per cubic yard. They alleged that, from the information on hand at the time that bids were received, they thought the material could be removed with a shovel with little or no blasting, whereas it proved to be very hard rock and required heavy blasting. They asked to be reimbursed for a loss on the entire job of $175,000. The Chief Counsel advised that the claim, as alleged, does not come within the provisions of paragraph 8-11 of the contract; also, that it is his opinion that the Engineer does not have authority to prepare an estimate for this additonal compensation to be paid to the contractor, nor does the State Highway Commission have the legal authority to pay this claim. As a result of the discussion, the Commission decided to deny the claim The Chief Counsel indicated that, if the claim were denied, Natt McDougall Company probably will attempt to recover their loss by court action.

A status report on claims for damages resulting from changing the grade of Marion Street in connection with construction of the east approach to the Marion Street Bridge in Salem was presented by the Chief Counsel It appears that eight claims ranging from $10,000 to $30,000 and totaling $153,000 have been filed, and that one additional claim in the amount of $2,500 has been settled by negotiation. The report was accepted by the Commission.

Authority was granted the Chief Counsel to start legal proceedings to collect damages from the following:

1. CAO 53-25-Lewis Oil Company and Orvel Berry: Damages caused a state vehicle by an accident occurring on March 20, 1953.

2. CAO 53-67-Dale Prutzman and E. A. Mock and Sons: Damages caused a state vehicle by an accident occurring on August 2, 1953.

3. CAO 51-55-Green and Andal Logging Company and Glenn Yenglin: Damages caused a bridge on the Oregon Coast Highway by a collision occurring on June 22, 1951.

The Chief Counsel reported that in the case of State vs Binford the Circuit Court allowed defendants' motion to strike from the complaint the language allowing the Highway Commission to close an access for all purposes in the event of any violation of use restriction. The Court was of the opinion that such action should not be permitted without a judicial determination that a violation of use restrictions had actually occurred. The Chief Counsel advised that the effect of this ruling could be overcome by the use of language which would make a reserved access a determinable property right, subject to defeasance upon the happening of a condition. The Chief Counsel recommended that in lieu of the present language authorizing the Commission to close accesses, substantially the following be used: "Reserving to defendants, their heirs and assigns, for service of the said remaining land, only so long as no use is made thereof other than as hereinafter specified, the following: * * *" The Commission authorized insertion of this language in the complaint in the case of State vs Binford, in all complaints previously filed in which the defendants successfully attack the language authorizing the Commission to close accesses, in all complaints filed in the future, and in all future options and deeds.

The meeting recessed at 12:00 noon and reconvened at 2:00 p.m. in the same room with the same persons present and participating.

The Commission approved a report from the Engineer that pursuant to authority heretofore granted him by the Commission, he has awarded contracts, as follows, the conditions governing the awards having been satisfied, and that contract and bond forms have been sent to the respective contractors for signature:

1. Grading the Gervais-Hayesville Unit, Willamette River-Hayesville Section of Portland-Salem Expressway in Marion County. Bids received December 11, 1953. Conditions of award satisfied January 22, 1954. Roy L. Houck & Son, Salem, contractor.

2. Grading and oiling on Table Rock Creek-Black Bridge Section of Baker-Homestead Highway in Baker County. Bids received December 10, 1953. Conditions of award satisfied January 22, 1954. Newport Construction Company, Portland, contractor.

3. Construction of Seven Oaks Overcrossing on Pacific Highway in Jackson County. Bids received December 11, 1953. Conditions of award satisfied January 22, 1954. Bessonette & Graff, Medford, contractor.

4 Grading and paving the Salem-Lancaster Drive Section of North Santiam Highway in Marion County. Bids received December 11, 1953. Conditions of award satisfied January 22, 1954. Fred H. Slate Company, Oreg. Ltd., Portland, contractor.

5. North Eugene Overcrossing Widening on Pacific Highway in Lane County. Bids received January 21, 1954. Conditions of award satisfied January 26, 1954. Tom Lillebo, Reedsport, contractor.

6. Work on Sixes Junction Section of Sixes-Dry Creek County Road in Curry County. Bids received January 22, 1954. Conditions of award satisfied February 15, 1954. Fred H. Slate Company Oreg. Ltd., and E. C. Hall Company, Portland, contractor.

The Engineer reported that because of damage caused by high water a 50 percent reduced load limit was placed on the Williams Creek Bridge on the Williams Secondary Highway No. 261, effective January 28, 1954, and that on February 3 he removed it when repairs were completed.

The Engineer also reported that on February 2, 1954 because of improved conditions he removed the 50 percent reduced load limit which has been in effect on the Klamath Secondary Highway between M. P. 41.07 and M. P. 25.17 since October 9, 1953. The Commission approved both reports.

Construction of guard rail on the Snow Hollow Hill Section of the Enterprise-Lewiston Highway was considered by the Commission. The Engineer recalled that this matter was before the Commission at its January meeting at the request of the Wallowa County Judge. An investigation by the Division Engineer, he said, reveals no particular hazard except possibly when cars are driven down the hill at an excessive rate of speed. This section, he pointed out, is still under control of the Bureau of Public Roads, and a careful study will be made when the final pavement is constructed. No action was taken by the Commission.

Consideration was given to a request submitted by the Morrow County Court that the State place on the State Secondary Highway System a road leading northerly from US 30, about $4\frac{1}{2}$ miles east of Boardman, to a junction with US 730 where it connects with the Paterson Ferry Road. The Engineer reported that the proposed roadway is about $4\frac{1}{2}$ miles long and the cost to construct it he estimated at $154,000. He pointed out that there are no funds available to finance the construction,and he questioned that such road should be a part of the state highway system. He suggested that the Morrow County Court be advised to take action to place the road on the Federal Aid Secondary County Road System so it will be eligible for federal-aid secondary funds that become available to Morrow County. The Commission approved the suggestion and so ordered.

The Commission again gave consideration to a proposal first submitted at the January Commission meeting by Multnomah County that the State and the County join on an equal basis in constructing a ramp at the east end of the Ross Island Bridge to facilitate movement of east and southbound traffic. The Engineer reported that the estimated cost of such facility is approximately $375,000. He recommended approval of the County's proposal and that the ramp be constructed this year on condition that Multnomah County will definitely assume payment of one-half the costs involved. He pointed out that the project is in the Commission's construction program for 1956 without County cooperation and that the County has agreed to pay half the cost of the project only if the work is done this year. The Engineer stated that he has a letter from Commissioner McIver approving the project as outlined. Chairman Chandler and Commissioner Reynolds

also expressed their approval, making the decision unanimous. The Engineer was authorized to proceed accordingly.

A request from the District Forester of the U. S. Bureau of Land Management for permission to construct a half-mile section of roadway on right of way acquired for the Little Butte Creek Secondary Highway east of McAllister Springs in Jackson County was discussed. The Engineer stated that the Bureau wishes to construct the road to permit the harvesting of over-ripe timber on adjacent land, and at the present time there is no satisfactory road in existence along this half-mile section. The cost of construction, he said, has been estimated at $30,000 which the Bureau will pay. He recommended approval of the request on the condition that plans and specifications meet highway department standards and that construction be carried on under highway department supervision. The Commission approved the recommendation with the understanding that the cost is to be borne by the Bureau of Land Management and that the road as constructed is to remain a county road.

The Commission discussed briefly the Engineer's report on a request from the North Tillamook Chamber of Commerce for construction of a cutoff highway between the Sunset Highway at a point near Elsie and the Necanicum Highway a short distance north of Mohler. The Engineer recalled that the matter was considered by the Commission in 1948 and that the cost of construction as indicated by a reconnaissance survey at that time was estimated at $1,600,000. The cutoff, he said, will save about five miles between common points, but will require 13 miles of new construction, and on the basis of traffic studies, will serve only about 160 vehicles daily. The benefit quotient, he stated, is only 0.50 which indicates that to build the road would be a poor investment. The Commission deferred action on the matter pending appearance of a delegation on the following day. (The Commission made no commitment on construction of this cutoff when the delegation appeared but advised that the project will be given consideration.)

The Commission considered and accepted a report submitted by the Engineer showing the status of the program to remove danger trees from state highway rights of way. The Engineer pointed out briefly that of the 15,254 trees originally classified as danger trees, 9,254 were located on private property or national forest lands and the 6,000 remaining are located on state highway rights of way. Since May 1, 1951, he said, 4,500 trees have been removed from the right of way, leaving a balance of 1,500 yet to be removed as the State's obligation. However, 900 additional danger trees accrued during 1952 due to pine beetle loss, logging operations and wind storms, making a total of 2,400 trees in this category. He pointed out that even though danger trees are removed, new ones are being continually added due to trees that have died, logging, and wind storms. At the end of 1953 there remained 2,018 danger trees even though 4,409 had been removed during the year. The Commission in accepting the Engineer's report ordered continuance of the program of removing dangerous trees from the highway, and also ordered that the highway department's efforts to eliminate this particular type of hazard be given newspaper publicity.

Consideration was given to a report submitted by the Engineer concerning development of view points on the Weston-Elgin Secondary Highway near Tollgate

Summit. The Engineer stated that an investigation was made but there was considerable snow on the ground at the time and heavy fog in the valley, so an adequate determination for a proper site had to be deferred. Arrangements have been made, he stated, to have an engineer to inspect the location again with Mr. E. J. Haney, Chairman of the Roads Committee of the Weston Chamber of Commerce, when the snow is gone and the view is unobstructed by fog after which a full report will be rendered. The Commission accepted the Engineer's report.

The Commission gave its attention to a report submitted by the Engineer concerning the status of the proposed extension of the Starkey Secondary Highway to a connection with the Pendleton-John Day Highway near Ukiah. The Engineer recalled that the Commission previously instructed him to contact the county courts of Union and Umatilla Counties relative to placing this extension on the federal-aid secondary system. These contacts, he stated, have been made, and the Umatilla County Court expressed definite interest in the road but was doubtful if construction could be financed as a federal-aid county road due to lack of county funds. The Court did, however, adopt a resolution consenting to placement of the road on the State federal-aid secondary system if the Highway Commission wishes to do so. The Union County Court, he said, was definitely opposed to establishment of the portion in Union County as a federal-aid secondary county road and did not show much interest in placing the road on the State secondary system. They did, however, adopt a resolution to approve it as a state secondary highway if the Commission desired to take such action. He recommended that the road be placed on the State secondary system and also on the federal-aid secondary system. The Commission deferred action in this matter until such time as Commissioner McIver is present.

Proposed park development at Rooster Rock State Park on the Columbia River Highway was discussed by the Commission. The Engineer pointed out that the parks budget contains an item of $65,000 for development of a park at this location, together with an approach to the highway, and the widening of the highway sufficiently to provide for a left-turn refuge. Considerable study has been given this matter, he said, and it is his considered opinion that the approach should not turn off at grade level due to the extreme hazard of left-turn movements on this high-speed highway, and the anticipated large number of people who will use the park facilities. He favored a traffic interchange which he estimated will cost $115,000, and he recommended that the park development be delayed until such interchange can be financed and the complete improvement effected at one time. After some discussion of the matter, the Commission ordered that the park development be deferred until 1955.

A report by the Engineer concerning reclassification of the Powell Butte State Secondary Highway in Deschutes and Crook Counties was considered by the Commission The Engineer advised that a test run with equipment having an overall length of 55 feet was made over this highway and it was observed that the equipment was able to travel the entire length of the highway without encroaching on any portion of the opposing traffic lane. He recommended in view thereof that it be reclassified as a Group I highway. The Commission approved the recommendation.

The Engineer requested authority to place asphaltic pavement on an approximate five-mile section of The Dalles-California Highway between M. P. 239.00 and M. P. 244.00, near Spring Creek Hill. He stated that last year a ten-mile section had been repaved ending on the north at the top of Spring Creek Hill, and that the five-mile section immediately north of this section is now showing considerable distress. He estimated the cost involved at $87,000, and he recommended approval of the project, the financing of the same to be accomplished by transferring $52,500 from a rock production project on the same section and by transferring $35,000 from a rock production project on the Green Springs Highway. The Commission approved the recommendation and ordered the work performed by contract.

Authority was also requested by the Engineer to place three inches of fine crushed rock on a 12-mile section of the Starkey State Secondary Highway between Hilgard and Starkey. He stated that it is difficult to maintain this section because it has a very coarse material surfacing. He also said that to improve the road so that it can be maintained properly will require the placement of approximately 15,000 cubic yards of crushed rock at an estimated cost of $50,000. He recommended approval of the project which, he said, will be financed with monies from the reserve in the State Construction Budget. The Commission approved the recommendation.

Authority to construct a terraced bench near the top of a cut slope on the reconstructed Modoc Point-Barkley Springs Section of The Dalles-California Highway was requested by the Engineer. He advised that in reconstructing the highway high cut banks were made in talus rock deposits, and since then loose rocks from the slopes have been falling onto the roadway causing a traffic hazard. This condition, he said, can be corrected by constructing a bench near the top of the slope to catch the rocks which can be removed as they accumulate. He estimated the cost to construct such a bench at $60,000 and suggested approval of the outlay as a safety measure, the funds to be secured from an estimated saving of $30,000 in approved oiling projects in Division 4 as contained in the Betterment Budget, and by transferring $30,000 from the amount budgetted for climbing lane construction on The Dalles-California Highway in Wasco County. The Commission approved the project as recommended.

The matter of rocks falling from slopes on the Oregon Coast Highway between Depoe Bay and Otter Crest, particularly near Rocky Creek, was brought up by Chairman Chandler. He stated that he personally had noticed the condition, and that it had been called to his attention by others, that a considerable hazard is caused to property below the highway due to rocks rolling down off the highway. He commented that the Funderburk and Stoen Construction Company, to whom this highway contract was awarded, has been careless in its construction operations. The Engineer was instructed to investigate the condition and render a report as to what needs to be done to eliminate the dangerous condition.

The Commission discussed and approved the Engineer's request for authority to conduct the following relocation surveys:

1. A six-mile section of the Old Oregon Trail between Hermiston and the junction with US 30 east of Stanfield.

2. Portions of the Pacific Highway subject to flood conditions between Grants Pass and the town of Rogue River.

The Engineer presented for the Commission's consideration a relocation survey of the Warner Station Section of the Powers Secondary Highway in Coos County. He explained that this project is designed to place the highway above flood waters of the Coquille River for a distance of approximately 3,500 feet by relocating it on higher ground a short distance south of the present highway. He recommended that the survey be approved. The Commission accepted the Engineer's recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission gave consideration to requests from the County Courts of Klamath County and Lincoln County for additions to the Federal Aid Secondary County Road Systems as follows:

1. Klamath County. Merrill-California State Line. Road to be known as FAS 583, extending south from the Klamath Falls-Malin State Highway in Merrill to the California State line, a distance of 1.5 miles.

2. Lincoln County. Proposed FAS highway No. 584, extending southerly from the Corvallis-Newport Highway, a distance of 5.3 miles, to Elk City, also, proposed FAS highway No. 585, extending easterly along the north bank of Yaquina Bay from Newport to Toledo, a distance of 13.5 miles.

The Engineer recommended that both requests be approved and that he be authorized to present the requests to the Bureau of Public Roads for its approval. The Commission approved the recommendation.

A request from the County Court of Klamath County for permission to do oiling work at county expense on Federal Aid Secondary Highway No. 418, and for transfer of funds set up for this project to construction of a bridge on FAS Highway No. 583 was considered by the Commission. The Engineer advised that the 1954 Federal Aid Secondary County Road Program in Klamath County includes an oiling project 6.4 miles long on Federal Aid Secondary Highway No. 418 at an estimated cost of $35,000 and that the county now wants to do this work with its own forces and transfer the $35,000 to construction of a bridge on Federal Aid Secondary Highway No. 583. He recommended that the county's request be approved. The Commission approved the request.

A request from Linn County for deletion of a 5.7-mile oiling project on Federal Aid Secondary Highway No. 576 from the presently approved program and substitution therefor of a bridge over Onehorse Slough on FAS highway No. 212 had the attention of the Commission. The Engineer explained that investigation revealed that the 5.7-mile section of highway No. 576 is not sufficiently stable to permit the placing of an oil mat surfacing, and cannot be put in condition by the county until the spring of 1955 so the county has asked for

substitution of the bridge project which is estimated to cost $35,000. This change, he said, will result in an authorized program of $95,000 for Linn County, as compared with the original authorized amount of $112,000, and will leave a balance of $17,000 in the county's 1954 funds which it wishes to carry over for a future program. Upon the Engineer's favorable recommendation, the Commission approved the County's request.

Consideration was given by the Commission to a request from the Albany City Council for illumination of the Albany Overpass on the Pacific Highway East. The Engineer stated that although there probably would be some benefits derived from a traffic safety standpoint, in his opinion, the project is a city obligation inasmuch as the overpass and the ramp connections are all within the city of Albany. He pointed out that it has been the policy of the Commission in the past not to provide illumination within corporate limits of cities and towns. The request was denied by the Commission as a matter of policy.

Consideration was also given to a request from the Burlingame-Fulton Park Community Club, Portland, for an extension of the existing illumination along Barbur Boulevard within the city of Portland. The Engineer stated that the entire section on which illumination is requested is within the city limits of Portland and that it is contrary to the established policy of the Commission to contribute state funds for projects in such locations. He recommended that the request be denied. The Commission accepted the recommendation.

The Commission discussed a request from the Pilot Rock Lumber Company and the Kerns Company of Oregon, Ltd., urging the rerouting of US 395 south of Pendleton so that it will merge with the present southeastern terminus of the two one-way streets through Pendleton, namely Court Street and Dorian Street. The Engineer advised that many years have been spent studying various possibilities in this vicinity and that all of the studies indicate that elimination of the crossing on Emigrant Street is the best. If a crossing were built to connect with the one-way street couplet on US 30, he said, it would result in a roundabout route and would not permit the closure of the present Emigrant Street grade crossing. He pointed out that the Emigrant Street grade separation project is well along in the planning stage and that it is planned to receive bids for its construction about June. He recommended that the request for the change in routing be denied and that the present approved plan be followed. The Commission accepted the recommendation.

A request from Multnomah County for approval of a project to be improved with 1954 Federal Aid Secondary County Road Funds was considered. The Engineer reported that Multnomah County has $192,000 available for 1954 and wishes to spend it for improving the recently designated Federal Aid Secondary Highway No. 582, which extends southeasterly from East Burnside Street to a connection with the Mt. Hood Highway, by-passing the city of Gresham on the north. The Commission approved the project upon favorable recommendation by the Engineer.

Consideration was given to a request from the Willamina City Council for construction of curbs and full street width pavement along the Salmon River Highway through the city of Willamina. The Engineer stated that the City is planning an extensive paving project on its residential streets but is hesitant to raise funds for

off-highway streets when the state highway route is not curbed and paved. He pointed out that the ultimate route of the Salmon River Highway will by-pass Willamina, and he expressed the feeling that property owners along the highway route should be required to pay for the paving of this street under the Bancroft Act the same as the owners of property fronting on the other streets are required to do. The matter was discussed at some length, but the Commission deferred action until discussion of the subject with a delegation on the following day. (Chairman Chandler informed the delegation that the Engineer would secure data on the cost of constructing the curbs and the full width pavement, but the Commission can give no encouragement now as to whether or not the work would be performed by the State.) (See ahead for additional paragraph.)

A request was presented from the city of West Linn for additional traffic control at the intersection of Broadway Street (ORE 212) and the Oswego Highway (ORE 43) in West Linn. The Engineer advised that the intersection, which is at the west end of the Willamette River Bridge between Oregon City and West Linn, has been investigated and that the results indicate the need for a flashing beacon. He recommended that one be installed by the State at an estimated cost of $400 provided the city of West Linn will maintain the signal and will furnish the electrical power to operate it. The Commission accepted the recommendation.

The Commission gave its attention to a proposed agreement with the Southern Pacific Company and the city of Oswego pertaining to installation of traffic signals at the crossing of the Oswego Highway and the Railroad Company tracks in the city of Oswego. In the interest of safety for traffic, the Engineer recommended approval of the installation. The Commission approved the recommendation and the agreement.

The Engineer requested an additional authorization of $53,500 for the Lake of the Woods Junction-Wocus Marsh Section of the Klamath Lake Secondary Highway project, Contract No. 3719. The Engineer explained that although this is the third request for additional funds, the final cost of the project on a per-mile basis is comparable with the average per-mile costs of other highways of this type. The Commission approved the request.

A request was discussed from Mayor R. R. Walker of Merrill for a survey of eight city blocks which the city proposes to improve with Special State Tax Street Funds. Mayor Walker also asked the Commission to widen the Klamath Falls-Malin Highway through the city at the same time that the city project is constructed, pointing out that if both projects are constructed simultaneously, a saving in funds will accrue. The Engineer stated that the survey requested has already been completed and that the city street project will be contracted as soon this year as is possible. Concerning the highway widening request, the Engineer advised that no funds as yet have been allocated for such project and none are available. The Commission ordered that Mayor Walker be advised accordingly.

The Commission gave attention to a letter from Mr. C. A. Tom, County Judge of Sherman County, requesting state assistance in completing a

1¼-mile section of the Fulton Canyon Highway. The Engineer pointed out that this is one of two Federal Aid Secondary County Roads in Sherman County, and upon completion of a contract that is now underway, this 1¼-mile section will be the only unimproved section on the County's Federal Aid Secondary System. Sherman County, he said, will probably receive about $53,000 in the 1955-56 biennium for county roads, and he gave as his feeling that these funds should be sufficient for the County to complete this highway improvement. He pointed out that the 1¼-mile section is not a part of the State Highway System, and he recommended that no state funds be diverted for its improvement. The Commission approved the recommendation.

The Commission considered and by unanimous vote granted the following requests for extensions of time within which to complete state highway contracts, all being in accordance with the Engineer's recommendations:

1. E. C. Swaggart Company, Contract No. 3841 for rock production on the Endicott Creek-Mystic Creek Section of the Coos Bay Roseburg Highway in Coos and Douglas Counties, requested an extension of time from November 15, 1953 to December 8, 1953, within which to complete this job. The Engineer recommended that the extension of time as requested be granted without penalty.

2. LeRoy C. Weideman, Contract No. 3940 for construction of park facilities in the Harris Beach Park Camping Area on the Oregon Coast Highway in Curry County, requested an extension of time from November 30, 1953 to March 30, 1954, within which to complete this project. The Engineer recommended that the extension of time as requested be granted without penalty.

3. C. J. Eldon, Contract No. 4034 for construction of the "D" River Dolphins on the Oregon Coast Highway in Lincoln County, requested an extension of time from December 31, 1953 to April 1, 1954, within which to complete this project. The Engineer recommended that the extension of time as requested be granted without penalty

4 Birkemeier and Saremal, Contract No. 3758 for construction of the Nyberg, Sagert, Norwood, and Stafford Road Undercrossing Structures on the West Portland-Hubbard Highway in Washington County, requested an extension of time from January 31, 1954 to April 30, 1954, within which to complete this project. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

5. Wold Brothers, Contract No. 3830 for construction of park facilities in Humbug Mountain State Park on the Oregon Coast Highway in Curry County, requested an extension of time from October 31, 1953 to February 11, 1954, within which to complete this project. The Engineer recommended that the extension of time as requested be granted without penalty.

(For further details regarding the extensions of time listed above, see copies of the Contractors' requests and the Engineer's recommendation to the Commission on file

in the respective contracts in the Secretary's Office.) *

---

* FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above was based upon the recommendations of the State Highway Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that Contract Nos. 3741, 3744, 3771, 3830, 3841, 3916, 3936, 4030, and 4047 for construction of state highway projects have been completed according to requirements of the contracts or modifications thereof and that said projects are now ready for acceptance. After due consideration, the Commission accepted said contracts by adopting the attached resolution relative thereto marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Attention was given by the Commission to a request submitted by John W. Krebs in behalf of farmers and stockmen in vicinity of Arlington and Heppner, for the burning of dry vegetation on US 30 between the John Day River and Boardman, on the Heppner Highway between Heppner and Cecil, and on the John Day Highway immediately south of Arlington. The Engineer recalled that a similar burning operation was conducted last year in cooperation with the farmers in the area mentioned, and the results proved quite satisfactory. The cost to the State in 1953 for such work, he said, was $3,076, or $32.50 per mile of fireguard burned and the cooperation by the property owners amounted to $1,200. He recommended performance of the same service this year under the same cooperative basis as was in effect in 1953. The Commission accepted the recommendation.

The Commission gave consideration to a request from N. H. Beal, Aurora, Principal of the North Marion Union High School, for widening of US 99E at the entrance to MacLaren School for boys, north of Woodburn. The Engineer advised that the widening was requested on the basis that it would facilitate and make less hazardous the turning movement by school buses into the school grounds. He estimated that construction of a left-turn refuge with illumination would cost between $6,000 and $8,000. He recalled that in response to a previous request, the State had widened the culvert at the entrance and the roadway had been paved. As there is only a small amount of traffic in and out of the MacLaren School and as the turning movement is not particularly hazardous in daylight, he recommended that the request be denied. The recommendation was accepted by the Commission.

A request from the U. S. Bureau of Land Management for fence construction along the Central Oregon Highway between Riley and Hines in Harney County was considered. The Engineer explained that bids are being called at this meeting for reconstruction of the Sage Hen Hill-Hines Section of this high-

way, and that fencing has been provided for throughout except for a distance of about one mile through Federally owned land. He further stated that it would be a definite hazard to traffic to have stock on the highway; accordingly, he recommended approval of the fencing of the Federal lands as a part of the right of way costs on this section, the estimated cost of the fencing being $1,200. The Commission approved the project as recommended.

The Engineer stated that Multnomah County has requested the State Highway Department to make an investigation of the Morrison Street Bridge to determine the structural ability of the bridge to handle the present traffic load. He recalled that a similar study was made for the County in 1919 and advised that all of the data from that study is still on hand. He mentioned that when the investigation was made, it was anticipated that with certain repairs and improvements the bridge would carry traffic for at least ten or fifteen years. Due to the fact that a much greater length of time has elapsed and the volume of traffic has greatly increased, he recommended that a re-examination be made and the information be furnished the County as requested, the expense thereof to be borne by the State as provided by law. The recommendation was approved by the Commission.

The Engineer reported that in construction of the T. H. Banfield Expressway between the Willamette River and 42d Avenue, there are several electrical installations connected with the Portland fire alarm system. Also the Pacific Telephone and Telegraph Company must reconstruct its main conduits on the 21st Avenue bridge. The Portland Fire Bureau, he said, states that the work on the fire alarm system can be more economically performed if completed at the same time the Telephone Company does its work, and they estimate the cost involved at $7,000. He pointed out that in prior agreements with the City, the State has paid the cost of such changes on city-owned facilities. Accordingly, he recommended that the City be reimbursed in the amount of $7,000. The Commission approved the recommendation.

The Engineer reported that the following cities and towns have fulfilled legal requirements for expenditure of State Tax Street Funds accrued to them as follows:

During the First six-months' period of 1951:

Joseph	$2,042.74

During the Second six-months' period of 1952:

Grass Valley	$ 527.81
Richland	595.48

During the First six-months' period of 1953:

Athena	$2,486.49
Bonanza	858.67
Grass Valley	646.49
Jefferson	2,108.55

Joseph	$2,208.00
Mitchell	1,375.86
Gold Beach	2,244.47

During the Second six-months' period of 1953:

Amity	$1,940.73
Arlington	1,981.16
Athena	2,165.99
Barlow	216.60
Boardman	346.56
Falls City	2,463.45
Gervais	1,319.81
Grass Valley	563.16
Halfway	901.05
Joseph	1,923.40
Juntura	309.01
Lexington	684.45
Riddle	1,830.98
Sumpter	421.65
Waldport	1,989.82
Weston	1,960.94

During the First six-months' period of 1954:

Arlington	$2,412.03
Bay City	2,675.73
Butte Falls	1,307.98
Canyonville	3,027.34
Culver	1,058.34
DeLake	2,264.35
Eagle Point	2,134.26
Lexington	833.31
Lostine	625.86
Mitchell	1,459.17
Sublimity	1,290.40
Waterloo	632.89
Yamhill	1,895.17

He stated that the plans for the improvements proposed to be financed with the funds under discussion have been examined and found satisfactory, and he recommended approval of the plans by the Commission. The Commission accepted the recommendation by adopting the attached resolutions relative thereto marked EXHIBITS "F-1" through "F-5", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission gave its attention to several requests for establishment of reduced speed zones on certain state highway sections. The Engineer reported that each request hereinafter described, has been carefully investigated and that the recommended procedure in each case is based on facts dis-

closed by the studies. The Commission accepted the Engineer's recommendation in each instance by adopting the attached resolutions relative thereto marked EXHIBITS "G-1" through "G-3" and "H-1" through "H-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

1. Establishment of a reduced speed zone on the Oregon Coast Highway northwest of the city limits of Coquille: The Engineer recommended the establishment of a 40-mile per hour speed zone between a point 0.19 mile west of the west city limits of Coquille (M. P. 272.27) and the west city limits of Coquille (M. P. 272.46). (See EXHIBIT "G-1")

2. Request for an extension of the existing 40-mile per hour reduced speed zone on the Hood River Secondary Highway between Bradley Corner and Windmaster Corner: The Engineer recommended establishment of a 40-mile per hour speed zone between Martin's Country Market (M. P. 1.66) and a point 0.29 mile south of Rockford Road (M. P. 3.42). (See EXHIBIT "G-2")

3. Request for a reduced speed zone on the Oregon Coast Highway just north of the McCullough Bridge across Coos Bay: In view of the physical conditions and the prevailing speeds, the Engineer recommended that this request be denied. The Commission adopted the recommendation.

4. Reduced speed zone on the Columbia River Highway in the community of Irrigon, Morrow County: The Engineer recommended that a 40-mile per hour speed zone be established between a point 0.34 mile west of the Ordnance Depot Road (M. P. 183.42) and a point 0.20 mile east of Houghton School (M. P. 184.35) except that between M. P. 183.80 and M. P. 184.00 the indicated speed shall be 20 miles per hour during the hours when school children cross the highway, as provided by law. (See EXHIBIT "G-3")

5. Request for a reduced speed zone on the Pacific Highway in the vicinity of Saginaw School, approximately four miles north of Cottage Grove: The Engineer recommended that Reduced Speed Zone Resolution No. 107, dated April 8, 1953, be rescinded and that a new resolution be adopted establishing a 45-mile per hour speed zone between M. P. 141.80 and M. P. 142.50, except that between M. P. 142.05 and M. P. 142.28, a 20-mile per hour zone shall be in effect during the hours when school children are going to or from school. (See EXHIBIT "H-1")

6. Request for a reduced speed zone on the Tualatin Valley Highway just east of the east city limits of Beaverton. The Engineer recommended that a reduced speed zone dated November 9 and 10, 1950, be rescinded and that the reduced speed zones as follows on the Tualatin Valley Highway be established in lieu thereof: (a) From Sunset Highway (M. P. 0.00) to east limits of West Slope (M. P. 1.25) -----45 miles per hour, (b) East limits of West Slope (M. P. 1.25) to a point west of Sunset Road (M. P. 1.67) -----35 miles per hour, (c) A point west of Sunset Road (M. P. 1.67 to a point 0.20 mile west of Ellis Avenue (M. P. 2.84) -----45 miles per

hour, and (d) From 0.20 mile west of Ellis Avenue (M. P. 2.84) to east city limits of Beaverton (M. P. 3.18)-------35 miles per hour. (See EXHIBIT "H-2")

The Commission authorized payment of out-of-state traveling expense for the following:

1. W. C. Williams, Deputy Highway Engineer, to attend a national meeting of the Joint Cooperative Committee of the American Association of State Highway Officials and Associated General Contractors in Los Angeles, California on March 3, 1954--estimated cost $120.70.

2. W. C. Williams, Deputy Highway Engineer, to go to Malad, Idaho and Ogden, Utah on March 11 and 12 in connection with the test road project in Idaho--estimated cost $100.

3. R. H. Baldock, State Highway Engineer, to attend a special committee meeting of American Association of State Highway Officials in Seattle, Washington on March 7-9, 1954--estimated cost $50.

4. Dennis D. Clarke, Assistant Director of Travel Division, to attend the Travel and Vacation Show in Los Angeles, California, during April 12-28, 1954--estimated cost $265.05.

A request from the City of Port Orford for the opening of Fifteenth Street at its connection with the Oregon Coast Highway was considered by the Commission. The Engineer advised that this street is one of those closed by agreement when plans were made for the highway improvement through Port Orford. Further, that a recent investigation reveals that the opening of Fifteenth Street from the east would not particularly interfere with highway traffic. He recommended in view thereof that the City's request be approved. The Commission approved the recommendation.

The Commission gave its attention to a petition submitted by residents of Wecoma Beach, Lincoln County, requesting investigation of alleged hazardous conditions at the intersection of Holmes Road with the Oregon Coast Highway near Wecoma Beach. The Engineer advised that careful investigation has been made of the conditions referred to and no unusual hazards were found. He pointed out that during the past six years, there have been only five reported accidents at this location, none of which involved vehicles entering the highway from Holmes Road. However, the sight-distance along the highway is frequently restricted by the double parking of produce trucks in front of the store at this location, which practice the store owner is going to stop. In view of the favorable accident record and the apparent lack of need for further traffic restriction, he recommended no particular action by the Commission at this time. The Commission adopted the recommendation

Extension of the existing contract with MacWilkins, Cole and Weber Advertising Agency, covering services rendered the Travel Division, was discussed. Carl Jordan, Director of the Travel and Information Department, explained that the existing agreement expires on the 25th day of February, 1954

and that it is proposed to extend it to June 30, 1954 so as to place the expiration date at a time more in keeping with the advertising requirements for the tourist season. He recommended that the existing agreement be extended to June 30, 1954. The Commission approved the extension.

The Commission discussed a request from the Oregon State Employees Association that the Commission authorize deductions from payrolls to pay premiums for medical and hospital coverage furnished Highway Department employees who are members of the Oregon State Employees Association which recently entered into a contract with the Oregon Physicians Service. Action on this matter was deferred until Commissioner McIver is present.

An agreement with Albert J. Hutson for removal of twenty-five danger trees from the right of way of the Hood River Secondary Highway between M. P. 1.49 and M. P. 4.1 was discussed. Mr. W. W. Stiffler, Assistant Highway Engineer, explained that the trees are a hazard to the traveling public and do not have commercial value; also, that negotiations were conducted for removal of the trees and the agreement with Mr. Hutson was the best that could be obtained, his figure for the work being $845. The Commission approved the agreement with the understanding that Mr. Hutson is to furnish an adequate bond to protect the State from liability should an accident occur by reason of his operations.

The Commission approved the Secretary's report showing papers signed by him in behalf of the Commission during the period January 18 to February 19, 1954.

The date for the next regular meeting of the Commission was discussed. The Commission decided to hold such meeting in Portland on Thursday and Friday, April 1 and 2, 1954. The Secretary was instructed to arrange for the use of the Green Room of the Imperial Hotel.

The Commission gave attention to the following items of unfinished business as shown on the Secretary's tabulation of unfinished business dated January 22, 1954:

1. Status of Starkey Secondary Highway: The Engineer's report on this matter was considered earlier in the day, but action was deferred until Commissioner McIver is present. The item is to remain on the list of unfinished business.

2. Request of Pilot Rock Lumber Company to lease state park property on Pendleton-John Day Highway ten miles south of Ukiah: Action on this matter was deferred pending discussion with the Company's representative on the following day. (Mr. Moltke of the Company was present on the next day, but the Commission again deferred decision for want of additional information.

3. Report on installation of garbage disposal facilities along the Oregon Coast and Salmon River Highways and the extent of vandalism in state parks: Reports from the Engineer and the Parks Superintendent were presented earlier in the day. The Commission ordered this item deleted from the list of unfinished business.

4. Request of Wallowa County Judge for guardrail construction on Snow Hollow Hill Section of the Enterprise-Lewiston Highway: A report from the Engineer was considered earlier in the day and the item was ordered deleted from the list of unfinished business.

5. Improvement of two curves on the Old Oregon Trail near the hospital in the western part of La Grande: The Engineer stated that his report on this subject is not complete. The Commission ordered the item deleted from the list of unfinished business. It is to be considered new business when it comes up again.

6. Development of view points on the Weston-Elgin Secondary Highway near Tollgate Summit: The Engineer's report on this subject was presented earlier in the day so the Commission ordered the item deleted from the list of unfinished business.

7 Request of the Morrow County Court that the State take over as a state secondary highway the county road which extends southerly from Paterson Ferry Road to a connection with US Highway 30: The Engineer's report on this matter was considered earlier in the day so the Commission ordered the item deleted from the list of unfinished business.

8 Proposal of Multnomah County that the State and County share in the cost of constructing a ramp at the east end of the Ross Island Bridge: The Engineer submitted his report on this matter earlier in the day when a cooperative project was authorized. The Commission ordered the item removed from the list of unfinished business.

A request was considered from the Snellstrom Lumber Company, Eugene, for permission to truck-haul logs over a short section of the Elkton-Sutherlin Secondary Highway and an approximate one-mile section of the Umpqua Highway westerly from the town of Elkton on Sundays for a period of one month. The Engineer advised the Company owns and operates a plywood mill about one mile west of Elkton and due to the fact that a county bridge over which they haul logs is being redecked, they are prevented from hauling over this bridge except on Saturday afternoons and Sundays. The Company, he said, has requested permission to haul on four consecutive Sundays, ending March 21, 1954, in order to keep the mill supplied with logs. He recommended that a special permit be granted for this purpose. The Commission approved the recommendation.

The Commission gave attention to a request submitted by the County Court of Columbia County for permission to connect a county road, known as Lindburg Road, to the new route of US 30 east of Clatskanie. The Engineer explained that the present county road parallels the new highway for a distance of about two miles before an actual connection is made; also that this two-mile section of county road is very narrow and has sharp curves and steep grades. School buses, he said, operate over the road, and the County desires a direct connection so traffic won't have to travel over two miles of poor county road. He also said that the County has agreed to construct and maintain the approximate 400-foot section if the access is granted. He recommended approvel of the request. The Commission approved the recommendation.

Consideration was given to adoption of a proposed one-way street couplet for state highway traffic in the City of Klamath Falls. The Engineer stated that a one-way street plan for Klamath Falls has been under study for some time and according to the setup, southbound traffic will use Main Street, which is the present route of US 97, and northbound traffic will cut over between First and Second Streets in the southern part of the City to Klamath Avenue which is one block east of Main Street, thence north to Broad Street and a connection with Esplanade at Spring Street. The City, he stated, plans to build a truck route which will leave The Dalles-California Highway at Second and Klamath Streets, thence easterly to Plum at Fourth, north on Plum to Oak, and thence via Spring Street to Esplanade. He added that the City intends to ask the voters to approve a bond issue to finance construction of the truck route, and in event the bond issue is approved, the State will be asked to construct the one-way couplet so that the whole plan can be put into effect simultaneously. He exhibited a map showing the routes and advised that the estimated cost to construct the couplet with necessary connections at the north and south ends is $185,000. He also commented that a delegation from Klamath Falls will be present on the following day to discuss the matter in person. Chairman Chandler recalled that the Commission previously agreed to construct the one-way street couplet at an estimated cost of $100,000, but no commitment was made for the extra amount. The Commission deferred action in this matter pending discussion with the delegation on the following day. (The delegation was informed by Chairman Chandler that the Commission will construct the one-way street couplet next year if the City will build the proposed truck route at its own cost and expense.)

The Commission gave attention to a request from Mrs. Claire Douglas, Director, Siskiyou District of Garden Clubs, for permission to erect bluebird houses on the right of way of the Pacific Highway between Central Point and Oakland. The Engineer advised that investigation reveals that about 20 of the same type birdhouses already have been erected between Central Point and Siskiyou Summit; however, all were placed beyond the limits of the highway right of way. It was his opinion that it would be bad practice to allow the birdhouses on the highway right of way because of the precedent that would be established. He recommended that the request be denied. The Commission accepted the recommendation and ordered that Mrs. Douglas be informed that the Commission feels that it will be to the best interests of the State if the birdhouses are placed entirely off the highway right of way.

Mr. W. C. Williams, Deputy State Highway Engineer reported that the U. S. Army Engineers, in connection with construction of McNary Dam, wish to acquire a small parcel of state highway land in that vicinity. The tract, he said, is an old stockpile site which lies between the highway and the railroad about two miles east of Cold Springs Junction and contains 1.26 acres which is too small for that purpose. He recommended that it be deeded to the Army Engineers for a consideration of $25 which they have offered to pay for it. The Commission approved the transfer as recommended.

The Commission discussed with the Engineer matters to be presented by the delegations on the following day but took no action on them.

Chairman Chandler reported a request from residents of Gaylord, Coos County, for improvement of three sharp curves on the Powers Secondary Highway

at Gaylord. He said that they are interested in flattening the curves so equipment 60 feet long can be operated over the road. He mentioned that these people will cooperate by furnishing equipment and he gave as his feeling that the offer has merit. The Engineer advised that the matter is now being investigated. He suggested that an agreement be prepared outlining the conditions under which the work will be done and the amount of work, so there will be no misunderstanding. He requested authority to proceed with the work when the people concerned have signed the agreement. The Commission approved the request.

The Engineer reported receipt of a resolution from Clatsop County Grange favoring a bridge across the Columbia River in the vicinity of Astoria. It was considered by the Commission, but no action was taken on it.

The Commission discussed and upon favorable recommendation by the Engineer approved an agreement with Malheur County providing for abandonment of the old route of the Vale-Cairo Junction Section of the Central Oregon Highway when the reconstructed highway has been completed. The Engineer pointed out that the agreement provides that the County shall assume certain obligations with respect to the old section when the new section is opened to travel.

Chairman Chandler mentioned a request previously submitted by the Sunset Memorial Park of Coos Bay for permission to fill in and landscape the low ground between the highway and the east boundary of their cemetery on the Oregon Coast Highway south of Coos Bay. He gave as his understanding that the project involves removal of a few trees from the right of way, the elimination of a high bank adjoining their exit road, and installation of certain drainage facilities. The Engineer was instructed to have the Landscape Engineer contact Ellen Rudnass in Coos Bay concerning details and report the findings.

Inquiry was made by Chairman Chandler as to why the rock production projects when advertised for bidding seldom agreed in quantity and location with the projects shown in the program. The Engineer explained that the rock production jobs are formulated in the field, in some instances a year ahead of contracting, and that due to unforeseen weather conditions and other causes, it is sometimes necessary to make changes. It has been the practice, he stated, to give the Division Engineer leeway in location and priority on these jobs with strict instructions to stay within the total amount allocated for his division. The Commission approved the report.

The Right of Way Engineer requested authority to purchase a small parcel of land from a Mr. Goodman along the Vale-Cairo Section of the Central Oregon Highway. The property, he said, contains 0.003 acre and is valued at $25. The Commission approved the request.

The Chief Counsel rendered a status report on the Commission's condemnation case against the Eagle Lumber Company, Portland, to acquire land that is needed as right of way for the T. H. Banfield Expressway near 42d Avenue. He said that the company has requested that all of the property that is being sought by the Commission under this case not be exclusively occupied

for highway purposes, but rather that a retaining wall be constructed by the State so as to make available to the company for passage and other use, a portion of the area being sought beneath the highway structure at this point. He recommended approval of the request. The Commission adopted the recommendation, and ordered reappraisal of the property because of the changed use and possible reduction in the area of the property being taken, and reservation unto the defendants the right to use a portion of the property together with the St ate. The Commission also authorized the filing of an amended complaint incorporating such changes if an amicable settlement of the matter cannot be reached otherwise.

The Engineer reported on the complaint of Mrs. Kathryn Moore concerning access to her restaurant business on US 99 at Wolf Creek, Josephine County. He said that the fence rails to which Mrs. Moore objected have been removed from the posts in front of her place and additional posts installed in order to prevent cars from being driven through this closed entrance; however, the posts do not keep pedestrians from walking through, and it has now been found that people park their cars on the shoulders of the highway which creates a traffic hazard. To remedy such condition, he recommended that parking be prohibited on highway shoulders in this area. The Commission approved the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "K", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission signed the following agreements and other papers:

"Lease and Sale of Road Materials" with John H. Priday covering leasing of material on Wasco County Line-Madras Section of The Dalles-California Highway in Jefferson County.

"Indentures of Access" for changes of access points for the following:

1. Turner property on Newport-Toledo Section of Corvallis-Newport Highway in Lincoln County.

2. William Blunt, Jr. property on Medford-County Farm Section of Pacific Highway in Jackson County.

"Transmission Line Easement" with Bonneville Power Administration across state quarry on Oregon-Washington Highway in Umatilla County.

"Bargain and Sale Deed" re transfer of 0.55 acre on Ochoco Highway in Crook County to State Board of Forestry for use as District Ranger Headquarters.

"Agreement" with Schnitzer and Wolf Company for rental of State property on Clay-Columbia Street Interchange, West Portland Expressway, Multnomah County.

"Waiver and Release of Access Restrictions" to correct deed from Rose Garrett, et al, to the State for right of way for Myrtle Point Section of Coos Bay-Roseburg Highway to eliminate access restrictions.

"Agreement" with Southern Pacific Company and City of Oswego re installation of traffic signals at crossing of tracks of Southern Pacific Company in City of Oswego.

"Contract Agreement" with Albert J. Hutson covering removal of 25 trees located on both sides of right of way of Hood River Secondary Highway.

"Agreement" with City of Prineville covering installation of steel poles to replace existing wooden poles supporting the traffic signals at intersection of 3d and Main Streets in Prineville.

"Indenture" clarifying the effect of a slope easement which State owns over certain property in Newport.

"Bargain and Sale Deed" to John W. Weisz for parcel of land lying in Sections 14 and 23, Township 5 South, Range 2 West, W. M., Marion County, containing 66.5 acres.

"Agreement" with City of Nyssa covering Special City Allotment project in Nyssa.

"Agreement" with City of Vale covering construction project within the City of Vale.

"Finance and Maintenance Agreements" with Grant County covering the Rush Creek-Granite Creek Section FAS project No. S-155(1) FAS 556.

"Agreement" with City of Burns covering the Special City Allotment project on Foley Drive in Burns.

"Contract" with B. H Mann covering moving bid to move Southern Pacific Depot on Calapooya Creek-Sutherlin Section of Elkton-Sutherlin Highway in Douglas County.

"Agreement" with MacWilkins, Cole & Weber covering extension of existing agreement for publicity service.

"Throughway Agreement" with Douglas County covering the Shady-Booth Ranch Unit of the Shady-Canyonville Section of the Pacific Highway as a throughway

"Option for Purchase of Land" with the U. S. Government for property located in Township 5 N, Range 30 East, W. M., Umatilla County. McNary Lock and Dam Project.

"Bargain & Sale Deed" to John Charge for parcel of land lying in Section 4, Township 7 South, Range 3 West, W. M., Marion County.

"Abandonment Agreement" with Malheur County covering the Vale-Cairo Junction Section of the Central Oregon Highway.

"Lease" from Pacific County, State of Washington, for 2 parcels of land lying in Section 24, Township 9 North of Range 10 West, W. M., Pacific County, State of Washington. 99-year lease.

"Lease & Permit" granted to Carl F. Brentano, Pacific County, State of Washington, for a parcel of land lying in Section 24, Township 9 North, Range 10

West, W M., Pacific County, State of Washington.

The Commission discussed with the Engineer the bids received during the morning session for highway construction, and at 4:00 p.m. Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the Commission's decisions being by unanimous vote:

"Blodgett Rock Production Project on the Corvallis-Newport and Eddyville-Blodgett Highways in Benton and Lincoln Counties: The Commission elects to accept the bid of Jed Wilson, Seaside, in the sum of $39,600.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Canyonville-Tiller Rock Production Project on the Tiller-Trail Highway in Douglas County: The Commission elects to accept the bid of Vernie Jarl, Gresham, in the sum of $31,590.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Grading and furnishing crushed material in stockpiles on the Shady-Booth Ranch Unit, Shady-Canyonville Section of the Pacific Highway in Douglas County: The Commission elects to accept the bid of D & H Construction Company and M. H. Hasler Construction Company of Sacramento, California, in the sum of $1,359,784.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Construction of four reinforced concrete deck girder structures on Goshen-Coast Fork Willamette River Unit of the Pacific Highway in Lane County: The low bidder, Columbia Empire Constructors, Inc., and P. S. Lord, Mechanical Contractors, Portland, was awarded the contract at their bid price of $61,860.00.

"Construction of the Coast Fork Willamette River Bridge, North Crossing, on the new alignment of the Pacific Highway in Lane County: The Commission elects to accept the bid of Tom Lillebo, Reedsport, in the sum of $149,390.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and paving the Vale Cairo Section of the Central Oregon Highway in Malheur County and paving First Street in Nyssa in Malheur County: The Commission elects to accept the low combination bid of Warren Northwest, Inc., in the sum of $498,792.50 on the Vale-Cairo Section and $15,400.00 for the Nyssa Paving Project, and the State Highway Engineer is directed to award the contracts to said bidder as soon as necessary right of way is acquired on the Vale-Cairo Section and approval of the Bureau of Public Roads is received, and when the City of Nyssa approves the city project and deposits with the Commission the sum of $2,625.00.

"Grant County Line-Lancaster Rock Production on the John Day Highway in the vicinity of Ironside, Brogan, and Jamieson in Malheur and Baker Counties: The contract

has been awarded to E. H. Itschner Company, Molalla, the low bidder, at their bid price of $64,976.00.

"Construction of the 60th Avenue Overcrossing of the T. H. Banfield Expressway in Portland, Multnomah County: Birkemeier and Saremal, Portland, the low bidder, has been awarded the contract at their bid price of $86,515.00.

"Roadside improvement project on west approaches to the bridges in West Salem, Polk County: The Commission awarded the contract to the low bidder, Sprague-McDowell Company, Seattle, Washington, at their bid price of $16,142.20.

"Deschutes River-Fulton Canyon Fencing Project on the Columbia River Highway in Sherman County: The low bidder, Colorado Fuel and Iron Corporation, Portland, was awarded the contract at their bid price of $2,783.59.

"Meacham Rock Production Project on the Old Oregon Trail in Umatilla and Union Counties: Arthur Simonsen, Baker, the low bidder, was awarded the contract at his bid price of $32,910.00.

"Dufur-Tygh Valley Rock Production Project on The Dalles-California Highway south from Dufur in Wasco County: The low bidder, C. C. Meisel, McMinnville, has been awarded the contract at his bid price of $29,280.00."

The Commission had under discussion the advisability of continuing construction of the new Columbia River Highway (US 30) easterly from the end of the improvement presently under way, near Chenoweth Creek, to The Dalles for which the sum of $665,000 has been provided in the current construction budget. It was the considered opinion of the Commission that this project is secondary in importance to reconstruction of US 30 between Kamela and Hilgard in Union County. Accordingly the Commission revised the program to provide for construction of the Kamela-Hilgard project in lieu of the other, which will be considered for a future program. The funds budgeted for the Chenoweth Creek-The Dalles project were ordered transferred to the Kamela-Hilgard project.

The meeting adjourned at 4:15 p.m. to reconvene at 9:00 a.m. on the following day in the same room.

Portland, Oregon
February 25, 1954

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Green Room of the Imperial Hotel with the following persons present and participating:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
Robert L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Commissioner McIver was excused from attending this meeting.

Bids as follows for highway construction were opened and read aloud by the Secretary at the conclusion of which he announced that the award of contracts would be made by the Commission at 3:00 p.m. in the same room:

CURRY COUNTY
LONE RANCH CREEK-CALIFORNIA STATE LINE ROCK PRODUCTION

Brookings Red-E-Mix Concrete Company, Brookings	$22,015.00
Peter Kiewit Sons' Company, Longview, Washington	30,430.00
Calkins Crushing Company, Oceanlake	32,725.00
F. L. Somers, Klamath Falls	34,850.00

CURRY COUNTY
ROCKY POINT-BRUSH CREEK SECTION STRUCTURES

Tom Lillebo, Reedsport	$137,824.00
Valley Construction Company, Portland	145,720.00
Larson Construction Company, Astoria *	149,270.00

The County Court of Harney County represented by Hon. C. W. Craddock, County Judge, and T. E. Jenkins and Lee Williams, County Commissioners, appeared before the Commission to request improvement of the Frenchglen Secondary Highway, particularly the section known as Wrights Point. Judge Craddock pointed out that the sharp curves on this section prohibit the use of large trucking equipment which now are required to detour through the Diamond area in order to reach Burns which requires extra travel distance of about 30 miles. He also requested improvement of a twelve-mile section of US 395 north of Burns, extending southerly from the Forest Boundary to the junction of US 395 with US 20. This section, he stated, was constructed many years ago and has now become badly deformed and is unsuited for present day traffic. The County, he said, is desirous of having the work done north of Burns, but improvement of the Wrights Point Section is their main objective. The Court was advised by Chairman Chandler that consideration will be given to these projects when the construction program for next year is prepared, and in the meantime an engineering investigation will be made of both jobs.

Mr. A. W. Moltke, Vice President of the Pilot Rock Lumber Company, Pendleton, came before the Commission and requested use of seven and one-half acres of state highway property on the north side of US 395 opposite the Company's logging camp on the North Fork of the John Day River, near its confluence with Camas Creek south of Ukiah. He recalled that the property was acquired by the State from the Pilot Rock Lumber Company in 1944, but the Company now needs it in connection with the expansion of its plant because it has acquired sufficient timber to assure a perpetual operation. He mentioned that it would be necessary to fall a maximum of 14 or 15 trees to accommodate their use, and he pointed out that a power company already has cut some 12 or 14 trees without permission. He mentioned that the Company has 550 people employed at this place. Commissioner Reynolds inquired how soon the Company would need the property, to which Mr. Moltke replied that it might be two years or possibly ten years. Commissioner Reynolds then remarked that the Commission might allow use of the property for a short time on a temporary basis, but not for ten years. He pointed out the hazards of people crossing the highway and inquired if one point of access would be sufficient. Mr. Moltke replied that he thought it would. Chairman Chandler concluded the interview by stating that the Commission would study the matter and give him an answer at a later date. The Parks Superintendent was instructed to investigate

the cutting of trees by the power company.

A delegation representing the Tillamook County Chamber of Commerce came before the Commission and requested an economic survey to determine the feasibility of rerouting the Oregon Coast Highway over Cascade Head south of Neskowin. The following persons were present: Charles Ross, Chairman, H. Fryer and Earl Sweet, members of the Roads and Highways Committee, Verne Tinnerstett, Manager, and Carl Bencheidt, member, Tillamook Chamber of Commerce; Arthur Waud, Manager, Oregon Coast Association; and Otto Effenberger, County Judge. Mr. Charles Ross, who acted as spokesman, declared that the existing route is circuitous, narrow and extremely crooked and that the new route would save about five miles in distance between common points. Chairman Chandler advised that an economic survey will be made to determine the feasibility of the route and that the Chamber of Commerce will be informed when the Commission has acted on the Engineer's report. The Engineer was thereupon instructed to make the analysis.

A delegation from Wallowa County, consisting of Hon. Dean B. Erwin, County Judge, Messrs. Harry Wade and V. A. Searles, Enterprise, and Mr. Ralph Watson, Joseph, was present and asked the Commission to extend the Joseph-Wallowa Lake State Secondary Highway about 1.08 miles in Wallowa Lake Park. Mr. Watson read aloud and presented a petition signed by sixty-three people of this area urging such extension from the end of the present secondary highway to the power plant and improvement of the same to state secondary highway standards. Mr. Watson also pointed out that there are a considerable number of dwellings on this section of road and that some people live there the year round. Judge Erwin stated that it is difficult for the County to maintain this piece of road. He proposed that if the State will add the section to the state secondary system, the County will take over the Flora-Spur Section on the Enterprise-Lewiston Highway, 2.9 miles in length. Chairman Chandler commented that the proposition looked feasible, but the Commission wishes to have a little more time to study it and will act today. Following departure of the group, discussion of the matter was resumed. The Parks Superintendent recommended the exchange of highways so far as the Wallowa Lake Park interests are concerned. The Engineer stated that it will cost about $20,000 to improve the new section of roadway with an oil mat surfacing. The Chief Counsel pointed out that the Enterprise-Lewiston Highway is a primary highway so removal of the Flora Spur from that system must be by action of the Legislature. However, it is within the authority of the Commission to enter into an agreement with the County Court for County maintenance of the Flora Spur pending such legislative action. As a result of discussion, the Commission approved the exchange of roads upon motion by Commissioner Reynolds, subject to the condition that the County shall acquire necessary right of way. The arrangement is to be covered by written agreement between the County and the State to the effect that the County is to maintain the Flora Spur until the legislature passes on the matter of eliminating this section from the State Highway system. The Commission also indicated that improvement of the new section of road in the park should be undertaken as soon as possible, if funds can be found in the parks budget. The Parks Superintendent was instructed to negotiate with the power company for acquisition of some of its land that is considered

necessary as an enlargement to the park. The Engineer was instructed to prepare an estimate of cost to improve the road in the park using a medium-type oil surfacing (0-11) on the assumption that the improvement of this road will be undertaken this year.

A delegation from the town of Willamina came before the Commission to urge construction of curbs and full-width pavement on the main street through their town, route of the Salmon River Highway. The following people made up the group: William Dashney, McMinnville, City Attorney; and H. A. Parrott, Donald Mitchell, and Allen C. Louden, all members of the Willamina Chamber of Commerce. Mr. Dashney explained that the city has plans to pave other city streets under the Bancroft Act, and they feel that the State should provide similar improvement on the highway where there are no curbs and surface water is carried in open ditches. The improvement is needed, he said, to attract and retain industry. He added that the city will put in sidewalks and that it is not asking the State to widen the bridge in the southwest part of the town. Chairman Chandler explained that the Commission has no information as to the cost of the project. He also pointed out that it is planned, sometime in the future, to rebuild the highway on a location that will bypass the city of Willamina so there is a question as to whether improving the present route is justified. He concluded the discussion by stating that an engineering study will be made to secure data on the cost of the project but no statement can be made now whether or not the work would be done. The Engineer was thereupon instructed to make such study and report his findings.

A group representing the North Tillamook County Chamber of Commerce came before the Commission to urge construction of a cutoff highway extending southwesterly from the Sunset Highway at or near Elsie, to a connection with the Necanicum Highway in the vicinity of Mohler. The following persons were present: K. J. Dickey, President, Wheeler; Jim Kelley, Secretary, Rockaway, Lee Mead Nehalem, and John Schibel, Neahkahnie, members; Roy Wimber, President, Nehalem Bay Salmon Association, Nehalem; Eleanor Wimber, Secretary, Nehalem Improvement Club, Nehalem; and Earl Huffman, Manager of the Cooperative in Mohler. Mr. Kelley headed the group. He recalled that in 1948 they asked the Commission to construct this cutoff, and he urged the Commission to authorize a survey at this time. Mr. Mead further stated that their group has been working for this cutoff for 25 years and that they were given to understand that an adequate connection would be provided when the Wolf Creek route was constructed. He pointed out that the proposed cutoff is partly constructed south of Elsie and that completion of the project would shorten the distance to Nehalem Bay by about nine miles. Mr. Huffman mentioned that the road would be a great accommodation to farmers in the vicinity of Nehalem Bay in the transportation of hay for their stock. Mr. Schibel recalled that one of the former governors of the State favored the proposed connection, and he gave as his feeling that Highway US 101 would be relieved of a lot of traffic were it provided. Chairman Chandler informed the group that their request would be given consideration.

Following departure of the group, the Engineer advised that from information at hand, it appears that it will cost about $1,600,000 to construct this 13-mile section. He further stated that the benefit quotient is very low, and in his estimation the project is not a very feasible one for construction at the present time.

The Right of Way Engineer requested authority to advertise for sale by the auction method a 4.3 acre-tract acquired from a Mr. McWilliams near the Columbia Gorge Hotel on the Viento-Hood River Section of the Columbia River Highway in Hood River County. This property, he stated, is outside the standard width right of way and is not needed for highway purposes. He recommended that it be sold for not less than $1,000. The Commission approved the sale as recommended by adopting the attached resolution relative thereto, marked EXHIBIT "L", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission gave consideration to the sale of timber located on property acquired from George E. Cavey for use as right of way in connection with improvement of the Comstock Section of the Pacific Highway in Douglas County. Mr. C. W. Parker, Property Manager, who was present, explained that the timber is located in the northeast quarter of the southwest quarter and in the southeast quarter of the northwest quarter of Section 16, Township 21 South, Range 4 West, W. M., and that the timber has been appraised by competent and experienced appraisers who place on it a value of $4,100. He further stated that he has received an offer to purchase this timber which, he said, is of no value for State Highway purposes, and he requested authority to advertise it for sale by the auction method at a price not less than the appraised value. The Commission unanimously approved the request by adoption of the attached resolution relative thereto, marked EXHIBIT "M", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Mr. Parker also brought to the Commission's attention the request of the Coos-Curry Pioneer and Historical Association to acquire a small parcel of property which lies between the old location of the Oregon Coast Highway and the revised location at a place known as Coaledo, Coos County. He recalled that the Commission previously authorized the conveyance of this property to the Association in some manner and subject to certain restrictions. He suggested, in view of the value of the property for commercial purposes, that the conveyance be by easement agreement rather than by deed so in the event the Association does not use the property for the purpose intended, it cannot sell it to someone else who might use it commercially. The Commission concurred in the viewpoint of Mr. Parker, and thereupon authorized him to negotiate the transaction with the officers of the Association on that basis.

The meeting recessed at 12:00 noon and reconvened at 2:00 p.m. with the same persons present and participating.

A group representing the Hood River Chamber of Commerce appeared before the Commission to request help in construction of an access road to a ski area at the end of Cooper Spur Road, and also for an improved entrance from the Columbia River Highway into the City of Hood River. The following people formed the group: Roy Webster, President; George Adams, Charles Jackson, R. Waldo Arens, and R. E. Steel, Manager, all members of the Hood River Chamber of Commerce. Mr. Steel, who acted as spokesman, introduced the members of the delegation and explained briefly what they have in mind. He gave as their feeling that they are justified in asking for help in constructing an access

road to the ski area. Mr. Arens explained details, advising that the spur road from Cooper Spur is not graveled, and if the State will build about 3/4 mile of road, the County will maintain it, and the Forest Service will construct a parking space. He estimated the cost to construct the road at about $4,000. Chairman Chandler pointed out that the Cooper Spur is a county road and that the State's cooperation to date has been limited to snow removal which, he said, is as far as the State can go. He explained further that where ski areas are adjacent to state highways, the State can assist in plowing snow to keep the road open and in providing parking space, but it cannot spend highway money to construct a road that is not on the state highway system. His statement was confirmed by the Chief Counsel.

Mr. Webster then brought up the matter of improving the west entrance of the Columbia River Highway into the City of Hood River. He asked for elimination of the right angle access and for reconstruction at an easy angle. The businessmen of Hood River and the City Engineer, he stated, have examined the situation and feel that construction of a more adequate entrance is feasible and desirable. Mr. Adams emphasized the point that tourists drive by, missing the entrance completely, and then inquire "Where is the City of Hood River?" Chairman Chandler advised that the matter will be studied by the Engineer to determine what, if anything, can be done to improve existing conditions and that the Chamber of Commerce will be informed when the Commission has reached a decision in the matter.

Hon. Paul Landry, Mayor of Klamath Falls, and Messrs. Greer Drew and Casper Moty, members of the Klamath Falls Crosstown Traffic Committee, appeared before the Commission regarding a one-way street couplet for state highway traffic in Klamath Falls. Mayor Landry stated that although the City would like to see the State construct a truck route, the City has made plans to take care of that feature by the sale of bonds, and now is asking for State aid on construction of the one-way street couplet. Chairman Chandler pointed out that the original plan for construction of the couplet involved an expenditure of only $100,000, whereas the present plan is estimated to cost $185,000. The Commission, he stated, is favorable to construction of the couplet only if the City builds the truck route. Mayor Landry commented that they wish to coordinate their plans, if possible, with construction of a viaduct on south 6th Street for which he understood money is available in 1955. Chairman Chandler stated that the necessary funds for the viaduct have been provided in the 1955 program, and if the Commission can find the $185,000 for construction of the one-way couplet, it will be built provided the City builds the truck route. Mayor Landry then inquired about the west side by-pass. The Engineer stated that the survey for this by-pass is not yet complete. Chairman Chandler remarked that the Commission doesn't know when it can build the west side by-pass because it depends on an appropriation of Federal funds by the Congress. He recalled that the Commission agreed to adopt a route and acquire the right of way for such by-pass but made no commitment as to when the work would be performed. In conclusion, he again stated that the Commission will construct the one-way couplet next year if the City meets its obligation with respect to the truck route.

Mr. W. L. Archer, Tualatin, and Mr. Howard Ellman and Mr. Paul McFarland, Sherwood, came before the Commission regarding access to the Portland-Salem Expressway at Norwood Crossing north of Wilsonville. Mr. Archer stated that removal of the access at the Norwood Crossing will require that about 200 families of

their community drive about two miles extra distance and pass through the congestion in the town of Tualatin in order to get on the Expressway. He also protested the location of a roadside picnic area in the vicinity, it being his feeling that nearby residents will be forced to lock their homes to prevent thievery and vandalism by patrons of the roadside area. He inquired as to why access to the park area is allowed while no access is permitted at the Norwood Crossing. He declared that original plans as presented to them showed access at grade at Norwood Crossing and that promises were made to them on that basis when right of way was acquired. He presented two petitions in support of this request. Mr. Ellman stated that he is of the opinion that promises made for access at Norwood Road have not been kept, and that to provide such access will not cost the State any money. Mr. McFarland also stated that access was promised when the land for the highway was purchased. It was his feeling that right of access to the highway is as important as access to the nearby park area. Chairman Chandler advised that the highway was planned as it is being constructed on a freeway basis, and that in the interests of safety, it is necessary to limit the number of accesses as much as possible which is the plan the Commission is following throughout on highways of this type. He pointed out that the people of the Norwood vicinity still have the same roads they have always had and that only one interchange has been provided in the Portland-Salem Expressway south of the Willamette River, other than those at Wilsonville and Salem, and that one is at Woodburn. He also said that he knows of no promise by the Commission that access to the highway would be permitted at Norwood Road. He concluded the discussion by stating that the Commission will get the facts from the Engineer, including a review of the situation at all points between Portland and Salem, and will then decide. The Engineer was thereupon instructed to render such a report.

The Chief Counsel presented for the Commission's consideration a form of lease agreement with Pacific County, State of Washington, covering use of the Astoria-Megler Ferry landing on the Washington side of the Columbia River. He recalled that the Commission previously agreed to pay the County the sum of $15,000 for the use of the property and that the lease provides for such payment and for rental of the property for a term of 99 years with an option to renew the lease for an additional 99 years without the payment of additional consideration. He also presented a request from Mr. Carl F. Brentano of Pacific County, Washington, who is the occupant of a portion of the property, to lease such portion, together with a form of lease agreement which provides that Mr. Brentano may use a certain area for a period of 10 years after January 1, 1954, for the sum of $25 per year, and an additional payment of $40 per year permits connection to the State's water pipe line and use of a certain amount of water therefrom. The Chief Counsel recommended approval of both agreements. The Commission approved the recommendation and thereupon signed the agreements.

The Commission discussed with the Engineer the bids received during the morning session for highway construction, and at 3:00 p.m. Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the Commission's decisions being by unanimous vote:

"Lone Ranch Creek-California State Line Rock Production Project on the Oregon

Coast Highway near Brookings in Curry County: The low bidder, Brookings Red-E-Mix Concrete Company, Brookings, has been awarded the contract at their bid price of $22,015.00.

"Construction of four concrete structures on the Rocky Point-Brush Creek Section of the Oregon Coast Highway in Curry County: The low bidder, Tom Lillebo, Reedsport, has been awarded the contract at his bid price of $137,824.00.

"Construction of South Umpqua River Bridge (North Crossing) on the Pacific Highway in Douglas County: The low bidder, Donald M. Drake Company, Portland, has been awarded the contract at his bid price of $475,365.00.

"Grading 2.79 mile on the Rush Creek-Granite Creek Section of the Ritter Road about 12.7 miles north of the town of Long Creek in Grant County: The Commission elects to accept the bid of K. C. Dack in the sum of $55,963.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of the Bureau of Public Roads and Grant County is received and the sum of $12,6[illegible].00 is deposited by the County.

"Canyon City-Seneca Rock Production Project on the John Day-Burns Highway south from Canyon City in Grant County: The contract has been awarded to E. H. Itschner Company, Molalla, the low bidder, at their bid price of $29,205.00.

"Grading 12.23 miles and paving 13.28 miles on the Sage Hen Hill-Hines Section of the Central Oregon Highway in Harney County: The Commission elects to accept the bid of J. C. Compton Company in the sum of $540,339.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Paving 0.68 mile in Burns (Foley Drive) in Harney County: The Commission elects to accept the bid of J. C. Compton in the sum of $11,812.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Trail-Cascade Gorge Aerial Photography and Topographic Mapping Project on the Crater Lake Highway in Jackson County: The Commission has awarded the contract to Henry R. Staats, Portland, the low bidder, at his bid price of $21,895.00.

"Construction of six structures on Goshen-Coast Fork Willamette River Unit on the Pacific Highway in Lane County. The Commission has awarded the contract to the low bidder, P. S. Lord Mechanical Contractors & Columbia Empire Constructors, Inc., Portland, at their bid price of $119,137.50.

"Paving 0.45 mile on the Fairgrounds Road-Market Street Unit, Summer Street Paving Project in Salem in Marion County: The contract has been awarded to the low bidder, Warren Northwest, Inc., Portland, at their bid price of $9,200.00.

"Hardman Rock Production Project on the Wasco-Heppner and Heppner-Spray Highways near Hardman and Heppner in Morrow County: The Commission has

awarded the contract to the low bidder, Arthur Simonsen, Baker at his bid price of $28,444.00.

"Remodeling Fred Meyer Warehouse on the T. H. Banfield Expressway, Portland in Multnomah County: The Commission awarded the contract to Ferguson-Cassady Company, Portland, the low bidder, at their bid price of $44,489.00.

"Shaniko Rock Production Project on the Sherman Highway north and south of Shaniko in Wasco and Sherman Counties: The Commission awarded the contract to the low bidder, C. C. Meisel, McMinnville, at his bid price of $27,960.00."

There being no further business, the meeting adjourned at 3:15 p.m.

EXHIBIT "A"

Minutes of February 24 and 25, 1954

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW THEREFORE BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

KLAMATH FALLS-KENO SECTION-GREEN SPRINGS HIGHWAY (cont)

19983 Kerns, Claude (cont)

Grantors to continue use of land and maintain gate across easement.

THINGS TO BE DONE BY THE STATE

Surface haul road, 12 ft. wide. Stockpile 1000 yards of cinders on Grantors land. Install and maintain cattle guard where easement intersects existing fence at West line. Install and maintain pipe for irrigation and/or drainage at following places: (1) Where easement crosses Johnson & Lilly ditch; (2) At Keno Irrigation District pumphouse; (3) Where easement crosses Keno Irrigation District ditch; (4) at cattle guard to be installed. Keep road oiled where it passes house. State will Not interfere with use of pump, pipeline, irrigation ditch and road.

Convey to the optionors above that portion of land being the Westerly half of Lot 4, S. 4, Twp. 40 S., R. 8 E. W.M., Klamath County, (which is now being acquired from G. F. Sevits) as an exchange part of the settlement, upon the grounds and for the reason that the said property in the opinion of the commission is no longer needed, required or useful for highway purposes.

Minutes of February 24 and 25, 1954

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of a parcel of land in Tillamook County, Oregon described as follows:

All of the down and marked trees (aluminum paint stripes) in Section 14, Township 6 South, Range 9 West, Willamette Meridian on the Southerly side of the Highway between Engineer's stations 521 and 558. These trees are classed as hazard trees. All of the marked windfalls and snags on the Southerly side of the Highway between Engineer's center line stations 489 and 495, in Section 12, Township 6 South, Range 9 West, Willamette Meridian. All of the marked windfalls and snags between Engineer's stations 511 and 561 on the Southerly side of the highway in Sections 13 and 14, Township 6 South, Range 9 West, Willamette Meridian. All of the marked windfalls and snags opposite Engineer's stations 495 and 500 on the North side of the Highway (Doyle Slide Area) in Sections 11 and 12, Township 6 South, Range 9 West, Willamette Meridian. All of the marked windfalls and snags on the North side of the Highway, opposite station 510, in Sections 11, 12, 13 and 14, Township 6 South, Range 9 West, Willamette Meridian. All of the marked windfalls and snags on the North side of the Highway at stations 523 and 542, in Section 14, Township 6 South, Range 9 West, Willamette Meridian. All of the marked windfalls and snags on the North side of the Highway on Harris Road, in Section 14, Township 6 South, Range 9 West, Willamette Meridian. All of the marked windfalls and snags on the North side of the Highway opposite Engineer's station 549 Section 14, Township 6 South, Range 9 West, Willamette Meridian. All of the marked windfalls and snags on the North side of the highway, at Stations 552 and 558, Section 14, Township 6 South, Range 9 West, Willamette Meridian. The reserve area has now been marked and tagged "Reserve Area No Cutting".

Attached to and made a part of this instrument is a map showing the locations from which the logs may be loaded by 0 . No other loading areas are to be permitted without special permission from the Superintendent of Parks. The roadways leading into these areas are marked by double hatched lines.

WHEREAS, after consideration, the Commission hereby finds and declares that the said property is no longer needed, required or useful for highway purposes.

WHEREAS, the said timber has been appraised by competent and experienced appraisers and the final value found and estimated to be the

RESOLUTION

WHEREAS, it has been brought to the attention of the Commission that in some instances options have been taken on real properties needed for right of way and other highway purposes, and in other instances options are now being taken on real properties needed for right of way and other highway purposes, in connection with both of which situations it appears that formal authorization for such takings has not been recorded in the Commission's records or minutes; and

WHEREAS, notwithstanding the fact that formal authorization for such acquisitions has not been made a part of the Commission's written records, the taking of such options have the informal approval of the Commission; and

WHEREAS, for the purpose of supplementing such informal records and action, it is the purpose of the Commission at this time to ratify all options so taken.

THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Commission, all members being present and voting affirmatively, as follows:

1. That it hereby is declared that all real properties needed for right of way or other highway purposes in connection with the construction, reconstruction, or other improvement of the following-named highway projects hereby are declared necessary for said projects and options heretofore taken and approved covering any of said real property hereby are approved:

COUNTY AND SECTION	FILE NUMBER	PURPOSE	HIGHWAY
BENTON			
Burnt Woods-Blodgett	21726	quarry	Corvallis-Newp
	21727	haul road	
	21728	haul road	
Lincoln County Line-Gellatly Creek	21551	quarry	Corvallis-Newp
	21552	quarry	
DOUGLAS			
Thomas Creek-Tiller	21594	quarry	Tiller-Trail
WASCO			
Dufur-Tygh Valley	21695	quarry	The Dalles-California

EXHIBIT "C" (cont)

2. It is further resolved that the informal action of the Commission and authorization for said acquisitions hereby is ratified.

3. That this Miscellaneous Resolution No. 103 shall be entered in the minutes and records of the Commission as of February 24, 1954, and shall be deemed effective as of the date or dates of any options taken with respect to any real properties acquired in connection with any of the projects listed on said attached page.

EXHIBIT "D"

Minutes of February 24 and 25, 1954

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of lands in the City of Bend, Deschutes County, Oregon described as follows:

Parcel 1

A parcel of land lying in the Southeast quarter of the Northwest quarter of Section 32, Township 17 South, Range 12 East, Willamette Meridian, Deschutes County, Oregon.

The said parcel being described as follows: Beginning at the Southeast corner of the Northwest quarter of the Northeast quarter of said Section 32; thence South 89° 57' 41" West 138.52 feet; thence North 51° 26' 30" West 170.56 feet to the Easterly line of Wall Street; thence along the Easterly line of Wall Street North 38° 33' 30" East 130 feet; thence North 89° 57' 41" East 189.72 feet; thence South 0° 14' 22" East 208 feet to the point of beginning.

Parcel 2

Lots 8, 9, 10 and 11, Block 2 in North Addition to the City of Bend, Deschutes County, Oregon.

The parcels of land to which these descriptions apply contain 1.65 acres.

WHEREAS, after consideration, the Commission hereby finds and declares that the said property is no longer needed, required or useful for highway purposes.

WHEREAS, the said property has been appraised by competent and experienced appraisers and the final value found and estimated to be the sum of $35,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Secretary of the Highway Commission, be and he hereby is, authorized and instructed to advertise the said property for sale in accordance with the terms and provisions of ORS 237.060 Et. Seq.

BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 104 shall be entered in the minutes and records of the Commission as of the 24th day of February , 1954.

EXHIBIT "E"

Minutes of February 24 and 25, 1954

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 3741, with McNutt Brothers, for construction of bridges, grading and paving on the Newport-Toledo Section of the Corvallis-Newport Highway in Lincoln County, completed December 4, 1953.

"Contract No. 3744, with C. R. O'Neil for grading and paving on the Hauser-Coos Bay Section of the Oregon Coast Highway in Coos County, completed January 9, 1954.

"Contract No. 3771, with The Central Heating Company, Oreg. Ltd. and F. L. Somers for grading and paving on the Rock Point-Blackwell Hill Section of the Pacific Highway in Jackson County, completed September 30, 1953.

"Contract No. 3830, with Wold Brothers for construction of Humbug Mountain Park Facilities on the Oregon Coast Highway in Curry County, completed February 11, 1954.

"Contract No. 3841, with E. C. Swaggart Company, for furnishing crushed materials in stockpiles on the Endicott Creek-Mystic Creek Section of the Coos Bay-Roseburg Highway in Coos and Douglas Counties, completed December 8, 1953.

"Contract No. 3916, with R. H. Sussex for furnishing crushed cinders in stockpiles on the La Grande-Baker Section of the Old Oregon Trail Highway in Union and Baker Counties, completed November 25, 1953.

"Contract No. 3936, with N. A. Toole Construction Company for furnishing crushed materials in stockpiles on the Silver Lake-Valley Falls Section of the Fremont and Lakeview-Burns Highways in Lake County, completed October 30, 1953.

"Contract No. 4030, with Babler Brothers, Inc., for grading and topping on the Powell Butte Junction-Deschutes County Line Section of the Powell Butte County Road in Crook County, completed February 12, 1954.

"Contract No. 4047, with The Colorado Fuel & Iron Corporation for fence construction on the Clear Lake Fencing Project on the Oregon Coast Highway in Douglas County, completed February 11, 1954."

23121

EXHIBIT "E" (cont)

THEREFORE BE IT RESOLVED that the work covered by State highway contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 31 shall be entered in the minutes and records of the Commission as of the 24th day of February, 1954.

EXHIBIT "F-1"

Minutes of February 24 and 25, 1954

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the first six month period of 1951 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Joseph $2,042.74

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 24th day of February, 1954.

EXHIBIT "G-1"

Minutes of February 24 and 25, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway. OREGON COAST HIGHWAY

Highway number 9 Route number US 101

Location of Termini				Established Speed	
M.P.	272.27 (0.19 mile west of the west city limits of Coquille)	to M.P.	272.46(west city limits of Coquille)	40	M.P.H.

EXHIBIT "G-1" (cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 137 be entered in the minutes and records of the Commission as of the 24th day of February, 1954.

EXHIBIT "G-2"

Minutes of February 24 and 25, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 141 be entered in the minutes and records of the Commission as of the 24th day of February, 1954.

EXHIBIT "I"

Minutes of February 24 and 25, 1954

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Warner Station Section of the Powers Secondary Highway in Coos County and in connection therewith to prepare a map showing the route and location of said section of highway and to file said report and record with the Commission for consideration; and,

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for the approval or disapproval of the Commission; and,

WHEREAS, after due consideration of said survey, field notes, maps and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the survey of the Warner Station Section of the Powers Secondary Highway, beginning at Highway Engineer's Station 2+00, approximately 1/2 mile east of Warner Station, and extending in a westerly direction to Highway Engineer's Station 36+63.98, immediately east of Warner Station, together with the map, which for identification purposes bears Map File No. 7B-26-4 and the date of January, 1954, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That when said section of said highway is permanently constructed the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of a highway along and over said survey. Said approval and adoption shall also be deemed and constituted instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of necessary rights of way pursuant to the normal and approved method.

4. That this resolution shall be entered in the minutes and records of the Commission as of the 24th day of February, 1954, as Resolution Adopting Survey No. 99.

EXHIBIT "J-1"

Minutes of February 24 and 25, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and

WHEREAS, for the purpose of constructing and maintaining highways of the state highway system, the Commission plans and proposes to acquire a quarry site and a stock pile site, and to construct and maintain a haul road, and for such purposes and in connection therewith the real property hereinafter described is necessary; and

WHEREAS, the Highway Commission by certain resolutions made and entered in its records on the 16th day of July, 1951, the 19th day of February, 1952, and the 8th day of April, 1953, declared the necessity and need for the acquisition of a parcel of real property for right of way purposes, for the proper relocation, construction, improvement, and maintenance of the Hood River-Mosier Section of the Columbia River Highway, and, in connection therewith, the construction and maintenance of a connecting or approach road between the relocated Columbia River Highway and the existing Columbia River Highway, and a parcel of real property for a quarry site, for use in connection with the proper construction and maintenance of highways of the state highway system, and authorized the acquisition of said parcels of real property in the manner provided by law, and it is now the opinion of the Commission that the said real property is no longer necessary for the purposes set forth in the said resolutions, but is necessary for the acquisition of a quarry site and a stock pile site and for the construction and maintenance of a haul road, and it is, therefore, the opinion of the Commission that the said resolutions of July 16, 1951, February 19, 1952, and April 8, 1953, should be revised to conform with the present needs of the Highway Commission;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby declare that the said resolutions made and entered in its records of July 16, 1951, February 19, 1952, and April 8, 1953, declaring the necessity for the acquisition of two parcels of real property, be, and the samehereby are, amended by this resolution.

(cont.)

EXHIBIT "J-1" (cont.)

2. The Commission does hereby find and declare that there is needed and required, for the acquisition of a quarry site and a stock pile site and for the construction and maintenance of a haul road, for use in connection with the proper construction and maintenance of highways of the state highway system, the following described real property in fee simple, to wit:

L 1767
Owner: James C. Fulton, et ux

A parcel of land lying in the South half ($S\frac{1}{2}$) of Section 2, Township 2 North, Range 11 East, W. M., Wasco County, Oregon, the said parcel being described as follows:

Beginning at the South quarter ($S\frac{1}{4}$) corner of said Section 2; thence North 87° 39' East 1719.97 feet along the South line of said Section 2; thence North 11° 25' West 1154.48 feet; thence North 72° 34' West 201.3 feet; thence North 18° 44' 25" East 705.43 feet; thence North 50° 35' 20" East 194 feet; thence South 60° 39' 30" East 400 feet to the Westerly line of the Frank Ginger property; thence along said property line North 0° 55' 30" East 280 feet; thence along a right of way line parallel to and 100 feet distant Southerly from the Union Pacific Railroad center line North 73° 22' West 210.51 feet to the Southerly right of way line of the Columbia River Highway; thence along said Southerly right of way line South 79° 53' 30" West 167.68 feet to the Easterly line of that tract of land being sold to Louis Owens under unrecorded contract, which tract is hereinafter described; thence Southerly along the Easterly line of said Owens tract to the intersection of said Easterly line of said Owens tract with the Easterly line of a tract conveyed by Marietta Harlan to Christian A. Hage by deed recorded in Book 54, Page 567, of Wasco County Deed Records; thence Southerly along the Easterly line of said Hage tract to the Southeast corner thereof, said corner being the Northeast corner of a tract conveyed by Marietta Harlan to J. Strein by deed recorded in Book 57, Page 158, of Wasco County Deed Records; thence Southerly and Westerly along the Easterly line of said Strein tract to the South quarter ($S\frac{1}{4}$) corner of said Section 2, the point of beginning.

The bearings used herein are based on the Oregon Coordinate System, North Zone.

The parcel of land to which this description applies contains 20.84 acres.

The description of the tract hereinbefore mentioned as being sold to Louis Owens under unrecorded contract is as follows: Beginning at the Northwest corner of the Charles and Opal Head property as described in Book 110, Page 25, Wasco County Deed Records; thence

(cont.)

Easterly along the North line of said Charles Head and Opal Head property approximately 250 feet to an iron pipe; thence Southwesterly along the lower bank of an abandoned railroad roadbed approximately 1,000 feet to an iron pipe; thence Westerly approximately 30 feet to the West line of said Charles and Opal Head property; thence Northerly along the West line of said Charles and Opal Head property to the point of beginning, containing 3.5 acres, more or less.

3. That the highway facilities for which the above described real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to the said real property.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon, by and through its State Highway Commission.

6. That this resolution be entered in full in the minutes and records of the Commission this 24th day of February, 1954, as Condemnation Resolution No. 484.

EXHIBIT "J-2"

Minutes of February 24 and 25, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Compiled Laws Annotated and amendments thereof or additions thereto, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, deemed by the Highway Commission necessary for highway purposes; and

WHEREAS, the Oregon Legislature enacted Chapter 226, Oregon Laws 1947, known as the Throughway Law, and by the enactment of said law the legislature authorized and empowered the Highway Commission to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by exercise of the power of eminent domain, fee simple title to or any interest in any real property which, in the opinion or judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Sylvan Section of the Sunset Highway; and

WHEREAS, the said Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission by certain resolutions made and entered in its records on the 24th day of November, 1952, and on the 25th day of June, 1953, declared the necessity for the acquisition of a parcel of land described therein for right of way purposes, for the widening, improvement and maintenance of the Sylvan Section of the Sunset Highway, and the control of access to and from the said highway, and authorized the acquisition of the said parcel of real property and the said control of access in the manner provided by law, and it is now the determination of the Highway Commission that the language used for the said control of access should be changed in the manner provided herein, and it is, therefore, the determination of the Highway Commission that the said resolutions of November 24, 1952, and June 25, 1953, should be revised to conform with this change; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and

(cont.)

from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Highway Commission does hereby declare that the resolutions made and entered in its records on November 24, 1952, and June 25, 1953, hereinabove referred to, be, and they hereby are, amended by this resolution.

2. The Commission does hereby find and declare that there is needed and required for right of way purposes, for the proposed widening, improvement and maintenance of the Sylvan Section of the Sunset Highway as a throughway, the following described real property in fee simple, to wit:

L 1982 (R 15882)
Owner: Faun E. Helmcke

A parcel of land lying in the Southwest quarter ($SW\frac{1}{4}$) of Section 6, Township 1 South, Range 1 East, W. M., Multnomah County, Oregon, and being a portion of the following described property: That tract of land known as Tax Lot 120 which was conveyed by that certain deed to Elmer R. Helmcke and Faun E. Helmcke, recorded in Book 1087, Page 203 of Multnomah County Records of Deeds, the said parcel being described as follows:

Commencing at the Southwest corner of said Section 6, thence North 0° 15' West along the section line 1225.62 feet; thence North 89° 45' East 508.20 feet; thence North 0° 15' West 229.47 feet; thence North 79° 14' East 6.50 feet; thence South 11° 57' East along the Easterly line of Tract No. 1 of said property 200 feet to the true point of beginning of the land herein to be described; thence continuing South 11° 57' East along the Easterly line of said Tract No. 1, 22.45 feet to the Northerly side of County Road No. 1138; thence Westerly tracing the Northerly side of said County Road on a 2905 foot radius curve to the left (the long chord of which bears South 71° 35' 14" West) 16.40 feet to the Southwest corner of said Tract No. 1; thence North 11° 57' West 17.65 feet along the Westerly line of said Tract No. 1; thence North 55° 50' 12" East, 17.56 feet to the point of beginning.

The parcel of land to which this description applies contains 0.01 acre.

3. That in addition to the acquisition of fee simple title to the above described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the Sylvan Section of the Sunset Highway and all of the contiguous real property of the owner remaining after the appropriation of the real property hereinabove described; provided, however, that there shall be reserved unto the owner of

(cont.)

the said remaining land, her heirs and assigns, for service of the said remaining land, so long as no use is made thereof other than as hereinafter specified, a right of access to the Sunset Highway of a width not to exceed 16.4 feet on the north side of the said Sunset Highway opposite Highway Engineer's center line Station 169+52 for private residential use and for the operation of a nursery business on the defendant's remaining land only.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access herein reserved to and from the aforesaid highway that are on or adjacent to any such frontage road shall cease, but the owner, her heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected by means of an interchange to the main traveled portion of the said Sunset Highway at a point which is not a greater distance than approximately 1500 feet East of Highway Engineer's center line Station 169+52 and at a point not a greater distance than approximately 600 feet West of said Highway Engineer's center line Station 169+52.

That the highway facility for which the aforesaid real property is required and is being taken has been planned, designed, located, and will be constructed in a manner which, in the opinion of the Commission, will be most compatible with the greatest public good and the least private injury or damage.

5. That the Legal and Right of Way Department is directed to attempt to agree with the owner and other persons in interest of said real property as to the compensation to be paid for the taking, including the damages, if any, and in the event that no satisfactory agreement can be reached, then the Legal and Right of Way Department is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

6. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State, the State Highway Commission, or the property owner.

7. That this resolution be entered in full in the minutes and records of the Commission this 24th day of February, 1954, as Condemnation Resolution No. 485.

EXHIBIT "J-3"

Minutes of February 24 and 25, 1954

RESOLUTION

WHEREAS, the State Highway Commission on the 24th day of September, 1953, by resolution declared the necessity for the acquisition of certain real property owned by W. M. Hubbs, et ux, File No. R 21058, situated in Section 36, Township 33 South, Range 15 West, W. M., Curry County, Oregon, for right of way purposes, for the relocation, construction, improvement and maintenance of the Rocky Point-Brush Creek Section of the Oregon Coast Highway; and

WHEREAS, said resolution declared the necessity that there shall be no rights of access between the right of way of the said relocated Oregon Coast Highway and the remaining land of the said W. M. Hubbs, et ux, and between the relocated Oregon Coast Highway and any segment or segments of the existing Oregon Coast Highway adjacent to the owners' remaining real property which may hereafter be abandoned, except for two rights of access to the said relocated Oregon Coast Highway; and

WHEREAS, the said Highway Commission, after further investigating the necessity for the control of access from said remaining land to the said relocated Oregon Coast Highway, has found that it will be to the best interests of the State and the owners to change the location of the said points of access to the said relocated Oregon Coast Highway;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. That the access control language in that certain resolution duly made and entered in full in the minutes and records of the Commission on the 24th day of September, 1953, pertaining to the property owned by W. M. Hubbs, et ux, File No. R 21058, as set forth on pages 5 and 6 of Exhibit A of said resolution, be and the same hereby is amended to read as follows:

> It is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Oregon Coast Highway and all of the contiguous real property of the owners which abuts thereon remaining after the appropriation of the real property hereinabove described, and between the relocated Oregon Coast Highway and any segment or segments of the existing Oregon Coast Highway adjacent to the owners' remaining real property which may hereafter be abandoned, provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, only so long as no use is made thereof other than as hereinafter specified, the following:

(cont.)

a. A right of access to the relocated Oregon Coast Highway of a width not to exceed 25 feet on the East side of the said relocated highway, opposite Highway Engineer's center line Station 368+60, for the production and transportation to market of farm products of the owners' remaining land, for the development, harvesting and transportation to market of forest products, and for private residential use only.

b. A right of access to the relocated Oregon Coast Highway of a width not to exceed 25 feet on the East side of the said relocated highway, opposite Highway Engineer's center line Station 372+15, for the production and transportation to market of farm products of the owners' remaining land, for the development, harvesting and transportation to market of forest products, and for private residential use only.

2. That this resolution be entered in full in the minutes and records of the Commission this 24th day of February, 1954, as Condemnation Resolution No. 486.

EXHIBIT "J-4"

Minutes of February 24 and 25, 1954

RESOLUTION

WHEREAS, the State Highway Commission by resolution on the 24th day of September, 1953, and an amendment thereto, on the 10th day of December, 1953, declared the necessity for the acquisition of certain real property owned by Searcy E. Binford, et al, File No. R 21055, situated in Section 36, Township 33 South, Range 15 West, W. M., Curry County, Oregon, for right of way purposes, for the relocation, construction, improvement and maintenance of the Rocky Point-Brush Creek Section of the Oregon Coast Highway as a throughway; and

WHEREAS, the said resolution and amendment thereto declared the necessity that there shall be no rights of access between the right of way of the said relocated Oregon Coast Highway and the remaining land of the said Searcy E. Binford, et al, and between the right of way of any segments of the present existing Oregon Coast Highway which adjoin the owners' remaining land and which may become abandoned and the relocated Oregon Coast Highway, except for three rights of access to the said relocated highway; and

WHEREAS, the said Highway Commission after further investigating the necessity for the control of access from said remaining land to the said relocated Oregon Coast Highway and between the right of way of any segments of the present existing Oregon Coast Highway which adjoin the owners' remaining land and which may become abandoned and the relocated Oregon Coast Highway, has found that it will be to the best interests of the State and the owners of the said remaining land to change the access control language in the said resolution and amendment thereto;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. That the access control language in that certain resolution duly made and entered in full in the minutes and records of the Commission on the 24th day of September, 1953, and the amendment thereto, made and entered in full in the minutes and records of the Commission on the 10th day of December, 1953, pertaining to that property owned by Searcy E. Binford, et al, be and the same hereby is amended to read as follows:

> It is necessary that there shall be no rights of access of any nature between the right of way of the relocated Oregon Coast Highway and all of the owners' contiguous real property which abuts thereon remaining after the appropriation of the real property hereinabove described, and between the right of way of any segments of the present existing Oregon Coast Highway which adjoin the owners'

(cont.)

remaining land and which may become abandoned and the relocated Oregon Coast Highway, provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, only so long as no use is made thereof other than as hereinafter specified, the following:

a. A right of access to the relocated Oregon Coast Highway of a width not to exceed 30 feet on the West side of the said relocated highway, opposite Highway Engineer's center line Station 386+75, for all purposes.

b. A right of access to the relocated Oregon Coast Highway of a width not to exceed 30 feet on the West side of the said relocated highway, opposite Highway Engineer's center line Station 388+80, for all purposes.

c. A right of access to the relocated Oregon Coast Highway of a width not to exceed 25 feet on the East side of the said relocated highway, opposite Highway Engineer's center line Station 388+15, for the production and transportation to market of farm products of the owner's remaining land, for the development, harvesting and transportation to market of forest products, and for private residential use only.

2. That this resolution be entered in full in the minutes and records of the Commission this 24th day of February, 1954, as Condemnation Resolution No. 487.

EXHIBIT "J-5"

Minutes of February 24 and 25, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Goshen-Divide Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interest of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

(cont.)

EXHIBIT "J-5" (cont.)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highway of the state highway system, and the relocation, construction, improvement and maintenance of the said Goshen-Divide Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and the said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Goshen-Divide Section of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit A. *

3. That the relocation, construction, improvement and maintenance of the said Goshen-Divide Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such

(cont.)

stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 24th day of February, 1954, as Condemnation Resolution No. 488.

---

* FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 488, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-6"

Minutes of February 24 and 25, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Shady Point-Booth Ranch Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

(cont.)

EXHIBIT "J-6" (cont.)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Shady Point-Booth Ranch Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit A. *

3. That the relocation, construction, improvement and maintenance of the said Shady Point-Booth Ranch Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 24th day of February, 1954, as Condemnation Resolution No. 489.

---

* FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 489, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-7"

Minutes of February 24 and 25, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Sage Hen Hill-Hines Section of the Central Oregon Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

(cont.)

EXHIBIT "J-7" (cont.)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Sage Hen Hill-Hines Section of the Central Oregon Highway as a throughway, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Central Oregon Highway and all of the contiguous real property of the owners remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted as to the said real property on the attached list marked Exhibit A. *

3. That the relocation, construction, improvement and maintenance of the said Sage Hen Hill-Hines Section of the Central Oregon Highway, and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement, or admission as in his judgment may be for the best interests of the State of Oregon.

EXHIBIT "J-9"

Minutes of February 24 and 25, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture or road-building materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway, and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Goble-St. Helens Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway o section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even thoug said entire tract is not immediately needed for the highway proper; and

(cont.)

EXHIBIT "J-9" (cont.)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Goble-St. Helens Section of the Columbia River Highway as a throughway; certain interest in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That the relocation, construction, improvement and maintenance of the said Goble-St. Helens Section of the Columbia River Highway and the highway facilities for which the said parcel of real property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit of action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 24th day of February, 1954, as Condemnation Resolution No. 492.

EXHIBIT "J-12"

Minutes of February 24 and 25, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads; connecting roads; frontage roads highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Tualatin River-Middleton Section of the Pacific Highway West; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Tualatin River-Middleton Section of the Pacific Highway West, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein full. *

2. That it is necessary that there shall be no rights of access of any n between the right of way of the said Tualatin River-Middleton Section of

the Pacific Highway West and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit A. *

3. That the widening, improvement and maintenance of the said Tualatin River-Middleton Section of the Pacific Highway West and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 24th day of February, 1954, as Condemnation Resolution No. 495.

---

* FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 495, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-13"

Minutes of February 24 and 25, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Sylvan Section of the Sunset Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, two members thereof being present and voting affirmatively, as follows:

(cont.)

EXHIBIT "J-13" (cont.)

1. The Commission does hereby find and declare that it is necessary to acquire, in connection with the widening, improvement and maintenance of the Sylvan Section of the Sunset Highway as a throughway, all rights of access to, from and between the said Sunset Highway and the real property described as follows, to wit:

R 20694
George H. Raab, et al

Commencing at the Southwest corner of Section 6, Township 1 South, Range 1 East, W. M., Multnomah County, Oregon, thence North 0° 14' 20" West on the West line of said Section 6, 665 feet to a point in the Northernly boundary line of S. W. Raab Road No. 1138 E (formerly Old Canyon Road) for a point of beginning of the tract to be described, running thence North along the West line of said Section 6, 219.59 feet to the Southern boundary line of S. W. Canyon Road No. 1138 (State Highway), thence Northeasterly along the Southernly boundary line of S. W. Canyon Road No. 1138, a distance of 242.7 feet to the Northwest corner of that certain tract of land conveyed to George A. Raab and Anna Raab by deed recorded April 16, 1928, in Book 1143 on Page 136, Deed Records of Multnomah County, Oregon, thence South 8° 40' East 151.88 feet to the Northernly boundary line of S. W. Raab Road No. 1138 E, thence Southwest along the Northernly boundary line of S. W. Raab Road 1138 E to the point of beginning, containing one and one-tenth acres, more or less.

Except that portion heretofore conveyed by George Harold Raab and Eleanor Raab to George Aloysius Raab and Anna Rose Raab, by deed recorded in Volume 1414, Page 528, Deed Records of Multnomah County, Oregon, more particularly described as follows, to wit:

A lot, tract, piece or parcel of land situated in the Southwest quarter ($SW\frac{1}{4}$) of the Southwest quarter ($SS\frac{1}{4}$) of Section 6, Township 1 South, Range 1 East, W. M., Multnomah County, Oregon, as shown on the attached plat and designated as Lot 2, Subdivision of part of "Raab Tract", and as surveyed by Jean Ewen, registered professional engineer, Oregon June 17, 1950, and as more particularly described as follows:

Beginning at the Northwest corner of said Lot 2, a point on the Southerly right of way boundary of Oregon State Highway No. 6, marked by a inch galvanized iron pipe, 10 inches above ground, from which point the Southwest corner of said Section 6 bears South 58° 21' 15" West and South 0° 14' 20" East 884.33 feet distant; thence along the Southerly right of way boundary of said State Highway No. 6, North 58° 21' 15" East a distance of 127.70 feet to a 1" galvanized iron pipe 10 inches above ground; thence South 8° 40' East a distance of 146.00 feet to a point at the intersection with the Northerly right of way boundary of

(cont.)

Multnomah County's "Raab Road" No. 1138-E, and 20 feet distant perpendicularly to the center line thereof; thence along said Northerly right of way boundary South 41° 53' 30" West, a distance of 59.69 feet to an iron pipe; thence North 82° 39' 30" West a distance of 92.21 feet to an iron pipe; thence North 0° 09' 30" East 110.00 feet to the point of beginning; containing an area of 12,937.58 square feet, or 0.4118 acre, more or less.

2. That the highway facility for which the said rights of access are required and are being taken has been planned, designed and located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking of said rights of access, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said rights of access.

4. That upon the trial of any suit or action instituted to acquire the said rights of access, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 24th day of February, 1954, as Condemnation Resolution No. 496.

EXHIBIT "K"

Minutes of February 24 and 25, 1954

RESOLUTION

WHEREAS, the Pacific Highway (US 99) is one of the major state primary highways and is likewise a Federal Aid highway, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, field investigation discloses that the parking of vehicles on the shoulders of this highway in front of an establishment known as "Moores Motor Lodge and Cafe", located on the east side of the Pacific Highway just south of the community of Wolf Creek, in Josephine County, has resulted in creating a hazard to the traveling public; and

WHEREAS, the parking of said vehicles at the location hereinabove designated on said Pacific Highway creates a hazard not only to through traffic, but also to the owners and drivers of said parked vehicles; and

WHEREAS, in the opinion of this Commission, public travel and public safety require that the use of the shoulders of the highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and recommendations by members of its staff, that the parking of vehicles on either shoulder of the Pacific Highway (US 99) between M. P. 254. 74 (Engineer's Station 700+00) to M. P. 254. 82 (Engineer's Station 704+00) directly in front of "Moores Motor Lodge and Cafe", creates a hazard not only to through traffic but to persons owning and using said parked vehicles.

2. That this Commission does hereby find and declare that the parking of vehicles on either side of the right of way of said highway does not provide the degree of safety and convenience, which in the opinion of the Commission, should be provided the motoring public.

3. That this Commission does further find and declare that the parking of vehicles on either side of the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs should be printed in plain letters the words "NO PARKING ON HIGHWAY SHOULDERS".

5. That a certified copy of this resolution be sent to the owner of "Moores Motor Lodge and Cafe" and a like copy to the Superintendent of State Police for his information.

6. That this No Parking Resolution No. 111 be entered in the minutes and records of the State Highway Commission as of the 24th day of February, 1954.

EXHIBIT "L"

Minutes of February 24 and 25, 1954

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of a parcel of land in the Northwest quarter of the Southwest quarter, Section 26, Township 3 North, Range 10 East, Willamette Meridian, Hood River County, Oregon, described as follows:

> A parcel of land lying in the Northwest quarter of the Southwest quarter of Section 26, Township 3 North, Range 10 East, Willamette Meridian, Hood River County, Oregon, and being a portion of the following described property:
>
> That tract of land which was conveyed by that certain deed to the State of Oregon, by and through its State Highway Commission, recorded in Book 45, Page 578 of Hood River County Record of Deeds.
>
> The said parcel being that portion of said property lying Northerly of a line which is parallel to and 100 feet Northerly of the center line of the Columbia River Highway as said center line is described in said State of Oregon Deed.
>
> The parcel of land to which this description applies contains 4.25 acres, more less.

WHEREAS, after consideration, the Commission hereby finds and declares that the said property is no longer needed, required or useful for highway purposes.

WHEREAS, the said property has been appraised by competent and experienced appraisers and the final value found and estimated to be the sum of $1,000.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Secretary of the Highway Commission, be and he hereby is, authorized and instructed to advertise the said property for sale in accordance with the terms and provisions of ORS 237.060 et. seq.

BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 105 shall be entered in the Minutes and records of the Commission as of the 25th day of February, 1954.

EXHIBIT "M"

Minutes of February 24 and 25, 1954

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of a parcel of land in Douglas County, Oregon described as follows:

> All of the down and standing timber in the Northeast quarter of the Southwest quarter and in the Southeast quarter of the Northwest quarter of Section 16, Township 21 South, Range 4 West, Willamette Meridian in Douglas County, except the seed block on the Westerly side. The reserve area boundary is marked with Engineer's targets stamped "Reserve Area No Cutting". This reserved area is shown on the accompanying map shaded in red. The area from which the timber may be removed is shown in blue. The roadway that may be used for access to the highway is shown in double hatched lines. *

WHEREAS, after consideration, the Commission hereby finds and declares that the said property is no longer needed, required or useful for highway purposes.

WHEREAS, the said timber has been appraised by competent and experienced appraisers and the final value found and estimated to be the sum of $4100.00, and the Commission is desirous of selling and disposing of the said timber at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Secretary of the Highway Commission be and he hereby is, authorized and instructed to advertise the said timber for sale in accordance with the terms and provisions of ORS 237.060 Et. Seq.

BE IT FURTHERRESOLVED that this Miscellaneous Resolution No. 106 shall be entered in the minutes and records of the Commission as of the 25th day of February, 1954.

---

*FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 106, under the heading, "Miscellaneous Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

*Bidder will accept award of Carlton Paving Project only in combination with Lafayette Paving Project.

The Commission unanimously approved the minutes of the Commission meetings held on January 21 and 22 and on February 5, 1954. Action on the minutes of the meeting held on February 24 and 25 were deferred until the next regular meeting.

The State Parks Superintendent, Mr. C. H. Armstrong, reported on the following park matters:

1. Cutting of trees in Camas and John Day canyons on the Pendleton-John Day Highway by Columbia Power Co-op Association of Monument: The Parks Superintendent reported that the Co-op to his knowledge had first cut trees on state property in November, 1953, and had been requested by the Maintenance Superintendent to secure a permit. Application for a permit was made in January, 1954, but was not granted pending the furnishing of additional information which has not yet been received. The Co-op, in the meantime, continued cutting operations under protests by Highway field forces. He recommended that the amount of damage be carefully determined and that the Co-op be billed for the same; further, if payment is not made that the Chief Counsel be authorized to take necessary legal action to collect the damages allowed by law. The Commission adopted the recommendation.

2. Proposed lease of area in Wallowa Lake Park from Pacific Power and Light Company for park purposes: The Parks Superintendent advised that as author-

ized by the Commission, he contacted the Power Company officials concerning the securing of a long-term lease and ascertained that the Company is willing to lease the area but wants to know definitely what plans the Commission has for development and the exact area to be leased. To provide such information, he recommended that the Commission authorize a survey at an estimated cost of $200. The Commission approved the recommendation.

3. Installation of a plaque in the Jennie B. Harris State Park on the McKenzie Highway in Lane County: The Parks Superintendent reported that in 1944 a small area of land about 55 miles east of Eugene was donated by Mr. Lawrence T. Harris in memory of his wife under condition that the area be maintained as a state park and that a monument with a plaque be installed therein. Through inadvertence, he said, the installation of the monument and plaque was overlooked. He recommended that one be installed now with the following wording:

JENNIE B. HARRIS
STATE PARK

Given to the State of Oregon for Park Purposes

By

Lawrence T. Harris in Memory of His Wife

February 1, 1944

The Commission adopted the recommendation by unanimous vote.

4. Resolution from the Sons and Daughters of Oregon Pioneers objecting to transfer to the D. A. R. building in Champoeg Park of historical objects now stored in the State Parks Building in that place: The Parks Superintendent stated that actual transfer of these articles to the building belonging to the Daughters of the American Revolution has not yet been accomplished. He also said that Mr. Fred Meek who represents the Oregon Pioneers group has asked that the transfer be delayed until such time as the Legislature can act on the Interim Committee's report and the Sons and Daughters of the Oregon Pioneers have been given an opportunity to raise funds for a structure of its own. The delay, he stated, will not affect the State's operations, and he recommended that the transfer be deferred as requested. The Commission accepted the recommendation. (See also delegation on April 2)

5. Status of timber sale in the Van Duzer Forest Corridor on the Salmon River Highway: The Parks Superintendent reported that a careful cruise had been made of the blow-down timber in the Corridor as well as trees near the highway which are considered dangerous. The danger trees, he said, have been marked to be sold along with the down timber on April 21 as previously authorized by the Commission, The Commission accepted the report.

6. Request of Douglas County Parks Department that the State make a preliminary development study for a park area on the North Umpqua River in Douglas County to be known as the Susan Creek Recreational Area: The Parks Superintendent recalled that this is the same area about 30 miles east of Roseburg which at an earlier time had been proposed as a state park but which the Commission refused to accept. Douglas County, he said, does not have facilities to secure the necessary data so he recommended that a study be made for the County at a cost not to exceed $200. The recommendation was accepted by the Commission.

7. Request from the Geological Society of the Oregon Country that the John Day Fossil Beds State Park be renamed Thomas Condon Fossil Bed State Park in honor of Thomas Condon, eminent geologist, teacher, author, and clergyman, who was the first investigator of the area, and that the Society be authorized to erect in the park a suitable bronze plaque: The Parks Superintendent advised that Mr. Condon, who was an early day pioneer missionary, made highly interesting discoveries in the fossil beds area which, through his efforts, were brought to the attention of the scientists of the nation and of the world. He recommended that the fossil bed area be renamed "Thomas Condon Fossil Beds State Park" and that the Geological Society be permitted to erect a suitable plaque therein in honor of Mr. Condon as requested. He also recommended approval of the wording proposed by the Society for the plaque, as follows, which wording, he said, has the approval of the Oregon Historical Society:

To

THOMAS CONDON
(1822 - 1907)

Pioneer Oregon geologist, teacher, author, clergyman; who came to Oregon around Cape Horn as a pioneer missionary in 1858; who provided a church home at The Dalles for all Christian faiths; who was the first investigator of the fossil beds of the John Day Country; who at the founding of the University of Oregon in 1876 became its first professor of geology and continued as professor and teacher until 1907; whose geological classroom was the great outdoors and whose book, "The Two Islands", was the foundation for the study of the historical geology of Oregon; this plaque is dedicated by the Geological Society of the Oregon Country.

The Engineer expressed concurrence in both recommendations. The Commission adopted the change in name and authorized the Society to erect the plaque in the park as requested.

The Right of Way Engineer presented for consideration options secured for acquisition of real property needed for various state highway improvements and for other purposes. After careful consideration, the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer requested authority to negotiate the purchase

of property from Messrs. Porter and Morse, needed as right of way on the Wolf Creek Bridge Section of the Pacific Highway in Josephine County, for which no previous authority had been granted. The Commission approved the request by adopting the attached resolution relative thereto marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission accepted the Right of Way Engineer's report on sales of miscellaneous properties made since the last Commission meeting. According to the report, the total of these sales amounted to $17,327. (For a list of properties sold, see copy of a report prepared by C. W. Parker, Property Manager, dated April 1 and 2, 1954, filed in the Secretary's office under the heading "Miscellaneous Sales".)

The Right of Way Engineer stated that a request had been received from the District Attorney of Sherman County for the Highway Commission's concurrence in vacation of a portion of Fourth Street in the town of Rufus. Such vacation, he stated, will not affect the state highway right of way, and he recommended that no objection be made. The Commission accepted the recommendation.

Consideration was given to reconveying to the City of Redmond an easement to maintain a Highway Department radio pole on city property in Lot 3, Block 73 in the City of Redmond. The Right of Way Engineer advised that the pole has been removed and the easement no longer is of value, so the City would like to have it reconveyed to them. He recommended approval of the request. The Commission approved the recommendation.

Sale of a small parcel of excess right of way adjacent to the Oregon Coast Highway in the town of Florence to E. E. and Mary A. Baird was considered. The Right of Way Engineer stated that the property no longer is required for highway purposes, and he recommended that it be sold to the Bairds without access to the highway, for the sum of $125. The Commission approved the sale as recommended.

Upon the Right of Way Engineer's favorable recommendation, the Commission also approved the sale of 0.14 acre of excess land on the Salem By-pass Section of the Pacific Highway to Earl H. and Bernice P. Kleen for the sum of $455, being the high bid received for this property.

Payment of $100 to Robert Carter and $175 to Everett Fry for release of an obligation to construct irrigation ditches for them on the East Unit of the Dayville-Mt. Vernon Section of the John Day Highway in Grant County was discussed. The Right of Way Engineer stated that if the work were done by State forces, it would cost about $720. He recommended that Mr. Carter be paid $100 and that Mr. Fry be paid $175 to reconstruct their own irrigation ditches and for releasing the State from all further responsibility in the matter. These amounts, he added, are satisfactory to Mr. Carter and Mr. Fry. The Commission approved the payment as recommended.

The Commission, upon recommendation of the Right of Way Engineer,

approved changes in access points for the following properties:

1. Byron L. Lemons' property on the East Unit of the Mt. Vernon-Dayville Section of the John Day Highway in Grant County

2. The Arizona Barnes' property on the same section of highway.

The Right of Way Engineer explained that these are changes in existing points of access and that no additional access is being granted.

A request from the City of Monmouth for access to the City's sewage disposal plant situate adjacent to the Orr Corner-Monmouth Section of the Pacific Highway West was considered. The Right of Way Engineer advised that presently the only access the City has to its sewage disposal plant is from the Pacific Highway West. He recommended that the right of access be granted as requested. The Commission approved the recommendation.

The Right of Way Engineer requested authority to sell, by the auction method, 1.9 acres of land on the Viento-Hood River Section of the Columbia River Highway for a minimum price of $4,000. He advised that the land will have access only to a frontage road that already has been constructed, and that it is not needed for highway purposes. He recommended that it be advertised for sale by auction pursuant to legal requirements. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer also requested authority to offer for sale, by the auction method, 0.64 acre of land on the Forest Grove Section of the temporary Wilson River Highway connection. The price paid for the property, he stated, was $750, and as the property no longer is needed for highway purposes, he recommended that it be sold for not less than such sum with complete restriction of access to the state highway, and with the requirement that the purchaser shall construct a barbed wire fence along the right of way line. The Commission approved the sale as recommended.

Upon the Right of Way Engineer's favorable recommendation, the Commission approved a two-year renewal of an agreement with the Union Pacific Railroad Company covering use of a private roadway under the railroad track adjoining the Columbia River Highway near Oneonta, Multnomah County.

The Right of Way Engineer recommended that the following options which have been signed by the respective property owners be rejected because, in each instance, in his estimation the amount of the option is too high:

File 20669 - Matcovich	$24,200.00
File 21379 - Baker	6,007.00
File 21448 - Cann	3,253.00
File 21748 - Grable	1,650.00
File 21749 - Lusk	1,800.00
File 21553 - Alaska Junk Company	22,956.12

The Commission rejected the options as recommended and authorized the Chief Counsel to institute condemnation proceedings to acquire the properties if satisfactory settlements cannot be effected otherwise.

In connection with the option for the Alaska Junk Company, the Commission ordered commencement of the condemnation proceedings immediately upon the owners securing a building permit from the City of Portland to improve the property, but not until such permit has been obtained from the City of Portland. With regard to the Matcovich property, the Commission ordered that if a reasonable negotiated settlement cannot be obtained that the matter be tabled inasmuch as the property will not be needed for several years.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties which are needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

The Commission approved the request by adopting the attached resolutions relative thereto, marked EXHIBITS "L-1" through "L-7", inclusive, which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission considered and approved the Chief Counsel's written report of cases which have been tried by his office since the February meeting of the Commission, as follows:

State vs Elnora A. Ruef, L 1997
State vs P. L. Holloway, et al, L 2025
Dorothy Reaney, et vir, vs State, L 2156
State vs Art Morgan, et al, L 2009

(For details, see copy of the Chief Counsel's letters to the Commission, dated March 26 and March 29, 1954, in General Files.)

The Commission also considered and approved the Chief Counsel's written report concerning the status of 14 condemnation cases filed to acquire right of way for a revision of US 101 in Curry County. In this report the Chief Counsel commented on the apparent objection of a large number of Curry County residents to the highway program within the County and that it might be desirable in certain instances to attempt to secure a change of venue so as to try the cases in another county. (For details, see copy of the Chief Counsel's letter to the Commission dated March 25, 1954, in General Files.)

The Chief Counsel's written report of court cases settled since the February meeting was approved by the Commission. Settlements covered by the report are as follows:

1. State vs Lewis G. Clark, L 2092: Offered $2,412.00; settled for $375.00 with the State to pay the costs of a new well and the removing and rebuilsing of a fence at an estimated total of $2,247.00.

2. State vs Paul Schuttpelz, et ux, L 2024: Offered $780.00; settled for $1,000.00 plus construction of 4 approaches.

3. State vs Tena C. Bartruff, L 2137: Offered $3,115.00; settled for $3,570.00.

4. State vs General Fuel and Lumber Company, L 2106: Offered $14,265.00; settled for $15,350.00.

5. State vs Ralph D. McCulloch, et al, L 1933: No formal offer made; settled for $4,376.00.

6. State vs Kernan Livestock Farms, Inc., L 1843A: Offered $20,000.00; settled for $25,000.00.

7. State vs Grant County School District No. 3, L 2015: Offered $50.00; settled for $150.00.

(For details concerning the above listed settlements, see copy of the Chief Counsel's written report to the Commission dated March 26, 1954, in the General Files.)

The Commission considered and confirmed offers recommended by the Chief Counsel for acquisition of real property required for various highway purposes, which offers were tendered to the owners prior to the commencement of condemnation proceedings in conformity with authority granted by the Commission in its resolution adopted December 20, 1951:

Euchre Creek-Wedderburn Section of the Oregon Coast Highway

R 20483 - Owner: S. H. Frank & Company. 18.3 acres for right of way and 0.6 acre for easement for drainage ditch. Amount of offer $3,000.00. Authorized by Chairman Chandler on March 5, 1954.

R 21081 - Owner: Herman W. Koblenzar, et al. 5.10 acres for right of way and 2.10 acres for excess taking. Amount of offer $32,000.00. Authorized by Commissioner Reynolds on March 16, 1954.

R 21086 - Owner: Charles K. Buffington, et ux. 7.29 acres for right of way, and 3.85 acres for borrow pit. Amount of offer $10,600.00. Authorized by Commissioner Reynolds on March 16, 1954.

R 21087 - Owner: Wilbur C. Moore, et al. 18.4 acres for right of way. Amount of offer $8,700.00. Authorized by Chairman Chandler on March 5, 1954.

R 21542 - Owner: Jacob A. Carmichael, et ux. 3 acres for right of way. Amount of offer $19,000.00. Authorized by Chairman Chandler on March 5, 1954.

R 21543 - Owner: Walter Henry James, et al. 11.8 acres for right of way. Amount of offer $3,000.00. Authorized by Chairman Chandler on March 5, 1954.

R 21544 - Owner: Mae Grabbert. 2.57 acres for right of way, and 4.43 acres for excess taking. Amount of offer $1,750.00. Authorized by Chairman Chandler on March 5, 1954.

R 21546 - Owner: Jackson C. Collins, et ux. 1.97 acres for right of way, and 3.63 acres for excess taking. Amount of offer $3,500.00. Authorized by Chairman Chandler on March 5, 1954.

Shady Point-Booth Ranch Section of the Pacific Highway

R 21569 - Owner: Arthur R. Wecks, et ux. 13.10 acres for right of way. Amount of offer $3,500.00. Authorized by Commissioner Reynolds on March 25, 1954.

R 21646 - Owner: J. W. Peterson, et al. 1.55 acres for right of way. Amount of offer $400.00. Authorized by Commissioner Reynolds on March 25, 1954.

Tualatin River-Middleton Section of the Pacific Highway West

R 19687 - Owner: F. K. Hill, et ux. 0.917 acres for right of way. Amount of offer $10,450.00. Authorized by Mr. Reynolds on March 1, 1954.

Sage Hen Hill-Hines Section of the Central Oregon Highway

R 21611 and R 21612 - Owner: Lillian P. Franklin, et al. 0.9 acre for right of way. Amount of offer $600.00. Authorized by Commissioner Reynolds on March 19, 1954.

Vale-Cairo Junction Section of the Central Oregon Highway

R 20231 - Owner: Mary A. Wood. 8.6 acres for right of way and 0.47 acre for haul road. Amount of offer $15,500.00. Authorized by Commissioner Reynolds on March 16, 1954.

R 20235 - Owner: James D. Stuart, et ux. 1.08 acres for right of way. Amount of offer $162.00. Authorized by Commissioner Reynolds on March 16, 1954.

R 21280 - Owner: Richard S. Humphrey, et ux. 0.30 acre for right of way. Amount of offer $2,027.50. Authorized by Commissioner Reynolds on March 25, 1954.

The Commission also considered and approved the following offers made for property for which condemnation was previously authorized:

	Recommended Offer
Shady Point-Booth Ranch Section of the Pacific Highway	
R 21293 - Raymond C. Laurence	$ 3,620.00
R 21556 - Olivia R. Carnes	3,810.00
R 21566 - Henry Weber	6,566.00
R 21567 - Stomar Lumber Company	4,150.00
Goshen-Divide Section of the Pacific Highway	
R 21208 - John Stalder	11,000.00
Tigard-Newberg Section of the Pacific Highway West	
L 1909 - William I. Fisher	11,320.00

Proposed changes in the form of the Auditor's bond and depositor's forgery bond as recommended by the Chief Counsel was discussed briefly by the Commission. The Chief Counsel advised that a number of changes had been made to eliminate superfluous language found in the present bonds, and he recommended adoption of the revised forms. He also requested instructions whether or not to prepare proposed legislation for submission to the 1955 legislature to provide express authority for the Commission to purchase directly the types of bonds under discussion

and others as may be required. Action in the matter was deferred until a future meeting; however, it was referred to Commissioner Reynolds to discuss details with the Chief Counsel.

The Commission approved the Chief Counsel's request for leave of absence to permit him to participate in the U. S. Army Infantry School Summer Field Training during the period August 15 to August 29, 1954, at Yakima, Washington.

The Chief Counsel reported that Mr. Earl Preston, Mr. Ernest Lundeen, and Mr. Thomas J. Reeder, attorneys in his office, have tendered their resignations in order to accept employment elsewhere. Mr. Robert Holland, he stated, who is now acting as Deputy District Attorney for Lane County, has applied for a position with the Legal staff, and he recommended that he be hired at a salary of $410 per month to fill one of the vacancies. The Commission accepted his recommendation.

A report on negotiations for acquisition of three acres of land from Jacob A. Carmichael, et ux, that is needed as right of way for a revision of the Euchre Creek-Wedderburn Section of the Oregon Coast Highway in Curry County was presented by the Chief Counsel. The Chief Counsel gave as his opinion that, on the basis of appraisals secured, $32,500 is a fair price to pay for all of Mr. Carmichael's property which consists of five acres, but Mr. Carmichael states that he will not sell it for less than $34,000. He gave as his opinion that the sum of $34,000 is too much to pay for the entire five acres, but he doubted little that the three acres that the State needs can be acquired in a condemnation trial for less than $30,000. He requested instructions. The Commission deferred action on the matter until later.

The meeting recessed for luncheon at 12:00 noon and reconvened at 2:00 p.m. with the same persons present and participating.

Discussion of the acquisition of the Carmichael property in Curry County was resumed. Chairman Chandler stated that the Commission carefully considered the matter during the lunch period and decided to purchase the entire five acres for $34,000 in view of the slight difference in the offered and asking prices, the considerable amount of salvage in the property, and because of the good feeling that would be created. Commissioner Reynolds and Commissioner McIver indicated their concurrence in the decision as expressed by Chairman Chandler.

The Chief Counsel presented a written report on cases which have been instituted against the State since the February meeting, as follows:

1. Steinbock, et ux, vs State of Oregon by and through its State Highway Commission: The plaintiffs allege that construction of an approach for a bridge across the Willamette River on Center Street resulted in a change of grade causing damage to their property in the amount of $12,500.00. No appraisals, he stated, have yet been made on this property, but they will be obtained in the near future.

2. Ivan J. Frantz, et ux, vs Maud E. Eaton and the State of Oregon, by and through its State Highway Commission, L 2160: The plaintiffs demand that the amount which the Highway Commission is to pay Maud E. Eaton for property acquired by the State as right of way for the The Dalles-California Highway be placed to their credit because of their contract to purchase the property, or, as an alternative, that the deed from Maud Eaton to the State be set aside. A motion has been made to quash service on the grounds that the service of summons and complaint was improperly made. The Commission accepted the reports.

An offer from Mr. and Mrs. A. B. Seeley to accept the sum of $3,000 in full settlement of their damage claim against the State resulting from a change in the grade of Center Street in Salem, was presented by the Chief Counsel. He advised that the Seeley's claim for damage arises from a change in the grade of Center Street in the course of reconstructing the Center Street Bridge approach in the City of Salem. It appears that the Seeleys own two parcels of land abutting on Center Street and that independent appraisals show an estimate of damages to this property of between $2,000 and $5,000. The proposed settlement, he said, includes damages to both parcels of property. He recommended that the Seeleys be paid the sum of $3,000 in full settlement of their claim. The Commission approved the recommendation.

Consideration was given to conveyance of 0.014 acre of land on the Goshen-Divide Section of the Pacific Highway to Harold E. Clark as part consideration in a right of way settlement previously made. The Chief Counsel stated that in addition to the land to be transferred to Mr. Clark, it had been found advisable to eliminate a jog in the right of way fence line. The land, he stated, has no value for highway purposes, and he recommended that it be deeded to Mr. Clark. The Commission approved the recommendation.

The Chief Counsel requested authority from the Commission to institute legal proceedings in order to obtain settlement of the following cases:

1. William Roesch, R 20115, for specific performance of an option in which Mr. Roesch refused to execute a deed as he claims he had not been compensated for the value of trees involved.

2. E. G. and Helen W. McCabe, R 18011, to prosecute a specific performance suit to obtain title to property previously optioned.

3. Munson and Paterson, CAO-53-75, for collection of $728.50 for timber removed from Van Duzer Corridor and for an additonal $200.00 for failure to construct a fire guard as required in the timber contract.

4. M. St. E. Rutherford, CAO-54-9, for collection of $28.75 for damages to a state vehicle.

5. Jack Edward Johnston, CAO-52-74, for damages in the sum of $168.75 caused when Mr. Johnston drove his car through the draw spans on South Slough Bridge on the Cape Arago Secondary Highway.

6. George L. Hendricks, et al, for institution of mandatory injunction proceedings to eliminate a flooding condition on the Tualatin Valley Highway at Forest Grove due to construction of certain dikes by Mr. George L. Hendricks and others.

7. H. E. and L. P. Lenhardt, R 20841, for an action in specific performance to obtain a deed to property needed for highway purposes

8 R. A. and Mildred Petzel, R 20897, to recover an irrigation pump or the value thereof owned by the State and removed by Mr. Petzel.

The Commission authorized prosecution of all of these cases as requested.

On recommendation of the Chief Counsel the Commission approved and signed letters addressed to the individual members of the Oregon delegation in Congress, urging support of House and Senate bills for elimination of the requirement that Federal documentary tax stamps be affixed to deeds conveying property either to or from the State or subdivisions of the State.

The Commission approved out-of-State travel expense for the following employees of the Legal Department:

1. Frank I. Towle, Engineer, to go to Quilcene, Washington, during April 22 and 23, 1954, to obtain information from the Washington Department of Fisheries for use in connection with the trial of the Coos Bay oyster bed cases. Estimated cost $60.00.

2. William H. Haskin and Robert L. Byrum, Right of Way Agents, to attend a two-day appraisal conference seminar of the American Institute of Real Estate Appraisers at Spokane, Washington, during May 21 and 22, 1954. Estimated cost $78.00 plus use of a state car.

The Commission considered a request from Mrs. Helen R. Edmundson for vacation of the subdivision known as Holly Hill Tracts located south of State Street on the Salem By-pass Section of the Pacific Highway East. The Chief Counsel explained that as the Highway Commission is the owner of property abutting the platted area proposed to be vacated, it is necessary that the Commission give its consent before the vacation can be accomplished. He stated further that the interests of the Highway Department will not be adversely affected by the vacation in view of which he recommended approval of Mrs. Edmundson's request. The recommendation was approved by the Commission.

The Commission accepted a report from the Engineer stating that conditions governing the award of the following state highway contracts have been satisfied and that contract and bond forms have been sent to the respective contractors for signature pursuant to the Commission's instructions:

1. Construction of the Chemawa Overcrossing of Southern Pacific Company tracks on Willamette River-Hayesville Section of Portland-Salem Expressway in Marion County. Bids received January 22, 1954 Conditions of award satisfied March 4, 1954. Babler Brothers, Inc Portland, contractor

2. Grading, surfacing, paving and construction of Tualatin River Bridge on Tigard-Newberg Section of Pacific Highway in Washington County. Bids received January 21, 1954 Conditions of award satisfied March 5, 1954. Donald M. Drake Company, Portland, contractor

3. Rock production on Canyonville-Tiller Section of the Tiller-Trail Highway in Douglas County. Bids received February 24, 1954. Conditions of award satisfied March 15, 1954. Vernie Jarl, Gresham, contractor.

4. Grading on Rush Creek-Granite Section of Ritter Road in Grant County. Bids received February 25, 1954. Conditions of award satisfied March 18, 1954. K. C. Dack, Milton-Freewater, contractor.

5. Grading and paving and crushed rock in stockpiles on Frankport-Greggs Creek unit, Brush Creek-Greggs Creek Section of Oregon Coast Highway in Curry County. Bids received January 21, 1954. Conditions of award satisfied March 19, 1954. Fred H. Slate Company Oreg. Ltd. and E. C. Hall Company, Portland, contractor.

6. Blodgett Rock Production Project on Corvallis-Newport and Eddyville-Blodgett Highways in Benton and Lincoln Counties. Bids received February 24, 1954. Conditions of award satisfied March 23, 1954. Jed Wilson, Seaside, contractor.

A report was presented by the Engineer concerning a flooding condition on the Tualatin Valley Highway in the vicinity of Gales Creek resulting from dikes constructed by several local residents, including Mr. George L. Hendricks and Mr. Dale Hoffman. He said that Mr. Hendricks constructed a dike along the boundary of his property south of Gales Creek and west of the Tualatin Valley Highway, which dike extended to the shoulder of the highway; also that Mr. Hoffman and others to the east of the Tualatin Valley Highway constructed a dike along the south bank of Gales Creek extending from the Southern Pacific Bridge to the shoulder of the highway, a portion of which dike is on state property. These dikes, he stated, have a damaging effect on the highway, especially during the periods of high water when water washes away parts of the highway shoulders, and during flood stages when the highway north of the bridge is covered to a depth of about one foot. The latter condition, he added, was never experienced before the dikes were built. The Commission accepted the report with the comment that authority already had been given the Chief Counsel at this meeting to institute mandatory injunction proceedings against the proper parties.

The Engineer reported that under authority granted him in a resolution adopted by the Commission on August 6, 1953, he has approved the placement of a reduced load limit on the Weston-Elgin Highway between M. P. 8.0 and M. P. 37.90, restricting to 11,000 pounds the gross weight on any single axle of a vehicle, 20,000 pounds gross on any pair of tandem axles and 36,000 maximum gross load. This reduced load limit, he stated, was placed at 8:00 a.m. on March 11, 1954, to prevent damage to the roadway due to frost having recently left the ground. The Commission accepted the report.

Consideration was given by the Commission to a request from the City of Beaverton for designation of Hall Street in that City as the route of the Beaverton-Aurora State Secondary Highway. The Engineer advised that the City has agreed to pay $35,000 towards the cost of improving the street which he estimated would amount to a total of $95,000. The Commission deferred action on the matter pending appearance of a delegation on the following day. (Mayor Rossi appeared before the Commission later and was informed that an engineering investigation of the request will be made, but there are no monies available to finance the project this year. The Engineer was authorized to make the investigation and to set grade stakes to permit the City to re-establish its sewer lines as may be required to fit the proposed improvement.)

The Engineer requested that expenditure of $6,750 contained in the Parks Budgetfor widening and providing for a left-turn refuge at the entrance to Emigrant State Park on US 30, be deferred until money is available to construct a grade separation structure at this point. He explained that a careful traffic study has been made showing that an average of 559 vehicles use the entrance to the park daily and approximately 1,500 on Sundays, and he gave as his feeling that this is too great a volume of traffic to be making left-turn movements on a highway carrying high-speed traffic such as does US 30. The Commission decided to postpone the project until some future time.

The Commission gave attention to a request submitted by the Executive Secretary of the Oregon State Employees Association that employees in the Maintenance Division be placed on a 40-hour, 5-day work week with no reduction in salary. The Engineer adivsed that a study has been made of this request, which was originally filed last fall, showing that a total of 1,736 employees would be affected. 1,676 of whom work a 44-hour week and 60 a 48-hour week. To employ additional men to equal the present number of man-hours, he estimated would cost $600,000 annually or approximately $1,000,000 to cover the remainder of the current biennial budget. He pointed out that the last legislative assembly appropriated approximately $700,000 to enable State institutions to go on a 40-hour week and that the State Highway Department is the only remaining large state department whose employees are operating on a work-week exceeding 40 hours. To make the proposed change, he stated, will necessitate approval by the Civil Service Commission, the Budget Director and Mr. Harry Dorman, head of the Department of Finance and Administration, and it also will be necessary to appeal to the Emergency Board for authorization to spend the $600,000, if made effective by July 1st, 1954. The Engineer pointed out that the present maintenance forces are not overstaffed, and in his opinion, could not perform the work they are now doing unless additional men were employed. Chairman Chandler stated that he could see no reason why the maintenance employees should not have the same consideration that is shown other employees, and that so far as he personally is concerned, the forty-hour work-week could be granted just as soon as certain details have been ironed out. Commissioner Reynolds and Commissioner McIver expressed themselves similarly. The Engineer was instructed to arrange such meetings as are necessary with Governor Patterson, the Civil Service Commission, the Budget Director, and the State Emergency Board.

A request from the City of Dayville for widening the John Day Highway and the construction of curbs and drainage facilities through the town of Dayville

was considered. The Engineer reported that the request was investigated, and it was determined that it would cost about $35,000 to perform the work. He pointed out that the traffic volume of approximately 550 vehicles per day provides a low priority rating for this job compared with many other towns; also, there are no funds presently available for this type of work. He recommended that the request be denied. The Commission approved the recommendation.

The Commission also gave attention to a request from the City of Gaston for curb construction on the Tualatin Valley Highway between Cottonwood and Oak Streets, in conjunction with a sidewalk project which will be paid by the property owners. The Engineer estimated the cost of the curbs at $2,000 and the cost to install full width pavement plus adequate base and drainage at an additional $5,000. As the traffic volume in Gaston is only 2,200 vehicles daily, he recommended that the request be denied until the project has a higher priority. The Commission accepted the recommendation.

Consideration was given by the Commission to a number of requests for installation of traffic signals, railroad signals and flashing beacons at various locations throughout the State. The Engineer reported the results of investigation of each case, and he made certain recommendations, as follows, all of which the Commission approved unanimously:

1. Request of the Lincoln School Parent-Teachers Association in Medford for installation of traffic signals at Central Avenue and Edwards Street on US 99 in Medford; and a request from the City of Medford for an interconnecting traffic signal system on the one-way couplet in Medford: The Engineer reported that the installation of traffic signals as requested will cost approximately $6,500, and that the interconnection of signals will cost an additional sum of about $6,500. He recommended approval of both requests on the condition that the City of Medford, by appropriate agreement, will pay one-half the costs involved, will furnish necessary power, and will maintain the signals. The Commission adopted the recommendation.

2. Request of Leroy C. Spence for installation of a traffic signal light at the intersection of Queen Avenue and US 99E in Albany: The Engineer advised that this location is the intersection of the Corvallis-Eastside Secondary Highway with the Pacific Highway East, and on the basis of traffic volume, a stop and go signal is not warranted. However, due to the number of accidents that have occurred at this point, it is his recommendation that a flashing beacon be installed at an estimated cost of $600, to be financed from 1954 minor betterment funds. The recommendation was adopted by the Commission.

3. Installation of railroad flashing light signals at the Southern Pacific Company's wye track crossing of the Pacific Highway East immediately north of Canby: The Engineer advised that it has been apparent for a long time that these crossings should be signalized, and the Railroad Company has now agreed to pay fifty percent of the cost of the installation, which, he said, is estimated at $9,260. He recommended approval of the project, subject to railroad company maintenance, the State's share being approximately $4,630 and that it be financed with 1954 minor betterment funds. The Commission approved the recommendation.

4. Petition from people residing near the intersection of 136th Avenue and Powell Boulevard in Portland, for installation of a blinker light at the intersection of US 26 and S. E. 136th Avenue: The Engineer advised that investigation reveals that a signal at this point is not warranted due to the low volume of traffic that passes through the intersection. Accordingly, he recommended that the request be denied and that the matter be taken care of by prohibiting the shoulder parking of vehicles on the north side of US 26 for a distance of 300 feet west of the center line of S. E. 136th Avenue, and for a distance of 250 feet east of the center line of S. E. 136th Avenue, and that such parking be prohibited along the south side of US 26 for the entire distance of the island area easterly from S. E. 136th Avenue, and that advance cross-road symbol signs be installed upon the highway approaches to the intersection. The Commission approved the recommendation and thereupon adopted the attached resolution relative thereto marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

5. Installation of a partial signal system at the intersection of N. E. 82d Avenue and Wasco Avenue in the City of Portland: The Engineer advised that this signal is necessary due to rerouting of traffic to permit construction of the T. H. Banfield Expressway. He recommended that the signal system be installed at a total estimated cost of $2,700 to be shared equally by the City of Portland and the State. The Commission adopted the recommendation.

6. Request of the City of Aumsville for installation of flashing beacons at two street intersections on Main Street in Aumsville, route of the North Santiam State Secondary Highway: The Engineer advised that on the basis of a traffic engineering investigation, installation of a signal was found to be warranted at the intersection of 11th Street and Main Street, but unwarranted at the intersection of 8th Street and Main Street He recommended that a flashing beacon be installed at the intersection of 11th Street and Main Street at an estimated cost of $500, provided the City will agree to maintain the signal and to furnish the electrical energy needed to operate it, financing of the project to be with 1954 minor betterment monies. The recommendation was adopted by the Commission.

7. Installation of a traffic signal at the intersection of Fourth and Harrison Streets on the route of the Pacific Highway West in Corvallis, and for the moving of a flashing beacon presently installed at the intersection of Ninth and Van Buren Streets, to Ninth and Harrison Streets, at an estimated cost of $300: The Engineer recommended approval of this project on the condition that the City of Corvallis will agree to pay one-half the cost involved and will maintain and operate the signals after installation at no cost to the State. The Engineer also stated that it appears desirable to have certain parking restrictions in this area and to have the agreement with the City relative to the signals specify the passage of the necessary ordinances to provide the following:

a. No parking on the south side of Harrison Street from Fourth Street westerly to the alley. (This is to accommodate an anticipated heavy right-turn from Harrison to Fourth Street.)

b. No parking on the east side of Fourth Street (US 99W southbound) from Van Buren Street to a point 300 feet north of Polk Street. (Curb-to-curb width in this section is only 32 feet and the area is needed for moving traffic.)

c. No parking on the west side of Fourth Street (US 99W southbound) from Van Buren Street to Harrison Street. (This is desirable by reason of the limited curb-to-curb width plus need for providing an additional lane for the right turning movement from Harrison Street to Fourth Street.)

The Commission unanimously adopted the recommendation.

The Engineer brought up for discussion the payment of $7,426.29 to the Union Pacific Railroad Company as reimbursement for moving its tracks and for expense of flagmen, watchmen, inspectors, etc., in connection with construction of the Dodson Overpass Structure on US 30. He said that $5,900.89 of such total is a legitimate claim against the State for moving the track, but the balance of $1,525.40 is a just claim against the contractor. He recalled that this project was constructed by the Bureau of Public Roads as a Forest Highway Project and that the job was completed in September, 1949 by the contractor, Valley Construction Company, who has been paid in full for the work by the Bureau. The contract, he said, provides that the contractor shall reimburse the Railroad Company for the cost of flagmen, watchmen, inspectors, etc., as the Railroad deemed necessary for the protection of its facilities, which amounts to $1,525.40, but the contractor has not done so, and the Railroad Company has now billed the State for such amount which the State is obligated to pay under the terms of an easement agreement entered into with the Railroad Company before the contract was awarded. The case, he said, is similar to one that occurred in connection with construction of a section of the North Santiam Highway, but cannot be repeated because arrangements have been made with the Bureau of Public Roads to obtain clearance from the State before paying the contractor the final amount in connection with the Forest Highway work. He recommended in view of the circumstances, that he be authorized to pay the Railroad Company the full amount of its claim, $7,426.29 and to take action to collect from the contractor as much as is possible of the $1,525.40 that he owes. The Commission approved the recommendation and so ordered.

A request from the South Cannon Beach Community Club, Clatsop County, for illumination of the traffic interchange at Tolvana Park on the Oregon Coast Highway, was considered by the Commission. The Engineer advised that while there is no cross-traffic at grade at the Tolovana Park interchange, visibility to the turn-off ramps is not good during hours of darkness or in foggy weather. He therefore recommended installation of luminaire units at a cost of $700, the same to be financed from the 1954 minor betterment budget. The recommendation was approved by the Commission.

The Engineer reported completion of relocation surveys for three state highway sections, as follows, and he asked the Commission to adopt them:

1. Sherman Junction-Willowdale Section of The Dalles-California Highway in Wasco and Jefferson Counties.

2. The Willamette Junction-Diamond Lake Junction Section of The Dalles-California Highway in Klamath County.

3. Booth Ranch-Myrtle Creek Section of the Pacific Highway in Douglas County.

The Commission approved the surveys by adopting the attached resolution relative thereto marked EXHIBIT "J", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given to a request from Crook County for allocation of the $28,000 balance in their current Federal-Aid Secondary Funds, to the placement of a double 0-9 type oil mat wearing surface on Federal-Aid Secondary Highway No. 554. The Engineer advised that this money has become available due to considerable underrun in contract bid amounts in that county, and he recommended that the request be approved. The Commission accepted the recommendation.

Consideration was also given to a resolution from the Coos County Court requesting construction of the so-called "Seven Devils" highway route which extends southerly along the Pacific Ocean from the south end of the present Cape Arago Secondary State Highway via Bullards Bridge to Bandon. The Engineer recalled that this matter had been under discussion for many years but no action was ever taken except that the new bridge across the Coquille River at Bullards was constructed to primary highway standards so that it could be used if the Oregon Coast Highway were ever routed down the coast line. The Engineer further stated that a reconnaissance survey was made some years ago which indicated that the preferable connection should be made at or near Coaledo and thence to Bandon via Bullards Bridge. This connection, he stated, would be much less expensive and would be a shorter and more direct route and would utilize approximately nine miles of the present four-lane highway between Coos Bay and Coquille. Work is now under way to modernize this old reconnaissance survey, and in a short time the report will be made. The Commission ordered that the Coos County Court be informed that such reconnaissance survey is under way and the results of the study will be made known to the County Court after the Highway Commission has studied the report.

Chairman Chandler inquired concerning the status of a bad curve elimination project on the Cape Arago Secondary Highway. The Engineer stated that he would investigate the matter and make a report as soon as possible.

Attention was given by the Commission to a request submitted by Leslie Shaw, editor of the LAKE COUNTY EXAMINER-TRIBUNE, Lakeview, for construction of a footpath along a section of US 395 near New Pine Creek. The Engineer estimated the cost of the footpath at $2,500 and advised that an investigation disclosed that while about 32 children use this section of highway, such use does not meet the required standard for footpath construction. He explained that a warrant of one is used as a minimum and in this particular case the warrant is only 0.41. The Commission accepted his recommendation that the request be denied.

Attention was also given to a complaint by the C. A. Anderson Motor Company, Tillamook, concerning unsatisfactory drainage along Main Street in Tillamook, route of the Oregon Coast Highway. The Engineer stated that an investigation revealed that the condition is a mutual problem between the City and the State. State patching operations, he said, have resulted in unevenness of the grade line of the gutter, and the City has permitted ramps to be constructed from the curb cut into the street with only a three or four-inch drain pipe at the gutter line. The City, he said, has agreed to cooperate in reconstructing the driveways in order to facilitate proper drainage, if the State will perform the necessary patching to true up the grade line. The cost of patching, he estimated at $4,000, and he recommended approval of the work to be performed as a minor betterment project. The Commission approved the recommendation.

A letter was considered from George Zimmerman, Chairman of the Road Commission of the Yamhill Chamber of Commerce, requesting that the bridges now being built across Baker Creek and Panther Creek on Market Road No. 21, a FAS Highway, be designed in conformity with standard highway construction, and recommending this road as an ultimate route for the Tualatin Valley Highway between McMinnville and Yamhill. The Engineer advised that both bridges are of standard design as to width and structural capacity. He also said that no survey has been made with the idea of using the County Road as the highway route, and he gave as his feeling that such a survey is not needed at this time. The Commission accepted the report.

The Commission also considered a letter from Oron O. Felthouse, Hermiston, calling attention to the hazardous nature of the underpass near Hinkle Station, just north of the Umatilla River Bridge on the Hermiston Secondary Highway. The Engineer stated that this matter has been before the Commission several times in the past, and in his opinion, the underpass should be reconstructed. He recommended that it be given a high priority when considering the next secondary Federal-aid program in Division V. The Commission accepted the recommendation.

The Engineer requested authority to transfer from the special Maintenance Budget Rserve a sufficient amount to cover the revised estimate of cost to rebuild four untreated timber bridges located on the Pacific Highway East between Tangent and Shedd. He pointed out that these bridges are badly deterioriated and are included in the approved 1954 state construction budget at an estimated cost of $117,000, but a revised estimate indicates that the job will cost $147,000, which is about $30,000 more than the amount that was authorized for this purpose. In order to finance the shortage, he recommended the transfer of whatever amount of funds is needed from the Special Maintenance Reserve, the amount to be determined by the bids received for construction of the bridges, which may be more or less than $30,000. The Commission accepted the recommendation.

The Commission considered a letter from Mr. Earl M. Bush, Riley, Oregon, regarding the fencing of publicly owned right of way along the Central Oregon Highway between Sage Hen Hill and Riley Store. The Engineer advised that fencing along both sides of the right of way has been provided for in the contract for the reconstruction of the section between Sage Hen Hill and Hines. He pointed out that there are many miles of unfenced right of way on this highway between Bend and Vale, which raises the question whether or not the entire section should be fenced,

and what should be done about unfenced areas on other highways. As a result of discussion, the Commission instructed the Engineer to prepare a state-wide report showing the cost and feasibility of constructing fences along highway rights of way where they abut on public land.

The Engineer requested authority to conduct a location survey for the proposed Dayton and McMinnville by-passes which would include the proposed bridge over the Yamhill River at Dayton. The Commission granted the request.

Consideration was given to a request from County Judge Lloyd Rea of Baker County for improvement of the Haines-Anthony Secondary Highway, and for a survey of the Baker-Homestead Highway from the end of the present contract at Black Bridge, to the City of Richland. The Engineer advised that the Haines-Anthony Secondary Highway has a gravel surface passable at any time of the year and that to improve it with an oil surface would require placing additional base material at an estimated cost of $400,000 which is not available now. The Commission denied the request for such improvement, however they authorized the Engineer to conduct the survey on the Baker-Homestead Highway as soon as personnel are available.

A request from H. S. Paulson, City Manager of Tillamook, for early construction of that portion of First Street in Tillamook, which is planned to be a part of the new approach of the Wilson River Highway into the City of Tillamook, was discussed. The Engineer reported that the street is in bad condition, but the State has no legal authority to improve it as the street presently is not on the state highway system. He, therefore, suggested that the City be advised of the condition and that it be told also that it be necessary for the City to maintain the street until it becomes a part of the state highway system. The Commission approved the suggestion.

The Engineer requested authority for an increase of $6,400 in the project authorization for Contract No. 4024, traffic signal installation in Springfield. He recalled that under the terms of an agreement with the City of Springfield for construction of the South "A" Street Route, it was estimated that eight traffic signals would be required, and it appeared when the estimates were completed, that the installation of the eight signals would overrun the $32,000 which the agreement provided for, so it was decided to call for bids on only seven signals. He further stated that due to favorable bids received for the seven signals, there resulted a project authorization of $24,665 so there is remaining in the traffic signal fund the sum of $7,335 which the City wishes to use to pay for the signal previously omitted and for an additional signal at the eastern terminus of the one-way system. These signals, he said, are warranted, and he recommended that they be installed by the contractor who is installing the seven signals. He also recommended the requested increase in the project authorization. The Commission approved the recommendation.

The Commission considered and by unanimous vote granted the following requests for extensions of time within which to complete state highway contracts, the Commission's action in each instance being without penalty in accordance with the Engineer's recommendation:

1. R. H. Jones, Contract No. 4006 for construction of an addition to the Meacham Maintenance Building in Umatilla County, requested an extension of time from November 30, 1953 to March 1, 1954 in which to complete the work. The Engineer recommended that the extension of time as requested be granted without penalty.

2. Ferguson-Cassady Company, Contract No. 3899 for construction of park facilities in Cape Lookout State Park in Tillamook County, requested an extension of time from December 31, 1953 to March 15, 1954 in which to complete the work. The Engineer recommended that the extension of time as requested be granted without penalty.

3. Trowbridge Electric Company, Contract No. 4024 for traffic signal installation on the McKenzie Highway in the City of Springfield in Lane County, requested an extension of time from February 28 to May 30, 1954, in which to complete the work. The Engineer recommended that the extension of time be granted as requested without penalty.

4. Steeck Electric Company, Contract No. 4040 for installation of traffic signals on the Pacific Highway East in Salem, Marion County, requested an extension of time from February 28 to April 15, 1954, in which to complete the work. The Engineer recommended that the extension of time be granted as requested without penalty.

5. Roy L. Houck and Son, Contract No. 3680 for grading the Hayesville School-State Street Unit of the Salem By-pass Section of the Pacific Highway East in Marion County, requested a second extension of time from September 30, 1953 to June 30, 1954 in which to complete the work. The Engineer recommended that the extension of time be granted as requested without penalty and presented a letter from the Bureau of Public Roads concurring therein.

6. R. A. Heintz Construction Company, Contract No. 3648 for grading and structures on the Boones Ferry Road-Willamette River Unit of the Barbur Boulevard-White School Section of the West Portland-Hubbard Highway in Washington and Clackamas Counties, requested a third extension of time from February 28 to May 31, 1954 in which to complete the contract. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

7. Todd Building Company, Contract No. 3922 for construction of the Yoncalla Overcrossing structure on the Pacific Highway in Douglas County, requested a second extension of time from November 30, 1953 to July 30, 1954 within which to complete the job. The Engineer recommended that the extension of time be granted as requested without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

(For further details regarding the extensions of time listed above, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.)

April 1, 1954

FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above was based upon the recommendations of the State Highway Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for extensions of time.

The Engineer reported that contracts Nos. 3855, 3885, 3958, 4002, 4003, 4005, 4034, 4040, 4041, and 4088 for construction of state highway projects have been completed according to requirements of the contracts or modifications thereof, and said projects are now ready for acceptance. After due consideration the Commission accepted said contracts by adopting the attached resolution relative thereto marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that the following cities and towns have fulfilled the legal requirements governing expenditure of State Tax Street Funds accrued to them as follows:

During the first six-months'period of 1952:

Eastside	$2,794.04

During the second six-months' period of 1952:

Eastside	$2,408.99

During the first six-months' period of 1953:

Helix	$ 603.39
Umatilla	2,927.43

During the second six-months' period of 1953:

Eastside	$2,570.31
Helix	525.61
Lonerock	109.74
Mitchell	1,198.51

During the first six-months' period of 1954:

Aurora	$ 850.89
Bay City	2,675.73
Bonanza	910.66
Corvallis	56,985.01
Lonerock	133.61
Malin	2,081.52
Manzanita	1,191.95
Moro	1,262.27

Nehalem	$ 949.34
North Powder	1,416.98
Sherwood	2,021.74
Siletz	2,004.16
Troutdale	1,807.26
Waldport	2,422.58
Wheeler	1,023.18

He stated that the plans for the improvements proposed to be financed with the funds under discussion have been examined and found satisfactory, and he recommended approval of the plans by the Commission. The Commission accepted the recommendation by adopting the attached resolutions relative thereto marked EXHIBITS "G-1" through "G-5", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Attention was given to a request from the City of St. Paul, Marion County, for installation of a flashing beacon at the intersection of Church and Main Streets in this town. The Engineer advised that this intersection is on the Hillsboro-Silverton Secondary Highway and that an engineering investigation indicates the need for the flashing beacon as well as prohibition of parking on the east side of Main Street from the north property line on Church Street to a point 75 feet northerly thereof. He recommended that the flashing beacon be installed at an estimated cost of $500, and that the City be requested to prohibit parking as outlined. The Commission accepted the recommendation.

The Commission gave consideration to a request from the Drain Chamber of Commerce for improvement of the old route of the Pacific Highway from Anlauf to Drain and from Drain to Yoncalla. The Engineer recalled that this group and others previously requested improvement of this highway section and that action had been deferred until such time as construction of the new route of the Pacific Highway, by-passing Drain, is completed and opened to public travel. This stipulation, he stated, should still be observed so that the amount of traffic on the old route of the highway can be observed after the new highway is opened when the exact improvements needed can be more definitely determined. The Commission decided to take no action until the new highway route is open and the need for the requested improvement justified.

The Engineer presented for the Commission's consideration the need for an expenditure of additional funds to finance an improvement to eliminate cross-traffic on McLoughlin Boulevard (US 99E) between Ochoco Avenue and Avenue "A", Portland, in connection with usage of a proposed frontage road to serve a new warehouse to be built by the Oregon Liquor Control Commission. The Engineer recalled an agreement previously executed with the Liquor Commission concerning construction of the frontage road along the west side of McLoughlin Boulevard just south of the Portland city limits, the cost of which, including right of way, was estimated at $49,000 to be paid for jointly by the Highway Commission and the Liquor Commission, the Liquor Commission being given credit for an expenditure of $12,000 for right of way, which it furnished. He further stated that to eliminate cross-traffic on McLoughlin Boulevard from Ochoco Avenue to Avenue "A" when the frontage road is built some additional improvements should be made consisting of a connection to eliminate left turns for northbound McLoughlin Boulevard traffic at Avenue "A" and

to eliminate left turns for southbound McLoughlin Boulevard traffic at Ochoco Avenue and a connection from the Highway Division Office to Ochoco Avenue together with a traffic light at Ochoco Avenue. He estimated the cost of this additional work at $16,900 for construction and $9,840 for right of way, all to be paid by the Highway Department. He recommended approval of the extra work and that the $16,900 for construction be transferred from the State Construction Reserve. The Commission approved the recommendation.

A request from Mr. W. A. Burdick, Reedsport, for reconstruction of a section of the Umpqua Highway on new location in the eastern part of Reedsport was considered by the Commission. The Engineer reported that the section Mr. Burdick has in mind extends from 15th Street in the City of Reedsport to a junction with the old highway about 3,000 feet easterly thereof. Construction of this short section, he stated, is not practical as materials, for the roadbed embankment must be secured from excavation in large cuts farther to the east; therefore, the project, when it is done, should be the total job which has a length of 1.38 miles and is estimated to cost $350,000. In the discussion that followed, it was brought out that an amount of $350,000 Federal Aid funds to finance this work was provided in the five-year program adopted on September 24, 1953, the work to be done in 1956-57, and that a like amount was set up in that program to finance construction of a section of the Coos Bay-Roseburg Highway east of Coquille during 1955; also that the Commission on December 10, 1953 authorized the switch of these two projects in the program so that the Reedsport job would be done first (in 1955). He recommended that the Commission confirm the transfer at this time so the Reedsport project can be done in 1955 rather than later. The Commission approved the recommendation.

The Engineer reported that the Bureau of Public Roads has requested the State Highway Department to drill exploratory test holes in the slide area on the Oregon Coast Highway near the Coos-Douglas County line so a plan of ground stabilization can be evolved. He said that an agreement has been prepared to cover this work which is estimated to cost $3,200 and that the Bureau will reimburse the State for the entire expense. He recommended that the agreement be approved. The Commission accepted the recommendation.

The Engineer presented for the Commission's consideration a number of requests for reduced speed zone designations together with his recommendation with respect to each, as follows:

1. Request of Walter Burdette, Nyssa, for extension of an existing 50-mile per hour speed zone on the Old Oregon Trail north of Nyssa; The Engineer recommended extending the existing 50-mile per hour zone northerly from M.P. 428.81 to M.P. 428.42. (See EXHIBIT "H-1")

2. Request of William J. McLean Kerby, for establishment of a 25-mile per hour speed zone on the Redwood Highway through the community of Kerby as a substitute for the existing 40-mile per hour speed limit: The Engineer recommended that the request be denied and that the matter be cared for by rescinding Reduced Speed Zone Resolution

No. 122, adopted September 24, 1953 and by adopting a new resolution designating a reduced speed zone of 40 miles per hour on that section of the Redwood Highway between a point 250 feet south of Holton Creek at M. P. 14.84 and a point 0.21 mile north of the Kerby postoffice at M. P. 15.54, except that along the section between M. P. 14.88 and M. P. 15.14 the speed shall be 20 miles per hour during the hours of school crossings as provided by law. (EXHIBIT "H-2")

3. Request from Tillamook Public Schools for an extension of the existing speed zone on the Wilson River Highway east of Tillamook to include the school: The Engineer recommended that the reduced speed zone resolution adopted February 26, 1951, be rescinded and that a 35-mile per hour speed zone be established in lieu thereof from the east city limits of Tillamook at M. P. 0.48, to Evergreen Drive at M. P. 0.77, and that a 45-mile per hour speed zone be established from Evergreen Drive to M. P. 2.92, except that between M. P. 1.04 and M. P. 1.24 and between M. P. 2.47 and M. P. 2.65, the indicated speed shall be 20 miles per hour during the hours of school crossings as provided by law. (See EXHIBIT "H-3")

4. To correlate a similar action taken by the State Speed Control Board, the Engineer recommended the establishment of a 40-mile per hour speed zone on the Wilson River Highway connection near the westerly limits of Forest Grove between a point 0.04 mile north of 23d Avenue (M. P. 51.40) and 23d Avenue (M. P. 51.44), and the establishment of a 30-mile per hour speed zone from a point 0.05 mile west of the west city limits of Forest Grove (M. P. 51.75) to the west city limits of Forest Grove (M. P. 51.80), except that the section between M. P. 51.75 and M. P. 51.80 shall be a 20-mile per hour zone during the hours of school crossings as provided by law. (See EXHIBIT "H-4")

5. Request of Leslie Shaw, Editor of the Lake County Examiner-Tribune, for establishment of a reduced speed zone on the Klamath Falls-Lakeview Highway immediately west of Lakeview: The Engineer recommended establishment of a 40-mile per hour speed zone extending westerly from the end of the existing 25-mile per hour zone at M.P. 95.24 to M.P. 94.75. (See EXHIBIT "H-5")

6. Proposed change in the existing 25-mile per hour speed zone on the Oregon Coast Highway through the community of Winchester Bay: The Engineer recommended that the existing 25-mile per hour speed zone between a point 0.11 mile north of 8th Street (M.P. 229.57) and 0.07 mile south of Broadway Street (M.P. 229.93) in the community of Winchester Bay be replaced with a 40-mile per hour speed zone. (See EXHIBIT "H-6")

7. Establishment of a reduced speed zone in the community of Riverton on the Oregon Coast Highway: The Engineer recommended establishment of a 40-mile per hour speed zone between a point 0.10 mile north of Myrtle Street (M.P. 280.14) and a point 0.13 mile south of Main Street (M.P. 280.47), except that between M.P. 280.30 and

M. P. 280. 38 the indicated speed shall be 20-miles per hour during the hours of school crossings as provided by law. He also recommended that the school crossing signs be relocated 200 feet on either side of the Main Street intersection where the children cross. (See EXHIBIT "H-7)

8. Petition from residents of Klamath Falls for designation of a reduced speed zone on South 6th Street, route of the Klamath Falls-Lakeview Highway, just east of Klamath Falls: The Engineer recommended that the existing 45-mile per hour speed zone between M. P. 3. 37 and M. P. 4. 00 be replaced by a 35-mile per hour speed zone. (See EXHIBIT "H-8")

9. Request of Fairplay Home Extension Unit, Corvallis, for a reduced speed zone designation on the Albany-Corvallis Highway in the vicinity of Fairplay School. On the basis of the facts disclosed by the Traffic Engineer's investigation, the Engineer recommended that the request be denied.

10. Request of Mr. W. A. Mackie, Project Engineer for the Detroit and Big Cliff Dams, for a 35-mile per hour speed zone designation on the North Santiam Highway in the vicinity of these dams: The Engineer recommended that the existing speed zones of 25 miles per hour between M. P. 39. 10 and M. P. 40. 20 adopted May 16, 1949, and between M. P. 36. 86 and M. P. 37. 36 adopted August 20, 1951, and between M. P. 36. 46 and M. P. 36. 86 adopted October 11, 1951, be rescinded and that in lieu thereof "SLOW-CONGESTED ZONE" signs be installed at M. P. 39. 85 and at M. P. 39. 47, facing east and westbound traffic respectively, and that advance crossroad symbol signs be installed at M. P. 38. 49 and at M. P. 38. 33 facing east and westbound traffic respectively. (See EXHIBIT "H-9")

As a result of due deliberation with respect to the foregoing requests for reduced speed zone designations, the Commission approved the Engineer's recommendation with respect to each and thereupon, by unanimous vote, adopted the attached resolutions with respect thereto marked EXHIBITS "H-1" to "H-9", inclusive, which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

A letter was presented from W. S. Nelson, Manager of The Dalles Chamber of Commerce proposing the name of Mr. John I. Sell, The Dalles, for appointment as a member of the Advisory Board of the Travel Information Department to fill the vacancy caused by the death of Mr. Mitchell C. Thorne. The Commission ordered the letter referred to the Travel Advisory Committee for recommendation, pursuant to past practice.

The Commission also discussed a letter from Mr. E. F. Bolt, Chairman of the Tourist Promotion and Public Relations Committee of the Oregon Motor Court Association inquiring as to what cooperation and financial assistance the Commission might furnish to groups such as theirs to help defray the expense of bringing more tourists to Oregon. It was the expressed opinion of the Commission that no financial contributions should be made in assisting activities of a private nature even though the activity is a non-profit one. Accordingly, the request was denied.

A request was considered from the Oregon State Board of Aeronautics that private fliers be allowed to use the ocean beach about five miles north of Winchester Bay as a landing area for aircraft. Request was also made for permission to taxi aircraft from the designated landing area on the sandspit at Netarts to a point near Cape Lookout State Park. The Engineer recalled that a few years ago the Commission indicated that it would approve use of a section of beach near Netarts for the purpose of landing planes, but the records do not disclose that a permit for such purpose was ever issued. He gave as his feeling that the beach areas should not be used for the landing of aircraft because they definitely are a hazard to people who use the beach for other purposes. The Parks Superintendent confirmed this statement, stating that although a landing place at Netarts has been marked, fliers persist in landing in an area ordinarily used for picnic purposes and there appears to be little control over the fliers' actions. As a result of the discussion, the Commission ordered cancellation of any previous authority that may have been given for aircraft to land on the sandspit at Netarts, and that no new permits be granted for such use of the beach at any point.

The Commission approved out-of-state travel expenses for the following people:

1. R. H. Baldock, State Highway Engineer, and George Hester, Administrative Assistant, to attend a meeting of the Western Interstate Committee on Highway Policy Problems in Phoenix, Arizona, April 26 and 27, 1954, at an estimated cost of $355.

2. Oscar White, Assistant Materials Engineer, and Ray Webber, Construction Soils Engineer, to attend the annual Tri-State Soils Conference at the University of Idaho at Moscow during April 13 and 14, 1954, at an estimated cost of $144.

3. W. W. Stiffler, Assistant Highway Engineer, to attend the sessions of the President's Conference on Occupational Safety at the Departmental Auditorium in Washington, D. C., May 4, 5 and 6, 1954, at an estimated cost of $344.30.

4. R. H. Baldock, State Highway Engineer, W. C. Williams, Deputy Highway Engineer, Lester Farnum and Carl Reed to accompany members of the Legislative Interim Highway Committee on an inspection of the Idaho Test Road, and conduct hearings enroute, during April 5-10, 1954, at a total estimated cost of $250.

5. W. F. Lieske, Radio Engineer, to go to California during April 5-10 to confer with Mr. A. H. Carver, California State Radio Engineer, and to inspect some of the California radio equipment, at an estimated cost of $145, including cost of operating a State car.

The Engineer requested the Commission's approval of certain changes in the numbering of several U.S. numbered Highway Routes, which changes, he stated, are necessary principally because of the relocation of the highway.

He explained that when U.S. Route numbers are changed within the system of U.S. numbered highways, such changes must be approved by the American Association of State Highway Officials in order to make them official. He exhibited a map showing in color the US and ORE route numbers which are subject to revision, and he recommended approval of the changes disclosed therein, and which effect the following highways: US 99, US 99 Salem By-pass, US 99E, US 99W, ORE 217, ORE 38, ORE 225, ORE 42, ORE 231, ORE 235, ORE 234. (For details see copy of Engineer's written report to the Commission, dated March 18, 1954, in general files.) The Commission approved the changes as recommended.

Consideration was given to a request from Karlen-Davis Company of Portland, Oregon, and Tacoma, Washington, for permission to transport a limited number of logs southerly from the summit of the Alsea-Deadwood Secondary Highway at M.P. 15.73 in Lane County, to the Siuslaw Highway, thence to a plywood plant at Swisshome. The Engineer explained that the Company in its sawmill operations has accumulated a number of peeler grade logs which cannot be hauled over a short section of this highway because of restrictions in its P.U.C. permit. The Company, however, is willing to operate a pilot car in advance of each load over the 3.4 mile section on which hauling is prohibited, and to hold opposing traffic until the loaded truck clears the section. As the traffic is very light on this road, the Engineer recommended that a special permit be granted the Company to haul approximately thirty loads of old growth peeler grade logs over this section between April 1 and August 1, 1954, under flag control with details of the permit to be prepared substantially along the lines as suggested. The Commission approved the recommendation.

The Engineer reported that the Oregon Historical Society has recommended that a text board honoring Dr. Wilhelm Keil be erected on the Pacific Highway East at Aurora. The following wording, he stated, has been approved by the Historical Society.

> DR. WILHELM KEIL FOUNDED HERE A CHRISTIAN CO-OPERATIVE COLONY PATTERNED AFTER HIS COLONY AT BETHEL, MISSOURI. MUSICIANS OF THE SETTLEMENT MADE IT WIDELY FAMOUS. AFTER DR. KEIL'S DEATH IN 1877 THE COMMUNAL ENTERPRISE COLLAPSED.

He recommended that the text board be installed at an estimated cost of $400, with funds to be taken from the minor betterment budget. The recommendation was approved by the Commission.

The Engineer also reported that the Oregon Historical Society has recommended erection of a text board at the old site of Camp Adair, to commemorate the infantry divisions that were trained at that camp during World War II. He exhibited a sketch showing the text and insignia of the respective divisions to be placed on the board which has been approved by the Oregon Historical Society. He recommended erection of the text board at a cost of approximately $600. The Commission adopted the recommendation.

The Commission approved a list prepared by the Secretary showing papers signed by him in behalf of the Commission during the period of February 19 through March 29, 1954.

The Commission set Tuesday and Wednesday, May 11 and 12, 1954, as the date for its next regular meeting which is to be held in the Green Room of the Imperial Hotel in Portland. The Commission also set June 23 and 24 as the tentative date for the following meeting.

The Engineer stated that a number of people in Bend have requested the Highway Commission to set a date for dedicating the new highway department office building and shops in Bend and have suggested Saturday, May 15 for this purpose. The Commission approved such date and instructed the Engineer to so inform the Bend people. In this connection, the Commission also approved July 3, 1954 as the date for dedicating the newly constructed section of the Corvallis-Newport Highway between Toledo and Newport, and about July 1, 1954 as the date for dedicating the new Columbia River Highway west from The Dalles. The Engineer was instructed to notify interested local people who are sponsoring the festivities.

The Commission gave attention to the following items of unfinished business as shown on the Secretary's list dated February 25, 1954.

1. Status of Starkey Secondary Highway: The Engineer reported that formal requests have been received from both Umatilla and Union Counties for designation of this road and its extension to Ukiah, as a State secondary highway and a Federal-aid secondary highway. He recommended approval of the requests. The Commission unanimously approved designation of the Ukiah-Hilgard Highway as a State secondary highway and as a Federal-aid secondary highway, and thereupon adopted the attached resolution relative thereto marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

2. Request of Pilot Rock Lumber Company to acquire state park property on the Pendleton-John Day Highway about ten miles south of Ukiah: Commissioner Reynolds advised that the Company's lease does not expire until 1976 so no emergency exists. He recalled the Company's representative who was present at the meeting in February was assured of cooperation from the Commission when necessary. He suggested that no further action be taken at this time. The Commission accepted

the suggestion. (A further report on this matter was rendered by the Parks Superintendent earlier in the session.)

3. Investigation of complaints of damage caused private property by rocks falling from the Oregon Coast Highway near Rocky Creek, between Depoe Bay and Otter Crest: The Engineer reported that since the last meeting of the Commission, he investigated the situation and gave instructions to again comb the slopes to remove any loose rocks which appear to be dangerous, and to build a woven wire fence strengthened with cable, along the shoulder of the old highway and above the houses in question. Concerning the movement of the highway fill, he stated that accurate measurements over a period of several months revealed that the fill had moved about an inch, and that there had been no movement recently. He recommended that the claims be denied. The Chief Counsel pointed out that a delegation is scheduled to be present on the following day to discuss this matter. He gave as his opinion that the State is in no way obligated. The Commission deferred action pending appearance of the delegation. (See additional entry ahead)

4. Request of Oregon State Employees' Association that payroll deductions be authorized to pay medical and hospital contract premiums for employees who are members of the Association: The Engineer reported that since the February meeting, the National Hospital Association has presented a plan similar to the Oregon Physicians Service plan sponsored by the Employees Association. He said that both plans have been compared, and that it is his recommendation that the plan submitted by the National Hospital be approved, principally on the basis that it is available to all employees and is not restricted to any certain group such as is the other. He pointed out that in comparing the relative values of the two plans that it was very difficult to draw an accurate comparison because they are based on different principles. For some employees, one plan might be better and for other employees, the other plan might be more advantageous. Chairman Chandler stated that for a number of years it had been the Commission's policy not to favor any contract which will not give all employees an equal chance to participate. Commissioner Reynolds and Commissioner McIver confirmed this position. The Commission thereupon rejected the request of the State Employees Association and approved the new form of contract with the National Hospital Association.

5. Request from Sunset Memorial Park Association for permission to do clean up and landscape work on the Oregon Coast Highway south of Coos Bay: The Engineer reported that this matter has been investigated and discussed with Miss Ellen Rudnas who made the request, and that tentative plans have been made to improve the drainage conditions on the highway right of way, and to remove a portion of the cut bank where the street from the Memorial Park enters the frontage road, the material to be used to fill in low ground on the highway right of way. He estimated the cost for doing this at $2,000, and advised that the expense could be financed with 1954 minor betterment funds. He also

said that Miss Rudnas was advised that when the timber is removed from the park, it would be agreeable to negotiate with the logging contractor to remove a small amount of timber from the highway right of way. The Commission accepted the report.

6. Request of Harney County Court for improvement of the French-glen Secondary Highway at Wrights Point and for improvement of US Route 395 north of Burns: The Engineer reported that the estimated cost to reconstruct the Wrights Point section is approximately $300,000. He pointed out that the livestock association, which has asked for the improvement, estimates a saving of only $7,400 annually through the hauling of stock if the road were improved. This saving, he stated, would not justify the construction expense involved, even though funds were available, and he recommended that the County Court be so advised. The Commission adopted the recommendation.

Concerning the section of US395 north of Burns, the Engineer estimated that to bring the 8.4 mile section up to standard will cost approximately $600,000. Such funds, he pointed out, are not available, and as the section was originally built with forest funds and is still eligible for such funds, he suggested that the improvement be deferred until it can be financed with forest funds. The Commission accepted the suggestion.

7. Request of Tillamook Chamber of Commerce for relocation of the Oregon Coast Highway via Cascade Head south of Neskowin: The Engineer reported that pursuant to instructions given him at the last meeting, he has prepared an economic analysis of the situation which shows that the proposed road will provide a saving of 5.03 miles in distance over the existing route, its length being 6.4 miles as compared with 11.43 miles on the present route. A traffic count, he said, reveals only about 750 vehicles per day, but the saving in distance provides a benefit quotient of 2.90, in other words, an annual cost amounting to $121,000 in comparison with annual benefits of $350,000. He estimated cost of the project at $2,500,000, and he recommended that it be given consideration by the Commission when the next construction program is formulated. The Commission accepted the recommendation.

8. Offer of Wallowa County to take over the Flora Spur Section of the Enterprise-Lewiston Highway if the State will designate a 1.08 mile extension to the Joseph-Wallowa Lake Secondary Highway in Wallowa Lake State Park: The Engineer presented a resolution from the County Court requesting approval of such exchange of roads, and a form of agreement signed by the Court, whereby the County agrees to take over maintenance of the Flora Spur section if the State will extend the Joseph-Wallowa Lake Secondary Highway. He recommended approval of the agreement. The Commission approved the recommendation and thereupon adopted the attached resolution resolution relative thereto, marked EXHIBIT 'K", which resolution by this reference is made a part hereof with like effect as though extended in full herein. The Engineer was then authorized to conduct a survey of the said extension in order to ascertain accurately how much improvement of the park road is going

to cost, the tentative estimate being $30,000. He was instructed to expedite the survey so the project can be contracted at the earliest possible time. Funds to finance construction are to be transferred from the amount set up in the 1954 budget for improvements in Rooster Rock State Park, the amount to be determined later.

9. Request of Willamina delegation for construction of curbs and full width pavement on the route of the Salmon River Highway through the City: The Engineer reported that a field investigation disclosed that it will cost about $65,000 to do what the city requests, which sum, he said, is not available. He pointed out that the Commission's long range program contains provisions for the Salmon River Highway to by-pass Willamina in view of which he suggested that the property owners along the present route be required to finance the improvement of such route as the property owners on other city streets are required to do. Chairman Chandler pointed out that $375,000 has been set up in the program for surfacing on the Salmon River Highway, and he suggested that it might be well to transfer such sum to advance construction of the by-pass. Commissioners Reynolds and McIver indicated their approval of the suggestion, whereupon the Commission authorized the Engineer to conduct a survey for the Willamina By-pass Section. The Secretary was instructed to inform the Willamina City Council that the survey has been authorized, and that the City will be notified of the Commission's decision with respect to improvement of the present route when action has been taken on the survey report.

10. Request of Hood River Chamber of Commerce for improved entrance from the Columbia River Highway into the City of Hood River: The Engineer exhibited a map showing a proposed plan to solve the problem and recommended its adoption. He estimated the cost to construct the plan at $7,500, and he gave as his belief that the plan will satisfy the people of Hood River. In his report, the Engineer recalled that the people of Hood River also requested permission to erect an arch over the west highway approach to the City. He recommended that this request be denied because in the past, such arches have caused a great deal of trouble, and that in lieu of the arch, large direction signs be maintained far enough from the entrance-way to allow anyone plenty of time to turn off should they desire to do so. The Commission accepted both recommendations.

11. Request of W. L. Archer, et. al., for access to the Portland-Salem Expressway at Norwood Crossing: The Engineer reported that since a delegation appeared before the Commission on February 25, the matter had been given very careful study and the facts disclosed in no way warranted or justified an interchange at the Norwood Road. He recommended that the request for access be denied. The Commission deferred action pending appearance of a delegation on the following day. (See additional entry ahead.)

The Engineer stated that Mr. Frank E. Andrews, Acting Division Engineer of the U. S. Bureau of Public Roads, wants to discuss the forest highway program with the Commission at its next meeting. The Commission approved a meeting with officials of the Bureau of Public Roads and the U. S.

Forest Service at 10:30 a.m., May 12. The Engineer was instructed to send the Commission an advance copy of the proposed construction program.

The Commission ordered deleted all of the items appearing on the list of unfinished business dated February 25, in view of reports rendered this day

The Engineer reported completion of reconstruction of the Jones Ranch-Mitchell Section of the Ochoco Highway in Wheeler County. He said that this section has been opened to public travel, and he recommended that the old highway section be abandoned to Wheeler County as provided in the terms of an abandonment agreement previously executed. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer presented for the Commission's consideration a form of supplemental agreement with the U.S. Army Engineers whereby the Government agrees to reimburse the State to the extent of approximately $100,000 for repairing subsidence of US 395 and US 730 caused by construction and operation of McNary Lock and Dam. He explained that under the terms of the agreement the work is to be performed by the State and reimbursement for the cost thereof will be made by the Army Engineers. The estimated cost of doing the work, he stated, is approximately $100,000. Upon his favorable recommendation, the Commission approved the agreement.

The Commission discussed with the Engineer the problems to be presented by the various delegations to appear on the following day, but took no action on any of them at this time.

The Commission discussed with the Engineer the bids received during the morning session for highway construction, and at 4:30 p.m. Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the Commission's decisions being by unanimous vote:

"Grading and surfacing the Lewisburg Loop Section of the Armstrong Lane and Dickinson County Roads west and north of Lewisburg in Benton County: The Commission elects to accept the bid of J. R. Taggart, Salem, in the sum of $48,458.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Benton County and the Bureau of Public Roads is received, and the sum of $11,000 is deposited by the County.

"Grading and pavement widening on New Era and Aurora Hills (Passing Lanes) Section of the Pacifife Highway East in Clackamas County: The Commission awarded the contract to the low bidder, Acme Construction Company, Eugene, at its bid price of $29,395.00.

"Grading and paving St. Helens-McNulty Creek Section of the Old Portland County Road and Gable Road connection west and southerly from St. Helens in Columbia County, and grading and paving the Tide Creek-St. Helens Section of the Columbia

River Highway in Columbia County: The Commission elects to accept the low combination bid of Parker-Schram Company, Portland, in the sum of $487,356.40, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received on the Tide Creek-St. Helens Section, and as soon as approval of Columbia County and the Bureau of Public Roads is received and the sum of $12,200 is deposited by the County on the St. Helens-McNulty Creek Section.

"Construction of Bend Car Storage Shed in Deschutes County: The Commission awarded the contract to Modern Materials Company, Redmond, the low bidder, at their bid price of $11,050.00.

"Construction of Jackson Creek and Griffin Creek Culverts on the Jacksonville-Central Point Road and Ross Lane in Jackson County: The Commission referred all bids to Jackson County inasmuch as this is a county project.

"Installation of Medford Traffic Signals on the Pacific Highway and on the Medford-Provolt Highway in Jackson County: The Commission awarded the contract to the low bidder, Steeck Electric Company, Roseburg, at their bid price of $5,790.00.

"Reese Creek-Prospect Rock Production Project on the Crater Lake Highway in Jackson County: The Commission awarded the contract to the low bidder, M. C. Lininger and Sons, Medford, at their bid price of $30,861.00.

"Construction of Wolf Creek Bridge on the Pacific Highway in Josephine County: The Commission elects to accept the bid of Hamilton and Thoms in the sum of $29,200.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Division 4 Reoiling Project on Three State Highways south and east of Lapine, west and east of Paisley, and west and east of Bly in Klamath and Lake Counties: The Commission awarded the contract to D-H Paving Company, Vancouver, Washington, the low bidder, at their bid price of $88,143.00.

"Grading on the Coast Fork Willamette River-Divide Unit, Goshen-Divide Section of the Pacific Highway in Lane County: The Commission elects to accept the bid of F. L. Somers and George R. Stacey Company in the sum of $709,346 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and paving on the Siuslaw Junction-Smithfield Section of the Territorial Highway about 7 miles north of Elmira in Lane County: The Commission awarded the contract to the low bidder, L. P. Stubblefield, Eugene, at his bid price of $82,983.00.

"Painting Yaquina Bay Bridge on the Oregon Coast Highway at Newport in Lincoln County: The Commission awarded the contract to J. E. Brown Company, Portland, the low bidder, at his bid price of $54,864.00.

"Reconstruction of Calapooya River Overflow Bridges on the Pacific Highway south of Albany in Linn County: The Commission awarded the contract to the low bidder, Lee Hoffman, Beaverton, at his bid price of $108,980.00.

"Paving on the Blue Mountain Pass Section of the I. O. N. Highway about 84 miles west and south of Jordan Valley in Malheur County: The Commission awarded the contract to the low bidder, J. C. Compton Company, McMinnville, at their bid price of $158,130.00.

"Grading and paving on the Salem-Roberts Section of the Independence-Salem Road in Marion County: The Commission elects to accept the bid of Fred Rouse and Henry H. Miller, Salem, in the sum of $156,823.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Marion County and the Bureau of Public Roads is received and the sum of $36,230 is deposited by the County.

"Construction of Deschutes River and Fulton Canyon Creek Bridges on the Columbia River Highway east of The Dalles in Sherman and Wasco Counties: The Commission elects to accept the bid of Young & Smith Construction Company in the sum of $245,900.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Grading and paving project in Carlton (West Main Street) and in Lafayette (Madison Street), both in Yamhill County: The Commission elects to accept the low combination bid of W. G. Wright in the sum of $23,913.90 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Carlton is received and the sum of $1,555 is deposited by the City."

Commissioner Reynolds stated that he had been contacted by representatives of the State Game Commission and the Powder River Sportsmans Club, relative to construction of a parking lot and restrooms for the convenience of fishermen at Unity Reservoir on the Baker-Unity Highway in Baker County. He said that a large number of fish have been planted in this reservoir and that on the opening day of the season 179 cars used the area near the highway, and it is anticipated that an increasingly large number of people will fish here from now on. He asked for an investigation as to the cost and feasibility of developing a parking area to serve 25 or 30 cars at this place, and he advised that no consideration need be given to construction of a boat landing. The Commission instructed the Engineer to make such investigation and to report the findings. He was told to contact Mr. Delbert Gildersleeve, member of the State Game Commission, and Mr. F. J. Murphy, Box 162, Baker, who are interested in the project, for details.

Commissioner Reynolds also brought up for discussion the question of what shall be done with a drinking fountain located on the highway in Elgin as it appears that the fountain is in a bad state of repair. The Engineer pointed out that this fountain is one of two of

this type that are left, the other being at Rattlesnake Springs. At the suggestion of Commissioner Reynolds, the Commission decided to repair the fountain and let it remain in its present location for the time being. The Engineer was instructed to have the work done.

Commissioner Reynolds reported the results of taking bids in Salem on March 15, 1954 for furnishing a Public Employee's Faithful Performance Blanket Bond covering all employees of the State Highway Department. He said that the Peerless Casualty Company, through its agent, Dooly and Company, Portland, submitted the low bid for this business in the sum of $3,751.02, for three years' coverage, beginning March 15, 1954, and that as authorized by the Commission, he accepted the offer, and the bond has been delivered. Chairman Chandler and Commissioner McIver each declared his approval of Commissioner Reynolds' action in this matter. There follows a complete list of the bids received for this service:

Name of Bidder	Premium 3 Years Lump Sum	3 Years Installments	
Peerless Casualty Company Dooly & Company, Agent Portland	$3,751.02	1st year 2nd year 3d year	$1,575.43 1,181.57 1,181.57
General Casualty Company Dooly & Company, Agent Portland	$3,833.87	1st year 2nd year 3d year	1,610.22 1,207.67 1,207.67
General Casualty Company Huggins Insurance Agency Salem	$3,833.88	1st year 2nd year 3d year	1,610.23 1,207.67 1,207.67
General Casualty Company Mansfield and Company, Agent Portland	$3,833.88	1st year 2nd year 3d year	1,610.23 1,207.67 1,207.67
General Casualty Company A. E. Farrier, Agent Aloha	$3,833.88	1st year 2nd year 3d year	1,610.23 1,207.67 1,207.67
Indemnity Insurance Company of North America, North America Companies, Agent Seattle	$3,834.05	1st year 2nd year 3d year	2,012.86 1,207.74 805.15
The Ohio Casualty Insurance Company Metzger-Parker Agency Portland	$6,879.38	1st year 2nd year 3d year	3,611.50 2,166.90 1,444.60

Seaboard Surety Company Hansen & Rowland, Inc., Agent Portland	$9,802.65	1st year 2nd year 3d year	$5,146.39 3,087.83 2,058.56

The meeting adjourned at 5:00 p.m. to reconvene on the following day.

Portland, Oregon
April 2, 1954

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Green Room of the Imperial Hotel with the following persons present and participating:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids as follows for highway construction were opened and read aloud by the Secretary, at the conclusion of which he announced that the awards of contracts would be made by the Commission at 4:00 p.m. in the same room:

BENTON COUNTY
YEW CREEK-ALSEA MOUNTAIN SUMMIT PASSING LANES

Warren Northwest, Inc., Portland	$19,518.00
Western Paving & Construction Company, Albany	21,041.00
Q. L. Rufener, Portland	21,205.00

CLACKAMAS COUNTY
LITTLE CREEK-ESTACADA SECTION GRADING

Erickson Paving Company, Bellevue, Washington	$166,723.60
Vernie Jarl, Gresham	177,004.00
C. R. O'Neil, Pendleton	180,388.50
George E. Blaisdell & Son, Portland	182,919.50
Kuckenberg Construction Company, Inc., Portland	184,546.00
Harbert Brothers, Estacada	186,993.50
Herman Kathman, Seattle, Washington	187,093.00
Logan, Taylor & Company, Portland	188,308.00
John A. Logan, Portland	189,704.60
Fred Rouse & Henry H. Miller, Salem	193,947.00
Parker-Schram Company, Portland	203,744.50
Gibbons & Reed Company, Salt Lake City, Utah	207,475.00
J. W. Briggs, Bend	208,336.00
M. L. O'Neil & Son, Eugene	210,519.00
Natt McDougall Company, Portland	222,498.00
Zachary and Saimons, Everett, Washington	242,239.00
Peter Kiewit Sons' Company, Longview, Washington	247,484.50
McNutt Brothers, Eugene	254,531.00
Babler Brothers, Inc., Portland	257,906.00
J. N. Conley, Portland	263,445.00
Carl M. Halvorson, Inc., Portland	290,020.00
Stevenson Construction Company, Salem	303,935.00
C. J. Eldon, Portland	379,243.00

COOS COUNTY
MCCULLOUGH BRIDGE PAINTING

Runnels Paint Company, Seattle, Washington	$ 57,850.00
Tri-State Painting Company, Portland	60,500.00
C. H. Savage Company, Portland	73,400.00
Chas. Murphy, San Francisco, California	76,214 00

April 2, 1954

Mr. Jesse C. Minson, Crook County Commissioner, came before the Commission to request construction of a passing lane over the hill on the Ochoco Highway about 1½ miles west of the City of Prineville. He pointed out that a third lane on this long, steep section of highway will allow fast-moving traffic to pass slower vehicles thereby speeding up traffic movements and increasing safety. Chairman Chandler explained that the Commission has adopted a policy whereby a lump sum is allocated each year to finance construction of passing lanes and that the funds are allocated to the various jobs on a basis of priority. The funds budjetted for such purpose this year, he stated, have all been allocated, but consideration will be given to the Prineville project in programming the money next year. The Commission thereupon instructed the Engineer to investigate the request and report the findings.

Mr. Howard H. Campbell, attorney, and his client, Mr. Lloyd W. Rostad, both of Portland, came before the Commission concerning damage to privately-owned property at Miroco Beach, Lincoln County, caused by construction of the Depoe Bay-Miner Creek Section of the Oregon Coast Highway. Mr. Campbell stated that he spoke in behalf of Mrs. Lloyd W. Rostad, Edward B. Hodges, and P. J. Kaptur who own dwellings situated below a newly constructed highway fill. He pointed out that the fill and the rocks lying along the slopes above these homes endanger the people living in them; in fact, rocks already have struck the Hodges' and the Kaptur's homes and other large boulders have barely missed them. This condition, he stated, creates a feeling of fear which is enhanced by what appears to be the unstable condition of the fill immediately above the houses. He declared that, due to the conditions, these properties have been rendered practically worthless, and he accordingly asked the Commission to purchase the properties or pay for the damage that has been done. He exhibited pictures in support of his oral demands. Chairman Chandler advised that the Commission will discuss the matter with the Engineer and the Counsel and that the Chief Counsel will advise them of the decision that is reached.

Mr. Fred Meek, Portland, was present as representative of the Sons and Daughters of the Oregon Pioneers, concerning the custody of historical objects at Champoeg State Park. He recalled that the Commission, in order to provide better storage facilities for the objects, previously authorized their transfer to the building now being constructed in the park by the Daughters of the American Revolution. He asked the Commission to postpone the actual transfer of these objects until the Legislative Interim Committee has had an opportunity to present the matter to the next session of the Legislature with a view to securing construction of a special building for this purpose. Chairman Chandler advised that the Commission already has discussed the matter and decided to let the objects stay where they are for the time being and that the Parks Superintendent has been so instructed. Mr. Meek expressed appreciation for the Commission's action. Mr. Leslie M. Scott, Portland, also a member of the Sons and Daughters of the Oregon Pioneers, appeared before the Commission a short time later and added his personal thanks for the decision.

Mr. A. H. Rossi, Mayor of the City of Beaverton, came before the Commission concerning the rerouting of the Beaverton-Aurora Highway through the City of Beaverton along Hall Street from 12th Street to a junction with the Tualatin Valley Highway. He said that the present route is badly congested, and he gave as his thought that by using Hall Street the situation would be greatly relieved. The City, he

stated, has $35,000 which it will contribute as its share of the cost to improve Hall Street. Mayor Rossi also mentioned that the City contemplates changes in its sewage disposal system this year so will have to know something about the proposed highway improvements in order to install the sewage facilities properly. Chairman Chandler advised that the use of Hall Street as a highway route will be investigated but there is no money available to finance it this year; also that grade stakes will be set by state engineering forces for sewer work that needs immediate attention inasmuch as a state highway is involved. The Engineer was thereupon authorized to make the investigation and to set the grade stakes.

Upon the Right of Way Engineer's favorable recommendation and upon his statement that no additional access is being granted, the Commission approved a 15-foot change of access to the George R. Cromley property on the Pacific Highway East a short distance north of Salem in Marion County.

Mr. W. W. Stiffler, Assistant Highway Engineer, requested instructions concerning renewal of the hull and machinery insurance on the Astoria ferries. He advised that the present insurance coverage expires on June 1, 1954, so the furnishing of new insurance must be advertised for bids to be received at the next meeting of the Commission. As a result of discussion, the Commission authorized the advertising for bids to be received at the May meeting. The Engineer was instructed to include in the advertisement a clause reserving to the Commission the right to reject any or all bids. The matter was referred to Commissioner Reynolds to handle the details and with authority to act for the Commission.

A delegation from Washington County who reside in the Sherwood District appeared before the Commission to urge construction of a traffic interchange at the intersection of Norwood Road with the Portland-Salem Expressway. The following people composed the group: Paul McFarland, Willard L. Archer, Howard Ellman, Mrs. Fred B. Southard, Mrs. James Howten, James Howten, and Ed Schneider. Mr. Archer, who was principal spokesman, stated that the people in this area feel that they are entitled to an interchange based on the volume of traffic involved. Chairman Chandler stated early in the interview that the matter had been carefully considered following the delegation's appearance at the February meeting, and that the Commission had decided not to construct an interchange at this place until the traffic volume warrants it. Mr. Archer insisted that the traffic volume necessary to warrant an interchange is now in existence and to substantiate his remarks, he presented copies of a traffic count taken by Washington County, which, he stated, shows that the volume of traffic on the Norwood Road is high in comparison with the traffic carried by other roads on which interchanges have been constructed. People in this area, he stated, feel that they have been done an injustice. Chairman Chandler repeated his comment made earlier to the effect that if and when the volume of traffic warrants construction of an interchange, the Commission will build it, but present studies do not show a sufficient volume of traffic originating in the Norwood area to warrant it. Mr. Archer and several other speakers alleged that when right of way for the expressway was acquired, they were told that they would be allowed access at Norwood Road. Chairman Chandler reiterated that when sufficient traffic originates in the Norwood area, the Commission will consider that feature and

will approve an interchange, which according to reports is not justified under present conditions. The Engineer suggested that when the Portland-Salem Expressway is opened to public use, another origin and destination survey be conducted to ascertain what effect the new highway has on traffic. Mr. Archer requested that they be allowed to have a man of their choosing work with the engineers with a traffic counter when the new survey is made. Chairman Chandler, in closing, commented that the matter would be given very fair and careful consideration and that an interchange will be constructed at a later date if it is needed, but no definite commitment can be made at this time. He further stated that the Commission does not wish to appear arbitrary in the matter, but it must base its decision on traffic studies, and it also is a case of highway modernization. There is no reason, he said, why the access facilities cannot be provided later on if they are warranted. As to allowing someone representing the group to participate in making the new origin and destination survey, Chairman Chandler stated that can be arranged and that the group will be informed when the survey is to be started, but they should not expect it until the highway has been opened to public use for some time, and traffic has been adjusted to it.

The meeting recessed for luncheon at 12:00 noon and reconvened at 2:00 p.m. with the same persons present and participating.

A delegation representing the Oregon US Highway 20 Association appeared before the Commission. The following people formed the group: Hon. Frank Gilkey, Mayor of Newport and Vice-president of US 20 Association; Vance Taylor, President of US 20 Association, Corvallis; James Howes, Secretary, Newport; Kurt Kiesow, Mel Hammerness and Frank Updike, Directors, Toledo; Fred Spores, Director, Lebanon; Charles DeFoe, Manager; Lebanon Chamber of Commerce; Don Donahue, Manager, Albany Chamber of Commerce; and Robert Sipe, Director, US 20 Association, Albany. Mr. Kieso acted as spokesman and introduced the members of the delegation. The purpose of their visit, he stated, is (1) to invite the members of the Commission and its staff to be the guests of the Association on the occasion of their Pioneer Day celebration on July 3 when they plan to dedicate the new section of the Corvallis-Newport Highway between Toledo and Newport, and (2) to urge construction of the Pioneer Mountain Section on this highway west of Toledo. It is the feeling of the Association, he said, that this is their number one project; whereas the number two project is construction of a high water road between Albany and Corvallis, and the third project is the widening and straightening of US Route No. 20 on a 2½-mile section from the south Lebanon city limits to the Sodaville Junction. He presented a formal resolution covering these three recommendations but limited his oral request to the number one project. Chairman Chandler stated that the Commission will give careful consideration to their requests when a new construction program is formulated. He thanked the Association for its invitation to be present at the dedication of the Toledo-Newport Highway on July 3 and advised that he personally will be present, and as many of the staff as may find it possible to do so.

A delegation from Astoria and vicinity, headed by Mr. M. E. Reynolds, Attorney for the Port of Astoria, appeared before the Commission in the interest of a toll bridge across the Columbia River near Astoria, connecting the states of Oregon and Washington. Mr. Reynolds introduced the following members of the group: Messrs.

E. L. Baldwin, City Manager, Warrenton; J. R. Bowler, Manager, Port of Astoria Commission; Eric Hauke, Acting Mayor of the City of Astoria; Lester U. Raw, Mayor of Seaside; Wm. Manion, Seaside, Vice-president of the Port of Astoria Commission; and Hon. Joe Dyer, State Representative, Astoria. Mr. Reynolds explained that their purpose in coming to the State Highway Commission at this time is to request financial assistance in obtaining a feasibility report with respect to a proposal for a toll bridge across the Columbia River at some point in the vicinity of Astoria. He mentioned similar assistance given Wasco County and Umatilla County in the financing of engineering studies with respect to construction of bridges across the Columbia River at The Dalles and at Umatilla, and he advised that their plan today is similar to those projects, except that the engineering studies will require more money. He estimated that the preliminary investigation will cost about $50,000, of which, he said, $40,000 represents the expense of traffic studies and $10,000 the cost of engineering. It is proposed, he said, to finance the preliminary work through four agencies--Port of Astoria, Pacific County, Washington, Washington State Toll Bridge Authority, and the State of Oregon through its State Highway Commission, each of whom are being asked to contribute $12,500 to defray the initial expense. Mr. Reynolds also mentioned that Pacific County, Washington, has definitely agreed to contribute its proportionate share of the expense, as has also the Port of Astoria, and that they are now asking the Oregon State Highway Commission for an expresion of its willingness to cooperate on a like basis. Then they are going to ask the Washington Toll Bridge Authority for a like contribution. He mentioned that they have a signed agreement with A. C. Allyn and Company of Chicago to purchase the bonds if feasibility of the toll bridge is proven by the survey, and that they have an agreement also with the Tudor Engineering Company of San Francisco whose services have been retained to make the engineering survey, including location and cost studies. Traffic surveys, he added, will be conducted by Coverdale and Colpitts of New York City who are specialists in that line. He mentioned that the financing of construction will be by sale of revenue bonds which, he repeated, A. C. Allyn and Company of Chicago have agreed to purchase if the feasibility of the toll bridge is proven by the survey. Mr. Reynolds further explained that studies for a high level bridge are expected to take about six months, and that if the survey reveals the project to be feasible, then the $12,500 contributed by each of the four agencies will be returned to them when the revenue bonds are sold; if the project is found to be impractical, then the contributors will be reimbursed at some future time when the bridge is built. Mr. Reynolds presented communications from munerous public bodies, each of whom endorsed the project and urged that it be given favorable consideration by the Highway Commission. Others speaking in behalf of the project were the following: (1) Mr. Manion, who stated that this is the number one project of the Oregon Coast country and that it has the endorsement, not only of the Astoria district, but of the entire coast. He mentioned benefits that will be derived from the tourist business if the toll bridge is provided. (2) Mr. Dyer, who stated that in his opinion it is none too early now to determine the feasibility and the location of the toll bridge. In his estimation it is a matter of urgent planning and common sense. (3) Mr. Baldwin, who endorsed the project in behalf of the City of Warrenton. (4) Mr. Hauke, who stated that the project has the unanimous endorsement of the Astoria City Council because the Council is of the opinion that a bridge will provide for the economic stability of the entire lower Columbia River area. He also mentioned benefits from tourist travel. (5) Mr. Raw, who stated

that he represents not only the City of Seaside but also the cities of Gearhart and Cannon Beach, whose people are one-hundred percent in favor of the toll bridge construction. He gave as their feeling that the promotion of this project and elimination of the ferry hazard is the only way that these communities can continue to grow and prosper. (6) Mr. Bowler, who stressed the time element and who gave as his feeling that at the earliest it will take four years to get the toll bridge constructed. It was his judgment that the preliminary investigation should be carried on at once. He mentioned a preliminary survey report on this matter prepared for the Port of Astoria by Moffatt, Nichol and Taylor, Engineers, Portland, the conclusions in which, he declared, are inaccurate because of the shortness of time that was allowed for preparing the report, being entirely too short to evaluate a project of this magnitude.

Chairman Chandler inquired if the Port of Astoria has a definite signed agreement with the Tudor Engineering Company to conduct the engineering investigation. Mr. Reynolds replied in the affirmative, adding that the agreement becomes effective when definite arrangements have been made for monies to finance the studies. If the money is not forthcoming, he said, then the agreement is automatically cancelled. Chairman Chandler then gave as his understanding that the Commission is now being asked to contribute funds for this feasibility or economic survey to determine whether or not construction of a toll bridge at this location is a practical proposition. He gave as his feeling that the States of Washington and Oregon eventually will have to assume the bridge responsibility, so with that in mind, the Commission will want to give the matter further study before committing funds for the intitial survey, although in his estimation, the State of Oregon should contribute to such expense if the other three agencies do so. Commissioner McIver expressed concurrence in the remarks of Chairman Chandler. Mr. Reynolds again mentioned that Pacific County, Washington, has obligated itself to contribute $12,500 for the preliminary survey, and that the Port of Astoria has done likewise. Chairman Chandler then repeated that if the State of Washington definitely commits itself to contribute the sum of $12,500 toward the cost of the preliminary survey along with Pacific County and the Port of Astoria, then, in his estimation, the State of Oregon through its Highway Commission should do likewise. Commissioners Reynolds and McIver expressed themselves similarly, whereupon motion to that effect was made by Commissioner McIver, duly seconded, and was declared by Chairman Chandler to have received the unanimous vote of the Commission.

Commissioner Reynolds pointed out the desirability of securing a commitment from the Washington Toll Bridge Authority regarding construction of the bridge so that feature will be clearly understood in the event the two states assume the bridge responsibility sometime in the future. He also mentioned that the plans for the bridge design, etc., must meet the bridge standards of the State Highway Departments of the States of Washington and Oregon as well as those of the Army Engineers. Mr. Reynolds stated that those features will be taken care of. He asked for a letter from the Highway Commission stating definitely its willingness to contribute $12,500 toward the cost of the preliminary survey if the other three agencies do likewise. The Secretary was instructed to furnish the Port of Astoria an excerpt from the minutes of this meeting covering the discussion when the minutes have been approved by the Commission. This concluded the conference.

A delegation from the City of Tillamook came before the Commission to urge the relocation of the Oregon Coast Highway via Cascade Head, south of Neskowin. Present were: Charlie Ross, Chairman of the Roads and Highways Committee of the Tillamook Chamber of Commerce; Earl Sweet, member of the Roads & Highways Committee; Hon. Otto Effenberger, Tillamook County Judge; Vern Tinnerstett, Manager, Tillamook Chamber of Commerce; and Arthur Waud, Manager, Oregon Coast Association, Tillamook. Judge Effenberger headed the delegation and commented that this delegation not only urges construction of the highway around Cascade Head, but it also favors study looking toward construction of a bridge across the Columbia near Astoria. Mr. Ross stated that their principal point of interest has to do with the rerouting of the Oregon Coast Highway south of Neskowin via Cascade Head. He recalled that the Commission sometime ago authorized an exonomic survey of this section, and he gave as his understanding that a study of the facts revealed a benefit quotient nearly three to one due, principally, to a saving of approximately five miles in distance. He asked the Commission to place the project in a definite highway program for construction when funds become available. Chairman Chandler stated that the Commission is familiar with the project and will give it careful consideration as the number one project at the north end of the Oregon Coast Highway when funds become available to finance construction.

Mr. H. C. Wells and Mr. J. F. Dillard, members of the Roseburg Chamber of Commerce, appeared before the Commission to urge improvement of the North Umpqua Road between Rock Creek, present terminus of the paved section, and Steamboat, east of Roseburg. Mr. Wells explained that they are principally interested in paving this section. Mr. Dillard commented that this is the number one improvement desired by people in this area because it is vital to them in connection with the hauling of logs and for recreational purposes. Chairman Chandler pointed out that this is a federal-aid secondary county road so State money cannot be spent on it; also, that about $1,600,000 forest highway funds have already been spent to improve it. He called attention to the fact that a great amount of highway construction money is being spent in Douglas County, and that the County secures a very sizable return on the sald of Government timber. Mr. Dillard stated that they are appreciative of this fact, but they hoped to be able to obtain additional federal money for the road. Mr. Wells called attention to the large blow-down and bettle-loss timber which can be hauled over this road. The suggestion was offered by Chairman Chandler that they check with the Bureau of Land Management for funds necessary to provide an access road or roads to the blow-down and beetle-loss areas. The Engineer recalled an item of $375,000 in the forest highway program for this road, and he suggested that they bend their efforts towards getting the U. S. Government to release these funds. Mr. Wells and Mr. Dillard extended to the Commission an invitation to inspect the road in person.

The Chief Counsel discussed with the Commission the advisibility of employing local counsel in connection with jury trial throughout the State. Based upon the recommendation of the Chief Counsel, and after discussion and full consideration of the use of local counsel in behalf of the State Highway Commission in jury trials throughout the State, the prior policy of the Commission and direction to the Chief Counsel was modified to authorize the Chief Counsel to use local counsel in such cases and in such a manner, and for such purposes as in

his opinion will be most beneficial to and best serve the interests of the State in all litigation in which the State of Oregon, by and through its State Highway Commission, is a party.

The Commission discussed with the Engineer the bids received during the morning session for highway construction, and at 4:00 p.m. Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the Commission's decisions being by unanimous vote:

"Grading and pavement of widening on the Yew Creek-Alsea Mountain Summit (Passing Lanes) Section of the Alsea Highway in Benton County: The Commission awarded the contract to Warren Northwest, Inc., Portland, the low bidder, at their bid price of $19,518.00.

"Grading on the Little Creek-Estacada Section of the Woodburn-Estacada Highway in Clackamas County: The Commission awarded the contract to the low bidder, Erickson Paving Company, Bellevue, Washington, at its bid price of $166,723.60.

"Painting steel above roadway slab on McCullough Bridge over Coos Bay on the Oregon Coast Highway in Coos County: The Commission awarded the contract to the low bidder, Runnels Paint Company, Seattle, Washington, at their bid price of $57,850.00.

"Grading and topping on the Warner Station Section of the Powers Highway in Coos County: The Commission awarded the contract to Martin Kincheloe, Myrtle Point, the low bidder, at his bid price of $13,333.40.

"Construction of Caretaker's Cottage at Harris Beach State Park on the Oregon Coast Highway in Curry County: The Commission awarded the contract to the low bidder, Hampton C. Platt, Salem, at his bid price of $8,830.00.

"Construction of Employees House at Pistol River Maintenance Headquarters on the Oregon Coast Highway in Curry County: The Commission awarded the contract to the low bidder, Hampton C. Platt, Salem, at his bid price of $8,730.00.

"Painting five bridges on the Oregon Coast Highway in Curry County: The Commission awarded the contract to Andrew Nesheim, Olympia, Washington, the low bidder, at his bid price of $23,964.00.

"Paving and furnishing crushed material in stockpile on the Deady-South Umpqua River Unit, Deady-Shady Section of the Pacific Highway South from Sutherlin in Douglas County: The Commission elects to accept the bid of E. C. Hall Company and J. C. Compton Company in the sum of $425,147.50 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading, paving, and sewer construction on the Condon (Highway and City Streets) Section on the John Day Highway, and on Oregon, Well, and East Streets in Condon in Gilliam County: All bids were rejected on this project.

"Construction of one concrete bridge over Red Blanket Creek and three concrete

bridges over the COPCO Canal on the Butte Falls-Prospect Road in Jackson County: The Commission referred all bids to Jackson County inasmuch as this is a county project.

"Klamath Falls-California State Line Rock Production Project on Five Highways in Klamath County: The Commission awarded the contract to the low bidder, James M. Barnes, Klamath Falls, at his bid price of $32,650.00.

"Grading and paving, construction of two bridges, and furnishing crushed material in stockpiles on the Jasper Bridge-Pleasant Hill Section of the Springfield-Creswell Highway in Lane County: The Commission elects to accept the bid of Acme Construction Company in the sum of $186,814.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Paving Gervais (5th Street) Project in Marion County: The Commission awarded the contract to the low bidder, Warren Northwest, Inc., Portland, at their bid price of $7,478.00.

"Construction of Salem Maintenance Building in Marion County: The Commission awarded the contract to the low bidder, Modern Materials Company, Redmond, at their bid price of $14,076.73.

"Grading and paving project in Turner (3d Street) in Marion County: The Commission awarded the contract to the low bidder, Warren Northwest, Inc., Portland, at their bid price of $6,641.00.

"Paving N. W. Vaughn Street-West Burnside Street Section of the Columbia River Highway (N. W. 18th Avenue) in Portland in Multnomah County: The Commission awarded the contract to the low bidder, Cascade Construction Company, Portland, at their bid price of $15,560.00.

"Conversion of Toothrock Tunnel Lighting system on the Columbia River Highway in Multnomah County: The Commission awarded the contract to the low bidder, Walton-Brown Electric Company at their bid price of $8,199.00.

"Fencing on Emigrant Hill on the Old Oregon Trail southeast from Pendleton in Umatilla County: The Commission awarded the contract to C. R. O'Neil, Pendleton, the low bidder, at his bid price of $30,580.00.

"Construction of Mission Junction Grade Separation on the Old Oregon Trail in Umatilla County: The Commission awarded the contract to R. H. Jones, Hillsboro, the low bidder, at his bid price of $63,660.00;

"Paving on the Sheep Creek Hill Section of the Little Sheep Creek Highway east of Joseph in Wallowa County: The Commission awarded the contract to N. A. Toole Construction Company, Ontario, the low bidder, at their bid price of $88,923.50.

"Grading and paving on the Beaverton Junction-Progress Section of the Olson County Road east and south of Beaverton and west and north of Metzger in Wash-

ington County: The Commission elects to accept the bid of Porter W. Yett in the sum of $123,250.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Washington County and the Bureau of Public Roads is received and the sum of $37,800 is deposited by the County."

The Commission signed agreements, et cetera, as follows:

"Quitclaim Deed" reconveying to City of Redmond an easement to maintain a radio pole on southwest corner of Lot 3, Block 73, City of Redmond.

"Bargain and Sale Deed" re selling to E. E. and Mary A. Baird a small parcel of excess right of way on US 101 in Florence.

"Bargain and Sale Deed" re sale to Earl H. and Bernice P. Kleen of property on Salem By-pass Section of Pacific Highway in Marion County.

"Indentures of Access" for changes of access points for the following:

a. Lemons property on East Unit, Mt. Vernon-Dayville Section of John Day Highway in Grant County.

b. Arizona Barnes property on East Unit, Dayville-Mt. Vernon Section of John Day Highway in Grant County.

"Grant of Access" re access to City of Monmouth to be used for municipal sewage disposal plant on Orr Corner-Monmouth Section of Pacific Highway West in Polk County.

"Deed" re conveyance of certain real property to Harold E. Clark as part consideration for right of way acquisition settlement.

"Letter" submitted by Oregon Congressional Delegation urging support of House and Senate Bills for elimination of requirement for Federal documentary tax stamps, etc.

"Agreement" re installation of railroad flashing light signals at Southern Pacific Company's two wye track crossings of US 99E, north of Canby.

"Agreement" with U. S. Bureau of Public Roads authorizing drilling of exploratory test holes in slide area on US 101 near Coos-Douglas County Line.

"Agreement" with National Hospital Association.

"Agreement" with City of Portland covering signalization of North Lombard Street.

"Maintenance Agreement & Finance Agreement" with Marion County covering Salem-Roberts Section.

"Special City Allotment Agreement" with City of Condon.

"Finance and Maintenance Agreement" with Columbia County covering St. Helens-McNulty Section.

"Agreement" with Clackamas County covering the Little Creek-Estacada Section of the Woodburn-Estacada Secondary Highway.

"Abandonment Agreement" with Lane County covering the Jasper-Pleasant Hill Section of the Springfield-Creswell State Highway No. 222.

"Agreement" with City of Carlton covering the Special City Allotment project on West Main Street from South Yamhill to South Cunningham Street.

"Throughway Agreement" with Lane County covering the Coast Fork Willamette River-Divide Unit of the Pacific Highway.

"Finance Agreement" with Benton County covering the Lewisburg Loop Section of Fas 577.

"Finance Agreement" with Washington County covering the Beaverton Junction-Progress Section of FAS 581.

"Consent to Vacate" Holly Hill Tracts on Salem By-pass, south of Salem.

"Indenture of Access" to George R. Cromley re pointof access to Pacific Highway East at Highway Engineer's Station 16+25.55, Marion County.

"Extension Rider" agreement with O. W. R. & N covering construction and maintenance and use of private roadway under main track and across the right of way of the Railroad Companies at M. P. 30.6 near Oneonta, Oregon.

"Agreement" with Wallowa County covering the exchange of roads in Wallowa County--County to take over Flora Spur and State to extend Joseph-Wallowa Lake State Secondary Highway.

"Supplemental Agreement" Corps of Engineers, U. S. Army, Modification No. 3 to Agreement No. DA-45-164-eng-81, providing for the repairs to the sections of the existing and relocated Oregon State Highway Nos. US 730 and 395 where subsidence has occurred.

"Supplemental Agreement" Corps of Engineers, U. S. Army, No. 1 to Contract No. DA-35-026-eng-20358 (Relocation Oregon State Highway No. 30, The Dalles Dam Project.)

"Project Agreements"

April 2, 1954

There being no further business to come before the Commission at this time, the meeting adjourned at 4:10 p.m.

EXHIBIT "A"

Minutes of April 1 and 2, 1954

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW THEREFORE BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon , by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

TIDE CREEK-ST. HELENS UNIT-GOBLE-ST. HELENS SECTION-COLUMBIA RIVER HIGHWAY

21655 Seffert, William O. and Albert E. (Smith)

Amount to be paid owners-chrg to Right of Way	$ 8,200.00

House to be vacated 30 days from date of approval.

THINGS TO BE DONE BY THE STATE

Protect water supply and line for a period of 90 days from date of approval. Permission granted for purchaser of house to enter on property to remove house, provided reasonable care is exercised in removing same.

Access controlled-none allowed

EXHIBIT "B"

Minutes of April 1 and 2, 1954

RESOLUTION

WHEREAS, it has been brought to the attention of the Commission that in some instances options have been taken on real properties needed for right of way and other highway purposes, and in other instances options are now being taken on real properties needed for right of way and other highway purposes, in connection with both of which situations it appears that formal authorization for such takings has not been recorded in the Commission's records or minutes; and

WHEREAS, notwithstanding the fact that formal authorization for such acquisitions has not been made a part of the Commission's written records, the taking of such options have the informal approval of the Commission; and

WHEREAS, for the purpose of supplementing such informal records and action, it is the purpose of the Commission at this time to ratify all options so taken.

THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Commission, all members being present and voting affirmatively as follows:

1. That it hereby is declared that all real properties needed for right of way or other highway purposes in connection with the construction, reconstruction, or other improvement of the following-named highway projects hereby are declared necessary for said projects and options heretofore taken and approved covering any of said real property hereby are approved:

COUNTY AND SECTION	FILE NO. AND NAME	PURPOSE	HIGHWAY
JOSEPHINE			
Wolf Creek Bridge	21829- Porter & Morse	Right of Way	Pacific

2. It is further resolved that the informal action of the Commission and authorization for said acquisitions hereby is ratified.

3. That this Miscellaneous Resolution No. 108 shall be entered in the minutes and records of the Commission as of April 1, 1954, and shall be deemed effective as of the date or dates of any options taken with respect to any real properties acquired in connection with any of the projects listed on said attached page.

EXHIBIT "C"

Minutes of April 1 and 2, 1954

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission, is the owner of the land on the Viento-Hood River Section of the Columbia River Highway. The description of the land is as follows:

> A parcel of land lying in the Southeast quarter of the Southwest quarter of Section 27, Township 3 North, Range 10 East, Willamette Meridian, Hood River County, Oregon, and being a portion of the following described property: That tract of land which was conveyed by that certain deed to State of Oregon, by and through its State Highway Commission, recorded in Book 46, Page 309 of Hood River County Record of Deeds. The said parcel being described as follows:
>
> Beginning at the intersection of the Westerly line of the foregoing described property with a line which is parallel to and 100 feet Northerly of the center line of the Columbia River Highway, as said center line is relocated, said place of beginning being approximately 742 feet North and 1250 feet West of the South quarter corner of said Section 27; thence following the boundaries of said property as follows: North 2° 17' West 490 feet more or less to the top of a bluff above the Columbia River; thence Northeasterly along the top of said bluff 165 feet more or less to the most Northerly Northeast corner of said property; thence South along the Easterly line of said property 165 feet to a stone monument; thence East 6.4 feet; thence South 30° 12' East 341 feet more or less to a line which is parallel to and 100 feet Northerly of said center line; thence Westerly along said parallel line 300 feet more or less to the point of beginning.
>
> The parcel of land to which this description applies contains 1.9 acres, more or less.

WHEREAS, after consideration, the Commission hereby finds and declares the said property is no longer needed, required or useful for highway purposes.

WHEREAS, the said property has been appraised by competent and experienced appraisers and the final value found and estimated to be the sum of $4,000.00, and the Commission is desirous of selling and disposing of the said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Secretary of the State Highway Commission be and he hereby is, authorized and instructed to advertise the said property for sale in accordance with the terms and provisions of ORS 237.060 Et. Seq.

BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 109 shall be entered in the minutes and records of the Commission as of April 1, 1954.

EXHIBIT "D"

Minutes of April 1 and 2, 1954

RESOLUTION

WHEREAS, the Mt. Hood Highway, also known as U. S. Highway No. 26, is one of the major state primary highways and is likewise a Federal Aid highway, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, field investigation discloses that at the intersection of S. E. Powell Boulevard (route of the said Mt. Hood Highway in Multnomah County) with S. E. 136th Street in Portland, the parking of vehicles on the north and south sides of Powell Boulevard at said intersection restricts sight distance for traffic on 136th Street ; and

WHEREAS, the parking of said vehicles on said highway at said location tends to restrict and impair the sight-distance at said intersection to such an extent that, in the opinion of the Highway Commission, a hazard is created not only for through traffic but also for the owners and drivers of said parked vehicles; and

WHEREAS, in the opinion of this Commission, public travel and public safety require that the parking of vehicles at such location should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission, as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and recommendations by members of its staff, that the parking of vehicles along the north side of Powell Boulevard (US 26) for a distance of 300 feet west of the center line of S. E. 136th Street, and for a distance of 250 feet east of the center line of S. E. 136th Street, and on the south side of US 26 for the entire distance of the island area located directly in front of the service station and which lies easterly of S. E. 136th Street, creates a hazard not only to through traffic but to persons owning and using said parked vehicles.

2. That in the opinion of this Commission the right of way of said highway at said location is not of sufficient width to permit parking of vehicles and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles on the north side of the right of way of said highway within said termini and on the south side of the right of way of said highway within the island area should be prohibited.

EXHIBIT "D" (cont)

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resblution and the action of the Commission as herein declared, on which signs shall be printed in plain letters the words "NO PARKING ON HIGHWAY SHOULDERS".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this No Parking Resolution No. 112 be entered in the minutes and records of the State Highway Commission as of the 1st day of April, 1954.

EXHIBIT "E"

Minutes of April 1 and 2, 1954

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Ochoco Highway in Wheeler County known as the Jones Ranch-Mitchell Section, which begins at State Highway Engineer's Station 228+50 on the new route and ends at State Highway Engineer's Station 746+43.4 on the new route; and

WHEREAS, as a consequence of the relocation of said section of highway certain portions or units of the old route have been eliminated from the boundaries of the relocated highway and are no longer needed for State Highway purposes; and

WHEREAS, Wheeler County, the City of Mitchell, and the Highway Commission entered into an Agreement under date of June 4, 1952, relating to the disposition to be made of the said eliminated portions or units; and

WHEREAS, the said Agreement provided that after the said relocated section was completed and opened to public travel, that certain eliminated portions or units therein and herein referred to as Units "E" and "F" would be abandoned as a part of the said Ochoco Highway and the jurisdiction and control thereover would pass to Wheeler County and thereafter that County Court of said County would surrender jurisdiction and control over said units to the City of Mitchell and thereafter said units would be maintained by said City as city streets; and

WHEREAS, said Agreement also provided that after the said relocated section was completed and opened to public travel that the eliminated portion or unit therein and herein referred to as Unit "D" would be abandoned as a part of the said highway and thereafter would be maintained by Wheeler County as a county road; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of said portions or units of the old route of said highway; and

WHEREAS, the said Jones Ranch-Mitchell Section of the Ochoco Highway has been completed and opened to public travel;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the portions or units of the old route which by reason of the relocation of the said highway are no longer within the boundaries of the new right of way and which are identified as Units "E" and "F" are shown colored in blue on the map attached hereto, which is marked Exhibit "A"

and by this reference made a part hereof. The locations of Units "E" and "F" are more particularly described as follows: *

Unit "E"

Beginning at the intersection of the present Ochoco Highway with the West City Limits of the City of Mitchell on the line between Sections 35 and 36, Township 11 South, Range 21 East, W. M.; thence Southeasterly via the former route of the Ochoco Highway to its intersection with the Service Creek-Mitchell Secondary Highway in the Northwest Quarter of the Southwest quarter of Section 36, Township 11 South, Range 21 East, W. M.

Unit "F"

Beginning at State Highway Engineer's Station 722+10 of the relocated Ochoco Highway in the Southeast quarter of the Southwest quarter of Section 36, Township 11 South, Range 21 East, W. M.; thence Easterly via the former route of the Ochoco Highway to State Highway Engineer's Station 743+80 of the relocated Ochoco Highway in the Southwest quarter of the Southeast quarter of Section 36, Township 11 South, Range 21 East, W. M.

2. That pursuant to the aforesaid Agreement, Units "E" and "F" are hereby duly abandoned as a part of the Ochoco Highway and all right, title, and interest which the State has in the same hereby passes to and vests in Wheeler County. It being further understood that the County Court of said County, pursuant to and under the provisions of ORS 373. 270, shall surrender to the City of Mitchell complete jurisdiction and control over said Units "E" and "F" and thereafter the same shall be maintained by the City as city streets.

3. That the portion or unit of the old route which by reason of the relocation of the said highway is no longer within the boundaries of the new right of way and which is identified herein as Unit "D" is shown colored in red on said Exhibit "A". The location of said Unit "D" is more particularly described as follows: *

Unit "D"

Beginning at State Highway Engineer's Station 696+50 of the relocated Ochoco Highway in the Northeast quarter of the Southeast quarter of Section 35, Township 11 South, Range 21 East, W. M.; thence Easterly via the former route of the Ochoco Highway on the West City Limits of the City of Mitchell, on the line between Sections 35 and 36, Township 11 South, Range 21 East, W. M.

EXHIBIT "E" (cont)

4. That pursuant to the aforesaid Agreement, Unit "D" is hereby duly abandoned as a part of the Ochoco Highway and jurisdiction and control over said unit is hereby transferred to Wheeler County and all right, title, and interest which the State has in the right of way of said Unit "D" hereby passes to and vests in the said County and the same shall be maintained hereafter by the said County as a county road.

5. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said relocated section of highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way and other highway purposes and uses. Therefore the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State. *

6. That this resolution be entered in the minutes and records of the Commission as of this 1st day of April, 1954, as Abandonment and Retention Resolution File No. 259; and the Secretary is directed to mail a duly certified copy thereof to the County Court of Wheeler County.

---

* FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 259 under the heading "Abandonment and Retention Resolutions" and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "F"

Minutes of April 1 and 2, 1954

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 3855, with Johnson & Amens for constructing three structures on the Rowena-Chenoweth Creek Unit of the Mosier-The Dalles Section of the Columbia River Highway in Wasco County, completed March 19, 1954.

"Contract No. 3885, with R. H. Jones for constructing Heppner Junction Overcrossing on the Columbia River Highway in Gilliam County, completed March 1, 1954.

"Contract No. 3958, with General Construction Company for grading on the Union Avenue-Swift Road Junction Section of the Pacific Highway West in Multnomah County, completed December 10, 1953.

"Contract No. 4002, with Babler Brothers, Inc., for constructing Fall Creek Bridge on the Alsea Highway in Lincoln County, completed March 2, 1954.

"Contract No. 4003, with Tom Lillebo for constructing Luckiamute River Bridge on the Pacific Highway West in Polk County, completed March 18, 1954.

"Contract No. 4005, with Wells and Ray for widening Maxwell Canal Bridge on the Old Oregon Trail in Umatilla County, completed March 5, 1954.

"Contract No. 4034, with C. J. Eldon for placing "D" River dolphins on the Oregon Coast Highway in Lincoln County, completed March 17, 1954.

"Contract No. 4040, with Steeck Electric Company for constructing Salem traffic signals in Marion County, completed March 24, 1954.

"Contract No. 4041, with Burger Construction Company for constructing Sylvan Maintenance Building in Multnomah County, completed March 23, 1954.

"Contract No. 4088, with Walton-Brown Electric Company for illumination on the Bonneville Highway Connection of the Columbia River Highway in Multnomah County, completed March 26, 1954."

EXHIBIT "F" (cont)

THEREFORE BE IT RESOLVED that the work covered by State highway contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 32 shall be entered in the minutes and records of the Commission as of the first day of April, 1954.

EXHIBIT "G-1"

Minutes of April 1 and 2, 1954

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the first six month period of 1952 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Eastside..... $2,794.04

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 1st day of April, 1954.

EXHIBIT "G-2"

Minutes of April 1 and 2, 1954

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the second six month period of 1952 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Eastside..... $2,408.99

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

EXHIBIT "H-1"

Minutes of April 1 and 2, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: OLD OREGON TRAIL

Highway number 6 Route number US 30

Location of Termini			Established Speed
M.P. 428.42 (1.35 miles north of the north city limits of Nyssa)	to M.P. 428.81 (0.96 mile north of the north city limits of Nyssa)		50 M.P.H.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 142 be entered in the minutes and records of the Commission as of the 1st day of April, 1954.

EXHIBIT "H-2"

Minutes of April 1 and 2, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

Name of highway: WILSON RIVER

Highway number 37 Route number Oregon 6

Between M.P. 0.48 (East city limits of Tillamook) and M.P. 0.77 (Evergreen Drive) 35 MILES PER HOUR

Between M.P. 0.77 (Evergreen Drive) and M.P. 2.92 (0.36 mile east of the Trask River Road) 45 MILES PER HOUR

EXCEPT THAT BETWEEN

M.P. 1.04 and M.P. 1.24 and between M.P. 2.47 and M.P. 2.65 the established speed shall be 20 MILES PER HOUR during the hours of school crossings as per the provisions of subsection 1.a. of ORS 483.104.

EXHIBIT "H-3" (cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 144 be entered in the minutes and records of the Commission as of the 1st day of April, 1954.

EXHIBIT "H-4"

Minutes of April 1 and 2, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem; Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: WILSON RIVER HIGHWAY CONNECTION (temporary route west of Forest Grove)

Highway number 37 Route number ORE 6

Between M. P. 51.40 (0.04 mile north of 23d Avenue in Forest Grove) and M. P. 51.44 (23d Avenue) 40 MILES PER HOUR

Between M. P. 51.75 (0.05 mile west of the west limits of Forest Grove) and M. P. 51.80 (West city limits of Forest Grove) 30 MILES PER HOUR

EXCEPT THAT BETWEEN
M. P. 51.75 and M. P. 51.80 the established speed shall be 20 MILES PER HOUR during the hours of school crossings as per provisions of subsection 1. a. of ORS 483.104.

EXHIBIT "H-4" (cont)

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 145 be entered in the minutes and records of the Commission as of the 1st day of April, 1954.

EXHIBIT "H-5"

Minutes of April 1 and 2, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: KLAMATH FALLS-LAKEVIEW

Highway number 20 Route number Oregon 66

EXHIBIT "H-9"

Minutes of April 1 and 2, 1954

RESOLUTION

WHEREAS, during construction of the Detroit Dam and the Big Cliff Dam on the North Santiam River and adjacent to the North Santiam State Secondary Highway, the Commission on May 16, 1949, adopted a resolution designating reduced speed zone on said highway between M. P. 39.10 and M. P. 40.20; and on August 20, 1951 adopted a resolution designating a reduced speed zone on said highway between M. P. 36.86 and M. P. 37.36; and on October 11, 1951, adopted a resolution designating a reduced speed zone on said highway between M. P. 36.46 and M. P. 36.86, to provide safety for the traveling public during the construction of said dams; and

WHEREAS, construction of said dams has now been completed and an engineering investigation has disclosed that said reduced speed zones no longer are required.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission, all members being present and affirmatively voting as follows:

1. The Commission does hereby find and declare, based upon investigations, reports and recommendations of the members of its staff, because of changed conditions that a reduced speed limit no longer is necessary between M. P. 39.10 and M. P. 40.20 nor between M. P. 36.86 and M. P. 37.36 nor between M. P. 36.46 and M. P. 36.86.

2. That this Commission does hereby declare and order that said resolutions of May 16, 1949, August 20, 1951 and October 11, 1951, fixing 25-miles per hour as the established speed for traffic on the North Santiam Highway between the aforementioned Mileposts be and the same hereby are rescinded.

3. That this speed limit resolution No. 150 be entered in the minutes and records of the State Highway Commission as of the first day of April, 1954.

EXHIBIT "H-9" (cont)

4. That the Secretary be and he hereby is instructed to send a certified copy of this resolution to the Superintendent of State Police.

EXHIBIT "I"

Minutes of April 1 and 2, 1954

RESOLUTION

WHEREAS, the County Court of Umatilla County and the County Court of Union County have heretofore petitioned the State Highway Commission to extend what is presently known as the Starkey State Secondary Highway, No. 341, approximately 34 miles southwesterly to a junction with the Pendleton-John Day Highway near Ukiah, and

WHEREAS, said County Courts have proposed that approximately 34.26 miles be added to the said Starkey Highway and that the name of said highway be changed by the Highway Commission to the name of Ukiah-Hilgard State Secondary Highway, No. 341, and

WHEREAS, the Highway Commission has considered said proposals and made a study of the matters involved and is of the opinion that the best interests of the public will be served by extending said highway as proposed by said County Courts.

WHEREAS, ORS 366.220 (1) authorizes the Highway Commission to select, establish, and designate a system of state highways within the State and provides further that said highways shall be designated by name and by the point of beginning and the terminus thereof.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively as follows:

1. That the Highway Commission, pursuant to the authority vested in it by law, does hereby select, establish, and designate the following described road as a part of the Starkey State Secondary Highway, to-wit: :

> Beginning at a junction with the Pendleton-John Day Primary Highway at Mile Post 49.63 near Ukiah, thence northeasterly to a junction with the existing Starkey State Secondary Highway, a total distance of approximately 34.26 miles.

Attached hereto, marked Exhibit "A", and by this reference made a part hereof, is a print upon which is shown colored in green the above described extension of the said Starkey State Secondary Highway. *

2. That the Starkey State Secondary Highway as hereinabove extended shall be known and officially designated henceforth as the Ukiah-Hilgard State Secondary Highway, No. 341. Said highway which is herein designated as the Ukiah-Hilgard State Secondary Highway, No. 341, is described as follows:

EXHIBIT "I" (cont)

Beginning at a junction with the Pendleton-John Day Highway at Mile Post 49.63 near Ukiah; thence northeasterly to a junction with the Old Oregon Trail Highway at Mile Post 279.04 near Hilgard, including the Starkey connection, a total distance of approximately 51.26 miles.

The location of said highway is as shown colored in green and yellow on said Exhibit "A". *

3. That this resolution be entered in the minutes and records of the Commission as of this 1st day of April, 1954, as Secondary Highway Designation Resolution File No. 25; and the Secretary is directed to mail a duly certified copy thereof to Umatilla County and also a duly certified copy thereof to Union County.

---

*FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 25 under the heading Secondary Highway Designation and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J"

Minutes of April 1 and 2, 1954

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Sherman Junction-Willowdale Section of The Dalles-California Highway in Wasco and Jefferson Counties, and of the Willamette Junction-Diamond Lake Junction Section of The Dalles-California Highway in Klamath County, and of the Booth Ranch-Myrtle Creek Section of the Pacific Highway in Douglas County, and in connection therewith to prepare maps showing the proposed route and location of each of said highway sections and to file said reports and records with the Commission for consideration; and,

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for the approval or disapproval of the Commission; and,

WHEREAS, after due consideration of said surveys, field notes and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the survey of the Sherman Junction-Willowdale Section of The Dalles-California Highway, beginning at Highway Engineer's Station 0+00 at the junction of the Sherman Highway with The Dalles-California Highway, and extending southerly to Highway Engineer's Station 449+00 in the community of Willowdale, together with the map, which for identification purposes bears Map File Nos. 7B-27-1 and 7B-27-2 and the date of March, 1954, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That the survey of the Willamette Junction-Diamond Lake Junction Section of The Dalles-California Highway, beginning at Highway Engineer's Station 282+50 at the junction of the Willamette Highway with The Dalles-California Highway, and extending southerly to Highway Engineer's Station 1225+50 at the junction of East Diamond Lake Secondary Highway with The Dalles-California Highway, together with the map, which for identification purposes bears Map File Nos. 7B-26-17, 18 and 19, 6B-14-3 and 6B-14-4 and the date of March, 1954, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

EXHIBIT "J" (cont)

3. That the survey of the Booth Ranch-Myrtle Creek Section of the Pacific Highway, beginning at Highway Engineer's Station 3176+00 at Booth Ranch, and extending southerly to Highway Engineer's Station 3391+18, a short distance north of the existing highway bridge over the Umpqua River near the town of Myrtle Creek, together with the map, which for identification purposes bears Map File Nos. 7B-27-4 and 7B-27-5 and the date of March, 1954, field notes and other engineering data hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

4. That when the above described sections of said highways are permanently constructed, the same shall be done in accordance with the said surveys and locations unless otherwise directed or ordered by the Commission.

5. That the approval and adoption of said surveys shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of the said highway sections along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

6. That heretofore by resolution of this Commission, dated November 3, 1948, said sections of said highways were designated as throughways within the meaning and purpose of ORS 374.005, commonly known as the "Throughway Law", and for reasons stated therein, construction of the above named sections of said highways should be accomplished and it is hereby directed that construction of the same shall be accomplished pursuant to and within the meaning and scope of said law except any portion of any of said sections which had more than ten commercial businesses abutting thereon catering to the motoring public in any one mile as of the date said section of highway was designated as a throughway.

7. That this resolution be entered in the minutes and records of the Commission as of the 1st day of April, 1954, as Survey Resolution No. 100.

EXHIBIT "K"

Minutes of April 1 and 2, 1954

RESOLUTION

WHEREAS, the County Court of Wallowa County has heretofore petitioned the State Highway Commission to extend the Joseph-Wallowa Lake State Secondary Highway as hereinafter described; and

WHEREAS, the Highway Commission has heretofore entered into an agreement with the County Court of Wallowa County wherein said Commission agreed to extend said highway as requested by said County Court; and

WHEREAS, ORS 366.220 (1) authorizes the Highway Commission to select, establish and designate a system of state highways within the State;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively, as follows:

1. That the Highway Commission pursuant to the authority vested in it by law does hereby select, establish and designate the following described road as a part of the Joseph-Wallowa Lake State Secondary Highway, to-wit:

> Beginning at Mile Post 6.05 of the existing Joseph-Wallowa Lake State Secondary Highway; thence southerly approximately 1.08 miles to the Pacific Power and Light Company power house which is located in Section 29, Township 3 South, Range 45 East, W.M.

2. That this resolution be entered in the minutes and records of the Commission as of this 1st day of April, 1954, as Secondary Highway Designation, Resolution File No. 26; and the Secretary is directed to mail a duly certified copy thereof to the County Court of Wallowa County.

EXHIBIT "L-1"

Minutes of April 1 and 2, 1954

RESOLUTION

WHEREAS, the State Highway Commission on the 22nd day of July, 1953, by resolution declared the necessity for the acquisition of certain real property owned by Edward Rieben, et al, File No. R-19844, situated in Section 32, Township 2 North, Range 3 West, W M., Washington County, Oregon for right of way purposes, for the establishment, construction and maintenance of the Washburn-North Plains Section of the Wilson River Highway; and

WHEREAS, said resolution declared the necessity that there shall be no rights of access to and from the right of way of the said highway and the remaining lands of the said Edward Rieben, et al, except a right to cross said highway for farm purposes; and

WHEREAS, the said Highway Commission, after further investigation and consideration of the necessity for the control of access from said remaining land to said highway, has found that it will not be detrimental to the interests of the State and the motoring public to provide access as hereinafter set forth to serve the said remaining land if such change of access is desired by the owners of said remaining land in lieu of that access provided in paragraph 2 of the said resolution of July 22, 1953;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission all members thereof being present and voting affirmatively, as follows:

1. That that certain resolution duly made and entered in full in the minutes and records of the Commission on the 22nd day of July, 1953, pertaining to that property owned by Edward Rieben, et al, be and the same hereby is supplemented by adding paragraph 2a, as follows:

2a. That if the owners desire, the following access control may be effected in lieu of that provided in paragraph 2 above; otherwise, the access control will be as set forth in said paragraph 2 above:

That it is necessary that there shall be no rights of access of any nature between the right of way of the said Washburn-North Plains Section of the Wilson River Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; provided, however, that there shall be reserved unto the owners of the said remaining land, their heirs and assigns, for service of the said remaining land, the following:

a. A right to establish, maintain and use a crossing of a width of 25 feet, opposite Highway Engineer's center line Station 2668+80, only so long as no use is made thereof other than for

(cont.)

farm purposes; said right of crossing to continue only so long as the portions of the property severed by the said highway and served by this crossing are held under a common ownership.

b. A right of access to the said Wilson River Highway of a width of 25 feet, on the North side of the said highway, opposite Highway Engineer's center line Station 2668+80, only so long as no use is made thereof other than for the production and transportation to market of farm products from the owners' remaining land, and for private residential purposes.

The State shall, however, have the right at its option to build at any future time, at its sole cost, a frontage road or roads within the boundaries of any present or hereafter acquired right of way; thereupon, the right of access herein reserved to and from the aforesaid highway which is on or adjacent to any such frontage road or roads shall cease, but the owners, their heirs and assigns, shall have access to the frontage road or roads at such places as will afford reasonable and safe connections. Said frontage road or roads shall be connected to the said Wilson River Highway at a point not a greater distance to the West of the owners' remaining land than a point opposite Highway Engineer's center line Station 2628+50.

The construction of a frontage road shall not defeat the right of farm crossing herein granted.

2. That this resolution be entered in full in the minutes and records of the Commission this 1st day of April, 1954, as Condemnation Resolution No. 497.

EXHIBIT "L-2"

Minutes of April 1 and 2, 1954

RESOLUTION

WHEREAS, the State Highway Commission on the 16th day of July, 1951, by resolution declared the necessity for the acquisition of certain real property owned by the J. A. Lyons heirs, File No. R-15871, situated in Section 25, Township 1 North, Range 1 East, W. M., Multnomah County, Oregon, for the purpose of the establishment, construction and maintenance of the T. H. Banfield Expressway; and

WHEREAS, said resolution declared the necessity of extinguishing all rights of access to and from the said highway and the remaining lands of the said J. A. Lyons heirs; and

WHEREAS, the said Highway Commission after further investigating the necessity for the said acquisition, and having found that it is to the best interests of the State and the owners to acquire a temporary easement for a period of time to and including December 31, 1956, across a portion of the owners' real property for the purpose of the construction of a retaining wall over the property being acquired;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That that certain resolution duly made and entered in full in the minutes and records of the Commission on the 16th day of July, 1951, pertaining to that property owned by the J. A. Lyons heirs be and the same is amended to read as follows:

> 1. The Commission does hereby find and declare that there is needed and required and is being appropriated for right of way of the T. H. Banfield Expressway, for the purpose of establishing, constructing, and maintaining a throughway, the following-described parcel of real property, to wit:
>
> Owner: J. A. Lyons heirs
> File No.: L 1996 (R 15871)
>
> A parcel of land lying in the Southeast quarter (SE$\frac{1}{4}$) of Section 25, Township 1 North, Range 1 East, W. M., Multnomah County, Oregon, and being a portion of that tract of land described in that certain deed to J. A. Lyons, recorded in Book 900, Page 13 of Multnomah County Records of Deeds; the said parcel being described as follows:
>
> All of said property lying Northerly of the following

(cont.)

described right of way line: Beginning on the east line of N. E. 33rd Avenue at a point which is North 1° 26' 21" East 152 feet from the intersection of said East line of N. E. 33rd Avenue with the South line of said Section 25; thence North 64° 07' 19" East 57.28 feet more or less to a point on the arc of a 648.69 foot radius curve, which curve is parallel to and 168 feet southerly, (Measured radially) from the Oregon-Washington Railroad and Navigation Company railroad center line as of October 8, 1946, said point being 55 feet northeasterly along said 648.69 foot radius curve from the intersection of said curve and the east line of said N. E. 33rd Avenue; thence easterly along said 648.69 foot radius curve to the right 313.61 feet (the long chord of which bears North 85° 31' 54" East 310.75 feet) to a point in the east line of said property, which point is North 1° 26' 21" East 208.74 feet from the Southeast corner of said property, containing 1.00 acre, more or less.

It is necessary to acquire a temporary easement for a period of time to and including December 31, 1946, across a portion of the owners' real property for the purpose of the construction of a retaining wall over property being acquired in connection with the construction of Unit No. 2 of the T. H. Banfield Expressway. The real property across which this temporary easement is required is described as follows, to wit:

Also a temporaty construction easement lying southeasterly of the above described right of way line and described as follows: Beginning at the intersection of said right of way line and the easterly line of N. E. 33rd Avenue; thence South 1° 26' 21" West along the east line of N. E. 33rd Avenue 10 feet; thence northeasterly 105 feet more or less, to a point in the right of way line described above, said point being 100 feet easterly along the arc of the 648.69 foot radius curve, from the intersection of said curve and the east line of N. E. 33rd Avenue, said curve lying 168 feet southerly of, parallel to the Oregon-Washington Railroad and Navigation Company center line as of October 8, 1946; thence westerly along the above described right of way line to the point of beginning. Easement contains 640 square feet, more or less.

2. That this amending resolution be entered in full in the minutes and records of the Commission this 1st day of April, 1954, as Condemnation Resolution No. 498.

Minutes of April 1 and 2, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power or eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites, stock pile sites; or for the acquisition or manufacutre of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads, highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Vale-Cairo Junction Section of the Central Oregon Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Com-

(cont.)

mission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Vale-Cairo Junction Section of the Central Oregon Highway as a throughway, certain interests in or fee simple title to certain real property. The said real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Central Oregon Highway and all of the contiguous real property of the owners remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted as to the said real property on the said attached list marked Exhibit A. *

3. That the relocation, construction, improvement and maintenance of the said Vale-Cairo Junction Section of the Central Oregon Highway and the highway facilities for which the said real property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of April, 1954, as Condemnation Resolution No. 499.

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 499, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-4"

Minutes of April 1 and 2, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Goble-St. Helens Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

(cont.)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Goble-St. Helens Section of the Columbia River Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Columbia River Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the said attached list marked Exhibit A. *

3. That the relocation, construction, improvement and maintenance of the said Goble-St. Helens Section of the Columbia River Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such

stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of April, 1954, as Condemnation Resolution No. 500.

EXHIBIT "L-6"

Minutes of April 1 and 2, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits, storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads, highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission has widened, improved and maintained the Tigard-Tualatin River Section of the Pacific Highway West; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway should be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

(cont.)

EXHIBIT "L-6" (cont.)

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the Tigard-Tualatin River Section of the Pacific Highway West as a throughway, fee simple title to a certain parcel of real property. The said parcel of real property needed and required and the specific use made thereof are more particularly described in the attached list marked Exhibit A, under the name of the record owner, and the Commission's file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That there shall be no rights of access of any nature between the right of way of the said Pacific Highway West and all of the contiguous real property of the owners which abuts thereon remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted as to the said real property on the attached list marked Exhibit A. *

3. That the widening, improvement and maintenance of the said Tigard-Tualatin River Section of the Pacific Highway West and the highway facilities for which the said property was required and has been taken was necessary in the public interest, and the same has been planned, designed, located and constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interest of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of April, 1954, as Condemnation Resolution No. 502

* FOOTNOTE: The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 502, under the heading "Real Property Condemnation Resolution" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-7"

Minutes of April 1 and 2, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Lana Avenue-Hayesville School Section of the Pacific Highway East; and.

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members therof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the Lana Avenue-Hayesville School Section of the Pacific Highway East, certain interest in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

(cont.)

EXHIBIT "L-7" (cont.)

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Pacific Highway East and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel of parcels on the said attached list marked Exhibit A. *

3. That the widening, improvement and maintenance of the said Lana Avenue-Hayesville School Section of the Pacific Highway East and the highway facilities for which each of the said parcels of real property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 1st day of April, 1954, as Condemnation Resolution No. 503.

FOOTNOTE: *

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 503, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

Portland, Oregon
May 11, 1954

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer

The Commission approved the minutes of February 24 and 25, 1954 and the minutes of April 1 and 2, 1954 with corrections to be made on page 48 of the April minutes concerning the drinking fountain at Elgin and on page 31 concerning the "Seven Devils" road.

The State Parks Superintendent, Mr. C. H. Armstrong, reported on the following park matters:

1. Timber sale in the Van Duzer Corridor on the Salmon River Highway: The Parks Superintendent reported that an auction sale had been held on April 20, 1954 for the sale of approximately 1,200,000 FBM of timber. The bidding started at $25,000 and the timber was sold to the Henry Logging Company of Dallas, Oregon, for $31,000, or slightly above $25 per MFBM. The logging company, he stated, plans to complete the work soon after June 1. The Commission accepted the report.

2. Encroachment on state parks property along the Pendleton-John Day Highway in Umatilla County by the Columbia Power Cooperative Association: The Parks Superintendent reported that the Co-op had started construction in November, 1953 without a permit and in its operations, had cut 11,085 FBM of pine and 1,600 FBM of fir. He recalled that their operations on state property had been carried on without permit in spite of objections raised by State field forces. To determine the location of the crossings and the encroachments on State property, it had been necessary to conduct a survey. The single value of the timber, he estimated at $238.44, or $476.88, double value, and recommended that at least double value be sought as payment for the timber and in addition that the Co-op be required to pay the cost of the survey. The Commission approved collection of the survey costs and damages for the timber as circumstances may warrant.

3. Encroachment on State highway property by loggers: The Parks Superintendent reported that in Silver Creek Falls Park, Mr. L. D. Gibby

had cut timber amounting to 60,000 FBM of Douglas Fir and 1,000 FBM of Hemlock which, at double value, amounts to $756. Mr. Gibby, he stated, has signed an agreement to pay $756 on or before October 15, 1954. The Commission approved the agreement.

He also reported that the P. M. Logging Company of Brookings had cut 11,000 FBM on State property on the Carpenterville-Brookings wayside areas. This encroachment was due to the property owner being mistaken as to the corners of his property. The logging company has agreed to pay for the timber at double value amounting to $220. He recommended and the Commission approved collection of this sum.

He also reported another encroachment in Jackson County on the north side of the Tubb Springs Park area. The parties responsible for the encroachment, he stated, are not known nor is the amount of damage. He recommended that the Commission approve appropriate action against those responsible for encroaching when the facts in the matter are fully determined. The Commission accepted the recommendation.

4. Proposed purchase of property on the west side of Wallowa Lake adjoining Wallowa Lake State Park: The Parks Superintendent reported that the people of Wallowa County have urged that this property be acquired as a park. The property is owned principally by Mr. Clyde H. Harris, of the Harris Pine Mills, who has indicated that he wishes to exchange his property for property containing two and one-half or three times as much timber. This price, the Parks Superintendent felt was too high.

He also brought up the matter of acquiring property on a lease basis from the Pacific Power and Light Company in connection with an extension of the secondary highway within the park. It now develops that the Power Company officials have made no decision concerning leasing of the land for park purposes. He recalled that the people of Wallowa County and the former manager of the Pacific Power and Light Company, Mr. Thrasher, have repeatedly requested the State to extend the secondary highway, holding out the inducement that the Power Company area would be available for park purposes on the basis of a 99-year lease. Commissioner Reynolds suggested that the Boy Scout officials be contacted concerning their attitude. Action was deferred at this time until the following day. (Near the close of the meeting on the following day, the matter of acquiring park property from the Power Company and the extension and improvement of the secondary highway in the park was again discussed. The Engineer reported that he had been told earlier that no answer could be secured on the park property for possibly a year or more. He recommended that no action be taken to improve the highway at this time. The Parks Superintendent stated that in a recent conversation with the Power Company's right of way man, he had indicated that the matter would be taken up with the Power Company officials in the near future and that a report could be expected at the June meeting. The Parks Superintendent also recommended that no action be taken towards improving the road

until satisfactory arrangements can be made relative to the park area. The Commission accepted the recommendations.)

5. Request of Gold Beach Rotary Club for a park area in the vicinity of Gold Beach: The Parks Superintendent reported that Mr. R. C. Dunlap, Parks Planner, had examined several areas near Wedderburn along the route of the proposed new highway. A desirable area, he stated, was found along the relocated section of the Oregon Coast Highway between Engineer's Stations 1150+00 and 1253+00, approximately three miles north of Wedderburn. This land, he stated, is covered with a moderate growth of timber, brush, and a great number of native azaleas. He suggested that this land be purchased and a reasonable development made when the new road is constructed. Action in this matter was deferred at Chairman Chandler's request until he has had an opportunity to discuss the matter with the interested people in Curry County.

6. Report on public swimming in areas without supervision: The Parks Superintendent pointed out that in several areas, particularly Sunset Bay State Park, Wallowa Lake State Park, and Hat Rock State Park, facilities have been installed which offer an inducement to swimmers. Only at Honeyman State Park is a lifeguard on duty and charges made for the use of swimming facilities. It was his feeling that even though the State might have no legal responsibility in case of accident or drowning, there might be a moral obligation. In the discussion of this matter, it was brought out that to provide lifeguards at all locations where there might be swimming would be very expensive. The Chief Counsel stated that in case of accident or drowning, the Parks Superintendent and the Commission might be liable for suit if negligence could be proved. Where a charge is made for use of the swimming facilities, there is a definite legal obligation, but where no facilities are furnished and where there is no inducement to swimming, he felt that no legal obligation would be incurred. Commissioner McIver called attention to any installation or inducement which might be considered as an invitation to swimming, and that in case of an accident, the State, he felt, would be blamed. Also discussed was the matter of erecting signs indicating that prople swim at their own risk or that no supervision is provided. Action in this matter was deferred for further study, and the Commission instructed that it be brought up again at the June meeting.

7. Oiling of Hat Rock Park Road to relieve dusty condition: The Parks Superintendent reported that use of the park this year has been much greater than anticipated, and the road and parking area in the park have become very dusty. He recommended, and the Commission approved, oiling of approximately one mile of road and the parking area at a cost of approximately $7,000. The work is to be performed by a state oiling crew when operating in that area, and the funds are to be taken from the allocation made to Rooster Rock Park.

8. Attendance of Richard C. Dunlap, Parks Planner, at a meeting

of the American Association for the Advancement of Science at Pullman, Washington, June 21, 1954: The Parks Superintendent stated that Mr. Dunlap had been invited to speak to the group relative to state parks and preservation of natural areas. He recommended that he be allowed to attend at an estimated cost of $65. The Commission accepted the recommendation.

The Right of Way Engineer presented for consideration options secured for acquisition of real property needed for various state highway improvements and for other purposes. After careful consideration, the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In discussing the options for highway right of way, the matter of placing insurance on the buildings of the Howard Cooper Corporation on the T. H. Banfield Expressway was discussed. The Right of Way Engineer recommended and the Commission approved placing of plate glass and fire insurance on the properties. They also instructed that as soon as practical the excess property should be placed on the market for sale.

The meeting was recessed at 12:00 noon to reconvene at 2:00 p.m. with the same persons present and participating.

Chairman Chandler inquired of the Right of Way Engineer concerning cost of right of way to be acquired for the development of the road to the Liquor Control Commission's property at Ochoco Avenue in Milwaukie adjacent to US 99E. (This information was given to the Chairman on the following day.)

The Right of Way Engineer presented the following list of properties to be acquired for which no specific authority previously has been granted by the Commission

COUNTY AND SECTION	FILE NUMBER	PURPOSE	HIGHWAY
CLACKAMAS			
S. E. Flavel St. - King Road	21876 - Milwaukie Rural Fire Protection Dist. 21877 - Cooke 21878 - Strandberg	R/W	Cascade
CROOK			
Prineville-Marks Creek	21857 - Welch	Drainage Area, Borrow Pit, & Easement	
	21858 - Ochoco Timber Co.	Drainage	Ochoco

SHERMAN			
Deschutes River-Biggs	22023 - Carlisle	Stockpile Site	Columbia River
UMATILLA			
Cold Springs Jct.	21879 - Richmond	Rip Rap Quarry	Columbia River
YAMHILL			
Rex Hill	21881 - Barry	R/W	Pacific West

He requested authority to acquire these properties. The Commission approved the request by adopting the attached resolution relative thereto marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission accepted the Right of Way Engineer's report on sales of miscellaneous properties made since the last Commission meeting. (For a list of properties sold, see copy of a report prepared by C. W. Parker, Property Manager, dated May 11 and 12, 1954, filed in the Secretary's office under the heading "Miscellaneous Sales".)

The access problem on the McCabe property at Lapine was discussed. It was brought to the Commission's attention that in the option secured from Mr. and Mrs. McCabe that three accesses were granted; two for commercial purposes and one for residential use. The commercial accesses are so situated that property under lease to the Union Oil Company is served by only one approach. The Union Oil Company is making demand for an additional driveway. Mr. McCabe had always thought that he could settle this matter with his lessee and was to do his best to reconcile the problem at the time of his death last fall. Since that time, Mrs. McCabe has been able to accomplish nothing in getting the Union Oil Company to accept only one access and has stated that she will not sigh the deed until her lessee is satisfied. The Right of Way Engineer recommended that the additional point of access be granted as our only other alternative would be to institute suit against Mrs. McCabe and even if we were successful, we could probably not recover more than the amount of the option which was $392.70. It was explained that an eminent domain proceeding could be instituted against Union Oil, but that it would be an expensive procedure. Commissioner Reynolds inquired if all property owners in Lapine had been treated alike in the matter of controlling access to the highway. Chairman Chandler pointed out that if access is granted in this instance, there will be many requests from other parties in various parts of the state for similar concessions. After additional discussion, the matter was deferred for further study.

The Right of Way Engineer presented for consideration a number of changes in points of access to various properties. He stated that no additional access is being granted, only changes in location for existing points of access.

Upon his favorable recommendation, the Commission approved changes in access points as follows:

1. Chenoweth property on the Rinehart Creek-Frankport Section of the Oregon Coast Highway in Curry County, File No. 20203.

2. Wilson property on the Clatskanie-Delena Section of the Columbia River Highway in Columbia County, File No. 20265.

3. Thomas property on the Hauser-North Bend Section of the Oregon Coast Highway in Coos County, File No. 18809.

4. Wait property on the Orr Corner-Monmouth Section of the Pacific Highway West in Polk County, File No. 19291.

5. Kellogg property on the Orr Corner-Monmouth Section of the Pacific Highway West in Polk County, File No. 19292.

6. Boyer property on the Orr Corner-Monmouth Section of the Pacific Highway West in Polk County, File No. 19293.

7. McDonald property on the Forest Boundary-Hauser Section of the Oregon Coast Highway in Coos County, File No. 18239.

Sale of Lots 1 and 2, Block 10 of McClure's Addition to Astoria in Clatsop County was discussed. The Right of Way Engineer explained that the property is no longer needed for highway purposes, and he recommended that it be advertised for sale by public auction at a minimum price of $1,350. The Commission approved the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was also given to the sale of 225 square feet of land in Lot 8, Block 21, Laughlin's Addition to The Dalles in Wasco County. The Right of Way Engineer stated that this property is no longer needed for highway purposes, and Mr. A. N. Muler who owns adjoining property has agreed to pay $4.25 a square foot for the land or a total of $956.25. This property, he stated, can not be used by anyone except Mr. Muler. The price is fair as it was established by a condemnation action in which Mr. Muler was defendant and is in line with the value set by the jury. He, therefore, recommended that the property be sold to Mr. Muler for $956.25. The Commission approved the sale.

The Right of Way Engineer also recommended sale of 0.16 acre of right of way on the Scotts Creek Section of the Alsea Highway in Benton County to a Mr. A. R. Turley for a consideration of $150.00. This property, he stated, is not needed for highway purposes. The Commission approved the sale as recommended.

Sale of 2.18 acres at Keno to the Klamath County School District was discussed. The Engineer reported that last fall negotiations had been started for purchase of a building site for a section maintenance headquarters at Keno. In

April the School District wrote a letter stating that the land being acquired is the only land suitable for the grade school's athletic field. Further investigation disclosed that the school could be accommodated by selling to them approximately one-half of the 4.2 acres purchased from Daniel R. Doten and still have adequate acreage for state needs. He recommended that 2.18 acres be sold to the school board for the price the State paid for it, being the sum of $436.00. The Commission approved the recommendation.

A request from Mrs. F. W. Koehler for access to her property in Terrebonne on The Dalles-California Highway was considered. Right of Way Engineer pointed out that the Koehler property was the only parcel within about three blocks that was not given direct access to the new highway. As the property was acquired for a reasonable price, he recommended that a residential access be granted. The Commission accepted the recommendation.

Payment to Mr. H. G. Mallett for constructing his own irrigation ditch was discussed. The Right of Way Engineer explained that it would cost the State about $1,400 to build the ditch by contract. This obligation was incurred in construction of the East Unit of the Vale-Cairo Section of the Central Oregon Highway. Mr. Mallett, he stated, has agreed to construct his own ditch under an easement acquired from John R. Buermann for the sum of $941.50. He recommended that Mr. Mallett be paid this amount, and he, in turn, relieve the State of all responsibility. The Commission approved this arrangement.

Also discussed was payment to Rex Payne and Robert and Grace Bain in the sum of $1,218.00 for construction of an irrigation ditch on the Joseph-Sheep Creek Hill Section of the Little Sheep Creek Highway in Wallowa County. The Right of Way Engineer explained that Mr. Payne had not been satisfied with the relocation of the irrigation ditch. To reconstruct it in a satisfactory manner, he estimated would cost $1,500 plus maintenance for two or three years. These people, he stated have offered to construct the ditch for the sum of $1,218 and relieve the State of all responsibility in the matter. He recommended that the Commission approve the payment. The Commission accepted his recommendation.

The Right of Way Engineer stated that the Production Manufacturing Company have requested that the State enter into immediate negotiations to acquire their property on the Clay-Columbia Street interchange on the West Portland Expressway in Multnomah County. It was his thought that the property would cost about $200,000, and he inquired if the Commission wished him to negotiate with the Company. The Commission authorized negotiations.

The Right of Way Engineer stated that the Central Lincoln Public Utility District had requested that they be allowed to purchase approximately 0.09 acre north of the McCullough Bridge on the Oregon Coast Highway in Coos County. He explained that their substation is partially on state property. As the encroachment does not affect the usefulness of the highway, he recommended that the parcel of property that they occupy be sold to them for $100 and without access to the highway. The Commission approved the recommendation.

The Right of Way Engineer brought up the matter of an encroachment of the George W. and Zelma Pierce property on the Springfield Section of the McKenzie Highway in Lane County. He explained that when right of way had been acquired they had been told that the right of way line would be four feet from the corner of their building. It has now been determined that the eave of the building overhangs the right of way. To clear the matter, he recommended that 115 square feet of land be deeded to them for the sum of $1.00. The Commission approved the recommendation.

Also presented for the Commission's consideration was a proposed sale to Mr. Zimmerman of 0.13 acre at New Era on the Pacific Highway East for the sum of $300 and without access to the highway. The Right of Way Engineer stated that this property is no longer needed for highway purposes and the price represents a fair value for the land. Upon his favorable recommendation the Commission approved the sale.

The matter of payment to the U. S. Forest Service for timber cut under a special use permit on the Willamette Junction-Walker Road Unit of The Dalles-California Highway in Klamath County was considered. The Right of Way Engineer explained that the Forest Service had asked reimbursement for timber cut in constructing the highway. Payment, he stated, has been requested in the amount of $35 per thousand for Ponderosa Pine and $5 per thousand for lodge pole timber. The exact amounts are to be determined by scale at the time of cutting, but he estimated the total amount at $850 and requested authority to make payment. The Commission granted the request.

The disposition of property purchased from Mrs. Powell on the Goshen-Divide Section of the Pacific Highway in Lane County was discussed. It was explained by the Engineer that because of a line change on the Row River County Road connection, the property is no longer needed. Mrs. Powell, however, has given a deed for the property but has not been paid the stipulated amount of $1,745.00. She has agreed to release the State of all obligations under the settlement for the sum of $75 and the State to deed the property back to her. He recommended the transaction be approved. The Commission accepted the recommendation.

Chairman Chandler requested the Right of Way Engineer to submit an up-to-date statement showing the acquisition of right of way on the Banfield Expressway.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way in connection with various highway improvements or for other public purposes, and to tender offer for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Sherman Junction-Willowdale Section of The Dalles-California Highway

R 21841 - John G. Bolter
(Wasco)
Parcel No. 1: 66.56 acres for right of way
Parcel No. 2: 0.78 acre for right of way

Sherman Junction-Willowdale Section of The Dalles-California Hwy (cont.)

R 21841 - John G. Bolter (cont.)

Parcel No. 3: 2.37 acres for right of way
Parcel No. 4: 5.21 acres for quarry site
Parcel No. 5: 0.10 acre for easement for ditch purposes

Booth Ranch-Myrtle Creek Unit, Shady-Canyonville Section of the Pacific Highway

R 21861 - Clay Ulam
(Douglas)
Parcel No. 1: 64.3 acres for right of way
Parcel No. 2: 0.40 acre for easement for haul road

R 21862 - Fir Manufacturing Company
Right of Way (Douglas)
5.3 acres

R 21864 - Thomas E. Payne
Right of Way (Douglas)
3.0 acres

R 21865 - Leonard A. Dyer
Right of Way (Douglas)
6.6 acres

R 21866 - J. O. Ledgerwood
Douglas
Parcel No. 1: 7.16 acres for right of way
Parcel No. 2: 0.12 acre for easement for road approach
Parcel No. 3: 0.63 acre for easement for access road

Chemult-Beaver Marsh Unit, Willamette Junction-Diamond Lake Junction Section of The Dalles-California Highway

R 21777 - Pacific Portland Cement Company
Right of Way (Klamath)
4.9 acres

Frontage Road-McLaughlin Boulevard Section of the Pacific Highway East

R 21903 - Elizabeth J. Shackelford
Right of Way (Clackamas)
225 square feet

R 21904 - Alameda Snyder
Right of Way (Clackamas)
7,820 square feet

May 11, 1954

Zig Zag-Rhododendron Section of the Mt. Hood Highway

R 21786 - H. L. Perkins
Right of Way (Clackamas)
0.03 acre

Battle Creek-Jefferson Junction Section of the Pacific Highway East

R 20453 - Louis C. Lorenz
Right of Way (Marion)
0.14 acre

Gobel-St. Helens Section of the Columbia River Highway

R 21368, R 21882 - Wales Wood
Right of Way (Columbia)
Parcel No. 1: 0.02 acre
Parcel No. 2: 0.03 acre

Noble Slough-Foster Section of the Santiam Highway

L 1981 - J. F. McGlothren, et al
New resolution required for increasing use of residential access to that of farm and timber purposes also.

Reedsport-Hauser Section of the Oregon Coast Highway

L 1893 - Raymond M. McKeown, et ux.
New resolution required for change of location of accesses.

County Farm-Ashland Section of the Pacific Highway

L 1935 - Charles W. Koyl, et al.
New resolution required for change in description caused by creek erosion

Washburn-North Plains Section of the Wilson River Highway

L 2042 - Ernest Behrman, et ux
New resolution for change of description

The Commission approved the request by adopting the attached resolutions relative thereto, marked EXHIBITS "M-1" through "M-8", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

In discussing the parcels of property to be condemned, the Engineer brought up the matter of adopting a survey of the Salem By-pass-Jefferson Junction Section of the Pacific Highway East in Marion County. Improvement of this section, he stated, is contemplated in the five-year program, and he recommended that the survey be adopted. The Commission accepted the recommenda-

tion by adopting the attached resolution relative thereto marked EXHIBIT "K-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered and approved the Chief Counsel's written report of cases which have been tried in court since the April meeting of the Commission as follows:

1. State vs James E. Fulton, L 1767: An offer was made in the sum of $8,000.00, the defendants asked $52,000.00, and the jury awarded $32,500.00.

2. State vs Edward Rieben, et al, L 2023: An offer was made in the sum of $6,900.00, the defendants asked $16,648.50, and the jury awarded $8,785.50.

3. State vs Charles Hunt, L 2031: An offer was made in the sum of $6,585.00, the defendants asked $16,270.00, and the jury awarded $9,000.00.

4. State vs Pacific Shore Land Company, L 1410: The Supreme Court ruled that the lower court was correct in its ruling dismissing a portion of the complaint relating to Parcel No. 2.

5. State vs Benjamin L. Eppers, et ux, L 2076: An offer was made in the amount of $10,232.00, the defendants asked $23,500.00, and the jury awarded $15,000.00.

6. State vs George Towy, et ux, L 2066: An offer was made in the sum of $3,462.00, the defendants asked $36,000.00, and the jury awarded $6,250.00 plus attorney's fees amounting to $900.

(For details, see copy of the Chief Counsel's letters to the Commission dated May 6 and May 7, 1954 in General Files.)

The Commission also considered and approved the Chief Counsel's written report of cases on which complaints have been filed and settlements made prior to trials since the meeting of the Commission held April 1 and 2, 1954, as follows:

1. State vs Thaddeus Quinn, et al, L 2116: Offer was made in the amount of $225.00, the owners demanded $1,000, and settlement was made in the sum of $600.00.

2. State vs Mae Grabbert , L 2169: Offer was made in the amount of $1,750.00. Settlement in the sum of $2,765.00 for 9.16 acres was reached, whereas the original offer had been for 4.43 acres.

3. State vs Winston W. Chambers, et al, L 2013: Offer was made in the sum of $13,500.00. Settlement for $10,550.00 after construction of fencing.

4. State vs Eagle Lumber Yards, L 2107: Offer was made in the sum of $22,000, the owners asked $27,220, and settlement was made in the amount of $21,900.00 with improvements to be removed by the defendant.

5. State vs Vernon Chamberlin, L 2084: Settlement of a damage claim in the total amount of $458.00. Settlement agreed upon for one-half this amount, or $229.00.

(For details concerning the above-listed settlements, see copy of the Chief Counsel's report to the Commission dated May 6, 1954 in General Files.)

The Commission considered and confirmed offers reported by the Chief Counsel for acquisition of real property required for various highway purposes, which offers were tendered to the owners prior to the commencement of condemnation proceedings in conformity with authority granted by the Commission in its resolution adopted December 20, 1951:

Unit No. 2 of the T. H. Banfield Expressway

L 1996 - Owner: James Arthur Lyons, et al. Increase in offer from $52,000.00 to $52,500.00, to cover slight increase in taking for right of way purposes and the acquisition of a temporary construction easement. Authorized by Commissioner Reynolds on April 7, 1954.

Goshen-Divide Section of the Pacific Highway

R 21209 - Owner: G. R. Sears, et al. 26.24 acres for right of way, 0.36 acre for haul road easement, 0.14 acre for drain pipe easement and 0.02 acre for slope easement. Amount of offer $11,580.00. Authorized by Commissioner McIver on April 19, 1954.

R 21216 - Owner: Walter S. Tracey, et al. 6.23 acres for right of way. Amount of offer $4,800.00. Authorized by Commissioner McIver on April 19, 1954.

R 21217 - Owner: LeRoy F. Luten, et ux. 7.90 acres for right of way. Amount of offer $10,154.00. Authorized by Commissioner McIver on April 27, 1954.

R 21223 - Owner: Edgar George Sherrill, et al. 7.90 acres for right of way, 26.03 acres for borrow area. Amount of offer $8,726.00. Authorized by Commissioner McIver on April 27, 1954.

R 21227 - Owner: George E. Finnerty, et al. 8.06 acres for right of way. Amount of offer $4,836.00. Authorized by Commissioner McIver on May 3, 1954.

R 21233 - Owner: Herbert W. Lombard, et ux. 1.85 acres for right of way. Amount of offer $4,000.00. Authorized by Commissioner McIver on May 3, 1954.

Goshen-Divide Section of the Pacific Highway (cont.)

R 21239 - Owner: John W. Doyle, et al. 0.04 acre for right of way. Amount of offer $900.00. Authorized by Commissioner McIver on April 27, 1954.

R 21415 - Owner: Cecil C. Wooley, et ux. 0.02 acre for right of way. Amount of offer $1,258.00. Authorized by Commissioner McIver on April 27, 1954.

R 21416 - Owner: G. B. Arnest, et ux. 3.81 acres for right of way. Amount of offer $10,745.00. Authorized by Chairman Chandler on April 22, 1954.

R 21426 - Owner: M. H. Andersen. 0.40 acre for right of way. Amount of offer $1,700.00. Authorized by Commissioner McIver on April 19, 1954.

R 21468 - Owner: Ruth Delong, et al. 1.92 acres for right of way. Amount of offer $3,523.00. Authorized by Commissioner McIver on May 3, 1954.

R 21478 - Owner: Robert B. Merrick, et al. 7.23 acres for right of way and 2.27 acres for excess taking. Amount of offer $6,484.00. Authorized by Commissioner McIver on May 3, 1954.

R 21484 - Owner: Gilbert Allen Yearous, et al. 1.32 acres for right of way. Amount of offer $417.00. Authorized by Chairman Chandler on April 22, 1954.

Goble-St. Helens Section of the Columbia River Highway

R 21315 - Owner: Frank Trachsel. 1.64 acres for right of way. Amount of offer $1,500.00. Authorized by Chairman Chandler on May 7, 1954.

R 10008 - Owner: George M. Walmsley, et ux. 5,000 sq. ft. for right of way. Amount of offer $555.00. Authorized by Commissioner McIver on April 27, 1954.

R 21320 - Owner: Ivan S. Rogers, et ux. 0.28 acre for right of way. Amount of offer $10,500.00. Authorized by Commissioner McIver on May 3, 1954.

R 21329 - Owner: Albert Diss, et al. 0.33 acre for right of way and 0.72 acre for excess taking. Amount of offer $28,000.00. Authorized by Commissioner McIver on April 19, 1954.

R 21362 - Owner: John Zak, et ux. 0.02 acre for right of way and 0.04 acre for slope easement. Amount of offer $610.00. Authorized by Commissioner McIver on April 27, 1954.

R 21367 - Owner: Alvin A. Weber, et ux. 0.08 acre for right of way. Amount of offer $2,650.00. Authorized by Commissioner McIver on April 27, 1954.

Goble-St. Helens Section of the Columbia River Highway (cont.)

R 21369 - Owner: Chester J. Thorp, et ux. 0.16 acre for right of way. Amount of offer $200.00. Authorized by Commissioner McIver on April 27, 1954.

R 21370 - Owner: Vera M. White. 0.14 acre for right of way. Amount of offer $239.00. Authorized by Commissioner McIver on April 27, 1954.

R 21371 - Owner: William A. Wysock, et ux. 0.14 acre for right of way. Amount of offer $239.00. Authorized by Commissioner McIver on April 27, 1954.

R 21373 - Owner: Kenneth R. Aspgren, et ux. 0.02 acre for right of way. Amount of offer $750.00. Authorized by Commissioner McIver on May 3, 1954.

R 21379 - Owner: Donald Baker, et al. 0.36 acre for right of way. Amount of offer $4,000.00. Authorized by Commissioner McIver on May 3, 1954.

R 21390 - Owner: Myrle A. Strachan, et al. 0.35 acre for right of way. Amount of offer $8,064.00. Authorized by Commissioner McIver on May 3, 1954.

R 21654 - Owner: Agnes Meehan. 1.03 acre for right of way. Amount of offer $669.00. Authorized by Commissioner McIver on April 27, 1954.

Medford-County Farm-Ashland Section of the Pacific Highway

L 1935 - Owner: Charles W. Koyl, et al. 2.93 acres for right of way. 5.8 acres for channel change. 1.03 acres for gravel pit, and 0.82 acre for excess taking. Amount of offer $15,080.00. Authorized by Chairman Chandler on May 7, 1954.

Vale-Cairo Junction Section of the Central Oregon Highway

R 21113 - Owner: Hot Springs, Inc. 2.18 acres for right of way. Amount of offer $4,231.00. Authorized by Commissioner Reynolds on April 7, 1954.

R 21625 - Owner: Floyd G. Miller, et ux. 6.08 acres for right of way and 0.12 acre for easement for channel change. Amount of offer $6,000.00. Authorized by Commissioner McIver on May 3, 1954.

L 2071 - Owner: Blanche Tipton, et al. 28.41 acres for right of way and 1.37 acres for excess taking. Amount of offer $9,206.00. Authorized by Commissioner McIver on May 3, 1954.

Goshen-Divide Section of the Pacific Highway

R 21212 - Owner: Mary Elizabeth Wright. 29.95 acres for right of way. Amount of offer $19,065.00. Authorized by Chairman Chandler on May 7, 1954.

Goshen-Divide Section of the Pacific Highway (cont.)

R 21220 - Owner: W. C. Schilling, et al. 8.7 acres for right of way. Amount of offer $3,000.00. Authorized by Chairman Chandler on May 7, 1954.

R 21230 - Owner: Katie A. Burrows, et al. 0.38 acre for right of way. Amount of offer $1,350.00 for land and $1,225.00 for barn if owned by defendant. Authorized by Chairman Chandler on May 7, 1954.

R 21396 - Owner: W. A. Woodard Lumber Company, 13.28 acres for right of way. Amount of offer $31,400.00. Authorized by Chairman Chandler on May 7, 1954.

R 21451 - Owner: William Perini, et ux. 2.91 acres for right of way. Amount of offer $875.00. Authorized by Chairman Chandler on May 7, 1954.

R 21453 - Owner: E. C. M. Spriggs. 0.17 acre for right of way. Amount of offer $300.00. Authorized by Chairman Chandler on May 7, 1954.

R 21466.- Owner: William T. Morris, et ux. 2.05 acres for right of way. Amount of offer $2,300.00. Authorized by Chairman Chandler on May 7, 1954.

R 21490 - Owner: Central Oregon Plywood, Ore. Ltd., et al. 4.94 acres for right of way and 1.1 acres for excess taking. Amount of offer $2,250.00. Authorized by Chairman Chandler on May 7, 1954.

R 21224 - Owner: Margaret Hemenway, et al. 10.39 acres for right of way. Amount of offer $8,300.00. Authorized by Chairman Chandler on May 7, 1954.

R 21242 - Owner: Peter B. Kuiper, et ux. 0.03 acre for right of way. Amount of offer $2,300.00. Authorized by Chairman Chandler on May 7, 1954.

R 21491 - Owner: Alsea Hawley, et al. 53.28 acres for right of way. Amount of offer $13,500.00. Authorized by Chairman Chandler on May 7, 1954.

R 21215 - Owner: Gwendolyn E. Jaqua, et al. 37.57 acres for right of way. Amount of offer $10,500.00. Authorized by Chairman Chandler on May 7, 1954.

Zig Zag-Rhododendron Section of the Mt. Hood Highway

R 21786 - Owner: H. L. Perkins, et ux. 0.03 acre for right of way. Amount of offer $150.00. Authorized by Chairman Chandler on May 7, 1954.

Goble-St. Helens Section of the Columbia River Highway

R 21308 and $ 21309 - Owner: Alger Chaney, et al. 1.31 acre for right of way. Amount of offer $600.00. Authorized by Commissioner McIver on May 3, 1954.

R 21380 - Owner: Gladys E. Peterson, et al. 2.44 acres for right of way. Amount of offer $19,350.00. Authorized by Chairman Chandler on May 7, 1954.

R 21368 and R 21882 - Owner: Wales Wood, et ux. 0.05 acre for right of way. Amount of offer $1,000.00. Authorized by Chairman Chandler on May 7, 1954.

Jasper Bridge-Pleasant Hill Section of the Springfield-Creswell Highway

R 21625 - Owner: Floyd G. Miller, et ux. 6.08 acres for right of way and 0.12 acre for easement for channel change. Amount of offer $6,000.00. Authorized by Commissioner McIver on May 3, 1954.

Shady Point-Booth Ranch Section of the Pacific Highway

L 2071 - Owner: Blanche Tipton, et al. 28.41 acres for right of way and 1.37 acres for excess taking. Amount of offer $9,206.00. Authorized by Commissioner McIver on May 3, 1954.

The Chief Counsel reported that at the April meeting employment of Mr. Robert B. Holland had been authorized, but since that time Mr. Holland has decided to engage in the practice of law in California. Mr. Leslie B. Hampton, he stated, has been interviewed and has agreed to accept employment in the Legal Department at a monthly salary of $394.00. He recommended and the Commission approved his employment.

The Commission discussed briefly with the Engineer and the Chief Counsel matters of legislation to be presented at the 1955 legislative session. The Commission took under advisement proposed legislation submitted by the Chief Counsel and advised that final action would be taken thereon at the June meeting so that the proposed legislation could be presented to the Highway Interim Committee by August 1.

A report was made by the Chief Counsel concerning the institution of actions against the Highway Commission for damages allegedly caused by a change of grade in construction of the Center Street Bridge in Salem. Nine claims, he stated, have been filed for a total amount of $222,500. In addition to this, a settlement was previously made with Mr. and Mrs. A. B. Seely for damages in the amount of $3,000. The Commission accepted the report.

Consideration was given to executing a "Quitclaim Deed" in favor of Safeway Stores, Inc., covering a slope easement over a certain property in Newport, Oregon, on the Oregon Coast Highway in exchange for an easement for lateral support to the highway conveyed by Safeway Stores to the State. The Chief Counsel recalled that at the meeting in February, action had been taken clarifying the effect of the slope easement granted to the Highway Commission. It appears that Safeway Stores are constructing a grocery store on the property adjacent to the parcel conveyed by the slope easement and plan to extend a parking lot over that portion subject to the slope easement. Their financial arrangements have been made difficult by reason of the easement and they have requested the Highway Commission to quitclaim the easement in exchange for a conveyance by Safeway Stores of an easement for lateral support covering the same property. This transaction, he stated, will work no detriment to the State, and he recommended that it be approved. The Commission accepted the recommendation.

Upon the Chief Counsel's favorable recommendation, the Commission approved institution of legal proceedings in the following cases:

1. James Franklin Thrasher, CAO-52-26, claim for damage to state vehicle caused by collision.

2. Paul Koger Lowe, CAO-53-95, claim for damages to traffic signal installations caused by collision.

3. W. E. McLachlan, CAO-52-30, claim for damages to bridge structure caused by collision.

4. John P. Fay, R 21614, suit to obtain specific performance of option to purchase real property.

Consideration was given by the Commission to a revision in the standard endorsement for insurance furnished by applicants for permit for special movements of oversize or overweight vehicles upon state highways. The Chief Counsel explained that the revision has been made to preclude the reducing of coverage of an assured if the endorsement were attached to an insurance policy having greater limits than $50/100/25,000. He recommended the following amendment:

"Limits provided herein are the minimum limits required by the Oregon State Highway Commission and shall in no way be considered a reduction in limits as originally provided in this policy."

He also stated that it would be necessary to revise the standard endorsement and certificate of insurance so that references may be made to the Oregon Revised Statutes rather than the Session Laws of the State of Oregon which have been repealed. The suggested change has been approved by the Insurance Commissioner. The Commission approved the changes.

Attention was also given to revocation of the Commission's policy that applicants for permits for special movements of vehicles having a size, weight or description not permitted by law to operate upon highways be required to furnish indemnity insurance or indemnity bond in addition to having public liability and property damage insurance. The Chief Counsel explained that the effect of an endorsement to the permittee's public liability and property damage insurance approved in October, 1953, is to permit the Highway Commission to collect for damages to its own property under the insurance policy notwithstanding that the Commission is a named insured. He pointed out that the requirement that indemnity insurance or an indemnity bond be furnished in addition to the public liability and property damage insurance is an unwarranted financial burden upon the applicants,for protection to the state is accomplished by the previously mentioned endorsement. He recommended that such indemnity insurance or indemnity bond not be required for the issuance of special trip permits unless the proposed movement is of a highly unusual and extremely hazardous nature, in which case the indemnity insurance or indemnity bond may be required by the State Highway Engineer, the Deputy State Highway Engineer, any assistant State Highway Engineer, the Director of

Permits or the Transportation Permit Supervisor. The Commission accepted the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "L", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Chief Counsel recommended and the Commission approved payment of $100 to Mr. Edward Rieben for damages to his wheat crop caused by a survey crew while working on the Washburn-North Plains Section of the Wilson River Highway in Washington County in 1952.

A report was made by the Chief Counsel concerning institution of an action by W. F. Heskett against the Highway Commission and H. J. and H. W. Miller, contractors. He stated that on May 6, 1954, a summons and complaint had been served in which the plaintiff claims to have suffered loss in the amount of $435 due to destruction of an irrigation ditch by the contractor in his operations on the Lostine River Bridge Section of the Wallowa Highway in Wallowa County. The matter, he stated, is being investigated by the Engineering Department and appropriate action will be taken to defend or settle the claim. The report was accepted.

Payment of insurance premium to the Medford Irrigation District was considered. The Chief Counsel stated that this matter arises from the provisions of an agreement entered into on January 22, 1953, with the Irrigation District concerning construction of an irrigation ditch in connection with highway construction on the Medford County Farm Section of the Pacific Highway. Essentially the problem is whether the Commission wishes to pay the premium of approximately $200 per year for coverage by endorsement to the District's present policy or to get prices on a separate policy to provide similar protection. The Commission turned the matter over to Commissioner Reynolds and instructed the Engineer and the Chief Counsel to provide such information as may be required.

A request was considered from the City of Medford, the Jackson County Court, and a citizens' committee for consent of the Highway Commission to incorporate within the City of Medford by annexation a portion of the right of way on the Medford-County Farm Section of the Pacific Highway adjacent to the present southerly boundary of the City of Medford. The Chief Counsel stated that the matter had been investigated by the Legal and the Engineering Departments and no objection could be seen, and he recommended that the Commission concur in the request. The Commission accepted the recommendation and instructed that the City officials be so advised.

A similar request was also considered from the City of Corvallis concerning proposed annexation of highway property along the Pacific Highway West north of the present Corvallis city limits. The Deputy State Highway Engineer stated that he had investigated the matter and recommended that their request be granted. The Commission accepted the recommendation.

Chairman Chandler inquired of the Chief Counsel concerning the status of right of way acquisition on the section of the Oregon Coast Highway between Rocky Point and Frankport. The Chief Counsel explained the status in regard to several owners.

The Commission accepted a report from the Engineer that pursuant to authority previously granted him by the Commission he has awarded contracts in which the conditions governing the awards have been satisfied and contract and bond forms have been sent to the respective contractors for signature as follows:

1. Grading and paving and construction of a reinforced concrete bridge on Sage Hen Hill-Hines Section of Central Oregon Highway in Harney County. Bids received February 25, 1954. Conditions of award satisfied April 6, 1954. J. C. Compton Company, McMinnville, contractor.

2. Grading and paving on West Main Street in the City of Carlton, Yamhill County. Bids received April 1, 1954. Conditions of award satisfied April 7, 1954. W. G. Wright, McMinnville, contractor. (Combination bid with Lafayette Project)

3. Grading and paving on Madison Street in the City of Lafayette, Yamhill County. Bids received April 1, 1954. Conditions of award satisfied April 7, 1954. W. G. Wright, contractor. (Combination bid with Carlton Project)

4. Construction of Coast Fork Willamette River Bridge, North Crossing, on the Pacific Highway, new alignment, in Lane County. Bids received February 24, 1954. Conditions of award satisfied April 9, 1954. Tom Lillebo, Reedsport, contractor.

5. Grading on Shady-Booth Ranch Unit, Shady-Canyonville Section of the Pacific Highway in Douglas County. Bids received February 24, 1954. Conditions of award satisfied April 9, 1954. D & H Construction Company and W. H. Hasler Construction Company, Sacramento, California, contractor.

6. Grading and paving on Vale-Cairo Section of Central Oregon Highway in Malheur County. Bids received February 24, 1954. Conditions of award satisfied April 9, 1954. Warren Northwest, Inc., Portland, contractor. (Combination bid with Nyssa Project)

7. Grading on First Street in City of Nyssa in Malheur County. Bids received February 24, 1954. Conditions of award satisfied April 9, 1954. Warren Northwest, Inc., Portland, contractor. (Combination bid with Vale-Cairo Project)

8. Construction of Deschutes River Bridge and Fulton Canyon Creek Bridge on Columbia River Highway in Sherman and Wasco Counties. Bids received April 1, 1954. Conditions of award satisfied April 19, 1954. Young and Smith Construction Company, Portland, contractor.

9. Paving and furnishing crushed material in stockpile on Deady-South Umpqua River Unit, Deady-Shady Section of Pacific Highway in Douglas County. Bids received April 2, 1954. Conditions of award

satisfied April 21, 1954. E. C. Hall Company and J. C. Compton Company, Portland, contractor.

10. Construction of Wolf Creek Bridge on Pacific Highway in Josephine County. Bids received April 1, 1954. Conditions of award satisfied April 26, 1954. Hamilton and Thoms, Eugene, contractor.

11. Grading and paving Beaverton Junction-Progress Section of Olson County Road in Washington County. Bids received April 2, 1954. Conditions of award satisfied April 26, 1954. Porter W. Yett, Portland, contractor.

12. Grading and paving Salem-Roberts Section of Independence-Salem Road in Marion County. Bids received April 1, 1954. Conditions of award satisfied May 6, 1954. Fred Rouse & Henry H. Miller, Salem, contractors.

The Engineer reported that under authority previously granted him he had approved reclassification of several sections of state highways from a Group II to a Group I classification. These changes, he stated were based on the results of a test run with a 60-foot vehicle on the following sections of state highways:

1. Nyssa-Adrian Secondary Highway No. 450 from Nyssa to the Idaho state line.

2. Oregon Coast Highway No. 9 between Hebo and Otis Junction.

3. The southerly half of the Elkton-Sutherlin Secondary Highway No. 231 from M. P. 14.31 at the intersection of a county road to Tyee to M. P. 28.30 in Sutherlin.

4. The Dallas-Coast Highway No. 192 from Dallas northwesterly to a junction with the Salmon River Highway.

Consideration was given to a request from the City of Toledo for construction of a footpath along the Corvallis-Newport Highway through the City. The Engineer stated that city officials had pointed out that construction of this footpath had been promised before the war. Investigation of the minutes disclosed that construction had been authorized by the Commission at a meeting on October 17, 1941; however, before construction of the path could be undertaken, the second World War was underway, and the Commission on April 2, 1942, decided to defer further footpath construction during the war emergency. The Engineer also pointed out that the 1941 cost was estimated at $5,050 based on the alignment of the highway at that time; however, plans for the highway through the City have changed and the present cost is not known. He recommended that the footpath be constructed. The Commission instructed the Engineer to prepare a report on the cost of the walk and other pertinent matters and present it, if possible, at the June meeting.

A request from the South Tillamook Coast Road Committee for improvement of the Little Nestucca Secondary Highway was considered. The Engineer reported that the highway is 9.35 miles in length and has nine bridges, three of which have been

built to modern standards leaving six that need to be reconstructed. Preliminary studies indicate that it would cost about $840,000 to construct the 9.35-mile section to a modern standard, including the six new bridges. He suggested that an attempt be made to program federal secondary monies from the new road bill for the two miles on the west end which has the most populous area. The cost of this improvement he estimated at $165,000. No action was taken at this time pending the appearance of a delegation on the following day. (The Commission informed the delegation that no money is available now, but consideration would be given to their request when the next secondary program is formulated.)

Chairman Chandler pointed out that to his way of thinking, secondary highway funds should be used principally to pave or oil surface the more important existing secondary highways. He pointed out that some secondary highways which now have a gravel surface carry a lot of traffic and should be paved to secondary standards. It was his thought that the heavily traveled secondary highways should be modernized.

The Engineer reported the results of bids received in Salem on April 28, 1954, for the purchase of used equipment and scrap materials stored at the highway shops in Salem. He recommended that all bids for items Nos. 11, 38, 44 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, and 58 be rejected as being too low and that all other items be sold to the high bidder with the exception of items Nos. 36 and 37 on which no bids were received. The total amount of high bids on which sale is recommended is $13,583.01 compared with the total estimated value for these same items in the sum of $10,457.50. The Commission accepted his recommendation.

A report was presented by the Engineer concerning a request from Jack Latourette to purchase a tract of state-owned land near the intersection of 5th and Water streets in Oregon City. This tract of land, he stated, lies between the Pacific Highway East and the Willamette River and is an excellent location for a service station. He pointed out that if a service station is installed there would be not only the marginal friction of southbound traffic entering and leaving the station, but there would be the more dangerous feature of northbound traffic entering the station and thereby crossing the highway in front of southbound traffic. He recommended that the property be retained. The Commission accepted the recommendation.

Consideration was given to a request from E. R. Fatland of Condon for improvement of the John Day Highway and the Wasco-Heppner Highway. The Engineer reported that to improve the John Day Highway from Dayville Junction to Condon is estimated to cost $5,860,000 and to complete the Wasco-Heppner Secondary Highway between Condon and Wasco would cost approximately $603,000. The Commission took no action at this time pending the appearance of a delegation on the following day. (On the following day the Commission informed the delegation that careful consideration would be given to their request but no commitment was made.)

The Commission gave attention to the following items of unfinished business as they appeared on the Secretary's Summary, dated April 2, 1954:

1. Request of Coos County Court for the construction of Seven Devils Route of US 101 from the south end of Cape Arago Secondary Highway via Bullards Bridge to Bandon: The Engineer stated that his report in the matter is not yet ready, but it appears that a preferable connection should be made at or near Coaledo and thence to Bandon via Bullards Bridge. The Commission ordered the item deleted from the list of unfinished business.

2. Request of Coos County Delegation for elimination or improvement of a curve at Rocky Point on the Cape Arago Secondary Highway: The Engineer reported that the minutes of May 26 and 27, 1952 showed that the request had been investigated and improvement approved at an estimated cost of $30,000 with the project to be given consideration in the programming of future allotments of secondary highway funds to Coos County. The Engineer recommended, and the Commission approved, contracting of the work as a State project in 1954 at an estimated cost of $30,000. The item was ordered deleted from the list of unfinished business.

Chairman Chandler called attention to another project to eliminate a curve at the end of the Spruce Street bridge on the Coos Bay-Roseburg Highway in Myrtle Point. The Deputy Engineer stated that it is planned to do this work in the $350,000 project between Coquille and Myrtle Point.

3. Request of Earl M. Bush for fencing of publicly-owned land along US 20 between Sage Hen Hill and Riley Store: The Engineer stated that his report in this matter is not yet ready. The item is to remain on the list of unfinished business.

4. Request for wayside parking area at Unity Reservoir: The Engineer reported that this request had been carefully investigated by the Landscape Engineer who reported that the site does not conform to the standards for roadside picnic areas, and due to its remoteness from the highway, it appeared that the area would be used principally as a parking place for fishermen. The Commission took no action to approve the request, but instructed the Engineer to forward a copy of the Landscape Engineer's report to Commissioner Reynolds. This item is to be deleted from the list of unfinished business.

5. Request of Commissioner J. C. Minson, Crook County, for construction of a climbing lane on the Ochoco Highway west of Prineville: The Engineer reported that an investigation disclosed that it does not appear practical to construct a climbing lane on the section without a complete rebuilding of the road. To widen the existing road to provide a climbing lane on the 1.25-mile section involved, he estimated would cost about $50,000 which would mean retaining the present surfacing. To provide an adequate climbing lane and decrease the curvature will require almost complete reconstruction at an estimated cost of $140,000. As the average daily traffic is only 1,200 vehicles, he recommended that construction be not undertaken at this time. The Commission accepted the recommendation and ordered the item deleted from the list of unfinished business.

6. Claims of Hodges and Kaptur, through their attorney, Howard H. Campbell, for payment for damage to their properties by reason of highway construction at Miroco Beach on U. S. Highway 101 about 2½ miles south of Depoe Bay: The Engineer recalled that this matter had been previously discussed, and it appears that the Commission has no legal responsibility. The Commission denied the claim and ordered the item deleted from the list of unfinished business.

7. Request from the City of Beaverton for designation of Hall Street in Beaverton as a secondary highway route: The Engineer reported that his investigation of the matter is not yet complete, and he recommended that the item be deleted from the list of unfinished business to be taken up as new business when the report is made. The Commission accepted the recommendation.

8. Request of residents in the vicinity of Norwood for access to the Portland-Salem Expressway at Norwood Crossing: The Engineer recalled that at the April meeting he had been instructed to conduct an origin and destination survey when the new highway is completed to determine if an access may be needed. He suggested that the item be deleted from the list of unfinished business and be taken up again as new business when the survey has been made. The Commission approved the suggestion.

Chairman Chandler presented a letter from Mr. Willard L. Archer requesting an immediate traffic count at the Norwood crossing which was read aloud by the Assistant Secretary. The Commission instructed that Mr. Archer be advised by letter that it is not planned to conduct the traffic count until the highway is completed and traffic is routed over it.

The Engineer reported that under authority previously granted he had placed a reduced load limit on the West Diamond Lake Secondary Highway No. 233 from M. P. 1.00 to the end of the highway at M. P. 23.89, being the junction with the Crater Lake North Secondary Highway. He also reported placing a reduced load limit on the Crater Lake North Secondary Highway No. 232 over the entire length of the highway. Both reduced load limits are effective at 8:00 a.m. on May 8, 1954 and involve a load limit of 11,000 pounds gross on any single axle, 20,000 pounds gross on any pair of tandem axles, and 36,000 pounds maximum gross load. The Commission accepted the report.

The Engineer presented for consideration proposed surveys for relocating sections of state highways. He pointed out that the proposed relocations represent the most feasible routes, considering funds available and the benefits to be derived by the traveling public. He recommended that the following surveys be adopted:

1. Beaverton-Multnomah County Line Section of the Beaverton-Hillsdale Highway in Washington and Multnomah Counties.

2. Depot Slough Section of the Corvallis-Newport Highway in Lincoln County.

3. Olds Ferry-Ontario Section of the Old Oregon Trail in Malheur County.

The Commission approved the surveys by adopting the attached resolutions relative thereto marked EXHIBITS "K-1" and "K-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

A request from Mr. Carl Driskill, Secretary-Treasurer of the John Day Chamber of Commerce for an economic study concerning a route connecting the southerly end of the Pendleton-John Day Highway with the John Day Highway was considered. The Engineer reported that a survey had been made in 1926 and a further study was made about 10 years later. This latter study was only preliminary, and he recommended that authority be granted to make a reconnaissance survey and an economic analysis at an estimated cost of $1,000. The Commission accepted the recommendation.

Also considered was a request from the City of Prineville for investigation concerning the feasibility of constructing a truck by-pass route through Prineville and involving an underpass under Elm Street. The Engineer reported that he believed the plan the City has in mind would be quite costly. He suggested that a reconnaissance study be made, not to take over two or three days, to determine roughly what route could be used and the cost thereof and that this information be furnished to the City. He also suggested that the State refrain from participation in the construction of such a truck route. The Commission accepted the suggestions.

The Commission gave attention to a request from John Prideaux, member of the Mari-Linn School Board near Lyons for school signs, crosswalks, and a footpath on the Mill City-Mehama Highway in the vicinity of Mari-Linn School. The Engineer reported that the requests had been carefully investigated, and it was found that adequate warning signs have been in place for some time. Concerning construction of the footpath, it was found that evaluation figures determined its relative warrant at 0.87 which is below the required unit value of 1.00. Captain Walter Lansing of the State Police, he stated, will contact school authorities concerning establishing of a school boy patrol and the painting of crosswalks. He recommended and the Commission approved denial of the request for a footpath.

The Coos County Court submitted a written request that the State conduct a survey of the Riverton area to determine the best location for a bridge to replace the existing ferry. The Engineer stated that to conduct such a survey, including foundation borings and studies of the effect of high water in the Coquille River would cost approximately $3,200. He pointed out, however, that it should be understood that this amount does not include the cost of designing the bridge. Upon his favorable recommendation, the Commission authorized the survey when crews are available with the understanding that the cost is to be borne by Coos County.

A petition from residents along Beardsley Road, sometimes known as Chemawa Road, in the Keizer district north of Salem was discussed. These people requested hard surfacing or oiling to hold down the dust caused by increased traffic of gravel trucks. The Engineer reported that some gravel had been hauled by the State from a nearby pit, but the work had been completed and the road was graded smooth after the hauling had been completed. He recommended that a light oil dust palliative be placed on the road when the bid operation of surfacing the Portland-Salem Expressway starts. The Commission approved the recommendation.

Residents of Paulina submitted a petition requesting oiling of the Paulina

Secondary Highway from the west boundary of the Paulina School to the end of the highway. The length of this improvement, the Engineer reported, is only one-fourth mile, but it has a very light base and will need additional surfacing before any kind of an oil mat can be placed. The cost of the job, he estimated at $8,000 which is high by reason of remoteness of the job and the small quantities involved. He recommended that the request be denied until such time as money is available to build a section of sufficient length to justify a contract. The Commission accepted the recommendation.

A petition was also considered from residents of Spray requesting completion of the Heppner-Spray Highway by surfacing the section between Rock Creek and Spray Junction. The actual distance, the Engineer reported, is 25.8 miles. He recalled that this matter had been considered in the past, the last request being on May 18, 1953, and was denied on the basis that the volume of traffic did not warrant the improvement. Since that time there has been a small increase in traffic, but the section still carries one of the lowest traffic volumes of any highway in the State, the traffic being approximately 50 vehicles at the Morrow-Wheeler County Line, 60 vehicles at the southern terminus, and 90 vehicles at the north terminus. The cost of improvement he estimated at $650,000 for a medium-type oil surface 18 feet wide. Upon his adverse recommendation, the Commission denied the request.

The Engineer requested authority to expend approximately $6,000 to raise the grade on a section of the Siuslaw Highway adjacent to the river about 1.6 miles east of Florence. He pointed out that several sections in this vicinity have been affected by unequal subsidence and in this particular area the settlement has been so much that the road is subjected to flooding with high tides. Flooding sufficient to stop all traffic occurred in December, 1951 and in January and November, 1953. He recommended that the project be approved as a minor betterment item with finances to be secured from the reserve for projects to be selected. The Commission approved the project with the work to be done by contract.

The Engineer also requested authority to oil shoulders on the newly constructed section of the Oregon Coast Highway between Hauser and Coos Bay. He pointed out that although it was not contemplated originally to oil the shoulders, it has been found that it is very difficult to set them up without oiling. He called attention to the fact that the road tests conducted in Idaho had shown that practically no distress occurred in the outside wheel tracks on those sections on which the shoulders were oiled. He recommended and the Commission approved the expenditure of $12,000 to oil the shoulders.

An additional authorization of $1,000 was requested by the Engineer for the WASHO Test Road Project at Malad City, Idaho. He explained that the original plan had been to conduct the tests for a period of two months after the frost had left the ground, but subsequent developments indicated that much valuable information would be lost if the test were not continued for a longer time. The Advisory Committee, he stated, decided to extend the spring test for an additional $1\frac{1}{2}$ months or until May 31. The additional cost for this period is $2,500 for each of the participants, but as Oregon already has a balance of $1,500 on hand an increased authorization of only $1,000 is required, and he rec-

ommended that this be done. The Commission approved the recommendation.

Recommendations submitted by the Klamath County Chamber of Commerce for construction projects in the Klamath Basin were considered. The Engineer reported that these people wish to have their projects considered when the next program is formulated. The Commission ordered the letter filed. (For details concerning the projects requested, see Klamath County Chamber of Commerce letter dated April 15, 1954, in the General Files.)

The Commission also gave attention to a request submitted by L. Orth Sisemore for relocation of the southern terminus and rerouting of certain sections of Lake of the Woods Road (Klamath Lake Secondary Highway) particularly in the Lakeshore Drive area. The letter was ordered filed for future reference.

Expenditure of approximately $5,000 was requested by the Engineer for the purchase of equipment to measure moisture and density of soil. He stated that the University of California has developed a method of measuring moisture and density of soil by the use of radioactive materials now available from the Government's atomic piles. The use of neutrons and gamma rays, he stated, make such measurements possible without the necessity of extracting samples from the soil for laboratory testing, thus providing a great saving of time and money in conducting such tests. He described briefly the method used in conducting the tests and pointed out that certain precautions must be taken by personnel and that it will be necessary to do some assembling and preliminary testing before the regular work can get under way. Also, it will be necessary to train men in the use of the equipment. This preliminary cost, he estimated at about $2,000 and the cost of the equipment at approximately $2,500. He recommended the expenditure of $5,000 in order to start the testing program. The Commission approved the recommendation.

A petition was discussed from the Kelso Farmers Union Local No. 279 and Sandy Grange No. 392 for investigation of a traffic hazard on the Mt. Hood Highway at a county road intersection in the community of Kelso about 1½ miles west of Sandy. The Engineer stated that careful investigation had been made by the Traffic Engineering Department and the primary difficulty is caused by parking in front of certain business establishments, thereby restricting sight-distance. Speed zoning, he stated, did not appear to be practicable. To improve the sight-distance and lower the accident potential, he recommended the installation of two sections of closely spaced guard posts to control access and to prevent parking, one section in front of the grocery store and service station and the other section in front of a grocery and feed and seed store. The cost of this installation he estimated at $400 to be performed with 1954 minor betterment funds for Channelization Projects to be Selected. The Commission approved the recommendation.

Attention was given to a request from the Rebekah Lodge and others in the vicinity of Lyons for construction of a pedestrian walk on the Santiam River Bridge over the North Santiam Highway at Mehama. The Engineer in his report pointed out that a similar request had been considered in May, 1951, and on the basis of low traffic and pedestrian volume had been denied. Since the opening of the new Santiam Highway between Mehama and Mill City, a traffic check was taken in the month of April, 1954, which showed a decrease of vehicles and pedestrians using the bridge.

The cost of placing the sidewalk he estimated at $6,200, and on the basis of pedestrian and vehicular traffic, recommended that the request be denied. The Commission deferred action pending the appearance of a delegation the following day. (On the following day, the Commission informed the delegation that the Engineer would be instructed to reinvestigate the matter.)

A request from the City Council of Rainier was considered for widening, construction of curbs and drainage on the south side of US 30 between Second Street and Sixth Street in Rainier. The Engineer explained that the reason for requesting only one-half of the highway improvement is that there is practically no development on the north side while there is almost continuous culture on the south side. An investigation, he stated, reveals that there is no particular congestion of traffic and the priority of the project is quite low. Also, he questioned the desirability of constructing one-half the roadway width to a full street section. In view of these conditions he recommended, and the Commission accepted the recommendation,that the request be denied.

The Commission also discussed a request from the Hood River Chamber of Commerce to lease a parcel of land inside the Hood River interchange on which to construct a tourist information building, and also a request for pavement widening, a request for a sign indicating access to Hood River, and a request for lighting the Hood River approach on the Columbia River Highway. In discussing these matters, the Engineer pointed out that the placement of an information center as requested would create a definite traffic hazard and at the same time cause the breakdown of a long-established policy of not permitting buildings within interchange areas. He recommended that no development other than landscaping be permitted within the area. The Commission approved the recommendation.

In the matter of pavement widening, signs and lighting, the Engineer reported that there appeared to be no need for the pavement widening as a deceleration lane has already been provided for the Hood River approach and luminaire units are now being installed at the interchange. He recommended that a sign be installed reading "Hood River Junction Ahead" and that the pavement widening be denied at least until further study. The Commission accepted the recommendations.

The Engineer reported that the following cities and towns have fulfilled legal requirements for expenditure of State Tax Street Funds accrued to them as follows:

During the first six-months' period of 1954:

Adams	$ 541.48
Banks	1,322.04
Clatskanie	3,167.98
Cove	991.53
Echo	1,606.85
Glendale	3,062.50
Gold Hill	2,176.45
Ione	921.21

Metolius	$ 552.02
Monument	801.66
Mt. Vernon	1,585.75
Prescott	418.41
Riddle	2,229.19
Rogue River	2,074.48
Sodaville	552.02
Sublimity	1,290.40
Yoncalla	2,201.06

During the second six-months' period of 1953:

Gates	$1,218.73
Hubbard	1,423.78
Island City	398.54
Merrill	2,411.47
Stanfield	2,440.35

During the first six-months' period of 1953:

Chiloquin	$2,214.64
Paisley	709.48
Merrill	2,768.28

During the second six-months' period of 1952:

Bonanza	$ 701.04

During the first six-months' period of 1952:

Grass Valley	$ 612.18
Merrill	2,621.37

He stated that the plans for the improvements proposed to be financed with the funds under discussion have been examined and found satisfactory, and he recommended approval of the plans by the Commission. The Commission accepted the recommendation by adopting the attached resolutions relative thereto marked EXHIBITS "D-1" through "D-5", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

A request was considered from the City Recorder at Cascade Locks for installation of a traffic signal on the Columbia River Highway at the location of the Cascade Locks Fire Station. An investigation which was made, the Engineer reported, indicated that a signal would not be of any benefit. He pointed out that what the City has in mind is a signal which would be flashing amber on the highway except when a push button was actuated which would turn the light to red. This would result in a very surprising stop signal which would probably cause accidents. He therefore recommended that the request be denied. The Commission approved the recommendation.

The Engineer requested an increase of $70,000 in the project authorization for paving shoulders on Contract No. 3853 for the Boones Ferry Road-Willamette

River Section of the Portland-Salem Expressway in Washington and Clackamas Counties. He pointed out that this contract had been let before the practice had been adopted of paving or oiling shoulders during construction. He called attention to the results of the WASHO Road Test in Malad, Idaho, where considerable damage had occurred to the outer edge of the pavement on unpaved shoulders whereas no damage occurred where the shoulders were paved. The shoulder paving, he stated, is to be four feet wide on each side and two inches deep. It is also contemplated to increase the thickness of the pavement proper from $3\frac{1}{2}$ inches to 4 inches. The Commission approved the increase as requested.

The Engineer presented a request from the U. S. Army Engineers for the State to assume maintenance of the six lighting units installed in the vicinity of Detroit Dam on the North Santiam Highway. He recommended that the State take over maintenance of the units under condition that the U. S. Government furnish the electrical energy required without cost to the State. The Commission approved the recommendation.

The Commission considered a request from the City of Hines for installation of a flashing beacon at the intersection of the Central Oregon Highway and Barnes Avenue in the town of Hines. The investigation which was conducted, the Engineer stated, disclosed that there was but one accident at this intersection from January 1, 1949 to December 31, 1953, and only 18 percent of the vehicles entering the intersection entered from Barnes Avenue. In view of the favorable accident record and the low traffic volume on the cross street, he recommended and the Commission approved denial of the request.

The Commission considered and by unanimous vote granted the following requests for extensions of time within which to complete state highway contracts, the Commission's action in each instance being in accord with the Engineer's recommendation:

1. Babler Brothers, Inc., Contract No. 3772 for grading and paving on the Anlauf-Elkhead Road Unit on the Pacific Highway in Douglas County, requested an extension of time from October 31, 1953 to April 24, 1954 in which to complete the work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

2. Steeck Electric Company, Contract No. 4044 for installation of traffic signals at Tigard on the Pacific Highway West, requested an extension of time from March 31, 1954 to April 30, 1954 in which to complete the work. The Engineer recommended that the extension of time as requested be granted without penalty.

3. Tom Lillebo, Contract No. 3870 for construction of four structures on the State Street-Battle Creek Unit of the Salem By-pass in Marion County requested an extension of time from March 31, 1954 to May 30, 1954 in which to complete the work. The Engineer recommended that the extension of time as requested be granted without penalty. A

letter was presented from the Bureau of Public Roads concurring therein.

4. Birkemeier & Saremal, Contract No. 3859 for construction of the Boeckman Road Grade Separation on the West Portland-Hubbard Highway in Clackamas County requested an additional extension of time from April 1, 1954 to May 1, 1954 in which to complete the work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

5. United Builders, Inc., Contract No. 3851 for construction of the 92d Avenue Overcrossing of the T. H. Banfield Expressway requested an additional extension of time from April 1, 1954 to July 31, 1954 in which to complete the work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter from the Bureau of Public Roads was presented concurring therein.

6. Steeck Electric Company, Contract No. 4022 for installation of Medford Traffic Signals requested an extension of time from February 28, 1954 to April 10, 1954 in which to complete the work. The Engineer recommended that the extension of time as requested be granted without penalty.

(For further details regarding the extensions of time listed above, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.) *

---

*FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above was based upon the recommendations of the State Highway Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for extensions of time.

The Engineer reported that Contracts Nos. 3758, 3848, 3859, 3871, 3889, 3899, 3941, 3979, and 4022 for construction of state highway projects have been completed according to requirements of the contracts or modifications thereof, and said projects are now ready for acceptance. The Commission, after due consideration, accepted said contracts by adopting the attached resolution relative thereto, marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that on January 30, 1954 a slide occurred at M. P. 24.60 on the Willamette Highway on a section recently constructed by the U. S. Army Engineers around Meridian Dam. The slide, he stated, blocked the highway and threatened possible damage to the Southern Pacific Railroad line. The Division Engineer, after an investigation for possible sources of equipment and labor, hired Babler Brothers to remove the slide on the basis of AGC rental rates plus 5 percent allowance on the equipment and 15 percent on labor costs. This, he pointed out, is

the same basis as if the work had been performed by price agreement in connection with any ordinary contract. The work was completed by Babler Brothers on April 13 at a cost of $40,759.60, and there had been no damage to the Railroad facilities nor serious inconvenience to the traveling public. He recommended that Babler Brothers be paid the amount as stated. The Commission approved the payment.

A petition was considered from residents in the vicinity of Tuckers Bridge on the Hood River Secondary Highway for the establishment of a speed zone. The Engineer reported that the request had been carefully investigated, and in view of the favorable accident experience, the low volume of vehicular traffic and the scattered residential culture, he recommended that the request be denied. The Commission accepted the recommendation.

Also considered was a request from W. S. Fullerton of Beaverton for better traffic control and possible establishment of a speed zone and a stop light at Huber on the Tualatin Valley Highway. The investigation conducted in this matter, the Engineer reported, indicated that there is no warrant for signalization at the intersection, but it does appear that speed zoning might offer some benefit. He, therefore, recommended that a reduced speed zone of 45 miles per hour be placed between M. P. 5.69 and M. P. 6.35 and between M. P. 6.68 and M. P. 7.49. Also that a 35 miles per hour speed zone be established between M. P. 6.35 and M. P. 6.68 and between M. P. 7.49 and M. P. 8.26 except for a section 450 feet east and 450 feet west of Union Avenue, and a section 500 feet east of Kinnesswood Avenue and 300 feet west of Kinneswood Avenue the indicated speed shall be 20 miles per hour during the hours of school crossings as provided by law. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Topaz Rebekah Lodge at Brookings submitted a written request for a 40-mile per hour speed zone on the Oregon Coast Highway between Cedar Lane Cannery and the home of Mrs. L. D. Harvey south of the town of Harbor. The section investigated, the Engineer reported, is 0.49 mile in length. The investigation disclosed that the prevailing speeds are such that without a great deal of enforcement, speed zoning would be of no benefit. The roadside culture is relatively light and the average daily traffic was found to be 2,540 vehicles in 1953. In view of these facts, he recommended that the request for speed zoning be denied. The Commission accepted the recommendation.

The Commission also gave attention to a request from property owners residing on US 97 south of Bend for an extension of the existing 35-mile per hour speed zone for a distance of 1.49 miles south of Bend. In the investigation conducted by the Traffic Engineering Department, it was found that the accident rate on this section has been far below the average for similar sections of highway; also, that prevailing speeds are such that speed zoning would provide little benefit. In view of these facts, the Engineer recommended that the request for speed zoning be denied. The Commission approved his recommendation.

Consideration was given to a request from the Rev. T. R. Yaws of Swiss-

home for establishment of a 35-mile per hour speed zone on the Siuslaw Highway through the community of Tide about two miles west of Swisshome. This matter, the Engineer stated, was investigated by the Traffic Engineering Department disclosing a relative lack of roadside culture, a favorable accident record and a reasonable prevailing vehicular speed. Upon the Engineer's adverse recommendation, the Commission denied the request.

The Engineer reported that the State Speed Control Board had taken action designating reduced speeds in certain towns. He recalled that at previous Highway Commission meetings in September and October, 1953, the Highway Commission had approved certain reduced speed zones adjacent to towns but final action had to be withheld pending contingent action within the towns by the State Speed Control Board. As this action has now been taken, he recommended that the Commission adopt resolutions establishing the reduced speed zones. The Commission approved the speed zones as follows by adopting the attached resolutions relative thereto marked EXHIBITS "G-1" through "G-6", which resolutions by this reference are made a part hereof with like effect as though extended in full herein:

1. 35 miles per hour on the easterly half of the McMinnville Highway between M. P. 1.05 and M. P. 1.28. (See EXHIBIT "G-1")

2. 35 miles per hour on the Redwood Highway between the north city limits of Cave Junction at M. P. 13.19 and a point 0.06 mile north of the north city limits of Cave Junction, M. P. 13.25. (See EXHIBIT "G-2")

3. 35 miles per hour on the Oregon Caves Highway between the east city limits of Cave Junction at M. P. 0.13 and the county road at M. P. 0.36. (See EXHIBIT "G-3")

4. 40 miles per hour on the Pacific Highway between the Wagner-Binford access road at M. P. 143.90 and the north city limits of Cottage Grove at M. P. 144.20. 45 miles per hour between the south limits of Cottage Grove at M. P. 145.51 and a point 200 feet south of the Sweet Lane Road at M. P. 146.27. (See EXHIBIT "G-4")

5. 45 miles per hour on the Oregon-Washington Highway between the Little Walla Walla River which is the city limit boundary of Milton-Freewater at M. P. 30.74 and Northeast First Avenue at M. P. 30.97. (See EXHIBIT "G-5")

6. 40 miles per hour on the Oregon Coast Highway between the south city limits of Brookings at M. P. 388.64 and the Chetco Grange Hall at M. P. 389.19. (See EXHIBIT "G-6")

The Engineer reported that the Oregon Historical Society wishes to erect a textboard in commemoration of the Lewis and Clark expedition immediately east of Corbett on US 30. The cost of the textboard, he stated, is estimated at $450 and a text as follows has been approved by the Memorials Committee of the Oregon Historical Society:

LEWIS AND CLARK

THE LEWIS AND CLARK EXPEDITION CAMPED BY THIS ROCK ON NOVEMBER 2, 1805. UNDER THE LEADERSHIP OF MERIWETHER LEWIS AND WILLIAM CLARK THIS WAS THE FIRST AND MOST IMPORTANT AMERICAN TRANS-CONTINENTAL EXPEDITION. IT HELPED TO ESTABLISH THE CLAIM OF THE UNITED STATES TO THE PACIFIC NORTHWEST AND TO ADD TO THE NATIONAL DOMAIN THE PRESENT STATES OF OREGON, WASHINGTON, IDAHO AND PARTS OF MONTANA AND WYOMING.

Upon his favorable recommendation, the Commission approved installation of the textboard.

The Commission gave attention to a request from the Grand Ronde Chapter of the Daughters of the American Revolution to place an historical marker on the Old Oregon Trail near Five Points in Union County to mark the spot where the first wagon trains crossed the Grand Ronde River. The Engineer stated that Five Points is about 8 miles west of La Grande. He recalled that there has been a long-standing policy to discourage the placing of small plaques along state highways as they are a hazard to traffic in that they cannot be easily read. People park their cars and walk across the highway. He recommended that if a textboard is desired, the matter be referred to the Memorials Committee of the Oregon Historical Society and that the request for an historical marker be denied for the reasons stated and also because of a possible change in location of the highway. The Commission accepted the recommendation.

The Commission considered and approved out-of-state travel expense for the following:

1. F. B. Crandall, Traffic Engineer, to attend meeting of the Highway Research Board at Chicago, Illinois, June 15 and 16, 1954 and a meeting of the Board of Directors of Traffic Engineers at Detroit, Michigan, June 17 and 18, 1954 at an estimated cost of $325.

2. L. E. George of the Traffic Engineering Division to attend Annual Northwest Conference of International Municipal Signal Association in Bellingham, Washington, June 23 to 26, 1954 at an estimated cost of $60.

3. R. H. Baldock, State Highway Engineer, to attend Executive Committee of American Association of State Highway Officials in Washington, D. C., June 8 and 9, 1954 at an estimated cost of $345.

4. George C. Hester, Administrative Assistant, to attend meeting of Highway Research Board Subcommittee regarding highway costs in Chicago, Illinois, May 13 and 14, 1954 at an estimated cost of $250.

5. W. C. Williams to Malad, Idaho concerning operation of test road, June 13 and 14, 1954 at an estimated cost of $105.

Chairman Chandler brought up the matter of road trips to be taken by the Commission during the coming summer. He suggested that the members of the Commission provide the Engineer with a list of dates on which they are not available and that he prepare from this list an itinerary for proposed trips.

The Engineer reported that traffic difficulties are being experienced at the channelized junction of US 101 and the Coos River Secondary Highway in Bunker Hill, south of the City of Coos Bay. The difficulty, he stated, stems from friction developed by the westbound traffic entering the intersection from the Coos River Highway and vehicles parking and unparking along the northerly curb line of the roadway section. To eliminate this situation, he recommended that a no parking zone be made effective along the northerly curb line of the Coos River Secondary Highway from the westerly property line of Mullen Street to a point 100 feet west of the west property line of Center Street. The Commission approved the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "H-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also called attention to a hazardous condition that exists on the Pacific Highway at the Med-O-View Auction about five miles south of Junction City. An investigation conducted on a typical Sunday showed a number of parked cars on the highway shoulders. Investigation also disclosed there had been four accidents in this section from January 1, 1949 to December 31, 1953, and that most of the vehicles travel at a high rate of speed. He, therefore, recommended that a no parking on highway shoulders zone be established on both sides of the Pacific Highway between M. P. 113.81 and M. P. 114.01. The Commission approved the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "H-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Reimbursement of the West Coast Telephone Company for the cost of moving its telephone facility on the Hauser-Lakeside Section of the Oregon Coast Highway was presented by the Engineer. After the phone line had been moved, the Bureau of Public Roads determined that due to lack of proper drainage it would be necessary to move one of the poles again. The Telephone Company moved the pole but objected to absorbing the cost and has submitted a bill in the amount of $115.71. It was his opinion that the Telephone Company was not at fault, and he recommended that the bill be paid. The Commission approved the payment.

Consideration was given to a letter from Mr. Terry D. Schrunk, Sheriff of Multnomah County requesting that emergency access roads be provided to the Banfield Expressway in the vicinity of 102d Avenue and 122d Avenue. In discussing this request the Engineer explained that the accesses were requested for emergency police use to take care of serious accidents or fires on the Expressway. After further consultation with Sheriff Schrunk, it was felt that the 122d Avenue access is the most critical, and he recommended that access be granted at this location with a locked gate to be used only by the police and fire departments in case of emergency. The Commission approved the recommendation.

Consideration was given to a form of resolution covering extension of the Havana-Helix Secondary Highway No. 335 southerly from its connection with the old route of the Oregon-Washington Highway to a connection with the new route of the

same highway. He recalled that it had been previously agreed with the Umatilla County Court to take this action, and he recommended that the resolution be adopted. The Commission accepted the recommendation by adoption of the attached resolution relative thereto marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer presented for Commission action four resolutions covering abandonment of rights of way in connection with construction of new sections of state highways. These new sections, he pointed out, have now been opened to public travel and under provisions of the agreements previously entered into with the various counties, the old sections of highways are to be turned over to the jurisdiction of the respective counties. He recommended abandonment of portions of the following sections of old state highways:

1. The East Unit, Deschutes County Line-Prineville Section of the O'Neil Secondary Highway in Crook County. (See Exhibit "J-1")

2. The Lostine Section of the Wallowa Lake Highway in Wallowa County. (See Exhibit "J-2")

3. The Lake of the Woods Junction-Rocky Creek Section of the Klamath Lake Secondary Highway in Klamath County. (See Exhibit "J-3")

4. The Rocky Creek-Wocus Marsh Section of the Klamath Lake Secondary Highway in Klamath County. (See Exhibit "J-4")

The Commission approved the recommendation by adoption of the attached resolutions relative thereto marked EXHIBITS "J-1" through "J-4", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

A form of agreement with Wasco and Jefferson Counties was discussed providing for abandonment to the counties of old rights of way in connection with construction of the Sherman Junction-Willowdale Section of The Dalles-California Highway in Wasco and Jefferson Counties. Under provisions of the agreement, the Engineer reported, the counties have agreed to take over certain portions of the old highway when the newly constructed section is completed and opened to public travel. He recommended that the agreement be approved. The Commission accepted the recommendation.

A request from the City of Port Orford was considered for the installation of school bus loading and unloading signs between Silver Springs and Port Orford on the Oregon Coast Highway. An investigation was made by the Traffic Engineering Department, the Engineer reported, disclosing that no particular benefit would be gained by the installation of the requested signs. Motorists, he stated, are now becoming accustomed to stopping when school buses are loading or unloading passengers. In this particular instance he commented that the school bus driver appeared to be very alert and cautious in handling the bus and the children. On the basis that the installation of the signs would be of no value, he recommended, and the Commission approved, that the request be denied.

Attention was given to a form of agreement with the City of Scappoose pertaining to the maintenance of landscaped areas on the Columbia River Highway within the city. The Engineer recalled that when the highway was improved through Scappoose, several grass islands were constructed as a part of the project which the City Council verbally agreed to maintain, but no written agreement was ever entered into. Maintenance of the islands, he stated, has not been satisfactory, and he recommended the State take over the maintenance of these islands under a written agreement in which the City will agree to provide water without cost to the State. The Commission approved the recommendation.

Settlement of a claim presented by Mr. Jack D. Colburn for a toilet bowl broken by a rock was given consideration. The Engineer reported that one of the survey parties while working in Mill City accidentally dislodged a rock which rolled down the hill and broke the toilet bowl which was stored on the property of Mr. Colburn. Mr. Colburn, he stated, has presented a bill for $15, and he recommended that it be paid. The Commission approved the payment.

A compromise settlement for damage to Mr. Wayne Lister's automobile was also considered. The Engineer reported that the car had been struck by a shovelful of sand thrown by a member of a maintenance crew while sanding bleeding oil near Gold Beach in July, 1953. Mr. Lister's insurance company submitted a bill in the amount of $177.37 which was considered excessive. The insurance company, he stated, has now agreed to accept one-half of this amount, or $88.69, and he recommended that the claim be settled for that amount. The Commission approved the settlement.

A proposed agreement with Charles J. Austin and Sara Davis for installation of a tide gate on a new drainage structure under the Coos River Secondary Highway was given consideration. The Engineer reported that it had been found necessary to replace an existing inadequate wooden structure at this location to which a tide gate was attached. An agreement has been reached in which Austin and Davis agree to furnish the tide gate without cost to the State and the State will install it on the new structure; also Austin and Davis agree to maintain and operate the tide gate in the future. Upon the Engineer's favorable recommendation, the Commission approved the agreement.

A request from the Bureau of Land Management for temporary access at certain points on The Dalles-California Highway between Bend and Lapine and for permanent access points as necessary to connect with fire control roads was discussed. In acquiring right of way on this section, the Engineer explained that the Bureau of Land Management had granted necessary right of way for construction of the highway, but there was no reference to access control. The points of access that they request are those necessary for the harvesting of timber and to connect with fire control roads. The Bureau of Land Management, he stated, has cooperated whole-heartedly in the matter, and he recommended that access points be granted as requested when the need for the same is determined at which time permits are to be granted good during the period of timber removal, except for those access points that must be permanent to serve fire patrol roads. The recommendation was approved.

The Commission approved the Secretary's Report showing papers signed by him and the Assistant Secretary in behalf of the Commission during the period

March 30, 1954 through May 6, 1954.

The Commission confirmed the dates of June 23 and 24, 1954 as the date for the next Commission meeting to be held in the Imperial Hotel, Portland. A tentative date of August 9 and 10 was set for the meeting following.

Attention was given to a request from the State Board of Forestry for erection of a textboard on the Wilson River Highway in the N. S. Rogers State Forest in the Tillamook Burn in memory of former State Forester N. S. Rogers who promoted reforesting of the burn. The proposed location, the Engineer commented, indicates no obstruction to sight-distance and the textboard could be located approximately one hundred feet from the center line of the highway. He recommended approval of the installation with the understanding that the State Board of Forestry will clear and level the land and with the further understanding that the text to be placed on the board is to be cleared with the Memorials Committee of the Oregon Historical Society. The Commission accepted his recommendation.

The Commission discussed with the Engineer the bids received during the morning session for highway construction, and at 4:30 p.m. Commissioner Reynolds publicly announced the Commission's decisions with respect to each project as follows, the Commission's decisions being by unanimous vote:

"Marine insurance for the Astoria-Megler Ferry: The contract was awarded to the low bidder, Durham & Bates, Portland, at their bid price of $8,510.87.

"Construction of Addition to Trailer Shelter at Timberline Junction on the Mt. Hood Highway in Clackamas County: All bids were rejected on this project.

"Construction of eight structures on Willamette River-Gervais Unit of the Portland-Salem Expressway in Clackamas and Marion Counties: The Commission awarded the contract to the low bidder Birkemeier & Saremal, Portland, at their bid price of $218,140.00.

"Rock or gravel surfacing on the Enegren Ferry-Marlow Creek Section of the Coos River Highway about six and one-half miles east of Coos Bay in Coos County: The Commission awarded the contract to the low bidder, E. C. Swaggart, Eugene, at his bid price of $39,362.50.

"Brush Creek-Greggs Creek Fencing Project on the Oregon Coast Highway in Curry County: The Commission awarded the contract to Mark Smith & Co., Klamath Falls, the low bidder, at their bid price of $19,580.00.

"Construction of Rock Point Viaduct on the Rocky Point-Brush Creek Unit of the Oregon Coast Highway south of Port Orford in Curry County: The Commission awarded the contract to the low bidder, Wall, Bartram and Sandford, Junction City, at their bid price of $120,465.00.

"Grading on the Booth Ranch Unit, Shady-Canyonville Section of the Pacific Highway about two miles north of Myrtle Creek in Douglas County: The Commission elects to accept the bid of Berke Brothers and C. R. O'Neil, Pendleton, in the sum of $165,015.00 and the State Highway Engineer is directed to award

the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Myrtle Creek (1st Street) Paving Project in Douglas County: The Commission awarded the contract to the low bidder, Roseburg Paving Company, Roseburg, at their bid price of $7,505.00.

"Riddle (Front Street) Grading and Paving Project in Douglas County: The Commission elects to accept the bid of Roseburg Paving Company in the sum of $13,606.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Riddle is received and the sum of $750.00 is deposited by the City.

"Condon (Highway and City Streets) Grading and Paving Project in Gilliam County: The Commission elects to accept the bid of Coast Blacktop Paving Company, Bend, in the sum of $35,731.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Condon is received and the sum of $5,200 is deposited by the City.

"Siskiyou Slide Correction and Rock Production Project on the Pacific Highway south from Ashland in Jackson County: The Commission awarded the contract to M. C. Lininger & Sons, Medford, the low bidder, at their bid price of $95,230.50.

"Installation of Ashland Traffic Signals on the Pacific Highway at East Main and Second Streets in Jackson County: The Commission awarded the contract to Trowbridge & Flynn Electric Company, Medford, the low bidder, at their bid price of $3,796.00.

"Merrill (Monroe, 3d and Washington Streets) Paving Project in Klamath County: The Commission elects to accept the bid of the Asphalt Paving Company, Klamath Falls, in the sum of $16,950.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Merrill is received and the sum of $4,400 is deposited by the City.

"Construction of OP & ER Overcrossing near Cottage Grove on the Pacific Highway in Lane County: The Commission elects to accept the bid of The Central Heating Company, Inc. Oreg. Ltd., in the sum of $26,785.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of Crabtree Creek Bridge Section of the Albany-Lyons Secondary Highway in Linn County: The Commission awarded the contract to Hamilton & Thoms, Eugene, the low bidder, at their bid price of $71,624.50.

"Brownsville (Linn Street) Grading and Paving Project in Linn County: The Commission elects to accept the bid of P. B. Doherty & Son, Portland, in the sum of $15,344.70 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Brownsville is received and the sum of $3,100.00 is deposited by the City.

"Grading and oiling Hy-Line Road Section of the Hy-Line County Road between the Weiser and Payette Spurs north of Ontario in Malheur County: The Commission elects to accept the bid of C. E. Leseberg, Myssa, in the sum of $139,557.36 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Malheur County and the Bureau of Public Roads is received and the sum of $31,400 is deposited by the County.

"Construction of Malheur River Bridge on the Central Oregon Highway east of the City of Vale in Malheur County: The Commission awarded the contract to the low bidder, George E. Berry, Beaverton, at his bid price of $69,760.00.

"Buchanan-Vale Rock Production on the Central Oregon and Vale-West Highways between Burns and Vale in Malheur and Harney Counties: The Commission awarded the contract to C. E. Leseberg, Nyssa, the low bidder, at his bid price of $67,130.00.

"Umatilla ("K" Street) Grading and Paving Project in Umatilla County: The Commission awarded the contract to Leslie Harris, Pendleton, the low bidder, at his bid price of $6,772.00.

"Oiling on the West Unit, Alicel Junction-Cove Section of the Lower Cove County Road about 4 miles north of Island City in Union County: The Commission elects to accept the bid of Russell Olson Construction Company, Inc., in the sum of $34,159.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Union County and the Bureau of Public Roads is received and the sum of $7,600 is deposited by the County.

"Grading and paving; also 120 feet concrete bridge on the Sherman Junction-Willowdale Section of The Dalles-California Highway about 19 miles north of Madras in Wasco and Jefferson Counties: The Commission elects to accept the bid of J. W. Briggs, Bend, in the sum of $693,998.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Rock base and oiling on the Big Eddy-Rufus Section of the Columbia River Highway about 3 miles east of The Dalles in Wasco and Sherman Counties: The Commission elects to accept the bid of Rogers Construction Company, Portland, in the sum of $365,311.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Amity (6th and Stanley Streets) Grading and Paving Project in Yamhill County: The Commission elects to accept the bid of O. C. Yocom Company, McMinnville, in the sum of $14,296.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Amity is received and the sum of $1,900 is deposited by the City."

Chairman Chandler complimented Mr. Carl Jordan, Director of the Travel and Information Department, for the fine issue of the Oregon Outdoor Guide and also those people responsible for preparation of the 1954 State High-

way Road Map.

Commissioner Reynolds inquired of the Engineer if a route number could be assigned to the highway extending from Stanfield to Hermiston to Umatilla. The Engineer was instructed to investigate the matter and submit a report.

The Commission discussed with the Engineer a proposed forest highway program. The Engineer called attention to those projects listed in his letter of April 30, 1954, totalling $2,600,000. He explained details concerning each of the projects and suggested that the Forest Service and the Bureau of Public Roads be requested to construct them as soon as possible. Forest Service officials, he stated, have already called to his attention that they will object to early construction of the Neskowin-Otis Section of the Oregon Coast Highway. Action was deferred pending appearance of representatives of the Forest Service and the Bureau of Public Roads on the next day.

The meeting was adjourned at 5:00 p.m. to reconvene at 9:00 a.m. the following day.

Portland, Oregon
May 12, 1954

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Green Room of the Imperial Hotel with the following persons present and participating:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
Floyd Query, Assistant Secretary

Mr. H. B. Glaisyer, Secretary, was absent on vacation.

Bids, as follows, for highway construction were opened and read aloud by the Assistant Secretary who then announced that the Commission would award contracts at 4:00 p.m:

BAKER COUNTY
GRADING AND OILING ROCK CREEK COUNTY ROAD

Stephens & Carnes, Junction City	$42,575.30
Arthur Simonsen, Baker	43,557.00

CLACKAMAS COUNTY
OCHOCO AVENUE AND O.L.C.C. FRONTAGE ROAD

K. F. Jacobsen & Company, Inc., Portland	$32,475.90
Inland Construction Company, Milwaukie	33,767.00
Q. L. Rufener, Portland	35,269.00
Logan, Taylor & Company, Portland	35,907.90
Portland Road & Driveway Company, Portland	36,593.50
Parker-Schram Company, Portland	37,633.10
Erland & Blickle, Portland	38,345.40

COLUMBIA RIVER HIGHWAY IN COLUMBIA COUNTY
PAVING CLATSKANIE-DELENA SECTION

Rogers Construction, Inc., Portland	$289,179.00
Parker-Schram Company, Portland	321,635.50
Warren Northwest, Inc., Portland	321,703.00
Newport Construction Company, Portland	331,369.00
J. N. Conley, Portland	334,082.50
Acme Construction Company, Eugene	336,813.00
McNutt Brothers, Eugene	340,704.00
F. H. McEwen, Eugene	346,533.00
Porter W. Yett, Portland	369,934.00
Peter Kiewit Sons' Company, Longview, Washington	376,664.00

PAULINA HIGHWAY IN CROOK COUNTY
GRADING AND PAVING WEST UNIT, EAGLE ROCK-POST SECTION

The Central Heating Company Oreg. Ltd., Eugene	$162,637.00
C. C. Meisel, McMinnville	163,745.00
F. H. McEwen, Eugene	164,031.00
P. B. Doherty & Sons, Portland	165,163.60
Calkins Crushing Company, Oceanlake	165,390.00
Rogers Construction, Inc., Portland	167,081.00
Homer G. Johnson, Portland	167,971.00
Barney B. Helser, Moro	171,837.00
Vernie Jarl, Gresham	172,536.00
Parker-Schram, Portland	177,314.00
McNutt Brothers, Eugene	186,927.50
J. N. Conley, Portland	188,364.00
Newport Construction Company, Portland	194,341.00

May 11, 1954

CURRY COUNTY
BROOKINGS PAVING PROJECT

K. F. Jacobsen & Company, Inc., Portland	$14,175.00
Rogue River Paving Company, Grants Pass	14,410.00
Western Paving & Construction Company, Albany	15,202.00
Arthur D. Lawn, Smith River, California	15,892.00
Peter Kiewit Sons' Company, Longview, Washington	16,652.00
Coast Blacktop Paving Company, Bend	18,350.00

DOUGLAS COUNTY
SUTHERLIN GRADING AND PAVING PROJECT

K. F. Jacobsen & Company, Inc., Portland *	$11,120.50
J. C. Compton Company, McMinnville	13,490.00
Roseburg Paving Company, Roseburg **	14,657.50

* Bidder will make reduction of $200.00 if also awarded the Oakland Paving Project.

** Bidder will accept award of this project only in combination with the Sutherlin Paving Project.

DOUGLAS COUNTY
OAKLAND GRADING AND PAVING PROJECT

K. F. Jacobsen & Company, Inc., Portland	$ 6,173.00
J. C. Compton Company, McMinnville	6,758.00
Roseburg Paving Company, Roseburg *	7,572.00

* Bidder will accept award of project only in combination with Sutherlin Project.

DOUGLAS COUNTY
GLENDALE GRADING AND PAVING PROJECT

Roseburg Paving Company, Roseburg	$ 8,790.00
Rogue River Paving Company, Grants Pass	9,370.00

DOUGLAS COUNTY
REEDSPORT PAVING PROJECT

K. F. Jacobsen & Company, Inc., Portland	$ 8,937.50
J. C. Compton Company, McMinnville	9,400.00
Baker Paving Company, Coos Bay	11,630.00

May 11, 1954

JACKSON COUNTY
BEAVER CREEK AND FOREST CREEK BRIDGES

C. P. Patterson, Redmond	$28,780.00
Ausland & Dodson, Grants Pass	29,640.00
Lind & Marr Construction Company, Beaverton	29,650.00
Bessonette & Graff, Medford	30,970.00
Minshall Construction, Jacksonville	31,280.00
Johnson & Amens, McMinnville	31,320.00
The Central Heating Company, Oreg. Ltd., Eugene	31,520.00
H. Barnhart, Medford	31,633.20
R & M Construction Company, Central Point *	32,495.00

* Bidder will not accept projects totaling more than $75,000

JACKSON COUNTY
NEIL CREEK AND JACKSON CREEK CULVERTS

R & M Construction Company, Central Point *	$15,340.00
F. L. Somers, Medford	16,330.00
Bessonette & Graff, Medford	16,370.00
Minshall Construction, Jacksonville	16,380.00
Ausland & Dodson, Grants Pass	16,630.00
Wiley Company, Ashland	16,777.50
The Central Heating Company Oreg. Ltd., Eugene	19,095.00
Wall, Bartram & Sandford, Junction City	19,300.00
H. Barnhart, Medford	20,361.60
Johnson & Amens, McMinnville	20,502.50
C. P. Patterson, Redmond	20,710.00

* Bidder will not accept projects totaling more than $75,000

JACKSON COUNTY
BEAR CREEK BRIDGE ON UPTON ROAD

The Central Heating Company Oreg. Ltd., Eugene	$52,439.00
Bessonette & Graff, Medford	52,780.00
Murray Brothers Construction Company, Bend	53,295.00
R & M Construction Company, Central Point *	54,065.00
Wall, Bartram and Sandford, Junction City	56,025.00
Lind & Marr Construction Company, Beaverton	61,560.00
Hannan Brothers Company, Portland	63,525.00
H. Barnhart, Medford	64,696.56

* Bidder will not accept projects totaling more than $75,000

May 11, 1954

KLAMATH COUNTY
GRADING AND PAVING THE DALLES-CALIFORNIA HIGHWAY

Rogers Construction, Inc., Portland	$544,349.00
J. W. Briggs, Bend	549,684.00
Steelman-Duff, Inc., & George E. Blaisdell & Son Construction Company, Portland	564,891.00
Babler Brothers, Inc., Portland	571,542.00
White Brothers Company, Walla Walla, Washington	593,693.00
Parker-Schram Company, Portland	599,258.50
Peter Kiewit Sons' Company, Longview, Washington	608,995.00
The Central Heating Company Oreg. Ltd., Eugene	609,729.50
Inter City Sand & Gravel Company, Eugene	610,042.00
McNutt Brothers, Eugene	615,626.50

THE DALLES-CALIFORNIA HIGHWAY IN KLAMATH COUNTY
PAVING KIRK ROAD-SPRING CREEK HILL SECTION

Acme Construction Company, Eugene	$88,721.00
Babler Brothers, Inc., Portland	91,990.00
The Central Heating Company, Oreg. Ltd., Eugene	105,467.00

KLAMATH COUNTY
MODOC POINT-BARKLEY SPRINGS SLOPE GRADING PROJECT

F. O. Laws, Salem	$37,000.00
White Brothers Company, Walla Walla, Washington	42,325.00

F. L. Somers, Klamath Falls	54,490.00

LANE COUNTY
GOSHEN-DIVIDE FENCING PROJECT

Kissell & Robinson, Caldwell, Idaho	$59,857.00
Colorado Fuel & Iron Corporation, Pacific Coast Div., Portland	62,380.59
San Jose Steel Company, Portland	70,640.00
McWaters & Bartlett, Boise, Idaho	70,987.00
Sprague-McDowell Company, Seattle, Washington	73,570.00
Van Tassel Brothers, Terrebonne	79,474.00
Mark Smith & Company, Klamath Falls	80,095.00
Anderson & Toretta, Walla Walla, Washington	84,601.57

ALSEA-DEADWOOD HIGHWAY IN LANE COUNTY
GRADING AND SURFACING PARIS SECTION

Coast Construction & Excavating Company & Jeske Brothers Construction Company, Junction City	$22,755.00

May 11, 1954

Paris Section of the Alsea-Deadwood Highway (cont.)

A. L. Harding, Inc., Eugene	$25,717.50
Jed Wilson, Seaside	31,240.00
T. M. Nielson, Deadwood	31,300.80
Glen Ousley, Eugene	38,365.00

LINN COUNTY
ONE HORSE SLOUGH BRIDGE

Orlando C. Bennard, Portland	$15,040.00
C. P. Patterson, Redmond	15,515.00
A. H. Saxton & Son, Corvallis	16,840.00
Lind & Marr, Beaverton	16,910.00
R. H. Jones, Hillsboro	16,930.00
Hamilton & Thoms, Eugene	18,090.00
Glen Snook, Eugene	19,070.00
Wall, Bartram & Sandford, Junction City	19,115.00
United Builders, Inc., Beaverton	19,235.00
Valley Construction Company, Portland	19,430.00
The Central Heating Company Oreg. Ltd., Eugene	20,040.00

MARION COUNTY
DETROIT PAVING PROJECT

Warren Northwest, Inc., Portland	$ 7,261.50
Daniels & Son, Mulino	8,110.00

MULTNOMAH COUNTY
BANFIELD EXPRESSWAY UNDERCROSSING OF 47TH AVENUE

Schrader Construction Company, Portland	$125,800.00
United Builders, Inc., Beaverton	133,872.00
Lee Hoffman, Beaverton	133,925.00
Valley Construction Company, Portland	138,065.00

McNutt Brothers, Eugene	161,164.00

TILLAMOOK COUNTY
BAY CITY PAVING PROJECT

United Contracting Company, Portland	$ 6,291.00

A delegation representing the Bureau of Public Roads and the U. S. Forest Service came before the Commission to discuss the forest highway program. The following people were present: representing the Bureau of Public Roads, F. E. Andrews, Portland, Division Engineer; R. N. Kellogg, Portland, Assistant Division Engineer; and C. G. Polk, Salem, District Engineer; representing the U. S. Forest Service, R. F. Grefe, Portland, Regional Engineer; William L. McDonald, Portland, Principal Assistant to Regional Engineer. Mr. Andrews stated that there was available for the 1955 fiscal year apportionment the sum of $2,785,000. The projects as listed in the Engineer's letter of April 30, 1954 were discussed at length. The following program was finally agreed upon with the understanding that a study is to be made of improving the Laurel Hill Section of the Mt. Hood Highway in some future program:

FOREST HIGHWAY PROGRAM FOR THE FISCAL YEAR 1954

REVISIONS APPROVED

Project and Account No.	Present Program: Route Name, Type of Work and Mileage	Present Program: Amount	Recommended Revision: Type of Work and Mileage	Recommended Revision: Amount	Recommended Increase
9-A4, E4, C1 (3020-00)	Oregon Coast Hwy Surf. & Bit Paving 8.8 Mi.	500,000	Surf. & Bit. Paving 8.5 Mi.	700,000	200,000
10-C1 (3070-00)	Oregon Coast Hwy. Grading 8.0 Mi.	840,000	Grading 8.44 Mi.	1,000,000	160,000

(3127-00)	Location Survey		100,000
(3128-00)	Maintenance		150,000
	Total allocations to new projects		$1,600,000

May 12, 1954

(For further details in regard to these projects, see U. S. Forest Service letter, dated May 19, 1954 in the General Files.)

Mr. Roy Dunn, President of the South Tillamook Coast Road Committee, and Mr. A. H. Lindberg, member of the same committee, appeared before the Commission to request improvement of the Little Nestucca Secondary Highway. Mr. Dunn read from a resolution enumerating points in favor of improving the highway. He pointed out that the road had been built in the late 1880's and had been improved but little, excepting the construction of three new bridges. He also pointed out that there is a three-mile section on this road which is single lane construction with turnouts provided at infrequent intervals. Chairman Chandler informed the delegation that no money is available at this time, and before money could be expended it would be necessary to conduct a survey to determine the cost and the priority for the improvement. Consideration, he stated, will be given to their request when the secondary program is formulated this fall or early winter.

The meeting was recessed at 12:00 noon to reconvene at 1:30 p.m. in the same room with the same persons present and participating.

During the noon hour, Mr. Alfred Adler from Creswell discussed with the Commission the proposed acquisition of his property in connection with the construction of the Pacific Highway near Creswell. Chairman Chandler informed him that a right of way man would be sent to discuss the matter with him in a few days.

Mrs. W. R. Stevens and Mrs. Joseph Johnson from Lyons and E. G. Husted from Mehama came before the Commission concerning construction of a sidewalk on the North Santiam River Bridge at Mehama. Mrs. Stevens protested an article which appeared in today's newspaper stating that the Commission had denied the request on the previous day. She pointed out that the bridge is exceedingly narrow and few pedestrians cross the bridge because of the extreme danger. The bridge, she stated, lies between two growing communities and people who would ordinarily walk across the bridge generally drive their cars for reasons of safety. Mr. Husted called attention to a large number of school children in the area who have occasion to cross the bridge but must do so in a vehicle of some sort to avoid the danger of walking on the narrow structure. Chairman Chandler stated that a report had been made to the Commission by the Engineer showing that the pedestrian traffic on the bridge was decreasing, that the cost of constructing the sidewalk is high, and on the basis of these findings, construction did not appear to be warranted; however, he added, the Engineer will be requested to reinvestigate the matter and submit an additional report.

Chairman Chandler stated that Mr. Reynolds had brought up the point as to what obligation the State has to provide a bridge safe for vehicle traffic and for pedestrians and, specifically, if the State has a legal right to spend gas tax funds to construct a sidewalk on a bridge. The Chief Counsel stated that if an adequate facility is provided, the State has dsicharged its obligation. He pointed out that bridges are constructed for pedestrians' use as well as for vehicles, and under the law the State has authority to build sidewalks on bridges.

A delegation from Condon, Canyon City, Prairie City, John Day, Arlington,

Rufus, Moro and Fossil appeared before the Commission concerning construction of the John Day Highway and the Wasco-Heppner Highway between Dayville Junction east of Dayville and Miller on the Columbia River Highway. The following people were present: E. R. Fatland, Temporary President, John Day Highway Association; Van Rietmann, member of Condon Commercial Club and IGO Grange and Jerry Schreiner, member of Condon Commercial Club, all of Condon; O. L. Dickens, Grant County Judge, Canyon City; Erving Stanbro, President-elect, John Day Highway Association, Prairie City; Fred Lemcke, Member of John Day Highway Association and Frank Chester, member of John Day Chamber of Commerce, both of John Day; Frank M. Weatherford, Gilliam County Commissioner, Arlington, Charles A. Tom, State Representative, Rufus; C. A. Tom, Sherman County Judge, Moro; Robert Misner and R. M. Boyles, members of Fossil Community Club, and O. E. Mathews, Wheeler County Judge, all of Fossil. Mr. E. R. Fatland acted as spokesman and introduced the various members of the delegation. He emphasized the point that whereas in the past there had been many divergent views concerning improvement along this route, all of the people in this delegation agree on the proposed improvement. State Representative C. A. Tom urged improvement so that better transportation facilities could be afforded, particularly the section from John Day River to Hay Canyon. County Judge C. A. Tom stated that his people were principally interested in the section from Cottonwood Grade north and west to The Dalles-California Highway. County Commissioner Frank M. Weatherford spoke in behalf of improving the section from Condon to Mayville. Mr. Van Rietmann stated that the rate of expenditure on the Wasco-Heppner Highway from Condon north should be continued to provide further improvement. Mr. Jerry Schreiner pointed out that the section of highway between Condon and Dayville is in bad shape. County Judge O. E. Mathews of Wheeler County pointed out that in years past the County had floated a bond issue to construct the road and that it has been improved but little since that time. Wheeler County, he stated is much in favor of improving the highway. Mr. Robert Misner called attention to the fact that the country traversed by the existing highway does not have the services of a railroad except to Condon and produce and supplies to and from the Kimberly and Spray areas must be hauled by truck. Mr. Boyles emphasized the isolated character of the town of Fossil as being dependent upon highway transportation. County Judge O. L. Dickens, Grant County, stated that his county is also in favor of the improvement and pointed out the advantages of the water grade route of the highway in hauling cattle to Portland. Trucks, he stated, do not use the Ochoco Highway because of the high summit. Mr. Stanbro emphasized the need for a better highway to market cattle. Mr. Lemcke of Seneca stated that hauling cattle by truck to Portland is quicker than by rail with the subsequent reduction in shrinkage, and improvement of the road would provide an even better facility. Mr. Barrett urged improvement of Route 206 from Condon to the Columbia River Highway.

Chairman Chandler stated that to complete improvement of US 30 to Ontario will cost many million of dollars. A reconnaissance survey, he stated, showed that it would cost about $5,000,000 to modernize the John Day and Wasco-Heppner highways from Dayville Junction north. There is still some question, he added, as to whether the climb over the Butte Creek Summit and north to the Columbia River Highway or to follow US 26 affords the best highway route. Commissioner Reynolds stated that personally he favored the route via the Columbia River and felt that traffic would follow the improvement. Careful consideration,

he stated, will be given to the delegations's request. He also called attention to the increased cost of construction in the last few years and to the fact that it would take around five or six million dollars of highway revenues per year to retire the highway bonds. He suggested to the delegation that they consider seriously the advisability of increasing the gasoline tax to provide additional revenues for highway construction.

Morrow County Judge Garnet Barratt headed a delegation which appeared before the Commission concerning the allocation and distribution of federal aid secondary funds. Others present were: Aubrey H. Bond, Benton County Commissioner, Corvallis; M. J. Gleason, Multnomah County Commissioner, Portland; J. C. Minson, Crook County Commissioner, Prineville; Lloyd Rea, Baker County Judge, Baker; Dean Erwin, Wallowa County Judge, Enterprise; and Elmer Metzger, Douglas County Commissioner, Roseburg. Mr. Barratt stated that as president of the Association of Oregon Counties he wished to determine if any change is contemplated in the present 60-20-20 basis of allocation. Mr. Aubrey H. Bond, Benton County Commissioner, read a letter stating among other things that it is the predominant sentiment of the County Courts that the 60-20-20 distribution of FAS funds is fair and should be continued unchanged. The counties, he stated have noted that the federal government is committed to increasing funds available for FAS projects for the next two years, and the counties are apprehensive lest such action would lead to a reduction in state participation. Chairman Chandler pointed out that under the matching plan it would be necessary for both the state and the counties to provide additional matching funds, and he did not know at this time if the state could do so; however, no thought, he stated, has been given to any plan other than the present basis of 60-20-20. The addition of 2 cents to the state gas tax, he commented, would materially help the situation. No formula other than the 60-20-20 basis has been considered, and he assured the delegation that if another basis of allocation is to be considered, they would be granted ample time for a hearing.

Mr. Earl Snyder, Director of the Oregon State Board of Aeronautics, came before the Commission to request permission for private fliers to land on certain sections of the Oregon beaches. He stated that this problem had been discussed with a number of flying clubs, and they wished to request the use of certain sections on the beach for specified periods of time, probably a day or so. It is planned under this arrangement to send one flier in beforehand to outline and mark the section to be used for landing and to police the area. He felt that such an arrangement would meet the obligation of the private fliers without compromising the safety of persons using the Oregon beaches. Chairman Chandler stated that the principal objection to use of the beaches by planes was due to the danger involved to people on the beach, and it was his opinion that the Commission might not object to the use of certain sections on the Oregon beaches under the terms outlined, provided that the areas were adequately policed. The Commission, he stated, will give the matter further thought, and when a decision has been reached, the Commission's Secretary will advise him further.

A delegation from the town of Grass Valley came before the Commission to request full width paving or oiling of The Dalles-California Highway on a two-block section within the city. The following people were present: B. C. Baumgartner, Mayor; C. W. Fields, Archie Cantrall, William Johnson, Kenneth Crews and Bruce Alley, councilmen; and Wallace May and James Easter, property owners. Mr. B. C. Baumbartner, Mayor, acted as spokesman and introduced other members of the dele-

gation. He stated that under present conditions, mud is deep when it rains and the dust is deep when the weather is dry. He called attention to the towns of Wasco and Moro in which the towns had installed curbs and the Highway Department had paved the road to the curb line. Grass Valley, he stated, in anticipating similar treatment had removed a number of trees from the right of way and had installed curbs on a two-block section along the highway at a cost to the City of about $7,000. Also, the City had placed about 100 cubic yards of rock between the curbs and the existing pavement to bring the section up to grade. Chairman Chandler inquired of the Engineer as to how such an improvement would tie into future improvements on US 97 in that area. The Engineer replied that an investigation would be necessary. After some further discussion, the Commission instructed the Engineer to prepare a report on the matter, including in the report any possibility of a by-pass route.

A delegation composed of the following people appeared before the Commission to urge full width paving of the Salmon River Highway through the town of Willamina: Earl L. Richardson, H. A. Parrett, Virgil Heider, Frank Barratt, Robert Shipley, Walter Smith, Ed Moehlman, John L. Shetterly, Joe Aase, John Leger, and O. J. Daniels, businessmen, Willamina; Allen Louden, banker, Willamina; Dr. Otis Barr, Willamina; Carl John, Willamina City Councilman; Mrs. H. A. Parrett, Mary Hendrickson and Mrs. Virgil Heider, Willamina; M. L. Walden, banker, Oceanlake; Eugene E. Marsh, lawyer, McMinnville; O. C. Yocom, contractor, McMinnville; and E. L. Ellingsworth, retired, McMinnville. State Senator Eugene E. Marsh acted as spokesman for the group. He pointed out that the City was proceeding with plans for street improvements at a cost to the City of about $71,000 and the delegation is requesting the State to pave the highway section through the City to conform with standards of work being performed by the City. Construction of a by-pass, he stated, is realized as a possibility, but residents of Willamina feel that the City is entitled to the work requested as very little money has been spent by the State on the highway within the City. Due to the number of people in the town and the industries involved, it was his feeling there would still be a great deal of traffic on the old section of road even though a by-pass was constructed. He called attention also to the fact that the City has bonded itself to the limit of its capacity to improve City streets. Chairman Chandler stated that due to the nature of the existing route through the City, the Commission doubted if it would be feasible to fix it up for purposes of State highway traffic, and it appeared that a by-pass route would eventually be constructed. Construction of the by-pass route, he stated, also raises the question of justifying an expenditure on the old route within the City. The matter, he added, will be given further consideration. The Engineer was requested to make a report of the cost on the widening of a minimum section of the street.

A delegation from Deschutes County headed by County Judge C. L. Allen came before the Commission requesting improvement of US 126 between Redmond and Sisters. The following people were present: C. L. Allen, Deschutes County Judge, Bend; E. E. Varco and A. E. Stevens, Deschutes County Commissioners, Bend; Morris Robert, Chairman, Roads Committee of the Redmond Chamber of Commerce; James L. Brown, member of the Roads Committee of the Redmond Chamber of Commerce; M. A. Lynch, member of the Redmond Chamber of Commerce; and Gerald Benson, City Recorder, Sisters. Judge Allen

introduced the members of the delegation and Mr. M. A. Lynch, former Highway Commissioner, acted as spokesman. He pointed out that the highway between Redmond and Sisters had been constructed many years ago and few improvements made since. Two bridges in this section, he stated, are very narrow and dangerous, and the alignment of the highway should be improved in certain locations. In addition to agricultural products and freight transported over this road, there is a great deal of log haul. He requested the Commission to place improvement on the program for the next year. Judge Allen pointed out that school buses do not use the section in winter time because of the narrow bridges. Chairman Chandler stated that the Commission intends to look at the section on the following week-end when they attend the dedication ceremonies for the new highway buildings at Bend.

A delegation representing the Oregon Development Commission came before the Commission regarding mutual cooperation and responsibilities affecting the Highway and the Development Commissions. The following people were present: Joseph W. Smith, Portland, Vice-Chairman, Oregon Development Commission; Glenn L. Jackson, Medford; Ehrman Giustina, Eugene; and C. L. Smith, John Day, members of Oregon Development Commission; and John W. Watt, Portland, Executive Director of Oregon Development Commission. Mr. Glenn Jackson acted as spokesman and stated that the purpose of their appearance is to discuss tourist advertising and the advisability of organizing of state-wide tourist promotion to eliminate duplication of effort by the State Travel Information Department and the various private agencies. He felt that the Travel Information Department would be a logical focal point for such a cooperative effort. The private tourist groups, he stated, propose to raise funds to augment the tourist advertising to be used by the Travel Information Department. Chairman Chandler stated that he felt that such cooperation might be outside the law and that the Commission intends to discuss the matter with the Chief Counsel and the Director of the Travel Information Department. Commissioner Reynolds pointed out that the funds spent by the State to attract tourists are spent largely outside of the State. Commissioner McIver stated that consolidation of effort is a worthy objective, but it would be very difficult for the State to handle such a matter as he felt there would be many divergent ideas in the private tourist promotion organization. He offered the suggestion that the private groups coordinate their efforts among themselves and then confer with the Director of Travel Information as to what means of cooperation might be effected. Chairman Chandler commented that the question had been asked previously if the State could participate in individual advertising, and the Chief Counsel had advised that no such authority exists. Mr. Jackson then inquired if any percentage of Highway funds is set aside for development of roads on which there is now no traffic. Chairman Chandler replied that all available funds are needed to modernize the present system.

The Commission discussed with the Engineer bids received for projects at the morning session and at 4:00 p.m. Commissioner Reynolds announced the awards of contracts, the Commission's decision in each case being unanimous, as follows.

"Grading and oiling East Unit, Rock Creek-Haines Section of the Rock Creek County Road west from Haines in Baker County: The Commission elects to accept the bid of Stephens & Carnes in the sum of $42,575.30 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Baker County and the Bureau of Public Roads is received and the sum of $12,700 is deposited by the County.

"Ochoco Avenue and O. L. C. C. Frontage Road. Grading and Paving Project on the Pacific Highway East between Portland and Milwaukie in Clackamas County: The Commission elects to accept the bid of K. F. Jacobsen & Co. in the sum of $32,475.90 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Paving and furnishing crushed materials in stockpile on the Clatskanie-Delena Section of the Columbia River Highway east from Clatskanie in Columbia County: The Commission awarded the contract to Rogers Construction, Inc., Portland, the low bidder, at their bid price of $289,179.00.

"Grading, paving, and furnishing crushed rock in stockpiles on the West Unit, Eagle Rock-Post Section of the Paulina Secondary Highway about 16 miles southeast of Prineville in Crook County: The Commission awarded the contract to the low bidder, Central Heating Company Oreg. Ltd., Eugene, at their bid price of $162,637.00.

"Brookings (Pacific and Hillside Avenues) Paving Project in Curry County: The Commission elects to accept the bid of K. F. Jacobsen & Co., Inc., in the sum of $14,175.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Brookings is received and the sum of $2,000 is deposited by the City.

"Sutherlin (East Central Avenue) Grading and Paving Project in Douglas County: The Commission awarded the contract to the low bidder, K. F. Jacobsen & Co;, Inc., Portland, at their bid price of $11,120.50.

"Oakland (Stearns Avenue) Grading and Paving Project in Douglas County: The Commission awarded the contract to the low bidder, K. F. Jacobsen & Co., Inc., Portland, at their bid price of $6,173.00.

"Glendale (Sether Avenue) Grading and Paving Project in Douglas County: The Commission awarded the contract to the low bidder, Roseburg Paving Company, Roseburg, at their bid price of $8,790.00.

"Reedsport (Greenwood Avenue) Paving Project in Douglas County: The Commission awarded the contract to K. F. Jacobsen & Company, Inc., Portland, the low bidder, at their bid price of $8,937.50.

"Construction of Beaver Creek and Forest Creek Bridges in Jackson County: As this is a county project, all bids were referred to Jackson County.

"Construction of Neil Creek and Jackson Creek Culverts on Dead Indian Road and Taylor Road in Jackson County: All bids were referred to Jackson County.

"Construction of Bear Creek Bridge on Upton Road in Jackson County: All bids were referred to Jackson County.

"Grading and paving on the Willamette Junction-Walker Mountain Road and Chemult-Beaver Marsh Units, Willamette Junction-Diamond Lake Junction Section of The Dalles-California Highway in Klamath County: The Commission elects to accept

the bid of Rogers Construction, Inc., in the sum of $544,349.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Paving on Kirk Road-Spring Creek Hill Section of The Dalles-California Highway 35 miles north of Klamath Falls in Klamath County: The Commission awarded the contract to the Acme Construction Company, Eugene, the low bidder, at their bid price of $88,721.00.

"Modoc Point-Barkley Springs Slope Grading Project on The Dalles-California Highway in Klamath County: The Commission elects to accept the bid of F. O. Laws in the sum of $37,000 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Goshen-Divide Fencing Project on the Pacific Highway south of Goshen in Lane County: The Commission awarded the contract to the low bidder, Kissel & Robinson, Caldwell, Idaho, at their bid price of $59,857.00.

"Grading and surfacing on the Paris Section of the Alsea-Deadwood Secondary Highway about 19 miles north of the Siuslaw Highway in Lane County: The Commission awarded the contract to Coast Construction & Excavating Company & Jeske Brothers Construction Company, Junction City, the low bidder, at their bid price of $22,755.00.

"Construction of One Horse Slough Bridge on the Lebanon-Crabtree Corner Road in Linn County: The Commission elects to accept the bid of Orlando C. Bennard in the sum of $15,040 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Linn County and the Bureau of Public Roads is received and the sum of $3,400 is deposited by the County.

"Detroit (Detroit Avenue) Paving Project in Marion County: The Commission awarded the contract to Warren Northwest, Inc., Portland, the low bidder, at their bid price of $7,261.50.

"Construction of a reinforced concrete deck girder viaduct over the T. H. Banfield Expressway and Union Pacific Railroad Company tracks in Multnomah County: The Commission elects to accept the bid of Schrader Construction Company in the sum of $125,800.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Grading and Oiling on the Burns Corner-Lewisville Section of the Burns Corner-Suver County Road about 7 miles south of Dallas in Polk County: The Commission elects to accept the bid of Fred Rouse & Henry H. Miller in the sum of $94,928.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Polk County and the Bureau of Public Roads is received and the sum of $21,400 is deposited by the County.

"Bay City ("C" Street) Paving Project in Tillamook County: The Commission

awarded the contract to United Contracting Company, Portland, who was the only bidder on this project, at their bid price of $6,291.00."

A delegation representing the Mt. Hood Pow-Wowers came before the Commission to urge improvement of the Mt. Hood Highway between Sandy and Zigzag. Present were: A. L. Greenwald, Big Chief, Mt. Hood Pow-Wowers, Government Camp; Mrs. H. W. Lofgren, Secretary, Mt. Hood Pow-Wowers, Zigzag; Mrs. Ray Hughes, Government Camp, J. L. Wirtz, Gresham, and Burton Walrad, Sandy, all members of the Mt. Hood Pow-Wowers; Robert Smith, member, Highway 26 Association and Mt. Hood Pow-Wowers, Sandy; R. L. Fanning, Director, Highway 26 Association; and Wallace R. Telford, Clackamas County Judge, Oregon City. Mr. Greenwald who acted as spokesman for the group called attention to the great amount of curvature in the road between Sandy and Zigzag and that there had been a number of deaths due to accidents on this section. The highway, he stated, is carrying an increasingly large amount of traffic due to the improved section from Madras to the junction with the Wapinitia Highway. This traffic, he stated, becomes very congested in the narrow crooked section between Sandy and Zigzag. County Judge Telford pointed out that of the four major projects selected by the County Court for improvement this one had been included among them, and he asked for early construction. Mr. Fanning also urged improvement of the highway east of Sandy. Chairman Chandler informed the group that a survey is now being conducted on the section in which they are interested.

Commissioner McIver stated that residents near the Waverly golf course had inquired concerning a rumored one-way street plan on S. E. 17th Avenue between Kellogg Park and Waverly Country Club in Milwaukie. The Engineer explained the proposed plans and stated that they do not affect Waverly, but objections have been raised by the operator of a market on 17th Avenue and by merchants of the Westmoreland and Sellwood Districts. He stated that the various plans were still under study. No action was taken.

The Commission signed the following agreements and other papers:

"Indentures of Access" for the following properties:

1. Chenoweth property on Rinehart Creek-Frankport Section of the Oregon Coast Highway in Curry County.

2. Willson property on Clatskanie-Delena Section of Columbia River Highway in Columbia County.

3. Thomas property on Hauser-North Bend Section of Oregon Coast Highway in Coos County.

4. Wait property on Orr Corner-Monmouth Section of the Pacific Highway West in Polk County.

5. Kellogg property on Orr Corner-Monmouth Section of Pacific Highway West in Polk County.

6. Boyer property on Orr Corner-Monmouth Section of Pacific Highway West in Polk County.

7. McDonald property on Forest Boundary-Hauser Section of Oregon Coast Highway in Coos County.

"Bargain and Sale Deed" re sale of property to Mr. and Mrs. A. N. Muler at The Dalles, in Wasco County. Consideration $956.25.

"Bargain and Sale Deed" re sale of property to A. R. Turley on Scotts Creek Section of Alsea Highway in Benton County.

"Quitclaim Deed" deeding to Safeway Stores, Inc., slope easement over certain property in Newport in exchange for easement for lateral support to the highway conveyed by Safeway to State.

"Letter of Acceptance" with Army Engineers for State to assume maintenance of the six mercury vapor lighting units at the Detroit Dam parking area on North Santiam Highway.

"Agreement" with Wasco and Jefferson Counties covering abandonment of right of way in connection with construction of Sherman Junction-Willowdale Section of The Dalles-California Highway in Wasco and Jefferson Counties.

"Agreement" with Charles J. Austin and Sarah Davis covering installation of a tide gate on the new drainage structure under the Coos River Secondary Highway.

"Agreement" Finance & Maintenance, Baker County, covering the East Unit, Rock Creek-Haines Section, FAS 507.

"Industrial Lease" with Howard-Cooper Corporation for a portion of their property we proposed to purchase outside of normal right of way line on the T. H. Banfield Expressway in Multnomah County.

"Finance & Maintenance Agreements" with Polk County covering the Burns Corner-Lewisville Section, FAS project.

"Agreement" with Northern Pacific Railway Company, Goble-St. Helens Section, Columbia River Highway re encroachments upon railroad property for highway right of way purposes and slope easement purposes.

"Agreement" with O. W. R. & N and Union Pacific Railroad Company covering highway and bridge construction and railroad relocation on the section of the T. H. Banfield Expressway between N. E. 42d Avenue and N. E. 92d Avenue in Multnomah County.

"Agreement" with Lavon Delmar Gibby re payment of $756.00 for logs removed from State property located in the North half of the Northeast quarter of Section 17,

Township 8 South, Range 2 East, W. M. Marion County.

"Bargain & Sale Deed" to George W. Pierce and Zelma Pierce for a parcel of land lying in Lots 1 and 2, Block 9 Railroad Addition to Springfield, situated in Section 36, Township 17 South, Range 3 West, W. M. Lane County.

There being no further business to come before the Commission, the meeting was adjourned at 5:00 p.m.

R. H. Baldock
State Highway Engineer

Commissioner

EXHIBITS "A" through "M"

Minutes of

May 11 and 12, 1954

EXHIBIT "A"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW THEREFORE BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, it has been brought to the attention of the Commission that in some instances options have been taken on real properties needed for right of way and other highway purposes, and in other instances options are now being taken on real properties needed for right of way and other highway purposes, in connection with both of which situations it appears that formal authorization for such takings has not been recorded in the Commission's records or minutes; and

WHEREAS, notwithstanding the fact that formal authorization for such acquisitions has not been made a part of the Commission's written records, the taking of such options have the informal approval of the Commission; and

WHEREAS, for the purpose of supplementing such informal records and action, it is the purpose of the Commission at this time to ratify all options so taken.

THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively, as follows:

1. That it hereby is declared that all real properties needed for right of way or other highway purposes in connection with the construction, reconstruction, or other improvement of the following-named highway projects hereby are declared necessary for said projects and options heretofore taken and approved covering any of said real property hereby are approved:

COUNTY AND SECTION	FILE NUMBER	PURPOSE	HIGHWAY
CLACKAMAS

2. It is further resolved that the informal action of the Commission and authorization for said acquisitions hereby is ratified.

3. That this Miscellaneous Resolution No. 110 shall be entered in the minutes and records of the Commission as of May 11, 1954, and shall be deemed effective as of the date or dates of any options taken with respect to any real properties acquired in connection with any of the projects listed on said attached page.

EXHIBIT "C"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of the parcel of land in Astoria, Oregon, lying along and adjacent to the Oregon Coast Highway described as follows:

> A parcel of land lying in Block 10, McClures Addition in the City of Astoria, Clatsop County, Oregon.
>
> The said parcel being that part of Lot 1 and that part of the West 46 feet of Lot 2 of said Block 10 lying North of a line which is parallel to and 35 feet Northerly of the center line of the Oregon Coast Highway, except the Northerly 5 feet of said Lots which has been deeded to the City of Astoria for street purposes.
>
> The parcel of land to which this description applies contains 2550 square feet, more or less.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competent and experience appraisers and the reasonable market value thereof found and estimated to be the sum of $1350.00, and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of CRS 273.060 Et Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 112 be entered in the minutes and records of the Commission as of the 11th day of May, 1954.

EXHIBIT "D-1"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the first six month period of 1952 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Grass Valley.	$ 612.18
Merrill	2,621.37

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 11th day of May, 1954.

EXHIBIT "D-2"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the second six month period of 1952 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Bonanza . . . . . $ 701.04

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. EXHIBIT "E"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 3758, with Birkemeier & Saremal for constructing four structures on the West Portland-Hubbard Highway (now Portland-Salem Expressway) in Clackamas County, completed April 23, 1954.

"Contract No. 3848, with E. H. Itschner Co., for furnishing crushed rock in stockpiles on the Arlington-Service Creek Section of the Columbia River, John Day and Wasco-Heppner Highways in Gilliam and Wheeler Counties, completed October 12, 1953.

"Contract No. 3859, with Birkemeier & Saremal for constructing Boeckman Road Grade Separation on the West Portland-Hubbard Highway (now Portland-Salem Expressway) in Clackamas County, completed April 20, 1954.

"Contract No. 3871 with Donald M. Drake Co., for constructing 102nd Avenue Overcrossing on the T. H. Banfield Expressway in Multnomah County, completed May 1, 1954.

"Contract No. 3889, with Larson Construction Co., for constructing Nehalem River Bridge on the Nehalem Highway in Clatsop County, completed April 7, 1954.

"Contract No. 3899, with Popham Construction Co., for constructing Cape Lookout Park facilities in Tillamook County, completed March 15, 1954.

"Contract No. 3941, with Paul B. Emerick, for constructing Division Office buildings at Bend in Deschutes County, completed May 5, 1954.

"Contract No. 3979, with Birkemeier & Saremal for constructing the Lower Boones Ferry Road Overpass on the West Portland-Hubbard Highway (now Portland-Salem Expressway) in Washington County, completed April 30, 1954.

"Contract No. 4022, with Steeck Electric Co., for installing traffic signal in Medford, Jackson County, completed April 9, 1954."

THEREFORE BE IT RESOLVED that the work covered by State highway contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and

said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 33 shall be entered in the minutes and records of the Commission as of the 11th day of May, 1954.

EXHIBIT "F"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: TUALATIN VALLEY HIGHWAY

Highway number 29 Route number 6

400' east of the west leg of Huber Avenue (M. P. 5.69 to Hunter Avenue (M. P. 6.35) 45 MILES PER HOUR except that between a point 450' east of Union Avenue (M. P. 6.07) and a point 450' west of Union Avenue, the indicated speed shall be 20 MILES PER HOUR during the hours of school crossings as per the provisions of subsection 1. a. ORS 484.104.

Hunter Avenue (M. P. 6.35) to 200' west of Vista Avenue (M. P. 6.68) 35 MILES PER HOUR

200' west of Vista Avenue (M. P. 6.68) to 0.20 miles east of Kinnesswood Avenue (M. P. 7.49) 45 MILES PER HOUR

EXHIBIT "F" (cont)

0.20 mile east of Kinnesswood Avenue (M.P. 7.49) to 250' west of road to West Union (M.P. 8.26) 35 MILES PER HOUR

EXCEPT THAT BETWEEN

a point 500' east of Kinnesswood Avenue (M.P. 7.59) and a point 300' west of Kinnesswood Avenue, the indicated speed shall be 20 MILES PER HOUR during the hours of school crossings as per the provisions of subsection 1.a. ORS 483.104.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 151 be entered in the minutes and records of the Commission as of the 11th day of May, 1954.

EXHIBIT "G-1"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: MCMINNVILLE HIGHWAY

Highway number 156 Route number

The easterly half of the McMinnville Highway from M. P. 1.05 (Southern Pacific Railroad crossing) to M. P. 1.28 (Fifteenth Street) 35 MILES PER HOUR, the city boundary line being the center line of the highway.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 152 be entered in the minutes and records of the Commission as of the 11th day of May, 1954.

EXHIBIT "G-2"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: PACIFIC HIGHWAY

Highway number 1 Route number US 99

Location of Termini				Established Speed	
M.P.	143.90 (Wagner-Binford access road)	to M.P.	144.20 (north city limits of Cottage Grove)	40	M.P.H.
M.P.	145.51 (south city limits of Cottage Grove)	to M.P.	146.27 (200 feet south of Sweet Lane Road)	45	M.P.H.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 155 be entered in the minutes and records of the Commission as of the 11th day of May, 1954.

Highway number 9 Route number US 101

Location of Termini			Established Speed
M.P. 388.64 (southerly city limits of Brookings)	to M.P.	389.19 (Chetco Grange Hall)	40 M.P.H.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 157 be entered in the minutes and records of the Commission as of the 11th day of May, 1954.

EXHIBIT "H-1"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, the Coos River Secondary Highway No. 241 is a state highway under the jurisdiction and control of the State Highway Commission; and

WHEREAS, it appears that at the junction of said Coos River Secondary Highway with the Oregon Coast Highway in Bunkerhill, just south of the City of Coos Bay in Coos County, vehicles are parked for extended periods of time along the curb line of said highway, and

WHEREAS, the parking of vehicles on the northerly side of Newport Avenue (Coos River Secondary Highway) from a point 100 feet west of Center Street to the west line of Mullen Street tends to restrict and impair the use of the traveled portion of the highway to such an extent that in the opinion of the Highway Commission a hazard is created not only to through traffic, but to the owners and drivers of said parked vehicles, and

WHEREAS, in the opinion of this Commission, public travel and public safety require that the use of said highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission, all members being present and voting affirmatively as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendations by members of its staff, that the parking of vehicles along the northerly curb line of Newport Avenue from a point 100 feet west of Center Street to the west line of Mullen Street, which location is at the intersection of Newport Avenue (Coos River Secondary Highway) with the Oregon Coast Highway, creates a hazard not only to through traffic but to persons owning and using said parked vehicles.

2. That in the opinion of the Commission the right of way of said highway at said location is not of sufficient width to permit the parking of vehicles and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles for long periods of time on the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution

and the action of the Commission as herein declared, on which signs shall be printed in plain letters the words "NO PARKING AT ANY TIME".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this No Parking Resolution No. 113 be entered in the minutes and records of the State Highway Commission as of the 11th day of May, 1954.

2154

EXHIBIT "H-2"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, the Pacific Highway(US99) is one of the major state primary highways and is likewise a Federal Aid highway, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that the parking of vehicles on the shoulders of said highway at the Med-O-View Auction five miles south of Junction City in Lane County, produces a traffic hazard, and

WHEREAS, the parking of said vehicles on the shoulders of said highway between M. P. 113. 81 (Engineer's Station 238+50) and M. P. 114. 01 (Engineer's Station 250+00) tends to restrict and impair the use of the traveled portion of the highway to such an extent that, in the opinion of the Highway Commission, a hazard is created not only to through traffic but to the owners and drivers of said parked vehicles and,

WHEREAS, in the opinion of this Commission, public travel and public safety require that the use of the shoulders of said highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission, all members being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and recommendations by members of its staff, that the parking of vehicles along either side of the Pacific Highway (US 99) between M. P. 113. 81 (Engineer's Station 238+50) and M. P. 114. 01 (Engineer's Station 250+00) creates a hazard not only to through traffic but to persons owning and using said parked vehicles.

2. That in the opinion of this Commission the right of way of said highway at said location is not of sufficient width to permit parking of vehicles and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles for long periods of time on the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs

should be printed in plain letters the words "NO PARKING ON HIGHWAY SHOULDERS".

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police.

6. That this No Parking Resolution No. 114 be entered in the minutes and records of the State Highway Commission as of the 11th day of May, 1954.

EXHIBIT "I"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, the County Court of Umatilla County by resolution dated January 12, 1954, petitioned the State Highway Commission to extend the Havana-Helix State Secondary Highway in Umatilla County in the manner hereinafter set forth; and

WHEREAS, the Highway Commission has considered said matter and during its January 21-22, 1954 meeting approved of said request by County and agreed to extend said highway pursuant to said request; and

WHEREAS, ORS 366.220 (1) authorizes the Highway Commission to select, establish and designate a system of state highways within the state.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively, as follows:

1. That the Highway Commission pursuant to the authority vested in it by law does hereby select, establish and designate the following described portion of the Havana County Road as a part of the Havana-Helix State Secondary Highway, to-wit:

> Beginning at the intersection of the existing Havana-Helix State Secondary Highway with the Havana County Road near Havana; thence southerly along the said Havana County Road to an intersection with the Oregon-Washington Primary Highway, a distance of approximately 1 mile.

Attached hereto, marked Exhibit "A" and by this reference made a part hereof, is a print upon which is shown colored in green the above described portion of the said county road which is herein made a part of the Havana-Helix State Secondary Highway. *

2. That this resolution be entered in the minutes and records of the Commission as of this 11th day of May, 1954, as Secondary Highway Designation, Resolution File No. 27; and the Secretary is directed to mail a duly certified copy thereof to the County Court of Umatilla County.

---

*FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 27 under the heading Secondary Highway Designation and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-1"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, the section of the O'Neil Highway, State Secondary Highway No. 370, known as the E. Unit, Deschutes County Line-Prineville Section in Crook County, the westerly terminus of which is at Highway Engineer's Station 682+00 on the relocated highway and the easterly terminus of which is at Highway Engineer's Station 922+53.04 on the relocated highway, has been opened to public travel; and

WHEREAS, as a consequence of the relocation of said section of highway, portions or units of the old right of way have been eliminated from the boundaries of the relocated highway and are no longer needed for state highway purposes; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portions or units of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the portions or units of the old right of way which by reason of the relocation of the said highway are no longer within the boundaries of the new right of way and which are identified herein as Units "A", "B", and "C", are shown colored in brown on the map attached hereto, which is marked Exhibit "A" and by this reference made a part hereof. The location of Units "A", "B", and "C" are more particularly described as follows:*

Unit "A"

Beginning at State Highway Engineer's Station 704+10 of the relocated O'Neil Secondary Highway in the southeast quarter of the northeast quarter (SE 1/4-NE 1/4) of Section 28, Township 14 South, Range 15 East, W.M.; thence easterly via the former route of the O'Neil Secondary Highway to State Highway Engineer's Station 712+90 of the relocated O'Neil Secondary Highway in the southwest quarter of the northwest quarter (SW 1/4-NW 1/4) of Section 27, Township 14 South, Range 15 East, W.M.

Unit "B"

Beginning at State Highway Engineer's Station 713+60 of the relocated O'Neil Secondary Highway in the northwest quarter of the northwest quarter (NW 1/4-NW 1/4) of Section

27, Township 14 South, Range 15 East, W. M.; thence easterly via the former route of the O'Neil Secondary Highway to State Highway Engineer's Station 723+30 of the relocated O'Neil Secondary Highway in the northeast quarter of the northwest quarter (NE¼-NW¼) of Section 27, Township 14 South, Range 15 East, W. M.

Unit "C"

Beginning at State Highway Engineer's Station 761+90 of the relocated O'Neil Secondary Highway in the northeast quarter of the southeast quarter (NE¼-SE¼) of Section 27, Township 14 South, Range 15 East, W. M.; thence southeasterly via the former route of the O'Neil Secondary Highway to State Highway Engineer's Station 770+70 of the relocated O'Neil Secondary Highway in the northeast quarter of the southeast quarter (NE¼-SE¼) of Section 27, Township 14 South, Range 15 East, W. M.

2. That the said Units "A", "B", and "C" are no longer needed for highway right of way or other public purposes and therefore the same shall be and hereby are duly abandoned as part of the O'Neil Highway, State Secondary Highway No. 370. All right, title and interest which the State has in the right of way of Units "A", "B", and "C" hereby pass to and vest in the owners of the abutting land.

3. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said relocated section of highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way and other highway purposes and uses. Therefore the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State. *

4. That this resolution be entered in the minutes and records of the Commission as of this 11th day of May, 1954, as Abandonment & Retention Resolution File No. 291; and the Secretary is directed to mail a duly certified copy thereof to Crook County.

---

* FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 291 under the heading "Abandonment and Retention Resolutions" and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-2"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, the section of the Wallowa Lake Highway, State Primary Highway No. 10, known as the Lostine Section in Wallowa County, the westerly terminus of which is at Highway Engineer's Station 1075+52.58 on the relocated highway and the easterly terminus of which is at Highway Engineer's Station 1131+00 on the relocated highway, has been completed and is now open for public travel; and

WHEREAS, as a consequence of the relocation of said section of highway, a portion or unit of the old right of way has been eliminated from the boundaries of the relocated highway and is no longer needed for state highway purposes; and

WHEREAS, Wallowa County and the Highway Commission entered into an agreement under date of May 20, 1952, relating to the disposition to be made of the eliminated portion or unit; and

WHEREAS, the said agreement provided that after the said relocated section was completed and opened to public travel, the eliminated portion or unit, therein and herein referred to as Unit "A", would be abandoned as part of the said highway, and would be maintained thereafter by Wallowa County as a county road under the jurisdiction and control of the said county; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portion or unit of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT IS HEREBY RESOLVED, by this Commission, as follows:

1. That the portion or unit of the old right of way which by reason of the relocation of the said highway is no longer within the boundaries of the new right of way and which is identified herein as Unit "A" is shown colored in red on the map attached hereto, which is marked Exhibit "A", and by this reference made a part hereof. The location of Unit "A" is more particularly described as follows: *

Unit 'A"

Beginning at State Highway Engineer's Station 1083+85 of the relocated Wallowa Lake Highway in the southeast quarter of the southwest quarter ($SE\frac{1}{4}$ $SW\frac{1}{4}$) of Section 4, Township 1 South, Range 43 East, W.M.; thence southeasterly via the former

EXHIBIT "J-2" (cont)

route of the Wallowa Lake Highway to State Highway Engineer's Station 1128+15 of the relocated Wallowa Lake Highway in the southwest quarter of the northwest quarter (SW$\frac{1}{4}$ NW$\frac{1}{4}$) of Section 10, Township 1 South, Range 43 East, W.M.

2. That, pursuant to the aforesaid agreement, Unit "A" is hereby duly abandoned as part of the Wallowa Lake Highway, State Primary Highway No. 10, to Wallowa County, and that all right, title and interest which the State had in the right of way of Unit "A" hereby passes to and vests in the said County, and shall hereafter be maintained by said County as a county road.

3. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said relocated section of highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way and other highway purposes and uses. Therefore the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State. *

4. That this resolution be entered in the minutes and records of the Commission as of this 11th day of May, 1954, as Abandonment & Retention Resolution File No. 255; and that the Secretary is directed to mail a duly certified copy thereof to the County Court of Wallowa County.

---

*FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 255 under the heading "Abandonment and Retention Resolutions" and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-3"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, the section of the Klamath Lake Highway, State Secondary Highway No. 421, located in Klamath County and known as the Lake of the Woods Junction-Rocky Creek Section, the northerly terminus of which is at Highway Engineer's Station 880+00 on the relocated highway and the southerly terminus of which is at Highway Engineer's Station 1190+00 on the relocated highway, was opened to public travel on October 20, 1953; and

WHEREAS, as a consequence of the relocation of said section of highway, portions or units of the old right of way have been eliminated from the boundaries of the relocated highway and are no longer needed for state highway purposes; and

WHEREAS, Klamath County and the Highway Commission entered into an agreement under date of July 11, 1952, relating to the disposition to be made of the eliminated portions or units; and

WHEREAS, the said agreement provided that after the said relocated section was opened to public travel, two of the eliminated portions or units, therein and herein referred to as Units "C" and "E", would be abandoned as part of the said highway, and would be maintained thereafter by Klamath County as county roads under the jurisdiction and control of the said county; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portions or units of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT IS HEREBY RESOLVED, by this Commission as follows:

1. That the portions or units of the old right of way which by reason of the relocation of the said highway are no longer within the boundaries of the new right of way and which are identified herein as Units "C" and "E" are shown colored in red on the map attached hereto, which is marked Exhibit "A" and by this reference made a part hereof. The locations of Units "C" and "E" are more particularly described as follows: *

Unit "C"

Beginning at State Highway Engineer's Station 982+00 of the relocated Klamath Lake Highway in the Southeast quarter ($SE\frac{1}{4}$) of the Northeast quarter ($NE\frac{1}{4}$) of Section 23, Township 36 South,

Range 6 East, W.M.; thence southeasterly via the former route of the Klamath Lake Highway to State Highway Engineer's Station 1055+00 of the relocated Klamath Lake Highway in the Southeast quarter (SE¼) of the Northeast quarter (NE¼) of Section 25, Township 36 South, Range 6 East, W.M.

Unit "E"

Beginning at State Highway Engineer's Station 1087+00 of the relocated Klamath Lake Highway in the Southeast quarter (SE¼) of the Southwest quarter (SW¼) of Section 30, Township 36 South, Range 7 East, W.M.; thence southeasterly via the former route of the Klamath Lake Highway to State Highway Engineer's Station 1190+75 in the Northeast quarter (NE¼) of the Northeast quarter (NE¼) of Section 5, Township 37 South, Range 7 East, W.M.

2. That, pursuant to the aforesaid agreement, Units "C" and "E" are hereby duly abandoned as part of the Klamath Lake Highway, State Secondary Highway No. 421, to Klamath County, and that all right, title and interest which the State had in the right of way of Units "C" and "E" hereby pass to and vest in the said County, and shall hereafter be maintained by said County as county roads.

3. That the portions or units of the old right of way which by reason of the relocation of said section of highway are no longer within the boundaries of the new right of way and which are identified herein as Units "A", "B" and "D" are shown colored in brown on the said Exhibit "A". The locations of Units "A", "B" and "D" are more particularly described as follows: *

Unit "A"

Beginning at State Highway Engineer's Station 891+00 of the relocated Klamath Lake Highway in the Northwest quarter (NW¼) of the Northeast quarter (NE¼) of Section 15, Township 36 South, Range 6 East, W.M., thence southeasterly via the former route of the Klamath Lake Highway to State Highway Engineer's Station 921+00 of the relocated Klamath Lake Highway in the Northwest quarter (NW¼) of the Southwest quarter (SW¼) of Section 14, Township 36 South, Range 6 East, W.M.

Unit "B"

Beginning at State Highway Engineer's Station 953+00 of the relocated Klamath Lake Highway in the Northwest quarter (NW¼) of the Northeast quarter (NE¼) of Section 23, Township 36 South, Range 6 East, W.M.; thence southeasterly via the former route of the Klamath Lake Highway to State Highway Engineer's Station 980+00 of the relocated Klamath Lake Highway in the Southeast quarter

(SE¼) of the Northeast quarter (NE¼) of Section 23, Township 36 South, Range 6 East, W. M.

Unit "D"

Beginning at State Highway Engineer's Station 1062+00 of the relocated Klamath Lake Highway in the Northeast quarter (NE¼) of the Southeast quarter (SE¼) of Section 25, Township 36 South, Range 6 East, W. M.; thence southeasterly via the former route of the Klamath Lake Highway to State Highway Engineer's Station 1082+00 of the relocated Klamath Lake Highway in the Southwest quarter (SW¼) of the Southwest quarter (SW¼) of Section 30, Township 36 South, Range 7 East, W. M.

4. That the said Units "A", "B" and "D" are not needed for the service of persons living thereon or for any communities served thereby or for any right of way or other public purposes and therefore they shall be and hereby are abandoned as part of the said highway; and all right, title and interest which the State has in the right of way of Units "A", "B" and "D" hereby pass to and vest in the owners of the abutting land.

5. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said relocated section of highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way and other highway purposes and uses. Therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State. *

6. That this resolution be entered in the minutes and records of the Commission as of this 11th day of May, 1954, as Abandonment & Retention Resolution File No. 265; and the Secretary is directed to mail a duly certified copy thereof to the County Court of Klamath County.

---

*FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 265 under the heading "Abandonment and Retention Resolutions" and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "J-4"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, the section of the Klamath Lake Highway, State Secondary Highway No. 421, located in Klamath County and known as the Rocky Creek-Wocus Marsh Section, the northerly terminus of which is at Highway Engineer's Station 1182+62 on the relocated highway and the southerly terminus of which is at Highway Engineer's Station 1840+50 on the relocated highway, has been completed and is now open for public travel; and

WHEREAS, as a consequence of the relocation of said section of highway, portions or units of the old right of way have been eliminated from the boundaries of the relocated highway and are no longer needed for state highway purposes; and

WHEREAS, Klamath County and the Highway Commission entered into an agreement under date of December 19, 1950, relating to the disposition to be made of the eliminated portions or units; and

WHEREAS, the said agreement provided that after the said relocated section was completed and opened to public travel, one of the eliminated portions or units, therein and herein referred to as Unit "A" would be abandoned as part of the said highway, and would be maintained thereafter by Klamath County as a county road under the jurisdiction and control of the said county; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portions or units of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT IS HEREBY RESOLVED, by this Commission as follows:

1. That the portion or unit of the old right of way which by reason of the relocation of the said highway is no longer within the boundaries of the new right of way and which is identified herein as Unit "A" is shown colored in red on the map attached hereto, which is marked Exhibit "A" and by this reference made a part hereof. The location of Unit "A" is more particularly described as follows: *

Unit "A"

Beginning at State Highway Engineer's Station 1190+80 of the relocated Klamath Lake Highway in the northeast quarter ($NE\frac{1}{4}$) of the northeast quarter ($NE\frac{1}{4}$) of Section 5, Township 37 South, Range 7 East, W.M.; thence southerly via the former route of the Klamath

Lake Highway to State Highway Engineer's Station 1722+00 of the relocated Klamath Lake Highway in Lot 5 of Section 8, Township 38 South, Range 8 East, W. M.

2. That, pursuant to the aforesaid agreement, Unit "A" is hereby duly abandoned as part of the Klamath Lake Highway, State Secondary Highway No. 421, to Klamath County, and that all right, title and interest which the State had in the right of way of Unit "A" hereby passes to and vests in the said County, and shall hereafter be maintained by said County as a county road.

3. That the portions or units of the old right of way which by reason of the relocation of said section of highway are no longer within the boundaries of the new right of way and which are identified herein as Units "B", "C" and "D" are shown colored in brown on the said Exhibit "A". The location of Units "B", "C" and "D" are more particularly described as follows: *

Unit "B"

Beginning at State Highway Engineer's Station 1748+00 of the relocated Klamath Lake Highway in the accretion of Lot 7 of Section 9, Township 38 South, Range 8 East, W. M.; thence southerly via the former route of the Klamath Lake Highway to State Highway Engineer's Station 1760+00 of the relocated Klamath Lake Highway in the accretion of Lot 6 of Section 9, Township 38 South, Range 8 East, W. M.

Unit "C"

Beginning at State Highway Engineer's Station 1778+00 of the relocated Klamath Lake Highway in the northwest quarter ($NW\frac{1}{4}$) of the northeast quarter ($NE\frac{1}{4}$) of Section 16, Township 38 South, Range 8 East, W. M.; thence southerly via the former route of the Klamath Lake Highway to State Highway Engineer's Station 1821+80 of the relocated Klamath Lake Highway in Lot 4 of Section 16, Township 38 South, Range 8 East, W. M.

Unit "D"

Beginning at State Highway Engineer's Station 1821+60 of the relocated Klamath Lake Highway in Lot 4 of Section 16, Township 38 South, Range 8 East, W. M.; thence southerly via the former route of the Klamath Lake Highway to State Highway Engineer's Station 1834+30 of the relocated Klamath Lake Highway in Lot 9 of Section 15, Township 38 South, Range 8 East, W. M.

4. That the said Units "B", "C" and "D" need not be maintained as a public road for the service of persons living thereon or for any com-

munities served thereby, and therefore, they shall be and hereby are abandoned as part of the said state highway, but it is the judgment and finding of the Commission that the said units are valuable and required for public use by Klamath County, and should be preserved for the use of said county. Therefore, all the right, title and interest which the State has in the said right of way of Units "B", "C" and "D" should and does hereby pass to and vest in Klamath County, and shall be retained hereafter by the County so long as they are needed or valuable for public use.

5. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said relocated section of highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way and other highway purposes and uses. Therefore, the Commission does hereby declare and order that possession of and title to all of the land and area shown colored in green on said Exhibit "A" shall be retained and held by the State. *

6. That this resolution be entered in the minutes and records of the Commission as of this 11th day of May, 1954, as Abandonment & Retention Resolution File No. 225; and the Secretary is directed to mail a duly certified copy thereof to the County Court of Klamath County.

---

*FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 225 under the heading "Abandonment and Retention Resolutions" and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-1"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make complete and final surveys of the route and location of the Beaverton-Multnomah County Line Section of the Beaverton-Hillsdale Highway in Washington and Multnomah Counties and of the Depot Slough Section of the Corvallis-Newport Highway in Lincoln County, and in connection therewith to prepare maps showing the route and location of said sections of highways and to file said reports and records with the Commission for consideration; and,

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for the approval or disapproval of the Commission; and,

WHEREAS, after due consideration of said surveys, field notes, maps, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the survey of the Beaverton-Multnomah County Line Section of the Beaverton-Hillsdale Highway, beginning at Highway Engineer's Station 126+00 in Multnomah County near the Washington County line and extending westerly to Highway Engineer's Station 152+39.59 in the City of Beaverton, together with the map, which for identification purposes bears Map File No. 7B-27-9 and the date of April, 1954, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

2. That the survey for the Depot Slough Section of the Corvallis-Newport Highway, beginning at Highway Engineer's Station 51+50 north of the town of Toledo and extending in a southerly direction to Highway Engineer's Station 22+00 in the town of Toledo, together with the map, which for identification purposes bears Map File No. 7B-27-13 and the date of April, 1954, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission at Salem, Oregon.

3. That when said sections of said highways are permanently constructed the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

4. That the approval and adoption of said surveys shall constitute

and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction or improvement of highways along and over said surveys. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of necessary right of way pursuant to the normal and approved method.

5. That this resolution be entered in the minutes and records of the Commission as of the 11th day of May, 1954, as Resolution Adopting Survey No. 101.

---

*FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 101 under the heading "Resolutions Adopting Surveys" and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-2"
Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Olds Ferry-Ontario Section of the Old Oregon Trail in Malheur County and of the Salem By-Pass-Jefferson Junction Section of the Pacific Highway East in Marion County, and in connection therewith to prepare maps showing the route and location of said sections and to file said reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and,

WHEREAS, after due consideration of said surveys, fieldnotes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively as follows:

1. That the survey of the Olds Ferry-Ontario Section of the Old Oregon Trail, beginning at Highway Engineer's Station 187+58.7, approximately two miles south of Olds Ferry, and extending in a southerly direction to Highway Engineer's Station 1192+73.61, south of the Malheur River and near the northerly edge of the city of Ontario, together with the map, which for identification purposes bears Map File Nos. 6B-7-16, 17, 18 and 19 and the date of May, 1954, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That the survey of the Salem By-Pass-Jefferson Junction Section of the Pacific Highway East, beginning at Highway Engineer's Station 274+00 approximately 3/4 mile south of Battle Creek and extending in a southerly direction to State Highway Engineer's Station 515+00, together with the map, which for identification purposes bears Map File No. 4B-28-4 and the date of May, 1954, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building at Salem, Oregon.

3. That when said highway sections are permanently constructed, the same shall be done in accordance with said surveys and locations unless otherwise directed or ordered by the Commission.

4. That the approval and adoption of said surveys shall constitute

and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highway along and over said surveys, Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

5. That heretofore by resolution of this Commission dated November 3, 1948, said section of the Old Oregon Trail and said section of the Pacific Highway East have been designated as throughways within the meaning and purpose of ORS 374.005, commonly known as the "Throughway Law" and for the reasons stated therein, the above-named sections of said highways should be and it is hereby directed that the construction of the same shall be accomplished pursuant to and within the meaning and scope of said law except any portion of said sections which had more than ten commercial businesses abutting thereon catering to the motoring public in any one mile as of the date said sections of highways were designated as throughways.

6. That this resolution be entered in the minutes and records of the Commission as of the 11th day of May, 1954, as Survey Resolution No. 102.

---

*FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 102 under the heading "Resolutions Adopting Surveys" and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, the State Highway Commission is given authority under ORS 483.528 to grant written permits for the movement over state highways of any vehicle, combination of vehicles, articles, property or things, having any gross weight or dimension, or of a description not otherwise permitted to move over state highways; and

WHEREAS, modern industry has produced and is continuing to produce, and industries are now using equipment, commodities, property and articles of gross weights, types and sizes, which cannot be moved over the highways of this State without special single movement permits; and

WHEREAS, a limited number of sections of state highways are so designed and constructed that vehicles and loads in excess of statutory limits, both as to gross weights and dimensions, may under certain conditions be moved or transported without damaging such sections of highways and with a minimum of hazard to the motoring public; and

WHEREAS, frequent requests are made to the Commission for permission to move vehicles, equipment, commodities and articles, having gross weights and dimensions in excess of that permitted without special single movement permits, and it is desirable and in the best public interest to facilitate the movement of such vehicles, equipment, commodities and articles, in cases where the movement is proposed over sections of highways that will permit such movements and where the hazard to the motoring public is at a minimum; and

WHEREAS, the Commission is of the opinion that it is feasible and practical and in the best public interest to delegate to certain personnel of the Commission, hereinafter named, the authority to issue permits under ORS 483.528, and as said section may hereafter be amended, upon certain terms, under certain conditions and when certain facts are found to exist; and

WHEREAS, the Commission has heretofore delegated such authority by resolutions entered in the minutes and records of the Commission as of 16th day of July, 1951, and the 11th day of October, 1951, and certain changed conditions, including the repeal of Oregon Compiled Laws Annotated and the enactment of Oregon Revised Statutes, make it necessary and desirable that said resolutions be canceled and revoked, and a revised resolution adopted;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED AND ORDERED by the Commission, all members being present and voting af-

firmatively, acting pursuant to the authority of ORS 483.528, as follows:

1. That no permit shall be issued under the provisions of ORS 483.528 unless and until there is delivered to a proper person herein authorized to issue permits a written application for a permit upon the form attached hereto, marked "Exhibit A", and by this reference made a part hereof.

2. That any permit issued pursuant to the provisions of ORS 483.528 shall be upon the form attached hereto, marked "Exhibit B", and by this reference made a part hereof; that said "Exhibit B" is hereby approved and adopted as to all provisions and regulations contained therein, and is hereby approved and adopted as the form of all permits to be issued under the provisions of ORS 483.528 and may include special provisions that, in the opinion of the person issuing any particular permit, pursuant to the authority herein contained, are necessary and required to effect the movement without damage to highways and highway facilities and to protect the motoring public.

3. That one permit, only, shall be issued to any permittee for the purpose of facilitating any one movement of a particular vehicle, combination of vehicles, article, property or thing, regardless of whether such movement will be in excess of statutory limitations as to width, length, height or any gross weight.

4. That when either the State Highway Engineer, Deputy State Highway Engineer, any Assistant State Highway Engineer, Director of Permits, Transportation Permit Supervisor or the personnel hereinafter designated in paragraphs 10 and 11, find that the proposed movement is to be made over a highway classified as either a Group I or Group II Highway, as set forth in the resolution of the Commission dated July 16, 1951, and all amendments and supplements thereto that may hereafter be adopted, they are authorized to issue a permit for such movement, subject to the limitations hereinafter stated, having gross weights not in excess of the following, to-wit:

Maximum gross weight of any vehicle or combination of vehicles, 84,000 pounds

Maximum gross weight of any axle, 19,000 pounds

Maximum gross weight of any tandem axles, 38,000 pounds

Maximum gross weight in pounds of any group of axles spaced more than 18 feet apart is determined by the formula $W = 1100 \times (L+40)$

Maximum gross weight in pounds of any group of

axles spaced 18 feet or less apart is
determined by the formula W = 1000 x (L+40)

In addition, permits may be issued for the movement of equipment designed for the moving of earth and rock construction materials and having a maximum gross weight of any single axle not in excess of 26,000 pounds, when such single axle is equipped with low pressure tires having a total tire width of not less than 48 inches and operated at a pressure of not more than 25 pounds per square inch.

5. The granting of any permit shall be conditioned upon a finding by the State Highway Engineer that the specific sections of highways, the specific bridges or other structures, are in a structural condition and of a design that will permit the proposed movement. In the event the State Highway Engineer shall find that a specific section of highway, a specific bridge or other structure, has developed a weakness, or for some other reason such section of highway, bridge or structure, will not safely permit such gross weights or dimensions, he is hereby directed to reduce the maximum gross weights or dimensions, provided in any permit, accordingly.

6. On all highways, other than those set forth as Group I and Group II Highways under the Commission's resolution above referred to, the maximum gross weights to be provided in any permit shall, subject to the maximum gross weights hereinabove set forth in paragraph 4, be based upon the recommendation of the State Highway Engineer. When the State Highway Engineer finds that any gross weight involved in any proposed movement is not more than that set forth in paragraph 4 and that the movement can be made with safety upon highways other than Group I and Group II Highways, then either the State Highway Engineer, Deputy State Highway Engineer, any Assistant State Highway Engineer, Director of Permits or Transportation Permit Supervisor, and only these officials, are permitted to issue a permit for such movement under ORS 483.528.

7. No permit shall be issued unless and until the permittee shall have furnished to the Director of Permits evidence satisfactory to the Director of Permits that he has procured and has in full force and effect, covering the proposed movement, a policy or policies of public liability and property damage insurance in any insurance company duly qualified and licensed to do business in the State of Oregon in amounts not less than those hereinafter set forth. Each of said policies shall name as assureds, in addition to the permittee, the State of Oregon, the State Highway Commission and members thereof, and its officers, agents and employees, jointly and severally, and shall contain a provision or endorsement that the naming of the State of Oregon, the State Highway Commission and members thereof, its officers, agents and employees, as assureds, does not waive and will not be a defense against any right or claim whatsoever of either the State of Oregon, the State Highway Commision, or any member thereof, or any officer, agent or employee of the State of Oregon or of the State Highway Commission, to recover for the damage to or destruction

of any property owned by or under the control of the State of Oregon or the State Highway Commission, or any member thereof or any officer, agent, or employee of the State of Oregon, or the State Highway Commission, or to recover for any personal injury; or, in lieu of the policy's or policies' naming of the State of Oregon, the State Highway Commission and members thereof, its officers, agents and employees as additional assureds and containing the above provision or endorsement, the permittee may furnish to the State Highway Department evidence satisfactory to the Department that he has procured and has in full force and effect, covering the movement, a policy or policies of public liability and property damage insurance in an insurance company qualified and licensed to do business in the State of Oregon in amounts not less than those hereinafter set forth, wherein there shall be named as assureds, only, the State of Oregon, the State Highway Commission and the members thereof, and its officers, agents and employees, jointly and severally, which said policy or policies of insurance shall be, in addition to the first above-required policy or policies of public liability and property damage insurance, wherein the permittee is named as the assured and wherein neither the State of Oregon, the State Highway Commission, nor members thereof, nor officers, agents nor employees, are named as assureds. The amounts of said insurance shall not be less than the following:

a. If the permittee is a contract (for hire) hauler, the public liability insurance shall be not less than $50,000/$100,000, and the property damage insurance shall be not less than $25,000.

b. If the permittee is a private hauler (hauling for himself), other than a rancher or a farmer, the public liability insurance shall be not less than $50,000/$100,000, and the property damage insurance shall be not less than $25,000.

c. If the permittee is a rancher or farmer transporting his own equipment, the public liability insurance shall be not less than $10,000/$20,000, and the property damage insurance shall be not less than $10,000.

d. If the permittee is operating log or lumber carriers, or moving vans, the public liability insurance shall be not less than $50,000/$100,000, and the property damage insurance shall be not less than $25,000.

8. The State Highway Engineer, Deputy State Highway Engineer, any Assistant State Highway Engineer, Director of Permits or Transportation Permit Supervisor, and only these officials, when, in their opinion, the proposed movement is of such a highly unusual and extraordinarily hazardous nature that added financial protection for the State or the public is necessary, shall require the permittee to furnish either indemnity insurance or an indemnity bond, as provided in ORS 483.528, or, in lieu of

such bond, a certified check or cash in an amount of the indemnity insurance or penal sum of the bond, as follows:

a. Contract haulers-$10,000

b. Private haulers, other than ranchers or farmers -$10,000

c. Ranchers or farmers-$1,000

d. Log and lumber carriers, and moving vans-$10,000

The bond shall be in the form attached hereto, marked "Exhibit C", and by this reference made a part hereof.

9. Every permit issued pursuant to ORS 483.528 shall contain a provision that the permit shall be null and void for noncompliance with any of the descriptions, terms or conditions printed or written in the form of permit, and each permit shall contain the provision that no other permit issued pursuant to ORS 483.520 through ORS 483.528 is valid for the movement of any vehicle while operating pursuant to a permit issued under authority of ORS 483.528.

10. Under the direction of the State Highway Engineer, and subject to the conditions in this resolution set forth, the Resident Engineer and the office man in the Resident Engineer's office at Ontario, Oregon, and the Maintenance Superintendents of the following Districts, and in their absence, District Maintenance office men in the Districts, hereby are authorized to issue permits for movements over Group I and Group II Highways, only within the limits of their respective districts, and not otherwise:

2-A Astoria	4-B Redmond
2-C Corvallis	4-C Klamath Falls
3-A Eugene	5-A John Day
3-B Coquille	5-B Pendleton
3-C Grants Pass	5-C Baker
4-A The Dalles	5-D Burns

11. Under the direction of the State Highway Engineer, and subject to the conditions in this resolution set forth, Division Engineers, Acting Division Engineers, and in their absence, Assistant Division Engineers, and in their absence, Division Office Engineers, in the following Divisions, hereby are authorized to issue permits for movements over Group I and Group II Highways, only within the limits of their respective Divisions, and not otherwise:

EXHIBIT "L" (cont)

Division 3, Roseburg, Oregon
Division 4, Bend, Oregon
Division 5, La Grande, Oregon

12. The maximum gross weights and dimensions that may be authorized in permits issued by persons designated in paragraphs 10 and 11 above are as follows:

a. Weight: Maximum weights shall be subject to the limitations set forth in paragraph 4 of this resolution.

b. Overheight: No permit shall be issued in excess of the clearance limits allowable for all structures as shown on "vertical clearance map" of the state highway system; provided, however, that no permit shall be issued for a height in excess of six inches less than the minimum vertical clearance on the route over which a movement is to be made.

c. Overwidth: No permit shall be issued permitting a width in excess of ten feet six inches.

d. Overlength: No permit shall be issued permitting a movement having an overall length of more than sixty feet on Group I Highways, or more than fifty-five feet on Group II Highways.

13. The personnel designated in paragraphs 10 and 11 above hereby are authorized to issue permits, only after having received prior approval from the State Highway Engineer, Deputy State Highway Engineer, any Assistant State Highway Engineer, Permit Director or Transportation Permit Supervisor, for the movement of vehicles, combinations of vehicles, articles, property or things, having dimensions in excess of those set forth in paragraph 12 above, and for movements extending beyond the boundaries of their respective District or Division.

14. If at any time or under any conditions the State Highway Engineer, Deputy State Highway Engineer, any Assistant State Highway Engineer, Director of Permits, Transportation Permit Supervisor, any Division Engineer, any Acting Division Engineer, any Assistant Division Engineer, any District Maintenance Superintendent or any Staff Engineer of the Highway Department shall be of the opinion that any movement being made pursuant to any permit issued under authority of ORS 483.528 and this resolution, is unduly hazardous to the motoring public or is not being made according to the terms and conditions of the permit under which the movement is being made, or cannot be made with safety to highway facilities and structures, they hereby are directed and authorized to forthwith stop such movemen: and take all necessary, proper and reasonable action to correct the

condition and minimize or eliminate the hazard to the motoring public and to state highway facilities and structures.

15. That the persons in this resolution authorized to issue permits, shall , in determining whether or not any particular permit should be issued, and in determining any special provisions to be included in such permit, take into consideration the manner in which the permittee has conducted movements under prior permits and the nature and extent of violations, if any, of provisions contained in permits issued to the permittee in the past.

16. That the resolution adopted by the Commission and entered in its minutes and records as of the 16th day of July, 1951, authorizing the issuance of permits pursuant to the provisions of Section 13, Chapter 405, Oregon Laws 1951, for the movement of any vehicle or combination of vehicles, article, property or thing having any gross weight or dimension or of a description not otherwise permitted to move over state highways, and the resolution adopted by the Commission and entered in its minutes and records as of the 11th day of October, 1951, amending paragraph 4 of said resolution of July 16, 1951, be and the same hereby are canceled and revoked; provided, however that any permits issued prior to the date of this resolution, and pursuant to said resolutions of July 16,1951, and October 11, 1951, shall remain valid and in full force and effect until the expiration date specified in said permits.

17. That this resolution be entered in the minutes and records of the Commission as of the 11th day of May, 1954, as Miscellaneous Resolution No. 111, and that the original of this resolution be filed in the office of the Secretary of the State Highway Commission, and that a duly certified copy of this resolution be furnished to each the Secretary of State, the Superintendent of State Police, and the Public Utilities Commissioner.

DESCRIPTION OF HAULING EQUIPMENT:

MAKE **MOTOR No.** **PUC No.** **LICENSE No.** **FIRM No.**

PERMITTEE SHALL PROVIDE A WARNING TO OTHER HIGHWAY USERS BY THE USE OF FLAGMAN OR FLAGMEN AS CHECKED:

☐ The above described movement shall be preceded by a flagman-escort, approximately 500 feet in advance of the movement. It shall be the duty of the permittee by use of flagman-escort and approved signaling device to flag and warn approaching traffic of danger. Furthermore, escort conveyance shall display the standard Oregon State Highway sign No. OC-8B or one substantially similar bearing the words "WIDE LOAD" in a manner visible to approaching traffic.

☐ The above described movement shall be preceded and followed by flagmen-escorts, approximately 500 feet in advance and to the rear of said movement. It shall be the duty of the permittee by use of flagman-escort and approved signaling devices to flag and warn approaching and overtaking traffic of danger; furthermore, escort conveyances shall display standard Oregon State Highway signs No. OC-8B or ones substantially similar, bearing the words "WIDE LOAD" in a manner visible to approaching and overtaking traffic.

☐ No flagmen required except as specified in paragraph 8 hereof.

License and P. U. C. Permit

1. The above-described equipment shall be properly licensed in the State of Oregon. Each vehicle shall carry proper Oregon P. U. C. certificate and plate or pass.

Tires

2. All wheels must be equipped with pneumatic tires and the tire width of any individual wheel or axle shall be sufficient to provide not less than one inch of tire width (manufacturer's rating) for each 600 pounds of the gross weight on each wheel or axle.

Allowable Weight

3. The gross weight of any group of axles spaced more than 18 feet apart of any vehicle or combination of vehicles operated under this permit shall not exceed that determined by the formula $W = 1{,}000 \times (L + 40)$, wherein W equals the gross weight in pounds and L equals the distance in feet between the first and last axles of such group of axles. This provision shall apply to intermediate axle groups as well as to the overall wheelbase of a combination of vehicles.

The gross weight of any group of axles spaced 18 feet or less apart of any vehicle or combination of vehicles operated under this permit shall not exceed that determined by the formula $W = 800 \times (L + 40)$.

In no case shall the gross weight of the vehicle and load or combination of vehicles and load exceed ..... pounds, nor shall the gross weight of any individual axle exceed 19,000 pounds, nor shall the gross weight of any tandem axles spaced less than 6 feet apart exceed 37,000 pounds.

Posted Load Limits

The posting of any highway or structure to reduced limits of weight or dimensions shall be to that extent a modification of the weights or dimensions allowed under this permit.

4. This permit is intended only to authorize movement of a commodity or vehicle or combination of vehicles and load of excess .....

Coverage and Applicability

..... and in all other respects the equipment and load covered by this permit shall conform to the Oregon Motor Vehicle Laws and the Oregon Motor Transportation Code as the same may be modified by the provisions of this permit. This permit must be carried at all times in the cab of the truck or truck-tractor, as the case may be, and shall be available for inspection by any police officer and any representative of the State Highway Department or the Public Utilities Commissioner.

Expiration 5. THIS PERMIT IS OF A TEMPORARY NATURE ONLY AND WILL EXPIRE ON .....

OREGON STATE HIGHWAY COMMISSION

☞ SEE REVERSE SIDE FOR ADDITIONAL PROVISIONS.

Title .....

Exhibit B

6. Any vehicle with load thereon operated pursuant to this permit shall at all times keep to the extreme right-hand side of the traveled roadway. At no time shall any such vehicle or any portion of the load carried thereon extend over, beyond or to the left of the painted center stripe, or over, beyond or to the left of center line of the traveled roadway in case there be no painted stripe, except when overtaking or passing slower vehicles or obstruction on the highway, or when the roadway width is restricted, in which case the permittee shall furnish a flagman-escort to precede the load and warn approaching traffic, whether or not such flagman-escort is required on the face of this permit.

7. The driver of any vehicle listed in this permit shall, at all times, operate his vehicle at a reasonable speed, giving due consideration to existing conditions. The speed of the movement shall not exceed fifteen (15) miles per hour in any zone covered by advance "CURVE" or "NARROW BRIDGE" signs.

8. Full responsibility for the determination of adequate clearance, both vertical and horizontal, hereby is imposed upon the permittee and the driver of the equipment for any movement involving a load of excessive width or height being transported across any highway bridge or under any overhead structure. When the vertical or horizontal clearance is impaired to the extent that full two-way traffic cannot be maintained, the permittee shall provide a flagman whose duty shall be to prevent approaching vehicles from entering the structure while it is impaired by the movement covered by this permit.

9. Unless otherwise endorsed hereon, movements involving widths in excess of 8 feet, overall heights in excess of 13 feet 6 inches, or overall lengths in excess of 55 feet on truck tractor and semitrailer combinations, or 60 feet on truck and trailer combinations is strictly prohibited, during Saturday afternoons, Sundays, holidays, or between sunset and sunrise. The particular holidays to which this reservation applies are New Years Day, Memorial Day, Independence Day, Labor Day, Armistice Day, Thanksgiving Day, and Christmas Day; and whenever any of said holidays fall on a Sunday, then the following Monday shall be deemed the holiday.

10. Permittee shall be held responsible and liable for any and all injury or damage to, or destruction of any highway or any highway structure occasioned by the movement over said highways, and hereby agrees to reimburse the State Highway Department for the cost or expense of repairing or restoring any highway or highway structure so injured, damaged, or destroyed; such reimbursement to be made by the permittee within ten days after being billed for the same by the State Highway Department.

11. Permittee shall also be held responsible and liable for any and all injury to persons or damage to property resulting from the movement over and upon said highways, and shall indemnify and hold harmless the State of Oregon, the State Highway Commission, its members, officers, employees, and agents, jointly and severally, from liability in the event that such injury or damage shall occur. In this connection permittee shall furnish to the State Highway Department evidence of satisfactory public liability and property damage insurance, in amounts as may be required by the Commission, and evidence of satisfactory indemnity insurance or a satisfactory indemnity bond, indemnifying the State of Oregon and its State Highway Commission, its members, officers, employees, and agents, jointly and severally, against liability in the event of any injury or accident occurring by reason of said permittee's operations on a state highway. This permit shall automatically terminate, and be of no force and effect, in the event that any insurance or bond filed under this provision is allowed to lapse.

12. This permit does not authorize operations over county roads or city streets. To operate over a county road a permit must be obtained from the county court having jurisdiction over the road; likewise, to operate over a city street other than a state highway route, a permit must be obtained from the proper city authority.

ADDITIONAL SPECIAL PROVISIONS

OREGON STATE HIGHWAY DEPARTMENT

25514

OREGON STATE HIGHWAY COMMISSION

SPECIAL TRANSPORTATION PERMIT BOND

KNOW ALL MEN BY THESE PRESENTS: That We, _____

_____, as principal, and _____

_____

as surety, are jointly and severally held and bound unto the State of Oregon in the sum of , for the payment of which we jointly and severally bind ourselves, our heirs, executors, administrators, successors and assigns firmly by these presents.

THE CONDITION OF THIS BOND IS SUCH:

THAT, WHEREAS, the said principal herein is making and will from time to time hereafter make applications to the Oregon State Highway Commission under the provisions of ORS 483.528, and as said section may hereafter be amended, for permission to transport over, upon or across a State highway the following described property, to wit: oversize and/or overweight loads or equipment, and

WHEREAS, said applications from time are granted by the Oregon State Highway Commission and licenses or permits are issued, subject to and upon certain conditions, stipulations, rules, regulations and provisions specifically set forth in said permits and specific reference is now made to each and all of said terms, provisions, specifications, rules, regulations and requirements set out, declared or provided in either or any permits now or hereafter issued;

NOW, THEREFORE, if the principal herein shall faithfully and truly observe each of the terms, provisions, conditions, stipulation, rules regulations and requirements of each of said permits; shall indemnify and save harmless the State of Oregon, the State Highway Commission and members thereof, its officers, agents or employees from any direct or indirect damage or injury which may be suffered by them or any of them, or from claims against them or any of them by reason of any injury to persons or property during the operation of said principal under either or any of said permits; and shall indemnify and make whole the State for any injury or damage to said highway, or any part thereof, resulting from the operations of said principal, and shall in all respects faithfully keep and observe all of said requirements, conditions, provisions, rules, regulations or stipulations, then this obligation is to be void, otherwise to remain in full force and effect.

Unless definite expiration date is specified hereon, this bond shall continue in force until 30 days' written notice is given to the Oregon State Highway Commission at Salem, Oregon, whereupon this bond may be

cancelled and the surety shall be relieved of all liability and obligation upon any permit issued after the expiration of the 30-day period and not otherwise.

EXHIBIT "M-1"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, the State Highway Commission on the 17th day of February, 1953, by resolution declared the necessity for the acquisition of certain real property owned by J. F. McGlothren, et al, File No. R-19776, situated in Section 25, Township 13 South, Range 1 West, W. M., Linn County, Oregon, for right of way purposes, for the widening, improvement and maintenance of the Noble Slough-Foster Section of the Santiam Highway; and

WHEREAS, the said resolution declared the necessity for the acquisition of all rights of access between the right of way of the said Santiam Highway and all of the owners' remaining real property, except for a right of access to the said Santiam Highway for private residential purposes; and

WHEREAS, the said Highway Commission, after further investigating the necessity for the control of access from said remaining land to the said Santiam Highway, has found that it will be to the best interests of the St ate and the owners to increase the use of the said right of access from private residential use only to include its use for farm, forest and mineral purposes;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That paragraph 2 of that certain resolution duly made and entered in full in the minutes and records of the Commission on the 17th day of February, 1953, pertaining to the property owned by J. F. McGlothren, et al, File No. R-19776, be and the same hereby is amended to read as follows:

> 2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Santiam Highway and all of the contiguous real property of the owners which abuts thereon remaining after the appropriation of the above described real property, provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, the following:
>
> > A right of access to the Santiam Highway of a width of 25 feet on the Southerly side of the said highway, opposite Highway Engineer's center line Station 1440+80 only so long as no use is made thereof other than for the production and transportation to market of farm, forest and mineral products, and for private residential purposes.

2. That this resolution be entered in full in the minutes and records of the Commission this 11th day of May, 1954, as Condemnation Resolution No. 504.

May 11, 1954

EXHIBIT "M-2"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Zig Zag-Rhododendron Section of the Mt. Hood Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED BY THIS COMMISSION, all members thereof being present and voting affirmatively, as follows:

(cont.)

EXHIBIT "M-2" (cont.)

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Zig Zag-Rhododendron Section of the Mt. Hood Highway as a throughway, certain interests in or fee simple title to certain real property. The said real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Mt. Hood Highway and all of the contiguous real property of the owners remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of their remaining land, such access reservations as are noted on the said attached list marked Exhibit A. *

3. That the relocation, construction, improvement and maintenance of the said Zig Zag-Rhododendron Section of the Mt. Hood Highway and the highway facilities for which the said real property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of May, 1954, as Condemnation Resolution No. 505

---

* FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 505, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "M-3"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture or road-building materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement. donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Goble-St. Helens Section of the Columbia River Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

(cont.)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Goble-St. Helens Section of the Columbia River Highway as a throughway, certain interests in or fee simple title to certain real property. The said real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Columbia River Highway and all of the contiguous real property of the owners remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted as to the said real property on the said attached list marked Exhibit A. *

3. That the relocation, construction, improvement and maintenance of the said Goble-St. Helens Section of the Columbia River Highway and the highway facilities for which the said real property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquir title to said real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of May, 1954, as Condemnation Resolution No. 506.

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 506, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "M-4"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, the State Highway Commission on the 21st day of April, 1952, by resolution declared the necessity for the acquisition of certain real property owned by Raymond M. Mckeown, et ux, File No. R 18208, situated in Section 11, Township 24 South, Range 13 West, W. M., Coos County, Oregon, for right of way purposes, for the relocation, construction, improvement and maintenance of the Reedsport-Hauser Section of the Oregon Coast Highway; and

WHEREAS, the said resolution declared the necessity for the acquisition or extinguishment of all rights of access between the right of way of the said relocated Forest Boundary-Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway and all of the contiguous real property of the owners, except for two rights of access to the said relocated Oregon Coast Highway for private residential purposes; and

WHEREAS, the said State Highway Commission, after further investigation, has found that it will be to the best interests of the State and the owners to change the locations of the two rights of access to the said relocated Oregon Coast Highway, and to allow the owners an additional access to the said highway by means of a farm crossing;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That paragraph 2 of that certain resolution duly made and entered in full in the minutes and records of the Commission on the 21st day of April, 1952, pertaining to the property owned by Raymond M. McKeown, et ux, File No. R 18208, be and the same hereby is amended to read as follows:

> 2. That in addition to the acquisition of fee simple title to the above-described real property, it is necessary that there be acquired or extinguished all existing, future or potential rights of access between the right of way of the said relocated Forest Boundary Hauser Unit of the Reedsport-Hauser Section of the Oregon Coast Highway and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described; except that there shall be reserved unto the owners of said remaining land, their heirs and assigns, for service of the said remaining land, the following:
>
> a. A right of access to the relocated Oregon Coast Highway of a width of 25 feet on the West side of the said relocated Oregon Coast Highway, opposite Highway Engineer's center line Station 61+80, for private access only.
>
> b. A right of access to the relocated Oregon Coast

(cont.)

Highway of a width of 25 feet on the West side of the said relocated Oregon Coast Highway, opposite Highway Engineer's center line Station 67+35, for private access only.

c. A right to cross the said relocated Oregon Coast Highway for farm purposes only, said crossing to be 25 feet in width, the approaches for said farm crossing to be located opposite Highway Engineer's center line Station 59+80 on the East side of the said relocated Oregon Coast Highway and opposite Highway Engineer's center line Station 61+30 on the West side of the said relocated Oregon Coast Highway; provided, however, that upon the alienation of either of the portions of the property severed by the said relocated highway, this right of crossing shall be forfeited and shall cease, and if the owners, their heirs or assigns, shall commit, suffer or permit any use of the said crossing for any purpose other than as a passageway from one side of the said highway to the other for farm purposes, then and in that event the right hereby reserved to the owners will be automatically forfeited and the State shall have the power to close and barricade said crossing for all purposes.

Private access as herein referred to is defined as a right of access from and to land abutting a highway, said access to be for ordinary travel to and from the abutting land only, and shall not be used in connection with any commercial institution or activity established or conducted on the adjoining property which, in any manner, caters to, invites, solicits from or is dependent upon the users of the said highway; said access from said remaining property shall not be used by the owners their heirs or assigns, for any use not herein stated, and the State shall have the power to close and barricade said access for all purposes in the event of any violation.

The State shall, however, have the right, at its option, to build at any future time, at its sole cost, a frontage road within the boundaries of any present or hereafter acquired right of way; thereupon, all rights of access to and from the aforesaid highway and the land abutting on said frontage road shall cease, but the owners, their heirs and assigns, shall have access to the frontage road at such places as will afford reasonable and safe connections. Said frontage road shall be connected to the said main highway or to other public ways only at such places as the State may designate.

The construction of a frontage road shall not defeat the right of farm crossing herein granted.

2. That this resolution be entered in full in the minutes and records of the Commission this 11th day of May, 1954, as Condemnation Resolution No. 507.

EXHIBIT "M-5"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits, storage sites; stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Booth Ranch-Myrtle Creek Section of the Pacific Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

(cont.)

EXHIBIT "M-5" (cont.)

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Booth Ranch-Myrtle Creek Section of the Pacific Highway as a throughway, certain interests in or fee simple title to certain real property. The said real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Pacific Highway and all of the contiguous real property of the owners remaining after the appropriation of the said real property, provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, such access reservations as are noted as to the said parcel or parcels on the said attached list marked Exhibit A. *

3. That the relocation, construction, improvement and maintenance of the said Booth Ranch-Myrtle Creek Section of the Pacific Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of May, 1954, as Condemnation Resolution No. 508.

---

* FOOTNOTE: The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 508, under the heading "Real Property Condemnation Resolutions and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "M-6"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Sherman Junction-Willowdale Section of the The Dalles-California Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and

(cont.)

EXHIBIT "M-6" (cont.)

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement,betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Sherman Junction-Willowdale Section of the The Dalles-California Highway as a throughway, certain interests in or fee simple title to a certain parcel of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said relocated The Dalles-California Highway and all of the contiguous real property of the owners remaining after the appropriation of the said real property.

3. That the relocation, construction, improvement and maintenance of the said Sherman Junction-Willowdale Section of the The Dalles-California Highway and the highway facilities for which the said parcel of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of May, 1954, as Condemnation Resolution No. 509.

---

* FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 509, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "M-7"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: for rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of road-building materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequarely serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the Salem By Pass-Jefferson Junction Section of the Pacific Highway East; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be widened, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and

WHEREAS, for the purpose of widening, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said Salem By Pass-Jefferson Junction Section of the Pacific Highway East as a throughway, fee simple title to certain real property. The said real property needed and required and the specific use to be made thereof are more particularly described in the attached list, marked Exhibit A, under the name of the record owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Pacific Highway East and all of the contiguous real property of the owners remaining after the appropriation of the said real property.

3. That the widening, improvement and maintenance of the said Salem By Pass-Jefferson Junction Section of the Pacific Highway East and the highway facility for which the said real property is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said real property as to the conpensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said real property.

5. That upon the trial of any suit or action instituted to acquire the said real property the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 11th day of May, 1954, as Condemnation Resolution No. 51

---

* FOOTNOTE:

The names of the property owners and the detailed description of the

respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 510, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "M-8"

Minutes of May 11 and 12, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stockpile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads, frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to improve and maintain the Portland-Milwaukie Section of the Pacific Highway East;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the improvement and maintenance of the Portland-Milwaukie Section of the Pacific Highway East, fee simple title to certain parcels of real property. The said parcels of real property needed and required and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owners, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That the improvement and maintenance of the said Portland-Milwaukie Section of the Pacific Highway East and the highway facility for which each of the said parcels of real property is required and is being taken is necessary in the public interest, and the same has been planned, designed, located and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 11th day of May, 1954, as Condemation Resolution No. 511.

*FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 511, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

Hamilton & Thoms, Eugene	76,560.00
United Builders, Inc., Beaverton	85,900.00

* Bidder will accept award of only two projects.

The State Parks Superintendent, Mr. C. H. Armstrong, reported on the following park matters:

1. Extension of phone line agreement with U. S. Coast Guard to serve Shore Acres and Cape Arago State Parks: The Parks Superintendent reported that an agreement for joint use of the Coast Guard telephone line, executed in 1949, expired April 12, 1954 and that it is proposed to extend the agreement for a five-year period from April 12, 1954, to April 12, 1959. He pointed out that no charge is made for use of the phone line except that the State is required to maintain it, and by such use the State avoids construction of a phone line. He recommended approval of the arrangement. The Commission approved extension of the agreement.

2. Construction of toilet facilities at Big Creek Park in Lincoln County and at Hendricks Bridge Wayside in Lane County: The Parks Superintendent explained that funds to finance these two projects is included in the 1954 Budget, and he requested authority to call for bids for construction as soon as plans can

be prepared. The Commission approved the request.

3. Request of the United States Corps of Engineers and the U. S. Forestry Department that the State take over and develop two areas on the north side of Detroit Lake on the North Santiam Secondary Highway: The Parks Superintendent reported that these areas are located approximately one and two miles west of Detroit and that he had visited the areas and found that they are being used far in excess of the facilities provided. Such crowding, he stated, will lead to unsanitary conditions and could result in fires detrimental to the entire area. He recommended that the Commission authorize a study through the summer months to determine the probable cost to develop the areas, a report to be rendered later in the year. In the discussion of this matter, Commissioner Reynolds pointed out that this situation is similar to the one at Unity Reservoir and at Ochoco Reservoir. The question, he stated, appears to be one of policy as to whether the Commission should improve such areas principally for the use of fishermen. The Commission authorized the study as recommended by the Parks Superintendent. He was also authorized to make like studies in connection with similar cases that arise in the future.

4. Proposed issuance of season tickets for swimming at Honeyman State Park: Issuance of season tickets, the Parks Superintendent stated, would probably have a good effect on public relations, particularly in the town of Florence; also, the flat rate of 20 cents for persons 14 years and under and 40 cents for persons over 14 years has not been satisfactory with these people. It was his thought that issuance of season tickets at the rate of $4 for the younger group and $6 for the older group would probably have little effect on the income from swimming, and he recommended that such season tickets be sold. The Commission approved the recommendation with the stipulation that the people of Florence be advised that the arrangement is to be made for this year only on a trial basis to determine the relative income and expenditures and may have no bearing on action the Commission may take next year.

5. Dedication of Cape Lookout State Park honoring the Louis Hill family who donated land: The Parks Superintendent stated that the Louis Hill family donated 175 acres for park purposes at the south end of Netarts Bay and that they also own the remainder of the Netarts Spit. Members of the Hill family, he stated, plan to be in Oregon about October 7, 1954, and in consideration of the gift made by them, he recommended that arrangements be made for the dedication in October to meet their convenience. The Commission accepted the recommendation.

6. Proposed exchange of land with W. S. Hook at Ben and Kay Dorris State Park in Lane County: The Parks Superintendent stated that Mr. Hook owns an area adjoining the park which is approximately 15 miles east of Eugene on the McKenzie Highway. The land that he wishes to deed to the State, he said, consists of slightly less than two acres, whereas, the State property that he wants consists of approximately 1.1 acres of park land on the west side of the park and adjoining the highway, to be used as his entrance to the highway. The Hook property, he stated, is far more valuable for park purposes than is the area which Mr. Hook desires; notwithstanding which Mr. Hook has offered to exchange properties and to pay the State a bonus of $500. Upon the Parks Superintendent's favorable recommendation, the Commission approved the exchange as presented.

7. Proposed addition to Wallowa Lake State Park, land to be leased from Pacific Power and Light Company: No action was taken on this matter pending word from the Power Company whether or not it is willing to lease the property for park purposes, and, if so, for how long a period.

8. Proposed park development at Ochoco Lake east of Prineville: Upon the Parks Superintendent's favorable recommendation, the Commission authorized a further study to be made of this area and ordered a report to be presented after the 1954 summer season. (A delegation which appeared on the following day was informed that a further study would be made of the matter.)

9. Report on settlement with Columbia Power Co-operative Association for cutting of timber along the Pendleton-John Day Highway near Ukiah: The Parks Superintendent recalled that the Commission at its meeting in May authorized collection of legal value for the timber and for the cost of making a survey pertaining to the damage. The Co-operative Association, he stated, has agreed to pay survey costs in the amount of $337.48, double value for timber cut in the amount of $476.88, plus $10 for a license fee or a total amount of $824.36. He recommended approval of such settlement. The Commission approved the settlement.

The Right of Way Engineer presented for consideration options secured for acquisition of real property needed for various state highway improvements and for other purposes. After careful consideration, the Commission unanimously approved the closing of the options at the prices mentioned therein by adopting the attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein. In the discussion of items Nos. R-22075 and R-22080 listed in the above referred to resolution, Exhibit "A", being settlements with Irene Wiggins et al and H. T. and Sadie Benson for right of way needed for a proposed extension of the Wallowa Lake Highway southerly from Wallowa Lake Lodge to the Pacific Power and Light Company substation, the Commission instructed the Right of Way Engineer not to close the options until satisfactory arrangements have been concluded with the Power Company for acquisition of some of its land at this location as an addition to Wallowa Lake Park.

In discussing the options for right of way, the Right of Way Engineer commented that on the Gregg Creek-Wedderburn Section of the Oregon Coast Highway in Curry County, it appeared that about one third of necessary properties would have to be condemned because of the extremely high values demanded by the owners. In the discussion of this matter, the Commission indicated an unwillingness to undertake further construction on the highway south of Gold Beach because of high prices demanded by many property owners. The Commission instructed the Engineer to reinvestigate the highway route through Wedderburn to see if another location can be used which might be less expensive. The Right of Way Engineer stated that in his opinion all possible negotiating would be completed by August 1. The Commission authorized the Engineer to advise the Bureau of Public Roads that it could let a contract for construction of this section in mid-

August following the meeting of the Highway Commission August 9 and 10.

The Right of Way Engineer presented a list of properties to be acquired for which no specific authority has previously been granted as follows:

COUNTY and SECTION	FILE NO. and NAME	PURPOSE	HIGHWAY
BENTON			
Gellatly Point-Corvallis	21742 - Rickard	Haul Rd. & Quarry	Corvallis-Newport
	21828 - Moser	Haul Rd.	"
Gellatly Hill	22067 - Settles	Gravel Pit & Quarry Site	Corvallis-Newport
CLATSOP			
Astoria-Ocean Home Farm	22035 - Olson	Quarry & Easement	Oregon Coast

	21832 - Wilkins	R/W	"
	21833 - Woodmansee	R/W	"
	21834 - Wood	R/W	"
	21835 - Harry Mittleman, Contractor, Inc.	R/W	"

June 23, 1954

He requested authority to acquire these properties. The Commission approved the request by adopting the attached resolution relative thereto, marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In further connection with the options presented, Chairman Chandler pointed out that people are getting more rock minded and are asking increasingly higher prices for sources of gravel and rock. He inquired as to whether it might be possible to purchase these quarry sites as land rather than as quarry sites. The Deputy Highway Engineer explained that according to law the use for which the property is acquired has to be specified, and it cannot be stated as for right of way purposes. The Chief Counsel commented that it would probably be advantageous in condemnation cases if the cases could be tried before the contract was let and the quarry site opened up. Juries, he stated, are prone to give higher awards when the value of the property has been made visible by removing overburden. The fact that the State Land Board charges 10 cents per cubic yard for the rock materials under its jurisdiction has also helped to increase the cost of rock sources.

A report on sales of miscellaneous properties made since the last Commission meeting was also submitted by the Right of Way Engineer and accepted by the Commission. (For a list of properties sold, see copy of the report prepared by C. W. Parker, Property Manager, dated June 23 and 24, 1954, filed in the Secretary's office under the heading "Miscellaneous Sales".)

Conveyance of 0.103 acre of land on the Siskiyou Section of the Pacific Highway in Jackson County to Mrs. Ernestine Hicks was given consideration by the Commission. The Right of Way Engineer explained that some years ago Mrs. Hicks constructed a residence building at this place and that later on it was discovered that the building encroached somewhat on the state highway property. As a result of negotiations, he said, Mrs. Hicks has agreed to pay $100 for this parcel of land. He recommended that it be sold to her at such figure because the land is not of particular value for highway purposes. The Commission accepted the recommendation.

Proposed changes in points of access for a number of properties were presented by the Right of Way Engineer. He explained that no new access is being granted in any case and that in most instances the changes have been made for the convenience of the State. He recommended that the Commission approve changes in access for the following properties:

1. Frewing property on the Tigard-Newberg Section of the Pacific Highway West in Washington County, File No. 6956.

2. Hervy property on the Cedar Point-Coquille Section of the Oregon Coast Highway in Coos County, File No. 16881.

3. Atkins property on the Tigard-Onion Flat Unit of the Tigard-Newberg Section of the Pacific Highway West in Washington County, File No. 18086.

4. Lee property on the Tigard-Newberg Section of the Pacific Highway West in Washington County, File No. 6986.

5. Graham-Calbreath property on the Orr Corner-Monmouth Section of the Pacific Highway West in Polk County, File No. 2087.

6. Pearson property on the Tigard-Tualatin Unit of the Tigard-Newberg Section of the Pacific Highway West in Washington County, File No. 1376.

7. Charity Lodge No. 75 I. O. O. F. property on the Tigard-Onion Flat Unit of the Tigard-Newberg Section of the Pacific Highway West in Washington County, File No. 1370.

8. Viall property on the Forest Boundary-Hauser Section of the Oregon Coast Highway in Coos County, File No. 18222.

9. Tektronix, Inc., property on Murray Road Section of the Sunset Highway in Washington County, File No. L 2017.

The Commission approved all of the changes in access points as recommended.

Confirmation approval for out-of-State travel for Right of Way Agent Alan C. Gemmell was requested by the Right of Way Engineer. Mr. Gemmell, he stated, was sent to Seattle June 7 to 10, 1954, to negotiate for mining claims on the Willamette Junction-Diamond Lake Junction Section of The Dalles-California Highway in Klamath County at a cost to the State of approximately $60. The Commission confirmed the approval.

Consideration was given by the Commission to granting a farm crossing for the McNutt property on the Orr Corner-Monmouth Section of the Pacific Highway West in Polk County. The Right of Way Engineer reported that when the property was acquired a crossing was not given, but a deep roadway cut adjacent to the farm makes Mr. McNutt's farm operations very difficult. He felt that Mr. McNutt is entitled to a crossing, and as no particular hazard would be imposed upon the traveling public were one granted, he recommended that a crossing be allowed. The Commission accepted the recommendation.

The Commission also considered payment of $1,520 to Mr. B. R. Wallace as additional compensation in connection with a property settlement to acquire right of way for the Gervais Road-Hayesville Section of the Portland-Salem Expressway. It appears that the maps used in the original negotiations showed Mr. Wallace's buildings entirely outside of the right of way line, but later on it was found that the right of way line went through a barn, requiring that it be moved. The Right of Way Engineer stated that the additional sum asked by Mr. Wallace is fair, and he recommended that it be paid. The Commission approved the recommendation.

A proposed agreement with Mr. and Mrs. W. B. Wooden providing for release of obligations in connection with acquiring some of their property on the

Goshen-Divide Section of the Pacific Highway in Lane County was discussed by the Commission. A revision in highway plans, the Right of Way Engineer stated, makes it unnecessary to acquire this property on which an option had been secured in the amount of $300. The agreement, he said, provides for the payment of $50 to the Woodens to cover expenditures made by them in connection with the transaction. He recommended that the Woodens be paid the sum of $50 and advised that the State, by the terms of the agreement, is released from all further obligations in the matter. The Commission accepted the recommendation.

Modification of a lease with the Secretary of State covering use of a Highway Department building and adjoining grounds in Eugene was considered. The Right of Way Engineer pointed out that the modification of lease form provides for use of additional land by the Secretary of State and for payment by him of an additional amount of $60 per month commencing July 1, 1954 and ending April 1, 1970. The State, he said, is obligated to surface and pave the additional area for parking purposes. He recommended that the lease be approved. The Commission accepted his recommendation.

Disposal of an obligation to Mr. Henry DeYoung in connection with a right of way settlement on the Medford-Ashland Section of the Pacific Highway was considered by the Commission. It was pointed out that the right of way settlement provided for the State to protect Mr. DeYoung's water right, but in removing gravel from the area, considerable expense was caused Mr. DeYoung in securing a source of irrigation water. In order to irrigate as usual, the Right of way Engineer stated, it is necessary for Mr. DeYoung to pipe water from a creek some distance from his original pond. Mr. DeYoung, he added is willing to release the State of its obligation if paid the sum of $300 which is less than it would cost the State to install a pipe line to remedy the situation. Upon the Right of Way Engineer's favorable recommendation, the Commission approved the payment of $300 to Mr. DeYoung.

The Right of Way Engineer requested and the Commission granted authority to offer for sale at a minimum price of $250,000 that portion of the former Fred Meyer property on Unit No. 4 of the T. H. Banfield Expressway, Portland, that lies outside of the highway right of way. The attached resolution, relative thereto, marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission by unanimous vote.

The matter of transferring to Wilbur and Anna Badley 0.04 acre of excess right of way on the Otter Crest Section of the Oregon Coast Highway in Lincoln County was presented by the Right of Way Engineer. He explained that by reason of certain concessions the Badleys granted the State with respect to driveways the State has saved a considerable amount of money, and it is now proposed to reconvey to the Badleys this small area which lies adjacent to their house, contains some shrubbery and really should not have been purchased from them in the first place inasmuch as it is of no value to the State for highway purposes. He recommended that the property be transferred to the Badleys for the sum of $1. The Commission approved the transfer.

The Commission discussed a proposed exchange of Lots 24, 25, and 26 in Block 17 in North Bend for Lots 20, 21, and 22 in the same block, owned by Mr. Joe Fitzpatrick. The Right of Way Engineer explained that the lots are of equal value and that the exchange is to be made on an equal basis except that the deed to the State will be a warranty deed with title insurance, and the grantor agrees to pay the 1954-55 taxes in full, whereas, the State property will be conveyed to Mr. Fitzpatrick by bargain and sale deed without furnishing benefit of title. The present-owned state lots, he stated, were acquired for use as a maintenance site and the same use can be made of the lots being exchanged. He added that by exchanging the lots the State will avoid payment of a street assessment of approximately $450 in 1955. He recommended that the exchange be approved. The Commission accepted his recommendation.

A proposed change in location of accesses to the Morehead property on the Noble Slough-Foster Section of the South Santiam Highway in Linn County was considered. The Right of Way Engineer stated that when the option was secured two accesses were granted on the south side of the highway, but when the deed was prepared it was found that through an error in the map used in the negotiations, one of them was not on the Morehead property, but they want it now because a church is about to be built on their property. Access control on this section, he pointed out, has not been secured in all instances. He recommended that the Morehead's request for access be granted which is in conformity with the original understanding when the option was signed. The Commission accepted the recommendation.

A change in zoning from residential status to commercial status of property located in the north half of Block 31, Hackleman's Addition to Albany, was discussed. The Right of Way Engineer explained that the State owns all of the northeast quarter and the north 35 feet of the northwest quarter of Block 31. The adjacent property owner, he said, has agreed to waive all rights of access to the present highway, and the change in zoning will not injure the State in any way. He recommended approval of the zone change. The Commission approved the recommendation.

The Right of Way Engineer recommended approval of a lease arrangement with Carl Nelson for continued use of 0.76 acre of land with buildings, etc., on the Tiller-Trail Secondary Highway, near Milo in Douglas County, as a maintenance site. The consideration, he said, is $20 per month for a period of three years beginning August 16, 1954. The Commission approved the lease.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties which are needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Clackamas Overcrossing of the Clackamas Highway

R 21592 - M. C. Curtis
Right of Way (Clackamas)
4,300 square feet

Clackamas Overcrossing of the Clackamas Highway (cont.)

R 21753 - Christian Cadonau
Right of Way and Borrow Pit
(Clackamas)
2.0 acres

Hilgard Junction-Red Bridge Section of the Starkey Highway

R 21986 - Elizabeth Underhill
Quarry Site (Union)
12.6 acres

Unit No. 2 of the T. H. Banfield Expressway

R 14888 - Lang Brothers
Right of Way (Multnomah)
0.15 acre

Greggs Creek-Wedderburn Section of the Oregon Coast Highway

R 21342 - S. O. Newhouse
Right of Way (Curry)
0.70 acre

R 21345 - Martin Prevics
Right of Way (Curry)
Parcel No. 1 - 1.43 acres
Parcel No. 2 - 0.025 acre

R 21766 - Walter H. Hines
Right of Way (Curry)
1.5 acres

R 21767 - Charles M. Gray
Right of Way (Curry)
Parcel No. 1: 22.0 acres
Parcel No. 2: 7.86 acres

R 21768 - Louis Colvin
Right of Way (Curry)
9.4 acres

Greggs Creek-Wedderburn Section of the Oregon Coast Highway

R 21773 - Houston Barton
Right of Way (Curry)
1.96 acres

June 23, 1954

Greggs Creek-Wedderburn Section of the Oregon Coast Highway (cont.)

R 21885 - William H. E. Coffman
Right of Way (Curry)
10.8 acres

R 21889 - Nolan L. Chenoweth
Right of Way (Curry)
0.54 acre

R 21893 - Paul H. Connet
Right of Way (Curry)
13.6 acres

R 21895 - Kate L. Bailey
Right of Way (Curry)
Parcel No. 1: 12.0 acres
Parcel No. 2: 16.5 acres

R 21896 - Ruby A. Bailey
Right of Way (Curry)
25.0 acres

R 21899 - Robert M. Knox
Right of Way (Curry)
37 acres

R 21998 - Lynn Taylor
Right of Way (Curry)
0.1 acre

R 21999 - Harris Kennedy
Right of Way (Curry)
0.11 acre

Vale-Cairo Section of the Central Oregon Highway

R 20230 - Harry Fukiage
(Malheur)
Parcel No. 1: 13.43 acres for Gravel Pit
Parcel No. 2: 0.99 acre for Roadway

June 23, 1954

Pendleton-Deadmans Pass Section of the Old Oregon Trail Highway

L 2193 - Robert Neagle Forrest, et al
New resolution required for change of location of accesses

The Commission approved the request by adopting the attached resolutions relative thereto marked EXHIBITS "K-1" through "K-5 ", inclusive, which resolutions by this reference are made a part hereof with like effect as though extended in full herein. (Re item R 21986, the Commission instructed the Chief Counsel not to start a condemnation action now if the contractor does not intend to use this quarry. See additional minute entry ahead.)

The Commission considered and approved the Chief Counsel's written report of cases which have been tried by his office since the May meeting of the Commission as follows:

1. State vs Searcy R. Binford, et al, L 2081: Negotiations had been made by the State on the basis of $45,000 for the property, whereas, the defendants demanded $100,000. The jury awarded $47,500 plus attorney's fees in the amount of $2,500.

2. State vs W. M. Hubbs, et ux, L 2082: The State offered $1,731 for this property, whereas, the defendants demanded the sum of $5,000. The jury returned a verdict in the amount of $5,000 plus $830 attorney's fees.

3. State vs Vera H. Redenbaugh, L 1969: The State offered $6,300 for this property, whereas, the owners demanded the sum of $28,464.50. The jury awarded the sum of $8,400 plus attorney's fees in the amount of $600.

4. State vs Stephen J. Spoerl, L 1970: An offer in the amount of $5,150 was made, whereas, the defendants demanded the sum of $29,029. The jury awarded a verdict in the sum of $22,500 plus attorney's fees in the sum of $2,750.

5. State vs Superbilt Manufacturing Company, Inc., L 1799: The State offered $150,000 for this property, whereas, the defendants demanded the sum of $500,000. The jury returned a verdict in the amount of $385,000 plus $30,000 for attorney's fees. (In connection

with this case, the Chief Counsel requested authority to appeal the Court's decision to the Supreme Court as he felt that errors had been made in the Lower Court's admitting of certain evidence. The Commission approved the appeal.)

6. State vs Yaquina Bay Dock and Dredge Company, L 1878: The State sought to collect the sum of $7,283.50 for damage to bridge traffic adjacent to the Yaquina Bay Bridge. The State moved for a voluntary nonsuit which the Court granted and which will permit refiling of the case.

7. State vs Verlin E. McCarthy, et al, L 2129: An offer was made in the amount of $1,650 whereas, the defendants demanded $16,364.70. The jury returned a verdict in the sum of $6,373.10.

8. State vs Emily E. Butterfield McKeraghan, et al, L 2064: An offer in the amount of $6,000 was made, whereas, the defendants demanded the sum of $15,000. The jury returned a verdict in the sum of $12,000 plus $1,200 attorney's fees.

9. State vs James Baker, et ux, L 1960: The sum of $8,625 was offered, whereas, the defendants demanded $17,500 for the property. The jury returned a verdict in the sum of $7,000.

10. Truck Sales and Service Company vs State, L 2155: The jury awarded a verdict in the sum of $19,000.

11. State vs Paul L. Kertes, et al, L 2019: The State offered $1,500 for this property, whereas, the defendants demanded the sum of $73,000. The jury returned a verdict in the sum of $7,500 plus $900 attorney's fees.

12. State vs Paul M. McFarland, et ux, L 2159: An offer of $1,000 was made for the property, whereas, the defendants demanded the sum of $4,500. The jury returned a verdict in the sum of $2,250 plus $400 attorney's fees.

13. State vs Roy F. Hobby, et al, L 2130: An offer in the amount of $11,226 was made for this property, whereas, the defendants demanded the sum of $20,300. The jury returned a verdict in the amount of $15,357.51 plus attorney's fees in the amount of $1,500.

(For further details concerning the Chief Counsel's report of cases tried, see

copy of his letters of June 16 and 18, 1954, in the General Files.)

The Commission also considered and accepted the Chief Counsel's report of pending court cases settled since the Commission meeting of May 11 and 12, 1954, as follows:

1. State vs Myrle A. Strachan, et al, L 2225: The defendants demanded the sum of $9,700. Settlement was made for $9,500.

2. State vs William Perini, et ux, L 2214: Appraisals for this property showed a valuation between $1,018.50 and $1,727.50. The settlement was secured in the amount of $1,500.

3. State vs Walter S. Tracey, et al, L 2196: The sum of $4,800 was offered and settlement was made for the sum of $5,650 plus replacing two roadway connections.

4. State vs Peter K. Kuiper, et al, L 2218: The sum of $2,300 was offered and a settlement finally agreed upon for the sum of $2,750.

5. State vs T. H. DeArmond, et ux, L 2037: An offer in the amount of $17,510 was made, whereas, the defendants demanded $23,000. Settlement was agreed upon for the sum of $20,000 plus removal of a detour road.

6. State vs James J. Forkan, et ux, L 2113: An offer in the sum of $1,000 was made, whereas, the defendants demanded $2,500. Settlement was made for $1,400.

7. State vs John Zak, et ux, L 2205: The sum of $610 was offered and a settlement finally made for that amount.

8. State vs Paul P. Vanderzanden, et ux, L 2050: The sum of $5,575 was offered, whereas, the defendants demanded $17,600 including attorney's fees. Settlement was agreed upon for the sum of $7,500.

9. State vs Joseph Meeusween, et ux, L 2049: An offer in the sum of $5,000 was made for the property and a settlement

agreed upon in the sum of $7,000.

10. State vs Ernest Behrman, et ux, L 2042: An offer for $4,299 was made, whereas, the defendants demanded $7,500 plus $750 attorney's fees. Settlement was reached for the sum of $5,000.

11. State vs Efem Warehouse Company, L 2110: The sum of $5,000 was offered for this property, whereas, the defendants demanded $12,500. Settlement was reached for the sum of $8,000.

12. State vs Charles W. Koyl , et al, L 1935: An offer in the sum of $13,000 was made which was rejected by the defendants who asked the sum of $17,000. Settlement was reached for the sum of $17,500 including the taking of three additional acres.

13. State vs A. G. Lewis, et al, L 2195 to recover $211, the cost of repairing a State Highway Department vehicle. Settlement in the amount of $150 was agreed upon.

14. State vs Ivan T. Skyrman, et al, L 2124: The sum of $7,202 was offered for this property, whereas, the defendants demanded the sum of $14,000. Settlement was reached for the sum of $7,900.

15. State vs Milton D. Tarlow, et al, L 1800: An offer in the amount of $16,500 was made in 1951 which offer was rejected by the defendants who demanded the sum of $30,000 plus $3,000 attorney's fees. Settlement was finally agreed upon in the amount of $16,500 plus attorney's fees.

16. State vs Yaquina Bay Dock and Dredge Company, L 1878 to recover $7,283.50 which is the amount of damages to bridge dolphins adjacent to Yaquina Bay Bridge caused when the ship, "Joseph Aspiin", collided with the dolphins during April 11, 1948. The case came up for trial on June 17, 1954, and resulted in a voluntary nonsuit. A compromise settlement in the amount of $3,500 was agreed upon.

(For further details concerning the above-listed report of cases settled, see copy of the Chief Counsel's letters of June 18, June 22, and June 28 in General Files.)

June 23, 1954

The Commission considered and confirmed offers recommended by the Chief Counsel for acquisition of real property required for various highway purposes, which offers were tendered to the owners prior to the commencement of condemnation proceedings in conformity with authority granted by the Commission in its resolution adopted December 20, 1951:

Salem By-Pass-Jefferson Junction Section of the Pacific Highway East

R 20453 - Owner: Louis C. Lorenz, et ux. 0.14 acre for right of way. Amount of offer $2,600.00. Authorized by Commissioner McIver on June 4, 1954.

Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway

R 21351 - Owner: C. O. Van Kleeck, et al. 1,350 square feet for right of way. Amount of offer $617.00. Authorized by Commissioner McIver on June 4, 1954.

Booth Ranch-Myrtle Creek Section of the Pacific Highway

R 21866 - Owner: J. O. Ledgerwood, et al. 7.16 acres for right of way. Amount of offer $9.600.00. Authorized by Chairman Chandler on June 18, 1954.

Frontage Road-McLaughlin Boulevard Section of the Pacific Highway East

R 21904 - Owner: Alameda Snyder. 7,820 square feet for right of way. Amount of offer $1,350.00. Authorized by Commissioner McIver on June 4, 1954.

R 21903 - Owner: Elizabeth J. Shackelford. 225 square feet for right of way. Amount of offer $300.00. Authorized by Commissioner McIver on June 4, 1954.

Sherman Junction-Willowdale Section of the The Dalles-California Highway

R 21843 - Owner: John G. Bolter, et al. 1.45 acres for right of way, and 0.55 acre for excess taking. Amount of offer $9,375.00. Authorized by Chairman Chandler on June 18, 1954.

The Commission considered and approved the following offers in condemnation cases heretofore authorized for acquisition of real property required for various highway purposes, as recommended by the Chief Counsel:

	Recommended Offer
Tualatin River-Middleton Section of the Pacific Highway West	
R 19695 - Magdalena Krause Right of Way (Washington) 1.416 acres	$1,557.00
Sylvan Section of the Sunset Highway	
R 20694 - George Harold Raab Right of Way (Multnomah) 125 square feet	$ 200.00
Hayesville Junction-Wilsonville Junction Section of the Pacific Highway East	
R 21349 - R. A. Forkner (Marion) Parcel No. 1: 0.44 acre for Right of Way Parcel No. 2: 0.10 acre for Right of Way Parcel No. 3: 0.03 acre for Slope Easement	$6,335.00
R 21541 - Elmer F. Gaska Right of Way (Marion) 0.22 acre	$4,000.00

The Chief Counsel reported that the Attorney General, after having made a study of various legal positions in the State, made a revaluation of the responsibilities of several legal positions in the Highway Department and approved adjustments with respect to 11 members of the Legal staff, resulting in a total increase of $302 per month. He recommended, and the Commission approved such increases as follows, effective July 1, 1954:

Position Title	Attorney Assigned to Position	Attorney Grade 7-1-54	Present Monthly Salary	Proposed Monthly Salary
Chief Counsel	C. W. Enfield	VI	$700.00

Office Attorney	Leslie Hampton	I	394.00	410.00
Title Attorney				

The Chief Counsel reported briefly concerning cases that have been filed against the State for the purpose of collecting damages resulting from the Vanport flood in May, 1948. He stated that to date 42 separate cases have been filed demanding payment of damages totaling $1,551,990.33. Motions to quash the claims, he said, have been filed against the first 15 cases introduced, and all avenues of possible defense, both legal and factual, are being explored and every effort will be made to protect the State's interests. The Commission accepted the report. (For details concerning the various plaintiffs and the amounts claimed by them, see copy of the Chief Counsel's letter report of June 17, 1954, in the General Files.)

The Chief Counsel also reported that the following court actions have been filed against the State:

1. Natt McDougall Company vs State of Oregon, by and through its State Highway Commission, L 2189.

2. R. A. McFerran vs State Highway Department, AIS 53-140.

3. Harry Perkins, et ux, vs State of Oregon, L 2235.

The Commission accepted the report.

Authority to commence legal proceedings against Kimper Felt Gregg, CAO-54-17 to collect damages caused a state vehicle was requested by the Chief Counsel. He said that Mr. Gregg damaged a state truck which was towing a snow plow and that the State driver was not at fault. He also said that Mr. Gregg has not replied to letters and that his insurance company has rejected the claim. The Commission authorized commencement of legal proceedings to collect.

Abandonment of two claims which have been determined as uncollectible was recommended by the Chief Counsel. It appears that in the case of Matthew J. Pasetta CAO-54-31, Mr. Pasetta had presented evidence that he was not in Oregon at the time a State Highway Department vehicle was damaged while ploughing snow, so the claim against him has been abandoned, it being purely a case of mistaken identity. In the case of John Fitzgerald, CAO-54-65, in which a State Highway Department vehicle collided with the rear of a vehicle operated by Mr. Fitzgerald, the insurance carrier for Mr. Fitzgerald requested

that a bill be submitted for repairs to the state vehicle whereupon his insurance carrier rejected the claim and it was abandoned by the State. The Commission accepted the report.

The matter of granting to Beulah P. Moore an easement of access across Depoe Bay Ocean Wayside State Park was discussed by the Commission. The Chief Counsel stated that Mrs. Moore intends to construct a building, patio, and other facilities to house a gift shop and outdoor exhibits and has requested that the existing pedestrian access be widened for her use, and that it be extended a further distance along the southerly boundary of the park near the Depoe Bay Bridge. The widening, he stated, will necessitate further cutting of the masonry wall which divides the park from the highway and the sidewalk; further, that construction, repair, and maintenance of the proposed access is to be at the sole cost and expense of Mrs. Moore. This matter, he stated, has been considered by the State Parks Superintendent and the Engineering Department and has been approved by them. He recommended that it be approved by the Commission. The Commission adopted the recommendation.

Upon the Chief Counsel's favorable recommendation, the Commission approved out-of-State travel expense in amount $151.05, incurred by Charles Peterson, Assistant Attorney, who went to Los Angeles May 21-24, 1954, in connection with the case of the State vs Superbilt Manufacturing Company. The Commission also authorized Mr. C. W. Parker, Property Manager, to go to San Francisco, Los Angeles, and Sacramento during July, 1954, to study California methods of handling state surplus properties. The estimated cost of this trip is $176.40.

The Chief Counsel requested authority to employ C. William Dobson as an attorney in his office at a salary of $442 per month to fill a vacancy caused by a recent resignation. The Commission approved the request.

The Chief Counsel presented for consideration an exchange of easements with The California-Oregon Power Company concerning their property on the Grants Pass-Murphy Section of the Williams Secondary Highway in Lot 15, Section 31, Township 36 South, Range 5 West, W. M., in Josephine County. He explained that in connection with construction of that highway section, it is necessary for the Power Company to move its transmission pole line. The exchange of easements, he stated, provides that the Power Company shall transfer to the State an easement for power facilities that it acquired from Eva C. and Gertrude C. Lewis, and the State shall convey to the corporation a similar easement on which to reestablish its power lines and other facilities. He recommended approval of the exchange of easements. The Commission accepted the recommendation.

The Assistant Counsel, Mr. R. L. May, Jr., brought up the matter of granting additional points of access to Mr. Winston W. Chambers on the Rinehart Creek-Frankport Unit of the Frankport-Euchre Creek Section on the Oregon Coast Highway in Curry County. He explained that the Commission at the previous meeting authorized payment of $10,529 to Mr. Chambers for land to be used as right of way for the highway improvement, being a strip two or three miles long, and Mr. Chambers, in order to accommodate his property holdings, has requested

five points of access. He said that the matter has been carefully investigated, and that he can recommend the granting of three of the access points but not the others. The Commission accepted the recommendation.

The Commission unanimously approved the award of the following contracts as reported by the Engineer:

1. Grading and surfacing the Lewisburg Loop Section of Armstrong Lane and Dickinson County Roads in Benton County. Bids received April 1, 1954. Conditions of award satisfied May 14, 1954. J. R. Taggart, Salem, contractor.

2. Grading and paving the St. Helens-McNulty Creek Section of Old Portland County Road and Gable Road connection in Columbia County. Bids received April 1, 1954. Conditions of award satisfied May 14, 1954. Parker-Schram Company, Portland, contractor. (Combination bid with Tide Creek-St. Helens Project.)

3. Grading and paving the Tide Creek-St. Helens Section of the Columbia River Highway in Columbia County. Bids received April 1, 1954. Conditions of award satisfied May 14, 1954. Parker-Schram Company, Portland, contractor. (Combination bid with St. Helens-McNulty Project.)

4. Grading the Coast Fork Willamette River-Divide Unit, Goshen-Divide Section of the Pacific Highway in Lane County. Bids received April 1, 1954. Conditions of award satisfied May 14, 1954. F. L. Somers and George R. Stacey, Klamath Falls, contractor.

5. Grading, paving, and bridge construction on Jasper Bridge-Pleasant Hill Section of Springfield-Creswell Highway in Lane County. Bids received April 2, 1954. Conditions of award satisfied May 14, 1954. Acme Construction Company, Eugene, contractor.

6. Grading and paving 6th and Stanley Streets in Amity, Yamhill County. Bids received May 11, 1954. Conditions of award satisfied May 14, 1954. O. C. Yocom Company, McMinnville, contractor.

7. Grading and paving Front Street in Riddle in Douglas County. Bids received May 11, 1954. Conditions of award satisfied May 17, 1954. Roseburg Paving Company, Roseburg, contractor.

8. Paving Monroe, Third, and Washington Streets in Merrill in Klamath County. Bids received May 11, 1954. Conditions of award satisfied May 17, 1954. Asphalt Paving Company, Klamath Falls, contractor.

9. Grading and paving Linn Street in Brownsville in Linn County. Bids received May 11, 1954. Conditions of award satisfied May 17, 1954. P. B. Doherty & Son, Portland, contractor.

10. Grading and paving on Pacific Highway East between Portland and Milwaukie in Clackamas County. Bids received May 12, 1954. Conditions of award satisfied May 17, 1954. K. F. Jacobsen & Company, Inc., Portland, contractor.

11. Construction of One Horse Slough Bridge over Cold Spring Creek on Lebanon-Crabtree Corner Road in Linn County. Bids received May 12, 1954. Conditions of award satisfied May 18, 1954. Orlando C. Bennard, Portland, contractor.

12. Oiling West Unit, Alicel Junction-Cove Section of Lower Cove County Road in Union County. Bids received May 11, 1954. Conditions of award satisfied May 18, 1954. Russell Olson Construction Company, Inc., Pendleton, contractor.

13. Grading and oiling Burns Corner-Lewisville Section of Burns Corner-Suver County Road in Polk County. Bids received May 12, 1954. Conditions of award satisfied May 18, 1954. Fred Rouse and Henry H. Miller, Salem, contractor.

14. Grading, paving highway and city streets in Condon in Gilliam County. Bids received May 11, 1954. Conditions of award satisfied May 20, 1954. Coast Blacktop Paving Company, Bend, contractor.

15. Grading and oiling East Unit, Rock Creek-Haines Section of Rock Creek County Road west from Haines in Baker County. Bids received May 12, 1954. Conditions of award satisfied May 20, 1954. Stephens & Carnes, Junction City, contractor.

16. Construction of OP and ER Overcrossing on Pacific Highway near Cottage Grove in Lane County. Bids received May 11, 1954. Conditions of award satisfied May 26, 1954. Central Heating Company Oregon Ltd., Eugene, contractor.

17. Grading and oiling Hy-Line Road Section of Hy-Line County Road between Weiser and Payette Spurs in Malheur County. Bids received May 11, 1954. Conditions of award satisfied June 1, 1954. C. E. Leseberg, Nyssa, contractor.

18. Grading and paving Willamette Junction-Walker Mountain Road and Chemult-Beaver Marsh Units, on The Dalles-California Highway in Klamath County. Bids received May 12, 1954. Conditions of award satisfied June 7, 1954. Rogers Construction, Inc., Portland, contractor.

19. Grading Modoc Point-Barkley Springs Slope on The Dalles-California Highway in Klamath County. Bids received May 12, 1954. Conditions of award satisfied June 8, 1954. F. O. Laws, Salem, contractor.

20. Paving Pacific and Hillside Avenues in Brookings in Curry County. Bids received May 12, 1954. Conditions of award satisfied June 14, 1954.

K. F. Jacobsen and Company, Inc., Portland, contractor.

21. Construction of Banfield Expressway Undercrossing of 47th Avenue, Portland, Multnomah County. Bids received May 12, 1954. Conditions of award satisfied June 15, 1954. Schrader Construction Company, Portland, contractor.

22. Rock base, oiling, and crushed materials in stockpile on Big Eddy-Rufus Section of Columbia River Highway in Wasco and Sherman Counties. Bids received May 11, 1954. Conditions of award satisfied June 21, 1954. Rogers Construction Company, Portland, contractor.

The Engineer reported that the truck-hauling of heavy loads of cinders on the road to Round Butte in the Cove Palisades State Park has damaged the oil portion of the roadway to such an extent that in order to protect and preserve the same, it is necessary to reduce the maximum permissible weight of vehicles operating upon the road to a maximum weight of 4,000 pounds upon any single axle, 7,000 pounds upon any tandem or dual axle, and 10,000 pounds maximum gross weight upon any vehicle or combination of vehicles, and he so recommended. The Commission approved the recommendation unanimously by adoption of the attached resolution relative thereto, marked EXHIBIT "J", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer also reported the lifting of the load restrictions heretofore in effect on the following highway sections, and that reduced load limit signs have been removed:

1. West Diamond Lake Highway from M. P. 1.00 to M. P. 23.89, effective 8:00 a.m. Tuesday, May 18, 1954.

2. Crater Lake North Highway from M. P. 0.00 to M. P. 5.29, effective 8:00 a.m. Tuesday, May 18, 1954.

3. Weston-Elgin Secondary Highway from M. P. 8.00 to M. P. 37.9, effective 8:00 a.m. Monday, May 17, 1954.

The Commission accepted the report.

The results of receiving bids in Salem on June 14, 1954 for the purchase of scrap material stored at the Astoria-Megler Ferry Dock in Astoria were reported by the Engineer who recommended acceptance of the offer of the high bidder for each of the items advertised. The Commission adopted the recommendation and so ordered. (For details see tabulation of bids filed in the office of the Secretary under File No. 471, "Miscellaneous Proposals".)

The Commission had under discussion the proposed agreement among the Port of Astoria, Pacific County, Washington, Washington State Highway Department, and Oregon State Highway Department concerning an engineering study for a proposed toll bridge across the Columbia River in the vicinity of Astoria. The agreement among other things provides that each of the participating parties shall contribute $12,500 toward the cost of the survey, which is

estimated to cost a total of $50,000. The agreement as prepared was approved and signed by the Commission on recommendations of the Engineer and the Chief Counsel. It was then delivered to Mr. James R. Bowler, Manager of the Port of Astoria, who was present, for further handling, with the understanding that at least one fully executed copy of the agreement shall be furnished the Oregon Highway Department for its records and files.

The Engineer reported, as follows, on items of unfinished business appearing on the Secretary's Summary, dated May 12, 1954:

1. Request of Earl M. Bush for fencing publicly-owned land along US 20 between Sage Hen Hill and Riley Store: The Engineer advised that it has been determined from investigation that such fencing will cost about $16,000. He recalled, however, that in the previous discussion of this matter, the Commission also requested a report on the cost to fence publicly-owned land adjacent to all State Highways. He advised that such investigation is not yet completed and that he will report progress from time to time. He suggested that the item be dropped from the list of unfinished business and that further report on the subject be considered as new business. The Commission approved the suggestion.

2. Request of Gold Beach Rotary Club for establishment of a state park adjacent to US 101 in the vicinity of Gold Beach: The Engineer recalled that the Commission at a previous meeting deferred action on this matter, pending Chairman Chandler's inspection of the premises and consultation with local people. Chairman Chandler advised that he has not yet had an opportunity to go into the matter. The item was ordered retained on the list of unfinished business.

3. Report on public swimming without supervision in State Park areas: The Engineer recalled that when this matter was discussed by the Commission at a previous meeting, the main point in question was whether or not swimming in such locations should be allowed if a lifeguard is not present as a protective measure, and that the Commission deferred action for study. The Chief Counsel advised that the State cannot be held liable for failure to provide lifeguards for swimming facilities in our state parks, nor can it be held liable for the negligence of the lifeguards if they were in fact provided, except in cases where an artificial type of pond is furnished. In case the State should furnish a swimming pool, diving board, or facilities of that nature, then, he said, it is the duty and obligation of the State to see that they are properly taken care of. Other than that, the State assumes no obligation and the posting of warning signs, in his estimation, is all that is required. In view of this information, the Commission decided unanimously to continue as in the past in handling matters of this kind. The item was ordered deleted from the list of unfinished business. (The Parks Superintendent brought this matter up for further discussion later in the session, at which time the Commission verified its decision. See paragraph ahead.)

4. The question of granting additional commercial access to Mrs. McCabe on US 97 in the community of Lapine, Deschutes County: The Engineer advised that Mrs. McCabe previously had access to the old highway at this point, and he suggested in view thereof that the Commission

give her the access that she now requests so as to serve her lessee, Union Oil Company Service Station, provided she gives the State clear title to right of way that is needed from her and will accept as compensation therefor the sum of $392.97, the amount mentioned in the original option. Chairman Chandler pointed out that the granting of new accesses in cases of this kind are contrary to the established policy of the Commission; however, it appeared to him that this is an unusual case, particularly due to the fact that Mrs. McCabe had access to the highway in the past. He, therefore, stated that he would offer no objection to the granting of the access for which she has made application. As a result of discussion, motion was made by Commissioner Reynolds that Mrs. McCabe's request for additional commercial access be granted on the basis of the Engineer's suggestion. The motion was seconded by Commissioner McIver and received the unanimous vote of the Commission. The item was ordered deleted from the list of unfinished business.

5. Proposed legislation to be submitted to the next state legislative assembly which meets in January, 1955: The Chief Counsel advised that six proposed bills had been drafted as previously reported and that one additional bill is now in process of preparation. He explained that this bill concerns the Commission's control over highway property, particularly with regard to an individual's right to file a mining claim on property owned by the State. The Commission accepted the report. There followed discussion of the need to increase the state gasoline tax. The Engineer advised that he is studying this matter and will present a written report to the Commission within the next few days so the Commission can decide whether or not to ask for the increase. He requested authority from the Commission to pass along to the Highway Interim Committee information as to the need for the increase. The Commission approved the request. This item is to be deleted from the list of unfinished business.

6. Payment of premium for insurance purchased in favor of the Medford Irrigation District as protection against liability arising from reestablishment of an irrigation ditch necessitated by construction of the Medford-County Farm Section of the Pacific Highway: The Engineer recalled that this matter was referred to Commissioner Reynolds at the last meeting with power to act, and he gave as his understanding that after consulting with the Chief Counsel, Commissioner Reynolds approved payment of the premium with highway funds. Commissioner Reynolds confirmed the understanding, whereupon the item was ordered deleted from the list of unfinished business.

7. Alleged promise to construct a footpath along US 20 through the City of Toledo: The Engineer stated that pursuant to instructions from the Commission at the previous meeting, he has studied this matter and has ascertained that such a footpath will cost about $4,500. He recommended approval of the project for construction this year as a minor betterment project to be financed with unobligated funds, particularly in view of the fact that the footpath was promised some years ago, but was not built because of wartime conditions. The Commission approved the report and recommendation. The item is to be removed from the list of

unfinished business.

8. Suggestion of Mr. James E. Taggart, Hermiston, for designation of a highway route number for a section of old US 30 between Stanfield and Umatilla through Hermiston: The Engineer advised that he cannot at this time recommend that this short section of highway be given a route number. He suggested that the assignment of a number be deferred until the Umatilla River Bridge across the Columbia River is completed and after consulting with officials of the Washington State Highway Department inasmuch as it will involve assignment of a similar number to a highway section in that state. The Commission adopted the recommendation and ordered the item deleted from the list of unfinished business.

9. Request of residents of Lyons and Mehama for a pedestrian sidewalk on the bridge over the North Santiam River at Mehama: The Engineer recalled that this matter was discussed by the Commission at a previous meeting and was referred to him for further investigation as to cost and feasibility. He estimated the cost of a sidewalk four feet wide at $6,200 and one three feet wide using untreated timbers at $4,000. The Commission authorized construction of a sidewalk three feet wide on one side of the bridge only at $4,000. The item was ordered deleted from the list of unfinished business.

10. Request of Oregon State Board of Aeronautics that airplanes be permitted to land on designated sections of the Oregon beaches at certain predetermined times: The Engineer recalled that Mr. Earl Snyder, Board Director, appeared before the Commission at the previous meeting and presented the request personally, but action was deferred for study. The Chief Counsel rendered a written report on the subject outlining the Commission's legal authority to do what the Board of Aeronautics requests. In his report he stated that he could find no statute that would give the Commission such authority, and, in his opinion, it would be necessary that each application for each landing strip be considered on its own merits and in strict conformity with the procedure outlined in the law covering such purposes. As a result of discussion, the Commission decided unanimously not to authorize the landing of airplanes on the ocean beaches, thus confirming action previously taken on this same matter. The Commission ordered the item removed from the list of unfinished business.

11. Request of delegation from Grass Valley for improvement of US 97 through their city: As instructed by the Commission at the previous meeting, the Engineer reported on the cost to construct pavement full width between curbs. He stated that the City constructed concrete curbs about two years ago on grade lines furnished by the Highway Department, and that such curbs are in good condition. He estimated the cost of paving the area between the curbs at $15,000 and recommended approval of the project, bids to be received at the next regular meeting of the Commission. The Commission approved the recommendation unanimously. The item was ordered deleted from the list of unfinished business.

In the discussion of this matter the question arose whether or not the per-

manent highway alignment will by-pass the City of Grass Valley. The Engineer stated that studies are now being made for a permanent line which probably will by-pass this town; however, construction of such highway is not contemplated for a number of years in the future, so improvement of the present highway through the town is in conformity with the Commission's established policy.

12. Request of Willamina Chamber of Commerce for improvement of the Salmon River Highway through Willamina: Pursuant to instructions from the Commission at a previous meeting, the Engineer reported that the cost to construct storm sewers, curbs, and pavement widening on a 0.32-mile section in Willamina is estimated at $35,000. He recommended approval of the improvement and that he be authorized to advertise the project for bids to be received at the next meeting of the Commission. The Commission approved the recommendation. The item was ordered deleted from the list of unfinished business.

13. Request of Deschutes County Court for elimination of some crooked sections and replacement of two one-way bridges on US 126 between Redmond and Sisters: The Engineer requested authority to make a location survey for modernization of this highway. The Commission approved the request unanimously and ordered the item removed from the list of unfinished business.

14. Proposed acquisition of land from the Pacific Power and Light Company as an addition to Wallowa Lake State Park: This item was reported on by the State Parks Superintendent earlier in the session but no action was taken because of uncertainties that developed in discussions with the Power Company with respect to the leasing of its property. The Commission ordered the item retained on the list of unfinished business.

The meeting recessed for luncheon at 12:00 noon and reconvened at 2:00 p.m. with the same persons present and participating.

Chairman Chandler reported that during the luncheon period he received information that a dangerous condition exists on The Dalles-California Highway about three miles south of Bend, where numerous accidents have occurred because of the slippery condition of the pavement when it rains. The Deputy Engineer stated that he also had received reports to the same effect and that investigation revealed the reports to be well-founded. He further stated that he had ordered the section reoiled and sanded, and warning signs erected; also that he would continue to watch the conditions closely and if this treatment does not prove satisfactory, then a non-skid surface will have to be applied.

The Commission discussed a request from the City of Taft for installation of a "stop light" on US 101 at the point where fire equipment enters the highway in answering fire calls. The Engineer recommended denial of this re-

quest because past experience indicates that a surprise signal such as this one would accentuate the accident rate. He gave as his considered opinion that with proper use of the siren and perhaps personal aid from one of the firemen, there would be no difficulty in the fire equipment getting onto the highway with minimum loss of time. The Commission adopted the recommendation.

A letter from Mr. C. Walton Larue, President of Pinehurst Improvement Association, protesting the Commission's previous denial for street lighting at the intersection of Jamieson Road and Bertha-Beaverton Highway had the attention of the Commission. The Engineer advised that upon receipt of this letter, further investigation was made which disclosed that during the past six years there has been only one accident during the hours of darkness at this intersection, and the average daily traffic on Jamieson Road is only 287 vehicles. The accident record and volume of traffic, he said, do not in any manner warrant illumination of the section, and he again recommended that the request be denied. The Commission adopted the recommendation and so ordered.

A request from Mr. James Nevin, Coquille, for installation of a stock pass on US 101 between Coquille and Bandon was presented. The Engineer estimated the cost of such a cattle pass at $2,500, and he recommended approval of the expenditure inasmuch as the conditions prevailing at the point where Mr. Nevin's cattle cross the highway are such that the cattle pass is warranted. Moreover, it would have been recommended some time ago when others in this vicinity were authorized, had Mr. Nevin made application for the same. The Commission unanimously approved construction of the cattle pass.

A request from Mr. A. C. Pierce, President of Pierce Freight Lines, Inc., Medford, for pavement of Boyd Street which connects the two streets that form the one-way street couplet on US 99 near the southerly limits of Medford, was presented. The Engineer recommended that the request be denied because in his estimation the obligation to pave the street belongs entirely with the City of Medford. He recalled that the same improvement was previously requested by the City and that the City was told that it is not a state obligation. The Commission adopted the Engineer's recommendation.

The Engineer requested authority to advertise for bids for grading the Olds Ferry-Ontario Section of US 30 on the survey alignment that was adopted by the Commission at a previous meeting. He advised that the plan is to finance the project with $665,000 of available bond funds, $600,000 of unobligated Federal Aid funds, and $305,000 of state matching funds, totalling $1,575,000. He explained that plans for the project are prepared and that the project can be advertised for bids at the next meeting of the Commission if the Commission approves. As a result of discussion, the Commission unanimously approved the project and authorized contracting the same at the earliest possible time.

The Engineer reported that in constructing the Sylvan Traffic Interchange on the Sunset Highway near the western limits of the City of Portland, it has been found necessary to relocate a considerable portion of a 4-inch water pipe line belonging to the Sylvan Water District. Some of the pipe line, he said, is on public right of way and some is on privately owned right of way, and the Water District has offered to pay fifty percent of the cost to reestablish it. He further explained

that there are approximately 1,050 feet of water main involved and that the cost to reestablish it is estimated at $2,625 of which, on a fifty-fifty basis, the State's share would amount to $1,312.50. He recommended approval of the payment of one-half of the cost of relocating the water main with the understanding that the State's share is not to exceed $1,312.50. The Commission adopted the recommendation and so ordered.

The Commission considered a request from Mr. David C. Koester, City Manager of Baker, for installation of a traffic signal on Broadway Avenue (US 30) at its intersection with Fourth Street in the City of Baker. The Engineer advised that investigation reveals there is insufficient warrant for a signal at this point considering both vehicular and pedestrian traffic volume. During a 16-hour period of count, he said, 966 pedestrians crossed Broadway Avenue, of which 532 crossed during the noon hour and consisted mostly of school children. He recommended that the request for traffic signalization be denied, and he further recommended that a school crossing signal be installed if the City will bear the entire cost of the same, it being the Commission's present policy not to cooperate financially in the installation of purely school or pedestrian signals located within the limits of incorporated communities. The Commission adopted both recommendations, and ordered that the City Manager be so informed.

The Commission also discussed another letter from Mr. David C. Koester, City Manager of Baker, requesting information concerning the widening of Tenth Street and a portion of Broadway in their City as the route of US 30. Commissioner Reynolds pointed out the uncertainties that exist with regard to the permanency of the Tenth Street routing of the highway. The Engineer recalled that the estimated cost of the improvement requested is $135,000, of which the City might contribute $24,000, being the cost of curbs. He further stated that when the City first requested the improvement it was advised that there are insufficient funds available to finance the project even with the proposed city cooperation. He pointed out that so far as finances are concerned, the matter is in status quo, there being absolutely no funds available at the present time to meet the State's share of the expense. In the discussion that followed, Commissioner Reynolds suggested that the project be denied because there is no money available to finance it. The suggestion was adopted by unanimous vote of the Commission.

The Engineer brought up for discussion the procedure being followed in the programming of Federal Aid Secondary Highway funds to be utilized in financing county road improvements. He recommended continuation of the present plan of 60 percent Federal funds, the balance to be paid 50 percent by the State and 50 percent by the county which plan, he said, has proven quite satisfactory and in general is well-liked by the county officials, notwithstanding that it will necessitate an additional $143,000 of state matched funds annually. He gave as his feeling that the additional cost of matching monies is justified from a public relations standpoint. The Commission approved the recommendation unanimously and so ordered. (For details see copy of the Engineer's report, dated June 2, 1954, to the Oregon State Highway Commission in the General Files.)

The Commission discussed and unanimously approved easement and construction agreements with the Oregon Pacific and Eastern Railway Company coverir.g construction of an overcrossing on the revised location of the Pacific Highway southerly and easterly from Cottage Grove in Lane County.

The Engineer reported on a request from Mr. E. S. Erskine, Owner of the Erskine Lumber Company, Swisshome, for improvement of a section of the Siuslaw Highway in the vicinity of Consumers Cooperative Mill, west of Swisshome, by elimination of alleged hazards due to a narrow roadbed and sharp curvature. He said that this matter has been investigated by the Traffic Engineer whose findings indicate that improvement of a short section of this highway near the mill is justified. He recommended the widening of the roadbed six feet on the inside for a distance of approximately 300 feet in the vicinity of the mill, and advised that such improvement will provide shoulder width and will improve the sight-distance sufficiently to take care of the situation. He estimated the cost of the work at $3,000 and advised if the Commission approves the project, that the work will be performed by state forces as a minor betterment project under next year's budget. The Commission approved the project on the basis of the recommendation.

The Commission discussed the advisability of participating with the City of Portland in improving conditions at the west end of the Sellwood Bridge where it connects with the Oswego State Highway. The Engineer advised that there has long been somewhat of a traffic congestion at this place and that a plan has been evolved by Engineers of the Highway Department in conjunction with others from the City of Portland which will materially aid in eliminating the hazard. The estimated cost of the work involved, he said, is $10,400, and the City of Portland will perform the work with its own forces if the State will pay fifty percent of the cost. He declared that this is a needed improvement, and he recommended approval of the project on a 50-50 basis with the City, the State's share to be one-half of the total cost but not to exceed $5,200. He exhibited a map showing the proposed plan. The Commission adopted the recommendation unanimously.

The Engineer brought up for discussion the acquisition of land acquired from the Bonneville Power Administration as right of way for widening the Salem-Willamina Highway along the frontage of the Bonneville Power Administration substation, a short distance west of Salem. He advised that the Bonneville Power Administration is contemplating considerable improvement on its property and wants to know how much of its property is needed as right of way when the highway is improved. He said that the present right of way is narrow and is wedged between the substation and the railroad tracks, and that in order to provide a minimum four-lane highway an additional strip of land ten feet wide must be acquired through the Bonneville property. The Bonneville Power Administration, he said, has indicated its willingness to sell this land for a nominal amount, but requests that the highway be widened now to permit them to properly slope their property where it fronts on the highway. He estimated the cost of doing the widening work at $2,000. He recommended acquisition of the right of way and performance of the widening work as a minor betterment project. The Commission approved the recommendation.

A request was presented from Mr. James E. Taggart, Chairman of the Roads Committee of the Hermiston Chamber of Commerce, for installation of a flashing beacon at the intersection of US 30 and the Hermiston Highway at a place known as "Bucks Corner". The Engineer advised that an investigation discloses that this is a four-way intersection with extremely high speeds on US 30. A traffic volume count taken on a typical week day in April revealed 2,035 vehicles entering the intersection, of which 659 entered from the Hermiston Highway. He further advised that there have been a number of accidents at the intersection, but he gave as his feeling that the installation of a flashing beacon at this point would be of no value in preventing them because before-and-after studies of installations previously made along this highway proved to be valueless as an accident prevention measure. He recommended that the request be denied but that there be installed in advance of the intersection oversize signs reading "Junction", calling public attention to the intersection. In view of the facts disclosed by the Engineer, the Commission denied Mr. Taggart's request but authorized the Engineer to install the oversize signs.

The Engineer reported completion of surveys conducted both by the State Highway Department and the U. S. Bureau of Public Roads on the Ukiah-Starkey Section of the Ukiah-Hilgard Secondary Highway in Umatilla and Union Counties. He exhibited a map showing the proposed location which extends from a junction with the Pendleton-John Day Highway near Ukiah, Umatilla County, to a connection with the existing Starkey-Hilgard Secondary Highway about $1\frac{1}{2}$ miles northeast of the town of Starkey, Union County. He advised that the Bureau of Public Roads is planning to call for bids in the near future for construction of a section of this highway within the National Forest, and that right of way must be acquired soon through privately-owned property. He mentioned that there is very little of such right of way, so the securing of options should not take long. He asked the Commission to approve the survey made by the State Highway Department, also that made by the Bureau of Public Roads and to authorize right of way negotiations. After careful consideration, the Commission approved the Engineer's recommendation by adoption of the attached resolutions relative thereto, marked EXHIBITS "C-1" and "C-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Engineer requested authority to proceed with the necessary detailed location survey for relocation of US 30 from a point approximately one and one-half miles east of Meacham to Glover Overcrossing, a distance of 11.36 miles. The proposed routing, he said, is a complete new one not heretofore studied, and is a most excellent one, far superior to any improvement that could be made along the existing line. He explained further details and recommended approval of his request, including authority to prepare right of way descriptions and to do all things necessary to get this project ready for contract letting when funds become available to finance the work. The Commission approved the request unanimously.

The Commission considered and by unanimous vote granted the following requests for extensions of time within which to complete state highway contracts, the Commission's action in each instance being in accord with

the Engineer's recommendation:

1. Parker-Johnson Company, Contract No. 4013 for widening the Cook Overcrossing of the Southern Pacific Railroad on the West Portland-Hubbard Highway, Washington County, requested an extension of time from April 30, 1954 to May 30, 1954 in which to complete the work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

2. Babler Brothers, Contract No. 3981 for construction of three structures on the Brush Creek-Frankport Unit of the Oregon Coast Highway in Curry Count, requested an extension of time from April 30, 1954 to July 29, 1954 within which to complete this contract. The Engineer recommended that the extension of time as requested be granted without penalty to the contractor. A letter was presented from the Bureau of Public Roads concurring therein.

3. Carl M. Halvorson, Inc., Contract No. 3878 for construction of the Cereghino Overcrossing of the Union Pacific Railroad Company tracks on the T. H. Banfield Expressway in Multnomah County, requested an extension of time from April 30, 1954 to May 31, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted subject to the usual penalty that the contractor be charged with engineering expenses incurred by the State subsequent to the date of completion specified in the contract. A letter was presented from the Bureau of Public Roads concurring therein.

4. Gibbons and Reed Company, Contract No. 3807 for grading the 92d Avenue-Fairview Section of the T. H. Banfield Expressway in Multnomah County, requested an extension of time from April 30, 1954 to September 7, 1954, inclusive, within which to finish this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

5. Glenn Snook, Contract No. 3905 for construction of four structures on Elkhead Road-Rice Hill Unit on the Pacific Highway in Douglas County, requested an extension of time from April 30, 1954 to July 30, 1954 within which to complete this contract. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

6. LeRoy C. Weideman, Contract No. 3940 for construction of Harris Beach Park Camping Area Facilities in Curry County, requested an additional extension of time from March 30, 1954 to May 15, 1954 within which to finish this contract. The Engineer recommended that the extension of time as requested be granted without penalty to the contractor.

7. Trowbridge Electric Company, Contract No. 4024 for installation of Springfield Traffic Signals in Lane County, requested an additional extension of time from May 30, 1954 to July 15, 1954 within which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

8. Hamilton and Thoms, Contract No. 3962 for construction of the Willow Creek Bridge on the Columbia River Highway in Gilliam County, requested an extension of time from April 30, 1954 to May 30, 1954 within which to finish this contract. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

9. C. C. Meisel, Contract No. 4001 for grading and oil mat surfacing on Grants Pass-Murphy Section of the Williams Secondary Highway in Josephine County, requested an extension of time from May 31, 1954 to July 15, 1954 within which to finish this work. The Engineer recommended that the extension of time as requested be granted without penalty.

10. The Colorado Fuel and Iron Corporation, Pacific Coast Division, Contract No. 4104 for fencing on Deschutes River-Fulton Canyon Section of the Columbia River Highway in Sherman County, requested an extension of time from March 31, 1954 to May 31, 1954 within which to finish this work. The Engineer recommended that the extension of time as requested be granted without penalty.

(For further details regarding the extensions of time listed above, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.) *

---

* FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above was based upon the recommendation of the State Highway Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that Contracts Nos. 3656, 3772, 3784, 3808, 3857, 3868, 3926, 3927, 3956, 3976, 3983, 3998, 4007, 4009, 4013, 4017, 4026, 4029, 4033, 4042, 4043, 4080, 4085, 4103, 4104, 4113, 4116, 4140, 4142, and 4144 for construction of state highway projects have been completed according to requirements of the contracts or modifications thereof, and that said projects are now ready for acceptance. The Commission, after due consideration, accepted said contracts by adopting the attached resolution relative thereto, marked EXHIBIT "D", which resolution by this reference is made a part hereof with like

effect as though extended in full herein.

The Engineer reported that the following cities and towns have fulfilled legal requirements for expenditure of State Tax Street Funds accrued to them as follows:

During the first six-month period of 1952:

Cove	$ 763.30

During the last six-month period of 1952:

Condon	$3,209.23
Glendale	2,887.65

During the second six-month period of 1953:

Antelope	$ 210.96
Barlow	263.71
Canyon City	1,786.17
Cascade Locks	2,577.28
Cave Junction	995.05
Chiloquin	2,348.74
Coburg	2,436.64
Columbia City	1,424.01
Condon	3,403.56
Cornelius	3,509.04
Creswell	2,327.64
Dayville	1,005.60
Detroit	963.40
Dufur	1,483.78
Dundee	1,082.95
Estacada	3,340.27
Falls City	2,999.21
Fairview	1,540.04
Fossil	2,267.87
Gearhart	1,997.13
Granite	140.64
Haines	1,128.66
Halsey	1,364.24
Harrisburg	3,030.86
Hines	3,227.76
Hubbard	1,733.42
Huntington	2,577.28
Idanha	1,554.10
Imbler	523.90
Jefferson	2,236.22
Lafayette	2,327.64
Long Creek	1,012.63
Maupin	1,097.02
Monroe	1,272.82

Mosier	$ 910.66
Oceanlake	2,461.25
Phoenix	2,622.99
Port Orford	2,369.83
Prairie City	2,890.21
Sisters	2,542.12
Summerville	256.67
Sumpter	513.35
Taft	1,582.24
Tualatin	871.99
Turner	2,144.81
Wasco	1,072.40

He stated that the plans for the improvements proposed to be financed with the funds under discussion have been examined and found satisfactory, and he recommended approval of the plans by the Commission. The Commission accepted the recommendation by adopting the attached resolutions relative thereto marked EXHIBITS "E-1" through "E-3", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

A letter was presented from the Dufur Chamber of Commerce requesting that consideration be given to the rebuilding of the northern section of US Highway 197 between The Dalles and Dufur, particularly that section from The Dalles to Eight-Mile Creek, approximately five miles in length. The Commission deferred action on this matter pending appearance of a delegation which was scheduled to be present on the following day. (This delegation did not make an appearance, so the matter was not discussed further.)

The Commission discussed briefly two petitions from residents of Philomath and Corvallis regarding proposed improvement of the Corvallis-Newport Highway between Corvallis and Philomath. One of the petitions favored use of the present highway for westbound traffic and construction of an additional highway parallel to the present one and some distance to the south thereof for eastbound traffic, with connecting roads between the two highways for the convenience of local residents between the two towns. The other petition urged reconstruction of the existing highway to accommodate four lanes of traffic on the present 80-foot right of way with a divider strip between the opposing lanes. The Commission discussed the matter briefly but deferred a decision pending appearance of a delegation on the following day. (Following the appearance of the delegation, the Commission adopted a resolution approving the Engineer's recommendation for a divided highway as indicated in the first of the two petitions considered. See ahead for additional minute entry.)

The Commission approved the Engineer's request for authority to spend approximately $2,500 in cooperation with Oregon State College to finance preliminary work in connection with the development of a procedure for determining accurately necessary thickness of base course under pavements. In his

explanation, the Engineer stated that present procedures for evaluating capacity of the subgrades are fairly accurate, but it is necessary to rely principally upon personal judgment in determining the thickness of the base course itself. He pointed out that failure of the base course will cause failure of the pavement, so heretofore he purposely has been very conservative in specifying the thickness of the base course. If a more exact method can be developed that will result in the decrease of even one inch of the average base course thickness, considerable savings will accrue. In fact, the savings in a construction program such as was completed by the Highway Department in 1953 would have amounted to approximately $400,000. He estimated the cost of the preliminary work at $2,500 which, if successful, should be followed by a full-scale field test on a construction project at approximately $13,000 additional.

The Commission discussed a petition from Chambers of Commerce and others of Coos County requesting investigation of the feasibility, possibility, and desirability of constructing a hard-surfaced paved highway northerly from the bridge recently constructed over the Coquille River near Bandon, known as Bullards Bridge, to the southerly end of the Cape Arago State Secondary Highway, Coos County. The Engineer advised that he is now making a reconnaissance survey of the most feasible routes between these points, and he anticipates that his report on this subject will be ready for consideration by the Commission at its next regular meeting. The Commission deferred discussion of this matter pending appearance of a delegation on the following day. (See ahead for additional minute entry.)

The Commission discussed and, upon recommendation of the Engineer, denied a request from Mr. Verner Matthiesen, Ontario, for establishment of a reduced speed zone along US 30 in the vicinity of Vern's Market north of the City of Ontario.

Also denied by the Commission on the recommendation of the Engineer was a request from the Provincial Treasurer, Convent of the Holy Names, Marylhurst, Oregon, for establishment of a 45 or 50-mile per hour speed zone along the Oswego Highway south of Oswego, particularly along a 1.7-mile section thereof which passes the communities of Robinwood, Marylhurst, and Glen Morrie.

The Engineer reported that the State Speed Control Board recently established a 35-mile per hour speed zone on the Oregon Coast Highway through the City of Reedsport. He advised that a school is located at the extreme south city limits of Reedsport, and in order to adequately protect the school and safeguard school children and other pedestrians, it is necessary to extend the reduced speed zone for a short distance south of the south city limits. He recommended that a 35-mile per hour speed zone be established for a distance of 0.10 mile south of the south city limits, particularly between M. P. 226.45 and 226.55. The Commission approved the recommendation by adopting the attached resolution relative thereto, marked EXHIBIT "F", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A request from the Depoe Bay Chamber of Commerce and the Depoe Bay Booster Club for designation of a 25-mile per hour speed zone along US 101 through the community of Depoe Bay had the attention of the Commission. The Engineer

advised that this matter has been investigated by the Traffic Engineering Department, and it has been determined from the findings that the speed zones now in effect are adequate, being 35 miles per hour through the main part of town and 45 miles per hour approaching the business center, except that the highway should be posted for a lower speed in the vicinity of the school, which is located to the south of the business center, as provided by law. The Commission decided to make no change in the present zoning except for the posting of the lower speed past the school building, and authorized the Engineer to erect appropriate signs at that location calling attention to the customary legal restriction of 20 miles per hour during school periods.

Presented for the Commission's consideration was a request from Mr. Herman R. Lindemann, Lyons, for designation of a reduced speed zone through the housing district east of the town of Lyons on the Mehama-Mill City State Secondary Highway. The Engineer advised that investigation reveals there is no warrant for any change in the basic rule speed operation that is now in effect on this highway, and he recommended that the request be denied and that the matter be taken care of by installation of safe-speed markers affixed to the curve signs now existing throughout this section of highway which markers, , he said, would be placed within the next few months. The Commission adopted the recommendation.

The Commission had under discussion the designation of persons who will represent the State Highway Department at the annual meeting of the Western Association of State Highway Officials which is to be held at Sun Valley, Idaho, during September 16, 17, and 18, 1954. It was decided that the following should attend this meeting at State expense: all three members of the Commission, R. H. Baldock, W. C. Williams, W. W. Stiffler, G. S. Paxson, H. G. Smith, E. A. Collier, C. W. Enfield, H. B. Glaisyer, and Les Farnam. The Engineer estimated the cost at $125 for each person.

The Engineer requested authority for Mr. G. S. Paxson, Assistant Highway Engineer in charge of Bridges, to attend a Western Regional Meeting of the Bridge Committee of the Americal Association of State Highway Officials which is to be held in Salt Lake City, Utah, on July 12 and 13, 1954. The estimated cost is $30. The Engineer also requested that Mr. Paxson be authorized to attend additional meetings of this committee during the period July 10 to 27, 1954 in the Middle West, the East, the West, and the South. He explained that all of Mr. Paxson's expense in attending these meetings will be paid by the American Association of State Highway Officials. The Commission approved the requests.

The Commission discussed and unanimously approved a recommendation from the Travel Advisory Committee that the firm of MacWilkins, Cole, and Weber, Portland, be reemployed as advertising consultants for the one-year period commencing July 1, 1954. An agreement covering the matter was thereupon signed by the Commission.

The Commission discussed and upon the recommendation of the Engineer, unanimously approved disposal of old right of way sections resulting from reconstruction of the following state highways;

1. Nehalem River Bridge Section of Nehalem State Secondary Highway in Clatsop County.

2. Molalla Junction-Marquam Section of Cascade State Secondary Highway in Clackamas County.

3. Crooked River-Terrebonne Section of The Dalles-California Highway in Deschutes County.

The Commission adopted the attached resolutions relative thereto, marked EXHIBITS "G-1" through "G-3", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission discussed and, upon recommendation of the Engineer, unanimously approved prohibition of shoulder parking of vehicles on the following highway sections:

1. Both sides of the Cascade Highway in the vicinity of Kendall Cafe and Tavern, south of south city limits of Portland, particularly between the south property line of S. E. Crystal Springs Boulevard (M. P. 6.74) and Portland Traction Company railroad grade crossing (M. P. 6.29).

2. Both sides of the Pacific Highway West (US 99W) in front of the Polk County Fairgrounds at Rickreall, particularly between M. P. 59.20 and M. P. 59.35.

3. Both sides of Siuslaw Highway in Cushman, particularly between M. P. 2.34 and M. P. 2.62 in the vicinity of LaDuke's Lumber Company Mill.

4. Both sides of the Pacific Highway in the vicinity of the loadometer weighing station south of Dillard in Douglas County, particularly between M. P. 209.27 and M. P. 209.85; also "NO PARKING AT ANY TIME" on easterly side of this highway, particularly between M. P. 209.55 and M. P. 209.63.

The Commission thereupon adopted the attached resolutions relative thereto, marked EXHIBITS "H-1" through "H-4", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Brought to the attention of the Commission was a request from the Lane County Chapter of the American National Red Cross, Eugene, for permission to use a small pond situate in an abandoned gravel pit on the right of way of US 99, a short distance south of Junction City, in connection with its program of teaching the children of Junction City and vicinity how to swim and to perform life saving operations. The manager of the Chapter states that the Junction City American Legion and the Boy Scouts have agreed to police the grounds around the pond, but they want the State Highway Department to install standard cement-bottom type toilet facilities so the pond will not become contaminated. The Engineer recalled that the Commission granted a similar privilege during July, 1953 on the condition

that the American Red Cross would assume full responsibility for the use of the pond and for any accidents that might occur. He also said that it is not practical for the State to furnish and service out-door toilets of the type requested. He recommended that the request be denied; however, he suggested, in the event the Commission sees fit to grant the permit, that the use of the pond be conditioned upon installation by the American Red Cross of sanitary toilets on a "rental and service" basis, the expense of the same to be paid by the Red Cross. He further recommended that the Red Cross be required to provide a lifeguard during the time that children are swimming and to assume full responsibility for any accidents that might result from use of the pond as planned. As a result of discussion, the Commission decided unanimously to permit the use of the pond for the purposes intended subject to the conditions as outlined by the Engineer.

The Engineer presented for approval a six-way agreement with the U. S. Forest Service, American Forest Products Company, White Pine Lumber Company, Adams Lumber Company, and Lakeview Logging Company covering construction and maintenance of an access road and telephone line to Black Cap Mountain northeast of Lakeview in connection with construction and operation of a remote-controlled radio transmitting and receiving station. He explained that by this agreement the Highway Commission is obligated to pay one-sixth of the total telephone construction cost of $2,162, or $360.33. He also said that the agreement should carry the effective date of November 15, 1953, which was the date of completion of the project, since which time service has been rendered on a monthly rental charge of $16. He recommended approval of the agreement. The Commission accepted the recommendation.

The Commission discussed a letter from Mr. Edward L. Clester, Newport, who claims damage to his property located adjacent to the new highway between Toledo and Newport. It appears that as a result of the highway construction considerable silt was deposited on Mr. Clester's property plugging a culvert and causing damage to his garden which he estimates at $750. The Engineer advised that this matter was investigated and it had been found that Mr. Clester's property was damaged but not to the extent that he alleges. In fact from the findings of the investigation, the damage was determined to be approximately $150, and Mr. Clester has agreed to accept such sum in full settlement of his claim. He recommended payment of such sum to Mr. Clester The Commission adopted the recommendation.

The Engineer brought up for discussion the matter of amending the Commission's regulations as incorporated in the log hauling permits issued by the Public Utilities Commission so as to prohibit the truck-hauling of logs, poles, or piling over state highways on a Monday immediately following a legal holiday which falls on a Sunday. He stated that present regulations prohibit such hauling on Saturday afternoons between May 23 and September 8, on Sundays, New Year's Day, Memorial Day, Independence Day, Labor Day, Armistice Day, Thanksgiving Day, Christmas Day, and during the period 8:00 p.m. Pacific Standard Time on any other day to 4:00 a.m. Pacific Standard Time on the day following; but the question of hauling logs on the Monday that is observed for any of the above holidays that fall on a Sunday has never been raised until this year when several inquiries were received. He suggested that it would be

advisable to prohibit the hauling of logs on the Monday immediately following New Year's Day, Memorial Day, Independence Day, and Christmas Day when such holidays fall on Sunday. It was the feeling of the Commission that the truck hauling of logs should be prohibited on a Monday immediately following the holidays mentioned by the Engineer when such holidays fall on Sunday, and it was so ordered. The Secretary was instructed to recommend to the Public Utilities Commissioner that the regulation contained in his log hauling permit be amended accordingly.

In this connection a letter was presented from Mr. Chas. E. Ogle, Secretary-Manager of the Associated Forest Industries of Oregon, Salem, stating that his office has received a number of inquiries from member concerns requesting permission to truck-haul logs over state highways on Saturday afternoons during the remainder of the year 1954. Several of the members, he said, have indicated the need for additional hauling time due to unseasonable weather, and they are also fearful that the current timber strike will result in a critical log shortage during the winter months. He stated that he is bringing this matter to the attention of the Commission as a personal matter, so the Commission will understand the feeling of the members of his association, and not as a request from the Highway Committee of the association. It was the decision of the Commission that the hauling of logs on Saturday afternoons should not be permitted. Motion to that effect was offered by Commissioner Reynolds and carried by the unanimous vote of the Commission.

The Commission discussed and, upon recommendation of the Engineer, unanimously approved a one-year extension from July 1, 1954 to June 30, 1955, of a cooperative agreement with the U. S. Forest Service whereby that agency is allowed the use of a portion of the State Highway Department dormitory building at Government Camp for an additional forest ranger on summer fire patrol duty. The Commission also approved new rental rates, as follows, for use of such facilities, as recommended by the Engineer:

Room	Old Rental Rate	New Rental Rate
Office	$60.00	$50.00
Kitchen and Dining Room	75.00	65.00
Dormitory Cot per Month	6.00	5.00
Dormitory Cot per Week	1.50	1.50
Dormitory Cot per Night	0.30	0.30

The Commission discussed two resolutions adopted by the Oregon State Council of Carpenters by one of which the carpenters go on record in favor of construction of a toll bridge across the mouth of the Columbia River between Washington and Oregon, the cost to be paid by both states in a program with the U. S. Army Engineers and the Highway Departments. By its other resolution the Oregon State Council of Carpenters goes on record as being opposed to the wage rates that currently appear in State Highway specifications, and in favor of rates not lower than

those provided in area bargaining agreements. Concerning the first of the above-mentioned resolutions, it was pointed out that the Highway Commission has already gone on record in favor of a preliminary survey to assemble information concerning a proposed bridge across the Columbia River near Astoria and has agreed to contribute $12,500 of State Highway funds to assist in financing such a survey if like contributions are made by the State of Washington, Pacific County, Washington, and the Port of Astoria, the survey being estimated to cost about $50,000. Concerning the second of the resolutions, the Engineer advised that the minimum rate of pay specified in Federal Aid contracts is $1 per hour for unskilled labor, $1.15 to $1.30 for intermediate labor, and $1.40 for skilled labor. These rates, he said, were established by the State Highway Commission at its meeting held in June, 1946, and arenow entirely out of order and should be revised. He recommended approval of minimum wage rates as follows: Unskilled labor $1.75 per hour, Intermediate grade labor $2.00 per hour, and Skilled labor $2.25 per hour. The Commission approved the recommendation unanimously and so ordered.

The Engineer reported receipt of several claims for asphaltic damage to automobiles which were parked adjacent to the highway in Medford where paving crews were working during the early part of April. The damage in all cases, he explained, consisted of the deposit of fine specks of asphalt from the spray or smoke originating from asphaltic painting operations ahead of pavement patching, particularly when the wind was blowing. In all instances but one, he said, the cars were parked on private property away from the highway. He mentioned the following claims: Skinner's Garage for washing and polishing two new 1954 Buicks and a 1954 Cadillac—$45.90; Dick Knight Company for washing and polishing three new 1954 DeSotos or Plymouths--$36.00; Lumbermens Mutual Casualty Company, a subrogation claim for cleaning and polishing a 1950 Packard Sedan and a 1950 Buick Sedan, both privately owned -$40.00. Each of the above-mentioned claims, he said, was examined by the paving crew foreman who advised that particles of asphalt did stick to the finish of these cars and in his estimation the claims are justified. The fourth claim, he said, was for cleaning a car that was parked on the street within the barricaded area that had been posted with "No Parking" signs. This particular claim was denied and the claimant advised accordingly. He recommended payment of the three claims listed above. The Commission adopted the recommendation.

The Commission by unanimous vote approved the Secretary's report on voucher lists signed by him in behalf of the Commission during the period May 7 to June 21, 1954. (See copy of list in General Files.)

The Commission discussed a claim presented by Mr. Ivan Wilson, owner of the Tillamook Hotel, Tillamook, in the amount of $50, being the cost to replace a neon sign reading "Dining Room" which was being maintained in the hotel and which was broken by a Highway Department employee. The Engineer explained that a joint meeting of representatives of Oregon State College Extension Service, the State Department of Agriculture, and the State Highway Department was held in the hotel dining room on March 22, 1954 and that the sign was accidently broken when some wooden boxes containing samples of chemical sprays, etc. were being removed from the room. Replacement

quotations received from three different companies in Portland, he said, range from $50 to $115. He gave as his opinion that the claim is a just one and he recommended that it be paid, subject to execution of the customary release. The Commission adopted the recommendation.

A communication was presented from McInturff & McInturff, Attorneys, Coos Bay, requesting an additional 30 days time before enforcement becomes effective of the Commission's order designating a "No Parking" zone on the Coos River Secondary Highway near its junction with US 101 at Bunker Hill. It was explained that there are two business establishments known as Lindbland's and Mac's Seafood Restaurant located at the junction of these two highways and that the owners had no opportunity to prepare for alternate parking space before the "No Parking" signs were erected by Highway Department employees; also that the owners have made plans to provide their own parking lot nearby but have not been able to proceed with the plans because of inclement weather. The Engineer recommended approval of the request. The Commission adopted the recommendation.

The Engineer requested authority to increase by an amount of $28,000 the project authorization for construction of the Willamette River-Marion County Line Section of the West Portland-Hubbard Highway, State Highway Contract No. 3818. He explained that this overrun in authorization is occasioned mostly by an increase in two items--one being an increase in "B" asphaltic concrete pavement due to the recent decision to pave four-foot shoulders along the section, increasing the pavement thickness from $3\frac{1}{2}$ inches to 4 inches, the other being construction of an underpass for farm equipment which was not anticipated in the original plans. The Commission unanimously authorized an increase of $28,000 in this project authorization as requested.

The Commission discussed meeting dates for its next two regular meetings, and decided to hold the next meeting on Monday and Tuesday, August 9 and 10, 1954. The next following meeting was set for Thursday and Friday, September 23 and 24, 1954. The Secretary was instructed to arrange to hold these meetings as usual in the Green Room of the Imperial Hotel, Portland.

The State Parks Superintendent brought up for discussion the question of providing lifeguards in state parks where swimming is allowed, and he particularly mentioned three state parks--Sunset Beach, Wallowa Lake, and Hat Rock. As to Sunset Beach, he stated that swimming accommodations are very popular and are enjoyed by many people, and that up to the present time no lives have been lost there by drowning. At Wallowa Lake, he said, there is some swimming, and, in his estimation, a lifeguard is needed, at least part of the time, which condition is also true at Hat Rock where swimming facilities have been provided. He recommended employment of lifeguards at each of these places when the number of swimmers justifies the expense involved. Chairman Chandler raised the question of how far should the Commission go in furnishing lifeguard protection. He pointed out that there are many places in the state where people swim. He expressed his feeling that the conditions at Sunset Beach do not warrant a lifeguard where at low tide in the summertime the water is very shallow and swimming must be confined to high tide conditions, and even then there is not much danger. He expressed the feeling that there is more danger to swimmers at Wallowa Lake

where the water is cold and deep. Commissioner Reynolds expressed his feeling that the furnishing of lifeguards is an unnecessary obligation in view of the Chief Counsel's opinion as expressed earlier in the meeting. In reply to an inquiry from the State Parks Superintendent as to whether or not the conditions at Hat Rock justify a lifeguard, Commissioner Reynolds stated that he did not think a lifeguard is necessary, and that people should be responsible for themselves. Commissioner McIver expressed concurrence in the statements of Commissioner Reynolds, at least for the time being. He mentioned that the Commission has many other places to spend the money that would be required to finance lifeguards. As a result of this discussion, the Commission unanimously affirmed the decision reached earlier in the session which is not to furnish lifeguards at these locations and to continue the practice that has been followed in the past.

The Chief Counsel brought up for discussion the matter of condemning a quarry site to be used in connection with the Hilgard Junction-Meadowbrook Surfacing Project on the Starkey Highway about eight miles west of La Grande, bids for which were received earlier in the day. He advised that the tract contains 12.6 acres, owned by Elizabeth Underhill who is demanding $5,000 for the property whereas an appraisal made by the Right of Way Department indicates a value of $100 per acre or a total of $1,260. He pointed out that a satisfactory bid was received for construction of the surfacing project and that the specifications for the job mentioned this particular quarry, but there still is a question whether or not the contractor will elect to use it. It was his feeling that the property can be acquired at less cost in a couple of months than now if the Commission can wait that long. He also suggested, if the contractor does not use this quarry, that it might not be necessary to acquire it. The Commission discussed this matter at some length, and as a result thereof instructed the Chief Counsel to defer filing a condemnation action to acquire the property until advice has been received from the contractor, Mr. Vernie Jarl, whether or not he intends to use the site in connection with this contract.

The Engineer reported receipt of communications from the President of the North American Gasoline Tax Conference, Mr. J. J. David, Seattle, and from Mrs. Della Urquhart, Director, Department of Licenses, State of Washington, inviting the Oregon State Highway Commission to be present or to be represented at the 28th Annual Meeting of the conference which is to be held in Seattle during August 10 and 13, 1954 at the Olympic Hotel. He gave as his feeling that not much would be gained by attending this conference and he recommended that the invitation be declined with thanks. The Commission accepted the recommendation.

The Engineer also reported receipt of a letter from Mr. Roy Webster, President of the Hood River Chamber of Commerce, who states that it is the feeling of the people of Hood River that the business situation in this town is becoming very serious--restaurants, motels, and service stations are having a hard time making ends meet because tourists and highway travelers pass up their city as a result of inadequate access roads, entrances, and signs; moreover, one of the most scenic spots in the State of Oregon, the Hood River Valley, is being neglected by tourists now even more than when the Columbia

River Highway passed through their town. Mr. Webster made certain suggestions to correct the situation, and he asked that the Chamber of Commerce be taken into consideration when changes are made and that a committee of leading citizens be given an opportunity to confer with the highway engineers regarding such matters instead of having access roads and signs arbitrarily thrust upon the city without the city being given an opportunity to voice approval or objection. The Engineer advised that a satisfactory solution has been worked out for the west highway entrance into the City of Hood River and that bids are to be received on the following day for grading and paving the West Hood River Connection which is about 0.8 mile west of the town. He added that it is proposed to illuminate this intersection so it can be readily seen at night time as well as in daylight. He also said that plans are not as yet complete for the east entrance, but it is proposed to give the matter first priority and to arrange for appropriate signs reading "Hood River City Junction Ahead", etc., and that everything is being done to make that entrance as good as it can be made so the highway traveler will be informed of the city and the valley. He suggested that a letter in reply to Mr. Webster's communication should be prepared somewhat in conformity with his report. The Commission deferred action in the matter.

Brought up for discussion by the Engineer was a request from Mr. Calvin N. Souther, Portland, for signalization of the intersection of the Oswego Highway and S. W. Military Road between Portland and Oswego. The Engineer advised that this is a four-way intersection located in a 45-mile per hour speed zone and that a week-day traffic count taken in June of this year showed a total of 10,087 vehicles entering the intersection during the 24-hour period, of which number only 304, or 3 percent of the total, entered from S. W. Military Road. During a 16-hour check, he said, 35 pedestrians, of whom 25 were school children, crossed the Oswego Highway at this point. As to accidents at the intersection, he said that the records reveal only three reported accidents during the period January 1, 1949 to April 30, 1954, resulting in injuries to three persons but no fatalities, and that two of the accidents were of the type that might have been prevented by traffic signals. The Engineer went on to say that a comparison of the results of the investigation with the standard warrant for signalization of rural intersections reveals that the volume of both vehicular and pedestrian traffic wishing to enter or cross the highway is far below that of the minimum warrants. He gave as his feeling that signalization of the intersection would result in more accidents. He estimated the cost of a traffic actuated signal, which he said would be the type required, at approximately $4,500. He pointed out that there are a number of similar intersections on this section of highway and if this one is installed, then it will be necessary to install others. He recommended in view of the findings that the request be denied. The Commission adopted the recommendation.

Presented to the Commission was a communication from Mr. Arthur Schmidt, Maupin, transmitting a petition signed by numerous residents of Maupin and vicinity, in which the Commission is requested to allow a Mr. Ed McCarthy, service station owner, to rebuild his service station on US 97 in Cow Canyon, as realigned, as near as is possible to the location of his present service station and to have access to the new "controlled access" highway. The Engineer explained that Mr. McCarthy's service station is located on the old route of The Dalles-California Highway in Cow Canyon and that the new highway

is located about 120 feet distant from the old road and at an elevation of 25 feet below it. Mr. McCarthy, he said, does not own the property on which his service station stands, but is operating on a 10-year lease which has three years more to run; further, that the owner of the land, a Mr. John Bolter, is willing to sell at a reasonable price the land that the State needs from him, subject to the McCarthy lease. The Engineer gave as his considered opinion that construction of approaches to the service station is not economically feasible; moreover if Mr. McCarthy were granted access it would be contrary to the Commission's established policy. He pointed out that Mr. McCarthy's station is old and run-down, and he gave as his belief that it would be feasible to condemn the leaseholder if settlement cannot be reached with him otherwise. The Engineer pointed out that Mr. Schmidt, in his letter transmitting the petition, mentioned difficulties that trucks and cars pulling trailers have in traversing the Cow Canyon grade, and the necessity for them to stop and cool their engines with water, which, he said, would not be available were Mr. McCarthy to go out of business. The Engineer advised that the new highway will not be a dangerous one to travel and that so far as water is concerned, a supply can be furnished by the State in the event travel requires it. Commissioner Reynolds mentioned that this report was rendered by the Engineer at his request and that he approves it. The Secretary was instructed to convey the information to Mr. Schmidt.

The Auditor brought up for discussion a proposed transfer of funds which he had previously suggested in his monthly financial report to the Commission. This transfer, he said, involves monies originally set up in the parks budget for improvements in Rooster Rock State Park which project the Commission has deferred. He recalled that the amount set up for this improvement was $65,000 of which amount $32,000 was transferred on April 1, 1954 to finance a proposed extension of the Joseph-Wallowa Lake State Secondary Highway in Wallowa Lake State Park, and that $7,000 was left in the Parks Improvement Budget for oiling the Hat Rock State Park road, leaving a balance of $26,000 available for other purposes. He also recalled that the Commission, sometime ago, deferred a $6,750 project for a left-turn refuge in Emigrant State Park which amount has been held in reserve. He, therefore, recommended that this $6,750 plus the $26,000 remaining in the Rooster Rock Budget, or a total of $32,750, be transferred to finance improvement of the Salmon River Highway through the town of Willamina as requested by the city authorities. The Commission approved the recommendation unanimously and so ordered.

The Commission discussed briefly matters pertaining to the budget, and in this connection, Chairman Chandler requested a statement as to how close expenditures of the several items contained in the budget compare with the budgeted amount for such items, such statement to cover the six-month period January 1 to June 30, 1954. The Auditor was instructed to prepare such statement.

The Commission discussed with the Engineer the bids received during the morning session for highway construction, and at 4:00 p.m. Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the Commission's decisions being by unanimous vote:

"Mill Gulch-Salisbury Oiling Project on the Baker-Unity Highway about eight miles south of Baker in Baker County: The Commission awarded the contract to the low bidder, J. C. Compton Company, McMinnville, at their bid price of $17,454.00.

"Leveling course and oiling 4.23 miles on the Powell Butte Junction-Deschutes County Line Section of the Powell Butte County Road about 14 miles east and south of Redmond in Crook County: The Commission elects to accept the bid of Babler Brothers, Inc., Portland, in the sum of $25,655.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Crook County and the Bureau of Public Roads is received and the sum of $6,400 is deposited by the County.

"Oakland Junction-Boomer Hill Road Fencing Project on the Pacific Highway between Oakland and Myrtle Creek in Douglas County: The Commission awarded the contract to Colorado Fuel and Iron Corporation, Portland, at their bid price of $64,403.88.

"Ridge Road-Morrow County Line and North Unit, Lost Valley Road-Lonerock Oiling Project on the Base Line and Lonerock County Roads in Gilliam County: The Commission elects to accept the bid of J. C. Compton Company, McMinnville, in the sum of $28,871 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Gilliam County and the Bureau of Public Roads is received and the sum of $6,500 is deposited by the County.

"Construction of Evans Creek Bridge and Box Culvert in Jackson County: All bids were referred to Jackson County.

"Construction of Lost River Bridge on the Merrill-California Line County Road in Klamath County: No bids were received for this project.

"Construction of Row River Bridges on the Pacific Highway near Cottage Grove in Lane County: The Commission awarded the contract to Valley Construction Company, Portland, at their bid price of $141,925.00.

"Oakridge (First Street) Paving Project in Lane County: The Commission awarded the contract to T. C. Wildish, Eugene, the low bidder, at his bid price of $11,493.00.

"Construction of Hayesville Interchange at the intersection of the Portland-Salem Expressway with the Pacific Highway north of Salem in Marion County: The Commission awarded the contract to the low bidder, Tom Lillebo, Reedsport, at his bid price of $242,480.00.

"Construction of Shelton Ditch Bridge on Airport Road southeast of Salem in Marion County: The Commission awarded the contract to the low bidder, Lind & Marr Construction Company, Beaverton, at their bid price of $14,980.00.

"Slope paving for "D" and Center Street Underpass on the Salem By-pass Highway in Marion County: The one bid submitted for this project was rejected.

"Rock base and oiling 7.77 miles on the Jordan-Keck Canyon Section of the Rhea Creek County Road about six miles westerly of Lexington in Morrow County: The Commission elects to accept the bid of Rogers Construction Company, Portland, in the sum of $63,660.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Morrow County and the Bureau of Public Roads is received and the sum of $14,300 is deposited by the County.

"Paving 3.0 miles on the 42d Avenue-92d Avenue Section of the T. H. Banfield Expressway in East Portland in Multnomah County: The Commission awarded the contract to the low bidder, Warren Northwest, Inc., Portland, at their bid price of $306,414.50.

"Paving 3.54 miles on Sand Station-Washington State Line Section of the Columbia River Highway about fourteen miles northeasterly of Umatilla in Umatilla County: The Commission elects to accept the bid of Parker-Schram Company, Portland, in the sum of $80,763.00 and the State Highway Engineer is directed to award the contract to said bidder as soon as approval for reimbursement of costs is received from the U. S. Army Engineers.

"Weston (Depot Street) Grading and Paving Project in Umatilla County: The Commission elects to accept the bid of Morrison & Lamping, Walla Walla, Washington, in the sum of $16,502.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of the City of Weston is received and the sum of $4,200 is deposited by the City.

"Roadbed surfacing, also furnishing 1,500 cubic yards crushed material in stockpile on the Hilgard Junction-Meadowbrook Section on the Starkey Highway about eight miles westerly of La Grande in Union County: The Commission elects to accept the bid of Vernie Jarl, Gresham, in the sum of $36,440 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Grading and surfacing, also widening of concrete bridge on the Enterprise-Brock Corner Section of the Fish Hatchery County Road west and south from Enterprise in Wallowa County: The Commission elects to accept the bid of Morrison-Knudsen Company, Inc., Boise, Idaho, in the sum of $46,807.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Wallowa County and the Bureau of Public Roads is received and the sum of $10,500 is deposited by the County.

"Construction of Baker Creek and Panther Creek Bridges in Yamhill County: The Commission elects to accept the bid of Johnson & Amens, McMinnville, in the sum of $62,700 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Yamhill County and the Bureau of Public Roads is received and the sum of $14,100 is deposited by the County."

The Commission signed agreements, etc., as follows:

"Deed" conveying to Ernestine Hicks a parcel of property containing 0.103 acre which covers encroachment of her home on state highway property.

"Indentures of Access" for the following properties:

1. Frewing property on Tigard-Newberg Section of Pacific Highway West in Washington County.

2. Hervey property on Cedar Point-Coquille Section of Oregon Coast Highway in Coos County.

3. Atkins property on Tigard-Onion Flat Unit, Tigard-Newberg Section of Pacific Highway West in Washington County.

4. Lee property on Tigard-Newberg Section of Pacific Highway in Washington County.

5. Graham-Calbreath property on Orr Corner-Monmouth Section of Pacific Highway West in Polk County.

6. Pearson property on Tigard-Tualatin Unit of Tigard-Newberg Section of Pacific Highway West in Washington County.

7. Charity Lodge No. 75 I. O. O. F. property on Tigard-Onion Flat Unit, Tigard-Newberg Section of Pacific Highway West in Washington County.

8. Viall property on Forest Boundary-Hauser Section of Oregon Coast Highway in Coos County.

"Grant of Farm Crossing" to McNutt property on Orr Corner-Monmouth Section of Pacific Highway West in Polk County.

"Agreement" with Mr. and Mrs. W. B. Wooden wherein State pays Woodens $50 and is released from all obligations in connection with acquiring their property on Goshen-Divide Section of Pacific Highway in Lane County.

"Lease" with Secretary of State covering Secretary of State's building in Eugene. Modification calls for additional payment of $60 per month commencing July 1, 1954 and ending April 1, 1970.

"Bargain and Sale Deed" transferring to Wilbur and Anna Badley 0.4 acre of excess right of way on Otter Crest Section of Oregon Coast Highway in Lincoln County.

"Agreement" granting to Beulah P. Moore an easement of access across Depoe Bay Ocean Wayside State Park for purpose of serving a gift shop to be constructed adjacent to the park.

"Easement Agreement" and "Construction Agreement" with Oregon Pacific and Eastern Railway Company re overcrossing on revised location of Pacific Highway near Cottage Grove in Lane County.

"Agreement" with MacWilkins, Cole and Weber covering their re-employment as advertising consultants for the one year period commencing July 1, 1954.

June 23, 1954

"Agreement" with West Coast Telephone Company obligating State to pay $360.33, one-sixth of total telephone construction cost for installation of telephone line to Black Cap Mountain, northeast of Lakeview. Effective date of agreement November 15, 1953.

"Lease" covering renewal of cooperative agreement with U. S. Forest Service from July 1, 1954 to June 30, 1955 for use of a portion of State's dormitory building at Government Camp.

"Agreement" with the McLeod Construction Company covering the leasing of a quarry site on the Coos Bay-Roseburg Highway between Coquille and Myrtle Point in Coos County.

"Agreement" with U. S. Coast Guard covering use of Coast Guard pole line between Charleston and Cape Arago.

"Agreement" between Port of Astoria, Pacific County, Washington, Washington State Highway Department and Oregon State Highway Department, covering engineering study for proposed toll bridge across Columbia River at Astoria.

"Agreement" with Marion County re maintenance of Airport County Road as a temporary road for North Santiam Secondary Highway.

"Maintenance Agreement and Finance Agreement" with Yamhill County covering Baker Creek Bridge.

"Maintenance Agreement and Finance Agreement" with Yamhill County covering Baker and Panther Creek Bridges.

"Maintenance Agreement and Finance Agreement" with Morrow County covering Jordan-Keck Canyon Road Section.

"Maintenance Agreement and Finance Agreement" with Wallowa County covering Enterprise-Brock Corner Section.

"Maintenance Agreement and Finance Agreement" with Gilliam County covering North Unit, Lost Valley Road-Lonerock Section.

"Maintenance Agreement and Finance Agreement" with Gilliam County covering Ridge Road-Morrow County Line Section.

"Bargain and Sale Deed" with H. G. and Gladys E. Mallett covering construction of their own irrigation ditch on East Unit, Vale-Cairo Section of Central Oregon Highway, Malheur County.

"Maintenance and Finance Agreement" with Deschutes County covering the Bend-Tumalo Section, S-281(2), FAS 579.

"Exchange of Easements" with California-Oregon Power Company re property in Josephine County, extending over Lot 15, Section 31, Township 36 South, Range 5 West, W. M.

"Indenture and Grant of Access" on the James N. Morehead property re changing location and use of accesses on the Noble Slough-Foster Section of the South Santiam Highway in Linn County, Oregon.

"Rezoning from residential to commercial property" the North half of Block 31, Hackleman's Second Addition to Albany.

"Agreement" with Carl O. Nelson re leasing to State property lying in the North half of the Northwest quarter ($N\frac{1}{2}NW\frac{1}{4}$) of Section 34, Township 30 South, Range 3 West, W.M. Douglas County.

"Agreement" with Oregon Pacific and Eastern Railway Company relative to reimbursement for watchmen and flagmen services covering operations of George R. Stacy Company at private grade crossing of railroad tracks on revised location of Pacific Highway east of Cottage Grove, Oregon.

The meeting adjourned at 4:10 p.m. to reconvene on the following morning in the same room.

Portland, Oregon
June 24, 1954

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Green Room of the Imperial Hotel with the following persons present and participating:

Ben R. Chandler, Chairman
Charles H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids as follows for highway construction were opened and read aloud by the Secretary who then announced that the Commission would award contracts at 3:00 p.m. in the same room:

BENTON COUNTY
BEAVER CREEK-GREENBERRY COUNTY ROAD

Central Paving Company, Independence	$ 9,154.50
McNesby & Aubry, Inc., Corvallis	9,460.50

DESCHUTES COUNTY
FOREST BOUNDARY-BEND OILING PROJECT

Babler Brothers, Inc., Portland	$39,542.50
F. L. Somers, Medford	44,445.00
J. C. Compton Company, McMinnville	46,645.00

DOUGLAS COUNTY
PAVING SOUTH UMPQUA RIVER-SHADY UNIT

E. C. Hall Co. & J. C. Compton Co., Portland	$398,465.00
Parker-Schram Company, Portland	399,806.00
The Central Heating Company, Eugene	409,096.00
J. N. Conley, Portland	419,007.00
Acme Construction Company, Eugene	436,650.00
McNutt Brothers, Eugene	466,881.00
Babler Brothers, Inc., & Rogers Construction, Inc., Portland	505,972.00

DOUGLAS COUNTY
DRAIN PAVING PROJECT

Porter W. Yett, Portland	$12,886.00
K. F. Jacobsen & Co., Inc., Portland	13,892.50

HARNEY COUNTY
SUNTEX ROCK PRODUCTION PROJECT

N. A. Toole Construction Company, Ontario	$23,475.00
E. H. Itschner Company, Molalla	28,500.00
C & W Crushing Company, Seaside	28,900.00
Calkins Crushing Company, Oceanlake	29,500.00
Vernie Jarl, Gresham	31,600.00

HOOD RIVER COUNTY
WEST HOOD RIVER CONNECTION GRADING AND PAVING PROJECT

Parker-Schram Company, Portland	$12,495.60

June 24, 1954

HOOD RIVER COUNTY
BEALS CORNER-DOUGHERTY CORNER SECTION

Valley Construction Company, Portland	$54,940.00

LANE COUNTY
MAIN STREET, 16TH STREET, AND TAYLOR STREET OVERCROSSINGS

Tom Lillebo, Reedsport	$103,512.00
Lind & Marr Construction Company, Beaverton *	104,797.00
Columbia Empire Constructors, Inc., & P. S. Lord Mechanical Contractors, Portland	105,049.00
Hamilton & Thoms, Eugene	105,630.00
Hannan Brothers Company, Portland	106,565.00
Wall, Bartram & Sandford, Junction City	108,120.00
John Kovtynovich, Eugene	109,670.00
Glenn Snook, Eugene	109,765.00
R. H. Jones, Hillsboro	109,815.00
F. L. Somers & Geo. R. Stacy, Klamath Falls	111,470.00
The Central Heating Company Oreg. Ltd., Eugene	112,345.00
Valley Construction Company, Portland	114,915.00
Peter Kiewit Sons' Company, Longview, Washington	141,440.00

* Bidder will accept award of only one project

LANE COUNTY
CHANNEL CHANGE BRIDGES EAST OF CRESWELL

Hamilton & Thoms, Eugene	$17,605.00
Columbia Empire Constructors, Inc., Portland	18,319.80
Valley Construction Company, Portland	21,630.00
R. H. Jones, Hillsboro	21,950.00
The Central Heating Company Oreg. Ltd., Eugene	22,290.00

LANE, KLAMATH, JEFFERSON AND JACKSON COUNTIES
DIVISIONS NOS. 3 AND 4 GUARD RAIL PROJECT

R & W Construction Company, Auburn, Washington	$36,345.50
R & M Construction Company, Central Point	36,895.00
Fred Stubbert, Springfield	37,680.00
Lind & Marr Construction Company, Beaverton *	38,308.00
Wulfert Company, Inc., San Leandro, California	38,779.00
Glen Ousley, Eugene	39,014.50
T. W. Thomas, Portland	41,291.00

* Bidder will accept award of only one project

June 24, 1954

LINCOLN COUNTY
GRADING AND PAVING CORVALLIS-NEWPORT HIGHWAY

Acme Construction Company, Eugene	$26,236.50

LINN COUNTY
HARDSCRABBLE HILL AND COX CREEK COUNTY ROADS

C. C. Meisel, McMinnville	$36,416.00
Babler Brothers, Inc., Portland	37,789.00
Harr & Horton, Portland	40,352.50
Lebanon-Harrisburg Sand & Gravel Company, Lebanon	43,129.00
J. C. Compton Company, McMinnville	43,874.00

MARION COUNTY
GRADING AND PAVING NORTH RIVER ROAD

Central Paving Company, Independence	$58,271.50
Warren Northwest, Inc., Portland	61,463.50

MARION COUNTY
BROADACRES ROAD AND CROSBY ROAD UNDERCROSSINGS

Lockyear & White, Inc., Longview, Washington	$104,035.50
Columbia Empire Constructors, Inc., & P. S. Lord Mechanical Contractors, Portland	104,323.00
Johnston & Bryant, Newberg	105,020.00
Hannan Brothers Company, Portland	107,651.00
Babler Brothers, Inc., Portland	108,060.00
Lind & Marr Construction Company, Beaverton *	108,345.00
Tom Lillebo, Reedsport	109,309.00
Hamilton & Thoms, Eugene	110,320.00
Birkemeier & Saremal, Portland	113,540.00
United Builders, Inc., Beaverton	113,705.00
Natt McDougall Company, Portland	114,111.00
H. A. Starr Concrete, Portland	115,493.00
Carl M. Halvorson, Portland	120,830.00
Valley Construction Company, Portland	123,650.00

* Bidder will accept award of only one project

MARION COUNTY
SALEM BY-PASS FENCING PROJECT

Lind & Marr Construction Company, Beaverton *	$25,615.00
A. C. Bubak, Woodburn	26,648.00
Colorado Fuel & Iron Corporation, Portland	27,838.00

June 24, 1954

Salem By-pass Fencing Project (Cont.)

Wulfert Company, Inc., San Leandro, California	$28,774.00

* Bidder will accept award of only one project.

TILLAMOOK COUNTY
WEST SLOPE, SUMMIT PASSING LANE

Grimstad & Vanderveldt, Astoria	$19,806.50
Oregon Asphaltic Paving Company, Portland	20,373.00

UNION COUNTY
LADD CANYON SAND STORAGE SHED

Bechtel Brothers, La Grande	$11,800.00
United Pacific Construction, Inc., Eugene	14,967.00

WALLOWA COUNTY
WALLOWA LAKE PARK FACILITIES

United Pacific Construction, Inc., Eugene	$10,563.00
Bechtel Brothers, La Grande	11,085.90
Walt M. Young, Hermiston	11,551.98

The Commission discussed briefly with the Engineer projects proposed for contracting at the Commission meetings in August and September, 1954. The Commission also discussed with the Engineer the proposed rerouting of the Oregon Coast Highway through the town of Wedderburn in Curry County, particularly the feasibility of constructing an interchange in the south part of the town. No action was taken at this time. Later in the day, however, the matter was again discussed and the Engineer was advised by Chairman Chandler that the Commission had agreed to proceed with construction from Greggs Creek to Wedderburn and right of way should be acquired as soon as possible. The Engineer was also instructed to reinvestigate the proposed interchange in Wedderburn to see if a more suitable location can be found that will avoid the acquisition of expensive right of way.

A delegation representing the Seven Devils Coast Road Association, Coos County, came before the Commission to request construction of a highway northerly from Bullards Bridge near Bandon to the south end of the Cape Arago Secondary Highway south of Charleston. The following people composed the group: Hans Nelson, Chairman, North Bend; Lawrence A. Wilke, Secretary, Empire; Merritt J. Senter and M. E. Boak, members of the Association, Bandon; Mrs. Hans Nelson, North Bend; and Mrs. Lawrence A. Wilke, Empire. Mr. Nelson who acted as spokesman thanked the Commission for highway work performed in

the vicinity of Coos Bay and Coquille and advised that the delegation today is interested in securing construction of a highway between Bullards Bridge and the south end of the Cape Arago Secondary Highway using a route along the coast. He stated that the project is about 12 miles long and that it is the No. 2 project in the list that was submitted to the Highway Interim Committee in 1948. He exhibited a map showing the location of the road and advised that it is the improvement they want next and that they would like to have it soon. In reply to Chairman Chandler's inquiry as to whether they wished construction of this road as a relocation of the Oregon Coast Highway or as a separate highway, Mr. Nelson replied that the people in the area do not care if the road is constructed as an alternate route for the Oregon Coast Highway or as a secondary highway. The original petition requesting construction, he added, asked for a secondary highway and that is all that they want. Mr. Wilke called attention to the advantages to be gained as a tourist attraction being adjacent to the beach, and that it would be advantageous to industry in the truck-hauling of logs and farm produce. Mr. Boak pointed out that at the present time there are only two spots along the highway in Coos County from which the ocean can be viewed and that the entire county is in favor of this road. Chairman Chandler advised that an economic study is now being made in this area to determine the proper routing of the Oregon Coast Highway and that no answer can be given until the survey is completed and the facts studied. The Commission, he stated, feels that expenditure of any large amount of funds in the district should be made to further improve the Oregon Coast Highway, and that the roads on the existing secondary highway system should be improved to modern standards before new highways are added. In conclusion, he mentioned that the road is eligible for Federal Aid Secondary County Road funds, and he suggested that the delegation contact the Coos County Court relative to its designation and construction as a Federal Aid Secondary Highway.

A delegation representing the Crook County Parks Board appeared before the Commission to request a state park development at Ochoco Reservoir east of Prineville. The following people were included: Joe Mason, Secretary; Richard Houk, Vice-Chairman; Marvin Loper and Harry Fowler, members; Jess C. Minson, Crook County Commissioner; and Joe Tomison, Secretary, Prineville-Crook County Chamber of Commerce; all of Prinville. Mr. Fowler headed the group and introduced the speakers. Mr. Mason exhibited a map showing the area under discussion which, he said, contains about 16 acres of privately-owned land at the reservoir site and which, in their opinion, is an ideal location for a state park. He further stated that place is a very popular one for vacationists from all over the country, but accommodations are bad, and as a result the State Sanitary Board has posted it as unsanitary. Mr. Houk called attention to the large number of people who use this area, particularly fishermen during the months of May and June. A check made of boat rentals at the reservoir, he said, reveals that about half of the people who use the boats are from Portland and other distant parts of Oregon, which indicates that usage of the area is state-wide in character rather than local. Mr. Loper mentioned that motels in the vicinity are overcrowded. He also said that in his estimation the most practical use for the area would be as a picnic area rather than one for overnight camping, and that particularly needed is a place to park cars and to launch boats. Mr. Tomison declared that improvement of facilities at this location will aid in the general

effort to keep tourists in the state for a longer period of time. Mr. Fowler stated that the area had been posted as unsanitary due to lack of toilet facilities, and he inquired when they can expect the Commission's decision whether or not the State will develop the area so they can pass the information on to the owner of the property with a request to withhold sale for awhile. Chairman Chandler stated that the Commission in response to a previous request ordered a study made concerning establishment of a park at this location, and at that time it did not appear feasible; however, the Commission is willing to have a more detailed study made and will base a decision on the results obtained, such study to include the entire season, but that is all that can be done now. The Parks Superintendent was thereupon instructed to make such study covering the entire fishing season and to report complete facts for the Commission's guidance.

A group of people, as follows, from Philomath and Corvallis came before the Commission concerning the proposed improvement of the Corvallis-Newport Highway between Corvallis and Philomath: Paul H. Pengra, Janet Pengra, Robert A. Stamm, Beryl Masters, Karl F. Drlica, Dale Hollingsworth, Ben Hoydan, and Bob Brands, property owners, all of Corvallis; and Gordon Larson, Mayor; Gene Wullert, member of the Chamber of Commerce; David Brown, Lions Club; and Clifford Gee, all of Philomath. Mayor Larson headed the group and Mr. Gee was the main spokesman. Mr. Gee stated that there is some confusion in the minds of many people regarding this project due to lack of definite information, but many residents of Philomath feel that the present highway should be widened to four lanes rather than the improvement consist of two one-way facilites. It is felt, he stated, that traffic is not heavy enough to warrant the two one-way roads and rather than construct such type of facility, it would be better to leave the highway as it is. He presented a petition favoring the widening of the present highway. Mr. Stamm stated that he represents property owners adjoining the present highway who feel that it would be better to widen the present road to four lanes. He presented a written statement in support thereof. Chairman Chandler stated that the engineering work on the project has been completed, and he asked the Engineer to explain the plan. This project, the Engineer stated, has been under study for 18 months and many survey lines were projected. After all of them had been carefully considered, it was found that the greatest benefit to the general public could be obtained by constructing an additional two-lane highway somewhat south of the existing highway using the old route for one-way traffic westbound and the new highway for eastbound traffic with connections between the two one-way roads. The cost, he stated, would be about $1,000,000 and would take care of traffic needs for a long time. Experience has taught that if the present highway is widened, it will not be a safe road and there will be continual demands for stop lights, speed zones and other traffic regulations, and eventually it would be necessary to construct a new road. He emphasized the fact that the conclusions arrived at have been made only after very careful engineering analysis, and that in his mind there is no question that the dual construction is superior, and he so recommended. Mr. Larson stated that a portion of the proposed location in the western part of Philomath will be inundated during periods of high water, to which the Engineer replied that the grade will be established above high water line. The main problem, he said, is at the Corvallis end. Commissioner Reynolds stated that it is contrary to the Commission's policy to build new highways unless they meet future traffic needs; also that construction of this section is not in the present program and no funds are available at this time to

finance the work. Mr. Larson thanked the Commission and the Engineer for the time granted them and for the explanation made concerning the highway. (Later in the day the Commission adopted a survey providing for two one-way facilities as recommended by the Engineer. See ahead for additional entry.)

Mr. Maurice Walton of the Walton Lumber Company, Hood River; Mr. Kenneth Abraham, attorney for Mr. Walton; and Mr. Ed Steele, Secretary of the Hood River Chamber of Commerce, came before the Commission to request permission for Mr. Walton to truck-haul logs from Frog Lake to Parkdale over the Warm Springs and Mt. Hood Highways. Mr. Abraham who acted as spokesman explained that Mr. Walton's loads will consist of short logs only, not exceeding 18 feet in length, and there will be only five or six loads daily, two of which will be made before 7:00 a.m. Mr. Walton's mill, he stated, will have to shut down unless logs can be secured, thus throwing 21 families out of work. He gave as his feeling that the overall length of short logs on a single truck unit will be shorter than the buses which now use the road and will be no more unsafe or objectionable. Mr. Steele called attention to the economic aspects of the situation in providing steady work for mill employees, and he also stated that trucks hauling short logs will create no more of a hazard than do farm trucks. Mr. Walton advised that he has exhausted every other source of timber and that the Forest Service officials suggested that he might be able to secure timber from this new source at the rate of one million board feet this year and $1\frac{1}{2}$ million feet next year. Mr. Abraham requested a decision in the matter by June 29 which is the date that the Forest Service will receive bids for timber in the Frog Lake area. Chairman Chandler advised that the Commission will discuss the matter and that he will be informed by the Secretary when a decision has been reached. (Later in the day Chairman Chandler stated that the Commission had given the matter further consideration and had decided to deny the request until a trial run can be made with a typical load of logs to determine whether or not loads such as Mr. Walton intends to haul can be transported over the highway without endangering other traffic. The Secretary was instructed to inform Mr. Walton that arrangements will be made for a test run of a typical load of his logs if he desires and will advise.)

The following persons composed a delegation representing the U. S. Forest Service and the U. S. Army Engineers which appeared before the Commission concerning the development of existing park areas adjacent to the North Santiam Highway at Detroit Reservoir: Frank B. Folson, Assistant Regional Forester; Richard M. Bowe, Recreation Planner, U. S. Forest Service; Wm. MacDonald, Engineer, U. S. Forest Service; Owen Davis, Recreation Planner, U. S. Army Engineers; and L. W. Warnke, Operations Division, U. S. Army Engineers; all of Portland. Mr. Bowe, who headed the group, explained that before the reservoir was constructed, two forest camps then in existence were flooded out when the reservoir was filled. The Army Engineers, he said, replaced these facilities by installing stoves, toilets and a few overnight camping spaces across the highway from the Forest Service Headquarters near the bridge over the Breitenbush River, and by constructing a boat launching site on the old Camp Mongold Road. He pointed out that approximately 16,000 people used these recreational facilities during the month

of May. In addition to the small space that is developed at that place, there is about a mile of additional area which can be developed. The Federal Government, he stated, has provided no funds for additional developments, amounts available being sufficient only for expenditures at the site of the dam. Likewise, Forest Service money is very limited for these purposes. He asked the Commission to assume the responsibility of developing both areas under a cooperative arrangement. Mr. Warnke of the Army Engineers explained that they can only spend funds on such projects when the project is considered of national importance, such as Crater Lake Park, Yellowstone Park, et cetera. In his estimation, the Detroit Reservoir and the area at Owyhee Dam very likely will not rate national significance. Chairman Chandler stated that the Commission will have the Parks Superintendent make a detailed study of the recreational use of this area during the balance of the year and will base its decision on the facts that he reports. He pointed out that the State has no money available to finance development here this year.

The meeting recessed at 12:00 noon and reconvened at 2:00 p.m. with the same persons present and participating.

A delegation composed of the following people from Sherwood and Norwood, Washington County, came before the Commission to renew their request for access to the Portland-Salem Expressway at the Norwood Crossing: W. L. Archer, Clyde H. Sanders, Paul McFarland, Howard Elleman, and J. M. Houghton. Mr. Archer who headed the group stated that they discussed this matter with Governor Patterson and he inquired if the Governor had discussed it with the Commission. Chairman Chandler advised that no meeting with the Governor had been held. Mr. Archer then stated that all of the people in the vicinity of Norwood desire access at this point, and they feel that an injustice has been done them by the Highway Commission in denying such access. Statements have been made, he stated, to the effect that an access was not planned but a map that he has in his possession indicates that such an access was planned. He called attention to a letter concerning freeways in the Los Angeles area indicating that access roads are not hazardous except during hours of peak traffic. He requested a traffic count at this location now. Chairman Chandler explained that it is the opinion of the members of the Highway Commission that no traffic count should be taken until the highway is open to traffic. The Commission, he stated, has previously promised to make the count at that time and will keep its promise. He pointed out that the traffic survey, when it is made, will include an origin and destination count and will be made in a manner and at such time as will accurately indicate the volume of traffic and its pattern. Mr. Sanders commented that most of the people in the Sherwood and Norwood vicinity drive to work and the matter of an access is important to them. He called attention to the five points of access granted in a section 3.2 miles long north of Norwood. He also disagreed with the amount of traffic as indicated in the Engineer's letter of March 22. Mr. Archer also questioned the validity of traffic count figures at the other interchanges, stating his belief that there is not as much traffic as shown. Chairman Chandler stated that the Commission will make a traffic count as previously promised, and if the volume of traffic as measured by national standards indicates that an interchange is necessary it will be constructed. Commissioner McIver expressed his concurrence in the remarks of Chairman Chandler and stated definitely that he is not in favor of granting access at Norwood Crossing until

facts reveal it to be absolutely required. Mr. Sanders inquired if an engineer could be sent to explain the matter to the local residents to which Chairman Chandler replied that he doubted if such a presentation would be of any value. Mr. Elleman alleged that other promises had been made and not kept and that about two years ago a crossing was promised if money were available, and that now access is denied because of low traffic volume. It was his feeling that a mistake had been made in allowing access at some of the other highway crossings and not at Norwood. Chairman Chandler concluded the discussion by again stating that the Commission will have another traffic count taken, as promised, after the Expressway has been opened to travel and the traffic patterns established, and if the facts ascertained reveal access warranted it will be allowed.

The Commission again considered the proposed survey for improvement of the Corvallis-Newport Highway between Corvallis and Philomath. In the discussion of this matter, it was brought out that money would probably not be available for three or four years. It appeared to the Commission that the proposed construction as recommended by the Engineer consisting of two one-way routes with local connections between the two for convenience of local residents would be the most desirable facility from all standpoints. Commissioner Reynolds thereupon moved that the survey as recommended be adopted and that right of way be acquired as soon as possible. Commissioner McIver seconded the motion. Chairman Chandler declared the motion carried by the unanimous vote of the Commission. The attached resolution relative thereto marked EXHIBIT "C-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein was thereupon adopted by the Commission unanimously.

At 3:00 p.m. Commissioner Reynolds announced the award of contracts for which bids were received at the morning session, as follows, the Commission's decision in each instance being unanimous:

"Roadbed surfacing and oiling 1.03 mile on the Twin Bridges-Muddy Creek Section of the Beaver Creek-Greenberry County Road about eight miles south and west of Corvallis in Benton County: The Commission elects to accept the bid of Central Paving Company, Independence, in the sum of $9,154.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Benton County and the Bureau of Public Roads is received and the sum of $2,000 is deposited by the County.

"Forest Boundary-Bend Oiling Project on the Tumalo Falls-Bend County Road west from Bend in Deschutes County: The Commission elects to accept the bid of Babler Brothers, Inc., in the sum of $39,542.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Deschutes County and the Bureau of Public Roads is received and the sum of $8,900 is deposited by the County.

"Paving 4.18 miles on the South Umpqua River-Shady Unit, Deady-Shady Section of the Pacific Highway south from Roseburg in Douglas County: The Commission awarded the contract to E. C. Hall Company and J. C. Compton Company, Portland, the low bidders, at their bid price of $398,465.00

"Drain (Main Street) Paving Project in Douglas County: The Commission awarded the contract to the low bidder, Porter W. Yett, Portland, at his bid price of $12,886.00.

"Suntex Rock Production Project on the Central Oregon and Lakeview-Burns Highways in Harney County: The Commission awarded the contract to N. A. Toole Construction Company, Ontario , the low bidder, at their bid price of $23,475.00.

"Grading and paving 0.2 mile on the West Hood River Connection on the Columbia River Highway in Hood River County: The one bid which was submitted for this project was rejected.

"Construction of a concrete bridge over the East Fork of Hood River and construction of 0.94 mile of highway roadbed, rock base and oil mat wearing surface on the Woodworth County Road near Parkdale in Hood River County: The one bid which was submitted for this project was rejected.

"Main Street, 16th Street, and Taylor Street Overcrossings just east of Cottage Grove on the Pacific Highway in Lane County: The Commission awarded the contract to the low bidder, Tom Lillebo, Reedsport, at his bid price of $103,512.00.

"Construction of Channel Change Bridges east of Creswell in Lane County: The Commission awarded the contract to the low bidder, Hamilton & Thoms, Eugene, at their bid price of $17,605.00.

"Divisions Nos. 3 and 4 Guard Rail Project on the Willamette, The Dalles-California, Warm Springs and West Diamond Lake Highways in Central and Southern Oregon in Lane, Klamath, Jefferson, and Jackson Counties: The Commission awarded the contract to R & W Construction Company, Auburn, Washington, the low bidder, at their bid price of $36,345.50.

"Grading and paving on the Depot Slough-Toledo Section of the Corvallis-Newport Highway west from Toledo in Lincoln County: The one bid submitted on this project was rejected.

"Oiling 6.0 miles of Jefferson Junction-Knox Butte and Cox Creek-Lebanon Junction Sections of the Hardscrabble Hill and Cox Creek County Roads south and east of Albany in Linn County: The Commission elects to accept the bid of C. C. Meisel, McMinnville, in the sum of $36,416.00 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Linn County and the Bureau of Public Roads is received and the sum of $8,700 is deposited by the County.

"Grading and paving 2.6 miles on the Hopmere-Wheatland Junction Section of the North River Road about four miles north of Salem in Marion County: The Commission elects to accept the bid of Central Paving Company, Independence, in the sum of $58,271.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Marion County and the Bureau of Public Roads is received and the sum of $13,200 is deposited by the County.

"Construction of Broadacres Road and Crosby Road Undercrossings on the Portland-Salem Expressway west of Hubbard and Woodburn in Marion County: The Commission awarded the contract to the low bidder, Lockyear & White, Inc., Longview, Washington, at their bid price of $104,035.50.

"Salem By-Pass Fencing Project on the Pacific Highway East, east of Salem in Marion County: The Commission awarded the contract to the low bidder, Lind & Marr Construction Company, Beaverton, at their bid price of $25,615.00.

"Grading and pavement widening 0.96 mile on the West Slope, Summit (Passing Lane) Section of the Wilson River Highway about 30 miles east of Tillamook in Tillamook County: The Commission awarded the contract to the low bidder, Grimstad & Vanderveldt, Astoria, at their bid price of $19,806.50.

"Ladd Canyon Sand Storage Shed on US 30 in Union County: The Commission awarded the contract to the low bidder, Bechtel Brothers, La Grande, at their bid price of $11,800.00.

"Wallowa Lake Park Facilities in Wallowa County: The Commission awarded the contract to the low bidder, United Pacific Construction, Inc., Eugene, at their bid price of $10,563.00."

There being no further business to come before the Commission at this time, the meeting adjourned at 3:20 p.m.

State Highway Engineer

Minutes of

June 23 and 24, 1954

EXHIBIT "A"

Minutes of June 23 and 24, 1954

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW THEREFORE BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

UNIT 1-T. H. BANFIELD EXPRESSWAY HIGHWAY

Minutes of June 23 and 24, 1954

RESOLUTION

WHEREAS, it has been brought to the attention of the Commission that in some instances options have been taken on real properties needed for right of way and other highway purposes, and in other instances options are now being taken on real properties needed for right of way and other highway purposes, in connection with both of which situations it appears that formal authorization for such takings has not been recorded in the Commission's records or minutes; and

WHEREAS, nothwithstanding the fact that formal authorization for such acquisitions has not been made a part of the Commission's written records, the taking of such options have the informal approval of the Commission; and

WHEREAS, for the purpose of supplementing such informal records and action, it is the purpose of the Commission at this time to ratify all options so taken.

THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively, as follows:

1. That it hereby is declared that all real properties needed for right of way or other highway purposes in connection with the construction, reconstruction, or other improvement of the following-named highway projects hereby are declared necessary for said projects and options heretofore taken and approved covering any of said real property hereby are approved.

2. It is further resolved that the informal action of the Commission and authorization for said acquisitions hereby is ratified.

3. That this Miscellaneous Resolution No. 113 shall be entered in the minutes and records of the Commission as of June 23, 1954, and shall be deemed effective as of the date or dates of any options taken with respect to any real properties acquired in connection with any of the projects listed on said attached page.

EXHIBIT "C-1"

Minutes of June 23 and 24, 1954

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Ukiah-West Forest Boundary Section of the Ukiah-Hilgard Secondary Highway in Umatilla County, and of the East Forest Boundary-Meadow Creek Section of the Ukiah-Hilgard Secondary Highway in Union County, and in connection therewith to prepare maps showing the route and location of said sections and to file said reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said surveys and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said surveys, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Ukiah-West Forest Boundary Section of the Ukiah-Hilgard Secondary Highway, beginning at Highway Engineer's Station 0+00 at a junction with the Pendleton-John Day Highway west of the town of Ukiah and extending in an easterly direction to Highway Engineer's Station 537+25 at the western boundary of the Umatilla National Forest, approximately 9.75 miles east of the point of beginning; together with the survey of the East Forest Boundary-Meadow Creek Section of the Ukiah-Hilgard Secondary Highway, beginning at Highway Engineer's Station 250+00 at the easterly edge of the Umatilla National Forest near the Mt. Emily Lumber Company Camp and extending easterly a distance of approximately 4.31 miles to Highway Engineer's Station 22+30 about two miles northeasterly from the town of Starkey, together with the map, which for identification purposes bears Map File No. 10C-21-18 and the date of June, 1954, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute

and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That this resolution be entered in the minutes and records of the Commission as of the twenty-third day of June, 1954, as Survey Resolution No. 104.

EXHIBIT "C-2"

Minutes of June 23 and 24, 1954

RESOLUTION

WHEREAS, the U.S. Bureau of Public Roads has heretofore made a complete and final survey of the route and location of the Umatilla National Forest Section of the Ukiah-Hilgard Secondary Highway in Umatilla and Union Counties, and in connection therewith has prepared a map showing the route and location of said section and has filed said map, reports and records with the State Highway Department for consideration; and

WHEREAS, the State Highway Engineer has reported that he has examined said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Umatilla National Forest Section of the Ukiah-Hilgard Secondary Highway, beginning at Highway Engineer's Station 537+25 (Bureau of Public Roads Station 0+00) at the western boundary of the Umatilla National Forest approximately 9.75 miles east of a junction with the Pendleton-John Day Highway and extending in an easterly direction to Highway Engineer's Station 250+00 (Bureau of Public Roads Station 1076+00) at the easterly edge of the Umatilla National Forest near the Mt. Emily Lumber Company Camp, together with the map, which for identification purposes bears Map File No. 10C-21-18 and the date of June, 1954, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and

constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That this resolution be entered in the minutes and records of the Commission as of the twenty-third day of June, 1954 as Survey Resolution No. 105.

EXHIBIT "C-3"

Minutes of June 23 and 24, 1954

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Philomath-Corvallis Section of the Corvallis-Newport Highway in Benton County, and in connection therewith to prepare a map showing the route and location of said section and to file said reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Philomath-Corvallis Section of the Corvallis-Newport Highway, beginning at Highway Engineer's Station at the junction with the Alsea Highway west of Philomath and extending in an easterly direction to a connection with Third and Fourth Streets north of Mary's River in the City of Corvallis at Highway Engineer's Station , together with the map, which for identification purposes bears Map File No. 10C-21-17 and the date of June, 1954, field notes and other engineering data submitted by the Engineer hereby are approved, and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building in Salem, Oregon.

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method.

4. That this resolution be entered in the minutes and records of the Commission as of the 23rd day of June, 1954 as Survey Resolution No. 103.

EXHIBIT "D"

Minutes of June 23 and 24, 1954

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 3656, with E. L. Gates & Co. for grading and paving on the Winchester Bay-Clear Lake Unit, Winchester Bay-Forest Boundary Section of the Oregon Coast Highway in Douglas County, completed October 22, 1953.

"Contract No. 3772, with Babler Bros. Inc., for grading on the Anlauf-Elkhead Road Unit, Divide-Rice Hill Section of the Pacific Highway in Douglas County, completed April 13, 1954.

"Contract No. 3784, with Guy F. Atkinson Co. for constructing Willamette River Bridge at Wilsonville on the West Portland-Hubbard Highway (Portland-Salem Expressway), completed May 24, 1954.

"Contract No. 3808, with J. F. Johnston, for constructing the Beaverton-Aurora Road Undercrossing on the West Portland-Hubbard Highway in Clackamas County, completed May 27, 1954.

"Contract No. 3857, with Diamond Tractor & Equipment Co. for grading and oil mat surfacing on the Middle Unit-Princeton-Follyfarm Section of the Rome-Princeton Highway in Harney County, completed June 1, 1954.

"Contract No. 3868, with J. C. Compton Co. for paving on the Lakeview (Pine Street North)City Street Section in Lake County, completed May 25, 1954.

"Contract No. 3926, with Acme Construction Co. for bridge construction, grading and paving on the Molalla Junction-Marquam Section of the Cascade Highway in Clackamas County, completed May 24, 1954.

"Contract No. 3927, with Acme Construction Co. for grading and paving on the Molalla (2nd St. & Hart Ave.) City Street Section in Clackamas County, completed May 24, 1954.

"Contract No. 3956, with Morrison & Lamping for grading and paving on the Joseph-Sheep Creek Hill Section of the Little Sheep Creek Highway in Wallowa County, completed November 25, 1953.

"Contract No. 3976, with Lloyd Sperling for constructing an office

building in Tillamook, Tillamook County, completed June 7, 1954.

"Contract No. 3983, with Loree Building Service for constructing Moon Creek and John Day River Bridges on the John Day Highway in Grant County, completed June 17, 1954.

"Contract No. 3998, with Birkemeier & Saremal for constructing the Kellogg Creek Bridge on the Milwaukie-Gladstone Road in Clackamas County, completed June 1, 1954.

"Contract No. 4007, with Parker-Johnson Co. for constructing the North Corvallis Overcrossing on the Pacific Highway West in Benton County, completed June 12, 1954.

"Contract No. 4009, with Ausland & Dodson for constructing the Rock Point Bridge Approaches on the Pacific Highway in Jackson County, completed May 17, 1954.

"Contract No. 4013, with Parker-Johnson Co. for widening the Cook Overcrossing on the West Portland-Hubbard Highway in Washington County, completed May 13, 1954.

"Contract No. 4017, with Ferguson-Cassidy Co. for constructing trailer shelters at Timberline and Warm Springs Junctions in Clackamas County, completed June 2, 1954.

"Contract No. 4026, with George E. Berry for constructing a sand shed at Lapine on The Dalles-California Highway in Deschutes County, completed May 13, 1954.

"Contract No. 4029, with Fodge & Collins for constructing overnight camp in Honeyman State Park in Lane County, completed May 31, 1954.

"Contract No. 4033, with Rogers Construction Co. for grading and paving on the Crooked River-Terrebonne Section of The Dalles-California Highway in Deschutes and Jefferson Counties, completed June 9, 1954.

"Contract No. 4042, with Loree Building Service for constructing maintenance building at Athena in Umatilla County, completed June 5, 1954.

"Contract No. 4043, with Lind & Marr for constructing the North Plains Junction grade separation on the Wilson River Highway in Washington County, completed May 28, 1954.

"Contract No. 4080, with N. A. Toole Construction Co. for furnishing crushed materials in stockpile on the Black Bridge-Carson Section

on four state highways in Baker County, completed May 14, 1954.

"Contract No. 4085, with Vernie Jarl for furnishing crushed materials in stockpile on the Goshen-Lowell Section of the Willamette Highway in Lane County, completed April 26, 1954.

"Contract No. 4103, with Sprague McDowell Co. for roadside improvement on the west approaches to Salem Bridges Section of the Willamina-Salem Highway in Polk County, completed June 17, 1954.

"Contract No. 4104, with the Colorado Fuel & Iron Corporation for fencing on the Deschutes River-Fulton Canyon Section of the Columbia River Highway in Sherman County, completed May 22, 1954.

"Contract No. 4113, with Warren Northwest, Inc. for paving on the Fairgrounds Road-Market Street Unit, Summer Street (Salem) Section of the Pacific Highway East in Marion County, completed May 19, 1954.

"Contract No. 4116, with C. C. Meisel for furnishing crushed materials in stockpile on the Shaniko Section of the Sherman Highway in Wasco and Sherman Counties, completed May 1, 1954.

"Contract No. 4140, with Warren Northwest, Inc. for paving on the Gervais (5th Street) City Street Section in Marion County, completed May 25, 1954.

"Contract No. 4142, with Warren Northwest, Inc. for grading and paving on the Turner (3rd Street) City Street Section in Marion County, completed June 2, 1954.

"Contract No. 4144, with Walton-Brown Electric Co. for Toothrock Tunnel lighting on the Columbia River Highway in Multnomah County, completed May 28, 1954."

THEREFORE BE IT RESOLVED that the work covered by State highway contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 34 shall be entered in the minutes and records of the Commission as of the 23rd day of June, 1954.

EXHIBIT "E-1"

Minutes of June 23 and 24, 1954

RESOLUTION

WHEREAS, pursuant to the provisions of Chapter 425, Oregon Laws 1947, as amended by Chapter 149, Oregon Laws 1949, there have been by the Oregon State Highway Commission apportioned from revenues accruing during the first six month period of 1952 to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

Cove. . . . . $ 763.30

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 23rd day of June, 1954.

EXHIBIT "F"

Minutes of June 23 and 24, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: OREGON COAST HIGHWAY

Highway number 9 Route number US 101

Location of Termini				Established Speed
M.P. 226.45 (South city limits of Reedsport)	to M.P.	226.55 (0.10 mile south of the south city limits of Reedsport)		35 M.P.H.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 158 be entered in the minutes and records of the Commission as of the 23rd day of June, 1954.

EXHIBIT "G-1"

Minutes of June 23 and 24, 1954

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Nehalem Highway, State Secondary Highway No. 102, known as Nehalem River Bridge Section (M. P. 30.7) in Clatsop County, the westerly terminus of which is at Highway Engineer's Station 66+33.1 of the reconstructed highway and the easterly terminus of which is at Highway Engineer's Station 97+70.22 of the reconstructed highway; and

WHEREAS, by reason of the relocation of said section of said highway, a portion or unit of the right of way of the said highway, as formerly located, has been eliminated from the boundaries of the new location, which eliminated portion or unit is no longer needed for state highway purposes; and

WHEREAS, Clatsop County and the Highway Commission have heretofore entered into an agreement under date of June 26, 1953, relating to the disposition of the said eliminated portion or unit; and

WHEREAS, pursuant to said agreement, it was agreed that when the construction of said relocated section of the Nehalem Highway was completed and opened to public travel the State would notify the County of the same by letter, and that effective upon the date of said letter jurisdiction and control over the said eliminated portion or unit would vest in Clatsop County; and

WHEREAS, the Highway Commission, by and through its authorized officers and agents, formally notified Clatsop County by letter dated May 14, 1954, that the said section has been completed and opened to public travel and that as of that date jurisdiction and control of the said eliminated portion or unit of the right of way of the said highway as formerly located became vested in Clatsop County; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon the Commission's records the disposition made of the portion or unit of the right of way of said highway affected by reason of said relocation,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting, as follows:

1. That the section of the Nehalem Highway, State Secondary Highway No. 102, located in Clatsop County and known as the Nehalem River Bridge Section (M. P. 30.7), the westerly terminus of which is at Highway

Engineer's Station 66+33.1 of the reconstructed highway and the easterly terminus of which is at Highway Engineer's Station 97+70.22 of the reconstructed highway, was completed on April 7, 1954, and the said County was formally notified of the completion thereof by letter dated May 14, 1954. Pursuant to the aforementioned agreement by and between the Commission and the said County heretofore entered into on June 26, 1953, the said County became vested with complete jurisdiction and control over the portion or unit herein defined and described as Unit "A" upon the date of the said letter, and pursuant to the said agreement Unit "A" was eliminated and removed as a part of the route of the Nehalem Highway upon the date of the said letter.

2. That the portion or unit of the old right of way which, by reason of the relocation of said highway, is no longer within the boundaries of the new right of way, and which, for the purpose of this resolution, is identified as Unit "A" and is shown colored in red on the map attached hereto, marked Exhibit "A" and by this reference made a part hereof. The location of Unit "A" is more particularly described as follows:*

Unit "A"

Beginning at State Highway Engineer's Station 76+70 of the relocated Nehalem Highway in the southwest quarter of the northwest quarter of Section 5, T. 5 N., R. 6 W., W.M.; thence easterly via the former route of the Nehalem Highway to State Highway Engineer's Station 91+25 of the relocated Nehalem Highway in the southeast quarter of the northwest quarter of Section 5, T. 5N., R. 6 W., W.M.

3. That from the date of the aforementioned letter and thereafter Unit "A" shall be maintained by the said County as a county road for the benefit and service of persons living thereon and communities served thereby. The Commission confirms the disposition heretofore made of Unit "A" in the said letter and declares that Unit "A" has been abandoned pursuant to said agreement on the date of said letter and that all right, title and interest which the State had in said right of way passed to and vested in the said County as of the date of said letter. *

4. The area shown colored in green on the said Exhibit "A" includes right of way acquired for the relocated section of the said highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way and other highway purposes and uses. Therefore the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained

and held by the State. *

That the boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with monuments, and such boundary monuments shall thereafter be maintained in place.

6. That this resolution shall be entered in the minutes and records of the Commission on this 23rd day of June, 1954, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Clatsop County.

---

*FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 278 under the heading "Abandonment and Retention Resolutions" and said map by this reference is made part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-2"

Minutes of June 23 and 24, 1954

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Cascade Highway, State Secondary Highway No. 160, known as the Molalla Junction-Marquam Section in Clackamas County, the northerly terminus of which is at Highway Engineer's Station 127+50 on the reconstructed highway and the southerly terminus of which is at Highway Engineer's Station 407+00 on the reconstructed highway; and

WHEREAS, by reason of the relocation of said section of said highway , a portion or unit of the right of way of the said highway, as formerly located, has been eliminated from the boundaries of the new location, which eliminated portion or unit is no longer needed for State highway purposes; and

WHEREAS, Clackamas County and the Highway Commission have heretofore entered into an agreement under date of April 10, 1953, relating to the disposition to be made of the said eliminated portion or unit; and

WHEREAS, pursuant to said agreement it was agreed that when the construction of said relocated section of the Cascade Secondary Highway was completed and the section opened to public travel the State would notify the County of same by letter, and that effective upon the date of said letter jurisdiction and control over the said eliminated portion or unit would vest in Clackamas County; and

WHEREAS, the Highway Commission, by and through its authorized officers and agents formally notified Clackamas County by letter dated June 2, 1954, that the said section has been completed and opened to public travel and that as of that date the jurisdiction and control of the said eliminated portion or unit of the right of way of the said highway as formerly located became vested in Clackamas County; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portion or unit of the right of way of said highway affected by reason of said relocation.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and affirmatively voting, as follows:

1. That the section of the Cascade Highway, State Secondary Highway No. 160, located in Clackamas County and known as the Molalla Junction-

(cont.)

Marquam Section, the northerly terminus of which is at Highway Engineer's Station 127+50 of the reconstructed highway, and the southerly terminus of which is at Highway Engineer's Station 407+00 of the reconstructed highway, was completed on May 24, 1954, and the said County was formally notified of the completion thereof by letter dated June 2, 1954. Pursuant to the aforementioned agreement between the Commission and said County entered into on April 10, 1953, the said County became vested with complete jurisdiction and control over the portion or unit herein defined and described as Unit "A" upon the date of the said letter, and pursuant to the said agreement Unit "A" was eliminated and removed as a part of the route of the Cascade Highway upon the date of the said letter. *

2. That the portion or unit of the old right of way which by reason of the relocation of said highway is no longer within the boundaries of the new right of way and which for the purpose of this resolution is identified as Unit "A" is shown colored in red on the map attached hereto, which is marked Exhibit "A" and by this reference made a part hereof. The location of Unit "A" is more particularly described as follows: *

UNIT "A"

Beginning at State Highway Engineer's Station 168+50 of the relocated Cascade Highway in the northwest quarter of the southwest quarter of Section 18, Township 5 South, Range 2 East, W. M., thence via the former route of the Cascade Highway to State Highway Engineer's Station 184+25 of the relocated Cascade Highway in the northwest quarter of the southeast quarter of Section 18, Township 5 South, Range 2 East, W. M.

3. That from the date of the aforementioned letter and thereafter Unit "A" shall be maintained by the said County as a county road for the benefit and service of persons living thereon and communities served thereby. The Commission hereby confirms the disposition of Unit "A" heretofore made in the said letter and declares that Unit "A" has been abandoned pursuant to said agreement on the date of the said letter and that all right, title and interest which the State had in said right of way passed to and vested in the said County as of the date of said letter.

4. That the area shown colored in green on the attached Exhibit "A" includes right of way acquired for the relocated section of the said highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for highway right of way and other highway purposes and uses. Therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State. *

EXHIBIT "G-2" (cont.)

5. That the boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the Engineer with monuments, and such boundary monuments shall thereafter be maintained in place.

6. That this resolution shall be entered in the minutes and records of the Commission on this 23rd day of June, 1954, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Clackamas County.

---

* FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 274, under the heading, "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "G-3"

Minutes of June 23 and 24, 1954

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of The Dalles-California Highway, State Primary Highway No. 4, known as Crooked River-Terrebonne Section in Deschutes County, the northerly terminus of which is at Highway Engineer's Station 930+71.65 on the relocated highway and the southerly terminus of which is at Highway Engineer's Station 1114+00 on the relocated highway; and

WHEREAS, as a consequence of the relocation of said section of highway, portions or units of the old right of way have been eliminated from the boundaries of the relocated highway and are no longer needed for state highway purposes; and

WHEREAS, Deschutes County and the Highway Commission entered into an agreement under date of September 14, 1953, relating to the disposition to be made of the eliminated portions or units; and

WHEREAS, the said agreement provided that after the said relocated section was completed and opened to public travel the Commission would notify the County of same by letter and that, effective upon the date of said letter, the eliminated portions or units, therein and herein referred to as Units "A" and "B", would be abandoned as part of the said highway and would be maintained thereafter by Deschutes County as county roads under the jurisdiction and control of said county; and

WHEREAS, Deschutes County was duly notified by letter dated June 16, 1954, that the said section had been completed and opened to public travel and that as of June 16, 1954, jurisdiction and control over Units "A" and "B" became vested in Deschutes County; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portions or units of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the section of the The Dalles-California Highway, State Primary Highway No. 4, located in Deschutes County and known as the Crooked River-Terrebonne Section, the northerly terminus of which is at Highway Engineer's Station 930+71.65 on the relocated highway and the southerly terminus of which is at Highway Engineer's Station 1114+00 on the relocated highway, was completed on June 9, 1954.

2. That the portions or units of the old right of way which by reason of the relocation of the said highway are no longer within the boundaries of the new right of way and which are identified herein as Units "A" and "B"are shown colored in red

(cont.)

on the map attached hereto, marked Exhibit "A" and by this reference made a part hereof. The location of Units "A" and "B" are more particularly described as follows: *

UNIT "A"

Beginning at the southerly boundary line of the Peter Skene Ogden State Park on the former route of the The Dalles-California Highway on the south line of the north 1/2 of the northeast 1/4 (N 1/2-NE 1/4) of Section 5, Township 14 South, Range 13 East, W. M., thence southwesterly via the former route of the The Dalles-California Highway to State Highway Engineer's Station 1005+50 on the relocated route of the The Dalles-California Highway in the northeast quarter of the northwest quarter (NE 1/4-NW 1/4), Township 14 South, Range 13 East, W. M.

UNIT "B"

Beginning at State Highway Engineer's Station 1064+00 on the reconstructed route of the The Dalles-California Highway in the northwest quarter of the northeast quarter (NW 1/4-NE 1/4) of Section 16, Township 14 South, Range 13 East, W. M.; thence southerly via the former route of the The Dalles-California Highway to State Highway Engineer's Station 1095+80.39 on the line between Sections 16 and 21, Township 14 South, Range 13 East, W. M.

3. That, pursuant to the aforesaid agreement, Units "A" and "B" are hereby abandoned as part of the The Dalles-California Highway, State Primary Highway No. 4, effective as of June 16, 1954, the date of said letter to Deschutes County, and that all right, title and interest which the State had in the right of way of Units "A" and "B" passed to and vested in the said County as of that date.

4. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said relocated section of highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of the said area is and will be needed for right of way and other highway purposes and uses. Therefore, the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State. *

5. That the boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the State Highway Engineer or his authorized representative, and such boundary monuments shall thereafter be maintained in place.

6. That this resolution shall be entered in the minutes and records of the Commission on this 23rd day of June, 1954, as Abandonment and Retention Resolution File No. 279, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Deschutes County.

---

* FOOTNOTE:

The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 279, under the heading, "Abandonment and Retention Resolutions", and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "H-1"

Minutes of June 23 and 24, 1954

RESOLUTION

WHEREAS, the Cascade Secondary Highway No. 160 (ORE 213) is a state secondary highway under the jurisdiction and control of the Oregon State Highway Commission; and

WHEREAS, it appears that at a location one-quarter of a mile south of S. E. Flavel Street (south city limits of Portland) there is located on the east side of said Cascade Secondary Highway between the south property line of S. E. Crystal Springs Bouldvard (M. P. 6.74) and the Portland Traction Company Railroad grade crossing (M. P. 6.29), the Kendall Cafe and Tavern, and that a hazardous condition is created by the parking of vehicles on either shoulder of said Cascade Secondary Highway in front of and near said cafe and tavern; and

WHEREAS, an area has been provided for off-highway parking at said location; and

WHEREAS, the roadway of said highway at said location is not of sufficient width to safely accommodate the traveling public and permit the parking of vehicles on the shoulders of the highway; and

WHEREAS, in the opinion of the Commission, public welfare and public safety require that shoulder parking of vehicles should be prohibited within said area,

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and recommendation by members of its staff, that the parking of vehicles on either side of the said Cascade Secondary Highway (ORE 213) between the south property line of S. E. Crystal Springs Boulevard (M. P. 6.74) and the Portland Traction Company Railroad grade crossing (M. P. 6.29) in the vicinity of Kendall Cafe and Tavern creates a hazard not only to traffic but to persons owning and using said parked vehicles.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience, which, in the opinion of the Commission should be provided the motoring public.

3. That this Commission does hereby find and declare that the parking of vehicles on either side of the right of way of said highway within said termini should be prohibited.

(cont.)

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Highway Commission as herein declared, on which signs shall be printed in plain, legible letters, "NO PARKING ON HIGHWAY SHOULDERS".

5. That a certified copy of this resolution be sent to the owners and operators of the Kendall Cafe and Tavern and a like copy to the Superintendent of the Department of State Police for his information.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 23rd day of June, 1954, as "No Parking" Resolution No. 115.

EXHIBIT "H-2"

Minutes of June 23 and 24, 1954

RESOLUTION

WHEREAS, the Pacific Highway West (1-W) is one of the major state primary highways and is likewise a Federal Aid highway (US 99W), which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that the parking of vehicles on the shoulders of said highway, opposite the Polk County Fairgrounds in the vicinity of the town of Rickreall in Polk County, produces a traffic hazard, and

WHEREAS, the parking of said vehicles on the shoulders of said highway during the time that the county fair is being conducted and at other times when activities are being carried on at the fairgrounds tends to restrict and impair the use of the traveled portion of the highway to such an extent that, in the opinion of the Highway Commission, a distinct hazard is created not only to through traffic but to the owners and drivers of said parked vehicles, and

WHEREAS, in the opinion of this Commission, public travel and public safety require that the use of the shoulders of said highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission, all members being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and recommendations by members of its staff, that the parking of vehicles along both sides of the Pacific Highway West (1-W) between M. P. 59.20 (Engineer's Station 743+80) and M. P. 59.35 (Engineer's Station 756+30) creates a hazard not only to through traffic but to persons owning and using said parked vehicles.

2. That in the opinion of this Commission the right of way of said highway at said location is not of sufficient width to permit parking of vehicles and at the same time provide the degree of safety and convenience which, in the opinion of the Commission, should be provided the motoring public.

3. That the Commission does further find and declare that the parking of vehicles for long periods of time on the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Commission as herein declared, on which signs should be printed in plain letters the words "NO PARKING ON HIGHWAY SHOULDERS".

(cont.)

5. That a certified copy of this resolution be sent to the Superintendent of the Department of State Police and a like copy to the President of the Polk County Fair.

6. That this No Parking Resolution No. 116 be entered in the minutes and records of the State Highway Commission as of the 23rd day of June, 1954.

EXHIBIT "H-3"

Minutes of June 23 and 24, 1954

RESOLUTION

WHEREAS, the Siuslaw Highway, No. 34, is one of the major state primary highways and is likewise a Federal Aid highway, which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, field investigation reveals that a serious shoulder-parking condition exists in the vicinity of LaDuke's Lumber Company on the said Siuslaw Highway between M. P. 2.34 (Engineer's Station 916+00) and M. P. 2.62 (Engineer's Station 901+00) in the town of Cushman and that a hazardous condition is created at and near said LaDuke's Lumber Company by the parking of vehicles on both sides of said Siuslaw Highway in front of and near said LaDuke's Lumber Company; and

WHEREAS, an area has been provided by the Lumber Company for off-highway parking at such location; and

WHEREAS, the roadway of said highway at said location is not of sufficient width to safely accommodate the traveling public and permit the parking of vehicles on the shoulders of the highway; and

WHEREAS, in the opinion of the Commission, public welfare and public safety require that shoulder-parking should be prohibited within said area.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission as follows:

1. The Commission does hereby find and declare, based upon investigations, reports, and recommendation by members of its staff, that the parking of vehicles on both sides of the Siuslaw Highway, No. 34, between M. P. 2.34 (Engineer's Station 916+00) and M. P. 2.62 (Engineer's Station 901+00) in the vicinity of LaDuke's Lumber Company in Cushman creates a hazard not only to highway traffic but to persons owning and using said parked vehicles.

2. That in the opinion of this Commission, the right of way of said highway at said location is not of sufficient width to permit parking of vehicles thereon and at the same time provide the degree of safety and convenience, which, in the opinion of the Commission should be provided the motoring public.

3. That this Commission does hereby find and declare that the parking of vehicles on either side of the right of way of said highway within said termini should be prohibited.

4. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judg-

ment are necessary to accomplish the purpose of this resolution and the action of the Highway Commission as herein declared, on which signs shall be printed in plain, legible letters, "NO PARKING ON HIGHWAY SHOULDERS".

5. That a certified copy of this resolution be sent to the owners and operators of the LaDuke's Lumber Company and that a like copy be sent to the Superintendent of the Department of State Police for his information.

6. That this resolution be entered in the minutes and records of the State Highway Commission as of the 23rd day of June, 1954, as "No Parking" Resolution No. 117.

EXHIBIT "H-4"

Minutes of June 23 and 24, 1954

RESOLUTION

WHEREAS, the Pacific Highway, No. 1, is one of the major state primary highways and is likewise a Federal Aid highway, (US 99), which highway throughout its entire length carries a large volume of traffic; and

WHEREAS, it appears that the parking of vehicles on the shoulders of said highway in the vicinity of the highway department's loadometer weighing station south of Dillard in Douglas County, produces a traffic hazard; and

WHEREAS, the parking of said vehicles on the shoulders of said highway tends to restrict and impair the use of the traveled portion of the highway and also interferes with the successful operation of the loadometer weighing station, to such an extent that, in the opinion of the Highway Commission, a hazard is created not only to through traffic but to the owners and drivers of said parked vehicles, and

WHEREAS, in the opinion of this Commission, public travel and public safety, as well as the operation of the weighing station, require that the use of the shoulders of said highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission, all members being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare, based upon investigation, reports, and recommendations by members of its staff, that the parking of vehicles on either shoulder of the Pacific Highway, No. 1, between M. P. 209.27 (Engineer's Station 1055+50) and M. P. 209.85 (Engineer's Station 1024+50) creates a hazard not only to through traffic but to persons owning and using said parked vehicles, and that the parking of any vehicle on the easterly side of said highway right of way between M. P. 209.55 (Engineer's Station 1040+50) and M. P. 209.63 (Engineer's Station 1036+00) interferes with the successful operation of the highway department's loadometer weighing station at such location.

2. That this Commission does hereby find and declare that the parking of vehicles on either shoulder of said highway between M. P. 209.27 and M. P. 209.85 and that the parking of a vehicle on any portion of the right of way on the easterly side of the highway between M. P. 209.55 and M. P. 209.63 should be prohibited.

3. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action

(cont.)

of the Highway Commission as herein declared, the signs to bear in plain, legible letters the words, "NO PARKING ON HIGHWAY SHOULDERS" except that between M. P. 209.55 (Engineer's Station 1040+50) and M. P. 209.63 (Engineer's Station 1036+00) on the easterly side of the highway, the signs shall bear the words "NO PARKING AT ANY TIME".

4. That a certified copy of this resolution be mailed to the Superintendent of the Department of State Police for his information and guidance.

5. That this No Parking Resolution No. 118 be entered in the minutes and records of the State Highway Commission as of the 23rd day of June, 1954.

EXHIBIT "I"

Minutes of June 23 and 24, 1954

RESOLUTION

WHEREAS, the State of Oregon, by and through its State Highway Commission is the owner of the parcel of land in Multnomah County, Oregon described as follows:

A parcel of land lying in the Northwest quarter of Section 31, Township 1 North, Range 2 East, Willamette Meridian, Multnomah County, Oregon; the said parcel being described as follows:

Beginning at a point 20.625 chains east and 60.78 chains north of the southwest corner of said Section 31, said point being in the center line of N. E. 47th Avenue, as now existing, and being also the beginning point in the description of said State of Oregon tract; thence North 1° 33' 16" East along the center line of N. E. 47th Avenue, 137.70 feet; thence North 88° 16' 19" West 117 feet to the true point of beginning; thence continuing North 88° 16' 19" West a distance of 242 feet; thence along the boundary of said State of Oregon tract as follows: South 1° 33' 44" West, 73.04 feet, North 88° 16' 19" West 15.00 feet, South 1° 33' 44" West 64.66 feet; and North 88° 16' 19" West 186.70 feet, to the east line of N. E. 44th Avenue, as now existing; thence North 1° 33' 44" East along the east line 30 feet from the center line of N. E. 44th Avenue 445.60 feet; thence South 88° 26' 16" East, 10 feet; thence North 1° 33' 44" East along a line parallel to and 10 feet east of the east line of N. E. 44th Avenue, 10.82 feet, more or less, to a point 53 feet southerly from, when measured radially to the T. H. Banfield Expressway center line at Engineer's Station L4 148+66.79; thence parallel to and 53 feet southerly from said expressway center line, on a 1584.02 foot radius curve to the right (the long chord of which bears South 56° 32' 25" East, 311.64 feet) a distance of 312.08 feet; thence continuing parallel and 53.00 feet southerly from said center line on spiral curve to the right (the long chord of which bears South 47° 38' 44" East, 223.36 feet) a distance of 223.46 feet to a point, said point being opposite Engineer's center line Station L4 154+18.06, said point also being on a line 117 feet westerly of and parallel to the center line of N. E. 47th Avenue; thence South 1° 33' 16" West 9.41 feet, to the true point of beginning.

The parcel of land to which this description applies contains 108,197 sq. ft.

WHEREAS, after consideration, the Commission finds and declares that the said property is no longer needed, required or useful for highway purposes.

AND WHEREAS, the said property has been appraised by competant and experienced appraisers and the reasonable market value thereof found and estimated to be the sum of Two Hundred Fifty Thousand and No/100 Dollars

(cont.)

($250,000.00), and the Commission is desirous of selling and disposing of said property at a price not less than the appraised amount.

NOW, THEREFORE, BE IT RESOLVED that the Secretary of the Commission, be and he hereby is, authorized and instructed to advertise the said property for sale, in accordance with the terms and provisions of ORS 273.060 Et. Seq.

AND BE IT FURTHER RESOLVED that this Miscellaneous Resolution No. 114 be entered in the minutes and records of the Commission as of the 23rd day of June, 1954.

EXHIBIT "J"

Minutes of June 23 and 24, 1954

RESOLUTION

WHEREAS, under the provisions of ORS 483.532 the State Highway Commission is authorized to impose limits as to any gross weight or any dimension of vehicles or combinations of vehicles operated upon roads, highways or streets under its jurisdiction; and

WHEREAS, under the provisions of ORS 366.350 the Commission is authorized to make regulations and provisions for the use and administration of state parks and other places of attraction which are owned by or under the control of the State, acting by and through the Commission; and

WHEREAS, the Cove Palisades State Park is owned by and under the control of the State, acting by and through its State Highway Commission, and that certain road within the Cove Palisades State Park extending from the Culver-Cove Palisades State Park County Road in a northerly direction to Round Butte is a public road under the jurisdiction of the State Highway Commission; and

WHEREAS, due investigation has been made and based upon said investigation and upon the recommendation of the State Highway Engineer and the State Parks Superintendent it is the judgment and finding of the Commission that the operation of vehicles having a size and weight which are lawful are damaging a portion of said road within the said park, and that in order to protect said highway from being unduly damaged, it is necessary to impose limits as to the gross weight of any vehicle operating upon said highway;

NOW, THEREFORE, the premises being as above stated, IT IS HEREBY ORDERED that the maximum weight of combined loads of any vehicle or combinations of vehicles which shall operate upon the section of that certain road extending from the Culver-Cove Palisades State Park County Road to Round Butte within the Cove Palisades State Park, which lies between Engineer's Station 0+00, at the summit of Round Butte, to Engineer's Station 136+00, shall not exceed 4,000 pounds gross weight on any axle, nor 7,000 pounds on any pair of tandem axles, nor a maximum of 10,000 pounds gross weight on all the axles of the vehicle or combinations of vehicles.

It is further ordered that this order shall be in full force and effect from the date of this resolution, until modified, annulled or voided by order of the State Highway Commission, and it is further ordered that a sign giving notice of this order be posted at the main entrance of the Cove Palisides State Park, and at each end of the said section of highway, and at important crossroads on said highway so that said notice can be readily seen and read. Said notice shall state plainly the limitations and regulations which are hereby determined and fixed, and be it further ordered that a duly certified copy of this order shall be furnished

(cont.)

to the County Clerk of Jefferson County, to the Superintendent of State Police, and to the Secretary of State.

Entered in the minutes and records this 23rd day of June, 1954, as Load Limit Resolution No. 45.

EXHIBIT "K-1"

Minutes of June 23 and 24, 1954

RESOLUTION

WHEREAS, the State Highway Commission on the 29th day of October, 1953, by resolution declared the necessity for the acquisition of certain real property owned by Robert Neagle Forrest, et al, File No. R 20089, situated in Sections 16 and 21, Township 2 North, Range 33 East, W. M., Umatilla County, Oregon, and for use in connection with the relocation, construction, improvement and maintenance of the Pendleton-Deadmans Pass Section of the Old Oregon Trail Highway; and

WHEREAS, the said resolution declared the necessity that there shall be no rights of access of any nature between the right of way of the said relocated Old Oregon Trail Highway and the owners' remaining land, except for three farm crossings and one stock pass; and

WHEREAS, the said Highway Commission, after further investigation, has found that it will be to the best interests of the State and the owners to change the location of two of the said farm crossings;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows.

1. That the access control language in that certain resolution duly made and entered in full in the minutes and records of the Commission on the 29th day of October, 1953, pertaining to the property owned by Robert Neagle Forrest, et al, File No. R-20089, said access control language, being set forth on pages 9 and 10 of Exhibit A of the said resolution, be and the same hereby is amended to read as follows:

> It is necessary that there shall be no rights of access of any nature between the right of way of the said relocated Old Oregon Trail Highway and all of the contiguous real property of the owners which abuts thereon remaining after the appropriation of the real property hereinabove described as Parcels No. 1, 2 and 3, except that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, the following:
>
> > The right to establish, maintain and use a crossing for farm purposes only, of a width not to exceed 75 feet, at Highway Engineer's center line Station 375+00, however, provided that upon the alienation of either of the portions of the property severed by the said relocated Old Oregon Trail Highway, resulting in the severed portions of said property being owned by different persons, this right of crossing shall be forfeited and shall cease, and if the owners, their heirs or assigns, shall

(cont.)

commit, suffer or permit any use of the said crossing for any purpose other than as a passageway from one side of the said highway to the other for farm purposes, then and in that event the right hereby reserved to the owners will be automatically forfeited, and the State shall have the power to close said crossing for all purposes.

The right to establish, maintain and use a crossing for farm purposes only, of a width not to exceed 75 feet, at Highway Engineer's center line Station 395+00; provided, however, that upon the alienation of either of the portions of the property severed by the said relocated Old Oregon Trail Highway, resulting in the severed portions of said property being owned by different persons, this right of crossing shall be forfeited and shall cease, and if the owners, their heirs or assigns, shall commit, suffer or permit any use of the said crossing for any purpose other than as a passageway from one side of the said highway to the other for farm purposes, then and in that event the right hereby reserved to the owners will be automatically forfeited, and the State shall have the power to close said crossing for all purposes.

The right to establish, maintain and use a crossing for farm purposes only, of a width not to exceed 75 feet, at Highway Engineer's center line Station 412+25; provided, however, that upon the alienation of either of the portions of the property severed by the said relocated Old Oregon Trail Highway, resulting in the severed portions of said property being owned by different persons, this right of crossing shall be forfeited and shall cease, and if the owners, their heirs or assigns, shall commit, suffer or permit any use of the said crossing for any purpose other than as a passageway from one side of the said highway to the other for farm purposes, then and in that event the right hereby reserved to the owners will be automatically forfeited, and the State shall have the power to close said crossing for all purposes.

The construction of a frontage road shall not defeat the rights of crossing herein reserved.

Right to use as a stock pass a concrete box-type underpass, six feet high and six feet wide, which will be constructed by the State, at its sole cost, under the said relocated Old Oregon Trail Highway at Highway Engineer's center line Station 419+50.

2. That this resolution be entered in full in the minutes and records of the Commission this 23rd day of June, 1954, as Condemnation Resolution No. 512.

EXHIBIT "K-2"

Minutes of June 23 and 24, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to-wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to State highways; or for the maintenance of an unobstructed view of any State highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Euchre Creek-Wedderburn Section of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and,

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for

the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Euchre Creek-Wedderburn Section of the Oregon Coast Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Euchre Creek-Wedderburn Section of the said relocated Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the relocation, construction, improvement and maintenance of the said Euchre Creek-Wedderburn Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to at-

EXHIBIT "K-2" (cont)

tempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 23rd day of June, 1954, as Condemnation Resolution No. 513.

---

* FOOTNOTE: The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 513, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-3"

Minutes of June 23 and 24, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads, connecting roads; frontage roads; highway drainage; drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen in part, improve and maintain the Clackamas Secondary Highway, and to relocate, construct, improve and maintain the Clackamas Overcrossing Section of the said Clackamas Secondary Highway; and

WHEREAS, for the purpose of widening in part, improving and maintaining the Clackamas Secondary Highway, and relocating, constructing, improving and maintaining the Clackamas Overcrossing Section of the said Clackamas Secondary Highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening in part, improvement and maintenance of the Clackamas Secondary Highway, and the relocation, construction, improvement and maintenance of the Clackamas Overcrossing Section of the Clackamas Secondary Highway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best in-

terests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Clackamas Overcrossing Section of the said Clackamas Secondary Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the widening in part, improvement and maintenance of the Clackamas Secondary Highway, and the relocation, construction improvement and maintenance of the Clackamas Overcrossing Section of the Clackamas Secondary Highway, and the highway facilities for which each of the said parcels of property, or interest therein, is required and being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 23rd day of June, 1954, as Condemnation Resolution No. 514.

---

*FOOTNOTE: The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 514, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "K-4"

Minutes of June 23 and 24, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to-wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to establish, construct and maintain Unit No. 2 of the T. H. Banfield Expressway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be established, constructed and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and,

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, accuire an entire lot, block or tract of land, part of which is

necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and,

WHEREAS, for the purpose of establishing, constructing and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the establishment, construction and maintenance of the said Unit No. 2 of the T. H. Banfield Expressway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full.

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Unit No. 2 of the T. H. Banfield Expressway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property.

3. That the establishment, construction and maintenance of the said Unit No. 2 of the T. H. Banfield Expressway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

EXHIBIT "K-4" (cont)

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 23rd day of June, 1954, as Condemnation Resolution No. 518.

EXHIBIT "K-5"

Minutes of June 23 and 24, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to-wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage; drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, the said Commission is required to designate, locate, relocate, construct and maintain in the State of Oregon a system of highways, including all necessary bridges and culverts; and,

WHEREAS, for the purpose of constructing and maintaining certain sections of the state highway system, the Commission plans and proposes to acquire a material site, and right of way for a haul road, and for such purpose and in connection therewith the real property hereinafter described is necessary; and,

WHEREAS, said Commission is authorized to take fee simple title to said real property;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A", is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

23674

EXHIBIT "K-5" (cont)

2. That the highway facilities for which the said parcels of property, or interest therein, are required and are being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and that in the event no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 23rd day of June, 1954, as Condemnation Resolution No. 519.

---

*FOOTNOTE: The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 519, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

Portland, Oregon
August 9, 1954

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

The State Parks Superintendent, Mr. C. H. Armstrong, reported on the following park matters:

1. Proposed state park at Ochoco Lake: The Parks Superintendent reported that he had made a further study of this park area relative to its use. Whereas the study made a year ago indicated that its use was largely local, the most recent study indicates that about 60 percent of the people now using the lake cannot be classed as local people. The Game Commission, he added, has stocked the lake heavily with trout and the great preponderance of use is by fishermen. He recommended that it be developed in line with this usage at a total expenditure of about $24,000, being approximately $9,500 for land and $14,500 for improvements. The Commission accepted the recommendation.

2. Request of D. C. Burkes to sell their property north of Boiler Bay in Lincoln County for state park purposes: The Parks Superintendent stated that this parcel of land lies about one mile north of Whale Cove. The value of the land for park use is limited due to the short coast line and the small area which could be utilized for swimming and bathing. He, therefore, recommended that the property be not purchased. The Commission accepted the recommendation.

3. Proposed lease of property from Pacific Power and Light Company at the south end of Wallowa Lake for park purposes: The Parks Superintendent reported that after a number of conferences, an agreement has been reached with the Power Company for use of its property on the basis of a 30-year lease. The Power Company, he stated, reserves the right to terminate the agreement during the first 15 years of the agreement for expansion of its facilities and may also terminate it during the second 15 years for the expansion of its facilities or for the purpose of selling the property in which event the State shall be given the first option to purchase. The terms

of the agreement, he stated, provide ample protection for the State, and he recommended that the agreement be approved. Chairman Chandler inquired if the provisions of the agreement include some reference to the road in the park. The Parks Superintendent replied that this particular agreement does not have reference to the road. The Commission approved the agreement.

4. Development of park areas adjacent to lakes on a state-wide basis: The Parks Superintendent reported that since the June meeting he has not had time to make a complete and thorough study of this matter but has prepared a report showing lakes on which developments have been made, lakes on which developments have been proposed, lakes adjacent to highways on which developments could be made, and lakes not adjacent to highways. This report, he stated, was submitted to the Commission in letter form under date of July 20. Commissioner McIver stated that in his opinion the report should recommend a priority for development on the various lakes. Commissioner Reynolds suggested that the report be accepted and that consideration be given to individual developments separately on their own merits as they come up. After some further discussion the Commission accepted the Parks Superintendent's report and instructed him to submit a more thorough report showing his recommendations for priority of development.

5. Extension of Jack Flaucher lease for concession privileges at the Vista House on the old Columbia River Highway: Mr. Flaucher, the Parks Superintendent stated, has been a very good operator and has paid to the State between $5,500 and $6,000 annually since he has been in charge of this concession. He pointed out that when the operations have been satisfactory, it has been the practice in the past to approve an extension of the lease a year in advance so that the operator can arrange for the purchase of supplies. He recommended that Mr. Flaucher's lease be extended from March 31, 1955 to March 31, 1956. The Commission approved the extension.

6. Request for authority to travel out of the state: The National Conference on state parks, the Parks Superintendent reported, will be held at Lake Crescent in the State of Washington during September 12 to 16. At this conference, he said, discussion will be had on park practices and problems, and park administrators from nearly all of the states in the union will be present. He requested that Mr. L. V. Koons, Assistant State Parks Superintendent; Mr. R. C. Dun[illegible]p, Park Planner; Mr. Mark Astrup, Landscape Engineer; and himself as Parks Superintendent be authorized to attend the conference at an estimated total cost of $320. The Commission granted the request.

7. Request for development of a state park in Lake Coffenberry Area south of old Fort Stevens in Clatsop County: The Parks Superintendent reported that there has not been time to conduct a thorough investigation of this matter which will be the subject of discussion with a delegation on the following day so he asked that action be deferred pending further study. The Commission took no action at this time. (Following appearance of the delegation, the Commission instructed the Parks Superintendent to make a complete inves-

tigation and present a report on feasibility, cost, and other factors.)

8. Request from Cottage Grove Recreation Committee and Lane County Parks and Recreation Commission for establishment of a state park in the Baker Bay area on Dorena Reservoir: The Parks Superintendent recalled that he had investigated and reported a similar request in September, 1952, at which time it appeared somewhat early to consider such a development. As there may have been changes in conditions since that time, he recommended and the Commission authorized a further study for the need of the development.

9. Construction of additional overnight camping facilities at Honeyman State Park, Cape Lookout State Park, and Humbug Mountain State Park: The Parks Superintendent advised that provision has been made in the 1954 Budget for enlarging the overnight camping facilities in each of these parks, but development has been held up pending the need for the added facilities. He pointed out that in Honeyman State Park at no time during the month of July was there sufficient space to meet the demand for overnight camping use. At Cape Lookout, he said, there were only 12 days in July in which the camp was not full and on the week-end of July 24, 151 camping groups were turned away as were 80 groups on the week-end of July 31. At Humbug Mountain, he said, there were only eight days in July in which the camp was not filled to capacity. He recommended that extension and enlargement of overnight facilities at these three locations be authorized as soon as plans can be prepared and within limitations of the budgeted amounts. The Commission accepted the recommendation.

The Right of Way Engineer presented for consideration options secured for acquisition of real property needed for various state highway improvements and for other purposes. After careful consideration, the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In discussing the options presented, the Right of Way Engineer brought up the matter of property to be acquired from Mr. Knox on the Greggs Creek-Wedderburn Section of the Oregon Coast Highway in Curry County. Mr. Knox, he stated, has offered to settle for the sum of $47,000 plus construction of a cattle pass and a 12-foot by 13-foot underpass. The property, he stated, is worth about $25,000, and he recommended that Mr. Knox's offer be rejected. The Commission approved the recommendation. Chairman Chandler commented that the difference in price in this case is too much and that the price to be paid should be set by a jury. In this connection the Right of Way Engineer asked that the contracting of the project be delayed for another month in order to give him time to complete the right of way negotiations. The request was granted.

The Right of way Engineer requested authority to negotiate the acquisition

of certain properties for which no specific authority previously has been granted, as follows:

COUNTY AND SECTION	FILE NUMBER	PURPOSE	HIGHWAY
BENTON	22282-Brown	Borrow Site & Haul Road	Pacific West
	22278-Johnson	Borrow Site	Pacific West
	22279-Kabler	Borrow Site	Pacific West
	22280-Wutzke	Borrow Site	Pacific West
	22281-Ayers	Borrow Site	Pacific West

The Commission approved the request by adopting the attached resolution relative thereto, marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A report on miscellaneous properties sold since the last Commission meeting was submitted by the Right of Way Engineer and accepted by the Commission. (For a list of properties sold, see copy of the report prepared by C. W. Parker, Property Manager, dated August 9 and 10, 1954, filed in the Secretary's office under the heading, "Miscellaneous Sales".)

Changes in points of access on two properties were presented by the Right of Way Engineer who explained that in both cases no additonal access is being granted, the only change being in location. He recommended and the Commission approved the changes as follows:

1. Atterbury property on the Calapooya Creek-Sutherlin Section of the Elkton-Sutherlin Highway in Douglas County - File No. 18875.

2. Voytilla property, also on the Calapooya Creek-Sutherlin Section of the Elkton-Sutherlin Highway in Douglas County - File No. 19289.

The Right of Way Engineer also brought up for discussion the granting of a new point of access to Mr. and Mrs. Guy Boyer on the East Unit of the Dayville-Mt. Vernor Section of the John Day Highway in Grant County. He explained that when the original settlement was made an existing road was overlooked, being a road that had been in use for a number of years. The access from this road, he stated, should have been granted in the original settlement, and he recommended that it be granted at this time. The Commission approved the recommendation.

He also brought up the matter of granting access to Mr. and Mrs. Edward F. Peterson on the Tigard-Newberg Section of the Pacific Highway West in Washington County. He explained that when the option was obtained it was thought that a road along the west side of the property was a public road; however, later on it was determined to be a private road in view of which he recommended that the Petersons be granted private access. The Commission accepted the recommendation.

The matter of granting a permit to Herbert Thompson, stockraiser, Pendleton, allowing him to cross the Pendleton-Deadman's Pass Section of the Old Oregon Trail (new location) was considered by the Commission. The Right of Way Engineer

explained that a cattle pass has been provided for Mr. Thompson's use, but there is not sufficient vertical clearance to allow him to ride his horse through it so it is necessary for him to cross on the pavement. He suggested the granting of a revocable permit for a gated crossing, the gates to remain closed at all times when the crossing is not in use so as to prevent the straying of stock on the highway right of way. The Commission authorized the granting of such a permit of five years duration with the strict understanding that no loose stock shall be driven on or across the highway.

The Right of Way Engineer requested instructions as to the procedure he should follow with respect to the acquisition of right of way needed for the proposed Adams Street routing of US 99W through the City of McMinnville. The Commission deferred action in this matter pending consideration of the adoption of a survey for such route which was scheduled for discussion later in the meeting. (The Commission later deferred action on the survey and instructed the Engineer to submit a new report on the highway situation in the McMinnville district. The Right of Way Engineer was authorized to negotiate the right of way when the survey is adopted.)

Consideration was given by the Commission to a proposed modification of the access language contained in a right of way deed covering the Mayhew property on Unit No. 4 of the T. H. Banfield Expressway in Multnomah County. The Right of Way Engineer explained that when the property was purchased from Mayhew, access rights were obtained not only to the expressway but to all connecting roads thereto. As the Mayhew property is the only property in this area where access to the highway and connecting roads is prohibited, he recommended that a portion of the access language be deleted so that the property will have the same treatment as all other properties in this area. The Commission accepted the recommendation.

The granting of additional compensation to the Allstate Construction Company for additional work performed by them in connection with their moving contract with Mr. Kapphahn on the Gervais-Hayesville Unit of the Portland-Salem Expressway was discussed. The Right of Way Engineer explained that in the original negotiations, landscaping of the property had been overlooked, and it was necessary for the Allstate Construction Company to perform this work as an extra item. He recommended that the company be paid $500 for such work. The Commission approved the payment.

The Right of Way Engineer presented for the Commission's consideration the proposed sale of three parcels of land which are not needed for highway purposes. In each instance, he stated, the amount to be received is equal to or higher than the amount the state paid for the property. He recommended sale of the following properties:

1. Sale to Mr. and Mrs. Clifford E. Layton of 0.10 acre of land on the Salem By-pass Section of the Pacific Highway East in Marion County for the sum of $325 with complete access restrictions.

2. Sale of 3,200 square feet of land on the Salem By-pass Section of the Pacific Highway East to L. W. and Opal K. Howland for the sum

of $224 with complete restriction of access.

3. Sale of 0.04 acre to George Z. and Barbara J. Bartruff on the Salem By-pass Section of the Pacific Highway East for the sum of $132.30 with complete restriction of access to the highway.

The Commission approved the sales as recommended.

The Right of Way Engineer requested permission to issue "land use" permits during the year 1955. He explained that many requests for use of state land for raising crops have been received, and in the past permits for such use have been granted when it appears that it will not interfere with highway construction or maintenance. Where the use of the land is of sufficient value, a charge is made for the issuance of the permit. The Commission granted the request.

The Right of Way Engineer requested authority to sell 0.74 acre of land on the Chrome Point-Coquille Section of the Oregon Coast Highway to B. B. Neavoll for the sum of $262.50. This property, he stated, is no longer required for highway purposes. The Commission approved the sale.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties which are needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Olds Ferry-Ontario Section of the Old Oregon Trail Highway

R 22134 - J. R. Panike
Right of Way (Malheur)
6.9 acres

R 22135 - Earl J. B. Newquist

Zig Zag-Rhododendron Section of the Mt. Hood Highway

L 2233 - H. L. Perkins, et ux
New resolution required for change of description

The Commission approved the request by adopting the attached resolutions relative thereto marked EXHIBITS "L-1" through "L-8 ", inclusive, which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

The Commission considered and approved the Chief Counsel's written report of cases which have been tried by his office since the June meeting of the Commission, as follows:

1. State vs D. B. Murphy, et al, L 1812: The State offered $15,000 for the property but the defendants demanded the sum of $50,000. In the course of the trial a settlement was reached whereby the State will pay the sum of $17,500 and permit an access 30 feet wide and eliminate the "future frontage road" clause.

2. State vs Robert E. Goad, et ux, L 2135: An offer was made for this property in the amount of $2,832. The offer was rejected and the

defendants demanded the sum of $13,458. The jury returned a verdict in the sum of $5,500.

3. State vs Rushlight's Inc., L 2112: An offer in the amount of $7,060 was made for this property, later increased to $10,500. This offer was rejected, and the defendants demanded the sum of $29,850. The jury returned a verdict in the amount of $7,100. The defendant has filed a motion for a new trial, but no new developments have occurred with respect thereto.

4. State vs Jannie Stadelman, et al, L 2122: The State offered to pay $4,500 for this property, which offer was rejected by the defendants who demanded the sum of $9,500. The jury returned a verdict in the sum of $4,205.

5. State vs Leonard O. Osburn, et al, L 1942: The defendants were offered $1,500 for the property which offer was rejected and a demand made for the sum of $12,384.07. The jury returned a verdict in the amount of $1,750 plus attorney's fees in the amount of $500.

6. Ivan J. Frantz, et ux vs Maud E. Eaton and the State of Oregon, by and through its State Highway Commission, L 2160 (R 19608): The Court agreed with the contention of the State that the complaint was improperly made and the State had not consented to be sued and allowed the motion to quash, whereupon the State withdrew from participation in the case. The action as between the remaining parties will continue and the State will hold the amount due Maud E. Eaton pending a determination of rights between these parties.

7. Wilhemine Kiesel Shearman and Wilhemine Kiesel Shearman, Trustee, vs Fred J. Strasbaugh, Paul L. Patterson, Governor of the State of Oregon, Earl T. Newbry, Secretary of the State of Oregon, Sigmund Unander, State Treasurer of the State of Oregon, constituting the State Land Board of the State of Oregon, and Ben R. Chandler, Charles H. Reynolds, and M. K. McIver, constituting and acting as the Highway Commission of the State of Oregon, L 2033: The Chief Counsel reported that the plaintiff sought to recover title to land and also to recover the sum of $4,500 from Strasbaugh for sand and gravel removed by him plus the sum of $25,000 from the State Highway Commission for removal of approximately $80,000 yards of gravel during the years 1951 and 1952. A motion was made to dismiss the case and an order of dismissal was issued and filed by the Court on November 24, 1953, but the State was not notified of the action until August 5, 1954.

(For details see the Chief Counsel's letters re report of cases tried, dated July 30, August 4, and August 5, 1954, in the General Files.)

The Commission also considered and accepted the Chief Counsel's report on court cases which have been settled since the Commission meeting of

June 23 and 24, 1954, as follows:

1. State vs Leroy F. Luton, et ux, L 2216: An offer was made for this property in the amount of $10,154 plus construction of an underpass beneath the highway. The defendants refused this offer and asked that a price be determined without an underpass. The defendants later requested that the entire property be acquired and offered to accept $35,000. The settlement was made on that basis. It was estimated that excess property can be sold for not less than $15,000.

2. State vs Letitia E. Kistner, et al, L 2054: The defendants rejected an offer of $4,825 for the property and demanded the sum of $12,000. After extensive negotiations, settlement was reached in which the State will pay the sum of $1,965 and construct fencing estimated to cost $3,400.

3. State vs H. W. Rich, et al, L 2034: The State offered to pay $100 for this property. Settlement has been reached in which the defendants will be paid the sum of $100 and the State will re-establish approximately 12 rods of fencing.

4. State vs Albin W. Lovcik, et ux, L 1941: An offer in the amount of $1,600 was rejected by the defendants who demanded the sum of $9,350. A settlement was effected in which the State will pay the sum of $1,000 for 1.5 acre required for right of way purposes, and the defendants will be permitted to retain 8.35 acres which is landlocked without access to the highway.

5. State vs Nolen F. Biehler, et ux, L 2119: An offer was made for this property in the amount of $2,500 which was rejected by the defendants who demanded $8,136. Further negotiations resulted in a settlement in the sum of $3,500.

6. State vs Holt Lumber Company, L 2102: Defendants were offered the sum of $1,663. This offer was rejected and a demand made for $3,500 plus $250 attorney's fees. Settlement was effected for $2,000.

7. State vs Gilbert Allen Yearous, et al, L 2197: The State offered to pay $417 and after some further negotiations this offer was accepted.

8. State vs Florence F. Hardie, et al, L 2083: An offer was made to the defendants in the sum of $200 which offer was rejected, the defendants demanding $623 plus attorney's fees of $300 plus $1,000 for removing the signs from the property. A settlement was reached under which the State will pay the sum of $500 and will permit the signs to remain upon the property.

9. State vs Donald Baker, et al, L 2226: An offer was made in the sum of $4,000. This offer was accepted on condition that the State construct a dual driveway entrance and pave the same to the property line.

August 9, 1954

10. State vs Willard Anderson Post No. 2471, Veterans of Foreign Wars, et al, L 2035: An offer in the sum of $1,250 was made and after some further negotiation was accepted.

11. State vs Lawrence C. Turner, et al, L 2117 (R 20789): An offer in the amount of $1,200 was made but was rejected by the defendant who demanded the sum of $9,059. A settlement was reached in which the State agrees to pay $3,093.

(For further details concerning the above-listed report of cases settled, see copies of the Chief Counsel's letters of July 30 and August 3, 1954, in the General Files.)

The Commission accepted a report from the Chief Counsel concernint settlement of the Winston W. Chambers' case on the Rocky Point-Gold Beach Section of the Oregon Coast Highway. The Chief Counsel recalled that the Commission, at its meeting May 12, 1954, approved acquisition of four additonal acres from Mr. Chambers at a price of $126.10 per acre, which land was required in order to remedy a slide condition. Subsequent to that time, he said, another slide occurred which requires acquisition of an additional 5.05 acres from Mr. Chambers who is willing to sell it at the same price of $126.10 per acre.

At 10:00 a.m. bids as follows for highway construction were opened and read aloud by the Secretary who then announced that the Commission would award contracts at 4:45 p.m. in the same room:

CLACKAMAS, MARION, MULTNOMAH AND WASHINGTON COUNTIES
ILLUMINATION

Colorado Fuel & Iron Corporation, Portland	$ 21,951.14

Chairman Chandler announced that because of unforeseen circumstances the bids for installation of traffic signals in Eugene will be held intact and be opened and read at the bid opening on the following day.

The meeting recessed at 12:00 noon and reconvened at 2:00 p.m. with the same persons present and participating.

A report was submitted by the Chief Counsel on a proposed settlement of the condemnation case against Charles K. Buffington, et al, on the Euchre Creek-Wedderburn Section of the Oregon Coast Highway in Curry County. He recalled that at the meeting on February 24, 1954, an option for this property in the amount of $19,000 was rejected as being too high. Appraisals on the prop-

erty, he stated, vary from $10,600 to $15,335. The value of the property he felt is about $10,600 and the defendants were offered that amount. The defendants have proposed a settlement in which the State is to pay them the sum of $16,900, rebuild a gate on the westerly side of the highway, construct an approach to the remaining triangular parcel, eliminate access control on the connecting road and eliminate 3.85 acres which encompass a quarry site. The Chief Counsel stated that he could not recommend settlement on that basis. The Commission accepted the recommendation.

The Commission also considered a report from the Chief Counsel concerning the claim of George and Augusta Jewett for damages due to interruption of their water supply by reason of construction on the Viento-Hood River Section of the Columbia River Highway in Hood River County. The Chief Counsel stated that condemnation proceedings were filed against the Jewetts on December 3, 1951 and that settlement was later reached in the amount of $10,500, the amount originally offered; however, during construction operations, the spring dried up and the State constructed a pipe line from a spring located on state-owned property to the site of the old spring. The Hewetts, he said, now claim damages in the amount of $1,740 for interruption of their water supply. He pointed out that under the terms of the settlement, payment of the $10,500 agreed upon was to be considered full compensation for the real property, including any and all damages resulting from construction of the highway. Also, under Oregon Law it appears that the State has no liability. He recommended that the claim be denied. The Commission accepted the recommendation.

The Chief Counsel requested and the Commission granted authority to institute legal proceedings against the following parties:

1. Baxter Payne, et ux, R 17627: This case concerns access to the Ochoco Highway from property formerly owned by Mr. and Mrs. J. B. Payne and Mr. and Mrs. E. A. Harnden approximately three miles west of the town of Mitchell. The deed conveying the right of way to the State provided for relinquishment of all rights of access except one which was allowed for private use only. Subsequently the land was sold to a Mr. and Mrs. Robert Woodley who built a motel on the property and are utilizing the access to service the motel in violation of the deed restriction. The Chief Counsel recommended that if voluntary cooperation cannot be secured from the Woodleys, legal proceedings be instituted to enforce the deed provision. The Commission approved the recommendation.

2. Thora K. Foss, R 18010: This case concerns access to the The Dalles-California Highway from property formerly owned by Mrs. Foss of Lapine, Deschutes County. In this instance the Chief Counsel stated that an access was granted for noncommercial use only but it now is being used by Mr. B. M. Martin, the present owner, as access to his motel. He recommended, if voluntary cooperation cannot be secured from Mr. Martin, that injunctive proceedings be authorized against him or any other party that is involved to enforce the provisions of the deed of conveyance which provides for private access only. The Commission accepted the recommendation. (The action of the Commission was confirmed at The Dalles on August 14, 1954 after the property was personally inspected by the Commission on the previous day. See ahead for additional entry.)

3. Albert S. Johnson, R 19730: This case concerns property acquired from Mr. and Mrs. Johnson on the Tigard-Newberg Section of the Pacific Highway West. The Chief Counsel explained that the consideration due and owing the Johnsons for this property was assigned to Beulah H. Opsund as consideration for her execution of a partial release of a mortgage that she holds; however, she has consistently refused to execute the mortgage release. He asked the Commission to authorize appropriate legal proceedings against the proper parties to accomplish the desired purpose. The recommendation was accepted by the Commission.

4. H. G. Rommel, R 10458: This case concerns acquisition of land in the town of Terrebonne on The Dalles-California Highway. The Chief Counsel explained that the option obtained from Mr. Rommel was accepted by the Highway Commission on September 24, 1953. Since that time, he said, Mr. Rommel has refused to execute a deed because he objects to the access restrictions contained therein, and he now demands a commercial access. He requested, and the Commission authorized legal proceedings as are necessary to obtain title to the property.

5. Sam Ellison, R 20960: This case concerns acquisition of land on the Gellatly Point-Corvallis Section of the Corvallis-Newport Highway. Mr. Ellison, the Chief Counsel stated, signed an option for the property which was accepted by the Commission September 24, 1953, but he now refuses to execute the deed because of the amount of land that the State is taking. He requested authority to start such legal proceedings as are necessary to acquire title to the property. The Commission approved the request.

The Commission considered briefly the renewal of the insurance policy now in effect covering liability in connection with snow removal operations on the Columbia River Highway between Troutdale and The Dalles. Action on the matter was deferred pending discussion during the Commission road trip later in the week. (The Commission authorized renewal of the present insurance at an adjourned meeting held in The Dalles on August 14, 1954. See ahead for additional entry.)

The Chief Counsel brought up for discussion the matter of closing the intersecting roads on the recently completed section of the Corvallis-Newport Highway between Newport and Toledo. He pointed out that there are a number of road connections along this section that should be closed and that the only way this can be accomplished legally is by the Commission declaring the highway a "throughway". He recommended such action by the Commission. The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "K", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

Consideration was given to the abandonment of a damage claim against Andrew La Lack, Jr., doing business as the La Creole Lumber Company, and

C. L. Million. The Chief Counsel explained that on March 23, 1954, a State Highway truck was sideswiped by a log truck owned by these people on a bridge located at Levins Street and Rickreall Creek in Dallas, Oregon. The bridge, he stated, is too narrow for two trucks to pass and, as the log truck had entered upon the bridge first, the driver of the state truck should have yielded the right of way. The claim, he stated, is in the sum of $34.34 and has been denied by the La Creole Lumber Company. He recommended that it be abandoned as uncollectible. The Commission accepted the recommendation.

A report was submitted by the Chief Counsel concerning the case of John Nyberg vs the State of Oregon by and through its State Highway Commission. He explained that on April 16, 1952, the State acquired from Mr. Nyberg three parcels of property on the Barbur Boulevard-Marion County Line Section of the West Portland-Hubbard Highway in Washington County for the sum of $60,502. The plaintiffs allege that sediment and silt from the State Highway Department's fill have clogged the drainage ditch on the plaintiff's remaining property and that a heavy coating of silt, mud, and clay was carried from the fill and deposited upon approximately 15 acres of the plaintiffs' land. They demand payment of damages in the amount of $30,000. Investigation , he stated, is being made and as soon as the facts are known appropriate action will be taken for the defense of the State, and if a satisfactory settlement cannot be reached, then the case will have to be tried. The Commission accepted the report.

The Chief Counsel also presented a report on the case of State vs Walnut Park, et al, L 1985. He explained that complaint in this case was filed on April 8, 1953, for acquisition of two parcels of real property on Unit No. 2 of the T. H. Banfield Expressway between Northeast 33d Avenue and Northeast 37th Avenue. Prior to the filing of the complaint an offer was made in the sum of $59,600 based on appraisals by Mr. Leroy Draper, Mr. Jeffery Holbrook, and Mr. S. N. Mayhew, varying from $54,500 to $59,520, which appraisals were obtained in February, 1951. Since 1951, he stated, there has been a considerable increase in industrial land value based on sales of other industrial property, and appraisals taken recently indicate a value between $98,000 and $111,780. He requested authority to offer the sum of $111,780 for the property. The Commission authorized an offer in such amount.

The Commission gave attention to a report submitted by the Chief Counsel concerning a claim for damages filed by Mrs. June Haviland arising out of construction of the Viento-Hood River Section of the Columbia River Highway. The Chief Counsel stated, in brief, that Mrs. Haviland alleges that she failed to understand the terms of the offer for her property that was acquired for right of way purposes and that she is entitled to additional compensation for the drying up of a spring which resulted from construction of the highway. He gave as his opinion that Mrs. Haviland did understand the terms of the offer and that the payment of $10,500 to her represents full compensation for the property acquired from her and for the damages sustained to her remaining land. He added that there is no legal obligation on the part of the Commission to pay her an additional amount. The Commission accepted the report.

The Engineer reported that under authority granted by law and pursuant to instructions from the Commission, he has awarded to the successful bidders con-

tracts as follows, which were referred to him by the Commission for award as soon as certain conditions had been met. The Commission accepted the report:

1. Grading Booth Ranch Unit, Shady-Canyonville Section of the Pacific Highway, Douglas County. Bids received May 11, 1954. Conditions of award satisfied June 25, 1954. Berke Brothers & C. R. O'Neil, Pendleton, contractor.

2. Grading and paving and construction of a concrete bridge on Sherman Junction-Willowdale Section of The Dalles-California Highway, Wasco and Jefferson Counties. Bids received May 11, 1954. Conditions of award satisfied June 25, 1954. J. W. Briggs, Bend, contractor.

3. Ridge Road-Morrow County Line and North Unit, Lost Valley Road-Lonerock Oiling Project on Base Line and Lonerock County Roads, Gilliam County. Bids received June 23, 1954. Conditions of award satisfied June 28, 1954. J. C. Compton Company, McMinnville, contractor.

4. Oiling on Jefferson Junction-Knox Butte and Cox Creek-Lebanon Junction Sections of Hardscrabble Hill and Cox Creek County Roads, Linn County. Bids received June 24, 1954. Conditions of award satisfied June 28, 1954. C. C. Meisel, McMinnville, contractor.

5. Surfacing and furnishing crushed material in stockpile on Hilgard Junction-Meadowbrook Section of Starkey Highway, Union County. Bids received June 23, 1954. Conditions of award satisfied June 29, 1954. Vernie Jarl, Gresham, contractor.

6. Leveling course and oiling Powell Butte Junction-Deschutes County Line Section of the Powell Butte County Road, Crook County. Bids received June 23, 1954. Conditions of award satisfied July 1, 1954. Babler Brothers, Inc., Portland, contractor.

7. Roadbed surfacing and oiling Twin Bridges-Muddy Creek Section of Beaver Creek-Greenberry County Road, Benton County. Bids received June 24, 1954. Conditions of award satisfied July 1, 1954. Central Paving Company, Independence, contractor.

8. Paving Sand Station-Washington State Line Section of Columbia River Highway, Umatilla County. Bids received June 23, 1954. Conditions of award satisfied July 1, 1954. Parker-Schram Company, Portland, contractor.

9. Grading and paving Depot Street in Weston, Umatilla County. Bids received June 23, 1954. Conditions of award satisfied July 2, 1954. Morrison & Lamping, Walla Walla, Washington, contractor.

10. Rock base and oiling on Jordan-Keck Canyon Section of Rhea

Creek County Road, Morrow County. Bids received June 23, 1954. Conditions of award satisfied July 2, 1954. Rogers Construction Company, Portland, contractor.

11. Grading and surfacing and widening a concrete bridge on Enterprise-Brock Corner Section of Fish Hatchery County Road, Wallowa County. Bids received June 23, 1954. Conditions of award satisfied July 12, 1954. Morrison-Knudsen Company, Inc., Boise, Idaho, contractor.

12. Oiling on Forest Boundary-Bend Section of Tumalo Falls, Bend County Road, Deschutes County. Bids received June 24, 1954. Conditions of award satisfied July 12, 1954. Babler Brothers, Inc., Portland, contractor.

13. Grading and paving Hopmere-Wheatland Junction Section of North River Road, Marion County. Bids received June 24, 1954. Conditions of award satisfied July 21, 1954. Central Paving Company, Independence, contractor.

14. Construction of Baker Creek and Panther Creek Bridges, Yamhill County. Bids received June 23, 1954. Conditions of award satisfied July 26, 1954. Johnson & Amens, McMinnville, contractor.

Upon the Engineer's request, the Commission authorized negotiations with Mr. S. G. Schlotthauer for the purchase of additional right of way, 20 feet wide, on the Sunset Highway between Sylvan and West Slope. The Engineer explained that in 1949 certain work was performed to stop erosion and slides on Mr. Schlotthauer's property but it had not proved entirely successful, and during the last year three additional small slides occurred which encroached from two feet to 18 feet onto Mr. Schlotthauer's property. He gave as his opinion that the slopes have now reached a final angle of repose and hereafter will probably remain stable.

Responsibility for maintenance of the approach road to the Maryhill Ferry after completion of The Dalles Dam across the Columbia River was discussed. The Engineer advised that when the dam is completed, the existing road between US 30 and the ferry will be inundated. At the Public Utilities hearing concerning a new crossing of the railroad tracks at grade, the County Judge of Sherman County indicated that after completion of the dam, the County Court will not be interested in maintaining this approach to the ferry, and the Public Utilities Commissioner has written that if the County should vacate the road, serious consideration would be given to denying the application of the Army Engineers for a crossing of the railroad at grade. He pointed out that if the State takes over the road leading to the Maryhill Ferry which is privately operated, a precedent would be established with respect to the assumption of responsibility not only for other ferry approach roads but also for a number of toll bridges which have approaches that are of considerable magnitude. He recommended emphatically that the State

refuse to assume any obligation whatsoever in connection with the approach road to the Maryhill Ferry. The Commission adopted the recommendation and authorized the Engineer to convey such information to the Public Utilities Commissioner.

Consideration was given to a suggestion offered by E. J. Haney, Chairman of the Roads Committee of the Weston Chamber of Commerce for establishment of a viewpoint at Weston Mountain on the Weston-Elgin Secondary Highway in Union County. The proposed viewpoint, the Engineer stated, was recently investigated with Mr. Haney, and it was found that the proposed site is in a hazardous place on a 10° curve and a 6 percent grade. He mentioned an alternate location that could be developed at a lower elevation, but which would involve construction of about 1,000 feet of access road at a total cost of about $10,000. The Bureau of Public Roads, he stated, has made a survey for relocation of this highway section, in view of which he recommended that plans for the viewpoint be deferred until the ultimate location of the highway is assured. The Commission accepted the recommendation.

The Commission also considered a report from the Engineer on a proposed overcrossing of the Southern Pacific mainline tracks on the new route of the Clackamas Secondary Highway near the town of Clackamas. The Engineer explained that a petition was filed with the Public Utilities Commissioner for authority to construct the overcrossing and to close the existing grade crossing on this highway and another grade crossing on a county road about one-half mile south of the proposed overpass. The County crossing, he stated, is also hazardous and as the additional travel-distance would not exceed 0.3 mile by closing both existing crossings and using the proposed overhead, it appeared to him to be feasible and in the interests of safety to close both of them. The Engineer further stated that subsequent to filing of the petition with the Public Utilities Commissioner, many objections to the closure of the two crossings have been voiced, including those of two county commissioners, Safeway Stores, Clackamas Grade School District No. 64, and those of local citizens. The Southern Pacific Company, he added, has advised that if both crossings are closed it will contribute 10 percent toward the cost of the overcrossing but will not contribute unless both crossings are closed. He also called attention to the fact that the Oregon National Guard unloads freight on the west side of the railroad tracks at the present crossing and will offer no objection to the closing of the existing grade crossing if a new spur track and unloading platforms are constructed on the east side of the railroad for its use. In this connection the Railroad Company insists on concrete loading platforms, which, with the construction of the spur track is estimated to cost approximately $14,000. He estimated that the proposed overcrossing improvement,including construction and right of way, will cost at least $200,000. The Commission deferred action on the matter pending appearance of a delegation that is scheduled to be heard on the subject on the following day. (The delegation that was present on the following day was advised that the Commission wants more time to study the matter and will then take final action. The subject was again discussed during the progress of the Commission's inspection trip, August 11 to 14, when it was decided definitely not to build the new overcrossing structure until the Clackamas County Court agrees to recommend to the Public Utilities Commissioner the closing of both existing grade crossings.)

The Engineer reported to the Commission the results of receiving sealed bids in Salem on July 27 for the sale of used equipment and scrap materials located at Salem, La Grande, Klamath Falls, and Coquille. He presented a tabulation of high bids received and recommended acceptance of the high bid for each item except those on items Nos. 3, 5, 36, 51, 52, 53, 54, 100, and 110 which, he said, are too low and should be rejected. He pointed out that no bid was received on several items, and he recommended that these items, together with those rejected, be readvertised for future sale or be scrapped. The total of all high bids received other than those rejected was $22,551.58 compared with an appraised value of $17,237. The Commission approved the recommendations. (For details concerning this sale, see Engineer's letter of August 4, 1954 in the General Files and tabulation of bids received July 27, 1954, filed in the office of the Secretary under File No. 472, "Miscellaneous Proposals".)

A tabulation showing statistics from the weighmaster's records covering the period from January through June for the years 1950 to 1954 was presented by the Engineer. He pointed out that the percentage of weight violations by haulers of commodities other than logs, poles or piling has shown a consistent decrease from 1950 to date, the percentage of violations during the first six months of 1954 being only slightly above one percent of the total number of loads weighed. Fines are slightly above last year's average and about 15 percent below average fines for the same period in 1952. Violations with respect to haulers of logs, poles or piling for 1954 shows 1.57 percent of the total loads weighed which is above the corresponding period for 1953, and the same as for the period in 1952. Fines, however, now are approximately 26 percent below the average for the corresponding period of 1952. He also called attention to the fact that the number of cases pending in the various courts is 510 as of June 30, being almost double the number pending a year ago. The Commission accepted the report. (For further details see the Engineer's letter of July 30 with report attached in the General Files.)

The Engineer reported that under authority previously granted him, he had approved reclassification of the following highway sections from a Group II status to a Group I status, test runs having disclosed that extra long equipment can negotiate the turns without endangering other traffic:

1. The Mt. Hood Highway from its junction with the Odell Secondary Highway at M. P. 95.35 to its junction with the new route of the Columbia River Highway, US 30, at M. P. 104.78.

2. The Odell Secondary Highway, No. 282, from Odell easterly to the junction of the Mt. Hood Highway at M. P. 3.43.

3. The Hood River Secondary Highway from its junction with the Mt. Hood Highway, M. P. 0.00, 13th and Oak Streets in Hood River, to its junction with the Mt. Hood Highway near Parkdale.

The Commission confirmed the reclassification as reported.

An offer from Mr. I. B. Solberg, Vice-president of the Beaver Crest Development Company, Corvallis, to donate a 30-foot strip of property on each side of the Oregon Coast Highway one mile north of Seal Rock in Lincoln County was considered

by the Commission. The Engineer advised that this Company has platted a subdivision at this location and has offered to deed the two strips to the State without cost. He further stated that the offer appears to be made in good faith, and he recommended that it be accepted. The Commission adopted the recommendation.

The Engineer reported that residents of the City of Seaside are concerned about their plans for construction of a bridge across the Neawanna River at the end of East Broadway in Seaside. Their concern, he stated, is caused by their uncertainty as to the plans of the Highway Department for a by-pass of the City. He explained that from the data thus far obtained in the survey now being conducted, it appears that Roosevelt Drive will be the eventual route of the highway and, if so, such routing will not affect the proposed city bridge across the Neawanna River. The Commission discussed the matter briefly but took no action at this time. (The delegation, upon its appearance before the Commission, was informed of the status of the survey; also that indications are that Roosevelt Drive will be used for the by-pass and in that event the bridge will not be of any concern to the State.)

The Commission gave attention to the following items of Unfinished Business appearing on the Secretary's summary, dated June 24, 1954:

1. Request of Gold Beach Rotary Club for establishment of a state park on US 101 near Gold Beach. Chairman Chandler advised that in company with Messrs. R. H. Baldock, State Highway Engineer; W. C. Williams, Deputy State Highway Engineer; and R. N. Kellogg, Highway Engineer, U. S. Bureau of Public Roads, he inspected the proposed interchange structure at Wedderburn shortly after the June meeting of the Commission, and on the same occasion he met with members of the Gold Beach Rotary Club for discussion of the proposed park, the request for the park having come from that organization. He said that he gave the group a map prepared by the Parks Division disclosing an area about three miles north of Wedderburn that would be desirable for state park purposes and that he told the group that the State Highway Commission does not want to be responsible for the removal of any more park land from the tax rolls of Curry County, it being his feeling, inasmuch as this is a Rotary Club project, that the responsibility belongs to the Rotary Club. Chairman Chandler stated further that he pointed out to the group that the land proposed for the park is owned by the Lloyd Corporation, and that he indicated to them, if the Rotary Club will acquire the property for the State, the Highway Commission then very likely will look with favor upon developing the area for park and recreational purposes in a manner comparable to the developments at Humbug Mountain and Harris Beach; also, that the Commission would probably approve naming the park "Lloyd Park" in honor of Mr. Lloyd of the Lloyd Corporation. He further stated that he mentioned to the club the possibility of terminating at Gold Beach improvements to the Oregon Coast Highway because of difficulties that the Commission is experiencing with regard to acquisition of right of way for the improvement of this road. The attitude of the members of the Rotary Club, he said, appeared to be friendly and enthusiastic. In concluding his report, Chairman Chandler suggested that nothing further be done about acquiring the park property at this time so as to give the members of the Rotary Club

an opportunity to discuss the matter among themselves.

The Engineer mentioned receipt of a letter from the Rotary Club stating that they contacted representatives of the Lloyd Corporation and suggest that the State Highway Department negotiate for the proposed park area at the same time negotiations are carried on for acquisition of right of way for the highway. The Engineer suggested that the State Parks Superintendent furnish the Right of Way Department a description of the park area for its use in carrying on negotiations with the Lloyd Corporation. Chairman Chandler replied that in his estimation the matter should be left in "status quo" and the item removed from the list of unfinished business. Commissioner Reynolds declared his acceptance of Chairman Chandler's report. Commissioner McIver also indicated his approval of the report. The State Parks Superintendent was thereupon requested to send a map and description of the proposed park to Mr. H. Glenn Sabin, Secretary of the Gold Beach Rotary Club, for the Club's use in negotiating acquisition of the area.

2. Proposed acquisition of land from the Pacific Power and Light Company as an addition to Wallowa Lake State Park: The Commission ordered this item deleted from the list of unfinished business inasmuch as the Parks Superintendent had reported on it earlier in the session and action was taken at that time.

3. Request of U. S. Army Engineers that the State assume responsibility for recreational facilities at Detroit Lake on the North Santiam Secondary Highway: The Parks Superintendent stated that he is not ready to report on this subject, and he requested that the item be retained on the list of unfinished business. The Commission approved the request and so ordered.

4. Request for park development at Ochoco Lake on the Ochoco Highway east of Prineville: This item was ordered deleted from the list of unfinished business inasmuch as action on the Parks Superintendent's report covering the subject was taken earlier in the session.

5. Status of expenditures in relationship to the budget for 1954: The Commission approved a written report on this subject, dated July 27, 1954, as prepared by the Auditor. The item was ordered deleted from the list of unfinished business. (For details, see copy of the Auditor's report in General Files.)

Attention was given by the Commission to a telegram received from Norblad, Wyatt, & McDonald, Astoria, attorneys for the owners of the Spexarth Building of that place, protesting the proposed rounding of a corner at 8th and Commercial Streets in Astoria in front of the Spexarth Building. The Engineer stated that these attorneys threaten to file an injunction suit if the work is not stopped, and they also offer objections to the one-way traffic routing in Astoria. He said that he has ordered the rounding work stopped pending an opinion from the Chief Counsel as to the rights of the building owners. The Chief Counsel commented that a search is now being made and a legal opinion will be forthcoming shortly. The Commission accepted the report.

A request was considered from Tulana Farms, Inc., for the Commission's approval of the vacation of a small portion of Cross Street in the unincorporated town

of Worden in Klamath County. The Engineer stated that the townsite of Worden has never been developed and that most of Cross Street already has been vacated; also that Tulana Farms wants to erect a building on the property. The vacation of this portion of the street, as proposed, he stated, is not objectionable from the State's standpoint, and he recommended that the Commission give consent to such vacation. The Commission accepted the recommendation.

A request from the City of Myrtle Point for construction of curbs and full width pavement from 8th Street south to Maryland Avenue on the Coos Bay-Roseburg Highway and for construction fo sidewalks from Maryland Avenue south to the city limits was considered by the Commission. The Engineer advised that on the basis of a preliminary estimate the cost to construct a full-width pavement, including curbs and drainage would be $85,000 and to build the sidewalks will cost an extra $10,000. He pointed out that it is contrary to the Commission's policy to construct sidewalks within city limits; also, that there are no funds available to finance the curb and widening work. He recommended in view thereof that the request for the sidewalks be denied and that consideration of the curb and widening be deferred until funds are available. The Commission adopted the recommendations.

Consideration was given to a petition from residents of Canby and Oregon City requesting installation of a traffic light on US 99E where it connects with the County Road leading to Warner Grange Hall at the top of the New Era Hill about three miles north of Canby. The Engineer advised that this matter was investigated by the Traffic Engineering Division which ascertained that the two roads connect at an acute angle making it difficult for traffic to turn from one road to the other, particularly during hours of darkness. He recommended that a luminaire unit be installed at the intersection at an estimated cost of $350. The Commission approved the installation.

The Engineer presented for consideration a proposed agreement with the Southern Pacific Railroad covering the installation of flashing railroad signals at the crossing of the Knox Butte Federal-aid County Road with the main line tracks of the Southern Pacific Railroad Company between Jefferson Junction and Jefferson in Linn County. The Railroad Company, he stated, has agreed to pay one-half the cost of the installation and to maintain the signals, and the balance of the installation cost will be shared equally by the State and Linn County. He recommended approval of the agreement. The Commission accepted the recommendation.

The Engineer requested and the Commission authorized an increase of $11,800 in the project authorization for construction of the White School Junction Unit of the West Portland-Hubbard Highway. The Engineer stated that the overrun was caused by added cost of paving shoulders and installation of luminaire units and signs which were not included in the original authorization; also due to increasing the thickness of the roadway paving from $3\frac{1}{2}$ to 4 inches.

The Commission also approved the following project authorization increases: $53,000 for the Brush Creek-Rinehart Creek Section of US 101, Contract No. 3882, and $59,000 for the Rocky Point-Brush Creek Section of US 101

Contract No. 4057. The Engineer explained that the overruns resulted from extensive slides.

The Engineer recalled that at the June meeting he reported orally on a request from Mr. Calvin N. Souther, Portland, for installation of traffic signals at the intersection of the Oswego Highway and the S. W. Military Road between Portland and Oswego, and that later, on July 9, he sent the Commissioners a written report on the subject. He commented that a traffic engineering investigation was conducted which revealed that the minimum traffic volume as compared with national accepted standards is not sufficient to warrant the installation of signals. He pointed out that unless the standards are adhered to strictly, there is no basis on which to take a stand which will insure justice to all and favoritism toward none. He recommended that Mr. Souther's request be denied and the matter be taken care of by improved signing. The Commission accepted the recommendation.

Allocations to the cities and towns of the State of their respective shares of the revenues that accrued to the State Highway fund during the period January 1 to June 30, 1954 was considered by the Commission. The Engineer pointed out that under the provisions of Oregon Law, the sum of $2,138,708.94 is available for distribution among the cities and towns, and he recommended that this money be allocated to them pursuant to formula prescribed by law. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer requested authority to conduct a location survey for improvement of the Cascade Secondary Highway (82d Street) southerly from the Clackamas overcrossing near the Portland city limits to Oregon City. He recalled that numerous requests for improvement of this section have been received and that preliminary plans for the project have been well received by the Clackamas County Court. He further stated that the improvement should be made in the not too distant future, and he gave as his opinion that the survey should be done soon so right of way can be negotiated. The Commission granted the request.

The Engineer brought to the Commission's attention a proposed improvement of the Bear Creek Section of the Siuslaw Highway in Lane County. He pointed out that the present bridge over Bear Creek is an untreated timber structure constructed in 1921 which is in immediate need of replacement; however, the alignment of approximately 0.8 mile of highway adjoining the bridge is inferior and should be revised. He presented a map showing the proposed highway relocation and the new bridge crossing, and he recommended adoption of the survey at this time. The Engineer also recommended approval of the allocation of $160,000 provided for this purpose in the new Federal-aid program which was discussed at this meeting with which to finance the improvement. The Commission approved the survey as recommended by adoption of the attached resolution relative thereto marked EXHIBIT "J", which resolution by this reference is made a part hereof with like effect as though extended in full herein. The Commission also approved the allocation of $160,000 to finance construction of the project.

Consideration was given to the adoption of a location survey for the Adams Avenue unit of the proposed one-way traffic couplet for the Pacific Highway West in

the City of McMinnville. The Engineer explained that in the proposed plan Baker Street, the existing highway route, is to be utilized for eastbound traffic and Adams Street for westbound traffic. He recommended approval of the survey subject to the city authorities passing the required ordinance and signing a contract with the State covering the situation. Chairman Chandler inquired how this one-way couplet plan will fit in with the contemplated by-pass of the City of McMinnville. He commented that traffic from Portland to the coast and return will not go through the city if a by-pass were provided, thereby removing the great bulk of traffic which now is required to go through McMinnville. The Engineer replied that the information revealed by the economic survey for this area indicates that the one-way couplet is a necessity even though the by-pass is provided. Commissioner McIver inquired how far the money required to build the one-way couplet in the city will go in constructing the by-pass route. The Engineer replied that the one-way couplet in the city is estimated to cost about $175,000 for right of way plus $200,000 for construction. The cost of constructing the by-pass, he estimated at about $1,000,000. After further discussion the Commission instructed the Engineer to prepare a new report concerning the one-way couplet and the by-pass route, with maps, including information concerning traffic volumes and costs involved. Adoption of the survey was deferred pending study of the report.

A request was considered from Mr. Fred G. Smith and Mr. Ray L. Brown, Boardman, Oregon, for construction of an extension to the frontage road along US 30 at the City of Boardman. The Engineer pointed out that the existing frontage road was provided so that several streets in a platted subdivision could be closed and that access from the frontage road to the highway was provided at two locations. Extension of the frontage road, he stated, is desired by Mr. Smith and Mr. Brown and perhaps others to permit development of additional property. It was his opinion that the extension is not an obligation of the State, and he recommended that the request be denied. The Commission accepted his recommendation.

A petition was considered from residents of the Fulton Park District in Portland, requesting a pedestrian overcrossing of Barbur Boulevard, US 99W, in the vicinity of S. W. 2d Avenue or S. W. 3d Avenue near S. W. Miles Street. The Engineer advised that a careful investigation was made by the Traffic Engineer concerning pedestrian and vehicular traffic at this location which disclosed among other things, that the pedestrian volume amounts to 130 people daily and that no pedestrian accidents occurred at this location during the period from January 1, 1949 to December 31, 1953. To construct such overcrossing, he said, will cost about $18,000. He gave as his feeling, in view of the fact that the intersection is presently channelized and signalized and the further fact that there have been no pedestrian accidents, that the overpass is not justified. He recommended that the request be denied. The Commission approved the recommendation.

The Commission discussed designation of a truck route in the City of La Grande utilizing Jefferson Street from 3d Street to Greenwood Street. The Engineer recalled that this matter has been under consideration for the past two years. Revaluation has been made, and it appears that the route described is a good one, but it will require the resurfacing of Jefferson Street with two

inches of asphaltic pavement and the acquisition of right of way to round the corner at Greenwood Street. He estimated the cost of the resurfacing work at $25,000 and recommended that the work be performed by State forces as a 1955 Betterment Project if the City will acquire the right of way necessary to round the correr at Greenwood Street and will continue to retain jurisdiction and the obligation to maintain the street after the improvement is completed. The Commission accepted the recommendation and ordered the arrangement covered by appropriate agreement.

A letter from the Coos County Court requesting a substitute connection for the Lakeside-Eel Lake County Road with the Oregon Coast Highway was discussed. The Engineer advised that this is the same substitute connection that was considered by the Highway Commission at its meeting in February, 1953, the difference being that the request at that time was from individuals who apparently wanted an access that could be developed commercially. Following receipt of the request from the County Court, he said, further investigation was made and it was determined that the request was for the benefit of the same individuals working through the County Court. The Commission accepted his recommendation that the request be again denied.

A petition forwarded by Mrs. George R. Brooks, Portland, requesting installation of a flashing beacon at the intersection of Northeast Vancouver Way and Northeast Gertz Road in North Portland was discussed. The Engineer reported that following receipt of the petition a careful investigation was made of the conditions at this point which revealed, among other things, that 40 percent of the vehicles that enter the intersection disregard the existing stop signs. From September 31, 1951 to May 31, 1954, he said, three accidents were reported at the intersection resulting in one fatality and one injury. He gave as his opinion that the primary need at the intersection is more strict enforcement of the "stop" signs. In view of the relatively favorable accident record and the low volume of traffic, he recommended that the request for a flashing beacon be denied. The recommendation was accepted by the Commission.

Consideration was also given to a request from the City of Stayton for installation of a flashing beacon at the intersection of First Street (ORE 22) and Fern Ridge Road in the extreme north part of Stayton. An investigation of this four-way intersection, the Engineer stated, disclosed that a considerable volume of traffic is involved and that the sight-distance is restricted by a deep highway cut which creates a considerable hazard. He recommended the installation of a flashing beacon to mark the intersection for northbound traffic and to provide an additional stop indication to traffic entering the intersection from the Fern Ridge Road. The cost he estimated at $400. The Commission approved the installation.

The Engineer reported that Mr. W. H. Buel of Lakeview, through Mr. Marshall Dana, Portland, has called to his attention a hazardous condition that exists at the intersection of 4th Avenue North and "G" Street (junction of US 395 and ORE 66) in the City of Lakeview. An investigation, he stated, indicated that channelizing islands should be installed to delineate the proper path for vehicles and to serve as a pedestrian refuge; also, that a flashing beacon should be installed to serve as an additional stop indication to traffic entering the intersection from the north and to mark the junction of the two state highways. The cost of this treatment he estimated at $1,600, and he recommended approval of the project. The Commission approved the recommendation.

A letter from Mr. Ed F. Ackley, attorney for the City of Brookings, concerning the poor condition of city streets that provide access to Azalea State Park, and the need for repairs to the sidewalks along the Oregon Coast Highway in the City was considered by the Commission. The Engineer advised that this matter was discussed in detail with Mayor Dimmick, the Council, and Mr. Ackley on February 9, 1954 in Brookings at which time it had been pointed out that the Commission is without authority to maintain "D" Street or Fern Avenue over which traffic is directed by signs from Chetco Avenue (US 101) to the Park, and it appears that these streets very likely are under the jurisdiction of the County inasmuch as the City has never formally adopted a system of city streets. Jurisdiction over the sidewalk area, adjacent to the Oregon Coast Highway, he said, rests with the Highway Commission because Brookings was not incorporated when the most recent improvements were made in 1940 and 1941. The City, he stated, wishes to secure jurisdiction over this sidewalk area in order to control and standardize sidewalk construction and to create improvement districts. The Engineer recommended the following:

"1. That the State deed to the City its right, title, and interest to that area between a point 30.5 feet from center line (back of the concrete curb) and a point 40 feet from center line, on both sides of the highway, where our normal right-of-way width is 40 feet each side of center line, and that area between a point 30.5 feet from center line and a point 50 feet from center line (some short sections), on both sides of the highway, where the right-of-way width exceeds the normal right-of-way width of 40 feet each side of center line, between Station 707+50 (Easy Street) and Station 771+50 (Oak Street), reserving unto the State the right to maintain any or all drainage ditches and embankment or cut slopes where no curbs or sidewalks have been or are in the future constructed. The deed should specify that property is to be used for street purposes only and cannot be vacated or conveyed to a private owner.

"2. That the State deed to the City all of its interest, right, and title to the existing right of way beyond a point 50 feet from center line between Station 734+00 and Station 752+00, reserving unto the State the right to maintain any or all cuts or fills; also reserving the right to maintain any or all drainage ditches where no curbs or sidewalks have been or in the future will not be constructed; and making a further reservation to the effect that no access will be permitted on the northerly or easterly side of the highway between Station 740+40 and Station 746+80. A stipulation should be made with respect to the above section of highway between Station 734 and Station 752 that, in the event any improvements such as grading or filling are performed on that area now being deeded to the City beyond a point 50 feet from center line, suitable drainage structures be installed in the natural drainage channels, which structures are equal in capacity to those now in place under the highway and the installation of such drainage structures shall be made to the satisfaction of the Chief Engineer.

"3. That the State Highway Department patch out the oil surface on Pacific Avenue from its intersection with Fern Avenue, for a distance of approximately 1,000 feet, in a northeasterly direction to its junction

with an unnamed street or road (to which the Highway Commission has fee title) serving as the main entrance to Azalea State Park".

In return for this maintenance, the Engineer said, the City has agreed to take over and assume complete jurisdiction as a city street the above access road to the park, approximately 1,171 feet in length, to which the Highway Commission acquired title from the Brookings Land and Townsite Company, December 31, 1938. He also said that the disposition of this street will be set forth in an agreement to be prepared by our Legal Counsel, wherein the State will agree to abandon the above-mentioned road to the County, which in turn will agree to abandon the same to the City, and the City will agree to accept the same as a city street. The Engineer exhibited a map disclosing the several features mentioned in his recommendations. The Commission unanimously adopted the Engineer's recommendations as outlined above.

An offer from Mr. Oscar Sigfridson to contribute $500 toward the cost of replacing a culvert pipe at M.P. 9.98 on the Nehalem Secondary Highway was presented by the Engineer. He explained that in preparing to replace an 18-inch culvert pipe at this location, Mr. Sigfridson pointed out his need for a cattle pass which would require a 72-inch pipe. The estimated additional cost to install the larger pipe, he said, is $1,000, fifty percent of which ($500) Mr. Sigfridson agreed to contribute; in fact, he already has submitted a check in such amount and has executed an agreement on the basis thereof. The Engineer recommended acceptance of Mr. Sigfridson's offer. The Commission accepted the recommendation.

Authority was requested by the Engineer to continue for another year, beginning July 1, 1954, a cooperative agreement with the U.S. Geological Survey concerning measurement of run-off waters from small drainage areas in various parts of the state. He recalled that a like agreement has been in effect for three years, each party contributing $5,000 annually to defray the expenses. He pointed out that a large number of the states have similar agreements and the Engineers of these states are unanimous in their opinion that the money expended in gathering the information has been returned to them many times in the more exact design of drainage structures. He recommended that the agreement be extended for another year at a cost of $5,000. Extension of the agreement was approved by the Commission.

A letter from Mr. Carl G. Helm, City Attorney, La Grande, concerning the Mill Creek cleaning project in La Grande was discussed. The Engineer explained that Mr. Helm has suggested that certain language be eliminated from the proposed agreement covering this improvement, which change would remove responsibility from the City for future maintenance of the channel. He explained that there is a question whether or not the Highway Department has any responsibility in the matter but the Commission, upon the insistence of the City, finally agreed to contribute $1,000 as the State's share of the costs involved with the distinct understanding that the State would not be responsible for any future maintenance of the channel. The suggestion of Mr. Helm, he said, limits the City's operation to work already completed and places on the State the responsibility for future maintenance. In view of the circumstances, he recommended that the agreement be abandoned and that the matter be considered closed. The Commission accepted the recommendation.

The Engineer reported that the following cities and towns have fulfilled the legal requirements for expenditure of State Tax Street Funds accrued to them:

From revenues accruing during the second six-month period of 1950:

Merrill	$2,543.45

From revenues accruing during the second six-month period of 1951:

Stanfield	$2,652.77

From revenues accruing during the second six-month period of 1953:

Aumsville	$ 988.02
Elkton	706.73
Gaston	1,293.92
Gervais	1,606.85
Grass Valley	685.63
Halfway	1,097.02
Hammond	1,835.39
Pilot Rock	2,978.11
Powers	3,146.89
Scappoose	2,317.09
Scio	1,575.20
St. Paul	942.31
Talent	2,598.38
Weston	2,387.41

He stated that the plans for the improvements proposed to be financed with the funds under discussion have been examined and found satisfactory and he recommended approval of the plans by the Commission. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "D", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission considered and by unanimous vote granted the following requests for extensions of time within which to complete contracts, the Commission's action in each instance being in accord with the Engineer's recommendation:

1. F. O. Laws, Contract No. 4048, for grading the Interstate Bridge Approach Unit on the Hood River-Mosier Section of the Columbia River Highway in Hood River County, requested an extension of time from June 30, 1954 to July 30, 1954 in which to complete the work. The Engineer recommended that the extension of time be granted with penalty assessed from June 30 until the actual completion date.

2. Steeck Electric Company, Contract No. 4044, for installation of Tigard Traffic Signals on Pacific Highway West in Washington County, requested an additional extension of time from April 30, 1954 to July 30,

1954 in which to complete the work. The Engineer recommended that the extension of time as requested be granted without penalty to the contractor.

3. Tom Lillebo, Contract No. 3870 for construction of 4 structures on State Street-Battle Creek Unit of Salem By-pass in Marion County, requested an additional extension of time from May 30, 1954 to July 30, 1954 in which to complete the work. The Engineer recommended that the extension of time as requested be granted without penalty to the contractor. A letter was presented from the Bureau of Public Roads concurring therein.

4. Charles Wiedeman, Contract No. 4049 for construction of North Fork-Middle Fork Ash Creek Bridges on the Pacific Highway West in Polk County, requested an extension of time from May 30, 1954 to June 25, 1954 in which to complete the work. The Engineer recommended that the extension of time as requested be granted without penalty to the contractor. A letter was presented from the Bureau of Public Roads concurring therein.

5. Peter Kiewit Sons' Company, Contract No. 3970, for construction of Rinehart Creek Bridge on the Oregon Coast Highway in Curry County, requested an extension of time from May 31, 1954 to August 31, 1954 in which to complete the work. The Engineer recommended that the extension as requested be granted without penalty to the contractor. A letter was presented from the Bureau of Public Roads concurring therein.

6. R. E. Meade & Company, Contract No. 3935 for construction of Community Hospital Road Overcrossing on the Pacific Highway in Douglas County, requested an extension of time from December 31, 1953 to July 31, 1954 in which to complete the work. The Engineer recommended that the extension as requested be granted without penalty to the contractor. A letter was presented from the Bureau of Public Roads concurring therein.

7. Brookings Red-E-Mix Concrete Company, Contract No. 4107, for rock production on the Lone Ranch Creek-California State Line Section of the Oregon Coast Highway in Curry County, requested an extension of time from July 31, 1954 to August 31, 1954 in which to complete the work. The Engineer recommended that the extension as requested be granted without penalty to the contractor.

8. Henry R. Staats, Contract No. 4111 for aerial survey on the Trail-Cascade Gorge Section of the Crater Lake Highway in Jackson County requested an extension of time from July 31, 1954 to August 31, 1954 in which to complete the work. The Engineer recommended that the extension of time as requested be granted without penalty.

9. C. C. Meisel, Contract No. 4001, for grading and oil mat surfacing on the Grants Pass-Murphy Section of the Williams Highway in Josephine County requested an additional extension of time from July 15, 1954 to August 15, 1954 in which to complete the work. The Engineer recommended that the extension of time as requested be granted without penalty.

10. Logan, Taylor & Company, Contract No. 4095, for grading and paving on the Sylvan Section (Humphrey Boulevard Connection) of the Sunset Highway in Multnomah County requested an extension of time from July 31, 1954 to August 31, 1954 in which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

11. Rogers Construction Company, Contract No. 3865, for grading and paving on the North Unit Bend-Lapine Section of The Dalles-California Highway in Deschutes County requested an extension of time from June 30, 1954 to July 31, 1954 in which to complete the work. The Engineer recommended that the extension as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

12. H. J. & H. W. Miller, Contract No. 4081, for rock production on the Indian Creek-Salisbury Section of the Baker-Unity Highway in Baker County requested an extension of time from July 31, 1954 to September 15, 1954 in which to complete the work. The Engineer recommended that the extension as requested be granted without penalty.

13. Jed Wilson, Contract No. 4122, for rock production on the Blodgett Section of the Corvallis-Newport and Eddyville-Blodgett Highway in Benton and Lincoln Counties requested an extension from July 31, 1954 to August 30, 1954 in which to complete the work. The Engineer recommended that the extension as requested be granted without penalty.

(For further details regarding the extensions of time listed above, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.) *

---

* FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above was based upon the recommendation of the State Highway Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer reported that Contracts Nos. 3754, 3865, 3866, 3867, 3870, 3935, 3951, 3962, 3963, 3992, 4001, 4023, 4024, 4027, 4028, 4035, 4037, 4045, 4049, 4050, 4062, 4069, 4072, 4074, 4086, 4097, 4101, 4106, 4114, 4119, 4123, 4124, 4127, 4139, 4177, 4181, 4182, 4190, 4191, and 4225 for construction of State Highway projects have been completed according to requirements of the contracts or modifications thereof, and that said projects are now ready for acceptance. The Commission, after due consideration, accepted said contracts by adopting the attached resolution relative thereto marked EXHIBIT "E", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

August 9, 1954

Attention was given by the Commission to a request from Wasco County Pomona Grange No. 11, The Dalles, for construction of US 97 on revised alignment between Eight Mile Creek and The Dalles. The Engineer commented that this project has been requested several times and that it would provide a more favorable connection to The Dalles Bridge, but there are no funds immediately available to finance it; also, that the section through Maupin is also badly in need of improvement. The Commission deferred action pending discussion of the matter with a delegation on the following day. (The delegation was informed that no funds are now available but the project will be given careful consideration in formulating future construction programs.)

The Commission also considered a request from residents of Otter Rock for an approach road connection to the new location of the Oregon Coast Highway at Otter Rock. The Engineer stated that an adequate connection could be constructed for about $5,000 and that the residents have indicated they would be satisfied with such a facility. He recommended approval of the request and that the work be done under a price agreement with the contractor who is constructing the Depoe Bay-Miner Creek Section provided the arrangement is legal, otherwise that the job be advertised for bids in the regular manner. The Commission accepted the recommendation.

In this connection Chairman Chandler suggested that it would be advisable to investigate the feasibility of abandoning the old section of this highway from Otter Crest northerly to Miroco Beach. It was his feeling that this four-mile section should be abandoned inasmuch as no one resides along it. The Commission instructed the Engineer to make the investigation and to report his findings at the next meeting of the Commission.

Requests, as follows, were considered from Linn, Malheur, Wasco, and Yamhill Counties for additions to the Federal-aid County Road System totaling 30.5 miles:

1. Lane County FAS 238 extension: 9.9 miles on the Eugene-Richardson State Secondary Highway between Walton to Richardson and 11 miles of county road extending westerly from Richardson to a junction with the Siuslaw Highway at Mapleton.

2. Yamhill County proposed FAS 586, County Market Road No. 18 extending southerly from a junction with the Pacific Highway West in Lafayette to a junction with Three Mile Lane Secondary Highway, 2.8 miles.

3 Yamhill County proposed FAS 587, Moores Valley County Market Road No. 14 extending from the Pacific Highway West in the City of Yamhill westerly a distance of 2.7 miles to a four-way county road junction.

4. Wasco County proposed FAS 588, known as the Emerson Loop extending from a point on The Dalles-California Highway approximately three miles southeast of the Columbia River Highway Junction, easterly, southerly and westerly to a junction with The Dalles-California Highway approximately eight miles southeasterly of the Columbia River Highway Junction, a distance of 10.6 miles.

5. Malheur County proposed FAS 589, known as the "Arock Road" extending northerly from the I. O. N. Highway to the community of Arock, a distance of 3.4 miles.

The Engineer pointed out that Lane County plans to spend about one million dollars on "Route F", and to form a continuous and integrated road from Eugene to Mapleton on this route, the 9.9-mile section of state secondary highway between Walton to Richardson should also be added to the FAS System. He recommended approval of all of the above-described designations. The Commission approved the additions as recommended.

The Engineer brought up for discussion the programming of funds that are available to finance Federal-aid Secondary County Road Projects during the calendar years 1954-55 (Federal Years 1956-57) amounting to $6,200,000, supplemented by $393,000 of unobligated 1954-55 funds. He said that of the total available $3,100,000 of the new funds and the carry-over of $393,000 can be contracted as soon as plans can be prepared. He presented a list of eligible projects to take up $1,541,000 of the total amount available, and he asked the Commission to approve them and to authorize surveys as are necessary so the contracting of the projects can be gotten under way at the earliest possible time. Projects to utilize the remaining funds, he said, will be submitted as soon as they are determined. As a result of careful consideration, the Commission approved the following projects as recommended by the Engineer and authorized the Engineer to conduct surveys of the same as may be necessary:

County	FAS Hwy. No.	Section and Description	Programmed Amount	FAS Fund
Baker	512	Forest Boundary-Halfway, 3.3 miles. Surface and oil	$ 57,000	'56
Benton	206	Beaver Creek School-Twin Bridges, 2.5 miles. Grade and surface	$ 55,000	'55 & '56
	206	Beaver Creek School-Twin Bridges, 2.5 miles. Oil mat	20,000	'57
		Subtotal Benton County	$ 75,000	
Columbia	574	St. Helens-Warren, 2.3 miles Grade and pave	$ 65,000	'56
Grant	556	Ritter-Rush Creek, 7 miles Grade only	$ 103,000	'55 & '56
Hood River	580	Beals Corner-Dougherty Corner, 0.98 mile. Grade, surface, oil, and bridge. (Additional funds for '55 project Already approved)	$ 18,000	'56

County	FAS Hwy. No.	Section and Description	Programmed Amount	FAS Fund
Hood River (cont.)	580	Beals Corner-Parkdale Junction, 1.5 miles. Grade, surface, and oil	$ 20,000	'56
		Subtotal Hood River Co.	$ 38,000	
Lane	238	Knowles Creek Tunnel, 1 mile Grade and tunnel	$ 422,000	'57
Lincoln	152	N. Fork Yachats River Bridge Structure only	$ 20,000	'55
	584	Yaquina River Bridge, Structure only	30,000	'55
		Subtotal Lincoln County	$ 50,000	
Malheur	525	Harper Section, 2 miles Grade, surface, and oil	$ 40,000	'56
	589	Arock Section, 3.4 miles Grade, surface, and oil	61,000	'56
		Subtotal Malheur County	$ 101,000	
Sherman	378	Locust Grove-Mud Hollow Canyon, 1.44 miles. Grade, surface, oil	$ 50,000	'56
Tillamook	615	Nehalem River Bridge, Structure only	$ 65,000	'56
	616	Cape Meares-Oceanside, 2 miles. Clearing and grading	65,000	'57
		Subtotal Tillamook County	$ 130,000	
Wasco	588	Emerson Loop Section, 10.6 miles. Oil mat	$ 98,000	'56
Washington	629	North Plains-Hillsboro, 5 miles. Grade and pave	$ 157,000	'56
Yamhill	587	North Yamhill River Bridge Structure only	$ 60,000	'55 & '56
	586	Yamhill River Bridge Grade and structure	135,000	'57
		Subtotal Yamhill County	$195,000	
TOTAL			$1,541,000	

August 9, 1954

SUMMARY BY FISCAL YEAR FUNDS:

	1954-'55	1956	1957	Total
Available 8/1/54	$393,000	$3,100,000	$3,100,000	$6,593,000
Proposed Program, 8/2/54	84,000	815,000	642,000	1,541,000
Unprogrammed Balance	$309,000	$2,285,000	$2,458,000	$5,052,000

The Commission gave attention to a request from the United States Forest Service for installation of cattle guards along the Forest Highway Section of the Ukiah-Starkey Secondary Highway where certain land is being used for range experimental purposes. The Engineer commented that he is opposed to cattle guard installations on state highways because of the hazards created for highway traffic. He suggested as an alternate measure construction of a number of cattle passes and the fencing of the right of way. The Bureau of Public Roads, he stated, has agreed to install such cattle passes as are required but cannot do the fencing. He pointed out that if the highway were being constructed across private lands, it would be necessary for the State to pay for the fencing, and he stated that he could offer no objection to fencing public lands when it is to the benefit of the State. He estimated the cost of the fencing at $4,000, and he recommended approval of the expenditure. The Commission accepted the recommendation.

The Commission considered and ordered filed a letter received from the Rotary Club of Gold Beach expressing appreciation for improvements on the Oregon Coast Highway north of Gold Beach and urging continuance of improvements south from Gold Beach to the California state line.

Attention was given to a request submitted by Mr. and Mrs. W. J. Peeler of Camp Lane, Linslaw, Oregon, for designation of a reduced speed zone on the Richardson-Eugene Secondary Highway between Richardson and Noti. The Engineer reported that investigation revealed a low volume of traffic on this section and a not unusual accident record. In view of the findings, he recommended that the request for speed zoning be denied. The Commission accepted the recommendation.

A petition from residents of the Hawthorne District on the Santiam Highway between Sweet Home and Foster requesting installation of a stop light at the intersection of the Santiam Highway and the Clark Mill Road was considered. The Engineer reported that in November, 1952, a 30-mile per hour speed zone was established just east of the City of Sweet Home and a 35 mile per hour speed zone was designated through the community of Foster. The Clark Mill Road intersection, he stated, is an unzoned section between these two speed zones. He further stated that a traffic engineering investigation conducted in the area reveals the need for a change in the existing speed zones and establishment of a speed zone at the location mentioned by the petitioners. He, therefore, recommended that the speed zone action taken in November, 1952, be rescinded and that the following speed zones be substituted therefor:

1. 35 miles per hour from the east city limits of Hawthorne (M. P. 28.09) to a point 0.33 miles east of the city limits of Sweet Home (M. P. 28.42).

2. 45 miles per hour from a point 0.33 mile east of the east city limits of Sweet Home (M. P. 28.42) to a point 300 feet west of the highway traffic scales (M. P. 29.85), except that between M. P. 28.60 and M. P. 28.80, the indicated speed shall be 20 miles per hour during the hours of school crossings.

3. 35 miles per hour from a point 300 feet west of the traffic scales at M. P. 29.85 to the Spokane, Portland and Seattle Railroad undercrossing at M. P. 30.68.

The Commission approved the recommendation unanimously by adopting the attached resolution relative thereto marked EXHIBIT "F-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission also considered a request from Mr. P. L. Tappendorff, Deadwood, Oregon, for a speed zone through the community of Deadwood on the Siuslaw Highway. The Engineer reported that from the facts disclosed by an engineering investigation, it appeared that a reduced speed zone at this location is not warranted, and he recommended that the request be denied. The recommendation was accepted by the Commission.

A request from Terrebonne Lodge No. 228, I. O. O. F, Terrebonne, Oregon, for a restricted speed zone designation on the revised alignment of The Dalles-California Highway through this community, and a request for a warning signal near Terrebonne Grade School was considered by the Commission. The Engineer reported that an investigation conducted by the Traffic Engineer indicates the need for a 45 mile per hour speed zone from a point 0.10 mile north of "C" Avenue (M. P. 117.31) to a point 250 feet south of the junction with the old highway (M. P. 117.74) except that between "C" Avenue and "A" Avenue, the indicated speed should be 20 miles per hour during the hours of school crossings. Upon his favorable recommendation, the Commission approved establishment of such reduced speed zone by adopting the attached resolution relative thereto, marked EXHIBIT "F-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer recommended the rescinding of the 35 mile per hour speed zone established May 19, 1942, on the Pacific Highway East between a point north of Pudding River Bridge (M. P. 25.73) and the north city limits of Aurora (M. P. 26.54). He explained that the speed restriction was established when the old narrow bridge over Pudding River was in use but no longer is needed since that bridge has been replaced with a wider structure that allows traffic to move across it at normal speed. The recommendation was approved by the Commission by adoption of the attached resolution relative thereto marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A petition was considered from residents of Unionvale, Oregon, requesting establishment of a 45 mile per hour speed zone on the Salem-Dayton Secondary Highway through the community of Unionvale. The Engineer stated that an investigation by the Traffic Engineering Department, including a study of prevailing speeds and the accident record, disclosed that there presently is no warrant for a restricted speed zone at this location; accordingly, he recommended that the request be denied. The recommendation was approved by the Commission.

The establishment of a reduced speed zone on the Farmington Highway west of Beaverton was discussed. The Engineer reported that the request for such speed restriction came from Frances Cook, Justice of the Peace, Beaverton. He further stated that a traffic engineering investigation was made and from the facts disclosed, it was determined that a speed zone is warranted. He, therefore, recommended designation of a 45 mile per hour speed zone along that section of the Farmington Highway that extends from a point 500 feet west of Kinnaman Road junction (M. P. 7.33) to the west city limits of Beaverton (M. P. 9.36). The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "F-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

A petition requesting establishment of a speed zone on the Pacific Highway in the Tri City area south of Myrtle Creek was discussed. The Engineer stated that a traffic engineering investigation disclosed, among other things, a rather severe accident record and a great deal of residential and business culture along the section and that a restricted speed zone is warranted. He recommended establishment of a 50 mile per hour speed zone beginning at the south city limits of Myrtle Creek (M. P. 220.66) and extending to a point 450 feet south of the Riddle Junction (M. P. 224.57) except that from a point 600 feet north of Chadwick Lane (M. P. 223.41) and a point 100 feet north of Meadow Lane (M. P. 223.65) the indicated speed shall be 20 miles per hour during the hours of school crossings. The Commission approved the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "F-4", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that the Joseph-Sheep Creek Hill Section of the Little Sheep Creek Secondary Highway in Wallowa County has been completed and opened to public travel. He recommended adoption of a resolution abandoning the old highway section in favor of the county in conformity with the terms of a prior agreement with Wallowa County Court, dated May 13, 1953. The Commission accepted the recommendation by adopting the attached resolution relative thereto marked EXHIBIT "H", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission gave its attention to a request submitted by County Judge O. E. Effenberger of Tillamook County that the intersection of the Wilson River Highway with the Sunset Highway near North Plains be named "Tillamook Junction". A letter was also presented from County Judge Harry M. Seabold of Washington County endorsing such name. The Engineer recommended that the junction point be so designated, thereby giving the department authority to use

the name on signs. The Commission approved the recommendation.

Consideration was given to a request from Mrs. Elin Backman, Secretary of Millington Parent-Teachers Association of Coos Bay for the painting of a crosswalk indication on the Oregon Coast Highway at the Millington Store between Coos Bay and Coquille. The Engineer stated that this matter has been investigated and from the findings, he cannot recommend approval of the request. He pointed out that it is contrary to the policy of the department to paint crosswalks except in those instances where an authorized school boy patrol is established which has not been done in this instance. The children who attend the Millington School, he stated, are too young to successfully operate a school boy patrol. In lieu of the crosswalk, he recommended that a 20 mile per hour speed sign be installed on the two existing school crossing signs, located at M. P. 258.74 and at M. P. 259.04. The Commission approved the recommendation.

A proposed agreement with the Bureau of Public Roads concerning the reestablishment of certain power facilities of the Portland General Electric power line on the Mt. Hood Highway in the vicinity of Rhododendron was discussed. The Engineer explained that the power line is located on private right of way, and the Company must be reimbursed for moving costs. Under the terms of the agreement, he said, the State is to pay for the moving in the first instance and will be reimbursed by the Bureau of Public Roads later up to a maximum of $1,000. He estimated cost of the work to be $983.70. Upon the Engineer's favorable recommendation, the Commission approved the agreement.

A letter from Mr. Karl Ostenberg, President of the Brookings Chamber of Commerce, calling attention to newspaper stories to the effect that the Highway Commission might not complete the Oregon Coast Highway through Curry County because of right of way difficulties in the northern part of the county was considered by the Commission. In his letter, Mr. Ostenberg offered fullest cooperation from the southern part of the County and urged that improvement of this highway be continued to completion. The Commission ordered the letter filed.

The Engineer requested authority for an expenditure of $2,339 to continue Oregon's membership with the Highway Research Board Correlation Service during the fiscal year, July 1, 1954 to June 30, 1955. He explained that the service acts as a clearinghouse to keep member groups abreast of developments in highway construction, maintenance, and operation and that the service is well worthwhile. He recommended that membership be continued and a contribution in the amount of $2,339 be allowed. The recommendation was approved by the Commission, and the Engineer was authorized to sign the subscription forms.

Attention was given to a resolution from the Clarkston, Washington, Chamber of Commerce, requesting the numbering of certain highways in Idaho, Washington, and Oregon as US 195. The Engineer pointed out that under the rules and regulations of the American Association of State Highway Officials, no highway will be given a US route number until it is oiled or paved throughout. An eight-mile section near Flora, he stated, will not be paved until sometime this fall, and he suggested in view thereof that the matter of assigning a US route number as requested be deferred until that time. The suggestion was accepted by the Commission.

A claim was considered from Mr. Wilbur Bushman, an employee of the state parks department in Silver Falls Park, for damages to his television set. The Engineer explained that a state electrical maintenance crew in changing the electrical set-up in the park had caused an accidental surge of power through the wires which burned out the tubes in Mr. Bushman's television set. He recommended that Mr. Bushman be reimbursed in the amount of $66.55 for the cost of replacing tubes. The Commission approved the claim as presented.

The Engineer recommended, and the Commission approved, out-of-State travel expense for the following:

1. F. B. Crandall, Traffic Engineer, and J. Al Head, Assistant Traffic Engineer, to attend a meeting of the Institute of Traffic Engineers in Kansas City during September 26 to 30, 1954, at an estimated total cost of $600.

2. Carl W. Jordan, Director of the Travel Information Division, to attend the Convention of Pacific Northwest Travel Association in Jackson, Wyoming during September 16 to 19, 1954, at an estimated cost of $160.

The Commission confirmed verbal approval previously given the Engineer to issue a log hauling permit to Lester P. Smith, Corbett, Oregon, authorizing him to truck-haul logs between Sheppards Dell and Bridal Veil, over the Crown Point Secondary Highway. The Engineer explained for the record that the granting of the permit was recommended by Mrs. Gertrude Jensen in order to facilitate her efforts in effecting a transfer of 200 acres of timber land situated in the Columbia Gorge and owned by Mr. J. Lyell Ginter, with the Bureau of Land Management. The logs, he stated, are owned by Mr. Ginter and were cut as a part of the transaction in which he agreed to trade timber areas. The hauling period, he added, will not exceed 30 days and will consist of eight or ten loads of logs from 16 feet to 18 feet long, which are to be transported on a solo truck.

A request from Tulana Farms for permission to construct a conveyer system over and across The Dalles-California Highway immediately south of Worden in Klamath County was considered. The Engineer explained that these people have a grain elevator and a seed house on the westerly side of the highway and propose to construct a new grain storage warehouse on the easterly side and to connect the two warehouses with a conveyer and walkway housed in a gallery supported by a welded steel truss. The structure, he said, will have a minimum vertical clearance above the highway of 51 feet and a horizontal clear span of 139 feet $10\frac{1}{2}$ inches. He recommended that a permit be granted to the Corporation for the construction and operation of the conveyer provided the design meets with Highway Department approval and under condition that the State will be held harmless from all claims and other actions, and provided further that the corporation furnish property damage and liability insurance to cover both the construction and the operation of the conveyer system during the

full time the structure remains in place, such insurance to be not less than $100,000 property damage for each accident, and public liability coverage for injury or death to persons in the amount of $150,000 for each person and $500,000 for each accident. The Commission approved the recommendation.

Establishment of a "NO PARKING ON HIGHWAY SHOULDERS" zone on The Dalles-California Highway just south of Crooked River Gorge, and the installation of 25 sight posts to control traffic movements was recommended by the Engineer. He explained that a change in alignment of the highway has increased speeds in the vicinity of the gorge viewpoint at this location and that a hazard is created by vehicles being parked on the highway shoulders north and south of the gorge. Such parking, he stated, should be prohibited on the east side of the highway between M. P. 112.89 (Engineer's Station 923+00) and M. P. 114.29 (Engineer's Station 925+65) and on both sides of the highway between M. P. 114.40 (Engineer's Station 931+05) and M. P. 114.52 (Engineer's Station 937+50). The cost to install the sight posts, he estimated at $250. The Commission authorized installation of the sight posts and approved the Engineer's recommendation with respect to establishment of the "NO PARKING" zones. The attached resolution relative thereto marked EXHIBIT "I", which resolution by this reference is made a part hereof with like effect as though extended in full herein, was thereupon adopted by the Commission unanimously.

Consideration was given to a request from the Associated Forest Industries of Oregon, the Western Forest Industries Association, and the Southern Oregon Truckers League that the truck-hauling of logs, poles, and piling be allowed on Saturday afternoons during the balance of the summer season. This request is made, the Engineer stated, because of the timber strike which has interfered with logging operations, and to enable the industry to build up its inventory of logs for winter operations. He recommended that the operators be allowed to haul logs on three Saturday afternoons only; viz, August 14, 21, and 28, and that no hauling be allowed on September 4 as it is the Saturday preceeding Labor Day. The Commission accepted the recommendation with the understanding that it will be operative during the 1954 season only.

The Commission approved the Secretary's report of papers signed by himself on behalf of the Commission during the period of June 21 through August 3, 1954.

The Commission confirmed the date for its next regular meeting heretofore set for Thursday and Friday, September 23 and 24, 1954 and scheduled its next following meeting for Thursday and Friday, October 28 and 29, 1954. The Secretary was instructed to arrange to hold both of these meetings in the Green Room of the Imperial Hotel, Portland.

Mr. Armstrong, State Parks Superintendent, brought up the matter of dedicating Cape Lookout State Park which was the gift of the Louis W. Hill family. He stated that some of the Hill family will be in Oregon on September 23, and he suggested that would be an appropriate time to conduct the dedication ceremonies when they can be present. The Commission deferred action until later in view of the fact that a meeting of the Commission is scheduled for that day. (The Commission later approved September 23 as the date for the dedication, notwithstanding

that it may be impossible for the members to be present.)

Removal of an apple tree in front of a floral establishment owned by Kenneth E. Ball and Alice Ball on the Pacific Highway East between Milwaukie and Oregon City was discussed. The Engineer explained that the Balls will remove the tree at their own expense and substitute another of more attractive appearance if the Commission gives its consent. He recommended approval of the arrangement which, he said, will be covered by written agreement. The Commission approved the recommendation.

A request was presented from the Sardine Creek Timber Company, Lebanon, for permission to erect a log scaling platform on the right of way of the North Santiam Secondary Highway at M. P. 35.50 between Mill City and Detroit. The Engineer stated that investigation reveals the platform already is in place and in operation. He gave as his opinion that it would be establishing a very poor precedent were any private concern allowed to conduct its business,or a portion of it, upon the highway right of way. Accordingly, he recommended that the application be denied and that notice be served on the company to remove the platform from the right of way. The Commission accepted the recommendation.

The Engineer brought up for discussion a proposed agreement with Lane County Electric Cooperative regarding the furnishing of electric energy to illuminate Salt Creek Tunnel on the Willamette Highway. He pointed out that for the past 13 years the tunnel has been lighted by means of a diesel-powered motor generator set installed under the highway at an average cost of $2,500 per year. The Lane County Electric Cooperative, he stated, recently extended its power line to within 8 miles of the tunnel and has made a firm commitment to build the remaining 8-mile section if the State will guarantee to pay the Cooperative an amount which shall not exceed $250 per month for a period of 5 years. Thereafter the cost to the State shall be based on the amount of electrical energy consumed at rates established by the Public Utilities Commissioner. The $250 monthly charge ($3,000 per year), he said, will entitle the State to use that amount of electrical power computed at commercial rates. He pointed out that constant attention is required to keep the present plant in working condition and that it is difficult to remove and repair the equipment. He also said that the present plant can be used elsewhere. He recommended that the Commission enter into an agreement with the Lane County Electrical Cooperative for the furnishing of power as outlined. The Commission accepted the recommendation.

The Commission discussed with the Engineer the problems to be presented by delegations on the following day but took no action on them pending appearance of the delegations, except with respect to Mr. C. C. Wilson's request for access to US 30 at its junction with the Mary Hill Ferry Road. Regarding such matter, the Chief Counsel pointed out that the highway crosses an old platted townsite and that 10 intersecting platted streets are involved and that there is no legal way to close these streets without the consent of the County Court. He added that unless the streets are closed, Mr. Wilson will have the right to use them as public street connections with the highway. It was his thought that Mr. Wilson would be willing to accept two approaches. Upon the

Engineer's suggestion, the Commission authorized a letter to the Sherman County Court requesting appropriate action by the Court to effect the street closures.

The Commission considered a program prepared by the Engineer for Fiscal Year 1956 Federal aid funds totaling $12,720,000 which were recently made available for contracting. The Engineer explained details. The Commission postponed adoption of a program for the funds available for study during the inspection trip later in the week. (A program for the funds under discussion was adopted by the Commission at an adjourned meeting held in The Dalles Hotel on Saturday, August 14, 1954. See ahead for additional minute entry and a list of the projects selected.)

The Commission discussed with the Engineer the status of projects on which bids are to be received at the September meeting.

Chairman Chandler inquired concerning the status of the economic study that was authorized between Coos Bay and Bandon. The Engineer stated that it is anticipated the report will be ready for consideration at the September meeting.

The Engineer reported that an agreement with the State of Washington Authorities concerning the proposed bridge across the Columbia River between Portland and Vancouver has been prepared and examined. He recommended approval of the same by the Commission. The Commission approved and signed the agreement.

Chairman Chandler commented that he had received a letter from an Astoria citizen criticizing severely the State ferry service at Astoria. The Engineer stated that he discussed the matter with the City Manager and explained to him why it is necessary to keep a standby ferry at all times during the annual overhaul of the equipment, as required by the coast guard; also, that it had been necessary to dry-dock two of the ferries because of broken propellers. The City Manager, he said, appeared to be satisfied with the explanation.

The Chief Counsel reported on a proposed property settlement with a Mr. John Eckwall, former lessee of property on the Shady-Canyonville Section of the Pacific Highway, which the Commission acquired from Mr. Thomas E. Payne for right of way purposes. He explained that a building which was acquired from Mr. Payne in this transaction was formerly occupied by Mr. Eckwall under a lease which has expired, and that the building has been sold, but Mr. Eckwall alleges ownership of a lighting plant and air conditioner installed therein and threatens to sue unless he is recompensed for them. Mr. Eckwall, he said, has been contacted by Mr. C. W. Parker, Property Control Manager, regarding the matter, and as a result thereof has agreed to sell these items to the State for the sum of $1,500 which is approximately their true value in their present location, but they will be less valuable when removed from the building. Mr. Eckwall, he said, has stated a willingness to repurchase them from the State for the sum of $900 and to remove them from the premises within 72 hours if he is paid the sum of $1,500 for them as is and where is. He suggested that it might be advisable to accept Mr. Eckwall's offer in order to dispose of this controversy. As a result of discussion, the Commission unanimously approved payment of $1,500 to Mr. Eckwall for the items under discussion but refused his offer to repurchase them for $900 and to

remove them from the premises within 72 hours. The Chief Counsel was instructed to advertise the sale of the property in conformity with established procedure.

The Commission approved and signed agreements, etc., as follows:

"Indentures of Access" for the following properties:

a. Atterbury property, now owned by Richard C. Stratford, Trustee of the Carmen Ford Trust and the Allen Ford Trust, on Calapooya Creek-Sutherlin Section of Elkton-Sutherlin Highway in Douglas County.

b. Voytilla property, now owned by Richard C. Stratford, Trustee of the Carmen Ford Trust and the Allen Ford Trust, on Calapooya Creek-Sutherlin Section of Elkton-Sutherlin Highway in Douglas County.

"Grant of Access" to the following:

a. Mr. and Mrs. Guy Boyer on East Unit, Dayville-Mt. Vernon Section of John Day Highway in Grant County.

b. Mr. and Mrs. Edward F. Peterson on Tigard-Newberg Section of Pacific Highway West, Washington County.

"Permit for Crossing" granting to Herbert Thompson, Pendleton, a permit to allow stock to cross the Pendleton-Deadmans Pass Section of Old Oregon Trail in Umatilla County.

"Bargain and Sale Deed" re sale of property to Mr. and Mrs. Clifford E. Layton on Salem By-pass Section of Portland-Salem Expressway, Marion County.

"Bargain and Sale Deed" re sale of property to L. W. and Opal K. Howland on Salem By-pass Section of Portland-Salem Expressway, Marion County.

"Bargain and Sale Deed" re sale of property to Mr. and Mrs. George Z. Bartruff on Salem By-pass Section of Portland-Salem Expressway, Marion County.

"Agreement" with Southern Pacific for installation of flashing railroad signals at county road crossing with old location of Pacific Highway between Jefferson Junction and Jefferson in Linn County.

"Consent to Vacation" covering request of Tulana Farms, Inc. for vacation of a small portion of Cross Street in original unincorporated town of Worden, Klamath County.

"Culvert Installation Agreement" with Oscar Sigfridson re his contribution of $500 toward the extra cost of a culvert pipe replacement on Nehalem Secondary Highway.

"Agreement" with Bureau of Public Roads covering reestablishment of certain power poles and lines of Portland General Electric Company in connection with Oregon Forest Project 25A on Mt. Hood Highway.

"Agreement" with Kenneth E. Ball and Alice Ball re removing of an apple tree and the replanting of another tree in front of their floral business on US 99E between Milwaukie and Oregon City.

"Maintenance & Finance Agreements" with Harney County covering the Van-Drewsey County FAS Project on FAS 458.

"Maintenance & Finance Agreements" with Columbia County covering the North Scappoose Road, FAS 609.

"Finance & Maintenance Agreements" with Jackson County covering Hilton Bridge over Bear Creek on Table Rock Road, FAS 273.

"Finance & Maintenance Agreements" with Jackson County covering Cameron Bridge over Applegate River on Applegate Road, FAS 559.

"Finance & Maintenance Agreements" with Coos County covering Coos City Bridge on FAS 568 in Coos County.

"Agreement with City of Aumsville" covering installation of traffic signal at intersection of 11th and Main Streets.

"Finance & Maintenance Agreements" with Wheeler County covering Middle Unit, Spray-Waterman Section of Spray-Waterman Road, FAS 318.

"Bargain and Sale Deed" with Milton Stennett for parcel of land in Lincoln County.

"Bargain and Sale Deed" with Central Lincoln Peoples Utility District for a parcel of land in the Glasco Section on the Oregon Coast Highway in Coos County.

"Agreement" with Washington Toll Bridge Authority re construction of new, multi-lane draw bridge across Columbia River between Portland, Oregon and Vancouver, Washington, adjacent to the existing interstate bridge.

"Agreement" with California-Oregon Power Company covering the moving of poles on the Modoc Point-Barkley Springs Section of The Dalles-California Highway in Klamath County.

"Agreement" with the City of Eugene covering the installation of stop lights at the intersection of 7th Avenue and Oak Street and 6th Avenue and Oak Street.

"Agreement" with the City of Arlington covering signal installation at the intersection of Columbia River Highway and Main Street.

"Agreement" with Pacific Power & Light Company covering the use of an area at the south end of Wallowa Lake.

August 9, 1954

The Commission discussed with the Engineer the bids received during the morning session for highway construction, and at 4:45 p.m. Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the Commission's decisions being by unanimous vote:

"Portland-Salem Expressway and Wilsonville-Hubbard Highway Illumination in Clackamas, Marion, Multnomah and Washington Counties: The Commission awarded the contract to the low bidder George L. Rochat & Son, Portland, at their bid price of $25,330.

"Rocky Point-Greggs Creek Guard Rail Project on the Oregon Coast Highway about 10 miles south of Port Orford in Curry County: The Commission awarded the contract to the low bidder, Wold Brothers, Bandon, at their bid price of $54,000.

"South Umpqua River-Fairgrounds Roadside Improvement Project on the Pacific Highway at Roseburg in Douglas County: The Commission awarded the contract to the low bidder, Ernest Ferrante & Company, Portland, at their bid price of $31,792.20.

"Construction of Shady Bridge over South Umpqua River on the Pacific Highway south of Roseburg in Douglas County: The Commission awarded the contract to the low bidder, Peter Kiewit Sons' Company, Longview, Washington, at their bid price of $355, 425.

"Construction of three structures on the Deady-Shady Section of the Pacific Highway in Douglas County: The Commission awarded the contract to the low bidder, Columbia Empire Constructors, Inc. & P. S. Lord Mechanical Contractors, Portland, at their bid price of $129,792.

"Construction of John Day Maintenance Building in Grant County: The Commission awarded the contract to the low bidder, Walt M. Young, Hermiston, at his bid price of $5,955.

"Grading and surfacing 6.63 miles on the East Unit, Van-Drewsey Section of the Van-Drewsey County Road in Harney County: The Commission elects to accept the bid of J. M. Arenz, Portland, in the sum of $73,139 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Harney County and the Bureau of Public Roads is received and the sum of $16,500 is deposited by the County.

"Rock Point-Seven Oaks Fencing Project on the Pacific Highway, near Gold Hill, in Jackson County: The Commission awarded the contract to the low bidder, Harold W. Salter, Rogue River, at his bid price of $19,105.60.

"Construction of Taylor Creek Bridge on Merlin-Galice Road in Josephine County: As this is a county project, all bids are referred to Josephine County.

"Construction of Galice Creek Bridge on Merlin-Galice Road in Josephine County; As this is a county project, all bids are referred to Josephine County.

"Construction of Trailer Shelter at Odell Lake on Willamette Highway in Klamath County: The Commission awarded the contract to the low bidder, C. P. Patterson, Redmond, at his bid price of $14,499.85.

"Construction of Hendricks Bridge State Park Latrine in Lane County: The Commission awarded the contract to Harold E. Lee, Springfield, the low bidder, at his bid price of $5,128.90.

"Construction of two structures on the Coast Fork Willamette River-Divide Unit, Pacific Highway in Lane County: The Commission awarded the contract to the low bidder, Columbia Empire Constructors, Inc & P. S. Lord Mechanical Contractors, Portland, at their bid price of $96,986.

"Construction of Big Creek State Park Latrines on the Oregon Coast Highway near Waldport in Lincoln County: The Commission awarded the contract to the low bidder, John Helstrom, Astoria, at his bid price of $7,026.

"Grading 18.37 miles, 13,000 rods of fencing, and construction of bridge on the Olds Ferry-Ontario Section of The Old Oregon Trail northwesterly from Ontario in Malheur County: The Commission elects to accept the bid of Earl L. McNutt, Eugene, in the sum of $1,251,712 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Paving 9.30 miles on the Willamette River-Crosby Road Unit, Willamette River-Hayesville Section of the Portland-Salem Expressway in Marion and Clackamas Counties: The Commission awarded the contract to the low bidder, Newport Construction Company, Portland, at their bid price of $967,337.50.

"Paving 7.49 miles on the Concomley Road-Hayesville Unit, Willamette River-Hayesville Section of the Portland-Salem Expressway in Marion County: The Commission awarded the contract to the low bidder, Parker-Schram Company, Portland, at their bid price of $778,228.

"Salem By-pass Guard Rail Project on the Pacific Highway East in Marion County: The Commission awarded the contract to the low bidder, R & M Construction Company, Central Point, at their bid price of $55,669.50.

"Salem By-pass (US 99E) Illumination in Marion County: The Commission awarded the contract to the low bidder, George L. Rochat & Son, Portland, at his bid price of $13,000.

"Slope paving at "D" and Center Street Grade Separations on Salem By-pass (US 99E) in Marion County: The Commission rejected the only bid received for this project from Babler Brothers at $5,700 as being too high.

"Construction of 74th Avenue Grade Separation on the T. H. Banfield Expressway in Portland in Multnomah County: The Commission awarded the contract to the low bidder, Chas. R. Schmiedeskamp, Portland, at his bid price of $52,492.

"Oneonta Embankment and Riprap Repair Project on the Columbia River Highway

in Multnomah County: All bids were rejected on this project as being too high.

"Construction of 58th Avenue Connection Grade Separation on the T. H. Banfield Expressway in Multnomah County: The Commission awarded the contract to the low bidder, United Builders, Inc., Beaverton, at their bid price of $34,787.50.

"Construction of Halsey Street Grade Separation on the T. H. Banfield Expressway in Multnomah County: The Commission awarded the contract to the low bidder, United Builders, Inc., Beaverton, at their bid price of $139,195.

"Grading and oiling 5.10 miles on the Mission-Cayuse Section of the Adams-Mission County Road about 6.4 miles east of Pendleton in Umatilla County: The Commission elects to accept the bid of K. C. Dack Construction Company, Milton-Freewater, in the sum of $90,651.50 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Umatilla County and the Bureau of Public Roads is received and the sum of $20,400 is deposited by the County.

"Barbur Boulevard-Willamette River Fencing Project on the Portland-Salem Expressway between Portland and the new Boone Bridge at Wilsonville in Washington, Multnomah and Clackamas Counties: The Commission received only one bid for this project, being that of Colorado Fuel and Iron Corporation. This bid has been rejected, and the Commission has ordered the work done by State forces with an admonition to the Engineer that materials required for the same shall be purchased through the State Purchasing Agent."

The meeting adjourned at 5:10 p.m. to reconvene at 9:00 a.m. on the following day.

Portland, Oregon
August 10, 1954

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Green Room of the Imperial Hotel with the following persons present and participating:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
M. K. McIver, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer

C. W. Enfield, Chief Counsel
R. L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Bids as follows for highway construction were opened and read aloud by the Secretary who then announced that the Commission would award contracts at 4:00 p.m. in the same room:

BENTON COUNTY
CORVALLIS TRAFFIC SIGNALS

Witzig Construction Company, Corvallis	$ 2,470.00
Trowbridge Electric Company, Roseburg	2,899.00
Electric Corporation, Salem	3,245.00

COLUMBIA COUNTY
NORTH SCAPPOOSE CREEK BRIDGE

Archie R. Averill, Portland *	$ 15,750.00
Whittenburg Construction Co. & Q. L. Rufener, Beaverton	21,225.00
Orlando C. Bennard, Portland	21,780.00
Peter Kiewit Sons' Company, Longview, Washington	24,790.00
Sterner Construction Company, Portland	31,005.00

* Bidder will accept award of only one project.

COOS COUNTY
COOS CITY BRIDGE SPAN

Tom Lillebo, Reedsport	$173,000.00
Hamilton & Thoms, Eugene	194,650.00
General Construction Company, Portland	199,585.00
Peter Kiewit Sons' Company, Longview, Washington	203,100.00
Lee Hoffman, Portland	218,370.00

COOS COUNTY
HAUSER-COOS BAY SHOULDER OILING PROJECT

Baker Paving Company, Coos Bay	$ 10,069.00

DOUGLAS COUNTY
DIVISION NO. 3 HEADQUARTERS GROUNDS IMPROVEMENT

C. S. Whitcomb Company, Inc., Portland	$ 3,716.65
Willamette Irrigation Company, Portland	3,993.10
Portland Construction Company, Portland	4,139.55
Ernest Ferrante & Company, Portland	4,412.30

DOUGLAS COUNTY
MYRTLE CREEK BRIDGE APPROACH WIDENING

Archie R. Averill, Portland *	$ 10,860.00
Ausland & Dodson, Grants Pass **	11,000.00

* Bidder will accept award of only one project

** Bidder will not accept award of projects totaling more than $85,000

HARNEY COUNTY
BURNS MAINTENANCE BUILDING

Mann Construction Company, Redmond	$ 6,100.00
Wm. B. Hickey, Burns	6,546.38
Walt M. Young	6,815.00
J. L. Ross, Bend	7,097.00

HOOD RIVER COUNTY
BEALS CORNER-DOUGHERTY CORNER SECTION

Whittenburg Construction Company & Q. L. Rufener, Beaverton	$ 54,296.00
J. Bacaloff Company, Portland *	58,757.00
Marshall Construction Company, Hermiston	68,848.00

* Bidder will accept award of only one project

HOOD RIVER COUNTY
WEST HOOD RIVER CONNECTION GRADING AND PAVING PROJECT

F. O. Laws, Salem	$ 10 202.00
J. Bacaloff, Portland *	12,485.00

* Bidder will accept the award of only one project

August 10, 1954

JACKSON COUNTY
ROCK POINT-SEVEN OAKS GUARD RAIL PROJECT

Fred Stubbert, Springfield	$ 7,864.00
R & M Construction Company, Central Point	11,042.00
Mark Smith & Company, Klamath Falls	11,930.00

JACKSON COUNTY
CAMERON BRIDGE ON APPLEGATE ROAD

Lowe & Beeson, Talent	$ 51,115.00
Ausland & Dodson, Grants Pass *	51,505.00
R & M Construction Company, Central Point	52,555.00
C. P. Patterson, Redmond	53,386.00
H. Barnhart, Medford	54,900.00
Bessonette and Graff, Medford	55,360.00
Hamilton & Thoms, Eugene	58,630.00
Minshall Construction, Jacksonville	58,995.00
The Central Heating Company, Oreg. Ltd., Eugene	60,560.00

* Bidder will not accept projects totaling more than $85,000

JACKSON COUNTY
HILTON BRIDGE ON TABLE ROCK ROAD

Tom Lillebo, Reedsport	$ 61,500.00
Bessonette & Graff, Medford	68,010.00
Hamilton & Thoms, Eugene	72,470.00
Ausland & Dodson, Grants Pass	72,780.00
H. Barnhard, Medford	80,230.00
The Central Heating Company Oreg. Ltd., Eugene	87,870.00

KLAMATH COUNTY
KENO MAINTENANCE BUILDING

Mann Construction Company, Redmond	$ 13,950.00
W. S. "Bill" Barrett, Klamath Falls	15,800.00
Axel E. Floren, Klamath Falls	17,522.00
Pinninger & Watkins, Klamath Falls	17,785.00
Joe A. Jones, Klamath Falls	17,818.75
Myron Corcoran Construction Company, Medford	18,046.00
Archie R. Averill, Portland *	18,520.00
Leo N. Huls, Klamath Falls	20,800.00

* Bidder will accept award of only one project

August 10, 1954

KLAMATH COUNTY
LOST RIVER BRIDGE ON THE MERRILL-CALIFORNIA LINE ROAD

West Coast Steel Works, Portland	$ 46,238.00
Somers & Stacy, Klamath Falls	47,500.00
Orlando C. Bennard, Portland	65,965.00

LANE COUNTY
EUGENE TRAFFIC SIGNALS

Trowbridge Electric Company, Roseburg	$ 4,500.00
C & S Electric, Eugene	4,700.00
L. H. Morris, Eugene	4,979.00
Witzig Construction Company, Corvallis	6,423.00

LINCOLN COUNTY
DEPOT SLOUGH-TOLEDO SECTION GRADING AND PAVING

Acme Construction Company, Eugene	$ 26,236.50

LINN COUNTY
BLEVINS BRIDGE OVER CALAPPOYA RIVER

Charles E. Wiedeman, Dallas	$ 18,440.00
Hamilton & Thoms, Eugene	19,230.00
Archie R. Averill, Portland *	20,385.00
Babler Brothers, Inc., Portland	20,885.00
Orlando C. Bennard, Portland	23,135.00
H. L. Werner, Inc., Eugene	23,375.00
Lee Hoffman, Beaverton	32,215.00

* Bidder will accept award of only one project

LINN COUNTY
ADDITION TO SANTIAM JUNCTION TRAILER SHELTER

C. A. Lantz, Salem	$ 13,790.00
Raymond W. Lillie, Albany	13,897.00
John M. Steinmuller, Jr., Eugene	13,941.00
Ferguson-Cassady Company, Portland	18,418.00

MALHEUR COUNTY
JACKSON CREEK-TENMILE CREEK PAVING PROJECT

Warren Northwest, Inc., Portland	$167,614.00
J. C. Compton Company, McMinnville	175,526.00

August 10, 1954

Jackson Creek-Tenmile Creek Paving Project (cont.)

The Central Heating Company Oreg. Ltd., Eugene	$178,685.00
Babler & Rogers, Portland	188,164.00
Acme Construction Company, Eugene	196,115.00

MARION COUNTY
PAVING PORTLAND-SALEM EXPRESSWAY NORTH AND SOUTH OF GERVAIS

Porter W. Yett, Portland	$848,165.00
Warren Northwest, Inc., Portland	888,210.00
Rogers Construction Company, Portland	901,530.00
Central Paving Company & Calkins Crushing Co., Independence	905,187.50
E. C. Hall Company & J. C. Compton Company, Portland	947,450.00
J. N. Conley, Portland	949,422.50
J. Ira McNutt, Eugene	1,036,587.50

MARION COUNTY
WOODBURN INTERCHANGE GRADE SEPARATION

Johnston & Bryant, Newberg	$ 55,830.00
Hamilton & Thoms, Eugene	57,880.00
Tom Lillebo, Reedsport	58,030.00
Hannan Brothers, Portland	59,070.00
Babler Brothers, Inc., Portland	59,280.00

Homer G. Johnson, Portland	63,030.00
J. Ira McNutt, Eugene	69,199.00
Asphalt Paving Company, Klamath Falls	74,230.00

The appointment of someone to fill the vacancy in the Travel Advisory Committee caused by the death of Mr. Donald G. Sterling was discussed. Mr. Frank Loggan, Bend, was suggested. Commissioner Reynolds moved that Mr. Loggan be appointed. Commissioner McIver seconded the motion, and it was declared unanimous by Chairman Chandler.

A delegation representing the Portland Salmon River Highway Association appeared before the Commission to request additonal improvements to the Salmon River Highway and to the Pacific Highway West from Otis Junction on the west to Portland on the east. The following people were present: Earl C. Williams, Mayor, Delake; J. H. Stanard, McMinnville, President, Portland Salmon River Highway Association; Allen Reed and Aarne A. Pompel, both of

Delake; R. H. Windishar McMinnville; C. E. Taylor, Lafayette; Mr. and Mrs. Alfred H. Getzelman, Taft; V. L. Muckler, Oceanlake; Z. R. Schuetze, Lafayette; George F. Kennedy and E. E. Barzee, both of Oceanlake; all members of the Association; representing the Oregon Coast Ad Club were the following: R. A. Kimball, President, Taft; Jean Haile, Secretary, Delake; Vern Ayers, Delake; D. F. Robbins, Gleneden Beach; R. M. Poff, Nelscott; R. A. Gordan, Wecoma Beach; and M. L. Walden, Taft; others present were Clifford Elliot, Manager, McMinnville Chamber of Commerce, and Mr. E. L. Smith, member of that Chamber; B. C. Swails, President, Sheridan Chamber of Commerce; Don Mitchell, member Willamina Chamber of Commerce; and Lloyd McCleod, businessman, Oceanlake.

Mr. Stanard who headed the delegation stated that they favor a four-lane highway from Portland to the coast, that they are not concerned with local alignment, and that their interest is from a general standpoint to the end that a modern highway is provided. He expressed the feeling that their district is entitled to more consideration in the expenditure of highway funds than they have received in the past. He called on other delegation members for remarks. Mr. Windeshar pointed out that traffic volume is increasing, and on week-ends the highway now carries over 10,000 vehicles per day. He said that the Salmon River Highway produces an average of $800 daily in gas tax revenue, whereas expenditures on the road have been at the rate of only $360 per day which is out of proportion. He urged construction of a four-lane highway. Mr. Kimball stated that tourist traffic over this route furnishes the lifeblood for business in the area and that a better highway is needed. He also spoke from the recreational standpoint and the need of a modern highway for industrial development.

Chairman Chandler pointed out that the Commission has spent a great deal of money in improving the route westerly from Portland and that additional work is planned in a new construction program that is being considered.

Representatives of the Maupin Lions Club, Maupin, Oregon, came before the Commission and requested improvement of US 197 between Maupin and The Dalles. The following people composed the group: Messrs. H. A. Theda, D. L. Paulsen, Carl Elliott, E. C. Woodcock, and Mr. H. R. Kaiser, all members of the Maupin Lions Club. Mr. Theda who headed the delegation declared that the present highway is obsolete and should be reconstructed to eliminate excessive curvature. Construction of the new and shorter route, he said, would be of great value to communities south of The Dalles and to farmers and others who haul produce to the city. He gave as his feeling that the distance from Maupin to The Dalles could be shortened about five miles, and the saving in time on a trip to The Dalles would amount to nearly half an hour. He presented petitions urging the improvement. Chairman Chandler stated that the Commission inspected the highway last year and recognizes the need for the improvement, but there are no funds immediately available to finance the work. He added that the project appears to be a good one and very likely will have a high priority in the adoption of future construction programs.

Members of the Clatsop County Court, the Seaside City Council, and the

Seaside Chamber of Commerce came before the Commission concerning a proposed bridge over the Neawanna River in Seaside. Representing the County Court were: Guy Boyington, County Judge, and Messrs. Vern Stratton and Myron Jones, County Commissioners; representing the Chamber of Commerce were: Avery A. Combs, President, Berger Neilson, Manager, and John Phillips, member; representing the City were: Lester Raw, Mayor, Frank Kerr, Oil Distributor, R. R. Shawcross, City Engineer, Art Enzer and Vern Davis, City Councilmen, Dr. Frederick Rawls and Dale Sanders.

Judge Boyington, who acted as head of the delegation, explained that the County Court and the City would like to know something about the plans for improvement of US 101 through Seaside because they will have some bearing on the plans of the City and the County for construction of a proposed bridge over the Neawanna River on an extension of East Broadway. Mayor Raw gave as their feeling that if the new highway is located east of the river, the bridge they have in mind might prove inadequate, and in that case, the City and the County would be wasting their money in constructing it. Chairman Chandler stated that a survey is now being conducted to determine highway needs between Astoria and Seaside, and while the survey is not yet completed, indications are that the eventual route of the highway through Seaside will be along Roosevelt Drive which will not interfere at all with the plans of the City and the County with respect to their bridge project. It is anticipated, he stated, that the survey will be completed so that the Commission may have a report on it at its next meeting on September 23 and 24.

A delegation representing the Clatsop County Land Use Committee and the Clatsop County Court came before the Commission to urge establishment of a state park near Ft. Stevens in Clatsop County. The following people composed the group: Lee Wooden, Chairman Clatsop County Land Use Committee, Jewell; Guy Boyington, County Judge; Myron Jones and Vern Stratton, County Commissioners; Arthur C. Johnson, member, Land Use Committee, Astoria; Charles M. Johnson, Supervisor Warrenton Dune Soil Conservation Service District, Warrenton; R. J. Fox, Mayor, Hammond; Jack Wood, County Agricultural Agent, Astoria; A. V. Meyers, Oregon State Game Commission; Dr. David Charlton, member of Clatsop County Chamber of Commerce; Neal Butterfield, National Park Service; Arthur R. Kirkham, KOIN, member Recreational and Natural Resources Committee, Portland Chamber of Commerce; and Chester Irelan, Portland General Electric, Recreational and Natural Resources Committee, Portland Chamber of Commerce.

Mr. Wooden acted as spokesman and introduced the members of the delegation. He urged establishment of the state park within the area north and west of Warrenton and embracing Coffenberry Lake, the Wreck of the Peter Ardale, and Old Battery Russell. Mr. Meyers pointed out that the State Game Commission owns a portion of the land which they have in mind and which could be used admirably for park and recreational purposes. Mr. Fox mentioned that Battery Russell is the only place in the United States that was fired on by the Japanese during the Second World War; hence is the first point in the Western United States ever attacked by a foreign enemy. Judge Boyington called attention to the fact that many tourists now come to see the wreck of the

Peter Ardale. The County, he stated, owns a great deal of the land which will be turned over to the State without cost if a park is established. Mr. Wood pointed out that Coffenberry Lake has been stocked with trout and that the road to the lake is now open for travel. Dr. Charlton stated that the Portland Chamber of Commerce favors development of a park at this location. Mr. Johnson pointed out that it is an ideal location for camping and picnicking. Chairman Chandler stated that several years ago, Mr. S. H. Boardman, former State Parks Superintendent, investigated the location and ascertained that park interests were in conflict with the interests of the Army Engineers so nothing was done toward establishing a park at that time; however, the Commission will have Mr. Armstrong, the present Parks Superintendent, make another investigation and will make a decision based on his findings.

A delegation headed by Mr. W. R. Giesy of Monroe came before the Commission to urge improvement of the Alsea Highway over Alsea Mountain. Other members of the delegation were: Lyle Winney, Alsea, and Prof. Glenn Holcomb, Corvallis, both members of the Highway Committee, Benton County Chamber of Commerce; T. J. Starker, timber owner and Prof. Martin P. Coopey, both of Corvallis. Mr. Giesy stated that after having seen the improvement across the Coast Range on the Siuslaw Highway, it appeared to him that a similar improvement over Alsea Mountain would be a great advantage to people who use this highway for business purposes. Mr. Winney stated that people who reside west of the mountain must haul their products, including a great amount of lumber and logs, over the mountain to markets in the valley. The extreme crookedness of the present road, he said, makes expensive hauling, and there are times in the winter when trucks cannot negotiate the road. Mr. Starker pointed out that about 130,000,000 board feet of timber are truck-hauled over Alsea Mountain annually. Prof. Holcomb gave as his feeling that it would be economically feasible to make an improvement either by cut or by tunnel. Chairman Chandler concluded the discussion by stating that the Commission will request the Engineer to check the old survey of the project made some years ago and to conduct an economic survey to determine costs and benefits. This survey, he stated, would most likely be made on the basis of an open cut rather than the use of a tunnel. The Engineer was thereupon authorized to make such check and survey.

The meeting recessed at 12:00 M and reconvened at 2:00 p.m. in the same room with the same persons present and participating.

Mr. C. C. Wilson, Rufus, Oregon, who was accompanied by Lisa Horney and Mr. Sam Van Vactor, The Dalles, came before the Commission to request access to the Columbia River Highway near the Mary Hill Ferry road. Mr. Van Vactor explained that Mr. Wilson owns a motel known as Poplar Grove about 22 miles east of The Dalles and that the U. S. Government is acquiring part of Mr. Wilson's property in connection with The Dalles Dam project, but is leaving him about 30 acres on which he wants to reestablish his motel. This property, he said, lies in the old platted townsite of Grant which has never been vacated and where there are a number of streets that are available for public use. He asked the Commission to let Mr. Wilson have access to the highway from these streets to enable him to develop his property. He pointed out that First Street of the platted townsite parallels the new highway and will be used as a frontage road if the request is granted. Chair-

man Chandler stated that the Commission is not very familiar with the location so cannot give an answer at this time, but an engineering investigation will be made and a decision rendered, based on the facts contained in the Engineer's report. The Engineer thereupon was instructed to make such investigation and report the findings.

A group from Shaniko, Fossil, Maupin, and Portland came before the Commission to urge improvement of a six-mile section of the Shaniko-Fossil State Secondary Highway extending easterly from the John Day River to a connection with the improved section of this highway west of Fossil. The following people were present: G. P. Johnson, Mayor, Shaniko; E. J. Nickelsen, Mayor, Fossil; O. E. Mathews, County Judge, Wheeler County; and J. R. Wood, stockman, Fossil; K. Snodgrass, Mayor, Maupin; and Mr. and Mrs. S. H. Shirk, Portland, Mr. Shirk being Director, Oregon Museum of Science and Industry.

Judge Mathews headed the group. He presented petitions from Clarno Grange No. 674 and from the Wheeler County Court urging improvement of this section of highway to aid the farming and livestock interests in that district. Mr. Johnson called attention to the volume of wheat and cattle that is truck-hauled over this road. He declared the volume would be much greater if the road were in better condition. He pointed out that a local service station had serviced 40 flat tires in a month because of sharp rocks on the road. Mr. Nickelsen alleged that no work had been done on this section since the road was built, and that it was being used by an increasing number of fishermen. Mr. Shirk stated that many geologists travel this highway in search for rock specimens, that the road is dangerous for transportation of school children; and in addition, a state park should be developed in the vicinity. Others speaking in behalf of the project were Messrs. Wood and Snodgrass. Chairman Chandler recalled that when improvements to this highway west of Clarno were made in 1952, it was understood that additional work could not be done for several years because of the scarcity of funds to finance it, and because there are other roads in that district that have a higher priority status. He added that there still is no money available and that no promise can be made as to when there will be. This concluded the discussion.

A delegation from Clackamas County appeared before the Commission to urge early construction of the proposed grade separation structure over the Southern Pacific mainline tracks on the revised location of the Clackamas State Secondary Highway. The following people were present: Hon. Wallace R. Telford, County Judge; Messrs. Stan Skoko and Bob Jones, County Commissioners, all of Oregon City; Mr. M. C. Gainer, Chairman, Parent-Teachers Association, Clackamas; Mr. Edwin Bell, Chairman, School Board; Florence Bell, member Parent-Teachers Association, both of Clackamas, and Mr. Tony Dwyer, mill operator, Lentz. County Judge Telford, who headed the delegation, pointed out that representatives from nearly all interested groups were present, and the purpose of their appearance was to ask for early construction of the overpass structure. Commissioner Skoko stated that petitions have been signed by over 1,000 members of the Parent-Teachers Association urging early construction of the project, particularly to relieve the existing grade crossing hazards to which school children are subjected in being transported by bus across the railroad tracks.

Commissioner Jones and Mr. Gainer affirmed this statement. Others in the delegation commented on the amount of truck traffic which uses the present grade crossing, and the frequent delays to traffic by reason of having to wait for trains to pass. Chairman Chandler pointed out that money has been allocated to finance this improvement, and the Commission recognizes the hazards involved. It is the Commission's position, he stated, that the grade crossing of the State Secondary Highway and also the grade crossing of County Market Road No. 16 nearby should in the interests of safety, be closed. Judge Telford stated that although he personally is in favor of closing both crossings, the other two members of the County Court feel that the County Market Road crossing should be left at grade to facilitate a nearby industrial development, principally composed of a depot for Safeway Stores. It was his feeling that it is the responsibility of the Public Utilities Commissioner to decide the question of closing the two grade crossings. Commissioner Skoko stated that the County will contribute as much as $20,000 toward the cost to construct the overpass if the Railroad Company will not do so without the closure of both crossings. Mr. Hardy, speaking in behalf of Safeway Stores, stated that a site had been purchased near the County Road crossing, and it is the Company's intention to spend $10,000,000 or $12,000,000 in developing it. Safeway Stores, he stated, favors keeping the County Road crossing open for reasons of economy in hauling, as they can save mileage by using the County Road grade crossing. He also pointed out that from plans he had seen, it appeared that their large trucks would not be able to negotiate a 21° curve in order to get on to the proposed overpass on the State Secondary Highway. He requested that the grade crossing on Market Road No. 16 be kept open, and that consideration be given to revising the approach plans to the overpass structure. Chairman Chandler concluded the discussion by stating that the Commission feels that the overcrossing structure should not be built without assurance that both grade crossings are eliminated; however the matter will be given more thought and when a decision has been reached, those interested will be informed.

A group from Sheridan, McMinnville, and Willamina came before the Commission to protest the proposed by-passing of the City of Sheridan as contemplated in plans for improving the Salmon River Highway. The following people were present: Mr. R. I. Merrifield, City Recorder; Hon. Fred Bozeman, Mayor; Messrs. C. B. Bride, Postmaster; E. M. Huntley, Property Management; George Mowery, Public Utilities; Wes Sullivan, Sheridan Sun; B. C. Swails, President, Chamber of Commerce; Alex Timmreck, Earl Neal, and L. R. Sackett, members, Chamber of Commerce; J. W. Hammond, C. W. Ritner, W. C. Nelson, Carl Baxter, Raymond Yoder, C. H. Houser, F. G. Bradley, D. L. Newby, James Biskey, Harlow Baker, Fred Biskey, Harold Ladd, C. F. Stuck, W. H. Hibbert, and H. A. Applegate, businessmen; all from Sheridan. From McMinnville were Mr. W. H. Aldrich, merchant, and Mrs. Aldrich. From Willamina was Don Mitchell, member, Chamber of Commerce and from Clackamas was J. M. Hodges, businessman.

Mr. Merrifield, who headed the group, stated that the proposed by-pass will be harmful to business within their city. He urged retention of the present route through the city. He recalled that in 1947 widening had been requested through the city, which work was performed, and he alleged that about the same time the highway department asked the city to make plans for a one-way street system which

the city did by means of a resolution. On the basis of these plans, he stated, a number of merchants made plans for development of their businesses within the city, and now are confronted with considerable financial loss from tourist travel if the by-pass route is constructed. Chairman Chandler explained that the relocation plans are now in a preliminary stage, and he gave as his feeling that the highway should be straightened and modernized between Portland and Otis Junction which modernization requires the by-passing of Sheridan and Willamina. He added that an economic report now being prepared will be completed in the near future and will be used as a yardstick in deciding what will be done. He assured the delegation that they would have ample opportunity to be heard before any definite commitment is made to construct the by-pass route.

The Ashland City Council was present and urged the Commission to adopt a plan to speed up traffic on the Pacific Highway through the City of Ashland. The following people were present: Hon. Richard Neill, Mayor; E. C. Biegel, City Superintendent; and Messrs. Ralph Koozer, Arnold Bauder, David Kerr, Bob Van Vleet, Harry Morris, and Dr. Bev Cope, City Councilmen. Mayor Neill pointed out that the present highway route through the City acts as a bottleneck and that local business interests are opposed to a four-lane highway through the town which would eliminate parking in the main part of town. He asked for a study of the possibilities of a one-way grid system. Mr. Biegel exhibited a map showing a proposed one-way street plan and explained its advantages. Chairman Chandler advised that the Highway Engineer would be instructed to study the City plan and that the Commission might have time to look at the proposed setup on its trip through Ashland the latter part of the week. The Engineer was thereupon authorized to make such study. (The Commission inspected the proposed plan on the ground on August 12.)

Mrs. L. J. Murdock, Mr. Douglas Cline, and Mr. Chester T. Williams, all of Eugene, representatives of the Spencer Butte Improvement Association, came before the Commission to request oiling on the Fox Hollow Secondary Highway south of Eugene. Mrs. Murdock headed the group and introduced the other members of the delegation. She urged the Commission to do the oiling work and to retain jurisdiction over the highway rather than trade it for the "Q" Street route between Eugene and Springfield which has been proposed, and to construct the remaining $1\frac{1}{2}$-mile gap in this road. Mr. Cline called attention to the fact that 57 families live on a 2.7-mile section, and in the summer they are plagued with dust and in the winter with mud. He also urged the Commission to oil the road. Concerning the proposed exchange of highways with Lane County in which Lane County would assume jurisdiction over the Fox Hollow Secondary Highway, if the State should take over the "Q" Street route, he stated that their Association is not in favor of this trade. Chairman Chandler explained that an economic survey covering the Eugene area is now being conducted with a view to outlining a plan to relieve traffic pressure in the Eugene area. No decision, he said, can be made until the survey has been completed and the Engineer's reports studied, which, he stated, might be within a month or two.

The Right of Way Engineer brought up for discussion a proposed agreement with the Idaho Power Company involving right of way needed for the relocated Old Oregon Trail near Ontario. He explained that in the construction of the highway, the State will be obligated to pay the cost of rearranging the Company's

facilities which, he estimated, would cost about $25,000. Also involved is the exchange of some land, the values of which would be comparable, and the problem of a crossing in which details have not yet been resolved. He asked the Commissions's approval to negotiate a settlement with the Company. The Commission granted the request.

The Engineer recommended approval of a form of agreement with the Bureau of Public Roads covering a change in plans for the North Umpqua Forest Highway project. He explained that the proposed change cancels a bituminous pavement and rock production project costing $120,000 and substitutes therefor a bituminous surface treatment project costing $80,000 to allay dust and preserve the existing rock surfacing until the roadbed is settled and slides stabilized. The remaining $40,000, he said, will be placed in the State contingent fund. The Commission approved and signed the agreement.

The Commission discussed with the Engineer the bids received during the morning session for highway construction, and at 4:00 p.m. Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the Commission's decision being by unanimous vote:

"Installation of Corvallis Traffic Signals at 4th and Harrison Streets on the Pacific Highway in Benton County: The Commission awarded the contract to the low bidder, Witzig Construction Company, Corvallis, at their bid price of $2,470.

"Construction of North Scappoose Creek Bridge in Columbia County: The Commission elects to accept the bid of Archie R. Averill, Portland, in the sum of $15,750 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Columbia County and the Bureau of Public Roads is received and the sum of $3,500 is deposited by the County.

"Construction of Coos City Bridge over Isthmus Slough on the Coos City-Summer Road in Coos County: The Commission elects to accept the bid of Tom Lillebo, Reedsport, in the sum of $173,000 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Coos County and the Bureau of Public Roads is received and the sum of $80,000 is deposited by the County.

"Hauser-Coos Bay Shoulder Oiling Project on the Oregon Coast Highway north from the McCullough Bridge over Coos Bay in Coos County: The Commission awarded the contract to the only bidder, Baker Paving Company, Coos Bay, at their bid price of $10,069.

Division No. 3 Headquarters Grounds Improvement Project at Roseburg in Douglas County: The Commission awarded the contract to the low bidder, C. S. Whitcomb Company, Inc., Portland, at their bid price of $3,716.65.

"Myrtle Creek Bridge Approach Widening on the Pacific Highway near Myrtle Creek in Douglas County: The Commission awarded the contract to the second low bidder, Ausland & Dodson, Grants Pass, at their bid price of $11,000 by reason of qualification in bid of Archie R. Averill, the low bidder.

"Construction of Burns Maintenance Building in Harney County: The Commission

awarded the contract to the low bidder, Mann Construction Company, Redmond, at their bid price of $6,100.

"Grading, surfacing, and paving 0.94 mile roadway and construction of concrete bridge on the Beals Corner-Dougherty Corner Section on the Woodworth Road in Hood River County: The Commission elects to accept the bid of Whittenburg Construction Company & Q. L. Rufener, Beaverton, in the sum of $54,296, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Hood River County and the Bureau of Public Roads is received and the sum of $12,200 is deposited by the County.

"West Hood River Connection Grading and Paving Project on the Columbia River Highway in Hood River County: The Commission awarded the contract to the low bidder, F. O. Laws, Salem, at his bid price of $10,202.

"Rock Point-Seven Oaks Guard Rail Project on the Pacific Highway near Gold Hill in Jackson County: The Commission awarded the contract to the low bidder, Fred Stubbert, Springfield, at his bid price of $7,864.

"Construction of Cameron Bridge over Applegate River on Applegate Road in Jackson County: The Commission elects to accept the bid of Lowe & Beeson, Talent, in the sum of $51,115 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Jackson County and the Bureau of Public Roads is received and the sum of $11,500 is deposited by the County.

"Construction of Hilton Bridge over Bear Creek on Table Rock Road in Jackson County: The Commission elects to accept the bid of Tom Lillebo, Reedsport, in the sum of $61,500 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Jackson County and the Bureau of Public Roads is received and the sum of $13,800 is deposited by the County.

"Construction of Keno Maintenance Building in Klamath County. The Commission awarded the contract to the low bidder, Mann Construction Company, Redmond, at their bid price of $13,950.

"Construction of Lost River Bridge on the Merrill-California Line Road in Klamath County: All bids were rejected on this project as being too high.

"Installation of Eugene Traffic Signals on the Pacific Highway in Lane County: The Commission awarded the contract to the low bidder, Trowbridge Electric Company, Roseburg, at their bid price of $4,500.

"Grading and paving 0.56 mile on the Depot Slough-Toledo Section of the Corvallis-Newport Highway in Lincoln County: The Commission awarded the contract to the only bidder, Acme Construction Company, Eugene, at $26,236.50.

"Construction of Blevins Bridge over Calapooya River, near Tangent, in Linn County: As this is a county project, all bids were referred to Linn County.

"Construction of Addition to Santiam Junction Trailer Shelter in Linn County: The Commission awarded the contract to the low bidder, C. A. Lantz, Salem, at his bid price of $13,790.

"Jackson Creek-Tenmile Creek Paving Project on the I. O. N. Highway about twelve miles north of the Oregon-Nevada state boundary in Malheur County: The Commission awarded the contract to the low bidder, Warren Northwest, Inc., Portland, at their bid price of $167,614.

"Paving 6.63 miles on the Crosby Road-Concomley Road Unit, Willamette River-Hayesville Section of the Portland-Salem Expressway north and south of Gervais in Marion County: The Commission awarded the contract to the low bidder, Porter W. Yett, Portland, at his bid price of $848,165.

"Construction of Woodburn Interchange Grade Separation on Portland-Salem Expressway in Marion County: The Commission awarded the contract to the low bidder, Johnston & Bryant, Newberg, at their bid price of $55,830.

"Willamette River-Hayesville Fencing Project on the Portland-Salem Expressway in Marion and Clackamas Counties: The Commission awarded the contract to the low bidder Kissell & Robinson, Caldwell, Idaho, at their bid price of $34,800.

"42nd Avenue-Sundial Fencing Project on the T. H. Banfield Expressway east from Portland in Multnomah County: The Commission awarded the contract to the low bidder, Colorado Fuel and Iron Corporation, Portland, at their bid price of $25,176.75.

"Construction of 82nd Avenue Overcrossing of the T. H. Banfield Expressway in Multnomah County: The Commission awarded the contract to the low bidder, Inland Construction Company, Milwaukie, at their bid price of $99,953.50.

"Vista House Heating System at Crown Point on Columbia River Highway in Multnomah County: All bids were rejected on this project as being too high.

"Grass Valley (Church Street-Bryant Street) Paving Project on the Sherman Highway in Sherman County: No bids were received for this project.

"Stone surfacing 5.81 miles on the Middle Unit, Spray-Waterman Section of the Spray-Waterman County Road in Wheeler County: The Commission elects to accept the bid of C & W Crushing Company, Seaside, in the sum of $53,105 and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Wheeler County and the Bureau of Public Roads is received and the sum of $11,900 is deposited by the County."

The meeting adjourned at 4:00 p.m. to reconvene upon call of the Chairman at a convenient time during the progress of the Commission's inspection trip scheduled for August 11 to 14, 1954.

August 10, 1954

State Highway Engineer

Chairman

Commissioner

Secretary

Commissioner

The Dalles, Oregon
August 14, 1954

The meeting of the State Highway Commission reconvened at 8:00 a.m. in the dining room of The Dalles Hotel at the call of Chairman Chandler. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
H. B. Glaisyer, Secretary

The meeting was called to order by the Chairman who stated that its purpose is to place in the record the decisions that were reached by the Commission with respect to a number of matters that were discussed by the Commission during the progress of its inspection trip when all three members of the Commission were present. There follows a list of such matters:

1. Request of the City of Klamath Falls for construction of an additional viaduct over the railroad tracks on South Sixth Street (ORE 66) in Klamath Falls: Chairman Chandler stated that the Commission by unanimous vote agreed to give further consideration to the matter of constructing an additional viaduct and may authorize the construction of such viaduct if the City of Klamath Falls will adopt an appropriate ordinance designating South Sixth Street and South Seventh Street as a one-way traffic couplet between Main Street and the south end of the existing viaduct, and will furnish the Commission a certified copy of such ordinance, and provided further that the City of Klamath Falls will agree to certain other requirements that will be contained in an agreement covering the entire matter, including (1) payment by the City of one-half the cost to install traffic signals as may be required, (2) adoption of an ordinance prohibiting the parking of vehicles in certain locations, and (3) payment by

the City of the entire cost to construct a paved surface on Elm Street between South Sixth Street and South Seventh Street near the north end of the viaduct. Commissioner Reynolds confirmed Chairman Chandler's statement.

2. Adoption of a program for fiscal year 1956 Federal-aid funds totaling $12,720,000 recently made available for contracting: The Commission tentatively selected the following projects for such program:

1956 FEDERAL FUNDS

INTERSTATE

County	Highway, Section and Description	Allotted Amount
	Division No. 2	
Marion	Pacific East. Unit on Battle Creek Jct. – Jefferson Jct. Section, Grade, Pave and Structures	$ 420,000
	Division No. 3	
Douglas	Pacific. Booth Ranch-South, Grade, Pave and Structures	$ 840,000
	Division No. 5	
Umatilla	Old Oregon Trail. Emigrant Hill Section, Paving	$ 600,000
	Total, All Divisions	$1,860,000

URBAN

County	Highway, Section and Description	Allotted Amount
	Division No. 1	
Multnomah & Clackamas	Cascade Secondary. Flavel Street-King Road, Grade and Pave	$ 120,000

1956 Federal Funds, Urban, Division No. 1 (cont.)

Washington	Tualatin. Hillsboro Section Grade and Pave	$ 295,000
	Reserve (Tentatively for project on Banfield Expressway)	450,000
	Subtotal, Division No. 1	$ 865,000
	Division No. 4	
Klamath	Klamath Falls-Lakeview. Sixth St. (Klamath Falls) Grade Separation, Grade, Pave and Structures	$ 555,000
	Total, All Divisions	$1,420,000

PRIMARY

County	Highway, Section and Description	Allotted Amount
	Division No. 1	
Washington	Pacific West. Middle Unit, Tigard-Newberg Grade, Pave and Structures	$ 621,000
Washington	Tualatin. Reedsville-Beaverton Grade, Pave and Structures	525,000
Yamhill	Pacific West. Newberg Section, Grade and Pave	100,000
Clackamas	Cascade Secondary. King Road-Clackamas Overcrossing Grade, Pave and Structures	360,000
	Subtotal, Division No. 1	$1,606,000
	Division No. 2	
Benton	Corvallis-Newport. Blodgett Bridge, including approaches	$ 135,000
Lincoln	Oregon Coast. Siletz Bay-Depoe Bay, Grade, Pave and Structures	750,000
Yamhill or Polk	Salmon River. Unit on Sheridan-Grand Ronde Section Grade, Pave and Structures	300,000
Polk	Willamina-Salem. Dolph Corner-Rickreall, Grading	150,000
	Subtotal, Division No. 2	$1,335,000

Division No. 3

Lane	Siuslaw. Bear Creek Section Grade, Pave and Structures	$ 160,000
Douglas	Umpqua. West Unit, Reedsport-Dean Creek Grade, Pave and Structures	320,000
	Reserve (Tentatively for Merlin Hill Section)	420,000
	Reserve (Tentatively for Bridges on Redwood Hwy)	347,000
	Subtotal, Division No. 3	$1,247,000

Division No. 4

Jefferson	Warm Springs. Wasco County Line-Deschutes River Paving	$ 330,000
Deschutes	McKenzie. Deep Canyon and Deschutes River Sections To apply on grading, structures or paving	275,000
Klamath	Dalles-California. Unit on Mazama-Lobert Section Paving	275,000
	Subtotal, Division No. 4	$ 880,000

Division No. 5

Malheur	Old Oregon Trail. Olds Ferry-Ontario To apply on grading, surfacing and structures	$ 905,000
	Reserve (Tentatively for Durkee Overcrossing)	367,000
	Subtotal, Division No. 5	$1,272,000
	Total, All Divisions	$6,340,000

SECONDARY

County	Highway, Section and Description	Allotted Amount

Division No. 1

Multnomah	Beaverton-Hillsdale. Washington Co. Line-Hillsdale Grade and Pave	$ 260,000

August 14, 1954

1956 Federal Funds, Secondary, Division No. 1 (cont.)

Washington	Beaverton-Hillsdale. Beaverton-Multnomah County Line Grade and Pave	$ 100,000
Yamhill	Yamhill-Newberg. Chehalem Creek-Newberg, First Unit Grade and Pave	184,150
Clackamas	Woodburn-Estacada. Little Creek-Dubois Creek Surface and Pave	220,000
	Subtotal, Division No. 1	$ 764,150

Division No. 2

Yamhill	Three Mile Lane. Lafayette Road-US 99W, Grading and Paving	$ 427,680
Yamhill	Three Mile Lane. To apply on bridge over Yamhill River at Dayton	170,000
	Subtotal, Division No. 2	$ 597,680

Division No. 3

Lane	Territorial. Crow-Gillespie Corner Grade and Pave	$ 415,000
	Reserve (Tentatively for project on Elkton-Sutherlin Hwy.)	257,700
	Subtotal, Division No. 3	$ 672,700

Division No. 4

Crook	Paulina. Coombs Flat Section, Paving	$ 300,000
Klamath	Midland. Midland Section, Grade and Pave	162,520
	Subtotal, Division No. 4	$ 462,520

Division No. 5

Umatilla	Weston-Elgin. Section to be selected	$ 307,950
Umatilla	Hermiston. Hinkle Underpass and Umatilla River Bridge, Structures, Grading and Paving	170,000

August 14, 1954

1956 Funds, Secondary, Division No. 5 (cont.)

Union	Ukiah-Starkey, Forest Bdry.-Starkey Grade and Surface	$ 125,000
	Subtotal, Division No. 5	$ 602,950
	Total, All Divisions	$3,100,000

August 14, 1954

3. Proposed lease of approximately 18 acres of Pacific Power and Light Company land adjoining Wallowa Lake State Park: The Commission discussed, approved, and signed an agreement providing for a 30-year lease of such property as previously recommended by the State Park Superintendent. (For details, see copy of agreement in agreement files.)

4. Adoption of a 40-hour week plan for state highway employees: The Commission discussed the matter of placing on a 40-hour week basis all State highway employees whose present work schedule is on a 44-hour, or more, week basis. The Commission unanimously approved a 40-hour week schedule for such employees, and instructed the Chief Counsel to prepare a bill for consideration by the 1955 Legislative Assembly, providing for a work-week of such length. The Chief Counsel was instructed to present a copy of the proposed legislation to each member of the Commission, and to hand a copy of it to the Highway Interim Committee to introduce in the legislature when the Commission has approved the form. It was the order of the Commission that the form include provision for the law, if enacted, to become effective as of January 1, 1955. The Auditor was instructed to include in the budget for the 1955-56 biennium a sufficient amount to pay the increased costs that will result from this changeover.

5. Request of Clackamas County delegation for immediate construction of an overpass on the proposed relocation of the Clackamas Secondary Highway near the town of Clackamas: The Commission gave this matter careful consideration, and as a result thereof, decided not to construct such overcrossing structure over the Southern Pacific tracks unless and until the County Court of Clackamas County agrees to recommend to the Public Utilities Commissioner the closing of two existing grade crossings, one on the present route of the Clackamas Secondary Highway and the other on the Dedman County Road (Market Road No. 16). The Secretary was instructed to inform the County Court of Clackamas County of the action taken.

6. Demand of Mr. B. M. Martin for commercial access to US 97 from his motel property in Lapine, Deschutes County: The Commission recalled a report from the Chief Counsel to the effect that the former owners of the property were granted private access and that Mr. Martin has threatened to remove curbs with a sledge hammer in order to provide an opening 40 feet wide if the Highway Commission does not grant him the commercial access he desires. The Commission decided not to grant Mr. Martin's request, and instructed the Chief Counsel to take action as may be necessary against Mr. Martin to force him to use the entrance for private purposes only.

7. Progress of contractor F. O. Laws in connection with contract awarded him for grading slopes on the Modoc Point-Barkley Springs Section of US 97, Klamath County, State Highway Contract No.

4201: The Engineer advised that this contract was awarded to Mr. Laws on June 8, 1954, but, up to the present time, Mr. Laws has made no effort to commence operations. He recalled the Commission's inspection of the project on the previous day. As a result of discussion, the Commission instructed the Engineer to write Mr. Laws that the Commission expects him to start the work on this job immediately; otherwise, the Commission will declare him in default and will then take appropriate action against him.

8. Renewal of insurance covering liability arising out of snow removal operations on the Upper Columbia River Highway between Troutdale and The Dalles: The Commission was informed that the insurance policy purchased by the State for protection of the Union Pacific Railroad Company will expire on September 21, 1954; also that the obligation is presently covered by Lloyd's Certificate of Insurance No. 11255, written by Hansen and Rowland, Inc., of Portland, and that the premium rate has been $800 annually during the preceding five-year period. The Commission was also informed that the Railroad Company purchased a similar policy to protect the highway during removal of snow from the railroad tracks between Troutdale and Dodson, which policy expires on January 1, 1955. As a result of discussion, the Commission authorized the Chief Counsel to negotiate purchase of necessary insurance for protection of the railroad in cooperation with the Department of Finance and Administration, in accordance with procedure heretofore arranged.

In this connection, the Commission also discussed the matter of purchasing insurance for the protection of railroad companies against damage resulting from operations of state highway contractors. The Commission was informed that there is under discussion a blanket form of policy known as the "Railroad Protective Insurance" and that if a satisfactory form of insurance can be written, not only is it possible that a saving will accrue to the State by reason of reduced premium, but the awarding of contracts involving railroads will be expedited. As a result of discussion, the Commission unanimously approved such type of blanket insurance and authorized the Chief Counsel to negotiate a satisfactory form of policy with the railroad companies involved. He was further instructed to refer the proposed form of policy to Commissioner Reynolds for approval on behalf of the Commission before using the form.

9. The Commission discussed, and upon recommendation of the Engineer, approved and signed agreements as follows:

a. "Agreement" with the City of Eugene providing for installation of stop lights at the intersection of 7th Avenue and Oak Street and

at the intersection of 6th Avenue and Oak Street within the City, both intersections being on the Pacific Highway one-way couplet in Eugene. The agreement provides that the City shall pay one-half the total actual cost of the installations, or approximately $3,000, and that the City shall maintain the signals after installation is completed and shall furnish electrical energy to operate them at no cost to the State.

b. "Agreement" with the City of Arlington for the installation of a traffic signal at the intersection of the Columbia River Highway and Main Street in Arlington. This installation is estimated to cost $200 which is to be paid with State funds, but the City is required to maintain the signal after installation is completed and to furnish electrical energy to operate it at no cost to the State.

10. Approval of minutes of meetings held on May 11 and 12, and on June 23 and 24, 1954: The Commission deferred approval of the minutes until its next regular meeting when all Commissioners are present.

The meeting adjourned at 8:45 a.m.

State Highway Engineer

Chairman

Secretary

Commissioner

EXHIBITS "A" through "L"

Minutes of

August 9 and 10, 1954

EXHIBIT "A"

Minutes of August 9 and 10, 1954

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted, and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved, and that the acquisition of the properties should be completed.

NOW THEREFORE BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

EXHIBIT "B"

Minutes of August 9 and 10, 1954

RESOLUTION

WHEREAS, it has been brought to the attention of the Commission that in some instances options have been taken on real properties needed for right of way and other highway purposes, and in other instances options are now being taken on real properties needed for right of way and other highway purposes, in connection with both of which situations it appears that formal authorization for such takings has not been recorded in the Commission's records or minutes; and

WHEREAS, notwithstanding the fact that formal authorization for such acquisitions has not been made a part of the Commission's written records, the taking of such options have the informal approval of the Commission; and

WHEREAS, for the purpose of supplementing such informal records and action, it is the purpose of the Commission at this time to ratify all options so taken.

THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members being present and voting affirmatively, as follows:

1. That it hereby is declared that all real properties needed for right of way or other highway purposes in connection with the construction, reconstruction, or other improvement of the following-named highway projects hereby are declared necessary for said projects and options heretofore taken and approved covering any of said real property hereby are approved.

COUNTY AND SECTION	FILE NUMBER	PURPOSE	HIGHWAY
BENTON	22282-Brown	Borrow Site & Haul Road	Pacific West
	22278-Johnson	Borrow Site	Pacific West
	22279-Kabler	Borrow Site	Pacific West
	22280-Wutzke	Borrow Site	Pacific West
	22281-Ayers	Borrow Site	Pacific West

2. It is further resolved that the informal action of the Commission and authorization for said acquisitions hereby is ratified.

3. That this Miscellaneous Resolution No. 115 shall be entered in the minutes and records of the Commission as of August 9, 1954, and shall

be deemed effective as of the date or dates of any options taken with respect to any real properties acquired in connection with any of the projects listed on said attached page.

EXHIBIT "C"

Minutes of August 9 and 10, 1954

RESOLUTION

WHEREAS, ORS 366.800 provides that:

"There shall be and hereby are appropriated out of the highway fund annually such sums of money as will equal 10 percent of all moneys credited to the highway fund by the State Treasurer between January 1 and December 31 of each year and which have accrued from funds transferred to the highway fund by the State Treasurer under ORS 319.410, 481.540, 767.635 and from fines and penalties collected for violations of the motor vehicle and transportation laws. The appropriation shall be distributed among the several cities as provided in ORS 366.785 to 366.820."

AND, WHEREAS, ORS 366.805 provides:

"The appropriation specified in ORS 366.800 shall be allocated to the cities as follows:

(1) The sum of $250,000 shall be withdrawn from the appropriation each year and set up in a separate account to be administered by the commission.

(2) Such account shall be spent each year by the commission upon streets not a part of the state highway system within cities which are receiving excessive wear through sudden increases in population in the area or heavy and unusual industrial traffic.

(3) The commission shall determine the distribution of the expenditures after considering applications made to it therefor from the cities.

(4) The balance remaining in the appropriation after the withdrawal of the $250,000 shall be distributed to all the cities.

(5) Each city shall receive such share of the balance as its population bears to the total population of the cities."

AND, WHEREAS, ORS 366.810 provides that:

"Funds accrued and payable to cities under ORS 366.785 to 366.820 shall be remitted semiannually by the Secretary of State to the financial officer of each city. The funds appropriated shall be apportioned on a semiannual basis immediately following June 30 and December 31 of each year by the commission, which shall certify the apportionment to the Secretary of State. Upon receipt of such certificate the Secretary of State shall issue his warrants therefor payable to the cities in the amounts

EXHIBIT "C" (cont)

set out."

WHEREAS, the funds or moneys which have been by the State Treasurer credited to the state highway fund during the period of January 1 to June 30, inclusive, of the year 1954, and which have accrued from the sources named herein, produced the following amounts:

Funds resulting under the provisions of ORS 481.540 (motor vehicle registration and operators' license fees) total	$ 5,429,836.55
Funds resulting under the provisions of ORS 319.410 (gasoline tax) total	12,805,771.15
Funds resulting under the provisions of ORS 767.635 (motor carrier fees) total	4,225,859.28
Funds resulting from fines and penalties collected for violations of the motor vehicle and transportation laws total	175,622.41
	$22,637,089.39

AND, WHEREAS, the statutory ten percent of said total produces for allocation and distribution by the Highway Commission to the benefited cities and towns a total of $2,263,708.94, from which sum there is to be deducted one-half of the sum of $250,000, or $125,000 thus leaving for allocation and distribution for the period January 1 to June 30, 1954, the sum of $2,138,708.94, and

WHEREAS, by applying the factors of allocation or distribution provided for in ORS 366.800 to 366.810, the State Highway Commission has determined upon an apportionment of said balance among the cities of the state as shown in the tabulation given below;

NOW, THEREFORE, be it and it hereby is resolved and ordered by this Commission as follows:

1. The Commission does hereby find, declare and order that the funds made available for allocation and distribution to the several cities of the State of Oregon pursuant to law, are hereby allocated and appropriated to the cities and/or towns named below in the amounts set opposite the names of the respective cities:

2. That a certified copy of this resolution be delivered to the Secretary of State for his use and guidance in the administration of said law with respect to the distribution of said funds.

3. That this resolution be entered in the minutes and records of the Commission as of August 9, 1954.

EXHIBIT "D"

Minutes of August 9 and 10, 1954

RESOLUTION

WHEREAS, pursuant to the provisions of ORS 366.810, there have been by the Oregon State Highway Commission apportioned to the cities and/or towns hereinafter named for disbursement for street purposes as provided in said law, the amounts set opposite the names of the respective cities or towns:

(1) From revenues accruing during the second six-month period of 1950:

Merrill $2,543.45

(2) From revenues accruing during the second six-month period of 1951:

Stanfield. $2,652.77

(3) From revenues accruing during the second six-month period of 1953:

Aumsville	$ 988.02	Pilot Rock. . .	$2,978.11
Elkton.	706.73	Powers	3,146.89
Gaston	1,293.92	Scappoose . . .	2,317.09
Gervais	1,606.85	Scio	1,575.20

Halfway.	1,097.02	Talent	2,598.38
Hammond.	1,835.39	Weston	2,387.41

AND, WHEREAS, each of said cities and towns has, by appropriate action evidenced by resolution or other official instrument, certified copies of which have been filed with the State Highway Commission, conformed to and complied with the requirements of said law so as to qualify each for the benefits thereof;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED as follows:

1. That the type, plan and character of improvement proposed in the resolutions filed with the State Highway Commission by the above named respective cities and/or towns hereby are approved.

2. That the action taken respectively by said cities and/or towns as evidenced by appropriate resolutions by them respectively adopted and thereafter filed with the State Highway Commission, shall be and is deemed an appropriate and proper conformance with the requirements of said law by said cities and/or towns individually so as to qualify each to receive and use the funds to them apportioned.

3. That upon entry of this resolution in the minutes and records of the Commission, the Secretary shall thereafter mail to the proper officer in each of said cities and/or towns a duly certified copy of the resolution or resolutions adopted by the city, together with a copy of the resolution

approving the plans submitted by the city.

4. This resolution shall be entered in the minutes and records of the Oregon State Highway Commission as of the 9th day of August, 1954.

EXHIBIT "E"

Minutes of August 9 and 10, 1954

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 3754, with Natt McDougall Co. for grading and paving on the Low Pass Section of the Siuslaw Highway in Lane County, completed July 13, 1954.

"Contract No. 3865, with Rogers Construction Co. for grading and paving on the North Unit, Bend-Lapine Section of The Dalles-California Highway in Deschutes County, completed July 10, 1954.

"Contract No. 3866, with J. C. Compton Co. for paving on the Fremont Junction-Rosa Creek Section of the Warner Highway in Lake County, completed June 24, 1954.

"Contract No. 3867, with J. C. Compton Co. for grading and paving on the Fremont and Klamath Falls-Lakeview Highways in Lake County, completed June 19, 1954.

"Contract No. 3870, with Tom Lillebo, for constructing four structures on the State Street-Battle Creek Unit of the Salem By-Pass Section of the Pacific Highway East in Marion County, completed June 9, 1954.

"Contract No. 3935, with R. E. Meade & Co. for construction of the Community Hospital Road Overcrossing on the Pacific Highway East in Douglas County, completed July 23, 1954.

"Contract No. 3951, with Babler Bros., Inc. for grading and oil mat surfacing on the George Road-East Junction Section of the Holland Loop County Road in Josephine County, completed July 6, 1954.

"Contract No. 3962, with Hamilton & Thoms for construction of the Willow Creek Bridge on the Columbia River Highway in Gilliam County, completed May 30, 1954.

"Contract No. 3963, with J. C. Compton Co. for paving on the Monument (Wilson Street) City Street Section in Grant County, completed July 21, 1954.

"Contract No. 3992, with Arthur Simonsen for grading and oil mat surfacing on the New Bridge-Richland Section of the New Bridge County Road in Baker County, completed June 26, 1954.

"Contract No. 4001, with C. C. Meisel for grading and oil mat surfacing on the Grants Pass-Murphy Section of the Williams Highway in Josephine County, completed July 20, 1954.

"Contract No. 4023, with R & M Construction Co. for constructing the Siskiyou Sand Storage Shed in Jackson County, completed June 16, 1954.

"Contract No. 4024, with Trowbridge Electric Co. for Traffic Signal Installation in Springfield on the McKenzie Highway in Lane County, completed July 2, 1954.

"Contract No. 4027, with The Central Heating Co., Oregon Ltd. and F. L. Somers for oiling on the Crescent Lake Highway Section in Klamath County, completed July 26, 1954.

"Contract No. 4028, with Lebanon & Harrisburg Sand & Gravel Co. for grading and paving on the Harrisburg-Junction City Section of the Pacific Highway East, in Lane County, completed July 22, 1954.

"Contract No. 4035, with Lee Hoffman for construction of the Wilkesboro Overcrossing of Southern Pacific and S. P. & S. Railroads on the Wilson River Highway in Washington County, completed July 15, 1954.

"Contract No. 4037, with W. H. Shields Construction Co. for construction of Noon Bridge over Marys River on the Corvallis-Newport Highway in Benton County, completed July 22, 1954.

"Contract No. 4045, with Serge R. Perrin for construction of sand storage shed on the Sunset Highway in Washington County, completed June 24, 1954.

"Contract No. 4049, with Charles Wiedeman for construction of North Fork-Middle Fork Ash Creek Bridges on the Pacific Highway West in Polk County, completed June 25, 1954.

"Contract No. 4050, with Gilbert Roberts for construction of a garage at Warm Springs Junction in Wasco County, completed June 29, 1954.

"Contract No. 4062, with C. P. Patterson for construction of Terrebonne Overcrossing on The Dalles-California Highway in Deschutes County, completed July 16, 1954.

"Contract No. 4069, with L. P. Stubblefield for paving on the Gillespie Corner-Lorane Section of the Territorial Highway in Lane County, completed July 20, 1954.

"Contract No. 4072, with R. H. Jones for construction of the Cold Springs Overcrossing on the Columbia River Highway in Umatilla County, completed June 25, 1954.

"Contract No. 4074, with Koppisch Construction Co., Inc. for grading, construction of culvert and rock base on the Fall Creek Section of the Mist-Clatskanie Secondary Highway in Columbia County, completed June 28, 1954.

"Contract No. 4086, with Central Paving Co. for reoiling in Division 2 on the Oregon Coast, Monmouth and Three Rivers Highways in Lincoln, Polk and Yamhill Counties, completed July 26, 1954.

"Contract No. 4097, with McCormack Construction Co. for construction of an office building at Pendleton in Umatilla County, completed June 18, 1954.

"Contract No. 4101, with E. H. Itschner Co. for furnishing crushed rock in stockpiles on the Grant County Line-Lancaster Section of the John Day Highway in Malheur and Baker Counties, completed July 6, 1954.

"Contract No. 4106, with C. C. Meisel for furnishing crushed rock in stockpiles on the Dufur-Tygh Valley Section of The Dalles-California Highway in Wasco County, completed July 9, 1954.

"Contract No. 4114, with Arthur Simonsen for furnishing crushed rock in stockpiles on the Hardman Section of the Wasco-Heppner and Heppner-Spray Highways in Morrow County, completed June 25, 1954.

"Contract No. 4119 with Vernie Jarl for furnishing crushed materials in stockpiles on the Canyonville-Tiller Section of the Tiller-Trail Highway in Douglas County, completed July 27, 1954.

"Contract No. 4123, with Acme Construction Co. for grading and pavement widening on the New Era and Aurora Hills (Passing Lanes) Section of the Pacific Highway East in Clackamas County, completed July 23, 1954.

"Contract No. 4124, with Modern Materials Co. for construction of car storage shed at Bend in Deschutes County, completed July 30, 1954.

"Contract No. 4127, with D-H Paving Company for reoiling in Division 4 on The Dalles-California, Fremont and Klamath Falls-Lakeview Highways in Klamath and Lake Counties, completed July 10, 1954.

"Contract No. 4139, with James M. Barnes for furnishing crushed cinders in stockpile on the Klamath Falls-California State Line Section on five State highways in Klamath County, completed July 27, 1954.

"Contract No. 4177, with K. F. Jacobsen & Co., Inc. for paving the Reedsport (Greenwood Avenue) City Street Section in Douglas County, completed July 13, 1954.

"Contract No. 4181 with Warren Northwest, Inc., for paving on the Detroit (Detroit Avenue) City Street Section in Marion County, completed August 2, 1954.

"Contract No. 4182, with The United Contracting Co. for paving the Bay City ("C" Street) City Street Section in Tillamook County, completed July 23, 1954.

"Contract No. 4190, with Asphalt Paving Co. for paving the Merrill (Monroe, Third and Washingtnn) City Street Section in Klamath County, completed July 17, 1954.

"Contract No. 4191, with P. B. Doherty & Son for grading and paving the Brownsville (Linn Street) City Street Section in Linn County, completed July 17, 1954.

"Contract No. 4225, with J. C. Compton Co. for oiling on the Ridge Road-Morrow County Line and North Unit, Lost Valley Road-Lonerock Sections of the Base Line and Lonerock County Roads, completed August 3, 1954.

THEREFORE BE IT RESOLVED that the work covered by State Highway contracts for the construction of said State Highway projects be declared completed according to the terms of the respective contracts and said jobs are hereby accepted and final payment in connection with each is hereby authorized.

BE IT FURTHER RESOLVED that this Contracts Completed Resolution No. 35 shall be entered in the minutes and records of the Commission as of the 9th day of August, 1954.

EXHIBIT "F-1"

Minutes of August 9 and 10, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which a vehicle may be driven upon said state highway and/or upon said sections of said state highway shall not exceed the rate of speed set forth immediately following.

Name of highway: SANTIAM HIGHWAY

Highway number 16 Route number US 20

Between M.P. 28.09 (east city limits of Sweet Home) and M.P. 28.42 (0.33 mile east of the east city limits of Sweet Home) 35 MILES PER HOUR
Between M.P. 28.42 and M.P. 29.85 (300 feet west of the State traffic scales) 45 MILES PER HOUR
Between M.P. 29.85 and M.P. 30.68 (S.P. & S. Undercrossing) 35 MILES PER HOUR

EXCEPT THAT BETWEEN

M.P. 28.60 and M.P. 28.80 the indicated speed shall be 20 MILES PER HOUR during the hours of school crossings as per the provisions of Subsection 1.a. of ORS 483.104.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 159 be entered in the minutes and records of the Commission as of the 9th day of August, 1954.

EXHIBIT "F-2"

Minutes of August 9 and 10, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

Name of highway: FARMINGTON STATE SECONDARY

Highway number 142 Route number ORE 208

Location of Termini			Established Speed
M.P. 7.33 (500 feet west of Kinnaman Road junction)	to M.P.	9.36 (west city limits of Beaverton)	45 M.P.H.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 161 be entered in the minutes and records of the Commission as of the 9th day of August, 1954.

EXHIBIT "F-4"

Minutes of August 9 and 10, 1954

RESOLUTION

WHEREAS, the State Highway Commission, pursuant to the provisions of ORS 483.106 has caused an engineering and traffic investigation to be made with respect to certain state highways and/or certain sections of state highways more particularly and completely described and set forth hereinafter; and

WHEREAS, the data, facts and information obtained in connection with said investigation are all on file in the office of the State Highway Commission at Salem, Oregon; and

WHEREAS, based upon said engineering and traffic investigation the Commission has determined that the fixed and designated speeds prescribed by the provisions of ORS 483.104 are in certain specified instances greater than is reasonable and safe and in other specified instances are less than is reasonable under the conditions found to exist upon or with respect to the state highways or sections of state highways hereinafter set forth and more particularly described and defined hereinafter, and the State Highway Commission has therefore determined to designate a different speed thereupon than the speed fixed in said statute, which said different speed or speeds shall be as specifically set forth hereinafter.

NOW, THEREFORE, based upon said engineering and traffic investigation and upon the finding and determination made by the Commission with respect thereto, the Commission does hereby determine and does hereby order that within the meaning and purpose of said ORS 483.104 the speed at which all motor vehicles, excepting motor trucks with pneumatic tires and school buses, as defined in ORS 485.010, may be driven upon the Pacific Highway, which is primary highway No. 1, Route U.S. 99, between M.P. 220.66 (south city limits of Myrtle Creek) to M.P. 224.57 (450 feet south of Riddle junction) shall not exceed 50 miles per hour; that 45 miles per hour shall be the maximum rate of speed for motor trucks equipped with pneumatic tires and for school buses, within the meaning and purpose of said ORS 483.104

EXCEPT THAT BETWEEN

M.P. 223.41 (600 feet north of Chadwick Lane) and M.P. 223.65 (100 feet north of Meadow Lane) the indicated speed shall be 20 miles per hour during the hours of school crossings, as per the provisions of Subsection 1.a., of ORS 483.104.

BE IT FURTHER ORDERED that the State Highway Engineer be and he hereby is ordered and directed to erect at appropriate places in sufficient number adequate signs giving notice of the particular applicable speed on said state highway.

EXHIBIT "F-4"

BE IT FURTHER ORDERED that any previous order heretofore made by the Commission with respect to speed or speeds applicable to any of the highways or sections of highways specified herein which is in conflict with the provisions of this order hereby is vacated and annulled.

BE IT FURTHER ORDERED that this Speed Limit Resolution No. 162 be entered in the minutes and records of the Commission as of the 9th day of August, 1954.

EXHIBIT "G"

Minutes of August 9 and 10, 1954

RESOLUTION

WHEREAS, under the provisions of ORS 483.106 the Highway Commission is empowered to designate or remove special speed limits outside of incorporated cities and towns when said designation or removal is by engineering investigation determined to be necessary; and

WHEREAS, the Highway Commission on May 19, 1942 designated a speed limit of 35 miles per hour on the Pacific Highway East between a point north of the Pudding River Bridge, M. P. 25.73, and the north city limits of Aurora, M. P. 26.54; and

WHEREAS, the State Highway Engineer has reported that said Pudding River Bridge has since been widened and the approaches improved, thereby removing the necessity for a reduced speed zone.

NOW, THEREFORE, BE IT RESOLVED AND ORDERED by the State Highway Commission, all members being present and voting affirmatively as follows:

1. Having duly considered the facts presented by the State Highway Engineer, the State Highway Commission hereby finds that it no longer is necessary to maintain said reduced speed zone.

2. That the action of the State Highway Commission designating a reduced speed of 35 miles per hour on the Pacific Highway East between M. P. 25.73 and M. P. 26.54, hereby is rescinded and cancelled and the maximum speed limit on said section of said highway hereafter shall be the maximum speed limit provided by law.

3. That certified copies of this resolution be filed with the Secretary of State and the Superintendent of State Police.

4. That this resolution be entered in the minutes and records of the Commission as of the 9th day of August, 1954, and filed in the records of the Secretary of the Commission under Speed Limit Resolution No. 163.

EXHIBIT "H"

Minutes of August 9 and 10, 1954

RESOLUTION

WHEREAS, the Highway Commission has found it necessary and desirable to relocate the section of the Little Sheep Creek Highway, State Secondary Highway No. 350, known as the Joseph-Sheep Creek Hill Section in Wallowa County, the westerly terminus of which is at Highway Engineer's Station 0+10 on the reconstructed highway and the easterly terminus of which is at Highway Engineer's Station 266+38 on the reconstructed highway; and

WHEREAS, as a consequence of the relocation of said section of highway, portions or units of the old right of way have been eliminated from the boundaries of the relocated highway and are no longer needed for state highway purposes; and

WHEREAS, Wallowa County and the Highway Commission entered into an agreement under date of May 19, 1953, relating to the disposition to be made of the eliminated portions or units; and

WHEREAS, the said agreement provided that after the said relocated section was completed and opened to public travel the Commission would notify the County of same by letter and that, effective upon the date of said letter, the eliminated portions or units, therein and herein referred to as Units "A" and "B", would be abandoned as part of the said highway and would be maintained thereafter by Wallowa County as county roads under the jurisdiction and control of said county; and

WHEREAS, Wallowa County was duly notified by letter dated July 1, 1954, that the said section had been completed and opened to public travel and that as of July 1, 1954, jurisdiction and control over Units "A" and "B" became vested in Wallowa County; and

WHEREAS, it is the purpose of the Highway Commission to take official action and impress upon its records the disposition made of the portions or units of the right of way of said highway affected by reason of said relocation;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That the section of the Little Sheep Creek Highway, State Secondary Highway No. 350, located in Wallowa County and known as the Joseph-Sheep Creek Hill Section, the westerly terminus of which is at Highway Engineer's Station 0+10 on the reconstructed highway and the easterly terminus of which is at Highway Engineer's Station 266+38 on the reconstructed highway, was completed on November 25, 1953.

2. That the portions or units of the old right of way which by reason of the relocation of the said highway are no longer within the boundaries of the new right of way and which are identified herein as Units "A" and "B" are shown colored in red on the map attached hereto, which is marked Exhibit "A" and by this reference made a part hereof. The locations of Units "A" and "B" are more particularly described as follows: *

Unit "A"

Beginning at State Highway Engineer's Station 109+00 of the relocated Little Sheep Creek Highway in the northeast quarter of the northeast quarter ($NE\frac{1}{4}$ $NE\frac{1}{4}$) of Section 33, Township 2 South, Range 45 East, W. M.; thence southerly and easterly via the former route of the Little Sheep Creek Highway to State Highway Engineer's Station 134+60 of the relocated Little Sheep Creek Highway in the southeast quarter of the northwest quarter ($SE\frac{1}{4}NW\frac{1}{4}$) of Section 34, Township 2 South, Range 45 East, W. M.

Unit "B"

Beginning at State Highway Engineer's Station 134+75 of the relocated Little Sheep Creek Highway in the northeast quarter of the northwest quarter ($NE\frac{1}{4}$ $NW\frac{1}{4}$) of Section 34, Township 2 South, Range 45 East, W. M.; thence easterly and southerly via the former route of the Little Sheep Creek Highway to State Highway Engineer's Station 207+75 of the relocated Little Sheep Creek Highway in the southwest quarter of the southeast quarter ($SW\frac{1}{4}$ $SE\frac{1}{4}$) of Township 2 South, Range 45 East, W. M.

3. That, pursuant to the aforesaid agreement, Units "A" and "B" were duly abandoned as part of the Little Sheep Creek Highway, State Secondary Highway No. 350, on July 1, 1953, the date of said letter to Wallowa County, and that all right, title and interest which the State had in the right of way of Units "A" and "B" passed to and vested in the said County as of that date.

4. That the area shown colored in green on the said Exhibit "A" includes right of way acquired for the said relocated section of highway and includes also some parts or areas of the old right of way not now incorporated within the boundaries of the right of way proper. In connection with the area colored in green, it is the judgment and finding of the Commission that all of said area is and will be needed for right of way and other highway purposes and uses. Therefore the Commission does hereby declare and order that possession of and title to all of the land or area shown colored in green on said Exhibit "A" shall be retained and held by the State. *

5. That the boundaries of all real properties acquired for rights of way, and the boundaries of all real properties, title to which is to be retained by the State, shall be appropriately and properly marked on the ground by the State Highway Engineer or his authorized representative, and such

boundary monuments shall thereafter be maintained in place.

6. That this resolution shall be entered in the minutes and records of the Commission on this 9th day of August, 1954, and the Secretary is directed to mail a duly certified copy thereof to the County Court of Wallowa County.

---

*FOOTNOTE: The map mentioned in this resolution is attached to the original resolution on file in the office of the State Highway Commission, Salem, being filed under File No. 276, under the heading, "Abandonment and Retention Resolutions" and said map by this reference is made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "I"

Minutes of August 9 and 10, 1954

RESOLUTION

WHEREAS, The Dalles-California Highway is one of the major state primary highways, is likewise a federal-aid highway (US97), which highway throughout its entire length carries a large volume of traffic; and,

WHEREAS, it appears that vehicles are being parked on the highway shoulders both north and south of the Crooked River Gorge; and,

WHEREAS, the straightening of the alignment of the highway has increased the speed at which vehicles approach the gorge; and,

WHEREAS, the parking of said vehicles on the shoulders of said highway tends to restrict and impair the use of the travelled portion of the highway to such an extent that in the opinion of the Highway Commission a hazard is created not only to through traffic but to the owners and drivers of said parked vehicles; and,

WHEREAS, in the opinion of this Commission, public travel and public safety require that the use of the shoulders of said highway within said area for the parking of vehicles should be prohibited.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the State Highway Commission, all members being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare, based upon investigation, reports and recommendations by members of its staff, that the parking of vehicles on the east shoulder of The Dalles-California Highway north of Crooked River Gorge between M. P. 112. 89 (Engineer's Station 923+00) and M. P. 114. 29 (Engineer's Station 925+65) and on both sides of the highway south of the said gorge, particularly between M. P. 114. 40 (Engineer's Station 931+05) and M. P. 114. 52 (Engineer's Station 937+50) creates a hazard not only to through traffic but to persons owning and using said parked vehicles.

2. That this Commission does hereby find and declare that the parking of vehicles on the east shoulder of the highway between M. P. 112. 89 and M. P. 114. 29 and on both shoulders of the highway between M. P. 114. 40 and M P. 114. 52 should be prohibited.

3. That the State Highway Engineer be and he hereby is instructed to erect signs at said termini and at such points between said termini as in his judgment are necessary to accomplish the purpose of this resolution and the action of the Highway Commission as herein declared, the signs to bear in plain, legible letters the words, NO PARKING ON HIGHWAY SHOULDERS."

4. That a certified copy of this resolution be mailed to the Superintendent of the Department of State Police for his information and guidance.

5. That this "No Parking" Resolution No. 119 be entered in the minutes and records of the State Highway Commission as of the 9th day of August, 1954.

EXHIBIT "J"

Minutes of August 9 and 10, 1954

RESOLUTION

WHEREAS, the Commission heretofore authorized and directed the Engineer to make a complete and final survey of the route and location of the Bear Creek Section of the Siuslaw Highway in Lane County and in connection therewith to prepare a map showing the route and location of said section and to file said map, reports and records with the Commission for consideration; and

WHEREAS, the Engineer has reported that he has completed said survey and has submitted the same for approval or disapproval of the Commission; and,

WHEREAS, after due consideration of said survey, field notes, and other engineering data, it is the judgment of the Commission that the same should be approved and filed.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the survey of the Bear Creek Section of the Siuslaw Highway, beginning at Highway Engineer's Station 505+00 east of Bear Creek and extending in a westerly direction to Highway Engineer's Station 561+00 west of Bear Creek, together with the map, which for identification purposes bears Map File No. 1R-5-577 and the date of July, 1954, field notes and other engineering data submitted by the Engineer hereby are approved and the Engineer hereby is directed to file and preserve the same in the records and files of the Commission in the State Highway Building, at Salem, Oregon. *

2. That when said highway section is permanently constructed, the same shall be done in accordance with said survey and location unless otherwise directed or ordered by the Commission.

3. That the approval and adoption of said survey shall constitute and be deemed instructions to the Engineer to prepare and make available to the Legal and Right of Way Department all necessary descriptions and other required data of real properties needed for and in connection with the construction, reconstruction, or improvement of the highway along and over said survey. Said approval and adoption shall also be deemed and constituted as instructions to the Legal and Right of Way Department to proceed promptly with the acquisition of rights of way pursuant to the normal and approved method

4. That this resolution be entered in the minutes and records of the Commission as of the 9th day of August, 1954, as Survey Resolution No. 106.

EXHIBIT "K"

Minutes of August 9 and 10, 1954

RESOLUTION

WHEREAS, by the authority granted in ORS 374.015 (1) the Highway Commission is empowered to lay out, locate, relocate, adopt, establish, construct, designate, maintain and supervise the use and operation of new highways which shall be known as "Throughways", as that term is defined in ORS 374.010; and

WHEREAS, ORS 374.015 (2) provides that any relocated section of an existing highway and such portions of existing highways, which at the time the same are designated as throughways have less than ten (10) commercial businesses abutting thereon catering to the motoring public in any one mile, may be designated and constructed as, or converted into, a throughway by the Highway Commission; and

WHEREAS, the Highway Commission has directed the Highway Engineer to prepare and file in the offices of the Highway Department in Salem, Oregon, a complete analysis and disclosure of which portion of the Newport-Toledo section of the Corvallis-Newport Highway, commencing at its intersection with the Oregon Coast Highway in the City of Newport and extending easterly therefrom to Highway Engineer's Survey Station 293+00 in Lincoln County Oregon, has less than ten (10) commercial businesses abutting thereon in any one mile catering to the motoring public and which portion has ten (10) or more commercial businesses abutting thereon in any one mile catering to the motoring public; and

WHEREAS, the Highway Engineer pursuant to the direction of the Highway Commission has caused such study and examination to be made and has filed in the offices of the Highway Department at Salem, Oregon, a map on which there is shown a complete analysis and which discloses the location of all the businesses on the Newport-Toledo section of the Corvallis-Newport Highway from the beginning of said highway at its intersection with the Oregon Coast Highway in the City of Newport and extending for more than one mile beyond the easterly termini of the aforesaid section of the Corvallis-Newport Highway at Highway Engineer's Survey Station 293+00; and

WHEREAS, the Highway Commission has considered the aforesaid studies and investigations and after due deliberation does hereby find and declare that for the purposes of preserving human lives and minimizing property damage and to facilitate the safe and convenient transportation of persons and property by motor vehicles and to promote the safety and welfare of the public in general that the portion of the Newport-Toledo section of the Corvallis-Newport Highway which has less than ten (10) commercial businesses abutting thereon in any one mile catering to the motoring public shall henceforth be classified, reconstructed, relocated and maintained as

EXHIBIT "K" (cont)

a throughway, as that term is defined in ORS 374.010.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by the Highway Commission:

1. That the Newport-Toledo section of the Corvallis-Newport Highway commencing at its intersection with the Oregon Coast Highway in the City of Newport and extending thence easterly to Highway Engineer's Survey Station 293+00 and including any portion or unit thereof which may hereafter be relocated is hereby selected, designated and established as a throughway as that term is defined in ORS 374.010, except for the portion thereof which at the time of the adoption of this resolution has ten (10) or more commercial businesses abutting thereon catering to the motoring public in any one mile, which portion is specifically set forth as extending from the beginning of the Corvallis-Newport Highway at its intersection with the Oregon Coast Highway in the City of Newport to Highway Engineer's Survey Station 59+70, and is hereby specifically excluded as a portion of the throughway; in connection therewith this Commission does hereby find and declare that a Map, which is numbered 204, has been prepared under the direction of the State Highway Engineer and the same has been filed in the State Highway Department offices in Salem, Oregon; that there is shown on this map the portion of the Newport-Toledo section of the Corvallis-Newport Highway extending from the beginning of said highway at its intersection with the Oregon Coast Highway in the City of Newport and extending thence easterly to Highway Engineer's Survey Station 293+00 together with that section of the Corvallis-Newport Highway extending for more than one mile easterly therefrom; that said map has a complete analysis and discloses the location of the commercial businesses abutting thereon catering to the motoring public and the location of that portion of the Newport-Toledo section of the Corvallis-Newport Highway which has ten (10) or more commercial businesses abutting thereon catering to the motoring public in any one mile. The aforementioned map is by this reference incorporated herein and is declared by this reference to be a part of this resolution as if fully set forth herein.

2. That this Resolution be entered in the minutes and records of the Highway Commission as of the 9th day of August, 1954 as Throughways and Rights of Access Resolution File No. 9.

EXHIBIT "L-1"

Minutes of August 9 and 10, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to State highways; or for the maintenance of an unobstructed view of any State highway so as to provide for the safety of the traveling public; and,

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Euchre Creek-Wedderburn Section of the Oregon Coast Highway; and,

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided under the said Chapter 374, Oregon Revised Statutes, commonly known as the Throughway Law; and,

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is ne-

cessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not immediately needed for the highway proper; and,

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Euchre Creek-Wedderburn Section of the Oregon Coast Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Euchre Creek-Wedderburn Section of the said relocated Oregon Coast Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit "A". *

3. That the relocation, construction, improvement and maintenance of the said Euchre Creek-Wedderburn Section of the Oregon Coast Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to at-

tempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 9th day of August, 1954, as Condemnation Resolution No. 515.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 515, under the heading, "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-2"

Minutes of August 9 and 10, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or right of access, deemed by the Highway Commission necessary for highway purposes, to-wit: For rights of way, either for the original location of, or for the widening, straightening or otherwise changing any highway, road or street; quarry sites, gravel pits, storage sites, stock pile sites; or for the acquisition or manufacture of road building materials; approach or hauling roads, connecting roads, frontage roads, highway drainage, drainage tunnels; or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and

WHEREAS, under the provisions of Chapter 374, Oregon Revised Statutes, the Highway Commission is authorized and empowered to lay out, locate, relocate, adopt, establish, construct, designate and maintain highways to be known as throughways, and to acquire, in the name of the State of Oregon, by agreement, donation, or by the exercise of the power of eminent domain, fee simple title to or any interest in any real property, including easements of air, view, light and access, which, in the judgment of the Highway Commission, is necessary or deemed necessary for the construction of any throughway or the establishment of any section of an existing state road or highway as a throughway; and

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to relocate, construct, improve and maintain the Olds Ferry-Ontario Section of the Old Oregon Trail Highway; and

WHEREAS, the Highway Commission has by a resolution ordered and declared that said section of said highway shall be relocated, constructed, improved and maintained under the provisions and within the meaning and for the accomplishment of the purposes declared and provided in the said Throughway Law; and

WHEREAS, the Highway Commission, whenever it becomes necessary to acquire any real property for use in connection with the location, relocation, construction, reconstruction, improvement and maintenance of any throughway or section thereof, or for a service road, may, in its discretion, acquire an entire lot, block or tract of land, part of which is necessary for the above purposes, if by so doing the interests of the owners and the State are best served, even though said entire tract is not

EXHIBIT "L-2" (cont)

immediately needed for the highway proper; and

WHEREAS, for the purpose of relocating, constructing, improving and maintaining the said highway as a throughway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real properties hereinafter described are necessary, and that access to and from the said highway should be controlled;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the relocation, construction, improvement and maintenance of the said Olds Ferry-Ontario Section of the Old Oregon Trail Highway as a throughway, certain interests in or fee simple title to certain parcels of real property. The said parcels of real property, or particular interests therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, are more particularly described in the attached list, marked Exhibit A, under the name of the record owner, and the Commission's respective file number and said Exhibit A is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

2. That it is necessary that there shall be no rights of access of any nature between the right of way of the said Olds Ferry-Ontario Section of the said relocated Old Oregon Trail Highway and all of the contiguous real property of the respective owners remaining after the appropriation of the said real property; except that there shall be reserved unto the respective owners, their heirs and assigns, for service of their respective remaining land, such access reservations as are noted as to each parcel or parcels on the attached list marked Exhibit A. *

3. That the relocation, construction, improvement and maintenance of the said Olds Ferry-Ontario Section of the Old Oregon Trail Highway and the highway facilities for which each of the said parcels of property, or interest therein, is required and is being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

4. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcels of real property as to the compensation to be paid for the taking, and

in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcels of real property, or interest therein.

5. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

6. That this resolution be entered in full in the minutes and records of the Commission this 9th day of August, 1954, as Condemnation Resolution No. 536.

---

*FOOTNOTE:

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 536, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-3"

Minutes of August 9 and 10, 1954

RESOLUTION

WHEREAS, by virtue of the laws of the State of Oregon, as set forth and defined in Oregon Revised Statutes, the State Highway Commission is authorized and empowered to acquire by purchase, agreement, donation, or by the exercise of the power of eminent domain, real property, or any right or interest therein, including any easement or rights of access, deemed by the Highway Commission necessary for highway purposes, to-wit: For rights of way, either for the original location of or for the widening, straightening or otherwise changing any highway, road or street; quarry sites; gravel pits; storage sites; stock pile sites; or for the acquisition or manufacture of roadbuilding materials; approach or hauling roads; connecting roads; frontage roads; highway drainage, drainage tunnels, or for the elimination or prevention of hazardous points of entry from adjacent property to state highways; or for the maintenance of an unobstructed view of any state highway so as to provide for the safety of the traveling public; and,

WHEREAS, for the purpose of providing a highway which will more adequately serve the traveling public, the Highway Commission plans and proposes to widen, improve and maintain the S. E. Flavel Street-Lake Road Section of the Cascade Secondary Highway; and,

WHEREAS, for the purpose of widening, improving and maintaining the said highway, to the end that human lives may be saved, property damage minimized, transportation by motor vehicles promoted, highway travel in general safeguarded, and public welfare promoted, it is the judgment of the Commission that the real property hereinafter described is necessary.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. The Commission does hereby find and declare that there is needed and required, for the construction, improvement, betterment and maintenance of highways of the state highway system, and the widening, improvement and maintenance of the said S. E. Flavel Street-Lake Road Section of the Cascade Secondary Highway, certain interests in or fee simple title to certain parcels of real property. The said parcel of real property, or particular interest therein, needed and required, and the specific use to be made thereof, or which in the best interests of the State and the owners should be acquired, is more particularly described in the attached list, marked Exhibit "A", under the name of the record owner or reputed owner, and the Commission's respective file number and said Exhibit "A" is by this reference hereby adopted and made a part hereof as completely and fully as though set forth herein in full. *

EXHIBIT "L-3" (cont)

2. That the widening, improvement and maintenance of the said S. E. Flavel Street-Lake Road Section of the Cascade Secondary Highway and the highway facilities for which the said parcel of property, or interest therein, is required and being taken is necessary in the public interest, and the same has been planned, designed, located, and will be constructed in a manner which will be most compatible with the greatest public good and the least private injury or damage.

3. That the Legal and Right of Way Department is directed to attempt to agree with the owners and other persons in interest of said parcel of real property as to the compensation to be paid for the taking, and in the event that no satisfactory agreement can be reached, then the Chief Counsel is directed and authorized to commence and prosecute to final determination such suit or action as may be necessary to acquire title to said parcel of real property, or interest therein.

4. That upon the trial of any suit or action instituted to acquire the said real property, or any interest therein, the Chief Counsel, or, in his absence, any Assistant Attorney for the State Highway Commission, is authorized to make such stipulation, agreement or admission as in his judgment may be for the best interests of the State of Oregon.

5. That this resolution be entered in full in the minutes and records of the Commission this 9th day of August, 1954, as Condemnation Resolution No. 537.

---

* FOOTNOTE

The names of the property owners and the detailed description of the respective parcels of real property mentioned in this resolution are attached to the original resolution on file in the office of the State Highway Commission, Salem, being Resolution No. 537, under the heading "Real Property Condemnation Resolutions" and said descriptions by this reference are made a part of this minute entry to the same extent as if copied in full herein.

EXHIBIT "L-4"

Minutes of August 9 and 10, 1954

RESOLUTION

WHEREAS, the State Highway Commission on the 21st day of January, 1954, by resolution declared the necessity for the acquisition of certain real property owned by F. K. Hill, et al, File No. R-19687, situated in Section 22, Township 2 South, Range 1 West, W.M., Washington County, Oregon, for right of way purposes, for the widening, improvement and maintenance of the Tualatin River-Middleton Section of the Pacific Highway West; and

WHEREAS, the said resolution declared the necessity for the acquisition of all rights of access between the right of way of the said Pacific Highway West and all of the owners' remaining real property, except for two rights of access to the said Pacific Highway West as more particularly set forth therein; and

WHEREAS, the State Highway Commission after further investigating the necessity for the control of access from said remaining land to the said Pacific Highway West has found that it will be to the best interests of the State and the owners to change the access control language in said resolution;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, all members thereof being present and voting affirmatively, as follows:

1. That the access control language in that certain resolution duly made and entered in full in the minutes and records of the Commission on the 21st day of January, 1954, pertaining to the property owned by F.K. Hill, et al, File No. R-19687, as set forth on pages 4 and 5 of Exhibit A of said resolution, be and the same hereby is amended to read as follows:

> It is necessary that there shall be no rights of access of any nature between the right of way of the said Pacific Highway West and all of the contiguous real property of the owners remaining after the appropriation of the above described real property, provided, however, that there shall be reserved unto the owners, their heirs and assigns, for service of the said remaining land, so long as no use is made thereof other than as hereinafter specified, the following:
>
> A right of access to the Pacific Highway West of a width not to exceed 30 feet on the Easterly side of the said highway, opposite Highway Engineer's center line Station 266+90, for all purposes.

EXHIBIT "L-4" (cont)

A right of access to the Pacific Highway West of a width not to exceed 30 feet on the Easterly side of the said highway, opposite Highway Engineer's center line Station 267+80, for all purposes.

A right of access to the Pacific Highway West of a width not to exceed 25 feet on the Easterly side of the said highway, opposite Highway Engineer's center line Station 269+50, only so long as no use is made thereof other than for the production and transportation to market of farm products of defendants' remaining land, and for private residential purposes.

The State, however, shall have the right at its option to build at any future time, at its sole cost, a frontage road or roads within the boundaries of any present or hereafter acquired right of way; thereupon, the rights of access herein reserved to and from the said highway which are on or adjacent to any such frontage road or roads shall cease, but the owners, their heirs, and assigns, shall have access to the said frontage road or roads at such places as will afford reasonable and safe connections. Said frontage road or roads shall be connected to the said Pacific Highway West at a point not a greater distance to the North of the owners' remaining land than a point approximately opposite Highway Engineer's center line Station 265+50, and at a point not a greater distance to the South of the owners' remaining land than a point approximately opposite Highway Engineer's center line Station 305+00.

2. That this amending resolution be entered in full in the minutes and records of the Commission this 9th day of August, 1954, as Condemnation Resolution No. 538.

EXHIBIT "L-5"

Minutes of August 9 and 10, 1954

RESOLUTION

WHEREAS, the State Highway Commission on the 24th day of February, 1954, by resolution declared the necessity for the acquisition of certain real property owned by W. A. Woodard Lumber Co., an Oregon corporation, File No. R-21396 situated in the Marion Martin Donation Land Claim No. 41 and also situated in Sections 5 and 8, Township 21 South, Range 3 West, W. M., Lane County, Oregon, for the purpose of relocation, construction, improvement and maintenance of the Goshen-Divide Section of the relocated Pacific Highway, as a throughway; and

WHEREAS, the said Highway Commission has found that it is to the best interest of the State and the public to permit the reservation unto the owner, its heirs, successors and assigns of an easement hereinafter more particularly described for a roadway for vehicular and railroad purposes across parcel No. 1 as described in the aforesaid resolution and beneath the structure or structures to be constructed by the State of Oregon at its sole cost over Latham County Road and the owner's reserved roadway. The owner shall also have the right and privilege to go upon the hereinafter described real property to construct, reconstruct, improve and maintain the said roadway and shall at all times use said roadway in such manner as not to impair the public highway structure to be erected by the State of Oregon or in any manner obstruct its use. Said easement is described as follows:

A parcel of land lying in the Marion Martin D.L.C. No. 41, Township 21 South, Range 3 West, W.M., Lane County, Oregon, The said parcel being described as follows: Beginning at the intersection of the center line of the Woodard Logging Road with the center line of the Pacific Highway as said Pacific Highway has been relocated; said intersection being 338.1 feet South and 1089.1 feet West of the Northeast corner of said Marion Martin D.L.C. No. 41; thence North 26° 17' 30" West at right angles to said Pacific Highway center line 100 feet; thence South 63° 42' 30" West parallel to said Pacific Highway center line 71.26 feet to the true point of beginning; said point being 20 feet Westerly from (when measured at right angles to) the center line of said Woodard Logging Road; thence South 52° 23' 30" East parallel to the center line of said Logging Road 295.09 feet to a line which is parallel to and 165 feet Southerly from (when measured at right angles to) the center line of said Pacific Highway; thence North 63° 42' 30" East parallel to said center line of said Pacific Highway 44.54 feet to a line which is parallel to and 20 feet Easterly from (when measured at right angles to) the center line of said Logging Road; thence North 52° 23' 30" West parallel to the center line of said Logging Road 295.09 feet to a

line which is parallel to and 100 feet Northerly from (when measured at right angles to) said Pacific Highway center line; thence South 63° 42' 30" West parallel to said Pacific Highway center line 44.54 feet to the point of beginning.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 0.27 acre.

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission, as follows:

1. That that certain resolution duly made and entered in full in the minutes and records of the Commission on the 24th day of February, 1954, pertaining to the property owned by W. A. Woodard Lumber Company, File No. R-21396, be and the same hereby is amended to contain the following reservation in favor of the owner, its heirs, assigns and successors:

There is reserved unto the defendant, its heirs, successors, and assigns, an easement hereinafter more particularly described for a roadway for vehicular and railroad purposes across parcel No. 1 in Paragraph IV hereof and beneath the structure or structures to be constructed by plaintiff at its sole cost over Latham County Road and defendant's reserved roadway. The defendant shall also have the right and privilege to go upon the hereinafter described real property to construct, reconstruct, improve and maintain the said roadway and shall at all times use said roadway in such manner as not to impair the public highway structure to be erected by plaintiff or in any manner obstruct its use. The said easement is described as follows:

A parcel of land lying in the Marion Martin D.L.C. No. 41, Township 21 South, Range 3 West, W.M., Lane County, Oregon. The said parcel being described as follows: Beginning at the intersection of the center line of the Woodard Logging Road with the center line of the Pacific Highway as said Pacific Highway has been relocated; said intersection being 338.1 feet South and 1089.1 feet West of the Northeast corner of said Marion Martin D.L.C. No. 41; thence North 26° 17' 30" West at right angles to said Pacific Highway center line 100 feet; thence South 63° 42' 30" West parallel to said Pacific Highway center line 71.26 feet to the true point of beginning; said point being 20 feet Westerly from (when measured at right angles to) the center line of said Woodard Logging Road; thence South 52° 23' 30" East parallel to the center line of said Logging Road 295.09 feet to

EXHIBIT "L-5" (cont)

a line which is parallel to and 165 feet Southerly from (when measured at right angles to) the center line of said Pacific Highway; thence North 63° 42' 30" East parallel to said center line of said Pacific Highway 44.54 feet to a line which is parallel to and 20 feet Easterly from (when measured at right angles to) the center line of said Logging Road; thence North 52° 23' 30" West parallel to the center line of said Logging Road 295.09 feet to a line which is parallel to and 100 feet Northerly from (when measured at right angles to) said Pacific Highway center line; thence South 63° 42' 30" West parallel to said Pacific Highway center line 44.54 feet to the point of beginning.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 0.27 acre.

2. That this resolution be entered in full in the minutes and records of the Commission this 9th day of August, 1954, as Condemnation Resolution No. 539.

EXHIBIT "L-6"

Minutes of August 9 and 10, 1954

RESOLUTION

WHEREAS, the State Highway Commission on the 10th day of December, 1953, by resolution declared the necessity for the acquisition of certain real property owned by Blanche Tipton, et al., File No. R-21069, situated in the Charles W. Smith Donation Land Claim No. 43 and also lying in Sections 11 and 12, Township 28 South, Range 6 West, W.M., Douglas County, Oregon, for the purpose of the relocation, construction, improvement and maintenance of the Shady Point-Booth Ranch Section of the relocated Pacific Highway as a throughway; and

WHEREAS the said Highway Commission, after further investigation, has found that it is to the best interests of the state and the public that the right of way for the widening, improvement and maintenance of the Grant Smith County Road, also known as Douglas County Road No. 188, be changed and, therefore, the description of the real property set forth in said resolution of December 10, 1953, should be amended to reflect the said change;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That that certain resolution, duly made and entered in full in the minutes and records of the Commission on the 10th day of December, 1953, pertaining to the real property owned by Blanche Tipton, et al., File No. R-21069, L-2071, be amended to read as follows:

> The following-described real property is necessary in connection with the proper relocation, construction, improvement and maintenance of the Shady Point-Booth Ranch Section of the relocated Pacific Highway and for right of way purposes for the widening, improvement, and maintenance of the Grant Smith County Road, also known as Douglas County Road No. 188, including its use for the construction of a grade separation structure to carry said county road over the said relocated Pacific Highway
>
> Parcel No. 3:
>
> A parcel of land lying in the Charles W. Smith Donation Land Claim No. 43, Township 28 South, Range 6 West, W.M., Douglas County, Oregon, and being a portion of that property described in that contract of sale to Glenn L. Young and Phala J. Young, recorded in Book 200, Pages 230 and 231, of Douglas County Records of Deeds; the said parcel being that portion of said property included in a strip of land 120 feet

EXHIBIT "L-6" (Cont)

in width, 50 feet on the northerly side and 70 feet on the southerly side of the center line of the Grant Smith County Road as said county road has been relocated, which center line is described as follows:

Beginning at Engineer's centerline Station 0+00, said Station being 2745.5 feet North and 787.9 feet East of the Southwest corner of said Charles W. Smith Donation Land Claim No. 43; thence South 59° 56' 50" East 700 feet to Station 7+00 equals Station L 2816+36.89 on the center line of the relocated Pacific Highway; thence continuing South 59° 56' 50" East 500 feet to Station 12+00; said center line intersects the West and South lines of said property approximately at Station 2+73 and Station 8+75, respectively. EXCEPT that portion of said strip of land lying within Parcel No. 1 above.

The bearings used herein are based on the Oregon Coordinate System, South Zone.

The parcel of land to which this description applies contains 0.68 acre outside of the existing right of way.

2. That this resolution be entered in full in the minutes and records of the Commission this 9th day of August, 1954.

EXHIBIT "L-7"

Minutes of August 9 and 10, 1954

RESOLUTION

WHEREAS the State Highway Commission, on the 21st day of January, 1954, by resolution declared the necessity for the acquisition of certain real property owned by Harriet E. Harsch, et vir, File No. R-19688, situated in the Northwest quarter (NW$\frac{1}{4}$) of Section 22, Township 2 South, Range 1 West, Willamette Meridian, Washington County, Oregon, for right of way purposes for the widening, improvement and maintenance of the Tualatin River-Middleton Section of the Pacific Highway West, including its use for a service road; and

WHEREAS the State Highway Commission, after further investigation, has found that it will be to the best interests of the state and the owners to reduce the real property required for said purposes and to change the access-control language in said resolution;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That page No. 6 of Exhibit "A" of that certain resolution duly made and entered in full in the minutes and records of the Commission on the 21st day of January, 1954, pertaining to the property owned by Harriet E. Harsch, et vir, File No. R-19688, be and the same is hereby amended to read as follows:

> The following-described real property is necessary for right of way purposes for the widening, improvement, and maintenance of the Tualatin River-Middleton Section of the Pacific Highway West, to wit:
>
> A parcel of land lying in the Northwest quarter (NW$\frac{1}{4}$) of Section 22, Township 2 South, Range 1 West, W. M., Washington County, Oregon, and being a portion of that property described in that deed to Harriet E. Harsch, recorded in Book 253, Page 333, of Washington County Records of Deeds, the said parcel being that portion of said property included in a strip of land of variable width, lying on the southeasterly side of the center line of the southbound lane of the Pacific Highway West, said center line being coincident with the existing center line of said highway and described as follows:
>
> Beginning at Engineer's centerline Station 263+29.7, said Station being 233.02 feet North and 502.08 feet East of the Northwest corner of said Section 22; thence South 51° 42' West 1170 3 feet to Station 275+00, the southeasterly line of said strip of land crossing the West line of said property and the South line of a county road running along the North line of

EXHIBIT "L-7" (Cont)

said Section 22 approximately opposite Stations 265+65 and 266+56, respectively.

The widths in feet of the strip of land above referred to are as follows:

Station	to	Station	Width on Southeasterly Side of Center Line
264+00		265+65	150 feet
265+65		266+40	150 feet to 134 feet
266+40		270+00	134 feet

The parcel of land to which this description applies contains 0.105 acre, of which 0.070 acre lies within the existing right of way, title to which hereby is acknowledged to be in the public, and 0.035 acre lies outside of the existing right of way.

It is necessary that there shall be no rights of access of any nature between the right of way of the said Pacific Highway West and all of the contiguous real property of the owners remaining after the appropriation of the real property hereinabove described.

2. That this resolution be entered in full in the minutes and records of the Commission this 9th day of August, 1954.

EXHIBIT "L-8"

Minutes of August 9 and 10, 1954

RESOLUTION

WHEREAS the State Highway Commission, on the 11th day of May, 1954, by resolution declared the necessity for the acquisition of certain real property owned by H. L. Perkins, et ux., File No. R-21786, situated in Lot 11, Block 5, Cedar Fir Park and also situated in Section 4, Township 3 South, Range 7 East, Willamette Meridian, Clackamas County, Oregon, for the purpose of the relocation, construction, improvement and maintenance of the Zigzag-Rhododendron Section of the Mt. Hood Highway; and

WHEREAS the Highway Commission, after investigation, has found that it is in the best interests of the state and the owners that a lesser amount of the owners' real property be acquired for the proper relocation, improvement, construction and maintenance of said section of highway;

NOW, THEREFORE, BE IT AND IT HEREBY IS RESOLVED by this Commission as follows:

1. That that part of page 1, Exhibit "A", of that certain resolution duly made and entered in full in the minutes and records of the Commission on the 11th day of May, 1954, pertaining to the property owned by H. L. Perkins, et ux., File No. 21786, be and the same hereby is amended to read as follows:

> The following-described real property is necessary for right of way purposes for the relocation, construction, improvement and maintenance of the Zigzag-Rhododendron Section of the Mt. Hood Highway, to wit:
>
> A parcel of land lying in Lot 11, Block 5, Cedar Fir Park, situated in Section 4, Township 3 South, Range 7 East, W. M., Clackamas County, Oregon, the said parcel being the southerly 18.5 feet of said Lot 11.
>
> The parcel of land to which this description applies contains 1387.5 square feet.

2. That this resolution be entered in full in the minutes and records of the Commission this 9th day of August, 1954.

Portland, Oregon
September 23, 1954

The Oregon State Highway Commission met in regular session at 9:00 a.m. in the Green Room of the Imperial Hotel. Present were:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
Robert L. May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
L. V. Koons, Assistant Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Commissioner McIver was excused from attending this meeting.

The Parks Superintendent was also excused because of his attendance at the dedication of Cape Lookout State Park in Tillamook County.

The Commission considered the minutes for the meetings held on May 11 and 12, June 23 and 24 and August 9 and 10, but deferred action on the same until the October meeting when all Commissioners are present.

Bids for highway construction as follows were opened and read aloud by the Secretary who then announced that the Commission would award contracts at 4:00 p.m. in the same room.

In the absence of the State Parks Superintendent, his Assistant, Mr. L. V. Koons, reported on the following park matters:

1. Proposed recreational development of areas at Detroit Lake on the North Santiam Secondary Highway: The Assistant Parks Superintendent stated that as instructed by the Commission a thorough study has been made of this matter. He stated that approximately 85,000 people used the area during the recreational season in 1954, and that the two areas investigated, lend themselves to development--one being adjacent to the old Camp Mongold Road which serves as a boat launching site, and the other being about 1 1/2 miles north at the Lakeshore

Forest Camp. Both areas, he said, are on the northwesterly shore of the lake and lie between the highway and the lake. He proposed to improve the boat ramp on the Mongold Road, to provide a larger space for the parking of cars and to install a few picnic tables and toilet facilities. He also proposed to increase the existing overnight camping area at the Lakeshore Forest Camp and to make provision for additional day use at such location. He estimated that the proposed development work can be done for approximately $30,000, and he recommended approval of an expenditure of such amount in 1955. The Commission accepted the recommendation.

2. Proposed development of a state park area at Coffenbury Lake near Old Fort Stevens in Clatsop County: The Assistant Parks Superintendent stated that the area has been partially developed by other agencies, that there are no other state parks nearby, and that there are approximately 832 acres available for the park. A good access road, he stated, is already built, the park itself being about four miles from the Oregon Coast Highway. He further stated that the property is owned partly by Clatsop County and partly by the State Game Commission, and that both agencies have indicated a willingness to transfer the property to the Highway Commission for development as a state park. He recommended approval of the project which, he said, is estimated to cost $20,000. In the discussion on this matter, Chairman Chandler stated that no expenditure of highway funds should be made unless fee title to the property can be obtained. He recalled a previous request for development of the area was denied because at that time title to the property could not be obtained. Commissioner Reynolds stated that he favors development of the area as a state park when title to the property has been acquired. The Commission, upon motion by Commissioner Reynolds, approved an expenditure of $20,000 for development of the area in 1955 if and when an acceptable title to the property has been secured.

3. Request of Miami Corporation to place gates across roads through the Van Duzer Forest Corridor: The Assistant Parks Superintendent stated that the Company wants to maintain gates across these roads, and in exchange for this privilege has offered to allow the State to construct fire roads on Miami Corporation property and to use some existing roads in connection with fire protection work in the Corridor. He explained that there are several million feet of excellent timber in the Forest Corridor and that construction and use of the fire roads would aid greatly in protecting the timber from fire loss. Closing of the gates, he stated, will prevent access by those who have no business in the area. Under the tentative arrangements made so far, placement of about 10 or 11 gates is contemplated, four of which are to be installed by the State. He recommended approval of the Corporation's request and that the arrangement be covered by written agreement. The Commission accepted the recommendation.

The Right of Way Engineer presented for consideration options secured for acquisition of real property needed for various state highway improvements and for other purposes. After careful consideration the Commission unanimously approved closing the options at the prices mentioned therein by adopting the attached resolution relative thereto, marked EXHIBIT "A", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

In discussing the options, the Right of Way Engineer called attention to a proposed acquisition of property from Walter Dutli on the Wallowa Lake Lodge-Power House Substation Section of the Joseph-Wallowa Lake Highway in Wallowa County. He pointed out that the option price is $2,500, which in his estimation, is excessive. He said that he cannot recommend payment of such sum. The Engineer pointed out that bids are to be opened on the following day for improvement of this road. As a result of the discussion of this matter, the Commission instructed the Right of Way Engineer to contact the Wallowa County Judge by phone and advise him that if the Commission is not advised by 9:00 a.m. on September 24 that the Dutli property can be acquired at reasonable cost, approximately $1,100, then the Commission will defer opening the bids for construction of this section. (A satisfactory price was not secured from Mr. Dutli so the bids for this project were not opened September 24 as scheduled. The Commission ordered the bids returned to the respective bidders unopened.)

The Right of Way Engineer requested authority to negotiate acquisition of properties owned by Stokes (File No. 22347) and LeCrone (File No. 22348) for widening the Hillsboro-Forest Grove Section of the Tualatin Valley Highway in Washington County. He explained that the property lies between the railroad and highway and should be acquired at an early date before it is encumbered. He pointed out, however, that no survey has been made as yet and that the project is not included in any existing program. The Commission ordered that the acquisition of these properties be deferred pending further investigation by the Highway Engineer.

A report on miscellaneous properties sold since the previous Commission meeting was presented by the Right of Way Engineer and accepted by the Commission. (For a list of properties sold see copy of the report prepared by C. W. Parker, Property Manager, dated September 23 and 24, 1954, filed in the Secretary's office under the heading "Miscellaneous Sales".)

A change in point of access was recommended by the Right of Way Engineer for the Priday property on the Sherman Junction-Willowdale Section of The Dalles-California Highway in Wasco County. He explained that no new access is being granted and that the change is simply a relocation of an access previously authorized. The Commission accepted his recommendation.

Consideration was given to the matter of conveying to Klamath County by Bargain and Sale Deed 0.02 acre of land on the Klamath County Section of the Klamath Falls-Lakeview Highway. The Right of Way Engineer ex-

plained that Klamath County is widening a road which bisects the state highway and in so doing needs a 5 foot strip of ground from a stockpile site owned by the State. Conveyance of this property, he stated, will not hurt the State and he recommended that it be deeded to Klamath County for the sum of $1.00. The Commission approved the recommendation.

The matter of compensating Mr. and Mrs. Harold Turpin for damage that occurred to their spring by reason of slides on the Elkhead Road-Rice Hill Section of the Pacific Highway in Douglas County, was discussed. The Right of Way Engineer explained that during construction of the new highway, a slide developed which destroyed the Turpin's spring. The Turpins, he said, have agreed to accept the sum of $500 as complete and final payment for loss of the spring and will relieve the state from any further claim in this connection. He added that the $500 will be spent by the Turpins to provide a well. Upon his favorable recommendation, the Commission approved the payment of $500 to the Turpins.

Destruction by the Commission of a deed conveying 0.74 acre of land on the Chrome-Coquille Section of the Oregon Coast Highway to B.D. Neavoll was considered. The Right of Way Engineer explained that on August 9, 1954, the Commission authorized sale of this land to Mr. Neavoll for the sum of $262.50 and that the deed was signed by the Commission. Subsequent developments, he said, indicated that the property should not have been sold due to the matter of access to property lying back of the State owned parcel. The matter was discussed with Mr. Neavoll who agreed to withdraw his request to purchase the property and asked that his money be returned to him, moreover, Mr. Neavoll signed a statement authorizing destruction of the deed. The Commission authorized and instructed the Right of Way Engineer to destroy the deed.

Granting of a road easement to Jens Jorgensen across State owned property near Shingle House Slough on the Coos Bay-Coquille Section of the Oregon Coast Highway in Coos County was considered by the Commission. The Right of Way Engineer commented that Mr. Jorgensen has been using an unauthorized access to the Highway at approximately Engineer's Station 169+50, which will be closed if he is permitted access to a county road across the State's land. He recommended that a non-exclusive easement be granted Mr. Jorgensen under the terms of which he will be required to build his own road at no cost to the State, and the right to use the road will be available to others. The Commission approved the recommendation.

The Right of Way Engineer also brought up for discussion the matter of approving a partial release of an easement that was acquired from the Stout Lumber Company in 1928 by the terms of which the State is required to construct and maintain a flume for drainage of Hall Lake on the Douglas County Line-Hauser Section of the Oregon Coast Highway in Coos County. It appears that Adolph and Dora M. Schuttpelz who now own the land covered by the original easement desire partial cancellation of the easement. It also appears that such partial cancellation will relieve the State from about one-half of its obligation to maintain the flume, but the State will be required to replace the flume and overflow gates with an earth fill and to con-

struct a certain ditch. He recommended approval of the arrangement as being in the State's best interests. The Commission approved the recommendation.

Approval of sale by public auction of 3.24 acres of property on the Blackwell Hill-Seven Oaks Section of the Pacific Highway in Jackson County was requested by the Right of Way Engineer. He advised that the auction was held on September 15, 1954, and that Mr. Louie Loeffler who was the only bidder present made an offer of $486 for the property. He recommended acceptance of the offer. The Commission approved sale of the property to Mr. Loeffler as recommended, with complete restriction of access to the new highway.

The granting of an easement to Multnomah County for establishment of a road on the Sauvie Island Bridge Section of the Columbia River Highway in Multnomah County was considered by the Commission. The Right of Way Engineer explained that the County wants the use of a strip of land along the westerly side of the Columbia River Highway just south of the Sauvie Island Bridge, said strip of land being a part of the old United Railroad right of way on which the County proposes to establish a road. He recommended that a grant of easement be approved. The Commission accepted the recommendation.

The Right of Way Engineer requested authority to advertise for sale by public auction 7,000 square feet of excess right of way along the Salem By-pass Section of the Pacific Highway East in the N.E. 1/4 of the N.E.1/4 of Sec. 13, T. 7 S., R. 3 W., W.M., Marion County. The property, he stated, was purchased at the rate of 5¢ per square foot and that an offer of 6¢ per square foot for it has been received. The Commission approved the request, subject to complete restriction of access to the highway and with the understanding that the property shall be sold for not less than $420.

Consideration was given to the sale of 19,100 square feet of excess property in Lot 1, Block 2, Zwahlen Homesites, Sec. 18, T.1 N., R.2 E, W.M. in Multnomah County. The Right of Way Engineer commented that this property, located on the Northeast Portland Secondary Highway, no longer is needed for highway purposes and he recommended that it be sold by public auction for not less than $2,000 with one residential access to the highway. The Commission approved the recommendation by adoption of the attached resolution relative thereto marked EXHIBIT "D-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Right of Way Engineer presented for the Commission's consideration requests, as follows, for changes in points of access to the Clatskanie-Delena Section of the Lower Columbia River Highway in Columbia County:

Don L. Verley property, File No. 20312; William C. Wood property File No. 20272; George A. Carlson property, File No. L2011; and the William G. Walker property, File No. L-2017. He explained that in each instance it simply is a case of substituting a new access for one

previously granted and that no additional access is involved. He recommended approval of the substitutions. The Commission approved the changes as recommended.

Consideration was also given to granting a pedestrian access 10 feet wide, from the John and Gladys Brazil property to the Mt. Vernon-John Day Section of the John Day Highway in Grant County. The Right of Way Engineer explained that there is a high cut bank in front of the Brazil's house and they want access to the highway for pedestrian purposes only. He recommended that such access be given. The Commission approved the recommendation subject to the understanding that such access shall not be used for any other purpose whatsoever.

The matter of paying $240.20 to Mr. Arthur C. Lot as complete release from an obligation contained in a right of way option that required the State to replace a privately-owned bridge that was destroyed in construction of the Goshen-Coast Fork Section of the Pacific Highway was discussed. The Right of Way Engineer stated that the bridge had to be removed in order to accommodate the highway improvement and that Mr. Lot has agreed to accept the sum of $240.20 in lieu of a new structure and to completely release the State from further obligation. He recommended approval of the arrangement. The Commission accepted the recommendation.

Sale of a portion of the property acquired from Leo Wilson on the Chenoweth Park-Deady Section of the Pacific Highway in Douglas County was considered by the Commission. The Right of Way Engineer advised that the property consists of 259 acres of land that is not needed for highway purposes being entirely outside of the standard width right of way, and that an offer of $3,800 for the same has been received. He further stated that the land lies on a hillside and is suitable only for grazing purposes; also, that it will be sold with complete restriction of access to the Pacific Highway, the only access being over the Elkton-Sutherlin Secondary Highway. He recommended sale of the property by the auction method at a price not less than $3,800. The Commission approved the recommendation by adoption of the attached resolution relative thereto marked EXHIBIT "D-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Chief Counsel requested authority to acquire by condemnation, if necessary, the following properties that are needed as right of way in connection with various highway improvements or for other purposes, and to tender offers for the same in conformity with instructions given him by the Commission in its resolution adopted December 20, 1951:

Clackamas Overcrossing Section of the Clackamas Highway

Right of Way (Union)
9.57 acres

September 23, 1954

In presenting these items the Chief Counsel called attention to the Piper and Kruschke properties on the Clackamas Overcrossing Section of the Clackamas Highway. He recalled that this project previously had been withdrawn from the program because the Clackamas County Court had refused to agree to closure of a county road crossing of the Southern Pacific Railroad that is involved. He requested and the Commission granted authority to proceed with the condemnation of these properties, if such action is necessary, after the project has been reinstated in the construction program.

The attached resolutions marked EXHIBITS "J-1" to "J- 15" inclusive, authorizing the Chief Counsel to acquire the above listed properties by condemnation procedure, if necessary, which resolutions by this reference are made a part hereof with like effect as though extended in full herein, were thereupon adopted by the Commission on the affirmative vote of all Commissioners present.

The Commission considered and accepted the Chief Counsel's written report of cases which have been tried by his office since the August meeting of the Commission as follows:

1. State vs James L. Wilson, et ux, File No. L2061 (R20649) for right of way for Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway: An offer was made in the amount of $4,744 which was rejected by the defendants who demanded the sum of $22,000, later reduced to $10,000. The jury returned a verdict in the amount of $6,500 plus attorney's fees in the amount of $850.

2. State vs. Walnut Park Company, et al., File No. L 1985 (R 15872, R 15873) for right of way for Unit No. 2 of the T. H. Banfield Expressway: The State offered to pay $59,600 for this property. The defendants rejected the offer and demanded the sum of $300,000. A counter offer based on a new appraisal was made in the amount of $111,780 which offer also was rejected. The jury returned a verdict in the sum of $160,000 plus attorney's fees in the amount of $10,000.

3. State vs. John J. Schafer, et ux., File No. L 2144 (R 20846) for right of way for Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway: The sum of $250 was offered and rejected by the defendants who demanded the sum of $1,650, later reduced to $750. The jury awarded $500 plus attorney's fees in the amount of $325.

4. State vs. Robert Neagle Forrest, et al., File No. L 2193, (R 20089) for right of way for Pendleton-Deadmans Pass Section of Old Oregon Trail Highway: An offer in the amount of $21,941 was made. The defendants rejected the offer and demanded the sum of $42,500. The jury returned a verdict in the sum of $26,330 plus attorney's fees in the amount of $1,900.

5. State vs. Fred W. Jablonski, et ux., File No. L 2057 (R 20345) for right of way for Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway: The State offered to pay $4,279 which offer was rejected by the defendants who demanded the sum of $16,990. The jury awarded the sum of $5,500 plus attorney's fees in the amount of $850.

6. State vs. A. S. Hamilton, et ux., File No. L 2161, (R19681) for right of way for the Tualatin River-Middleton Section of Pacific Highway West: An offer in the sum of $3,000 was made by the State and rejected by the defendants who demanded the sum of $12,500. The jury returned a verdict in the amount of $4,000 plus attorney's fees in the amount of $600.

7. State vs. Vernon P. Clark, et al., File No. L 2147 (R 20851) for right of way for Gervais-Hayesville Section of Portland-Salem Expressway: The State offered $2,860 for this property whereas the defendants demanded the sum of $10,000. Before the case came to trial a settlement was reached for the sum of $2,910.

8. Harry Perkins, et ux., vs. State of Oregon, File No. L 2235, (R 12342). This action was brought for the purpose of cancelling and setting aside a deed conveying real property to the Highway Commission. The Court decreed that upon return to the State of the amount of the consideration paid for the deed, being $65.25, and for $2.00 expended for a filing fee, a decree would be entered setting aside the deed in question.

9. Claire Edward Weaver vs. State of Oregon, File No. L 2157 (R 21736): Mr. Weaver sought to collect the sum of $18,000 for damages to his property by reason of a change of grade in construction of the Marion Street Bridge in Salem. He later offered to settle for $11,000. The jury returned a verdict in the sum of $4,000.

10. Reconstruction Finance Corporation vs. Lawrence E. Bufton, et al., and State Highway Commission, File No. L 1974 (R 13107): The case was brought by the Reconstruction Finance Corporation for the purpose of foreclosing a mortgage against the defendants. The State Highway Commission was named as a defendant only to ascertain the exact interest of the Highway Commission in the property. On May 7, 1953, the case against the State Highway Commission was dismissed by the Hon. G. F. Skipworth.

(For details see copy of Chief Counsel's letter to the Commission dated September 17, 1954 and entitled "Report of Cases Tried", in General Files.)

The Commission also considered and accepted the Chief Counsel's report on court cases which have been settled since the Commission meeting held on August 9 and 10, 1954, as follows:

1. State vs. C. R. O'Neil, et ux., File No. L 2237 for right of way for the Goshen-Divide Section of the Pacific Highway: An offer was made in the amount of $4,677 which was rejected by the defendants who demanded $15,000 plus $2,500 attorney's fees. A settlement has been reached in which the State will purchase 7.29 acres for right of way plus 65.32 acres lying east of the highway for the sum of $15,000. It appears that the excess property can be sold for approximately $10,000, thus reducing the cost of the property needed for right of way to the sum of $5,000.

2. State vs. Laval E. Medford, et ux., File No. L 2072 (R 21074) for right of way for the Shady Point-Kelly Corner Section of the Pacific Highway: The defendants were offered $2,863, which offer was finally accepted.

3. State vs. William Purchase, File No. L 2128, (R 20250 A-2) for right of way for the Pendleton-Deadmans Pass Section of the Old Oregon Trail Highway: An offer in the amount of $150 was made to and rejected by the defendant. Subsequent negotiations resulted in a settlement for the sum of $500.

4. State vs. Leona Creason Koff, et vir., File No. L 2073, (R 21068) for right of way for the Shady Point-Booth Ranch Section of the Pacific Highway: After extensive negotiations, the defendants accepted the original offer of $3,500.

5. State vs. Charles A. Peterson, et al., File No. L 2132, (R 20109) for right of way for Pendleton Deadmans Pass Section of the Old Oregon Trail Highway: The sum of $6,435 was offered and refused by the defendants who demanded $12,361.90. A settlement was finally effected in the amount of $8,700 including attorney's fees in the amount of $500.

6. State vs. Wales Wood, et ux., File No L 2230, (R 21882, R 21368) for widening the Goble-St. Helens Section of the Columbia River Highway: An offer was made in the sum of $1,000. A settlement was negotiated for the taking of three square feet and 223 square feet instead of .05 acre and the State is to pay the sum of $10 and install a retaining wall and reconstruct the driveway.

7. State vs. M. E. Van Horn, et ux., File No. L 2062 (R 20626) for right of way for Unit No. 4 of the T. H. Banfield Expressway: An offer in the sum of $2,100 was made to and rejected by the defendants who demanded the sum of $7,000. After further evaluation of the property which indicated an increased value, and as a result of subsequent negotiations, settlement was effected for the sum of $5,000.

8. State vs. W. E. McLachlan, L 2286: This complaint was to collect $186.85 for the cost of repairing a bridge damaged by the defendant. A compromise settlement was effected for the sum of $140.22, being 75 per cent of the original claim.

9. Allen C. Jones, et al., vs. State of Oregon, L 2150 (R 21731): Mr. Jones sought to collect the sum of $15,000 as damages to his property due to a change in grade caused by construction of the Marion Street Bridge in Salem. A settlement was reached for the sum of $3,500.

10. Gordon McGilchrist, Jr., et al., vs. State of Oregon, File No. L 2151, (R 21732): Mr. McGilchrist sought to collect $10,000 for alleged damage to his property caused by a change of grade in construction of the Marion Street Bridge in Salem. A settlement has been reached for the sum of $2,500.

11. Pioneer Trust Company, a Corporation, vs. State of Oregon, File No. L 2178; Pioneer Trust Company, a Corporation, vs. State of Oregon, File No. L 2176: The Trust Company sought to collect the sum of $50,000 for alleged damage to their property by reason of a change in grade in connection with reconstruction of the Center Street Bridge in Salem. The property is under lease to Master Service Stations, Inc. A settlement has been negotiated for the sum of $22,000.

12 Master Service Stations, Inc., vs. State of Oregon, File No. L 2188 These people sought to collect the sum of $27,500 as damages resulting from a change in grade caused by reconstruction of the Center Street Bridge in Salem. Settlement was negotiated in the sum of $13,000

13. State vs B F. Bowman, et al,, File No. L 2134 (R 20110) for right of way for the Pendleton-Deadmans Pass Section of the Old Oregon Trail Highway: The State offered to pay $11,186 for this property. The defendants rejected the offer and demanded the sum of $13,679.35 plus $1,500 attorney's fees. Negotiations resulted in a settlement whereby the State will pay the sum of $13,000 plus interest in the amount of approximately $395, plus the installation of a 75-foot gate, and will convey to the defendant approximately 0.10 acre, plus a farm crossing if the grade separation structure is inadequate, plus the fencing of a stock crossing.

14. State vs. Mary Elizabeth Wright, File No. L 2223 (R 21212) for right of way for the Goshen-Divide Section of the Pacific Highway: An offer in the amount of $19,065 plus construction of a concrete box type culvert was rejected by the defendants who demanded the sum of $50,000 plus construction of an overpass. A settlement was reached under which the State will pay the sum of $47,000 and install a 48-inch corrugated iron culvert in lieu of the proposed overcrossing.

(For further details see copy of Chief Counsel's letters of September 17 and 21, 1954 to Highway Commission, entitled "Report of Cases Settled" in General Files .

The Chief Counsel in compliance with a resolution adopted by the Commission on December 20, 1951, reported offers, as follows, for the acquisition of real property that were tendered to the property owners prior

to the institution of condemnation proceedings:

Euchre Creek-Wedderburn Section of the Oregon Coast Highway

R-21991-Owner: Douglas DeVoe, et al. 0.26 acre for right of way. Offer of $570 approved by Chairman Chandler on September 7, 1954.

R-21897-Owner: Walter R. Scott, et ux. 4.5 acres for right of way. Offer of $1,750 approved by Chairman Chandler on September 7, 1954.

R-21775-Owner: Rachel L. Milias, et al. 13.5 acres for right of way. Offer of $8,350 approved by Chairman Chandler on September 7, 1954.

R-21896-Owner: Ruby A. Bailey, et al. 25 acres for right of way. Offer of $9,000 approved by Chairman Chandler on September 7, 1954.

R-21889-Owner: Nolan L. Chenoweth, et ux. 0.701 acre for right of way. Offer of $6,300 approved by Chairman Chandler on September 7, 1954.

R-21766-Owner: Walter H. Hines, et ux. 1.5 acres for right of way. Offer of $3,000 approved by Chairman Chandler on September 7, 1954.

R-21767-Owner: Charles M. Gray, et ux. 22.0 acres for right of way. Offer of $10,562 approved by Chairman Chandler on September 7, 1954.

R-21345-Owner: Martin Prevics, et ux. 1.455 acres for right of way. Offer of $3,250 approved by Chairman Chandler on September 7, 1954.

R-22000-Owner: William H. E. Coffman, et al. 15,000 square feet for right of way. Offer of $8,850 approved by Chairman Chandler on September 7, 1954.

R-21892-Owner: Estate of John A. Laing. 0.89 acre for right of way. Offer of $500 approved by Chairman Chandler on September 13, 1954.

R-21898-Owner: Charles A. Billings, et al. 1.5 acres for right of way. Offer of $1,000 approved by Chairman Chandler on September 13, 1954.

R-21885-Owner: William H. E. Coffman, et al. 9.8 acres for right of way. Offer of $9,300 approved by Chairman Chandler on September 13, 1954.

R-21895-Owner: Kate A. Bailey, et al. 29 acres for right of way.

Offer of $11,888 approved by Chairman Chandler on September 13, 1954.

R-21342-Owner: S. O. Newhouse, et al. 0.70 acre for right of way. Offer of $7,140 approved by Chairman Chandler on September 13, 1954

R-21999-Owner: Harris Kennedy, et al. 0.11 acre for right of way Offer of $1 740 approved by Chairman Chandler on September 13, 1954.

R-21893-Owner: Paul H. Connet, et ux. 13.6 acres for right of way. Offer of $7,140 approved by Chairman Chandler on September 13, 1954.

R-21887-Owner: F. W. Adams, et ux. 6.35 acres for right of way Offer of $4,609 approved by Chairman Chandler on September 13, 1954.

R-22258-Owner: Herbert S. Dettmer, et ux. 0.14 acre for right of way Offer of $300 approved by Chairman Chandler on September 13, 1954

R-22257-Owner: F. W. Adams, et al. 0.15 acre for right of way. Offer of $250 approved by Chairman Chandler on September 13, 1954.

R-21990-Owner: Max B. Trinkhaus, et ux. 0.34 acre for right of way Offer of $1,250 approved by Chairman Chandler on September 15, 1954

R-21509-Owner: J. M. Walton, et ux. 0.11 acre for right of way. Offer of $1,000 approved by Chairman Chandler on September 15, 1954.

R-21508 Owner: L. E. Goudy, et ux. 1.32 acres for right of way. Offer of $4,750 approved by Chairman Chandler on September 15, 1954.

R-21505 and R-21899-Owner: Robert M. Knox, et ux. 38.61 acres for right of way. Offer of $31,872 approved by Chairman Chandler on September 15, 1954

R-21344-Owner: George L Powell, et ux. 0.04 acre for right of way and a 6 foot strip for drainage culvert Offer of $550 approved by Chairman Chandler on September 15, 1954.

R-22256 Owner: Henry Weigandt, et al. 0.35 acre for right of way purposes Offer of $435 approved by Chairman Chandler on September 15, 1954

R-21511-Owner: Merlin G Emmons, et al 0.10 acre for right of way Offer of $5,700 approved by Chairman Chandler on September 15, 1954

R-21510-Owner: Maude Scott, et al. 0.68 acre for right of way. Offer of $13,000 approved by Chairman Chandler on September 20, 1954.

Olds Ferry-Ontario Section of the Old Oregon Trail Highway

R-22164-Owner: Martha D. Wilcox, et al. 3.66 acres for right of way. Offer of $1,865 approved by Commissioner Reynolds on September 20, 1954.

R-22169-Owner: Verl Thayer, et al. 8.23 acres for right of way and 0.28 acre for easement to construct irrigation ditch. Offer of $4,360 approved by Commissioner Reynolds on September 20, 1954.

R-22155-Owner: C. H. Thayer, et al. 24.18 acres for right of way, 9.17 acres for the acquisition of roadbuilding materials, and 0.97 acre for easement to construct irrigation ditch. Offer of $10,825 approved by Commissioner Reynolds on September 20, 1954.

R-22140-Owner: Floyd L. McBride, et ux. 88.59 acres for right of way and 1.5 acres for stockpile site. Offer of $4,670 approved by Commissioner Reynolds on September 20, 1954.

R-22165-Owner: M. H. Thayer, et al. 0.83 acre for right of way and 8.28 acres for the acquisition of roadbuilding materials. Offer of $1,025 approved by Commissioner Reynolds on September 20, 1954.

R 21168-Owner: Glen E. Thayer. 5.6 acres for right of way and 0.42 acre for easement to construct irrigation ditch. Offer of $6,620 approved by Commissioner Reynolds on September 20, 1954.

R 22167-Owner: Wendell G. Thayer, et al. 5.57 acres for right of way and 0.45 acre for easement to construct irrigation ditch. Offer of $3,760 approved by Commissioner Reynolds on September 20, 1954.

R 22136, R 22137-Owner: Guy E. Turner, et al. 115.20 acres for right of way. Offer of $2,550 approved by Commissioner Reynolds on September 20, 1954.

Blackwell Hill-Medford Section of the Pacific Highway

L 2123-Owner: Earl W. Morris, et al. 22.79 acres for right of way. Offer of $21,410 approved by Chairman Chandler on July 9, 1954.

The Chief Counsel commented briefly on his written report to the Commission dated September 17, 1954, concerning a suit brought by Verlin E. McCarthy against Gibbons and Reed, Inc., contractor for construction of the 42nd Avenue-92nd Avenue Section of Banfield Expressway, and Warren Northwest, Inc., subcontractor, for an alleged trespass upon the McCarthy property near N. E. 82nd Avenue, Portland. Attorneys for Warren Northwest, Inc., he stated, have advised that they will look to the State for indemnity against any damages that may be assessed against

them inasmuch as they acted upon instructions from the State. He gave as his opinion, in view of the circumstances, that the State should undertake the defense of the contractor. He further stated that the matter has been discussed with the Attorney General who has not yet ruled on the question whether or not the State has the legal authority to defend its contractor. He recommended that the Commission allow him to make such defense if the Attorney General agrees. The Commission approved the request.

In this connection the Chief Counsel also reported the status of the case of Harvey Sherer vs. Louis E. Dearborn, et al., and the case of Myrtle L. Smith vs. Louis E. Dearborn, et al., Mr. Dearborn being a highway department employee who was involved in an accident that resulted in the death of one of the parties concerned. He stated that he discussed these cases with the Attorney General who gave as his opinion that in legal actions against officers or employees of the State, where the basis of the action is alleged negligence on the part of the officer or employee, protection of the State's interests is not involved, consequently he has no authority to permit any Assistant Attorney General to take part in the case nor to employ special legal assistance for that purpose. The Chief Counsel added that because of the Attorney General's opinion, it has been necessary to withdraw from the case, and to let those affected employ their own counsel. He mentioned that a local Attorney has agreed to handle the case and that he will refer his files to such Attorney, if that meets the approval of the employees concerned, and the Commission offers no objection to the procedure; moreover, he will render every possible assistance that he can within the limits of legal authority. The Chief Counsel further advised that it is planned to present a bill to the 1955 legislative assembly, which, if enacted, into law will authorize insurance coverage for state officers and employees in cases of this nature, but not contractors, and will take care of similar situations as they arise. The Commission accepted the report.

The claim of Walter Coleman in the sum of $1,029 for injuries sustained as a result of an accident that occurred in Silver Falls State Park was reported by the Chief Counsel. He explained that on July 11, 1954, Mr. Coleman, who is 17 years of age, was following a steep path, which had not been constructed or maintained by the Parks Department but had been established through use. He slipped and fell over the edge of the south falls sustaining severe injuries for which he now is seeking damages. He pointed out that the injured boy left the trail that was constructed by the State Parks Department and was using a path which was both steep and slippery and was not marked with danger signs. It was his opinion that the accident occurred as a result of Mr. Coleman's own conduct or negligence, and that the Commission has no authority to pay the claim. He recommended that it be denied. The Commission accepted the recommendation.

The vacation of a portion of the right of way of the Cascade Secondary Highway known as the Molalla Junction-Marquam Section, (old route) was given consideration by the Commission. The Chief Counsel explained that on June 23, 1954, a portion of the old highway was abandoned to Clackamas County upon relocation of the highway and that the Clackamas County Court, upon the request of abutting property owners, has requested the Commis-

sion's consent to the vacation of the eliminated portion if all contiguous property owners consent thereto, the Commission's consent being required because each end of the eliminated portion abuts upon the relocated highway. The Molalla Junction-Marquam Section, he said, is not a restricted access highway, and the highway department has no interest in the abandoned portion, wherefore he recommended that such consent be given. The Commission accepted the recommendation.

The Chief Counsel also brought up the matter of acquiring title to the Cove Palisades State Park in Jefferson County. He advised that the property now is under lease from the Federal Government and that if it is acquired outright from the United States, under the provisions of the Bankhead-Jones Farm Tenant Act, the United States reserves title to 75 per cent of all minerals and 100 per cent of all fissionable materials located thereon. He further stated that the lease agreement provides that in the event the United States determines that the exercise of mining rights would be inconsistent with the purpose referred to in the lease, the United States will not exercise such rights during the term of the lease agreement without the written consent of the State. If title to the property is acquired by quitclaim deed, he added, the State will lose the small protection afforded by the lease provision. Also, it will require special legislation by Congress in order to acquire title to the land. It was his opinion that it would be better to continue leasing land than to acquire it. L. V. Koons, Assistant Parks Superintendent, concurred in this opinion. The Commission ordered that negotiations for outright acquisition of the property be abandoned and the leasing of the property continued.

The Chief Counsel summarized briefly his written report to the Commission, dated September 17, 1954, concerning the case of Perkins vs the State of Oregon. He explained that in 1946, a small parcel of property was purchased from Mr. and Mrs. Harry Perkins for widening the Mt. Hood Highway at Zigzag. Improvement of the highway was made by the Bureau of Public Roads, including the raising of the grade adjacent to the Perkins' property some three or four feet. An offer was made to fill in the area adjacent to the highway shoulder and to compensate the Perkins' for raising their buildings which was estimated to cost about $7,500. The offer was refused, and the Perkins' demanded that their buildings be set back, which is estimated to cost approximately $15,000. The demand was rejected and the Perkins' brought action to set aside the deed conveying the property to the State. The deed was set aside by the court, and the Perkins' have now commenced action to collect the sum of $25,000 for alleged damages to their property by reason of the change of grade. He explained that damages due to change of grade can be allowed only in cities and that his staff would proceed with defense of the action. The Commission accepted the report.

A report was presented by the Chief Counsel on action taken to enforce access control at the following locations against Mr. B. M. Martin who owns property adjacent to The Dalles-California Highway in the town of Lapine, and against Mr. and Mrs. Robert Woodley who own property adjacent to the Ochoco Highway in the town of Mitchell. Mr. Martin, he

stated, has offered his voluntary cooperation and has promised to cease violating the access restrictions contained in his deed. His operation will be watched, and if he continues violations, suit will be brought. Concerning the access violations of Mr. and Mrs. Robert Woodley, he stated that the Woodleys had been advised by certain highway employees that there would be no access restriction at their location so they proceeded with construction of their motel buildings. The Woodleys, he remarked, have an appointment with the Commission on the following day in view of which he suggested that action be deferred until they have presented their case. The Commission took no action on the matter at this time. (Mr. and Mrs. Woodley appeared before the Commission on September 24 and were informed by the Commission that they could continue to use their existing access provided they do not use it for any other commercial purpose. The arrangement is to be covered by written agreement. See ahead for additional entry.)

A request was made by the Chief Counsel for authority to start legal proceedings against Morrison-Kiewit-Macco Corporation to collect damages caused by a slide on the Willamette Highway near Lookout Point Dam. He explained that in conducting their quarry operations at Eagle Rock, the corporation discharged excessive amounts of waste material above the highway and continued to do so notwithstanding that they were warned of the danger of earth slides occurring. As a result thereof, two slides occurred which caused considerable damage to the highway. Repairs so far, he stated, have cost approximately $9,000 and permanent repairs will probably cost an additional $7,000. The Commission approved the request.

The Chief Counsel also requested authority to institute legal proceedings to collect $158.10 from Mr. Robert Doughty and the estate of James J. Howard for damaging a guard rail fence on the Mosier Creek Bridge on the Columbia River Highway. The Commission approved the request.

Upon recommendation of the Chief Counsel, the Commission authorized abandonment of two damage claims, one being a claim against Gar Long and Morris Allen who damaged the oiled shoulders of the Enterprise-Lewiston Highway between M.P. 15.00 and M.P. 26.00 by operating cleated tractors thereover, and the other being a claim against Guy E. Vaughn and Guy E. Watts who drove their truck into the rear end of a highway department panel truck causing damage in the amount of $174.34. The Chief Counsel explained that the damage done to the highway shoulders has healed naturally so no claim exists, and it appears impossible to collect the amount of damages in the other case because the insurance carrier for the owners of the truck deny liability and the State's principal witness has terminated his employment and cannot be located.

A request from Mrs. Blanche Tipton for additional access to the Deady-Shady Section of the Pacific Highway in Douglas County was presented by the Chief Counsel who recommended that her request for additional access by denied. The Commission approved the recommendation.

The payment of attorney's fees to Mr. Glenn Jack in connection with

a condemnation for acquisition of right of way from a Mr. Sprauer on the Hayesville Junction-Wilsonville Junction Section of the Portland-Salem Expressway (File L 2065) was discussed. The Chief Counsel stated that Mr. Jack alleges that he was retained by the owners of the property as their attorney to represent them in the condemnation action. Negotiations were continued by the right of way agent, an acceptable option was secured, and a deed executed but through misunderstanding the transaction was not handled through Mr. Jack's office. It appears that Mr. Jack did considerable work in the case, and that it is considered improper to make a settlement with the defendant direct when the defendant is represented by an attorney, without the approval of the attorney. He recommended that Mr. Jack be paid the sum of $100 as attorney's fees. The Commission approved such payment.

The Chief Counsel brought up the matter of removing the alienation clause usually inserted in complaints and deeds insofar as it pertains to the Sears' property on the Goshen-Divide Section of the Pacific Highway. He explained that the original plan for construction provided for complete restriction of access to the highway except by a frontage road and a 10-foot by 8-foot concrete underpass; also, that the property owners are desirous of securing a larger underpass and in order to obtain the same have agreed to forego the frontage road, and the plans were changed accordingly. He further explained that the attorney for the owners, has protested that the alienation clause which provides the right to use the underpass only so long as both parcels of property severed by the highway are held under common ownership, will severely restrict and handicap future disposition and utilization of the defendants property. He pointed out that if the right of passage through the underpass is reserved only as long as the easterly and westerly parcels are held under common ownership, the defendants will be effectively prevented from selling either of the two parcels. In this case access by means of the underpass will be needed for service of the westerly parcel regardless of who owns it, unless the owner can purchase a way out of the landlocked parcel. He recommended that the alienation clause be eliminated. The Commission accepted the recommendation.

The matter of providing snow removal insurance on the gorge section of the Columbia River Highway for the protection of the O. W. R. &N. R. R. was reported by the Chief Counsel who stated that no reduction in premium has been secured as yet but a one-year policy has been negotiated at the prior rate of $800 a year. He expressed hope that further negotiations will result in a premium reduction of at least $100. The Commission accepted the report.

A request made by Pacific Greyhound Lines for the vacation of a portion of S. W. Sheridan Street between S. W. Front Avenue and S. W. Water Avenue in Portland was presented by the Chief Counsel. He advised that such vacation is necessary in order to facilitate the Company's operations because a portion of the street abuts upon S. W. Front Avenue which is a state highway route. Upon his favorable recommendation, the Commission approved the vacation of the street as requested.

The Deputy Highway Engineer presented a proposed agreement with The California-Oregon Power Company for moving a 1000' section of the Company's power line on the Booth Ranch Unit of the Shady-Canyonville Section of the Pacific Highway in Douglas County. He explained that in reconstructing this section of highway it will be necessary to acquire private property on which are located poles and other facilities owned by the Power Company, and that the agreement provides that the Power Company shall reestablish its facilities and that the State shall reimburse the Company for the cost thereof; moreover, the Power Company shall be reimbursed for expenditures for future changes, if such are required. Upon his favorable recommendation, the Commission approved the agreement as prepared.

The Engineer reported that under authority granted by law and pursuant to instructions from the Commission, he has awarded to the successful bidders contracts, as follows, referred to him by the Commission for awarding when certain conditions have been met: The Commission accepted the report.

1. Grading and surfacing on East Unit, Van-Drewsey Section of Van-Drewsey County Road, Harney County. Bids received August 9, 1954. Conditions of award satisfied August 16, 1954. J. M. Arenz, Portland, contractor.

2. Grading, surfacing and paving 0.94 mile of roadway and construction of reinforced concrete bridge on Beals Corner-Dougherty Corner Section of Woodworth Road in Hood River County. Bids received August 10, 1954. Conditions of award satisfied August 16, 1954. Whittenburg Construction Co. & Q. L. Rufener, Beaverton, contractor.

3. Construction of Cameron Bridge over Applegate River on Applegate Road, Jackson County. Bids received August 10, 1954. Conditions of award satisfied August 16, 1954. Lowe & Beeson, Talent, contractor.

4. Construction of Hilton Bridge over Bear Creek on Table Rock Road, Jackson County. Bids received August 10, 1954. Conditions of award satisfied August 16, 1954. Tom Lillebo, Reedsport, contractor.

5. Construction of Coos City Bridge over Isthmus Slough on Coos City-Summer Road, Coos County. Bids received August 10, 1954. Conditions of award satisfied August 19, 1954. Tom Lillebo, Reedsport, contractor.

6. Construction of reinforced concrete bridge over Scappoose Creek on Pittsburg-Scappoose Road, Columbia County. Bids received August 10, 1954. Conditions of award satisfied August 26, 1954. Archie R. Averill, Portland, contractor.

7. Grading and oiling on Mission-Cayuse Section of Adams-Mission County Road, Umatilla County. Bids received August 9, 1954. Conditions of award satisfied September 15, 1954. K. C. Dack Construction Co., Milton-Freewater, contractor.

8. Stone surfacing Middle Unit, Spray-Waterman Section of Spray-Waterman County Road, Wheeler County. Bids received August 10, 1954. Conditions of award satisfied September 21, 1954. C. & W. Crushing Company, Seaside, contractor.

9. Grading, construction of a concrete bridge, and fencing on Olds Ferry-Ontario Section of Old Oregon Trail, Malheur County. Bids received August 9, 1954. Conditions of award satisfied September 22, 1954. Earl L. McNutt, Eugene, contractor.

The Engineer asked the Commission to confirm telephonic approval permitting the truck hauling of logs on Armistice Day, November 11, 1954. He recalled that the request for such privilege was made by the logging industry in order to replenish the depleted stockpile of logs which resulted from a logging industry strike during the past summer. The Commission granted the request isofar as it pertains to Armistice Day 1954, only.

The Engineer presented a written report on the cost to construct a proposed revision of The Dalles-California Highway southerly from The Dalles to a connection with the existing highway near Eight Mile Creek, as urged by the Wasco County Court. The Commission accepted the report, but took no action on it.

A report was submitted by the Engineer on the results of a reconnaisance survey of the Beech Creek-Luce School Section of the Pendleton-John Day Highway, Grant County. The Engineer explained that the southern end of the existing highway has never been constructed, in fact it has not yet been surveyed, although it has always been understood that the highway would terminate near the town of John Day rather than in Mt. Vernon where it now connects with the John Day Highway via the Beech Creek Secondary Highway. He exhibited a map showing alternate routes investigated and explained the advantages and disadvantages of each. He recommended adoption of the route that extends southerly from the confluence of Beech Creek and Little Beech Creek to a connection with the John Day Highway at a point near Luce School, about three miles west of John Day town. In the discussion that followed, the question arose whether or not the route already has been established inasmuch as highway maps so indicate. The Commission ordered the records searched in that regard. The Engineer was authorized to conduct a survey to determine the proper location of the proposed highway and the cost to construct the same so such information will be available when the programming of future construction monies is considered.

A request from Mr. and Mrs. Robert Woodley of Mitchell, for a change in the classification of their access, from private access to commercial access,as an accommodation to their motel on the Jones Ranch-Mitchell Section of the Ochoco Highway, was presented by the Engineer. The Engineer advised that an investigation disclosed that the Woodleys in May, 1954, conferred with highway department personnel in the Bend Di-

vision Office and with the Maintenance Superintendent at Redmond, and were informed by the latter through a misunderstanding that there were no access restrictions at this point so they proceeded with construction of the motel on such basis, and now find themselves without access. The actual access control on this section, he stated, is spotty. He gave as his opinion that the Woodleys acted in good faith and that they should be granted the right of access for the use of the existing motel only. The Commission discussed the matter briefly but deferred action pending appearance of the Woodleys on the following day. (The Commission on the following day granted the Woodley's commercial right of access to serve their existing motel only, but for no other commercial purpose. See additional entry ahead.)

The Commission accepted the Engineer's written report concerning the effectiveness of illumination at intersections. The Engineer commented that in general, illumination of intersections has been of considerable benefit in the elimination of night time accidents, due principally to the fact, first, that vehicles on side roads are more visible to drivers on the highway, and secondly, those drivers who wish to turn off the highway are able to do so at a more reasonable speed because the path they wish to travel is clearly shown. (For details see a copy of the Engineer's letter of September 8, 1954 in General Files.)

Consideration was given to a plan for facilitating traffic movements on the Beaverton-Hillsdale Highway between Barbur Boulevard and Hillsdale. The Engineer outlined a plan which involves construction of a four-lane highway between these points, the revision of connections between Terwilliger Boulevard and Slavin Road, construction of an overcrossing over Barbur Boulevard for inbound traffic from Slavin Road, and a third lane on the easterly side of Barbur Boulevard from Slavin Road Junction to Harbor Drive. The total cost of this project he estimated at $372,000. He pointed out that funds have been provided in the 1956 Federal-aid Secondary Program to finance the widening of the Beaverton-Hillsdale Highway from the Washington County line to Hillsdale. He recommended that this project be considered in the formulation of future programs. The recommendation was accepted by the Commission.

A request from the City of Portland for immediate widening of Barbur Boulevard from Front Avenue to Hamilton Street was discussed. The Engineer explained that the City's request was made to accommodate the anticipated increase in traffic volume when the new Portland-Salem Expressway is completed and opened for public use. The cost he estimated at $12,000 and he recommended performance of the work immediately by contract. The Commission approved the recommendation.

The Engineer reported that under authority granted him by the Commission on August 6, 1953, a 50 per cent load limit was placed on the Siletz Secondary Highway from M.P. 5.55 (end of the oiled section east of Kernville) to M.P. 7.6, effective at 8:00 a.m., September 10, 1954, because recent rains caused a soft, muddy condition on the newly constructed subgrade on which rock surfacing has not yet been placed. The conditions that necessitated the reduced load limit, he said, ceased to exist as of September 20,

1954, and the reduced limit was then removed. The Commission accepted the report.

The Engineer reported that on September 21, 1954, under authority previously granted him by the Commission, he reclassified from the status of a Group II Highway to a Group I Highway the following state highway sections:

1. Entire length of the Sams Valley Secondary Highway, No. 271 in Jackson County.

2. Entire length of the Havana-Helix Secondary Highway, No. 335, in Umatilla County.

These changes, he stated, were based on test runs which showed that the vehicles involved could negotiate the curves without encroaching on the opposing traffic lane. The Commission approved such reclassification.

The Commission gave attention to the following items of unfinished business as they appear on the Secretary's summary dated August 10, 1954:

1. Request of the U. S. Army Engineers that the State take over and develop recreational facilities at the Detroit Lake on the North Santiam Secondary Highway: The Commission ordered this item deleted from the list of unfinished business as a report on the subject was presented for the Parks Superintendent and approved by the Commission earlier in the day.

2. Report concerning possible lakeside development throughout the state: The Assistant Parks Superintendent stated that data for this report is not yet complete. The Commission ordered the item retained on the list of unfinished business.

3. Request for development of a state park in the Baker Bay area on Dorena Reservoir on the Row River in Lane County: The Assistant Parks Superintendent stated that the report on this subject is not yet complete. The item is to remain on the list of unfinished business.

4. Adoption of a survey for the Adams Street Section of the Pacific Highway West in McMinnville and for other highway improvements in the vicinity of McMinnville, Dayton and Amity: The Engineer recommended adoption of the one-way couplet routing through McMinnville, using Adams Street for southbound traffic and Baker Street for northbound traffic, and that right of way be purchased for same. He also recommended three-stage construction of the couplet and the proposed Dayton-McMinnville By-Pass route. (For details see copy of the Engineer's written report on the subject dated August 27, 1954.) The Commission deferred action on the matter until the October meeting due to the absence of Commissioner McIver. The item is to remain on the list of unfinished business.

5. Proposed abandonment of a section of the Oregon Coast Highway (old route) between Miroco Beach and Otter Rock: The Engineer stated that his report will not be ready to present to the Commission until the October meeting. The Commission ordered the item retained on the list of unfinished business.

6 Request for establishment of a state park on Coffenbury Lake near Fort Stevens in Clatsop County: This item is to be removed from the list of unfinished business as the report on the subject was presented and approved by the Commission earlier in the day.

7. Request for improvement of the Alsea Highway over Alsea Mountain: Data for this report, the Engineer stated, is not yet complete. The Commission ordered the item retained on the list of unfinished business.

8 Request of Mr C. C Wilson for access to the Columbia River Highway near the Maryhill Ferry Road: The Chief Counsel reported that Mr Wilson's property lies within the platted section of the old townsite of Grant, and that the intersecting streets can be closed legally only by order of the County Court. It was his thought that the County Court would not agree to such closure unless Mr. Wilson concurred. Mr. Wilson, he stated, wants points of access at two places on a frontage road. He recommended that Mr. Wilson be granted such two points of access on a frontage road to be constructed at his own expense if the Sherman County Court will agree to closure of the remaining dedicated streets. The Commission accepted the recommendation and ordered the item deleted from the list of unfinished business.

9. Request from the City of Ashland for designation of a one-way couplet for state highway traffic in Ashland: The Engineer stated that his report on this subject is not yet ready, but he will endeavor to complete it for consideration by the Commission at the October meeting. The Commission ordered this item retained on the list of unfinished business.

The meeting recessed at 12:00 noon and reconvened at 2:00 p.m. with the same persons present and participating.

Chairman Chandler stated that a number of people in the 53rd Avenue area near the Banfield Expressway in Portland are preparing petitions protesting isolation of their places of business at this location. It appears that their needs can be satisfied by construction of a temporary foot bridge. The Commission instructed the Engineer to proceed with the construction of such a foot bridge and to do other things as are necessary to satisfy the petitioners if the cost involved is nominal.

The Engineer requested authority for increases in project authorizations as follows: (1) $73,000 in connection with Contract No. 3957 for construction of the Barbur Boulevard-Boones Ferry Road Unit of Portland-Salem Expressway in Multnomah County; (2) $174,000 in connection with Contract No. 3805 for grading and paving the Depoe Bay-Miner Creek Unit of Siletz Bay-Miner Creek Section of Oregon Coast Highway in Lincoln County. He explained details. As a result of discussion, the Commission approved both increases as requested.

The Engineer reported that pursuant to the direction of the Commission, the approval of the Bureau of Public Roads and Columbia County having been received, and the sum of $3,500 having been deposited by Columbia County, he awarded the contract for construction of the North Scappoose Creek Bridge in Columbia County to Mr. Archie R. Averill on August 26, 1954, at his bid of $15,750. Mr. Averill, he said, contends that a mistake was made in his bid, submitted August 10, 1954, and that his bid was withdrawn subsequent to the time when the Commission elected to accept his bid, but prior to the time when the contract was awarded. Mr. Averill, therefore, refused to execute the contract, and on September 3, 1954, returned the contract forms to the Highway Department. After considering the matter, and based upon the recommendations of the Engineer and of the Chief Counsel, the Commission declared Archie R. Averill in default and ordered his proposal bond be forfeited to the State of Oregon. The Commission directed the Chief Counsel to take such action as may be necessary to collect on the proposal bond. The Engineer was authorized to readvertise the project for bids when approval of the County Court has been received.

The Commission discussed a petition from taxpayers and users of the Sumpter State Secondary Highway, Baker County, requesting improvement and oiling of the unoiled portion of this road. The Engineer advised that there is a 15-mile section between Salisbury and Sumpter that is in an unoiled status. He pointed out that the section was recently resurfaced with crushed gravel so a fairly satisfactory riding surface has been provided, but the road will be somewhat dusty during the dry season. A traffic count, he said, reveals a daily traffic volume of approximately 200 vehicles which is quite large for an unoiled road. He further stated that the oiling of this section is desirable as soon as funds become available to finance it, but it is rather an expensive undertaking because considerable base course materials will have to be added. Moreover, the existing roadbed will have to be widened involving considerable regrading which is exceedingly expensive because a portion of the road is located in the narrow gorge of the Powder River. He estimated the cost to construct a modern standard road with medium-type oil surfacing at about $1,000,000. It was his feeling that the Sumpter Valley Secondary Highway should be given a high priority rating for the allocation of Secondary Highway funds in Baker County, but he further stated that even with such a rating, it will be several years before it could be improved to an oil standard because of the expense involved. He suggested in lieu thereof that a 5-mile section of the road be given a treatment with Calcium Chloride as an experimental proposition, the cost of such treatment being $2,000 per mile. He recommended an expenditure

of about $10,000 for such purpose, the work to be done later this fall, if possible, with State forces. The Commission approved the recommendation.

Upon recommendation of the Engineer, the Commission approved and signed a Modification of Project Agreement between the States of Oregon and Idaho covering construction of the Weiser Bridge over the Snake River, which modification provides for an increase of approximately $7,000 in the Government allocation to Idaho for this work.

The Engineer requested authority to submit to the U.S. Bureau of Public Roads for its approval a proposed urban highway system for the City of Hillsboro which, he said, already has been adopted by the City Council. He explained that construction of the proposed one-way street couplet of the Tualatin Valley Highway in this city is one of the projects included in the 1956 urban federal-aid program, approved by the Commission on August 14, and that before the programming of the project can be completed, the plans must be approved by the Bureau of Public Roads. The Commission approved the request.

The Commission discussed a letter from the Hood River Chamber of Commerce requesting State support in connection with certain projects in the Hood River area, including development of a modern road to supplant the present Mt. Hood Highway, State Route No. 35, particularly the following:

1. Widening of the angle of the east access road into Hood River by filling in so the turn will be less acute than it now is:

The Engineer advised that this matter has been taken care of, the pavement having been widened 20 feet at the apex of the curve on the access to the Second Street overcrossing.

2. Installation of lights at this junction and alongside the access road leading to the overpass:

The Engineer advised that mercury vapor luminaire units are now being installed at the intersection.

3. Installation of a large black and white sign in the area just west of the east access road, similar to the one at Troutdale, bearing the wording, "Hood River, Gateway to Mt. Hood and Lost Lake":

The Engineer recalled that it is contrary to the policy of the Commission to maintain such signs on the highway, and he recommended that the request be denied. The Commission adopted the recommendation.

4. Attractive landscaping of the area around the sign board mentioned in Item No. 3:

The Engineer advised that adequate landscaping has been provided

in the program for the entire Second Street interchange and that bids probably will be called for the work in the near future. The Commission accepted the report.

5. Request for filling the low area between the highway and the railroad tracks north of the fruit shipper's building, west of the Second Street entrance into Hood River, together with surfacing and landscaping work to assist the community in its efforts to clean up and beautify its own attractive spots:

The Engineer estimated that such work will cost in excess of $10,000. He added that an investigation reveals the improvement will be of no benefit to highway traffic, and he recommended that the request be denied. The Commission adopted the recommendation.

6. Development of a park and recreational area around Koberg's Beach with suitable access roads:

The Engineer pointed out that the Commission discussed this matter on several occasions in the past and consistently refused to approve such development. The Commission affirmed its previous decision in this matter.

7. Development of the Mt. Hood Highway, State Route 35, into a modern all year around highway:

The Engineer pointed out that there are no funds currently available to finance the modernization of this highway. The Commission decided not to make a commitment concerning this project at the present time.

A request was presented from Mr. Duane R. Alters, Editor and Publisher of the Nyssa Gate City Journal, for installation of a traffic signal at the intersection of Main Avenue (US 26) and First Street in the city of Nyssa. The Engineer advised that this request has been investigated, and it has been found that the conditions prevailing do not meet the standard warrant for signalization. He recommended that the request be denied. The Commission approved the recommendation.

The Engineer reported completion of location surveys for the following state highway sections:

1. Tillamook-Donaldson Creek Section of the Wilson River Highway in Tillamook County;

2. Weston-Weston Mountain Section of Weston-Elgin Highway in Umatilla County.

He exhibited maps showing the proposed locations and explained details. He recommended adoption of the surveys by the Commission. As a result of discussion, the Commission approved and adopted the said surveys as

recommended. The attached resolutions relative thereto, marked EXHIBITS "H-1" and "H-2", which resolutions by this reference are made a part hereof with like effect as though extended in full herein, were thereupon adopted by the Commission.

A request from the Engineer for authority to reimburse Rogers Construction Company, contractors for construction of the Big Eddy-Rufus Section of US 30, for the cost of liability insurance which they were required to purchase in order to protect the Union Pacific Railroad Company had the attention of the Commission. The Engineer explained that the specifications covering this improvement did not require the contractor to furnish such liability insurance to the Railroad Company for the use of private crossings, but after the contract was awarded the Railroad Company would not permit the contractor to haul across these private crossings unless it was protected by insurance in the amount of $100,000/$500,000. Due to the urgency of the work upon which the contractor was engaged, instructions were given the contractor to obtain the insurance at state expense. He recommended that the contractor be reimbursed in the amount of $1,330.32 which was the cost of the insurance. The Commission approved the recommendation.

The Commission considered and upon recommendation of the Engineer denied a request from Mr. Earl Johnson, Hebo, for construction of a cattle pass under the Oregon Coast Highway north of Hebo, Tillamook. The Engineer stated that the matter would be taken care of by removal of brush and some trees in order to increase the sight distance at the point of crossing, and by installation of advance warning signs, reading "Cattle Crossing".

The Commission also considered and denied a request from Bandon Grange No. 702 for construction of two cattle passes across the Oregon Coast Highway south of Riverton, one to serve the Panter ranch and the other to serve the ranch of Fred Sell. The Engineer advised that the cattle passes will cost about $2,500 each and that neither cattle pass is warranted in view of the fact that sight distance along the highway at each point of crossing is sufficiently long to avoid accidents.

The Commission discussed and approved an agreement with the U.S. Bureau of Public Roads covering snow removal operations on Oregon Forest Highway Project 46-C4, D3, E2, Cascade Lakes Forest Highway, it being understood that the operations are to be conducted by State forces and that the State will be reimbursed in full by the Federal Government for such expense.

Presented for the Commission's approval was a proposed agreement with the Oregon-Washington Railroad & Navigation Company and the Union Pacific Railroad Company covering installation of automatic electric signals at the railroad crossing of the Baker-Pine Creek-Wingville Road, near the city of Baker, Baker County. The Engineer explained that the installation was demanded by the Bureau of Public Roads and it was expected that the Railroad Company would pay at least fifty percent of the cost involved. However, in a hearing before the Public Utilities Commissioner, the Railroad Company denied any need for the signal, so the Public Utilities Com-

missioner ordered the expense of the installation paid entirely with State funds. The Commission approved the agreement.

The Commission, upon a fovorable recommendation from the Engineer approved an agreement with the Oregon-Washington Railroad and Navigation Company (Union Pacific Railroad Company, Lessee) concerning the installation of drainage facilities across the Railroad right of way a short distance westerly from the overcrossing on the revised location of the Columbia River Highway near the west limits of Hood River.

The Engineer reported that the Federal Aid Act of 1954 includes a provision whereby "the Secretary of Commerce may, upon request of any state, discharge his responsibility relative to the plans, specifications, estimates, surveys, contract awards, design, inspection, and construction of secondary road projects by his receiving and approving a certified statement by the State Highway Department setting forth that the plans, design, and construction for such projects are in accord with the standards and procedures of such state applicable to projects in this categpry approved by him". He explained briefly that this provision means that upon request and without approval of the Secretary of Commerce a state will be relieved of the control which the Bureau of Public Roads has exercised heretofore over the planning and construction of secondary highway projects, but the Bureau will continue to pass upon the programs, although from then on control of the projects will rest entirely with the State. The Bureau of Public Roads, he said, favors the discharge of its responsibility in the manner authorized by this provision, and will promptly accept and approve requests from the states for such discharge. The Engineer added that Oregon has experienced very little difficulty in the handling of secondary projects under the control that the Bureau has exercised during past years, but in his estimation the transfer of the responsibilities as mentioned very likely will simplify procedures and will effect some savings in time and cost. He recommended, therefore, that the revised plan of operation with respect to secondary highways be requested for the State of Oregon, and that he be authorized to sign such a request in behalf of the Commission on forms which the Bureau of Public Roads has provided for the purpose. The Commission approved the recommendation.

The Commission considered and by affirmative vote granted the following requests for extensions of time within which to complete highway contracts, the Commission's action in each instance being in conformity with the Engineer's recommendation:

1. R. & M. Construction Company, Contract No. 3820, for construction of Elkton-Sutherlin Highway Overcrossing & Deady Interchange on the Pacific Highway in Douglas County, requested an extension of time from October 31, 1953 to August 31, 1954 in which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

2. Modern Materials Company, Contract No. 4141, for construction of Salem Maintenance Building in Marion County, requested an extension of time from July 31, 1954 to August 31, 1954 in which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

3. E. H. Itschner Company, Contract No. 4110, for rock production on the Canyon City-Seneca Section of the John Day- Burns Highway in

Grant County, requested an extension of time from July 31, 1954 to September 15, 1954 in which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

4. Keith Bros., Construction, Contract No. 3959, for grading and oil mat surfacing on the China Camp Marsh Section of the Oregon Coast Highway in Coos County, requested an additional extension of time from July 31, 1954 to September 15, 1954 in which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

5. Arthur Simonsen, Contract No. 4105, for rock production on the Meacham Section of the Old Oregon Trail in Umatilla and Union Counties requested an extension of time from August 31, 1954 to October 31, 1954 in which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

6. Cascade Construction Company, Contract No. 4143, for paving on the N. W. Vaughn Street-W. Burnside Street (Portland) on the Columbia River Highway in Multnomah County, requested an extension of time from August 31, 1954 to September 17, 1954 in which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

7. H. G. Palmberg, Contract No. 3965, for construction of the Nehalem Draw Bridge Approach Replacement on the Oregon Coast Highway in Tillamook County, requested an extension of time from February 28, 1954 to August 12, 1954 in which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

8. Hannan Brothers, Contract No. 3883, for construction of Elkhead Road Overcrossing and Plasant Valley School Undercrossing on the Pacific Highway in Douglas County, requested an extension of time from April 30, 1954 to August 15, 1954 in which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

9. Glenn Snook, Contract No. 3905, for construction of four structures on the Elkhead Road-Rice Hill Unit of the Divide-Rice Hill Section on the Pacific Highway in Douglas County, requested an additional extension of time from July 30, 1954 to August 29, 1954 in which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

10. Johnston and Bryant, Contract No. 4051 for construction of the Glenwood-North Plains Structures on the Wilson River Highway in Washington County requested an extension of time from August 31, 1954 to September 30, 1954 in which to complete this work. The Engineer re-

commended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

11. Gilbert Roberts, Contract No. 4008, for reconstruction of Columbia River Bridge Approach on the Interstate Bridge County Road in Hood River County, requested an extension of time from April 30, 1954 to August 18, 1954 in which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

12. Carl H. Halvorson, Inc., Contract No. 3817, for construction of Bullards Ferry Bridge over the Coquille River in Coos County, requested an extension of time from June 30, 1954 to September 30, 1954 in which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

13. United Builders, Inc., Contract No. 3851 for construction of 92nd Avenue Overcrossing on the T. H. Banfield Expressway in Multnomah County requested an additional extension of time from July 31, 1954 to September 15, 1954 in which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

14. Carl M. Halvorson, Inc., Contract No. 3878 for construction of the Cereghino Overcrossing on the T. H. Banfield Expressway in Multnomah County, requested an additional extension of time from May 31, 1954 to September 1, 1954 in which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

15. F. O. Laws, Contract No. 4048, for grading on the Interstate Bridge Approach Unit of the Hood River-Mosier Section of the Columbia River Highway in Hood River County, requested an additional extension of time from July 30, 1954 to August 27, 1954 in which to complete this work. The Engineer recommended that the extension of time be granted with the understanding that all engineering costs incurred from June 30 until the actual completion date shall be assessed against this contractpr.

16. Inter City Sand and Gravel Company, Contract No. 3839 for grading and paving on the Springfield Section of the McKenzie Highway in Lane County, requested an additional extension of time from June 15, 1954 to July 30, 1954 in which to complete this work. The Engineer recommended that the extension of time be granted with engineering penalty to be assessed from September 30, 1953 to July 30, 1954. A letter was presented from the Bureau of Public Roads concurring therein.

17. Fred H. Slate Co. & E. C. Hall Co., Contract No. 3882, for grading the Brush Creek-Rinehart Creek Unit, Rocky Point-Gold Beach Section of the Oregon Coast Highway in Curry County, requested an extension of time from June 30, 1954 to August 16, 1954 in which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

18. Roy L. Houck and Son, Contract No. 3680 for grading the Hayesville School-State Street Unit, Salem By-Pass Section on the Pacific Highway East in Marion County, requested an additional extension of time from June 30, 1954 to August 10, 1954 in which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein

19. Baker Paving Company, Contract No. 4257 for shoulder oiling on the Hauser-Coos Bay Section of the Oregon Coast Highway in Coos County, requested an extension of time from September 15, 1954 to September 30, 1954 in which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

20. Henry R. Staats, Contract No. 4111 for the Trail-Cascade Gorge Aerial Survey on the Crater Lake Highway in Jackson County, requested an additional extension of time from August 31, 1954 to September 30, 1954 in which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

21. Jed Wilson, Contract No. 4122 for rock production on the Blodgett Section of the Corvallis-Newport and Eddyville-Blodgett Highways in Benton and Lincoln Counties, requested an additional extension of time from August 30, 1954 to September 30, 1954 in which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty

22. W. G. Wright, Contract No. 4150, for grading and paving on the Carlton (West Main Street) City Street Section in Yamhill County, requested an extension of time from August 31, 1954 to September 30, 1954 in which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

23. White Brothers Company, Contract No. 3876, for grading on the Deady-Winchester Unit, Deady-Shady Section of the Pacific Highway in Douglas County, requested an extension of time from May 31, 1954 to August 14, 1954 in which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty. A letter was presented from the Bureau of Public Roads concurring therein.

24. J. C. Compton Company, Contract No. 4205, for oiling on the Mill Gulch-Salisbury Section on the Baker-Unity Highway in Baker County,

requested an extension of time from August 31, 1954 to September 15, 1954 in which to complete this work. The Engineer recommended that the extension of time as requested be granted without penalty.

(For further details regarding the extensions of time listed above, see copies of the contractors' requests and the Engineer's recommendations on file in the respective contracts in the Secretary's office.) *

---

* FOOTNOTE: The action taken by the State Highway Commission upon the extensions of time within which to complete highway contracts listed above was based upon the recommendation of the State Highway Engineer and his reports which considered but did not necessarily adopt either or any of the reasons given by the contractors in their requests for such extensions of time.

The Engineer brought up for discussion objections offered by the Inter City Sand and Gravel Company to the payment of the penalty assessed against it for overrunning the time limit specified in Contract No. 3839 for completion of the Springfield Grading and Paving Project, Lane County. He recalled that the bids for this project were received on November 24, 1952, but due to right of way difficulties and the consummation of arrangement with the Southern Pacific Company, which was concerned, the contract was not awarded until January 13, 1953, a fifty day delay. He pointed out that the specifications provide that if more than twenty days elapse between the receiving of bids and the award of the contract, consideration is to be given to extending the time limit for completion of the project, without penalty, beyond such twenty day period. The actual delay in this instance, he said, was fifty days, so the contractor is entitled to a thirty day time limit extension without penalty. He recommended, therefore, that the time limit for completing this job be extended without penalty from August 31, 1953 to September 30, 1953, a total of thirty days, but that the contractor be charged with the excess engineering costs incurred subsequent to September 30, 1953, amounting to $1,255.55. The Commission adopted the recommendation and so ordered. The Commission also ordered that the contractor be informed of the action taken, and told that they will be given an opportunity to express their objections personally to the Commission at its next meeting, if they are dissatisfied with the decision.

The Engineer reported that Contracts Nos. 3648, 3680, 3817, 3820, 3836, 3839, 3844, 3851, 3878, 3882, 3883, 3884, 3905, 3922, 3959, 3965, 3981, 4004, 4008, 4015, 4031, 4046, 4048, 4052, 4068, 4077, 4082, 4093, 4095, 4120, 4125, 4132, 4134, 4135, 4136, 4137, 4141, 4147, 4151, 4158, 4188, 4193, 4194, 4202, 4205, 4208, 4217, 4228, 4229, 4231, and 4234 for construction of State Highway projects have been completed according to the requirements of the contracts or modifications thereof, and said projects are now ready for acceptance. After due consideration, the Commission accepted said contracts by adoption of the attached resolution relative

thereto, marked EXHIBIT "B", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Engineer reported that the towns of Amity, Dayton, Gates and Merrill have satisfied the legal requirements with respect to the expenditure of State Tax Street Funds that accrued to them during the second six-month period of 1953 and were distributed for expenditure during the first six-month period of 1954; also that the towns of Bay City, Falls City and Mount Vernon and the city of Corvallis have satisfied the legal requirements with respect to State Tax Street Funds that accrued to them during the first six-month period of 1954 and were distributed for expenditure during the second six-month period of 1954. He further advised that the plans of the projects proposed to be financed with the funds in each instance have been examined and found satisfactory. He recommended approval of the plans by the Commission. The Commission approved the plans by adoption of the attached resolution relative thereto, marked EXHIBIT "C", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

The Commission discussed, approved and signed a letter dated September 17, 1954, directed to Mr. C. G. Polk, District Engineer, Bureau of Public Roads, requesting approval of a proposed Federal-aid urban system for the city of Klamath Falls. In the discussion, the Engineer explained that approval of the Bureau of Public Roads is necessary in order to finance the 6th Street viaduct in Klamath Falls as a Federal-aid project; also, that certain changes in the Federal-aid primary system are required in the city area in order to properly coordinate the primary and urban systems. He exhibited a map showing the changes and advised that approval of the changes is requested in the above-mentioned letter to Mr. Polk. The changes were approved by the Commission.

(For details see copy of above-mentioned letter to Mr. Polk, with attached map, in General Files.)

The Commission discussed and approved the Engineer's recommendation with respect to speed zone designations as follows:

(1.) Request for establishment of a 40 mile per hour speed zone on the Pacific Highway from a point 300 feet north of the Southern Pacific Railroad Underpass near the north city limits of Ashland to the north city limits of this city; also, request for establishment of a 45 mile per hour speed zone on the Pacific Highway between the end of the existing 45 mile per hour speed zone at M.P. 312.76 and the north city limits of the town of Phoenix (M.P. 315.23): The Engineer advised that the State Speed Control Board recently established speed zones within the city limits of both cities, and that in order to carry the zoning to logical termination points, the restriction should be extended as requested, and he so recommended. The Commission approved the recommendation by adoption of the attached resolution relative thereto, marked EXHIBIT "E-1", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

(2.) Request for establishment of a 40 mile per hour speed zone on the Culver Secondary Highway through the town of Culver, Jefferson County: The Engineer advised that the State Speed Control Board has established a 40 mile per hour speed zone on the westerly half of this highway through the city, where the easterly city limits coincides with the center line of the highway. In order to make such zoning effective, he said, it will be necessary for the Commission to designate a like speed limit for the easterly one-half portion of the highway, and he so recommended. The recommendation was approved by the Commission by adoption of the attached resolution relative thereto, marked EXHIBIT "E-2", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

(3.) Request of the Administrator of the Central Oregon District Hospital, Redmond, for- (1.) An extension of th existing 35 mile per hour speed zone on US 97 north of the city of Remond and (2.) Restriction of the passing maneuvers of northbound vehicles by use of a white barrier line: The Engineer recommended that the request for the barrier line be denied because in his estimation that problem can be solved through placement of appropriate signs. He further recommended the designation of a 45 mile per hour speed zone northerly from the city limits of Redmond (M.P. 122.32) to a point 0.20 mile north of Conlon Road, which leads to the Hospital. The Commission approved the Engineer's recommendations, and thereupon adopted the attached resolution designating a 45 mile per speed zone as described by the Engineer, marked EXHIBIT "E-3", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

(4.) Request for designation of a 40 mile per speed zone on the Pacific Highway East (US99E) through the City of Woodburn: The Engineer advised that by actions of the State Speed Control Board and the Highway Commission in 1950, a 35 mile per hour speed zone was designated on the Pacific Highway between M.P. 33.90 (north city limits of Woodburn) and M.P. 34.67 (south city limits of Woodburn). Recently, he said, the State Speed Control Board has taken action raising the 35 mile per hour limit to 40 miles per hour, so it now is necessary for the Highway Commission to take similar action because the city limit coincides with the center line of the highway through a portion of the section, the westerly half being within the city limits, and the easterly half outside of the city. He recommended that speed zone resolution No. 39 adopted by the Commission on July 11, 1950 establishing the 35 mile per hour speed zone be rescinded, and in lieu thereof, that the Commission adopt another resolution establishing a 40 mile per hour speed zone along the portion that is under the jurisdiction of the Commission between the north city limits of Woodburn (M.P. 33.90) and a point 0.14 mile north of Young Street (M.P. 34.43). He further recommended that such 40 mile per hour speed zone be extended northerly from the north city limits of Woodburn a distance of 0.14 mile to M.P. 33.76, and that it be extended southerly from the south city limits of Woodburn, (M.P. 34.67), a distance of 0.16 mile to M.P. 34.83. The Commission approved the Engineer's recommendations by adopting the attached resolution relative thereto, marked EXHIBIT "E-4", which resolution by this re-

ference is made a part hereof with like effect as though extended in full herein.

(5.) Request for establishment of a reduced speed zone on the Pacific Highway West (US 99W) through the community of Tigard, and for a similar speed zone designation on the Pacific Highway West through the community of Six Corners: Concerning the requested speed zone through the community of Tigard, the Engineer recalled that a former Highway Commission on November 17, 1941, by appropriate resolution, established a speed zone of 35 miles per hour. A recent investigation, he said, indicates the need for a revision of the existing zone. He recommended that the action taken by the former Commission on November 17, 1941, Resolution No. 1A, establishing the 35 mile per hour zone be rescinded in its entirety and that the following speed zones be substituted therefor:

1. 40 mile per hour extending from a point 250 feet north of Lacey Avenue (M.P. 9.48) to 250 feet south of Park Avenue (M.P. 10.78).

2. 50 miles per hour from a point 250 feet south of Park Avenue (M.P. 10.78) to a point 50 feet south of Gaarde Avenue (M.P. 11.28) except that between a point 500 feet north of Main Street and a point 500 feet south of Main Street, and between a point 150 feet south of Fanno Creek and a point 200 feet south of McKenzie Avenue, the indicated speed shall be 20 miles per hour during the hours of school crossings.

With respect to the proposed speed zone designation through the community of Six Corners, the Engineer recommended that a limit of 40 miles per hour be established from a point 0.15 mile north of Six Corners intersection (M.P. 15.89) to a point 0.15 mile south of this intersection (M.P. 16.19). The Commission approved the Engineer's recommendation with respect to each of the locations under discussion by adoption of the attached resolution relative thereto, marked EXHIBIT "E-5", which resolution by this reference is made a part hereof with like effect as though extended in full herein.

(6.) Request for establishment of certain speed zones on the Corvallis-Newport Highway and on the Alsea Highway in the vicinity of Philomath, Benton County: The Engineer advised that the State Speed Control Board recently took action establishing a speed zone on the Corvallis-Newport Highway within the city of Philomath, and in order to carry such speed zoning to a logical termination points similar zones should be established on both the Corvallis-Newport Highway and the Alsea Highway west of Philomath. During the investigation, he said, it was found desirable not only to restrict the speed of vehicles but also to prohibit shoulder parking of vehicles at certain points. He recommended the following:

On US 20, Highway No. 33, the Corvallis-Newport Highway:

1. Establish a 45 mile per hour speed from a point 450 feet

west of Alsea Highway junction (M. P. 50.91) to the west city limits of Philomath (M. P. 51.38).

2. Prohibit shoulder parking from the west leg of the Alsea Highway junction (M. P. 50.96), Engineer's Station 255+93, to the west city limits of Philomath (M. P. 51.38), Engineer's Station 278+64.

On ORE 34, Highway No. 27, the Alsea Highway:

1. Establish a 45 mile per hour speed zone from a point 250 feet west of Marys River (M. P. 58.95) to the Corvallis-Newport Highway junction (M. P. 59.11).

2. Prohibit shoulder parking from Marys River (M. P. 59.02), Engineer's Station 1644+21, to the junction of the Corvallis-Newport Highway (M. P. 59.11), Engineer's Station 1648+88.

At the junction of Highway No. 33 and Highway No. 27:

1. Prohibit parking in the island formed by the intersection.

The Commission approved the Engineer's recommendations, and thereupon adopted the attached resolutions relative thereto, marked EXHIBITS "E-6" and "F", which resolutions by this reference are made a part hereof with like effect as though extended in full herein.

Consideration was given by the Commission to the naming of delegates to the annual meeting of the American Association of State Highway Officials which is to be held in Seattle, Washington, during November 8-12, 1954. The following persons were authorized to attend this meeting at State expense, subject to approval by the Department of Finance and Administration. Ben R. Chandler, Chairman of the State Highway Commission; Chas. H. Reynolds and M. K. McIver, Commissioners; R. H. Baldock, State Highway Engineer; W. C. Williams, Deputy Highway Engineer; W. W. Stiffler, Assistant State Highway Engineer; G. S. Paxson, Assistant Highway Engineer in charge of bridges; S. H. Probert, Office Engineer; H. G. Smith, Construction Engineer; E. A. Collier, Maintenance Engineer; G. W. Harra, Materials Engineer; J. W. Cattrall, County and City Relations Engineer; H. B. Glaisyer, Secretary, State Highway Commission; C. H. Maison, Auditor; C. W. Enfield, Chief Counsel; R. L. Porter, Right of Way Engineer; and Les Farnam, Chauffeur.

The Commission also authorized G. S. Paxson, Assistant Highway Engineer in charge of bridges, to go to San Francisco, California, at State expense sometime during the month of October to confer with engineers and contractors relative to a new method of bridge pier construction which has been developed at the Richmond-San Rafael Bridge in San Francisco, estimated cost $60.

The Commission also authorized Roy C. Edgerton of the Bridge Division to attend a meeting of the Surface Drainage Committee of the Highway Research Board at Sacramento during November 17 and 18, 1954, estimated cost $75.

Upon the favorable recommendation of the Engineer, the Commission authorized payment of $133.55 to Mr. F. W. Wagner, Aurora, as settlement in full for damage that occurred to his farm land adjacent to the West Portland-Hubbard Highway caused by the sloughing off of a highway embankment. The Engineer explained that slide material from the embankment covered about one-half acre of Mr. Wagner's farm land and a portion of his fence. He gave as his feeling that the settlement is very reasonable.

A request was presented from Mr. W. G. Jacobs for the return of the $25 that he deposited with the Commission on July 27, 1954 with his bid for the purchase of used equipment Mr. Jacobs alleges that he mistakenly entered his bid on Item No. 71 in which he has no interest whatsoever, whereas he intended to submit an offer on Item No. 72, a Dodge Pick-up truck. The Engineer advised that Mr. Jacobs called at his office and convinced him that the mistake was an honest one. He recommended that Mr. Jacobs be released from his obligation and that his $25 deposit be returned to him. The Commission approved the recommendation, and so ordered.

The Engineer reported receipt of a complaint from the State Board of Health concerning the inadequacy of sanitary facilities to accommodate overnight parking or camping in roadside rest areas. He said that these areas are not planned for overnight use, their main purpose being to provide a safe place off the highway for short stops, and that the increased use of the areas for overnight camping is strictly contrary to the intended purpose. He recommended that the Commission take appropriate action to prohibit such use by adoption of a resolution which he presented for the Commission's consideration. As a result of discussion, the Commission adopted the resolution, a copy of which is attached hereto, marked EXHIBIT "G", which resolution by this reference is made a part hereof with like effect as though extended in full herein. In this connection, the Commission expressed the feeling that appropriate signs should be maintained on the rest areas advising the traveling public that overnight camping is prohibited, and giving the distance to the nearest place where such facilities have been provided.

The Commission discussed and approved a recommendation from the Engineer that some slight alterations be made in the termini of the following state secondary highways:

1. That the present Rome-Princeton Secondary Highway be designated as the Crane-Scotts Butte Secondary Highway No. 442, extending from a junction with the Burns-Crane Primary Highway at Crane southeasterly over ORE 78 to a junction with US 95, about 13 miles west from Rome.

1-a That the present Diamond Valley Secondary Highway No. 441,

extending from Crane to Diamond, be shortened and designated as the Diamond Secondary Highway, extending from the town of Diamond northerly to a junction with the Crane-Scotts Butte Follyfarm Secondary Highway near Princeton.

2. That the present Amity-Dayton Secondary Highway No. 155, which extends northeasterly from its junction with US99W (about one mile north of Amity), be extended, beyond its present northerly terminus at a junction with the Three Mile Lane Secondary Highway No. 152, through Dayton to a junction with US99W at M.P. 30.79 between Dundee and Lafayette.

2-a. That the present Three Mile Lane Secondary Highway No. 152 be shortened accordingly with the above extension and be designated to extend from its present beginning point at Third and Baker Streets in McMinnville to a junction with the Amity-Dayton Secondary Highway No. 155 at M.P. 4.65.

The attached resolutions relative thereto, marked EXHIBIT "I-1" & "I-2" which resolutions by this reference are made a part hereof with like effect as though extended in full were thereupon adopted by the Commission.

The Engineer reported that a new organization, known as the "Keep America Beautiful Inc." made up of 35 national organizations, is taking quite an active interest in the cleaning up of highways of the nation; also that the Portland Chapter of the Oregon Division of the Isaak Walton League of America has started a campaign for the same purpose, theirs being called the "Anti-Litterbug Project". He also said that some of the nation's leading industries and trade organizations are supporting the movement, including Edward J. Finley and George Lewis who operate The Printed Bag Company, Tigard. Mr. Lewis, he said, has designed and patented an inexpensive bag holder to be carried in automobiles for the deposit of litter which accumulates, and he has arranged with the major oil companies for distribution of the same. He mentioned that there is only one drawback to the plan and that is that the oil companies presently object to assuming the obligation to care of the litter bags after they have been filled. It was his opinion that the idea advocated by Mr. Lewis is a good one and he accordingly recommended the purchase and placement of some 200 barrels at various locations along main highways where motorists frequently stop, as a convenience to them in disposing of litter bags that accumulate. The plan, he added, provides for erection of an appropriate sign on the highway approximately one-quarter mile from each depository, reading "One-quarter Mile Deposit Litter Bags". He estimated the cost to purchase and paint 200 barrels and 200 advance signs at $3,000, and the average annual cost to service them at $50 each, or $10,000. He gave as his feeling that the plan should reflect some saving in the cost of the weekly clean-up of highway rights of way. The Commission discussed the matter at some length, and as a result thereof authorized the purchase and installation of a limited number of the barrels and signs as a trial proposition. The Commission indicated that it may authorize installation of additional barrels if the experiment is successful.

The Commission approved the Secretary's Report listing papers signed by him in behalf of the Commission during the period August 3 through September 20, 1954.

The setting of a date for the Commission's next regular meeting was discussed. The Commission decided definitely to hold such meeting on Thursday and Friday, October 28 and 29, 1954. Thursday and Friday, December 2 and 3, 1954 was tentatively scheduled for the next following meeting. The Secretary was instructed to make the usual arrangements to hold these meetings in the Green Room of the Imperial Hotel, Portland.

The Commission considered and, upon the favorable recommendations of the Engineer and Chief Counsel, approved and signed a special use permit agreement with the U. S. Forest Service providing for state occupancy of certain government buildings adjacent to the North Santiam Highway at Detroit, Marion County. According to the agreement, the State is to pay one-half the cost of the electric power used to operate the water pump at Tumble Creek which is the source of the water supply for the buildings.

The Engineer reported a request from the County Court of Douglas County to purchase steel from an old dismantled bridge which is stored on highway property at Canyonville. He recommended sale of this steel to the County at the rate of five cents per pound. The Commission approved the recommendation.

The Engineer reported on the cost to construct what is commonly known as the "Q" Street Route, Eugene, which extends easterly from Ferry Street bridge in the city of Eugene to an intersection with Mill Street in the city of Springfield. He exhibited a map showing the approximate location of the highway and advised that to build this section, which is 3.1 miles in length, will cost approximately $1,027,220, exclusive of an interchange between this highway route and the proposed eventual route of the Pacific Highway, about two miles east of Ferry Street bridge. He recalled the offer of the Lane County Court to assume jurisdiction over the Fox Hollow Secondary Highway, south of Eugene, if the Highway Commission will designate the "Q" Street Route a State Secondary Highway. He recommended adoption of the "Q" Street location as disclosed on the map, and he requested authority to prepare necessary papers to accomplish the objective contained in the County Court's offer. This matter was carefully considered by the Commission and as a result thereof the Commission authorized the preparation of the agreement and submission of the same to the County Court with no commitment whatsoever as to when the "Q" Street Project will be constructed. The Commission indicated, however, that right of way negotiations will be authorized when the agreement has been approved by all concerned. (See additional paragraph ahead covering appearance of the Lane County Delegation which appeared before the Commission on the following day regarding this project. The delegation requested that the "Q" Street route be extended easterly from Mill Street in Springfield to 19th Street, and that the State acquire necessary right of way up to that point, the County to be responsible for the acquisition of right of way easterly from that point to a connection with the existing McKenzie Highway. The Commission in-

structed the Engineer to report at the next meeting the additional cost involved.)

The Engineer reported on a request from the Eugene City Council for a recoonnaissance survey and cost estimate to construct a proposed connecting road and traffic interchange structure southeasterly from River Road near Bauer Lane in the northern part of the city, to Ferry Street, with appropriate interchanges at a number of city streets, a future bridge over the Willamette River and a proposed overpass at Ferry Street. The Engineer recalled that the amount of $700,000 of Urban Federal-aid funds has been set up for construction of a two-lane grade separation on Jefferson Street and a two-lane grade separation on Washington Street to care for a one-way traffic plan to separate the grade of these streets and the railroad in order to bring River Road traffic into Eugene, and to eliminate the present Van Buren Street grade crossing; the Federal-aid funds referred to being known as the 1958 funds which will become available in the fall of 1956. He pointed out that this project is estimated to cost $1,400,000 and that it has been tentatively assumed that the city will pay one-half of this expense, the State's share, therefore, being approximately $700,000. The Engineer further stated that he discussed with the City Council the substitute project now proposed and ascertained that they have in mind to raise the city's share of the cost by special election. The cost to construct the project now proposed, he said, will be considerably more than that previously discussed, and he gave as his feeling that if that plan is adopted, then the City should assume payment of the additional expense. He estimated the cost of a survey at about $2,000, and he advised that the City, in its letter, has stated a willingness to contribute the sum of not more than $1,500 for this purpose. He recommended approval of the City's request for the survey on condition that the City will contribute $1,500 toward the cost of the same, and that the City will not ask the Highway Commission to pay more than $700,000 for construction of such project, being the amount that the Commission has already allocated for the original project, but will pay all of the extra expense with city funds. The Commission adopted the recommendation and ordered that the City be informed of the action taken.

The Engineer presented a written report dated September 21, 1954, of a reconnaissance survey for improvement of the Oregon Coast Highway between Astoria and Seaside. He exhibited a map showing the several routes studied and advised that there are two main routes that seem worthy of consideration, one of which utilizes the present bridge over Youngs Bay and extends southerly therefrom to Seaside, and the other crosses Youngs Bay near Smith Point and the existing highway at a point about one mile east of the City of Warrenton from which point it extends southerly to a connection with the existing highway about three and one-half miles north of Gearhart. He read aloud extracts from the written report giving figures as to cost of the alternate routes and the saving in distance that would accrue from each. The estimated cost to build the first of the above-mentioned routes is $4,513,460; whereas, the cost to build the Smith Point line is estimated at $5,393,800. He stated a preference for improvement of the present route because (1) it would result in an additional cost saving of

$880,340; (2) there would be fewer openings of the drawspan because the location of the crossing is above the Lewis and Clark River, and (3) it would care for the anticipated growth in traffic for the next thirty years; whereas, the Smith Point location will require a wider bridge at Smith Point and possibly an additional bridge on the present highway location within the next twenty year period costing at least $2,660,000, and perhaps as much as $4,300,000. The matter was discussed at considerable length, but adoption of the route was deferred until such time as the local people have had an opportunity to discuss among themselves the facts contained in the Engineer's report. The Commission authorized copies of the report sent to representative groups of the local people.

The Commission discussed, approved and signed an agreement with Tulana Farms, Inc., providing for construction by the corporation of an overhead connecting gallery containing a conveyor belt and a walkway, over and across The Dalles-California Highway south of the town of Worden, Klamath County.

The Commission also discussed, approved and signed an agreement with the City of Klamath Falls providing for channelization and signalization of a one-way couplet on South 6th and 7th Streets in Klamath Falls.

The Engineer reported receipt of a claim for damages from Mr. Kenneth Adams, Elgin, in the amount of $15.75. Mr. Adams, he said, alleges damage to his car by asphalt spray during the operations of a highway department paving crew on the Wallowa Lake Highway about three miles south of Elgin, on August 16, 1954. Investigation, he said, revealed that the claim is a just one, and he recommended payment of the claim. The Commission approved the recommendation.

The Engineer requested authority to improve the alignment of the West Portland-Hubbard Highway at its connection with Pacific Highway East near White School, north of Hubbard. He explained that the curvature of the present connection is too sharp for the traffic that is anticipated when Portland-Salem Expressway traffic is routed over it upon completion of the work that is now under way north of Wilsonville Bridge. He estimated the cost of the improvement at about $7,500. The Commission approved the request.

The Commission discussed with the Engineer the bids received during the morning session for highway construction, and at 4:00 p.m., Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the Commission's decisions being by unanimous vote of the members present:

"Grading and oiling on the Booth Ranch-Myrtle Creek Unit, Shady-Canyonville Section of the Pacific Highway in Douglas County: All bids were rejected. (This matter was reconsidered on the following day because of an error in the estimate that the Engineer furnished the Commission for comparing the bids, and at that time the Commission elected to accept the bid of Kuckenberg Construction Co., Portland, in the sum of $620,567.50. The State Highway

Engineer was directed to award the contract to said bidder when the approval of the Bureau of Public Roads has been received.)

"Construction of Long Creek Maintenance Building on the Pendleton-John Day Highway in Grant County: The Commission awarded the contract to the low bidder, Lloyd G. Sperling, Tillamook, at his bid price of $13,327.20.

"Construction of Lakeview Maintenance Building in Lake County: The Commission awarded the contract to the low bidder, Hampton C. Platt, Salem, at his bid price of $21,400.

"Paving on the Lenz Road-Kirk Road Unit, Mazama Junction-Lobert Section of The Dalles-California Highway about 25 miles south of Chemult in Klamath County: The Commission awarded the contract to the low bidder, Warren Northwest Inc., Portland, at their bid price of $208,205.

"Grading and paving on the Bear Creek Section of the Siuslaw Highway about four miles westerly of Cheshire in Lane County: The Commission elects to accept the bid of Lebanon and Harrisburg Sand & Gravel Company, Harrisburg, in the sum of $139,436, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of six structures on the Coast Fork Willamette River-Divide Unit on Pacific Highway in Lane County: The Commission elects to accept the bid of Tom Lillebo, Reedsport, in the sum of $153,472.50, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of North Fork Yachats River Bridge in Lincoln County: The Commission elects to accept the bid of Orlando C. Bennard, Portland, in the sum of $21,125, and directs the State Highway Engineer to award the contract to said bidder as soon as approval of Lincoln County and the Bureau of Public Roads is received and the sum of $4,750 is deposited by the County.

"Construction of McDowell Creek Bridge in Linn County: As this is a county project, all bids are referred to Linn County.

"Construction of Gervais Road Undercrossing over the Portland-Salem Expressway in Marion County: The Commission awarded the contract to the low bidder, Tom Lillebo, Reedsport, at his bid price of $102,440.

"Construction of 53rd Avenue Undercrossing over the T. H. Banfield Expressway in Multnomah County: The Commission awarded the contract to the low bidder, Gibbons & Reed Co., Portland, at their bid price of $51,401.

"Oneonta Embankment and Riprap Repair Project on the Columbia River Highway near Multnomah Falls in Multnomah County: The Commission awarded the contract to Hutton-Kalkhoven, Portland, at their bid price of $7,125. Identical bids for this job were submitted by O & K Construction

Company, Gresham, and Hutton-Kalkhoven Company. The award of the contract was decided by the toss of a coin by a disinterested party, Mr. Lee Shannon, Portland.

"Grading and topping of Forest Boundary-Meadow Brook Section of the Ukiah-Hilgard Highway in Union County: The Commission elects to accept the bid of Vernie Jarl, Gresham, in the sum of $101,650 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Big Eddy-Dillon Guard Rail Project on the Columbia River Highway about five miles east of The Dalles in Wasco County: The Commission awarded the contract to the low bidder, Wulfert Company, Inc., San Leandro, California, at their bid price of $41,136.40.

"Roadside improvement on the Boones Ferry Road-Willamette River Unit, Barbur Boulevard-White School Section of the Portland-Salem Expressway in Washington and Clackamas Counties: The Commission awarded the contract to the low bidder, Portland Construction Company, Portland, at their bid price of $23,996.11."

The Commission approved and signed agreements, etc., as follows:

"Indentures of Access" for the following properties:

a. Priday property on Sherman Junction-Willowdale Section of the The Dalles-California Highway, Wasco County.

b. Verley property on Clatskanie-Delena Section of Columbia River Highway, Columbia County.

c. Wood property on Clatskanie-Delena Section of Columbia River Highway, Columbia County.

d. Carlson property on Clatskanie-Delena Section of Columbia River Highway, Columbia County.

e. Walker property on Clatskanie-Delena Section of Columbia River Highway, Columbia County.

"Bargain and Sale Deed" re deeding to Klamath County 0.02 acre on Klamath County Section of Klamath Falls-Lakeview Highway to be used for county road purposes.

"Grant of Easement" re granting non-exclusive road easement to Jens Jorgensen across state-owned property near Shingle House Slough on Coos Bay-Coquille Section of Oregon Coast Highway, Coos County.

"Partial Release of Easement" partially releasing easement secured by State in 1928 from Stout Lumber Company on Douglas County Line-Hauser Section of Oregon Coast Highway, Coos County.

"Bargain and Sale Deed" re auction sale to Mr. Louis Loeffler of 3.24 acres of excess right of way on Blackwell Hill-Seven Oaks Section of Pacific Highway, Jackson County.

"Grant of Easement" to Multnomah County covering 21,000 sq. ft. of excess property on Sauvie Island Bridge Section of Columbia River Highway, Multnomah County.

"Modification Agreement" re approval of Bureau of Public Roads Modification of Project Agreement between States of Oregon and Idaho covering construction of Weiser Bridge over Snake River and providing for increase of approximately $7,000 in Government allocation to Idaho.

"Agreement" with U.S. Bureau of Public Roads covering snow removal on Oregon Forest Highway Project 46-C4, D3, E2, Cascade Lakes.

"Agreement" with Oregon-Washington Railroad & Navigation Company and Union Pacific Railroad Company covering installation of automatic electric signals on the Baker-Pine Creek-Wingville Road near Baker.

"Agreement" with O. W. R. & N. Company (U. P. Company, lessee) re installation of drainage facilities across the railroad right of way on revised location of Columbia River Highway near west city limits of Hood River.

"Letter" to Bureau of Public Roads requesting certain changes in Federal-aid primary system in the Klamath Falls area.

"Permit" re occupancy of buildings at Detroit. State to pay one-half of cost of electric power to operate Tumble Creek water pump.

"Finance & Maintenance Agreements" with Lincoln County covering the Yachats River (North Fork) bridge on the Yachats River Road, FAS 152.

"Agreement" with the City of Willamina in connection with the Willamina ("D" Street East) Section of the Salmon River Highway.

"Abandonment Agreement" with Clackamas County covering portions of the Beaverton-Aurora Secondary Highway in connection with the construction of the Portland-Salem Expressway.

"Abandonment Agreement" with Coos County covering the Tarheel Creek Section of the Cape Arago Secondary Highway.

"Grant of Access" granting a pedestrian access to John and Gladys Brazil property on Mt. Vernon-John Day Section of John Day Highway, Grant County.

"Agreement" with the City of Klamath Falls covering the necessary paving, channelization and signal installation for the one-way couplet on Sixth and Seventh and Commercial Streets.

"Agreement" with California Oregon Power Company relative to moving of power poles on the Booth Ranch Unit, Shady-Canyonville Section of Pacific Highway, including permit to establish the lines on a new location on State property.

"Consent" to vacation of a portion of right of way of the Cascade Highway which was eliminated from said highway and abandoned to Clackamas County.

"Agreement" with Tulana Farms, Inc., re construction of overhead connecting gallery containing a conveyor belt and walkway, over and across the The Dalles-California Highway south of Worden, Oregon.

The meeting adjourned at 4:15 p.m. to reconvene in the same room at 9:00 a.m. on the following day.

Portland, Oregon
September 24, 1954

The meeting of the State Highway Commission reconvened at 9:00 a.m. in the Green Room of the Imperial Hotel with the following persons present and participating:

Ben R. Chandler, Chairman
Chas. H. Reynolds, Commissioner
R. H. Baldock, State Highway Engineer
W. C. Williams, Deputy State Highway Engineer
W. W. Stiffler, Assistant State Highway Engineer
C. W. Enfield, Chief Counsel
R. L May, Jr., Assistant Counsel
R. L. Porter, Right of Way Engineer
C. H. Armstrong, Parks Superintendent
C. H. Maison, Auditor
H. B. Glaisyer, Secretary

Commissioner M. K. McIver was excused.

Bids as follows for highway construction were opened and read aloud by the Secretary who then announced that the Commission would award contracts at 3:00 p.m. in the same room.

CLACKAMAS COUNTY
DICKEY BRIDGE

A. H. Saxton & Son, Corvallis $42,880.00

Dickey Bridge (cont.)

P. S. Lord Mechanical Contractors & Columbia Empire Constructors, Portland	$43,760.00
West Coast Steel Works, Portland	43,912.00
Whittenburg Construction Co. & Q. L. Rufener, Beaverton	46,100.00
Hamilton & Thoms, Eugene	47,855.00
L. B. Read, Portland	48,850.00
Lee Hoffman, Beaverton	49,069.00
Hannan Brothers Company, Portland	49,100.00
C. J. Eldon, Portland	51,447.00
General Construction Company, Portland	52,905.75
Babler Brothers, Inc., Portland	54,395.00
George E. Berry, Beaverton	61,200.00

CLACKAMAS COUNTY
MILK CREEK BRIDGE

P. S. Lord Mechanical Contractors & Columbia Empire Constructors, Portland	60,480.00

WILLAMINA ("D" STREET-EAST) GRADING AND PAVING PROJECT

W. G. Wright, McMinnville	$ 26,465.00
Central Paving Company, Independence	27,544.00

---

* Chairman Chandler announced that because of unforeseen right of way difficulties, bids for the Wallowa Lake Lodge-Power House Project will not be reac, but will be returned to the bidders unopened.

Mr. Kenneth Neilsen, Chairman of the Board of County Commissioners of Lane County, and Mr. Robert Maclay, County Commissioner came before the Commission concerning the proposed "Q" Street Highway Route between Eugene and Springfield. Mr. Neilsen recalled the County's offer to take over the Fox Hollow State Secondary Highway if the State will designate the "Q" Street Route a State Secondary Highway from Eugene to a connection with "Q" Street at Mill Street in Springfield. He urged the Commission to extend the project to a junction with the Mohawk County Road at 19th Street, and he also asked the Commission to "protect" the right of

way for such extension, advising that the County will "protect" the right of way for a further extension from 19th Street to a connection with the McKenzie Highway. He called attention to plans of several manufacturing concerns to build in the area east of Springfield, and he gave as his feeling in view thereof that the right of way should be protected here as well as west of Springfield. As a result of discussion, the Commission instructed the Engineer to prepare a detailed report on the costs involved to purchase right of way and to construct the extension requested by Mr. Neilsen.

Senator Dean Bryson, Chairman, and Mr. Lawrence F. Barber, members of the Legislative Interim Committee on Columbia River Parks and Recreational Facilities, came before the Commission regarding the establishment of State Marine Parks. Senator Bryson stated that the purpose of their Committee which was appointed by the 1953 Legislature, is to investigate the development of recreational facilities in the Columbia River Gorge. He called attention to the need for a place where boats can be launched, and he mentioned the program of the State of Washington, which spends $250,000 annually for the development of Marine Parks. He urged the Commission to develop a good marine park close to a large community such as Portland, and he suggested particularly such a facility at Rooster Rock on the Columbia River Highway would be ideal. Senator Bryson called attention to marine park developments in Wisconsin and along the Mississippi River, and he gave as their opinion that any development at Rooster Rock should include a boat launching ramp, dredging of the old channel, construction of a float, and rest room facilities. Chairman Chandler stated that the Commission is now working on plans for park development at Rooster Rock, but is confronted with the serious problem of getting traffic on and off the Columbia River Highway. To properly safeguard traffic, he said, will require construction of an interchange, which will be a costly undertaking, and the Commission is reluctant to approve a grade connection. He added that the Commission recognizes the trend toward boating recreation, but has been forced to defer development at Rooster Rock until funds become available to finance construction of the traffic interchange.

Mrs. D. C. Burkes, owner of property situate near Boiler Bay on the Oregon Coast Highway, and Mr. Thornton T. Munger, member of the Recreational Resources Committee, of the Portland Chamber of Commerce, were present and urged the Commission to acquire the Burke's property about one mile north of Whale Cove, for park purposes. Mrs. Burkes declared that a state park is needed in this area and she urged the Commission to acquire her property now before it is developed privately. Mr. Munger stated that the Recreational Resources Committee feels that this and adjoining property should be purchased by the State for park development, so as to keep it from being commercialized. Chairman Chandler commented that the Parks Superintendent had submitted a report on this property, which indicates that it is not well suited for park development; however, the Commission will ask the Parks Superintendent to re-examine the property, and then will take final action.

A delegation from Baker County headed by County Judge Lloyd Rea, came before the Commission to urge further development of Route 86 (Baker-Homestead Highway) east of Baker, and the Anthony Lakes Secondary Highway north and west of Baker. Others in the group were R. M. Phipps, and Gill C. Wright, County Commissioners; State Senator Roger Loennig, Haines; Ralph McCullough, W. O. Christensen, Robert Probstel, ranchers from Haines; Stan Ingram, businessman, Haines; Ed Coles, livestock man and representative of Elkhorn Grange, Haines, and Byron C. Brinton, publisher and vice-president of Commercial Club, Baker. Judge Rea acted as spokesman and introduced the members of the delegation. He stated that the delegation has two problems in mind; one being the completion of Highway 86 into Richland and the other being improvement of the Haines-Anthony Lakes Secondary Highway. The County Court, he said, recommends approval of both projects. Mr. Brinton pointed out that 20% of the County's valuation lies in the area serviced by the Haines-Anthony Lakes Road and that nearly 200 school children are transported daily over this road by bus, and that a large amount of farm produce is hauled over it. He presented numerous letters from Baker County organizations in support of their request, and pictures illustrating existing conditions. M. M. McCullough called attention to the large number of beef cattle raised in this area which must be hauled to market over this highway. Attention was also called to the volume of log hauling and to the use of the Anthony Lakes by tourists and fishermen. Senator Loennig stated that the road is obsolete, is rough and is not passable at all times of the year. He declared that the improvement is long overdue.

Commissioner Reynolds stated that funds are not available now to finance these improvements, but the requests will be carefully investigated and given all possible consideration in the formulation of future highway programs.

Mr. and Mrs. Robert F. Woodley, Mitchell, came before the Commission regarding access to their motel on the Ochoco Highway near the town of Mitchell. Mr. Woodley stated that he had talked this matter over with a State Highway employee when he started building the motel, and on the advice of such employee, he discussed the matter further with the Maintenance Superintendent at Redmond who told him that so far as he knew there were no access restrictions in that vicinity. He further stated that he did not know that access was restricted until he received a letter a few days ago from the Commission's Chief Counsel advising him that he was using the access illegally. The motel, he stated, consists of six units and they do not plan to expand it. Chairman Chandler stated that the Commission is familiar with the circumstances and, inasmuch as Mr. Woodley had acted in good faith, that the Commission will grant him access to and from the motel as now constructed but for no other commercial purpose, and with the understanding that the Woodleys will not operate a service station on their premises. A permit incorporating these provisions, he stated, will be prepared. The Woodleys gladly accepted the Commission's decision.

Mr. Arthur Knox, Mr. E. L. Morton and Mr. Karl Ostenberg, members of the Brookings Chamber of Commerce, and Mr. Arthur Waud, manager of the Oregon Coast Association, Tillamook, came before the Com-

mission to offer their cooperation in the further improvement of the Oregon Coast Highway through Curry County. Mr. Ross pointed out that the highway is the means of livelihood for many people in Brookings, and he asked the Commission to continue the highway improvement starting at the California line and proceeding northerly. The people of Brookings, he stated, will do everything they can to facilitate such construction. Mr. Morton inquired if the Commission has ever considered construction of a road up the Chetco River to Grants Pass so as to shorten the distance to Grants Pass for residents of southern Curry County who now have to go into California in order to reach the valley area in that vicinity. He pointed out that about 6,500 people live in the Brookings area and that the only means of access they have is by highway as there is no railroad available. Mr. Waud stated that his Association endorses the request of the Brookings people because of its interest in getting tourists into Oregon. He also commented that many of these tourists complain of the crooked road on the Carpenterville Hill about 15 miles north of Brookings.

Chairman Chandler stated that the number one project in Curry County is reconstruction of the Oregon Coast Highway, and that consideration of the Chetco River Road must wait until the Coast Highway is brought up to standard.

The meeting recessed for luncheon at 11:45 a.m and reconvened at 2:00 p.m. with the same persons present and participating.

A delegation from McMinnville and Sheridan came before the Commission concerning designation of a one-way couplet for the Pacific Highway West (US99W) through the city of McMinnville. The following people composed the group: P. N. Bladine, President, McMinnville Chamber of Commerce; James Stanard, Chairman, Roads and Highways Committee, McMinnville Chamber of Commerce; Clifford Elliott, Secretary, McMinnville Chamber of Commerce, Milo Wold, Member of McMinnville City Council ; Mr. and Mrs. H. A. Kerr and Mrs. S. E. Carnes, residents of McMinnville; and R. I. Merrifield, Sheridan. Mr. Bladine who headed the group stated briefly that construction of the couplet is needed to facilitate movement of traffic through the city. Mr. Stanard stated that in 1952 the City Council passed a resolution not to grant building permits along Adams Street on the proposed couplet route, and that no such permits have been issued since then,although people question the advisability of holding up permits longer. He urged the Commission to acquire the right of way for the couplet at an early date.

Chairman Chandler stated that the Commission is familiar with the project and he recalled that about three years ago the City had offered to secure options for necessary right of way but to date no report has been received from the City. He further stated that the engineering investigation that was conducted indicated that the one-way couplet route through the City will be necessary even if the proposed bypass route around McMinnville is built. Mr. Elliott stated that a majority of the options had been secured as agreed but were nullified by a change in the Commission's plans. The

Right of Way Engineer explained that due to a change in location it would be necessary to secure new options. He estimated that the change in location will save about $50,000 in the cost of right of way. Mr. Stanard then inquired as to what the Commission's long-range plan is for the Pacific Highway West and the Salmon River Highway (Route 18). Chairman Chandler stated that improvement is planned from the Tualatin River to a point near Six Corners and for a bridge at Newberg and plans are being formulated for a by-pass around Sheridan and Willamina. The Commission, he stated, feels that something should be done in McMinnville, and possibly two or three projects are needed, however, all three Commissioners must be present when action is taken. Mr. Stanard then inquired if the Commission had ever considered routing the Salmon River Highway on the westerly side of the river through brush and stump land thereby not disturbing the good farm land to the east of the river. He was informed that the Commission has received no suggestions with regard thereto and that it will be up to the Engineer to study such routing.

The Chief Counsel reported a proposed settlement in the case of State vs. Koblenzar, et al., L 2166. In that case the State is seeking to acquire approximately 7.2 acres of real property, a portion of which is for right of way for the Euchre Creek-Wedderburn Section of the Oregon Coast Highway, and the remaining portion excess taking. The property to be acquired is improved with 14 small cabins, a cottage, store, garage, and other miscellaneous buildings. The State originally offered $32,000 for the property based upon the appraisal of Mr. Elmer Kolberg, of Portland, in that amount. Mr. James Rodman, Jr., of Eugene, has appraised the property since the original offer was made in the amount of $35,560. Possession of the property has been taken by the State and approximately $1,000 interest has accrued as of this date. Negotiations have resulted in a proposed settlement in the amount of $38,000, plus the allowance of one point of access for residential use and transportation to market of timber and agricultural products only, with the State to be under no obligation to construct the approach. The Chief Counsel recommended that this proposed settlement be accepted by the Highway Commission, and the Commission approved the recommendation.

The Commission gave attention to the selection of projects for fiscal year 1955 Federal-aid funds totalling $12,720,000. The Engineer submitted a list of eligible projects as were tentatively approved by the Commission at its meeting in The Dalles on August 14, 1954. As a result of careful consideration, the Commission approved the projects tentatively selected on August 14 as the definite program for the funds under discussion. (See program in minutes for August 14 meeting.)

The Engineer reported discovery of an error in the information given the Commission on the previous day with respect to the estimated cost to construct the Booth Ranch-Myrtle Creek Unit, Shady-Canyonville Section of the Pacific Highway, Douglas County. He recalled that the low bid submitted for this project was that of Kuckenberg Construction Company at $620,567.50 which bid was rejected by the Commission as being too high. A subsequent review of the estimate, he said, revealed the error, and when

the bid was compared with the corrected estimate, it was found to be satisfactory. He recommended,in view of the circumstances, that the Commission rescind the action taken on the previous day, rejecting the bid of Kuckenberg Construction Company, and now accept the offer of that company to do the work, the actual award of contract to be deferred pending approval of the award by the Bureau of Public Roads. The Commission adopted the recommendation and so ordered.

The Commission discussed with the Engineer the bids received during the morning session for highway construction, and at 3:00 p.m., Commissioner Reynolds publicly announced the Commission's decision with respect to each project as follows, the Commission's decisions being without dissenting vote:

"At the meeting yesterday, the Commission received bids for the Booth Ranch-Myrtle Creek Unit, Shady-Canyonville Section of Pacific Highway in Douglas County with Kuckenberg Construction Company, Portland, being the low bidder at $620,567.50. A comparison of this bid with the Engineer's estimate of the cost to construct the project indicated that the bid was too high, so the Commission rejected it. Subsequently an error was discovered in the Engineer's estimate and on the basis of the corrected amount, it has been determined that the Kuckenberg Construction Company's bid is within the Engineer's estimated cost. Accordingly the Commission has rescinded the action taken on the previous day, and now elects to accept the bid of Kuckenberg Construction Company in the sum of $620,567.50, and the State Highway Engineer is directed to award the contract to said bidder as soon as approval of the Bureau of Public Roads is received.

"Construction of Dickey Bridge over the Molalla River on a county road in Clackamas County: A. H. Saxton & Son, Corvallis, submitted the low bid for this job at $42,880. As this is a county project, all bids are being referred to Clackamas County Court for further handling.

"Construction of Milk Creek Bridge on Market Road in Clackamas County: P. S. Lord Mechanical Contractors & Columbia Empire Constructors, Portland, submitted the low bid for this work at $60,480. As this is a county project, all bids are being referred to Clackamas County Court for further handling.

"Construction of Barton Bridge over the Clackamas River in Clackamas County: C. J. Eldon, Portland, submitted the low bid for this work at $31,180. As this is a county project, all bids are being referred to Clackamas County Court for further handling.

"Grading and paving on the Tarheel Creek Section of the Cape Arago Highway in Coos County: The Commission elects to accept the bid of Coos Bay Dredging Co., Inc., Coos Bay, in the sum of $44,331.40, and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired.

"Construction of Albany Car Storage Shed in Linn County: The Commission

awarded the contract to the low bidder, Starr Builders, Lebanon, at their bid price of $3,558.64.

"Second Street Connection Hood River Roadside Improvement Project on the Columbia River Highway in Hood River County: The Commission awarded the contract to the low bidder, Willamette Irrigation Co., Portland, at their bid price of $12,185.25.

"Grading and paving on the Battle Creek Junction-Illahee Unit, Battle Creek Junction-Jefferson Junction Section of the Pacific Highway East in Marion County: The Commission elects to accept the bid of Roy L. Houck, Salem, in the sum of $341,441.40 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Construction of four structures on the Gervais-Hayesville Unit of the Portland-Salem Expressway in Marion County. The Commission awarded the contract to the low bidder, Hamilton & Thoms, Eugene, at their bid price of $157,410

"Construction of a concrete bridge and rock base and paving on the Union Avenue-Swift Road Junction Section north of Portland in Multnomah County: The Commission awarded the contract to the low bidder, Lee Hoffman, Beaverton, at his bid price of $172,921.50

"Installation of Vista House Heating System on the old Columbia River Highway in Multnomah County. The Commission awarded the contract to the low bidder, Lord Bros., Contractors, Portland, at their bid price of $3,940.

"Construction of two small latrines and extension of the overnight parking facilities at Cape Lookout Park in Tillamook County: The Commission awarded the contract to the low bidder, Lloyd G. Sperling, Tillamook, at his bid price of $16,668.70

"Grading and oiling, construction of bridge and furnishing crushed gravel in stockpiles on the Wallowa Lake Lodge-Power House Section of the Joseph-Wallowa Lake Highway in Wallowa County. All bids submitted were ordered returned unopened

"Grading and paving on the Beaverton-Multnomah County Line Section of the Beaverton-Hillsdale Highway in Washington County: The Commission elects to accept the bid of Porter W. Yett, Portland, in the sum of $294,286 and the State Highway Engineer is directed to award the contract to said bidder as soon as necessary right of way is acquired and approval of the Bureau of Public Roads is received.

"Boones Ferry Road-Willamette River Guard Rail Project, Barbur Boulevard-White School Section on the Portland-Salem Expressway in Washington and Clackamas Counties. The Commission awarded the contract to the low bidder, Vern Hoagin, Beaverton, at his bid price of $12,032.

"Willamina ("D" Street East) Grading and paving project on the Salmon River Highway in Yamhill County: The Commission awarded the contract to the low bidder, W. G. Wright, McMinnville, at his bid price of $26,465."

Consideration was given by the Commission to adoption of a budget estimate for the 1955-57 biennium, same to be submitted to the Department of Finance and Administration. The Engineer presented a budget as prepared by the Auditor and explained details, briefly pointing out that the total amount of the budget is about $25,000,000 less than that for the preceding biennium due to the fact that bond monies for highway construction have been exhausted. He also pointed out that the Budget provides for an increase of slightly more than one hundred employees to take care of the contemplated shift to a 40-hour work week for maintenance and some other employees. The Auditor explained further details. The Commission approved the Budget as presented. In this connection, the Auditor was instructed to submit an annual work Budget to the Commission at the next meeting so as to give the Commission ample time to study it before acting on it.

The Commission discussed briefly proposed legislation to authorize a 40-hour work week for highway department employees. The Chief Counsel was instructed to write the Commission on the subject, giving his ideas, and to furnish the Commission a copy of the legislation that is proposed to effect the desires of the Commission as previously expressed.

Commissioner Reynolds inquired if difficulties have been encountered in connection with the proposed Emigrant Street Underpass in the City of Pendleton. The Engineer stated that he intends to review the plans in the near future but it now appears that an overpass may be more feasible than construction of an underpass.

The Commission discussed with the Engineer and the Right of Way Engineer the status of projects on which bids are to be received at the October meeting.

Mr. F. E. Andrews, Acting Division Engineer of the Bureau of Public Roads, was present with reference to the projects to be considered for the 1956 Forest Highway Program. To facilitate study of such projects, the Engineer suggested preparation of a list of those eligible for the funds available, same to be submitted to the Bureau of Public Roads and to the Commission for study, and that action be taken on them at a joint meeting to be held in December for final approval. The suggestion was approved by the Commission, and it was so ordered.

Commissioner Reynolds mentioned the attitude of the Clackamas County Court with respect to the closing of a county road in connection with the proposed Overcrossing of the Southern Pacific Railroad on the Clackamas Secondary Highway near the town of Clackamas. He recalled that the County Judge had already indicated that he favored the closing of the existing grade crossing and that Commissioner Jones stated in a letter that he consented to the closure, although reluctantly, whereas the other

county court member still is opposed to closing of the crossing. The Engineer stated that it has come to his attention that the Safeway Store interests have changed their attitude and now indicate that they will offer no objection to closing the crossing in question if the County will construct a short road for company benefit. It was his recommendation that the Commission take no further action in the matter until a letter has been received from the county court as a body giving its consent to the closure. The Commission accepted the recommendation.

Chairman Chandler mentioned the matter of a proposed crosswalk on South "A" Street in Springfield which had been brought to his attention. He inquired as to what had been done about it. W. C. Williams, Deputy Highway Engineer, stated that the matter had been referred to the Traffic Engineer for investigation, and that a report on the subject will be rendered when factual information has been assembled.

There being no further business to come before the Commission, the meeting adjourned at 3:45 p.m.

State Highway Engineer

Chairman

Secretary

Commissioner

Minutes of

September 23 and 24, 1954

EXHIBIT "A"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, in connection with the future improvement of the highway herein designated, and for the convenience and benefit of the public, it is and has been necessary to acquire property for rights of way, quarry sites, gravel or other material sites, sites for the storage of materials, and properties for other purposes authorized by statute as hereinafter more definitely set forth, and

WHEREAS, as a result of negotiations carried on with the owners of the property required, options have been obtained, which options have been considered by the Commission outlining the bases of settlement which have been agreed upon, and

WHEREAS, it is the judgment of the Commission that the said options should be approved and accepted and/or the said reports be declared acceptable to the State Highway Commission as bases of settlement for the properties involved,and that the acquisition of the properties should be completed.

NOW THEREFORE BE IT RESOLVED that the following described properties are hereby declared to be necessary for State highway, park, and other uses under the jurisdiction of the Commission, and that the several options or bases of settlement hereinafter enumerated be, and the same hereby are approved and accepted, and that the attorney for the Commission be, and he hereby is, instructed to complete the acquisition of the said properties and to take title thereto in the name of the State of Oregon, by and through its State Highway Commission. The said properties hereby ordered and authorized to be acquired are as follows:

OLDS FERRY-ONTARIO SECTION-OLD OREGON TRAIL HIGHWAY

22170 Idaho Power Company (Landon)
Right of Way
Option expires March 8, 1955

4.25 acres in exchange for
3.66 acres

EXHIBIT "A" (cont)

OLDS FERRY-ONTARIO SECTION-OLD OREGON TRAIL HIGHWAY (cont)

22170 Idaho Power Company (cont)

Allowance to move power $28,719.00
poles etc.

Amount to be paid owners-chrg to Right of Way $28,719.00

THINGS TO BE DONE BY THE STATE

State shall give permit to erect power poles on West 50 feet from Sta. 1156+50 to 1166+50, with a right of ingress and egress at the South end. Construct road approach on each side of hwy. where Thayer Road crosses hwy. at Sta. 1173+50. Approaches to be barricaded as State may elect and when used Grantor shall replace barricade. Grantor shall use approaches only in crossing the hwy. under a special permit issued by SHC for moving overweight and/or oversize equipment across hwy. Provide a removable panel, 100 feet in length, in the R/W fence on East side of hwy. near intersection of fence with North R/W line of Thayer Road.

Convey to the optionors above that 3.66 acres lying in Sections 28 and 33, Township 17 South, Range 47 East, W.M., as an exchange part of the settlement, upon the grounds and for the reason that the said property, in the opinion of the commission, is no longer needed, required or useful for highway purposes, and that the value of the property to be acquired is not less than the value of the property to be conveyed.

EXHIBIT "B"

Minutes of September 23 and 24, 1954

RESOLUTION

WHEREAS, the Engineer has reported that the following State Highway Commission contracts for the construction of State Highway projects have been completed according to the terms and provisions of said contracts and that said jobs are now ready for acceptance:

"Contract No. 3648, with R. A. Heintz Construction Co. for grading and structures on the Boones Ferry Road-Willamette River Unit, Barbur Boulevard-White School Section of the West Portland-Hubbard Highway in Washington and Clackamas Counties, completed May 28, 1954.

"Contract No. 3680, with Roy L. Houck & Son for grading on the Hayesville School-State Street Unit, Salem By-Pass Section of the Pacific Highway East in Marion County, completed August 10, 1954.

"Contract No. 3817, with Carl M. Halvorson, Inc. for construction of the Bullards Ferry Bridge over Coquille River in Coos County, completed September 15, 1954.

"Contract No. 3820, with R & M Construction Co. for construction of The Elkton-Sutherlin Highway Overcrossing and Deady Interchange on the Pacific Highway in Douglas County, completed July 23, 1954.

"Contract No. 3836, with Roy L. Houck & Son for grading and paving on the White School Junction Unit, Barbur Boulevard-White School Section of the West Portland-Hubbard Highway in Marion County, completed July 22, 1954.

"Contract No. 3839, with Inter City Sand & Gravel Co. for grading and paving on the Springfield Section of the McKenzie Highway in Lane County, completed July 30, 1954.

"Contract No. 3844, with Barney B. Helser for furnishing crushed material in stockpiles on the Weston-Summerville Section of the Weston-Elgin Highway in Umatilla and Union Counties completed October 28, 1953.

"Contract No. 3851, with United Builders, Inc., for construction of the 92nd Avenue Overcrossing on the T. H. Banfield Expressway in Multnomah County, completed September 15, 1954.

"Contract No. 3878, with Carl M. Halvorson, Inc. for construction of the Ceregnino Overcrossing on the T. H. Banfield Expressway in Multnomah County, completed August 20, 1954.
